Comments:

**III. Agenda**

**1. 800 Canal St**

Application: New entrance doors at Canal St elevation at a Contributing rated, commercial building.

Motion: The ARC recommended conceptual approval of the proposal with the details to be worked out at the staff level. The ARC stated that the transom should have vertical muntins that match the new doors. A trim piece should be used to break up the wider transom bar.

By: Randy Hutchison

Comments:

2. 329 N Diamond

Application: Review of updated proposed primary façade materials at a previously approved renovation of a Non-Contributing rated two-story warehouse building for conversion to hotel use.

Motion: The ARC agreed the updated proposed unglazed terracotta brick and its fluted surface detailing are appropriate for installation at the primary façade as shown. However, the ARC noted that the light sample color was too close to the stucco color, and the new bricks must utilize the Antique Satin seal, so they appear darker in color. Attached are the HDLC approved documents for this material change, so you may now proceed with purchasing and installing the new bricks.
