CHAPTER: 1.3

TITLE: USE OF FORCE

EFFECTIVE: 12/6/15

REVISED: Replaces Policy/Procedure 300

PURPOSE:

This Chapter governs the use of force by NOPD police officers.

The Use of Force Chapter applies to all commissioned members of the NOPD.

DEFINITIONS

Active Resistance—Resistance exhibited by a suspect that is between passive resistance and aggressive resistance (e.g., attempts to leave the scene, flee, hide from detection, or pull away from the officer's grasp). Verbal statements, bracing, or tensing alone do not constitute active resistance.

Aggravated Resistance—When a subject's actions create an objectively reasonable perception on the part of the officer that the officer or another person is subject to imminent death or serious physical injury as a result of the circumstances and/or nature of an attack. Aggravated resistance represents the least encountered but most serious threat to the safety of law enforcement personnel or another person.

Aggressive Resistance—Is a subject's attempt to attack or an actual attack of an officer. Exhibiting aggressive behavior (e.g., lunging toward the officer, striking the officer with hands, fists, kicks or any instrument that may be perceived as a weapon such as a knife or stick) are examples of aggressive resistance. Neither passive nor active resistance, including fleeing, pulling away, verbal statements, bracing, or tensing, constitute aggressive resistance.

Anatomical Compliance Technique—The act of applying pressure to vulnerable areas, weak points or pressure points of the body. This technique is used to cause immediate compliance by a subject who poses a threat.

Apprehension—The arrest, capture or taking into custody of a person.

Arrest—The taking of one person into custody by another. To constitute arrest there must be an actual restraint of the person. The restraint may be imposed by force or may result from the submission of the person arrested to the custody of the one arresting him. (La. C.Cr. P. Art. 201).

Canine Apprehension—Where articulated facts demonstrate that a canine played a clear role in the capture of a person. The mere presence of a canine at the scene of an arrest shall not count as a canine apprehension.

Canine Deployment—Any situation, except one involving an on-leash article search only, in which a canine is brought to the scene and used in an attempt to locate or apprehend a suspect, whether or not a suspect actually is located or apprehended. This includes all instances in which a canine is removed from the police car; or when a suspect gives up immediately after an announcement is made that if they do not surrender, the canine will be released; or when a canine search is conducted in an effort to apprehend a suspect.

Compliant—Cooperative obedience in response to lawful requests or directions from law enforcement personnel.

Critical Firearm Discharge—A discharge of a firearm by an NOPD officer, including discharges when no person or animal is struck. Range and training firings, humane destruction of animals, and off-duty hunting discharges when no person is struck are not critical firearms discharges.

Conducted Electrical Weapon (CEW)—A weapon designed primarily to discharge electrical impulses into a subject that will cause involuntary muscle contractions and override the subject's voluntary motor responses.

CEW Application—The contact and delivery of electrical impulse to a subject with a CEW.

Deadly Force/Lethal Force—Any force likely to cause death or serious physical injury. The use of a firearm (discharge) is considered deadly force. Neck holds and strikes to the head, neck or throat with a hard object are considered lethal force.

Firearm—A pistol, revolver, shotgun, carbine, or machine gun. Any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive. (Gun Control Act of 1960, Title 18, US, chapter 44, Title1)

Force Statement—A written statement required as part of the departmental Use of Force Report (in Blue Team application and Form #114). The Force Statement is completed by an involved officer or witness officer documenting a use of force. A Force Statement is not considered a compelled statement under *Garrity v. New Jersey* or under analogous State law. The statement can be considered compelled only when the officer is ordered to provide a statement after refusing to do so on the grounds that the officer has a reasonable, good faith belief that such statement may incriminate himself/herself.

Force Tracking Number—A unique number assigned by FIT to each reportable use of force event to facilitate awareness event and tracking of a use of force investigation. The number includes the letters "FTN" for Force Tracking Number, followed by the year the force event occurred followed by a three digit sequential number starting with 001 for the first recorded allegation of the year. FTN 2014-001 indicates the first reportable use of force event in 2014.

Force Transition—Force transition is the movement, escalation/de-escalation, from the application of one force type to another in conjunction with the "objectively reasonable" standard.

Force Investigation Team (FIT)—The NOPD unit tasked with conducting investigations of serious uses of force; uses of force indicating apparent criminal conduct by an officer; uses of force by NOPD personnel of a rank higher than sergeant; and uses of force reassigned to FIT by the Superintendent, the Superintendent's designee, or PIB. FIT also shall investigate all instances in which an individual has died while in, or as an apparent result of being in, the custody of NOPD.

Imminent Threat—An immediately impending danger that must be instantly met.

Impact Weapon—Any solid or semi-solid object used by an officer as a method of gaining control of a subject. Absent exigent circumstances, officers shall not use non-traditional weapons/hard objects, such as firearms or radios, as impact weapons.

In-Custody Death—An incident in which an individual died while in, or as an apparent result of being in, the custody of NOPD.

Less-Lethal Force—Force employed that is neither likely nor intended to cause death or serious injury.

Less-Lethal Weapon—An apprehension or restraint tool that, when used as designed and intended, is less likely to cause death or serious injury than a conventional lethal weapon such as a firearm.

Neck Hold—One of the following types of holds: (1) arm-bar control hold, a hold that inhibits breathing by compression of the airway in the neck; (2) carotid restraint hold, a hold that inhibits blood flow by compression of the blood vessels in the neck; (3) lateral vascular neck constraint; or (4) a hold with a knee or other object to the back of a prone subject's neck. A neck hold is considered lethal force.

Passive Resistance—Behavior that is unresponsive to police verbal communication or direction (e.g., ignoring or disregarding police attempts at verbal communication or control; going limp; or failing to physically respond or move) and verbal resistance (e.g., verbally rejecting police verbal communication or direction; telling the officer that he or she will not comply with police direction, to leave alone, or not bother him or her). Bracing, tensing, linking arms, or verbally signaling an intention to avoid or prevent being taken into custody constitutes passive resistance. Passive resistance, including verbal statements, bracing, or tensing alone does not constitute active resistance

Probable Cause—The facts and circumstances, known to the officer at the time, which would justify a reasonable person in believing that the suspect committed or was committing an offense.

Reasonable Force—Force that is objectively reasonable under the circumstances. The minimum amount of force necessary to effect an arrest or protect the officer or other person.

Reasonably Necessary—Force is reasonably necessary when the facts and circumstances, including the reasonable inferences drawn therefrom, known to an officer at the time he or she uses force, would cause an objectively reasonable officer to believe that force is appropriate.

Reportable Use of Force—Any force above hand control or escort techniques applied for the purposes of handcuffing, or escort techniques that are not used as pressure-point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance. The pointing of a firearm or CEW laser at a subject is a reportable use of force.

Seizure (or Detention)—Occurs when an officer's words or actions would convey to a reasonable person that he or she is not free to leave.

Serious Physical Injury—Physical injury that creates a substantial risk of death; causes death or serious and protracted disfigurement; or causes impairment of the function of any bodily organ or limb.

Serious Use of Force—Includes the following:

- All uses of lethal force by an NOPD officer;
- All critical firearm discharges by an NOPD officer;
- All uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization;
- All neck holds;
- All uses of force by an NOPD officer resulting in a loss of consciousness;
- All canine bites;
- More than two applications of an CEW on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive, and;
- Any strike, blow, kick, CEW application or similar use of force against a handcuffed subject

Supervisor—A sworn NOPD employee at the rank of sergeant or above (or anyone acting in those capacities) and non-sworn NOPD members with oversight responsibility for officers.

Use of Force—Physical effort to compel compliance by an unwilling subject above unresisted handcuffing, including pointing a firearm at a person.

Use of Force Continuum—An illustration that provides general guidelines for officers to consider in making critical use of force decisions.

Use of Force Indicating Apparent Criminal Conduct by an Officer—Force that a reasonable and trained supervisor would conclude could result in criminal charges due to the apparent circumstances of the use of force. The level of the force used as compared to the resistance encountered, discrepancies in the use of force as described by the officer and the use of force as evidenced by any resulting injuries, witness statements, or other evidence are examples.

Use of Force Levels—For reporting and investigative purposes, the New Orleans Police Department categorizes use of force by its members into four (4) primary force levels:

LEVEL 1

Level-1 uses of force include pointing a firearm or CEW at a person and hand control or escort techniques (e.g., elbow grip, wrist grip, or shoulder grip) applied as pressure point compliance techniques or that result in injury or complaint of injury. (Note: Hand control or escort techniques applied for the purposes of handcuffing or escorts that are not used as pressure point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance, are not reportable uses of force.)

LEVEL 2

Level-2 uses of force include use of a CEW (including where a CEW is fired at a person but misses); use of an impact weapon to strike a person but where no contact is made; use of a baton for non-striking purposes (e.g., prying limbs, moving or controlling a person); and weaponless defense techniques (e.g., elbow strikes, kicks, leg sweeps, and takedowns).

LEVEL 3

Level-3 uses of force include any strike to the head (except for a strike with an impact weapon); use of impact weapons when contact is made (except to the head), regardless of injury; or the destruction of an animal.

LEVEL 4

Level-4 uses of force include all 'serious uses of force' as listed below:

- All uses of lethal force by an NOPD officer;
- All critical firearm discharges by an NOPD officer;
- All uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization;
- All neck holds;
- All uses of force by an NOPD officer resulting in a loss of consciousness;
- All canine bites;
- More than two applications of a CEW on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive;
- Any strike, blow, kick, CEW application, or similar use of force against a handcuffed subject; and
- Any vehicle pursuit resulting in death, serious physical injury or injuries requiring hospitalization.

Use of Force Report—A written report documenting a supervisor's investigation of a use of force (in Blue Team application and Form #114).

USE OF FORCE POLICY STATEMENT

1. The policy of the New Orleans Police Department is to value and preserve human life when using lawful authority to use force. Therefore, officers of the New Orleans Police Department shall use the minimum amount of force that the objectively reasonable officer would use in light of the circumstances to effectively bring an incident or person under control, while protecting the lives of the member or others. Members are advised that the Department places restrictions on officer use of force that go beyond the restrictions set forth under the Constitution or state law.
2. Officers shall perform their work in a manner that avoids unduly jeopardizing their own safety or the safety of others through the use of poor tactical decisions.
3. When feasible based on the circumstances, officers will use de-escalation techniques, disengagement; area containment; surveillance; waiting out a subject; summoning reinforcements; and/or calling in specialized units such as mental health and crisis resources, in order to reduce the need for force, and increase officer and civilian safety. Moreover, the officers shall de-escalate the amount of force used as the resistance decreases.
4. Any evaluation of reasonableness must allow for the fact that officers must sometimes make split-second decisions about the amount of force that is necessary in a particular situation with limited information and in circumstances that are tense, uncertain and rapidly evolving.
5. While the ultimate objective of every law enforcement encounter is to protect the public, nothing in this Chapter requires an officer to retreat or be exposed to possible physical injury before applying reasonable force. Nevertheless, officers should strive, where

practicable, to first try to de-escalate a situation prior to using force.

USE OF FORCE PRINCIPLES

6. NOPD officers, regardless of the type of force or weapon used, shall abide by the following requirements:
 - Officers shall use verbal advisements, warnings, and persuasion, when possible, before resorting to force.
 - Officers are expected to use sound judgment when making a subjective and independent decision regarding the need and appropriateness of the force to be used.
 - Under no circumstances will an officer use force solely because another officer is using force.
 - Officers will use disengagement; area containment; surveillance; waiting out a subject; summoning reinforcements; and/or calling in specialized units such as mental health professionals or a crisis response team, when feasible, in order to reduce the need for force and increase officer and civilian safety.
 - When possible, officers shall allow individuals time to submit to arrest before force is used.

MEDICAL ATTENTION

7. Immediately following a use of force, officers and supervisors shall inspect and observe subjects for injury or complaints of pain. Officers shall obtain medical assistance for any person who exhibits signs of physical distress, has sustained visible injury, expresses a complaint of injury or continuing pain, or who was rendered unconscious. This may require officers to render emergency first aid within the limits of their individual skills, training and available equipment until professional medical care providers arrive on the scene. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored by the officer involved in the incident or an on-scene assisting officer until medical personnel can assess the individual. NOPD officers shall request medical assistance without delay when a subject has visible injuries or the subject complains of injury.

AUTHORITY TO USE REASONABLE FORCE (Louisiana R.S. 14:20 and R.S. 14:22)

8. Officers may use only necessary and reasonable force:
 - To protect themselves from injury;
 - To protect others from injury;
 - To effect a lawful detention;
 - To effect a lawful arrest; or
 - To conduct a lawful search.
9. A use of force is “necessary” when it is reasonably required, considering the totality of facts and circumstances, to carry out one of the above listed law enforcement objectives.
10. When practicable, officers will identify themselves as peace officers before using force. If it is not already known by the subject to be detained, arrested, or searched, officers should, if reasonable, make clear their intent to detain, arrest or search the subject.

11. Officers shall not draw or exhibit a firearm unless the circumstances surrounding the incident create an objectively reasonable belief that a situation may escalate to the point at which lethal force would be authorized. Once an officer determines that the use of deadly force is no longer likely, the officer shall re-holster the weapon.
12. Officers shall not use force to attempt to effect compliance with a command that is unlawful. Any use of force by an officer to subdue an individual resisting arrest or detention is unreasonable when the initial arrest or detention of the individual was unlawful. **(See La. C. Cr. P. 220)**

DEADLY FORCE

13. **Deadly/Lethal force shall be used only when:**
 - There is an imminent danger of death or serious physical injury to the officer or another person; or
 - To prevent the escape of a fleeing subject if there is probable cause to believe:
 - The subject has committed a felony involving the infliction or threatened infliction of serious bodily injury or death; and
 - The escape of the subject would pose an imminent danger of death or serious bodily injury to the officer or to another person.
14. Officers are not authorized to fire their firearms in order to subdue an escaping suspect who presents no imminent threat of death or serious injury.
15. Deadly Force may never be used for the protection of property.

DETERMINING THE REASONABLENESS OF FORCE

16. When determining whether to use force and in evaluating whether an officer has used reasonable force, the facts and circumstances, when they are known or reasonably should be known by the officer, that should be considered include, but are not limited to:
 - The seriousness of the suspected offense or reason for contact with the individual;
 - Whether the subject poses a threat of injury to himself, officers or others, and the immediacy and severity of the threat;
 - The conduct of the individual being confronted as reasonably perceived by the officer at the time;
 - Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, and the number of officers versus subjects);
 - The effects of drugs or alcohol;
 - The subject's mental state or capacity;
 - Proximity to weapons or dangerous improvised weapons/devices;
 - The degree to which the subject has been effectively restrained and his/her ability to resist despite being restrained;
 - The availability of other options and their possible effectiveness;
 - The training and experience of the officer;
 - The environment wherein the event is occurring;
 - Whether the person appears to be resisting in an active, aggressive, or aggravated manner;
 - The risk of escape;
 - The apparent need for immediate control of the subject for a prompt resolution of the situation versus the ability to step back, regroup and develop an alternative approach and the time available to the officer to make a decision;

- Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others; and
- Any other exigent and articulable circumstances.

DE-ESCALATION

17. When it is consistent with protecting the safety of the officer, the subject, or the public, officers shall use de-escalation techniques to avoid or reduce the need for the use of force. These techniques include gathering information about the incident, assessing the risks, assembling resources, attempting to slow momentum, and communicating and coordinating a response. In their interaction with subjects, officers should use advisements, warnings, verbal persuasion, and other tactics and alternatives to higher levels of force. Officers should recognize that they may withdraw to a position that is tactically more secure or allows them greater distance in order to consider or deploy a greater variety of force options.

SUPERVISORY RESPONSE TO FORCE INCIDENTS

18. The prospect of a favorable outcome is often enhanced when supervisors become involved in the management of an overall response to potential violent encounters by coordinating resources and officers' tactical actions. Whenever possible, supervisors shall acknowledge and respond in a timely manner to in-progress incidents in which there is a higher potential for officers to use force.

FORCE LEVELS

19. When use of force is needed, officers will assess each incident to determine, based on policy, training and experience, which use of force option is believed to be appropriate for the situation and bring it under control in a safe and prudent manner.

LEVELS OF RESISTANCE (see Use of Force Continuum)

- **Passive Resistance,**
- **Active Resistance,**
- **Aggressive Resistance, and**
- **Aggravated Resistance.**

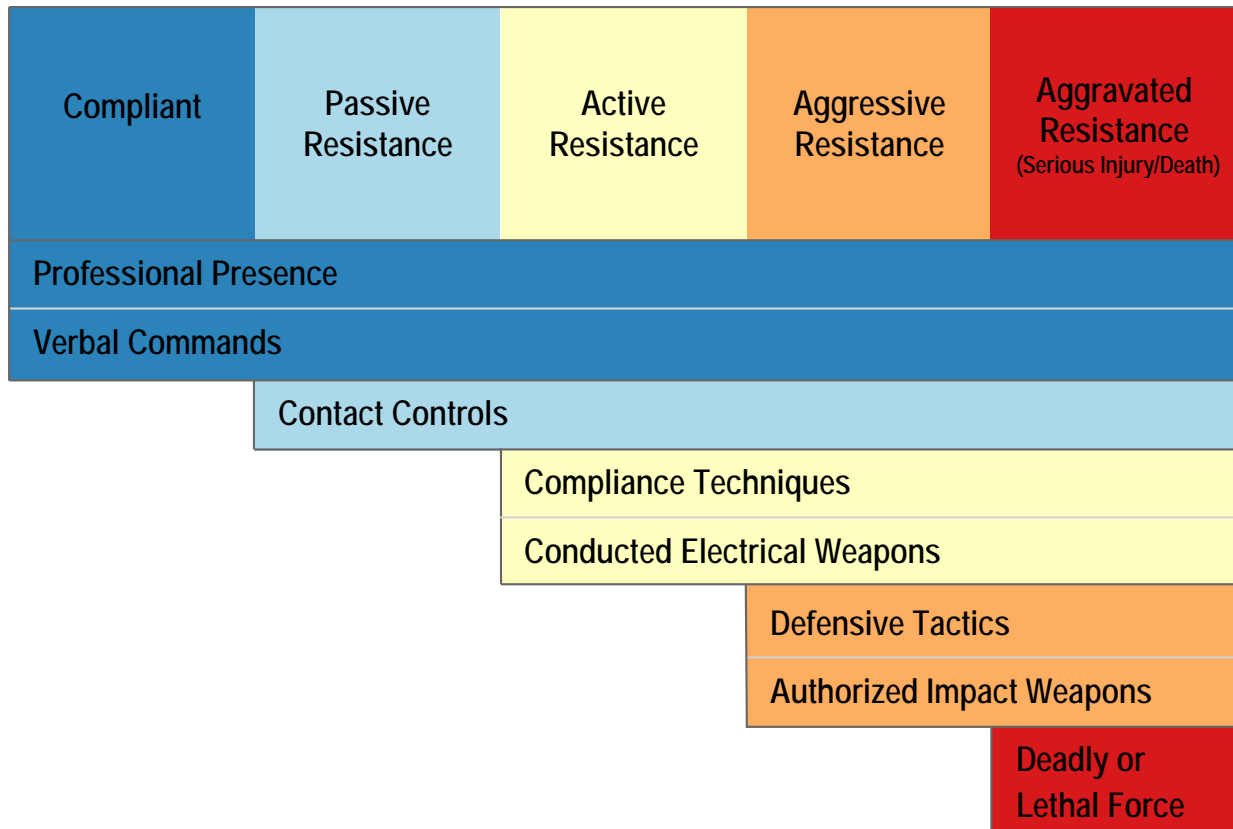

LEVELS OF CONTROL (see Use of Force Continuum)

20. There are a variety of controls officers can use to stop the unlawful actions of a subject(s) or to protect a subject(s) from injuring himself/herself/themselves or others. The type of control officers use may vary based upon the facts and circumstances confronting them. Officers shall assess all contacts to determine the appropriate level of control. When possible, officers shall attempt to gain control of subjects by using verbal commands/directives first.
21. If verbal commands/directives are ineffective or not feasible, officers may utilize other control methods. If force is necessary, officers shall determine which control technique(s), tactics or authorized defensive equipment would best de-escalate the incident and bring it under control in the safest manner. When it is objectively reasonable, officers may utilize the following skills and techniques when faced with the levels of resistance as outlined in the Use of Force Continuum:

- **Professional Presence**—This includes all symbols of police authority, such as badge, uniform, marked police vehicle, etc., and applies to all levels of control.
- **Verbal Commands**—This level includes fundamental verbal skills and strategies that are available to the trained officer. The mere presence of the officer can be included in this category.
- **Contact Controls**—When confronted with a subject demonstrating minimal resistant behavior, the officer may use low-level anatomical compliance techniques or physical tactics to gain control and cooperation. These tactics can be psychologically manipulative as well as physical, and include additional verbal persuasion skills, pressure point applications, and escort positions.
- **Compliance Techniques**—When a subject becomes resistant (active resistance), the officer may use anatomical compliance techniques or physical control tactics to overcome the level of resistance and remain vigilant for more aggressive behavior from the subject.
- **Conducted Electrical Weapon**—The CEW is used in situations in which a subject exhibits aggressive resistance and in situations in which the subject presents an imminent threat to the officer, himself/herself, or another person. This includes situations in which a suspect is actively fleeing from arrest for a serious offense, but fleeing should not be the sole justification for using a CEW against a suspect. Members should consider the severity of the offense, the suspect's threat level to others, and the risk of serious injury to the subject before deciding to use a CEW on a fleeing suspect.
- **Defensive Tactics**—When a subject attempts to assault the officer or another person (aggressive resistance or aggravated resistance), the officer is justified in taking appropriate physical action to immediately stop the aggressive action and to gain control of the subject. This may include the use of hands, fists and feet.
- **Authorized Impact Weapons**—Those less-than-lethal weapons such as the PR-24 and expandable batons, which, when authorized by the NOPD and utilized in accordance with training, may be used to overcome aggressive and aggravated resistance.
- **Deadly or Lethal Force**—Deadly/Lethal force shall be used only when:
 - There is an imminent danger of death or serious physical injury to the officer or another person; or
 - To prevent the escape of a fleeing subject if there is probable cause to believe:
 - The subject has committed a felony involving the infliction or threatened infliction of serious bodily injury or death; and
 - The escape of the subject would pose an imminent danger of death or serious bodily injury to the officer or to another person.

USE OF FORCE CONTINUUM – ILLUSTRATION

22. The Use of Force Continuum is a guideline to assist officers in assessing which level of control may be appropriate when confronted with a certain level of resistance. The Use of Force Continuum does not replace the requirement that force must be objectively reasonable and consistent with NOPD policy.

The above image illustrates the options an officer has at each level of resistance. It is provided as a visual aid in decision-making. This illustration is not to be interpreted as a mandatory step-by-step progression. It is recognized that a compliant encounter can escalate to a deadly force situation quickly. Professional presence and verbal commands are present at every level of resistance.

DUTY TO INTERCEDE

23. Officers have a duty to intercede to prevent the use of unreasonable force if the officer has reason to know that unreasonable force is being used and there is a realistic opportunity to intervene to prevent harm. The action required by the officer will depend on the circumstances of the incident. Appropriate action may include, but is not limited to:
- Verbal or physical intervention;
 - Immediate notification to a supervisor; and
 - A direct order by a supervisor to cease the use of unreasonable force.

PROHIBITED ACTIONS

24. **Neck Holds**—Officers shall not use neck holds, except when lethal force is authorized.
25. **Head, Neck, Throat, Heart, Kidney, and Groin Strikes with Impact Weapons**—The head, neck, throat, spine, heart, kidneys and groin shall not be intentionally targeted with impact weapons except when deadly force is authorized. Head strikes with impact weapons are prohibited except when lethal force is authorized.
26. **Shooting at or from moving vehicles**—Officers shall not discharge a firearm from or at a moving vehicle unless the occupants of the vehicle are using deadly force other than the vehicle itself against the officer or another person, and such action is necessary for self-defense or to protect another person. Discharging a firearm in this circumstance is never authorized when it is reasonable to believe that the vehicle may contain an innocent passenger or it is reasonably apparent that the vehicle may careen out of control and injure an innocent bystander.

Officers shall not intentionally place themselves in the path of, or reach inside, a moving vehicle. Where possible the officer shall attempt to move out of the path of a moving vehicle rather than discharge their weapon to stop the vehicle. Officers shall not shoot at any part of a vehicle in an attempt to disable the vehicle.
27. **Shooting through a door or window** when the target is not clearly in view.
28. **Warning shots** or shots fired for the purpose of summoning aid are prohibited.
29. **Using firearm as impact weapon**—Officers should never use a firearm as an impact weapon, i.e. “pistol whip” a subject or using the firearm as a club, except in situations where deadly force would be authorized.
30. **Force against persons in handcuffs**—Officers shall not use force against persons in handcuffs, except to prevent imminent bodily harm to the officer, or another person, or to physically move the subject who has become passively resistant.
31. **Force to overcome passive resistance**—Officers shall not use force to overcome passive resistance, except that physically moving a subject is permitted when it is necessary and objectively reasonable.

OLEORISIN CAPSICUM SPRAY (OC Spray)—PROHIBITED

32. Oleoresin capsicum spray is **not** authorized for general use by the New Orleans Police Department. Officers shall not use or possess OC Spray while on duty, including officers working secondary employment. Exception to the general prohibition is made for SOD/SWAT use only, under highly specific circumstances such as riots and violent demonstrations when a command level decision has been made to deploy OC spray.

DANGEROUS ANIMALS

33. Officers are authorized to use firearms to stop an animal in circumstances in which the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective. The officer must be cognizant of the surroundings when shooting at an animal and ensure there is no risk to people in the area. Under circumstances in which officers have sufficient advance notice that a potentially dangerous animal may be encountered, officers should develop reasonable contingency plans for dealing with the animal (e.g., fire extinguisher, CEW, animal control officer). Nothing in this Chapter shall prohibit any officer from shooting a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 1.3.1.1

TITLE: HANDCUFFING AND RESTRAINT DEVICES

EFFECTIVE: 12/6/15

REVISED: Replaces Policy/Procedure 306

PURPOSE

This Chapter governs handcuffing and otherwise restraining suspects during detentions and arrests to provide adequately for the safety and security of the suspect being detained or in custody, the transporting officer, and the public.

POLICY STATEMENT

1. The New Orleans Police Department authorizes the use of handcuffs and restraint devices in order to control suspects who are actively, aggressively, or aggravatedly resisting a lawful detention or arrest in accordance with this Chapter, **Chapter 1.3 - Use of Force** and department training.
2. Restraint devices **shall not** be used to demean, embarrass, punish, or display authority; they also shall not be used as a show of force.
3. Consistent with NOPD Policy concerning use of force generally, force shall not be used against an individual in handcuffs or other restraint device except as reasonably necessary to prevent imminent bodily harm to the officer or another person or persons.
4. The improper use of force against individuals in handcuffs or other restraining devices can constitute excessive force in violation of the United States Constitution and State law, and it may result in criminal prosecution as well as civil liability.

DEFINITIONS:

Definitions relevant to this Chapter include:

Active Resistance—Resistance exhibited by a suspect that is between passive resistance and aggressive resistance (e.g., attempts to leave the scene, flee, hide from detection, or pull away from the officer's grasp). Verbal statements, bracing, or tensing alone do not constitute active resistance.

Aggressive Resistance—Is a subject's attempt to attack or an actual attack of an officer. Exhibiting aggressive behavior (e.g., lunging toward the officer, striking the officer with hands, fists, kicks or any instrument that may be perceived as a weapon such as a knife or stick) are examples of aggressive resistance. Neither passive nor active resistance, including fleeing, pulling away, verbal statements, bracing, or tensing, constitutes aggressive resistance.

Aggravated Resistance—When a subject's actions create an objectively reasonable perception on the part of the officer that the officer or another person is subject to imminent death or serious physical injury as a result of the circumstances and/or nature of an attack. Aggravated resistance represents the least encountered but most serious threat to the safety of law enforcement personnel or another person.

Agitated delirium (also known as excited delirium)—A syndrome or condition characterized by extreme physical agitation, paranoid or irrational behavior, and/or pain insensitivity, often but not necessarily caused by mental illness or substance use.

Positional or compression asphyxia—When a subject's body position interferes with his or her breathing, either when the chest is restricted from expanding properly or when the position of the subject's head obstructs the airway. Death may occur from positional asphyxia.

Sudden tranquility—When a subject who was acting violent suddenly becomes calm, sleepy, and appears to be resting.

ISSUANCE, MAINTENANCE AND CARRYING RESTRAINT DEVICES

5. Restraint devices described in this Chapter may be carried and used by officers of this Department only if the device has been issued or approved by the Superintendent of Police or his authorized designee.
6. Only officers, who have successfully completed Department training, maintained and demonstrated their qualifications in the use of any approved restraint devices are authorized to carry and use those devices.
7. Restraint devices may be used to restrain or arrest suspects who actively resist, aggressively resist, aggravatedly resist, or demonstrate an intent to resist (actively, aggressively, or aggravatedly) a lawful detention or arrest, and the use of the restraint appears reasonable under the circumstances.

USE OF RESTRAINTS

8. Officers are responsible for the safety and well-being of the suspects in their custody and control. Suspects under restraint may evidence signs of **positional asphyxia**, **agitated delirium** or **sudden tranquility** due to recent physical exertions, existing physical conditions, or drug use, and they must be continually monitored while under restraint.
9. Restraint devices described in this Chapter are authorized for use by officers who have successfully completed Department-approved training in the use of those devices.
10. All routine maintenance of a restraint device shall be the responsibility of the officer to whom it is issued, who carries it, or who uses it.
11. The following devices are approved for use:
 - (a) Handcuffs –
 1. Smith and Wesson; Model 100; nickel or blue finish
 2. Peerless Model 700 (or equivalent); nickel or blue finish with universal size key
 - (b) Flex cuffs - a commercially produced plastic flexible band cuff with a one-way locking system that can be fastened as a restraint around a person's wrists.
 - (c) Leg restraints – Smith and Wesson Model 1900; satin nickel finish

12. When deciding whether to use an approved restraint device described in this Chapter, officers should carefully balance all safety concerns with factors that include, but are not limited to:
 - (a) The circumstances of the detention or crime leading to the arrest;
 - (b) The demeanor and behavior of the detained/arrested suspect;
 - (c) The age and health of the person;
 - (d) Whether the person is known to be pregnant;
 - (e) Whether the person has a hearing or speaking disability. In such cases, consideration should be given, safety permitting, to handcuffing to the front in order to allow the person to sign or write notes;
 - (f) Whether the individual has an injury or disability that may be aggravated by handcuffing, and what reasonable accommodations may be made for such disability; and
 - (g) Any other apparent disability or condition.
13. Once handcuffed, the arrested suspect shall be secured in the rear seat of the police unit. The safety belt shall be properly utilized. Once secured in the vehicle, the primary responsibility for the safety of the detainee or arrested suspect is with the transporting officer.
14. Officers shall use caution when securing a suspect in a police vehicle utilizing a seat belt. Seat-belted a suspect places officers in an awkward physical position, exposing them to potential harm during the belting procedure. If possible, two officers should be present when belting suspects in a police vehicle.

DANGERS OF RESTRAINTS

15. Officers are reminded of the danger of "**positional asphyxia**," and will follow the guidelines for care of restrained subjects listed below:
 - (a) Follow training guidelines for physical restraint of subjects.
 - (b) If a subject has been placed on his or her stomach, turn him or her on the side or in a seated position as soon as handcuffs are properly applied.
 - (c) If the subject continues to struggle, **do not** sit, lie or kneel on the subject's back. Hold the subject's legs down and secure their ankles with leg restraints (leg shackles, Hobble leg restraints, or flex ankle cuffs). The use of these restraints may require specialized training.
 - (d) **Never** attach the handcuffs to leg or ankle restraints. The **use of any "hog-tying" technique is strictly prohibited.**
 - (e) Ask the subject if he or she has used drugs recently or suffers from a cardiac, respiratory disease or condition such as asthma, bronchitis, or emphysema.
 - (f) Monitor the subject carefully, looking for breathing difficulties or loss of consciousness. Immediately transport to a medical facility or call for EMS.
 - (g) If the subject is transferred to a detention facility, inform the facility's custodians of any preexisting conditions, treatment received or requested because of respiratory difficulty or loss of consciousness.

16. Officers are reminded of the danger of "**agitated delirium**" and will follow the guidelines for care of restrained subjects listed below. Subjects in the state of agitated delirium have easily identifiable symptoms and behavioral patterns. For the safety of both officers and subjects, recognition of these signs is important. This is especially true in cases when more than two or three of the symptoms are exhibited at the same time by the same person. Once a subject suspected of agitated delirium is in custody, EMS should be immediately contacted to evaluate the subject. Some of the symptoms include:
- (a) Bizarre and/or aggressive behavior such as self-inflicted injuries; jumping into water; shouting (frequently irrationally); hiding behind cars, trees, and bushes; public disrobing (due to high body temperature or hyperthermia);
 - (b) Irrational or incoherent speech;
 - (c) Dilated pupils; shivering; high body temperatures (as high as 106 - 108 degrees Fahrenheit +); or profuse sweating (due to high body temperature);
 - (d) Fear, paranoia, or panic;
 - (e) Violence toward others; violence toward objects, especially glass; or violence in general;
 - (f) High resistance to pain (standard defensive tactics and OC spray may be ineffective); and
 - (g) Unexpected physical strength;
 - 1. For officer safety, **NEVER** engage a subject displaying symptoms of agitated delirium one-on-one.
 - 2. Subjects who display these symptoms and initially resist arrest violently may become extremely tranquil, appearing to have given up and accepted their fate. They may seem to be sleepy and resting. This is termed "**sudden tranquility**" and usually occurs just prior to death.
 - 3. When faced with a subject displaying these symptoms, officers will follow the guidelines for "positional asphyxia" listed above.

RESTRAINT OF SUSPECTS BEING DETAINED

17. It may be necessary to restrain an individual who is detained but not under arrest. The use of restraints on suspects being detained should only continue for as long as is reasonable to assure the safety of the suspect, officers and the public.
18. **Investigative Stops**—Officers have authority to handcuff a person when the officer has a reasonable suspicion, based on individually articulable facts that the person has committed a crime, and:
- (a) A reasonable suspicion based on articulable facts that the person will flee if not restrained;
 - (b) A reasonable suspicion based on articulable facts that the person might present an immediate threat of serious physical injury to the officer or others present if not restrained; or
 - (c) The person is, or the officer reasonably suspects based on articulable facts that the person will be, physically uncooperative with the officer in a way that interferes with the officer's ability to pursue the investigation or conduct the stop safely if the person is not restrained.
19. The authority to handcuff during investigatory stops continues only as long as one of the circumstances listed above exists, or as long as continued restraint serves to avoid one of the circumstances. If a change in situation eliminates all justification for the handcuffing, and the officers on scene do not reasonably believe that any of the circumstances listed above will exist if the person is released from the handcuffs, the handcuffs must be removed.

20. Officers shall note on the electronic Field Interview Card if the individual was handcuffed and the reasons why.
21. **Detentions for investigation of infractions and violations**—Officers have authority to handcuff a person when the officer has authority to detain the person (Traffic Infraction Investigation and Citation), **and**:
- (a) The officer has a reasonable suspicion based on articulable facts that the person will flee if not restrained;
 - (b) The officer has a reasonable suspicion based on articulable facts that the person might present an immediate threat of serious physical injury to the officer or other present if not restrained; or
 - (c) The person is, or the officer reasonably suspects based on articulable facts that the person will be, physically uncooperative with the officer in a way that interferes with the officer's ability to pursue the investigation or conduct the detention safely if the person is not restrained.

The authority to handcuff during investigatory stops continues only as long as one of the circumstances listed above exists, or as long as continued restraint serves to avoid one of the circumstances. If a change in situation eliminates all justification for the handcuffing, and the officers on scene do not reasonably believe that any of the circumstances listed above will exist if the person is released from the handcuffs, the handcuffs must be removed.

22. **Other authority to handcuff**—Officers have authority to handcuff a person when they have authority to detain under the following circumstances:
- (a) Detox holds.
 - (b) Detentions for conducting mandatory fingerprinting and photographing of sex offenders and Uniform Controlled Substances Act violators.
 - (c) Detentions to determine identity of a person for the purpose of issuing a citation for a violation or infraction.
 - (d) When an officer has a lawful right to detain the person and has a reasonable suspicion based on articulable facts that the person will flee if not restrained.
 - (e) A reasonable suspicion based on articulable facts that the person might present an immediate threat of serious physical injury to the officer or others present if not restrained.
 - (f) The person is, or the officer reasonably suspects based on articulable facts that the person will be, physically uncooperative with the officer in a way that interferes with the officer's ability to pursue the investigation or conduct the detention safely if the person is not restrained.

The authority to handcuff during the above situations continues only as long as one of the circumstances listed above exists, or as long as continued restraint serves to avoid one of the circumstances. If a change in situation eliminates all justification for the handcuffing, and the officer on the scene does not reasonably believe that any of the circumstances listed above will exist if the person is released from the handcuffs, the handcuffs must be removed.

23. **Execution of search warrant at private residence**—Officers have authority to handcuff people they encounter on the premises as is reasonably necessary for the execution of the search warrant with all practicable safety. Subject to the other restrictions contained in this Chapter, officers shall consider the following factors in deciding whether to handcuff individuals at a private residence during the execution of a search warrant:
- (a) The legitimate law enforcement interest in preventing flight in the event that incriminating evidence is found;
 - (b) Minimizing the risk of harm to the officers; and
 - (c) The orderly completion of the search, which may be facilitated if the occupants of the premises are present.
24. **Execution of search warrants at business premises open to the public** (restaurants, bars, public area of offices, etc.)—Officers engaged in a lawful police activity can justify the handcuffing of a person who is not a suspect if it reasonably appears under the circumstances that handcuffing is necessary to protect an officer or others from physical harm. Resistance to handcuffing under these circumstances does not support a charge of Resisting Arrest because the person is handcuffed not as part of an arrest, but only as a means of self-defense or defense of others. These kinds of detentions are not based on criminal conduct and the justification for the handcuffing can dissipate rapidly. Officers must pay close attention to the circumstances that justify these handcuffings, and if a change in circumstances eliminates all justification for the handcuffing, the handcuffs must be removed.
25. When deciding whether to remove restraints from a suspect, officers should weigh the safety interests at hand against the continuing intrusion upon the suspect's freedom of movement.

RESTRAINT OF PREGNANT PERSONS

26. Females in labor shall not be handcuffed or restrained except in extraordinary circumstances and only when such restraints are necessary to prevent escape or injury.
27. Females who are known to be pregnant should be restrained in the least restrictive manner effective to assure the safety of the suspect, officers and the public.
28. Females in labor **shall not** be handcuffed or restrained except in extraordinary circumstances when they actively resist, aggressively resist or aggravatedly resist a lawful detention or arrest and the use of the restraint appears reasonable under the circumstances and such restraints are necessary to prevent escape or injury.
29. Supervisory approval is required when officers handcuff pregnant persons or females in labor.

RESTRAINT OF JUVENILES

30. A juvenile under 10 years of age should not be restrained unless he or she is suspected of a dangerous felony and actively resists, aggressively resists or aggravatedly resists, or demonstrates an intent to resist (actively, aggressively, or aggravatedly) a lawful detention or arrest and the use of the restraint appears reasonable under the circumstances.

31. Mechanical restraints, including handcuffs, shall never be used with juvenile status offenders, including curfew offenders, in the absence of a real and credible threat that the juvenile will use force against another person.
32. Juveniles shall not be handcuffed behind the back in the absence of a real and credible threat that the juvenile will use force against another person.
33. Juveniles shall not be restrained with mechanical restraints other than handcuffs.
34. Juveniles shall never be handcuffed to a fixed object, such as a bench or a pole.
35. In addition to the above provisions, when a child is held in NOPD **secure custody** at the Juvenile Intake Unit:
 - (a) Handcuffs should not be used except when cases of uncontrollable behavior present serious threats to the safety of the juvenile or others. All reasonable alternatives including verbal counseling or use of minimum physical restraint shall be attempted before resorting to the use of handcuffs.
 - (b) Juveniles who are handcuffed must be isolated to protect them from abuse, and shall be directly observed by an NOPD officer at least twice in every 30 minutes to ensure the safety and well-being of the juvenile.
 - (c) Handcuffs shall not be used for a time period in excess of one hour, and shall immediately be removed as soon as the juvenile is no longer a serious threat to his or her own safety or the safety of others.
 - (d) NOPD officers shall not handcuff juveniles during juvenile court proceedings absent a reasonable real and credible threat that the juvenile will use force against another person, or specifically directed by the juvenile court judge in each instance.
36. In addition to the above provisions, when a child is held in NOPD **non-secure custody** at the Juvenile Intake Unit:
 - (a) Handcuffs shall never be used except when cases of uncontrollable behavior present serious threats to the safety of the juvenile or others. All reasonable alternatives including verbal counseling or use of minimum physical restraint shall be attempted before resorting to the use of handcuffs.
 - (b) A supervisor shall approve the use of handcuffs before they are applied.
 - (c) Handcuffed juveniles – like all other juveniles in non-secure custody – must be under the continuous observation of an NOPD officer for the duration of their time in NOPD custody.
 - (d) Handcuffs shall not be used for a time period in excess of one hour, and shall immediately be removed as soon as the juvenile is no longer a serious threat to his or her own safety or the safety of others.
37. **Reporting**—For each incident when handcuffs are used for a juvenile in custody at the Juvenile Intake Unit, whether secure or non-secure, the officer using the handcuffs must appropriately document the following:
 - (a) Name of the juvenile.
 - (b) Date and time the restraints were applied and by whom.
 - (c) Persons notified, and when and from whom approval is obtained.
 - (d) Location and confinement.
 - (e) Staff member assigned to supervise.

RESTRAINTS ON PERSONS WITH DISABILITIES

38. Unless exigent circumstances do not permit, after securing the scene and reasonably ensuring that there is no threat to human life, officers should make objectively reasonable modifications to standard cuffing and restraint practices in order to provide necessary, reasonable accommodations based on a suspect's known or apparent disability.

APPLICATION OF HANDCUFFS OR FLEX CUFFS

39. Handcuffs, including flex cuffs, may only be used to restrain a suspect's hands. Special care should be made to insure that the flex cuffs are not so tight as to cut off circulation to the hands.
40. The same handcuffing procedures used for standard handcuffing should be used for applying flex cuffs.
41. Some of the tactics used in standard handcuffing will not apply due to the nature and characteristics of the flex cuffs.
42. Caution should be taken to ensure flex cuffs are properly fitted and not over tightened.
43. Flex cuffs shall not be removed with any sharp and/or pointed object (i.e., knives, pointed scissors, etc.). A removal tool designed for safely removing flex cuffs should be used.
44. Because of the nature of the ratcheting mechanism of flex cuffs and their inability to be double locked, officers shall make frequent checks to insure the suspect secured has not tightened them restricting blood flow .
45. Handcuffing is not an absolute requirement of the Department. Officers should consider handcuffing any person they have legally detained or arrested when they reasonably believe that degree of restraint is necessary. **Officers should not assume every person should be handcuffed regardless of the circumstances.**
46. If a CEW is used, the officer should attempt to handcuff a suspect during the CEW activation cycle if possible. This is referred to as "controlling/cuffing under power" (see **Chapter 1.7.1 – CEW**).
47. When handcuffs are employed and always prior to the suspect being placed in a unit for transport, handcuffs shall be double-locked and checked to make sure the double-lock is set to prevent tightening and injury.
48. When one pair of handcuffs is not sufficient to restrain the individual due to size, injury or other physical condition and a single pair of handcuffs may cause an unreasonable level of discomfort, officers should consider alternatives, such as using an additional set of handcuffs linked in a chain or multiple flex cuffs.
49. An officer's handcuffs should be removed as soon as reasonable after the person has been seated, accepted for processing/custody by the jailor and is safely confined within a detention facility.

NOTIFICATION OF RESTRAINT USE OTHER THAN HANDCUFFS

50. When an officer transports a suspect with the use of restraints **other than handcuffs**, the officer shall inform the jail or detention facility staff upon arrival at the jail or facility that restraints were used.
51. This notification should include all information regarding the circumstances the officer reasonably believes would present a safety concern or medical risk to the suspect (e.g., prolonged struggle, extreme agitation, impaired respiration) that may have occurred prior to, or during, the suspect's transportation to the jail / facility.

APPLICATION OF AUXILIARY RESTRAINT DEVICES

52. Only Department authorized devices may be used by officers. Any person in auxiliary restraints and being placed in the custody or control of the NOPD shall be continuously monitored by the officers or members in whose custody or control he or she remains.

APPLICATION OF LEG RESTRAINTS

53. An officer may use leg restraints on a suspect when the suspect is actively resisting, aggressively resisting or aggravatedly resisting, or demonstrates the intent to resist actively, aggressively, or aggravatedly, a lawful detention or arrest, the use of the restraint appears reasonable under the circumstances and it is reasonable to do so during the course of detention, arrest or transportation. Only leg restraint devices approved by the Department shall be used.

ADDITIONAL LEG RESTRAINT CONSIDERATIONS

54. In determining whether to use a leg restraint, officers should consider:
 - (a) Whether the suspect, officers and the public could be injured due to the violent behavior of a suspect and the safety of the suspect, officers and the public requires it;
 - (b) Whether it is necessary to protect the suspect from his or her own actions (e.g., hitting his or her head against the interior of the transport unit, running from the arresting officer while handcuffed, kicking at objects or officers); and
 - (c) Whether it is necessary to avoid damage to property (e.g., kicking at windows of the transport unit).

GUIDELINES FOR THE USE OF LEG RESTRAINTS

55. The following guidelines should be followed when applying leg restraints:
 - (a) If practicable, officers should notify a supervisor of the intent to apply the leg restraint device prior to use. A supervisor shall be notified as soon as possible after the application of the leg restraint device.
 - (b) Once applied, absent a medical emergency, restraints should remain in place until the officer arrives at the detention facility or the suspect no longer appears to pose a threat.
 - (c) Once secured, a suspect **shall not** be placed on his or her stomach for an extended period. This position could reduce the person's ability to breathe. The person should be placed in a seated position in a police unit and secured with a seat belt.

- (d) The restrained suspect shall be continually monitored by an officer while in leg restraints. The monitoring officer should ensure the suspect does not roll onto and remain on his or her stomach.
- (e) Officers shall look for signs of labored breathing and take appropriate steps to relieve and minimize any obvious factors contributing to this condition.
- (f) Ask the prisoner if the circulation is adequate and adjust the tension to the extent necessary for adequate circulation to be maintained
- (g) Visually inspect the prisoner's legs, ankles, and/or feet for swelling, discoloration, or any other indication of inhibited circulation.
- (h) When transported by ambulance/paramedic unit and requested by medical personnel, the restrained person should be accompanied by an officer. The transporting officer should describe to medical personnel any behaviors or circumstances they believe would present potential safety or medical risks to the suspect (e.g., prolonged struggle, extreme agitation, impaired respiration).
- (i) When transported by NOPD the prisoner should be maintained in an upright position using the vehicle's seat belt restraint system.

EXTENDED TRANSPORT TIMES

56. When the transportation or NOPD custody of a suspect is expected to last for an extended period, officers shall be cognizant of the status and position of restraints on the suspect and the suspect's position at all times. Any adjustment to the status or position of the restraints should be made as soon as the officer(s) become aware of a potential need. For safety, one officer should reapply the restraints while a second officer maintains a cover position.

REQUIRED DOCUMENTATION

57. If a suspect is detained, restrained and released without arrest, the officer shall document the details of the detention, restraint and release. This documentation shall be in the form of a Departmental Electronic Field Interview Card or on an Electronic Police Report under an appropriate signal.
58. If a suspect is arrested, the use of restraints shall be documented in the related Electronic Police Report and any reports / forms (Blue Team and **Form 114**) required under **Chapter 1.3.6 – Reporting Use of Force**. The reporting officer shall include, as appropriate:
- (a) The amount of time the suspect was restrained;
 - (b) How the suspect was transported and the position of the suspect;
 - (c) Observations of the suspect's behavior during arrest and transport as well as any signs of physiological problems;
 - (d) Any known or suspected drug use or other possible medical problems; and
 - (e) The type and manner of restraints used.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 1.3.1.2

TITLE: CONTROL DEVICES AND TECHNIQUES

EFFECTIVE: 12/6/15

REVISED: Replaces Policy/Procedure 308

PURPOSE

This Chapter governs the issuance, maintenance, and use of control devices and techniques during detentions and arrests to provide for the safety and security of the subject being detained or in custody, the officer, and the public.

POLICY STATEMENT

1. The New Orleans Police Department authorizes the use of control devices and techniques in order to control persons who actively, aggressively or aggravatedly resist a lawful detention or arrest in accordance with this Chapter, **Chapter 1.3 - Use of Force** and department training.
2. Control devices and techniques **shall not** be used to demean, embarrass, or punish.

DEFINITIONS

Definitions relevant to this Chapter include:

Active Resistance—Resistance exhibited by a suspect that is between passive resistance and aggressive resistance (e.g., attempts to leave the scene, flee, hide from detection, or pull away from the officer's grasp). Verbal statements, bracing, or tensing alone do not constitute active resistance.

Aggressive Resistance—Is a subject's attempt to attack or an actual attack of an officer. Exhibiting aggressive behavior (e.g., lunging toward the officer, striking the officer with hands, fists, kicks or any instrument that may be perceived as a weapon such as a knife or stick) are examples of aggressive resistance. Neither passive nor active resistance, including fleeing, pulling away, verbal statements, bracing, or tensing, constitute aggressive resistance.

Aggravated Resistance—When a subject's actions create an objectively reasonable perception on the part of the officer that the officer or another person is subject to imminent death or serious physical injury as a result of the circumstances and/or nature of an attack. Aggravated resistance represents the least encountered but most serious threat to the safety of law enforcement personnel or another person.

Agitated Delirium (also known as Excited Delirium) - a syndrome or condition characterized by extreme physical agitation, paranoid or irrational behavior, and/or pain insensitivity, often but not necessarily caused by mental illness or substance use. (symptoms listed below).

Anatomical Compliance Technique— The act of applying pressure to vulnerable areas, weak points or pressure points of the body. This technique is used to cause immediate compliance by a subject who poses a threat.

Compliant—Cooperative obedience in response to lawful requests or directions from law enforcement personnel.

Imminent Threat—An immediately impending danger that must be instantly met.

Impact Weapon— Any solid or semi-solid object used by an officer as a method of gaining control of a subject. Absent exigent circumstances, officers shall not use non-traditional weapons/hard objects, such as firearms or radios, as impact weapons.

Neck Hold— One of the following types of holds: (1) arm-bar control hold, a hold that inhibits breathing by compression of the airway in the neck; (2) carotid restraint hold, a hold that inhibits blood flow by compression of the blood vessels in the neck; (3) lateral vascular neck constraint; or (4) a hold with a knee or other object to the back of a prone subject's neck. A neck hold is considered lethal force.

Positional or Compression Asphyxia—When a subject's body position interferes with breathing, either when the chest is restricted from expanding properly or when the position of the subject's head obstructs the airway. Death may occur from positional asphyxia.

Reportable Use of Force—Any force above hand control or escort techniques applied for the purposes of handcuffing, or escort techniques that are not used as pressure-point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance. The pointing of a firearm or CEW laser at a subject is a reportable use of force.

Sudden Tranquility—When a subject who was acting violent suddenly becomes calm, sleepy, and appears to be resting.

Training Coordinator—Member or members of the Education and Training Division staff designated by the Commander of the Education and Training Division to ensure all department personnel who are authorized to carry a control device have been properly trained and certified to carry any specific control device and are retrained or recertified as required by Departmental regulations.

ISSUANCE, MAINTENANCE AND CARRYING OF CONTROL DEVICES

3. Control devices and techniques described in this Chapter may be carried and/or used by members of this Department only if the device or technique has been issued or approved by the Superintendent of Police or his or her authorized designee.
4. All routine maintenance and care of a control device shall be the responsibility of the member to which it is issued, who carries it, or who uses it.

PRIOR TRAINING

5. Any previous baton training that any officer has received which may employ any type of strike to the head area above the shoulder line should not be utilized. This will include any prior training received through the New Orleans Police Academy, military training, or

any training received by any other means.

6. Any prior training received in any type choke-hold, carotid type or otherwise should not be utilized. This will include any prior training received through the New Orleans Police Department, military training, or by any other means.
7. Any prior training received in any type of anatomical control technique that employs a baton, flashlight, or other weapon that applies any type hold to the head area above the shoulder line should not be utilized. This includes any prior training received through the New Orleans Police Academy, military training or by any other means.

NECK HOLDS

8. Neck holds are prohibited except where lethal force is authorized.

USE OF RESTRAINTS

9. Control devices or techniques may be used to restrain or arrest subjects who actively resist, aggressively resist or aggravatedly resist a lawful detention or arrest and the use of the device or technique appears objectively reasonable under the circumstances.
10. Members are responsible for the safety and well-being of the subjects in their custody and control. Subjects who have resisted control or restraint may evidence signs of **Positional Asphyxia**, **Agitated Delirium**, or **Sudden Tranquility** due to recent physical exertions, existing physical conditions or drug use and must be monitored while they are restrained.
11. Control devices or techniques described in this Chapter are authorized for use by members who have successfully completed Department-approved training in the use of those devices or techniques.
12. Control devices may be used when a decision has been made to restrain or arrest subjects who have or demonstrate the intent to be violent and the use of the device appears reasonable under the circumstances.
13. Only the following control devices are approved for use when justified:
 - (a) Expandable batons (includes Monadnock Expandable Baton and ASP Batons)
 - (b) Monadnock PR-24 Side Handle Police Baton
 - (c) Monadnock Defensive Tactics System (MDTS)
14. Only the following anatomical control techniques are approved for use when justified:
 - (a) Standard control holds include those from Monadnock Defensive Tactics and Strategic Self-Defense & Grappling Tactics (SSGT) Strong Side or Support Side Escort Position or Two-on-One Escort Position;
 - (b) SSGT Hollow Behind The Ear Pressure Point to Escort Position or Brachial Pressure Point to Escort Position
 - (c) SSGT Rear Wrist Lock to Escort Position
 - (d) SSGT PR-24 or Expandable Baton Strong Side or Support Side Arm lock to an Escort Position
15. Once a suspect becomes compliant officers shall cease use of Anatomical Compliance techniques immediately.

16. When deciding whether to use an approved control device or technique described in this Chapter, members should carefully balance **all** safety concerns with factors that include, but are not limited to:
 - (a) The circumstances of the detention or crime leading to the arrest;
 - (b) The demeanor and behavior of the detained / arrested subject;
 - (c) The age and health of the subject;
 - (d) Whether the subject is known to be, or appears to be, pregnant;
 - (e) Any other apparent disability or condition.

AUTHORIZED IMPACT WEAPON GUIDELINES

17. The need to immediately control a suspect must be weighed against the risk of causing serious injury.
18. An intentional strike to the head, neck, throat, spine, heart, and kidneys with any impact weapon is prohibited except when lethal force is authorized.
19. Uniformed personnel shall carry the authorized baton in its authorized holder on the duty gun belt. Plainclothes and non-field personnel may carry the baton as authorized and in accordance with the needs of their assignment or at the direction of their supervisor.
20. Other NOPD-issued equipment such as radios, rifles, shotguns, handguns, flashlights, and handcuffs shall not be used as impact weapons except in such circumstances where deadly/lethal force is authorized.

REQUIRED DOCUMENTATION

21. If a subject is arrested, the use of any control devices shall be documented in the related Electronic Police Report and any reports or forms (Blue Team and **Form 114**) required under **Chapter 1.3.6 – Reporting Use of Force**. The reporting member shall include, as appropriate:
 - (a) The type and manner of control devices used;
 - (b) How and if the suspect was treated and transported;
 - (c) Observations of the suspect's behavior during arrest, treatment and transport as well as any signs of physiological problems; and
 - (d) Any known injuries or suspected drug use or other possible medical problems.

EDUCATION AND TRAINING DIVISION RESPONSIBILITIES

22. Only officers who have successfully completed Department-approved training and maintained their qualifications in the use of any control device are authorized to carry and use the device.
23. The Education and Training Division shall ensure that each Department member authorized to carry and use the device:
 - (a) Receives instructions from a certified instructor on the proper use of the **PR-24 Rigid/Expandable Side-Handle Baton/PR-24 Control Device**, according to the Monadnock requirements. The Monadnock PR-24 Basic Course requires a minimum of 8 hours for a first time user.
 - (b) Receives instructions from a certified instructor on how the proper use of the **Monadnock Expandable Baton** according to the Monadnock Expandable Baton requirements. The Monadnock Expandable Baton basic course requires a minimum of 4 hours for the first time user.

Achieves a minimum score of 70% on a written exam on the functions and proper use of both the **Monadnock PR-24 and Expandable Baton**.

24. Upon passing the written portion of each examination, the student shall be required to demonstrate proficiency to at least minimum acceptable performance standards in all taught techniques of each device to a certified Monadnock PR-24 and Monadnock Expandable Baton Instructor before being certified to carry or use either baton.
25. The Education and Training Division shall manage the control device issuance, training, and the inventory(s).
26. Control devices will be annually inspected as part of the in-service training by Education and training Division personnel or the designated instructor for that device. The inspection shall be documented.
27. Damaged departmental control devices returned to the Education and Training Division shall be properly disposed of, repaired, or replaced.
28. The Commander of the Education and Training Division or the designated Training Coordinator shall ensure:
 - (a) Proficiency training is monitored and documented by the appropriate certified control device, weapons or tactics instructor;
 - (b) Retraining for all control devices should occur pursuant to the manufacturer's guidelines or every two years at a minimum;
 - (c) All training and proficiency for control devices will be documented in the officer's training file; and
 - (d) Officers who fail to demonstrate proficiency with the control device or knowledge of **Chapter 1.3 - Use of Force** and **Chapter 1.3.6 – Reporting Use of Force** will be provided remedial training. If an officer cannot demonstrate proficiency with a control device or knowledge of the Department's regulations after remedial training, the officer shall be immediately restricted from carrying the control device and may be subject to discipline.

REPORTING USE OF FORCE FOR CONTROL DEVICES AND TECHNIQUES

29. Any reportable use of force including, but not limited to any application of an impact weapon, control device or anatomical control technique excluding hand control or escort techniques applied for the purposes of handcuffing, or escort techniques that are not used as pressure point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance listed within this policy shall be documented in the related incident report and reported pursuant to the Use of Force Policy.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 1.3.2

TITLE: FORCE INVESTIGATION TEAM (FIT)

EFFECTIVE: 12/6/15

REVISED: Replaces Policy/Procedure 310

PURPOSE

The purpose of this Chapter is to set standards for the Force Investigation Team (FIT) to investigate and assess all serious uses of force involving department members in a fair and impartial manner utilizing individuals with appropriate expertise, independence, and investigative skills to ensure that uses of force that are contrary to law or policy are identified and appropriately resolved; that policy, training, equipment, or tactical deficiencies related to the use of force are identified and corrected; and that investigations of sufficient quality to ensure that officers are held accountable, as necessary, are conducted

POLICY STATEMENT

1. FIT shall fully and fairly investigate all serious uses of force. In addition to all serious uses of force, FIT shall investigate uses of force indicating apparent criminal conduct by an officer, unless referred to another law enforcement agency; uses of force by Department members of a rank higher than sergeant; uses of force reassigned to FIT by the Superintendent, the Superintendent's designee, or the Public Integrity Bureau (PIB); and any death, serious physical injury or injuries requiring treatment at a hospital associated with a police pursuit. FIT also shall investigate all instances in which an individual has died while in, or as an apparent result of being in, the custody of NOPD. FIT members shall identify all policy, training, equipment, or tactical deficiencies related to the use of force. FIT investigations may result in criminal charges, administrative action, or both.
2. NOPD's Homicide Section shall not investigate any officer-involved serious use of force or any NOPD in-custody death. When it is appropriate to ensure the fact and appearance of impartiality, NOPD may refer investigations of serious use of force, or force indicating apparent criminal conduct by an officer, to an independent, competent external agency, such as the Federal Bureau of Investigations.
3. FIT shall be composed of members who are specially trained in both criminal and administrative force investigations. Members of FIT shall be assigned to PIB and shall not be assigned to any district.

DEFINITIONS:

Definitions related to this policy include:

Critical firearm discharge—A discharge of a firearm by an NOPD officer, including discharges when no person or animal is struck. Range and training firings, humane destruction of animals, and off-duty hunting discharges when no person is struck are not critical firearms discharges.

Deadly force/lethal force—Any force likely to cause death or serious physical injury. The use of a firearm (discharge) is considered deadly force. Neck holds and strikes to the head, neck, or throat with a hard object are considered deadly force.

Conducted electrical weapon (CEW)—A weapon designed primarily to discharge electrical impulses into a subject that will cause involuntary muscle contractions and override the subject's voluntary motor responses.

CEW application—The contact and delivery of electrical impulse to a subject with a CEW.

Force Investigation Team (FIT)— The NOPD unit tasked with conducting investigations of serious uses of force; uses of force indicating apparent criminal conduct by an officer; uses of force by NOPD personnel of a rank higher than sergeant; and uses of force reassigned to FIT by the Superintendent, the Superintendent's designee, or PIB. FIT also shall investigate all instances in which an individual has died while in, or as an apparent result of being in, the custody of NOPD.

Force statement— A written statement required as part of the departmental Use of Force Report (in Blue Team application and Form #114). The Force Statement is completed by an involved officer or witness officer documenting a use of force. A Force Statement is not considered a compelled statement under *Garrity v. New Jersey* or under analogous State law. The statement can be considered compelled only when the officer is ordered to provide a statement after refusing to do so on the grounds that the officer has a reasonable, good faith belief that such statement may incriminate himself/herself.

Force tracking number—A unique number assigned by FIT to each reportable use of force event to facilitate awareness event and tracking of a use of force investigation. The number includes the letters "FTN" for force tracking number, followed by the year the force event occurred followed by a three digit sequential number starting with 001 for the first recorded allegation of the year. FTN 2014-001 indicates the first reportable use of force event in 2014.

In-custody death—An incident in which an individual died while in, or as an apparent result of being in, the custody of NOPD.

Involved Officer (IO)— An involved officer is an officer who used force, or against whom force was used.

Lead investigator—The principal person conducting the investigation and responsible for authoring the report.

Neck hold— One of the following types of holds: (1) arm-bar control hold, a hold that inhibits breathing by compression of the airway in the neck; (2) carotid restraint hold, a hold that inhibits blood flow by compression of the blood vessels in the neck; (3) lateral vascular neck constraint; or (4) a hold with a knee or other object to the back of a prone subject's neck. A neck hold is considered lethal force.

Public safety statement— A statement by an involved or witness officer that describes the type of force used, the direction and approximate number of shots fired by the involved officer (or officers) and the suspect (or suspects), the location of an injured person, the description of outstanding suspect(s) and the direction of the suspect's flight, the time lapse since the suspect was last seen, whether the suspect is armed, any other information that could assist in the apprehension of outstanding suspects, description(s) of any victims or witnesses, description and location of any know evidence, and any other information to ensure officer and public safety.

Sequestered—The separation and isolation of officers, witnesses or accused from others who may have involvement in or be witness to an action that is under investigation by the NOPD either internally or criminally. The intent is to preserve the clarity and accuracy of the individual's independent recollection of events and actions and to minimize, to the extent reasonably possible, contamination of memory by group discussion or conversation. This does not apply to those cases where the sequestered persons are exercising legally protected rights (e.g. access to legal counsel, labor representative, etc. –see R.S. 40:2531).

Serious physical injury—Physical injury that creates a substantial risk of death, causes death or serious and protracted disfigurement, or causes impairment of the function of any bodily organ or limb.

Serious use of force—Include the following:

- All uses of lethal force by an NOPD officer;
- All critical firearm discharges by an NOPD officer;
- All uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization;
- All neck holds;
- All uses of force by an NOPD officer resulting in a loss of consciousness;
- All canine bites;
- More than two applications of an CEW on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive; and
- Any strike, blow, kick, CEW application or similar use of force against a handcuffed subject.

Supervisor—A sworn NOPD employee at the rank of sergeant or above (or anyone acting in those capacities) and non-sworn NOPD members with oversight responsibility for officers.

Use of force—Physical effort to compel compliance by an unwilling subject above unresisted handcuffing, including pointing a firearm at a person.

Use of force indicating apparent criminal conduct by an officer—Force that a reasonable and trained supervisor would conclude could result in criminal charges due to the apparent circumstances of the use of force. The level of the force used as compared to the resistance encountered, discrepancies in the use of force as described by the officer and the use of force as evidenced by any resulting injuries, witness statements, or other evidence are examples.

Use of Force Levels—For reporting and investigative purposes, the New Orleans Police Department categorizes use of force by its members into four (4) primary force levels:

LEVEL 1

Level-1 uses of force include pointing a firearm or CEW at a person and hand control or escort techniques (e.g., elbow grip, wrist grip, or shoulder grip) applied as pressurepoint compliance techniques or that result in injury or complaint of injury. (Note: Hand control or escort techniques applied for the purposes of handcuffing or escorts that are not used as pressure point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance, are not reportable uses of force.)

LEVEL 2

Level-2 uses of force include use of a CEW (including where a CEW is fired at a person but misses); use of an impact weapon to strike a person but where no contact is made; use of a baton for non-striking purposes (e.g., prying limbs, moving or controlling a person); and weaponless defense techniques (e.g., elbow strikes, kicks, leg sweeps, and takedowns).

LEVEL 3

Level-3 uses of force include any strike to the head (except for a strike with an impact weapon); use of impact weapons when contact is made (except to the head), regardless of injury; or the destruction of an animal.

LEVEL 4

Level-4 uses of force include all 'serious uses of force' as listed below:

- All uses of lethal force by an NOPD officer;
- All critical firearm discharges by an NOPD officer;
- All uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization;
- All neck holds;
- All uses of force by an NOPD officer resulting in a loss of consciousness;
- All canine bites;
- More than two applications of an CEW on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive; and
- Any strike, blow, kick, CEW application or similar use of force against a handcuffed subject.
- Any vehicle pursuit resulting in death, serious physical injury, or injuries requiring hospitalization.

Use of Force Report—A written report documenting a supervisor's investigation of a use of force (in Blue Team application and Form #114).

Witness officer (WO) — A witness officer is any officer at the scene of an event when force was used. Whether or not the officer witnessed the actual application of force is not necessary for the officer to be considered a witness officer.

CRIMINAL AND ADMINISTRATIVE SECTIONS

4. The Force Investigation Team is a sub-unit of the Public Integrity Bureau. The supervisor in charge of FIT reports directly to the PIB Deputy Superintendent.
5. The Force Investigation Team is divided into administrative and criminal sections. Information obtained through a criminal investigation can be shared with administrative investigators and made part of the administrative investigation. Consistent with applicable law, compelled statements obtained as a result of an administrative investigation shall not be shared with criminal investigators and cannot be made part of the criminal investigation.
6. If an investigation proceeds criminally, any compelled interview of the subject officers shall be delayed. Officers' routine reports and public safety statements are not compelled statements. No other part of the investigation shall be held in abeyance unless specifically authorized by the Superintendent.

CRIMINAL SECTION

10. FIT investigative information may also be used for training purposes.

IMMEDIATE SUPERVISORY AND FIT DUTIES

11. The on-scene supervisor shall immediately notify FIT, via the Command Desk, and FIT shall respond to:

 - (d) Advising the subject of his/her rights and then interviewing the subject for complaints of pain; and ensuring that the subject receives medical attention from an appropriate medical care provider;
 - (e) Ensuring that the incident scene is processed and that all evidence related to the use of force is collected, including, but not limited to, audio and video recordings, photographs, and other documentation of injuries or the lack thereof (any evidence that cannot be collected, for whatever reason, must be specifically documented in the investigative report. (e.g. the subject's refusal to have injuries photographed));
 - (f) Identifying all officers who were involved in the incident, witnessed the incident, or were on the scene when it occurred;
 - (g) Ensuring a canvas for and interview of civilian witnesses is conducted. Whenever possible, interviews shall be recorded, including those where the person interviewed states she/he did not witness any part of the incident. ;

 - (m) Considering all relevant evidence, including circumstantial, direct, and physical evidence, and making credibility determinations as necessary; and
 - (n) Making all reasonable efforts to resolve material inconsistencies between the officer, subjects, and witness statements, as well as inconsistencies between the level of force claimed by the officer and the subject's injuries.
16. FIT shall complete a preliminary report that shall be presented to the Superintendent or his/her designee as soon as possible, but in no circumstances later than 24 hours after learning of the use of force.

 - (e) Ensuring that the supervisor who wrote the use of force report completed his/her supervisory review, including viewing of relevant video evidence;
 - (f) Considering all relevant evidence, including circumstantial, direct, and physical evidence, and making credibility determinations as necessary.
 - (g) Making an assessment that the findings of the investigating supervisor are made based upon a preponderance of the evidence presented in her/his report.
19. Whenever FIT discovers that use-of-force reports are deficient, FIT shall return the report to the supervisor who wrote the report with instructions for its completion. FIT will forward a copy of the memo returning the use of force report for further action to the investigating sergeant's commanding officer.
20. When an investigating supervisor fails to correct a deficient investigation or repeatedly conducts deficient investigations, FIT shall refer a report of the supervisor's conduct to PIB for an administrative investigation. The supervisor shall be subject to corrective action including counseling, training, demotion, and/or removal from a supervisor position in accordance with Civil Service rules.

DISTRICT ATTORNEY NOTIFICATION

21. If the incident results in the apprehension of a suspect, the FIT investigator shall submit a complete report to the Orleans Parish District Attorney's Office within twenty-one days of the apprehension. If the suspect was hospitalized as a result of force used by an officer, the twenty-one day time frame begins at the time of booking.

ORLEANS PARISH CORONER'S OFFICE

24. FIT investigators shall request and obtain, when available, a completed Coroner's Report from the Orleans Parish Coroner's Office within 30 days regarding a death to a use of force the District Attorney or other investigating agency regarding any non-natural cause of death or homicide declaration within 60 days after the use of force.

PUBLIC STATEMENTS/MEDIA RELEASE

25. The NOPD Public Information Office shall prepare a media release, with input and concurrence from the investigating supervisor and the agency representative responsible for each phase of the investigation. These releases will be available to the lieutenant in charge of the Force Investigation Team or lead investigator in the event of inquiries from the media.
26. The name(s) of the involved officer(s) may be withheld for 24 - 48 hours. Any request for the name(s) of the involved officer(s) will be referred to the Superintendent for action.
27. No involved officer shall make any comments to the media unless authorized by the Superintendent or a Deputy Superintendent (R.S. 40:2532).
28. Employees receiving inquiries regarding incidents occurring in other agency jurisdictions shall refrain from comment and will direct inquiries to the agency having jurisdiction and primary responsibility for the investigation.

INVOLVED OFFICERS

29. Once the involved officer(s) have been sequestered, the Platoon Supervisor or other on-scene supervisor shall notify each officer that the incident shall not be discussed with any NOPD member except with authorized members or representatives. The following shall be considered for the involved officer (R.S. 40:2531):
 - (a) Any request for legal or officer representation (e.g., employee association) shall be accommodated.
 - (b) While discussions with a licensed attorney are considered privileged as attorney-client communications, involved officers shall not be permitted to meet with other involved officers or with witness officers prior to providing a formal interview or report.
 - (c) Discussions with officer representatives (e.g., employee association) will be privileged only as to the discussion of noncriminal information. However, involved officers shall not be permitted to meet with other involved officers or with witness officers prior to providing a formal interview or report.
 - (d) A psychologist or other psychotherapist shall be provided by the Department to each involved officer or any officer upon request.
 1. Interviews with a licensed psychotherapist are considered privileged and will not be disclosed except to the extent that a report is required to determine whether the officer is fit for return to duty.
 2. If an interview or session with a licensed psychotherapist takes place prior to the involved officer providing a formal interview or report, the involved officer shall not be permitted to consult or meet collectively or in a group with a licensed psychotherapist prior to providing a formal interview or report.
 - (b) Although the Department will honor the sensitivity of communications with peer counselors, **there is no legal privilege to such communications**. Peer counselors are cautioned not to discuss the facts of any incident with an involved or witness officer.
30. Care should be taken to preserve the integrity of any physical evidence present, especially on the officer's equipment or clothing. Items such as trace evidence (i.e., DNA, blood or fingerprints) are highly perishable until they can be properly retrieved and preserved by lab members or investigators.

31. Investigators shall make reasonable accommodations to the officer's physical and emotional needs.

PURSUIT RELATED MOTOR VEHICLE CRASHES AND OFFICER INVOLVED SHOOTINGS

32. When motor vehicle crashes involving a suspect vehicle and other civilian vehicles occur during the course of a Use of Force Incident (vehicle pursuit), members of the district of occurrence shall complete an official crash report supplied by the Department of Motor Vehicles. Such approved reports shall be made a part of the FIT Report as an attachment.
33. If an officer involved in a vehicle pursuit or any part of an incident which involves a motor vehicle crash while driving a department vehicle, the on duty/on call Traffic Section Unit investigator shall conduct an investigation and complete a crash report supplied by the Louisiana Department of Motor Vehicles. Such approved reports shall be made a part of the FIT Report as an attachment.
34. If the motor vehicle crash results in a fatality or serious physical injury which may result in death, members of the Traffic Fatality Section shall investigate that portion of the incident and complete a crash report. Such approved crash reports shall be made a part of the FIT Report as an attachment.

RECORDS AND DATA

35. FIT shall be responsible for maintaining all files and records on all use of force incidents, both those investigative by FIT and those investigated at the unit level.
36. Because FIT is divided into two sections (Criminal and Administrative), FIT shall maintain and file cases investigated by each section separately. Discussions on related cases (administrative and criminal) involving the same officers or factual occurrence are confined to members of the appropriate section of FIT. FIT Criminal Investigators shall not access compelled statements or discuss their contents. FIT Administrative Investigators shall not disclose to or discuss with any criminal investigators the contents of compelled statements.
37. At the conclusion of each use-of-force investigation, FIT shall prepare an investigative report that shall include:
 - (a) a narrative description of the incident, including a precise description of the evidence that either justifies or fails to justify the officer's conduct based on FIT's independent review of the facts and circumstances of the incident;
 - (b) a summary of the investigative steps taken during the investigation, including but not limited to conducting a canvas for witnesses;
 - (c) documentation of all evidence gathered, including names, phone numbers, and addresses of witnesses to the incident. In situations in which there are no known witnesses, the report shall specifically state this fact. In situations in which witnesses were present but circumstances prevented the author of the report from determining the identification, phone number or address of those witnesses, the report shall state the reasons why. The report should also include all available identifying information for anyone who refuses to provide a statement;
 - (d) the names of all other NOPD employees at the scene when the use of force took place;
 - (e) making all reasonable efforts to resolve material inconsistencies between the officer(s), subject(s), and witness statements;

- (f) explain the justification for, and reasoning used to make credibility determinations as part of the investigative summary;
 - (g) FIT's evaluation of the use of force, based on FIT's review of the evidence gathered, including a determination of whether the officer's actions appear to be within NOPD policy and consistent with state and federal law;
 - (h) An assessment of the incident for tactical and training implications, including whether the use of force may have been avoided through the use of de-escalation techniques or lesser force options;
 - (i) If a weapon was used, documentation that the officer's certification and training for the weapon are current; and
 - (j) Documentation of any disciplinary and/or non-disciplinary corrective action recommended.
38. FIT shall maintain, on an ongoing basis, statistical data concerning use-of-force incidents and reports. At least once a year, FIT shall conduct a comprehensive review and analysis of all use-of-force incidents and reports, and FIT shall draft a public report. The public report shall identify any significant patterns or trends; it shall also identify and correct deficiencies including those that indicate training needs, equipment problems, or that policy changes may be required.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 1.3.6

TITLE: REPORTING USE OF FORCE

EFFECTIVE: 12/6/15

REVISED: Replaces Policy/Procedure 300

PURPOSE

The purpose of this Chapter is to set forth requirements for reporting and investigating an incident in which an NOPD officer used a reportable level of force and to ensure that such incidents are thoroughly investigated in a fair and impartial manner.

POLICY

1. It is the policy of this Department that every reportable use of force by an NOPD officer be reported accurately, completely, and promptly, and investigated with the utmost thoroughness, professionalism and impartiality to determine if the officer actions conform to the law, complies with the Department's Chapter on use of force, and was consistent with NOPD training.
2. NOPD force reporting and investigation allows the Department and community to better understand officer use of force. It enables the Department to determine the appropriateness of officer actions during the incident and to determine whether the incident indicates any need to change NOPD policy, tactics, training or equipment. Force reporting and investigation thus is critical to promoting officer safety and the integrity of the Department.
3. The Force Investigation Team (FIT) shall be responsible for investigating all incidents involving Deadly Force, Serious Use of Force or the Use of Force Indicating Potential Criminal Conduct (see definitions). FIT's responsibilities are further set out in **Chapter 1.3.2 – Force Investigation Team**.

RESPONSIBILITY TO REPORT USES OF FORCE – GENERAL

4. Officers who use force or observe the use of force shall notify their supervisors immediately following any use-of-force incident. Officers shall notify their supervisors upon receipt of an **allegation of unreasonable or unreported use of force by an officer. Officers who observe force and fail to report it shall be subject to disciplinary action, up to and including termination.**

5. Officer(s) who use force shall complete a Force Statement and any associated NOPD Incident Reports(s). An officer who witnesses a use of force or was present at the scene when the force was used also must complete a Force Statement. These forms shall be completed and forwarded to the officer's immediate supervisor for review and approval prior to the end of his/her tour of duty, unless prevented by injury. (**See Chapter 1.3.6 – Reporting Use of Force** for list of what must be included in the force statement.)
6. A department member who has been assigned a BWC device may review his or her own BWC recording before completing a Force Statement to help insure accuracy and consistency of accounts (**Chapter 41.3.10 – Body Worn Camera**) A department member involved in any use of force incident or accident causing injuries will be permitted, but will not be required, to review his/her own BWC recordings prior to providing a recorded statement or completing reports. Witness department members will only be allowed to review BWC recordings consistent with **Chapter 41.3.10 – Body Worn Camera**. However, department members must complete their Force Statements before the end of their tour of duty in which force is used and review of BWC recordings shall not unduly delay the timely submission of a member's other reports.
7. All public safety statements and other officer statements in incident reports, arrest reports, force statements and similar documents, and statements made in interviews such as those conducted in conjunction with NOPD's routine use of force reviews and investigation processes, are part of each officer's professional duties.
8. A supervisor who uses force or is involved in a reportable incident, to include ordering the force being investigated or participating in the incident leading up to the use of force, shall not investigate the incident or review the Force Statements for approval. The involved supervisor shall notify his/her supervisor immediately following any use of force in which he or she is an Involved or Witness Officer.
9. The supervisor approving the officer's Force Statement or completing the Use of Force Report shall ensure the reason for any delay is documented. Whether on duty or off duty, officers who use or observe a use of force and fail to report it in a timely manner shall be subject to disciplinary action.

DEFINITIONS

Force Investigation Team (FIT)—The NOPD unit tasked with conducting investigations of serious uses of force; uses of force indicating apparent criminal conduct by an officer; uses of force by NOPD personnel of a rank higher than sergeant; and uses of force reassigned to FIT by the Superintendent, the Superintendent's designee, or PIB. FIT also shall investigate all instances in which an individual has died while in, or as an apparent result of being in, the custody of NOPD.

Force Statement—A written statement required as part of the departmental Use of Force Report (In Blue Team application and Form #114). The Force Statement is completed by an involved officer or witness officer documenting a use of force. A Force Statement is not considered a compelled statement under *Garrity v. New Jersey* or under analogous State law. The statement can be considered compelled only when the officer is ordered to provide a statement after refusing to do so on the grounds that the officer has a reasonable, good faith belief that such statement may incriminate himself/herself.

Involved Officer—An involved officer is an officer who used force, or against whom force was used.

Public Safety Statement—A statement by an involved or witness officer that describes the type of force used, the direction and approximate number of shots fired by the involved officer (or officers) and the suspect (or suspects), the location of an injured person, the description of outstanding suspect(s) and the direction of the suspect's flight, the time lapse since the suspect was last seen, whether the suspect is armed, any other information that could assist in the apprehension of outstanding suspects, description(s) of any victims or witnesses, description and location of any know evidence, and any other information to ensure officer and public safety.

Use of Force Report—A written report documenting a supervisor's investigation of a use of force (in Blue Team application and Form #114).

Witness Officer—A witness officer is any officer at the scene of an event when force was used. Whether or not the officer witnessed the actual application of force is not necessary for the officer to be considered a witness officer.

LEVELS OF REPORTABLE USE OF FORCE

10. For reporting and investigative purposes, the Department categorizes use of force by its members into four (4) force reporting levels:

LEVEL 1

11. Level-1 uses of force include pointing a firearm or CEW at a person and hand control or escort techniques (e.g., elbow grip, wrist grip, or shoulder grip) applied as pressurepoint compliance techniques or that result in injury or complaint of injury. (Note: Hand control or escort techniques applied for the purposes of handcuffing or escorts that are not used as pressure point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance, are not reportable uses of force.)

LEVEL 2

12. Level-2 uses of force include use of a CEW (including where a CEW is fired at a person but misses); use of an impact weapon to strike a person but where no contact is made; use of a baton for non-striking purposes (e.g., prying limbs, moving or controlling a person); and weaponless defense techniques (e.g., elbow strikes, kicks, leg sweeps, and takedowns).

LEVEL 3

13. Level-3 uses of force include any strike to the head (except for a strike with an impact weapon); use of impact weapons where contact is made (except to the head), regardless of injury; or the destruction of an animal.

LEVEL 4

14. Level-4 uses of force include all '*serious uses of force*' as listed below:
- (a) All uses of lethal force by an NOPD officer;
 - (b) All critical firearm discharges by an NOPD officer;
 - (c) All uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization;
 - (d) All neck holds;
 - (e) All uses of force by an NOPD officer resulting in a loss of consciousness;
 - (f) All canine bites;
 - (g) More than two applications of a CEW on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive;
 - (h) Any strike, blow, kick, CEW application, or similar use of force against a handcuffed subject; and
 - (i) Any vehicle pursuit resulting in death, serious physical injury or injuries requiring treatment at a hospital.

NON-REPORTABLE LEVELS OF FORCE

15. Hand control or escort techniques applied for the purposes of handcuffing or escorts that are not used as pressure point compliance techniques, do not result in injury or complaint of injury, and are not used to overcome resistance, are not reportable uses of force, e.g., simply handcuffing someone, simply escorting a handcuffed prisoner.

OFFICER REPORTING REQUIREMENT**Force Statement Requirement**

16. Depending on the level of reportable use of force, as set forth below, an Involved Officer (IO) and/or Witness Officer (WO) may be required to prepare a Force Statement. The officer shall independently prepare his or her Force Statement and include facts known to the officer, to include:
- (a) A detailed account of the incident from the officer's perspective;
 - (b) The reason for the initial police presence, e.g.: response to (nature of) call, on-view suspicious activity (describe the suspicious activity), flagged by a citizen (nature of citizen's concern), shots fired, or screams heard, etc.;
 - (c) A specific description of the acts that led to the use of force;
 - (d) The specific description of resistance encountered;
 - (e) A description of every type of force used or observed;
 - (f) Names of all assisting officers and supervisors participating in the actions leading up to the use of force;
 - (g) The name of the supervisor the involved officer notified, and the time of the notification;
 - (h) The name of the supervisor who responded to the scene;

- (i) Names, if know, of any civilian witnesses;
 - (j) A description of any injuries suffered by the officer, subject, or witnesses;
 - (k) Whether a body-worn camera was activated and its identifiable file location;
 - (l) Whether a vehicle camera was activated and its identifiable file location; and
 - (m) Whether a CEW activation occurred, even if the CEW was not discharged.
17. Officers shall not make conclusory statements, including the use of “boilerplate” or “pat” language (e.g., “suspect made a furtive movement” or “suspect took a fighting stance”) in statements and reports documenting use of force. A specific description of an individual’s action(s) that led to the perceived need for a use of force response by an officer must be clearly articulated.
18. Witness officers should prepare a Force Statement if they were present on the scene at the time of the application of force even if they did not witness the actual application of force. Their Force Statements should describe the role they played and include information on what they saw or heard firsthand. If the witness officer did not hear or see any part of the application of force, the Force Statement should so indicate.

Level 1 Use of Force

19. Following a reportable Level 1 use of force incident, the officer using force shall:
- Immediately notify his/her supervisor.
 - Complete a Force Statement prior to the end of his/her tour of duty
 - Complete an NOPD Incident Report on the underlying offense that required the Use of Force. All critical information surrounding the officer’s Level 1 Use of Force should be included in this report.
 - The Force Statement and all associated NOPD Incident Reports shall be provided to the same reviewing/approving supervisor prior to the officers’ end of tour of duty.

Witness officers may also be required to prepare a force statement if directed to do so by a supervisor.

Level 2 – 4 Use of Force

20. Each officer using a Level 2 through 4 use of force shall immediately notify his/her immediate supervisor and shall:
- Provide a public safety statement to the responding supervisor;
 - Complete a Force Statement prior to the end of his/her tour of duty; and
 - Complete an NOPD Incident Report on the underlying offense that required the Use of Force. All critical information surrounding the officer’s Level 1 Use of Force should be included in this report
21. Each officer present at the scene (i.e., all Involved Officers and Witness Officer) of a Level 2, Level 3, or Level 4 use of force shall also prepare a Force Statement.

22. All Involved Officers or Witness Officers shall provide their Force Statements and the corresponding NOPD Incident Report to the same reviewing/approving supervisor prior to each officer's end of tour of duty.

INVESTIGATING SUPERVISOR'S RESPONSIBILITY – GENERAL

23. Supervisors are required to write a Force Statement if they fit the definition of an Involved Officer or Witness Officer as defined above. If they are a Witness or Involved Officer, they must follow the requirements of this Chapter.

REPORTING LEVEL 1

24. Upon notification by an officer of a Level 1 Use of Force, the supervisor shall:
- If possible, respond to the scene of the event to conduct an on-scene review;
 - Ensure that all Involved Officers complete and submit a Force Statement prior to the end of their tour of duty;
 - Require Witness Officer to prepare a Force Statement if any aspect of the use of force is under question;
 - Contact FIT, obtain a Force Tracking Number, and ensure the force tracking number is entered on the Force Statement, in the narrative of the associate EPR and on all other associated documents;
 - Ensure the Involved Officer has completed and submitted the underlying NOPD Incident Report prior to the end of the officer's tour of duty;
 - Elevate and investigate any use of force that has been inappropriately characterized as a Level 1 Use of Force;
 - Upon approving the NOPD Incident Report and Force Statement(s), forward the complete packet through the chain of command to the District/Division Commander.

REPORTING LEVEL 2 OR 3

25. Supervisors shall thoroughly investigate and complete a Use of Force Report for all Level 2 and Level 3 uses of force, with the exception of:
- Those incidents involving a serious use of force (Level 4 use of force);
 - Uses of force indicating apparent criminal conduct by an officer;
 - A use of force incident by NOPD personnel of a rank higher than the supervisor assigned to investigate the incident; or
 - A use of force Investigation reassigned to FIT through determination made by the Superintendent or his or her designee or PIB.
26. Supervisors shall be held accountable for the timely, accurate, and thorough investigation and documentation of all use-of-force incidents under their command or assigned to them for review and shall further ensure the provisions of all policies and procedures are properly applied.

27. Upon notification of a Level 2 or Level 3 use of force incident or allegation of excessive force, the officer's (s') immediate supervisor shall:
- Respond to the scene, examine the subject of the force for injury, interview the subject for complaints of pain after advising the subject of his/her rights, and ensure the subject receives medical attention from an appropriate medical provider;
 - Obtain statements from the Involved Officers and Witness Officers;
 - Notify PIB immediately of the use of force and obtain a use of force tracking number;
 - Identify and collect all relevant evidence and evaluate that evidence to determine whether the use of force:
 - Was consistent with NOPD policy, and/or
 - Raises any policy, training, tactical, or equipment concerns;
 - Ensure that all evidence to establish material facts related to the use of force, including audio and video recordings, photographs, and other documentation of injuries or the absence of injuries are identified, collected, documented, and preserved;
 - Ensure that a canvass for, and interview of, civilian witnesses is conducted (Civilian witnesses should be encouraged to provide and sign a written statement in their own words);
 - Ensure all officers who witnessed a use of force incident by another officer provide an independently prepared Force Statement;
 - Sequester officers involved in a use of force incident until interviewed; group Interviews are prohibited;
 - Ensure that Use-of-Force Reports identify all officers who were involved in the incident, witnessed the incident, or were on the scene when it occurred;
 - Not ask officers or other witnesses leading questions that suggest legal justifications for the officers' conduct;
 - Record all interviews with civilian witnesses and all follow-up interviews with officers.
 - Subjects shall be advised of their rights and that they are being questioned only about the use of force. Interviews with subjects (including advisements of rights) shall be recorded. During such force investigation interviews the supervisor shall advise the subject that he or she is only questioning the subject about the use of force.
 - Review all Force Statements and ensure all officer and witness officers' statements include material facts.
 - Consider all evidence (circumstantial, direct, physical evidence, etc.) that may be relevant to the investigation, and make credibility determinations, if feasible. Supervisors will make all reasonable efforts to resolve material inconsistencies between statements (officers, civilians, subject, witness, etc.), as well as inconsistencies between the level of force claimed by the officer and the subject's injuries.

28. Should the assigned supervisor at any point during a use-of-force investigation make a determination that the force used should be elevated to a Level 4 investigation; the supervisor shall immediately contact his/her District/Division Commander and the PIB Force Investigation Team for on-scene assistance. FIT, at its discretion, may take over the investigation. However, if, after a review of the facts and circumstances, the use of force meets the criteria for Level 4 use of force, FIT shall assume the investigation.

REPORTING LEVEL 4

For all Level 4 use of force incidents, supervisor(s) shall:

- Respond to the scene;
- Obtain a public safety statement from the involved officer;
- Ensure aid is given to any injured party;
- Secure the scene, limit access to essential personnel and ensure evidence is preserved;
- Coordinate the pursuit/apprehension of any outstanding suspects;
- Notify FIT via the Command Desk; and
- Provide assistance and support as required by the PIB Force Investigation Team. (See **Chapter 1.3.2 – Force Investigation Team**)

USE OF FORCE – INVESTIGATING SUPERVISOR’S REPORTING REQUIREMENTS FOR LEVEL 2 & LEVEL 3 USE OF FORCE

29. For all investigations into Level 2 or Level 3 use of force events the supervisor shall provide a written gist to the Division Commander by the end of his/her shift documenting his/her preliminary determination of the appropriateness of the use of force, including whether the force was reasonable and within policy, and whether the injuries appear proportionate to the use of force described. The written gist shall also include summaries of subject, witness, and officer statements.
30. The supervisor will complete and document the investigation within 72 hours of the conclusion of the tour of duty in which the incident occurred. The supervisor will document the investigation using a Use of Force Report (in Blue Team application and Form #114), and submit it through his/her chain of command to PIB. Any extension to this 72-hour deadline must be authorized by a District/Division Commander.
31. The supervisor’s Use of Force Report shall include:
- The supervisor’s narrative description of the incident, including a precise description of the evidence that either justifies or fails to justify the officer’s conduct based on the supervisor’s independent review of the facts and circumstances of the incident;
 - A summary of the investigative steps taken during the investigation, including but not limited to conducting a canvas for witnesses;
 - Documentation of all evidence gathered, including names, phone numbers, and addresses of witnesses to the incident. In situations in which there are no known witnesses, the report shall specifically state this fact. In situations in which witnesses were present but circumstances prevented the author of the report

from determining the identification, phone number or address of those witnesses, the report shall state the reasons why. The report should also include all available identifying information for anyone who refuses to provide a statement;

- The names of all other NOPD employees at the scene when the use of force took place;
- Documentation of any non-disciplinary corrective action taken;
- Documentation of injuries incurred by the officer or subject, to include photos and records of treatment at hospital;
- Identify all audio/video recordings (e.g., Taser, BWC, DMVAR, surveillance, or other existing video recording) that exist and whether the supervisor reviewed them;
- Include as attachments to the use of force report:
 - Force statements by all officers using or witnessing the use of force;
 - A copy of all associated Incident Reports;
 - A copy of any arrest reports;
 - Copies of any hospital records if treatment was obtained; and
 - Copies of any photos or audio/video tapes associated with the incident.
- The investigating supervisor's evaluation of the use of force, based on the supervisor's review of the evidence gathered, including a determination of whether the officer's actions appear to be within NOPD policy and consistent with state and federal law; and an assessment of the incident for tactical and training implications, including whether the use of force may have been avoided through the use of de-escalation techniques or lesser force options.

32. In the event multiple officers are involved in a single incident, regardless of the varying levels of force used by a particular officer involved, the investigating supervisor shall prepare only one Use of Force Report listing all involved personnel. When multiple levels of force are used, the highest level of force shall determine the investigative responsibility.

REPORTING AND INVESTIGATING UNREPORTED OR UNREASONABLE FORCE

33. When anyone reports to a supervisor an unreasonable or previously unreported use of force the supervisor will conduct a preliminary investigation into the allegation, including responding to the scene of the incident to identify and interview witnesses and preserve evidence. The supervisor also shall inform PIB immediately of the allegation of unreported or unreasonable force; PIB shall complete an appropriate investigation pursuant to **Chapter 52.1- Employee Misconduct Complaints and Internal Disciplinary Investigations**.
34. When a supervisor assigned to handle a Level 2 or Level 3 investigation, *or in reviewing a Level 1 investigation*, determines possible misconduct may have occurred, the supervisor shall:
- (a) Criminal Misconduct—should the supervisor determine through investigation, or in review of a level 1 investigation, there may have been criminal misconduct on the part of the officer(s) involved in the use of force incident; the supervisor shall suspend the force investigation immediately and immediately notify PIB and FIT through the NOPD Communications Section / Command Desk. FIT will respond to the scene and assume the investigation.

- (b) Administrative Misconduct—where a force investigation indicates administrative misconduct, including a review of a Level 1 investigation, the reviewing/investigating supervisor shall immediately notify PIB and FIT through the NOPD Communications Section / Command Desk to respond to the scene. PIB will review the attendant facts as communicated by the supervisor and make a determination as to who will conduct the administrative investigation. The initiation of an administrative investigation shall be documented in the Use of Force Report to include the date/time PIB was notified and PIB control number assigned.

INVESTIGATING USE OF FORCE – COMMAND REVIEW OF USE OF FORCE INVESTIGATIONS AND USE OF FORCE REPORTS

35. The District/Division Commander shall be responsible for the accuracy, completeness, and timeliness of Use-of-Force Reports prepared by supervisors under his/her command. If the investigating supervisor requires more than 72 hours to complete the investigation and sufficient justification for an extension exists, the Commander will prepare a Form 105 explaining the need for the extension and providing the date by which the investigation will be completed. The Commander will immediately forward a copy of the signed and approved Form 105 to the Commander of PIB, ensuring the Force Tracking Number is entered on the memo.
36. The District/Division Commander, who receives a Level 1, 2 or 3 Use-of-Force Report, Force Statement(s), and any corresponding NOPD Incident Reports, shall review the documents to ensure they are complete and consistent, and that the findings are supported by the preponderance of the evidence. The District/Division Commander shall order additional action by the investigating supervisor when it appears there is relevant evidence that may assist in resolving inconsistencies or improve the reliability or credibility of the findings. In the event the Commanding Officer orders additional investigation by the supervisor, he should prepare a memo to the investigating supervisor describing the deficiencies and directing him to complete the additional tasks by a specific date. A copy of the Commander's memo to the supervisor should be sent to the Commander of PIB to alert him/her to any delay this may cause.
37. Only when the District/Division Commander finds the supervisor's initial Use-of-Force Report is complete and the findings are supported by the evidence will the investigation file be forwarded to PIB through the chain-of-command.
38. When the District/Division Commander determines the supervisor's findings of whether or not the officer's actions are within NOPD policy and consistent with state and federal law are not supported by a preponderance of evidence, the District/Division Commander shall document the reasons for this determination in a Form 105 and shall include the memo as an addendum to the original investigation. The District/Division Commander's review should include an assessment of the incident for tactical and training implications, including whether the use of force may have been avoided through the use of de-escalation techniques or lesser force options.

39. The District/Division Commander will be responsible for determining if any disciplinary action or additional training is required for investigations or reports that are deemed insufficient. The investigating supervisor's commander shall counsel the investigating supervisor regarding the inadequately supported determination and any investigative deficiencies that led to it. Where an investigating supervisor has repeatedly conducted deficient investigations, the supervisor shall receive the appropriate corrective action, including training, demotion, and/or removal from a supervisory position in accordance with performance evaluation procedures and/or Civil Service Rules.
40. PIB shall forward all Use-of-Force Report to the Education & Training Division for evaluation and revisions to training after PIB has reviewed the Use-of-Force Report..
41. Whenever the District/Division Commander finds evidence of a use of force indicating apparent criminal conduct by an officer that was not identified by the original investigating supervisor, he/she shall immediately notify the Commander of PIB requesting a FIT investigation be conducted. The PIB Commander immediately shall notify FIT, which will take over the investigation.

43. For all Level 4 use of force events, upon notification, the FIT supervisor will contact the on-scene supervisor and obtain a briefing of the circumstances of the use of force. EFFECTIVE: 8/23/15

REVISED: Replaces Policy 209

PURPOSE

The purpose of this Chapter is to promote proper firearm safety and establish a process for firearms training, qualification, and re-qualification by officers.

Employees shall recognize that safety is paramount when handling firearms.

POLICY STATEMENT

1. Only authorized personnel who have met all Louisiana State Peace Officer Standards and Training (POST) requirements, the requirements of this Chapter, and have been commissioned by the Superintendent of Police shall have the privilege to carry a firearm, as a police officer (peace officer) both on-duty and off-duty (see La. R.S. 40:2405).
2. Critical firearms discharges by officers on or off-duty shall be reported and investigated. (**Chapter 1.3.2 - Force Investigation Team**). NOPD also will investigate all unintentional discharges and discharges in which an animal is struck, whether or not the discharge is critical.
3. Commissioned members in probationary status and commissioned members who return from unarmed status are required to successfully complete firearms training and qualify for duty handgun and other service firearms before they are permitted to carry and use firearms. All recruits shall complete and satisfactorily pass POST firearms training and qualification for duty firearms before they may receive a commission.
4. Firearms instructors shall critically observe students and provide corrective instruction regarding deficient firearms techniques and failure to utilize safe gun-handling procedures at all times.
5. **Range Limitations.** No firearms will be allowed on the Department Firearms Range other than Department-owned or approved duty, backup and off-duty weapons.
6. **Firearms Limitations:** No personally owned firearms (handguns, shotguns, patrol rifles, etc.) may be carried or used on duty or on authorized police secondary employment unless pre-approved, in writing, by the current Superintendent of Police.

7. An officer may seek the written approval of the current Superintendent of Police to use his/her personally owned rifle in place of a Department-issue rifle as his/her duty rifle and/or his/her personally owned shotgun in lieu of a Department-issue shotgun provided that:
 - a. any such personally owned rifle and/or shotgun is identical in manufacturer, model, and caliber to current Department-issued-and-approved models;

8. Officers must seek re-approval for any personally owned rifle or shotgun upon any transfer of duty station or assignment to a specialized unit.
9. **Weapons Exemptions:** Due to the special nature of the duties performed by the Special Operations Division / Special Weapons and Tactics (SWAT), the specialized weapons utilized by the Division are covered under **Chapter 46 – Unusual Occurrences and Special Operations** except for those weapons specifically covered in this Chapter.

DEFINITIONS:

Definitions relevant to this Policy include:

Annually—For purposes of this policy, “annually” means no more than a 12-month period from the end of the month of the officer's previous qualification, not the maximum time frame allowed by Louisiana POST for firearms qualification (e.g. 1/1/2015 to 1/31/2016 is still considered 12 months for purposes of this definition.)

Duty handgun—The primary authorized firearm carried while on duty by NOPD officers. Duty handgun is synonymous with duty firearm and duty sidearm.

Duty shotgun—An authorized weapon, designed to be fired from the shoulder, which chambers a 12-gauge cartridge.

Failure to qualify—The result of a specific act that describes an attempt to qualify, but the officer's score of firearms proficiency does not meet or exceed the required minimum POST standards.

Night—For purposes of this Chapter, “night” means after sunset and before sunrise for that day according to the National Weather Service. Any training that is required to be done at night must completely fall within this period of time.

Off-duty handgun— A firearm carried by an officer while off duty **based on his/her authority as a police officer.** The firearm shall be required to meet the same guidelines as established for primary and secondary firearms or sidearms.

Patrol rifle—An authorized firearm, made available to properly trained and qualified officers as a supplemental resource to their duty handgun or duty shotgun.

Rangemaster—Any Louisiana Peace Officer Standards and Training Commission (POST) certified Firearms Instructor or Range Safety Officer designated by the Education and Training Division Range commander to serve as the officer in charge of the current activities on any firing range location. When present on the range, the Education and Training Division Range commander does not automatically assume this role, and he/she may delegate the duties to another qualified member.

Secondary handgun—An authorized firearm to be carried while on duty, under conditions set forth in this and related policies, in addition to the primary authorized firearm. A secondary handgun may be carried as an off-duty firearm.

Training manager—The Commander of the Education and Training Division or his/her designee, who coordinates and tracks all Departmental training.

Unarmed status—The period of time during which a commissioned member of the NOPD has had his/her authority to carry an authorized weapon as a police officer restricted or rescinded, for any reason, by the Superintendent or his/her designated representative.

All recruits shall complete and satisfactorily pass POST firearms training and qualification for duty firearms before they may receive a commission.
4. Firearms instructors shall critically observe students and provide corrective instruction regarding deficient firearms techniques and failure to utilize safe gun-handling procedures at all times.
5. **Range Limitations.** No firearms will be allowed on the Department Firearms Range other than Department-owned or approved duty, backup and off-duty weapons.

7. An officer may seek the written approval of the current Superintendent of Police to use his/her personally owned rifle in place of a Department-issue rifle as his/her duty rifle and/or his/her personally owned shotgun in lieu of a Department-issue shotgun provided that:

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 1.7.1

TITLE: CONDUCTED ELECTRICAL WEAPON (CEW)

EFFECTIVE: 12/6/15

REVISED: Replaces Policy/Procedure 309

PURPOSE

This policy, together with **Chapter 1.3 – Use of Force**, governs the issuance, carrying and use of conducted electrical weapons (CEW).

POLICY STATEMENT

1. CEWs are intended to control a violent individual while minimizing the risk of serious injury to the individual, officers or third-parties.
2. Officers shall use CEWs only when such force is necessary to protect the officer, the subject, or another party from physical harm, and other less intrusive means would be ineffective.
3. Mere flight from an officer is not sufficient cause for the use of a CEW.
4. CEWs are authorized for use when:
 - a.) a subject who may be lawfully detained or apprehended poses an immediate risk of harm to the officer(s) or others,
 - b.) attempts to subdue the subject with less intrusive means have been or will likely be ineffective, and
 - c.) there is an objectively reasonable expectation that it would be unsafe for officers to approach the suspect.
5. Officers who have been issued a CEW may use the device consistent with this Chapter and **Chapter 1.3 - Use of Force**.
6. Officers shall not carry a personally owned CEW.

DEFINITIONS:

Active Resistance—Resistance exhibited by a suspect that is between passive resistance and aggressive resistance (e.g., attempts to leave the scene, flee, hide from detection, or pull away from the officer's grasp). Verbal statements, bracing, or tensing alone do not constitute active resistance.

Aggressive Resistance—Is a subject's attempt to attack or an actual attack of an officer.

Exhibiting aggressive behavior (e.g., lunging toward the officer, striking the officer with hands, fists, kicks or any instrument that may be perceived as a weapon such as a knife or stick) are examples of aggressive resistance. Neither passive nor active resistance, including fleeing, pulling away, verbal statements, bracing, or tensing, constitute aggressive resistance.

Application—The actual contact and delivery of electrical impulse to the subject via probe discharge or drive stun.

Arcing—Pulling the trigger to activate a CEW without discharging the probes. This may be done as a warning to the subject or to test the CEW prior to deployment (also referred to as a spark test).

Cartridge—A replaceable vessel that generally contains compressed gas, probes, connecting wires, and confetti tags.

Complete the circuit or complete the incapacitation circuit—The ability of the CEW electrical pulse to travel between the probes. This can be accomplished when the spread between the probes attached to a target subject is sufficient to incapacitate the subject. When the spread between the probes is insufficient, a probe misses or is dislodged, the CEW may be used in drive-stun mode (three-point contact) to complete the circuit and incapacitate the subject.

Conducted electrical weapon (CEW)—A weapon designed primarily to discharge electrical impulses to a subject causing involuntary muscle contractions and overriding the subject's voluntary motor responses.

Confetti tags—Small identifying cards expelled from a CEW cartridge when probes are discharged. Each confetti tag contains a serial number unique to the specific cartridge used. Confetti tags are sometimes referred to as Anti-Felon Identification (AFID) tags.

Crime of violence—a felony involving the infliction or threatened infliction of serious bodily injury or death.

Cycle—The period during which electrical impulses are emitted from the CEW following activation. In most models, a standard cycle is 5 seconds per activation. The duration of a cycle may be shortened by turning the CEW off, and may be extended in certain models by continuing to pull the trigger.

Discharge—Pulling the trigger of the CEW resulting in probe release or the use of the CEW in drive-stun mode.

Display—Drawing and exhibiting the CEW as part of a warning tactic, typically accompanied by appropriate verbalization.

Drive-stun mode—Pulling the trigger and placing the CEW in direct contact with the subject, causing the electric energy to enter the subject directly. Drive-stun mode is possible whether or not the cartridge has been expended or removed from the CEW. CEWs shall be used in drive-stun mode only to supplement the probe mode to complete the incapacitation circuit, or as a countermeasure to gain separation between the officer(s) and the subject, so that officers can consider another force option. **CEWs shall not be used in drive-stun mode as a pain compliance technique.**

Duration— The aggregate time that the CEW is activated on an individual subject.

Exigent circumstances—A compelling urgency or true emergency that an officer can specifically describe not using vague terms or boilerplate language. Circumstances that cause a reasonable person to believe that prompt action is necessary to prevent injury to themselves or others.

Firing—Discharging CEW probes at an intended target.

Laser painting—The act of unholstering and pointing a CEW at a subject and activating the CEW's laser to show the weapon is targeted on the subject.

Less-lethal weapon—Any apprehension or restraint tool that, when used as designed and intended, is less likely to cause death or serious physical injury than a conventional lethal weapon such as a firearm.

Passive resistance—Behavior that is unresponsive to police verbal communication or direction (e.g., ignoring or disregarding police attempts at verbal communication or control; going limp; or failing to physically respond or move) and verbal resistance (e.g., verbally rejecting police verbal communication or direction; telling the officer that he or she will not comply with police direction, to leave alone, or not bother him or her). Bracing, tensing, linking arms, or verbally signaling an intention to avoid or prevent being taken into custody constitutes passive resistance. Passive resistance, including verbal statements, bracing, or tensing alone does not constitute active resistance

Positional or compression asphyxia—When a subject's body position interferes with breathing, either when the chest is restricted from expanding properly or when the position of the subject's head obstructs the airway. Death may occur from positional asphyxia.

Probe discharge—Pulling the trigger of the CEW causing the release of the probes from the cartridge and allowing them to make contact with the subject and achieve neuromuscular incapacitation.

Probes—Projectiles with wires contained in a CEW cartridge. When the CEW is discharged, probes are expelled from the CEW, penetrate the subject's skin and allow application of the electrical impulse.

Sensitive area—An area of the subject's body that may cause serious injury to the subject if struck by a CEW probe (e.g., head, neck, genitalia).

Serious physical injury—Physical injury that creates a substantial risk of death; causes death or serious and protracted disfigurement; or causes impairment of the function of any bodily organ or limb.

Support side—The position on the officer's gun belt opposite the primary duty firearm.

GENERAL

7. A CEW is a conducted energy device. Taser products are currently in use by the NOPD. Taser International Incorporated manufactures the X2, X3, X26, or X26-P handheld model CEWs that:
 - a.) Use compressed nitrogen to project two probes a maximum of 35 ft. depending on the cartridge used. An electrical signal is then sent to the probes, via small wires, which disrupts the body's ability to communicate messages from the brain to the muscles and causes motor skill dysfunction.
 - b.) Can also be used in a drive-stun mode when brought into immediate contact with a person's body.
8. All personnel carrying an X26 or X26-P CEW shall check the CID (central information display) prior to each tour of duty to ensure that the power supply registers higher than 50 percent.
9. Taser cams must be recharged prior to dropping below 50 percent. All personnel carrying an X2, X3, or X26-P CEW shall check the CID prior to each tour of duty to

ensure that the power supply registers at least 50 percent. Officers carrying a CEW shall check its power supply, perform a spark test, and check the proper function of the video camera prior to starting every shift.

10. Taser cam HDs must be recharged prior to dropping below 50 percent.
11. CEWs, CEW cameras, holsters, power supply packs, cartridges and their replacement needs shall be handled by the Education and Training Division.
12. An inspection of the CEW, CEW camera, and CEW cartridge as well as a download of the use histories on each CEW will be conducted once a year. The Compliance Bureau - Performance Standards Section and the Education and Training Division shall perform this process, during scheduled annual recertification or on demand. A log shall be kept by the Education and Training Division staff of this inspection indicating:
 - a.) Each officer's name;
 - b.) CEW serial number;
 - c.) CEW camera serial number; and
 - d.) CEW cartridge serial number inspected.
13. Anytime a CEW is confiscated as evidence or as part of an internal investigation, the investigator will notify the Commander of the Education and Training Division by Departmental e-mail with the device's serial number(s).
14. The CEW battery source shall be removed only by authorized Education and Training Division personnel.

ISSUANCE AND CARRYING OF THE CONDUCTED ELECTRICAL WEAPONS

15. Only officers who have successfully completed Department-approved training and are currently certified may be issued, carry and use a CEW (La. R.S. 40:2405.6)
16. Officers shall use only the CEW cartridges issued by the Department. If exigent circumstances exist where a cartridge is used by someone other than the assigned officer, the assigned officer, the deploying officer and the supervisor on the scene are subject to the reporting requirements pursuant to this Chapter.
17. Officers shall ensure that they replace the unused cartridges to the CEW by the expiration date listed on the cartridge.
18. Uniformed officers shall wear CEWs only in approved holsters on their support sides.
19. Officers shall ensure their CEWs are properly maintained, according to the manufacturer's instructions and Departmental training, and in good working order.
20. Officers **shall not** hold both a firearm and a CEW at the same time.
21. The Education and Training Division shall maintain, in a database accessible to the Education and Training Division, the Compliance Bureau and the Public Integrity Bureau, a record of all:
 - a.) CEW serial numbers on hand and issued;
 - b.) The cartridge serial numbers issued;
 - c.) The officer and district/division to which the CEW and cartridge(s) were issued; and
 - d.) The officers' certification dates.

22. Routine audits of the CEW database shall be conducted by authorized Education and Training Division, Public Integrity Bureau, and Compliance Bureau personnel.
23. The Education and Training Division shall issue all CEW units and all new and replacement cartridges.
24. In the event that a CEW is returned for repairs or no longer remains the property of the New Orleans Police Department, the use history of that particular CEW will be downloaded by the Education and Training Division. The use history will be maintained for a period of three years from the time the CEW was taken out of service or until the completed adjudication of any known pending criminal or civil litigation related to use of that CEW.

SPARK TESTING

25. Officers shall conduct spark testing prior to the officer beginning his/her tour of duty in the following manner, in a safe location, out of the view of the public:
 - a.) Remove all cartridges from the CEW;
 - b.) Point the CEW in a safe direction;
 - c.) Disengage the safety;
 - d.) Observe battery power percentage;
 - e.) Ensure the low intensity light (LIL) and laser beam are activated;
 - f.) Pull the trigger and release, allowing the CEW to discharge for a five-second cycle;
 - g.) Observe a visible spark between the electrodes during the cycle;
 - h.) Observe video camera indicator for functionality;
Note: The X26 CEW uses the TASER CAM that will flash 88 in the indicator if the camera lens is blocked. The X26P uses the HD TASER CAM which displays the camera icon in the top left of the CID and the entire CID screen will flash yellow and black if the camera is blocked.
 - i.) Re-engage the safety on the CEW;
 - j.) Re-insert the cartridges for field use; and
 - k.) Holster the CEW.

MALFUNCTIONS

26. If the CEW malfunctions during the Education and Training Division's normal business hours, the officer shall bring the CEW to the Education and Training Division and relinquish it to Education and Training Division personnel. A receipt for the CEW and any attachments will be issued to the officer.
27. If the device malfunctions when the Education and Training Division is closed, the officer shall remove the CEW and holster from his/her duty gun belt. The officer shall not carry a malfunctioning CEW while working.
28. The officer shall bring the CEW to the Education and Training Division as soon as possible after the malfunction is discovered. If the officer is on extended leave, prior to the next open day of the Education and Training Division, he/she shall make arrangements to have the CEW delivered to the Education and Training Division by his/her supervisor on the next business day the Education and Training Division is open. A receipt for the CEW and any attachments will be issued to the supervisor.

VERBAL AND VISUAL WARNINGS

29. Unless prohibited by circumstances or officer safety concerns, a **VERBAL WARNING** of the intended use of a CEW should precede each CEW application. Where there is

reason to believe that a subject may lack English proficiency, the officer, where practicable and if the officer is able, shall announce the warning in the language that the officer reasonably believes the subject speaks.

30. Where feasible the officer will defer CEW application for a reasonable time to allow the subject to comply with the warning. The warning should provide the individual with a reasonable opportunity to voluntarily comply before CEW application and warn other officers and individuals that CEW deployment is imminent. Any decision to apply multiple applications of a CEW must take into consideration whether a subject is capable of complying with the officer's commands, including consideration of apparent cognitive, intellectual, developmental, and physical disabilities.
31. The officer may display the electrical arc or the laser of a CEW in an attempt to gain compliance prior to the application of the CEW. The officer shall:
 - a.) point the CEW in a safe direction to arc the CEW as a warning,
 - b.) never intentionally direct the laser into the eyes of a person as it may permanently impair vision, and
 - c.) document all warnings, displays, or the lack thereof, as well as their underlying reasons in the related report. If compliance was gained by displaying the CEW, arcing or laser painting without discharge, it should also be specifically noted.

USE OF A CONDUCTED ELECTRICAL WEAPON

32. The CEW is considered to be a less-lethal weapon, and:
 - a.) If pointed at an individual, is a **Level 1** use of force for reporting purposes under **Chapter 1.3.6 – Reporting Use of Force**.
 - b.) If deployed, is a **Level 2** use of force for reporting purposes under **Chapter 1.3.6 – Reporting Use of Force**.
 - c.) If resulting in serious physical injury or hospitalization; if resulting in loss of consciousness; if deployed more than twice, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or if deployed for longer than 15 seconds whether consecutive or continuous; or if deployed against a handcuffed suspect, is a **Level 4** use of force for reporting purposes under **Chapter 1.3.6 – Reporting Use of Force**.
33. The decision to utilize a CEW must be made based on the use of force factors outlined in **Chapter 1.3 – Use of Force**, and on the totality of the circumstances known to the officer at the time.
34. CEWs shall be used only in accordance with NOPD training by a certified instructor and in accordance with NOPD regulations, local, state, and federal law.
35. The CEW is not intended to be used as a substitute weapon in deadly force situations. The CEW shall not be used without a firearm backup in those situations when a substantial threat towards the officer or others is present.
36. The CEW shall not be used in an indiscriminate manner in situations involving a large crowd (e.g. parade assignments, second lines or special events).
37. Each application of the CEW is unique. In each situation the officer's actions should be dictated by the circumstances and the training he/she has received prior to being authorized to carry and use the CEW. Officers must justify each application of a CEW. The officer's report(s) should:
 - a.) describe why less intrusive levels of force were not or would not have been effective, and

b.) describe the behavior of the subject that justified the use of the CEW in specific terms.

38. A CEW should be used only when its operator can safely approach the subject within the operational range of the CEW. Officers should be aware that a CEW may not achieve the intended results and be prepared with other tactical options.

APPLICATION OF A CONDUCTED ELECTRICAL WEAPON

39. The Use of Force Continuum in **Chapter 1.3 – Use of Force** is a guideline to assist officers in assessing which level of control may be appropriate when confronted with a certain level of resistance. The Use of Force Continuum **does not** replace the requirement that force must be objectively reasonable and consistent with NOPD regulations.
40. Close quarters deployment (a range of closer than three (3) feet) may not provide adequate probe spread (the distance between probes) to allow the CEW to function to its full effectiveness.
41. The officer shall hold the CEW in such a manner as to ensure the CEW video camera lens is not obstructed(e.g. avoid a two-handed grip of the device and ensure the lens is not covered by fingers or hands).
42. The officer should attempt to utilize the CEW video camera to record as much of an incident as possible by keeping the CEW pointed at the target subject.
43. The CEW **shall not** be used to torment, elicit statements from, or to punish any individual.
44. Prior to deploying a CEW, an officer shall visually and physically confirm that it is, in fact, a CEW and not a firearm.
45. CEWs shall be used in drive-stun mode only to supplement the probe mode to complete the incapacitation circuit if necessary, or as a countermeasure to gain separation (distance) between officers and the subject, so that officers can consider other force options.
46. CEWs shall not be used in drive-stun mode as a pain-compliance technique.
47. Officers shall not intentionally activate more than one CEW at a time against a subject.

SPECIAL DEPLOYMENT CONSIDERATIONS

48. Officers shall determine the reasonableness of CEW use based on all facts or circumstances known to the officer at the time, including the subject's age, size, physical condition, and the feasibility of lesser force options.
49. Except when lethal force would be permitted or when the officer has reasonable cause to believe that there is an imminent risk of serious physical injury, officers shall not use CEWs against:
- a.) Visibly pregnant women;
 - b.) Elderly persons;
 - c.) Visibly frail persons;
 - d.) Young children;
 - e.) Individuals with obviously low body mass; and

- f.) Individuals who are handcuffed or restrained, unless use is necessary to prevent them from causing serious physical injury to themselves or others, and lesser attempts at control have been ineffective.
- 50. Except when lethal force would be permitted, CEWs shall not be used when deployment may cause serious physical injury or death from situational hazards. This may include falling, drowning, losing control of a moving vehicle, or igniting a potentially explosive or flammable material or substance.
- 51. Personnel should be cognizant of the risk of positional asphyxia following a CEW application and avoid using a restraint technique or position that would impair a subject's respiration. Once controlled and while in police custody, the subject should be continually monitored for any signs of distress.

TARGETING CONSIDERATIONS

- 52. The deploying officer shall adhere to the following guidelines when targeting a person with a CEW:
 - a.) The recommended target areas when firing the CEW are the lower chest/abdomen area if facing the front of the target subject or the center mass of the back if facing the back of the target subject, as clothing tends to be tighter on these parts of the body.
 - b.) An officer is permitted to target the central area of the chest if necessary and the increased risk of injury is legally justified.
 - c.) Where a target subject is wearing heavy or loose clothing on the upper body, the officer should consider targeting the legs.
- 53. CEWs may not be applied to a subject's head, neck, or genitalia, except when lethal force would be permitted, or when the officer has reasonable cause to believe there is an imminent risk of serious physical injury to the officer.
- 54. If circumstances do not permit the officer to limit the application of the CEW probes to recommended target areas, officers shall take prompt and ongoing care to monitor the condition of the subject if one or more probes strikes the head, neck, chest or groin until the subject is examined by paramedics or other medical personnel.

MULTIPLE APPLICATIONS OF THE CONDUCTED ELECTRICAL WEAPON

- 55. After one standard CEW cycle (5 seconds), the officer shall evaluate the situation to determine if subsequent cycles are necessary.
- 56. Multiple applications of the CEW and/or exposure to the CEW for longer than 15 seconds whether due to multiple applications or continuous cycling, against a single individual, may increase the risk of death or serious injury.
- 57. If the first application of the CEW appears to be ineffective, the officer should consider certain factors before additional applications, including:
 - a.) Whether the probes are making proper contact (e.g. loose or bulky clothing);
 - b.) Whether the individual has the ability, and has been given a reasonable opportunity, to comply with the officer's commands; and
 - c.) Whether verbal commands, other options or tactics may be more effective.
- 58. Officers shall independently justify each cycle used against a subject in their written

Force Statements.

CEW USE ON A DANGEROUS ANIMAL

59. A CEW may be deployed on a dangerous animal that is causing a continuing public nuisance and needs to be controlled for reasons of public peace and safety.
60. A CEW may also be deployed if: the animal poses an active threat to officers in their efforts to perform their duty; other conventional means to control the animal have been exhausted, may be unreasonable, or unavailable; and the officer reasonably believes that use of a CEW is necessary.
61. Officers should target the center mass of the animal and should not target the head or other sensitive areas on the animal if possible. Deployment against vicious animals may be very dynamic in nature and the probes may impact unintentional areas. Officers should exercise care when removing probes from the animal.
62. As long as the officer acted appropriately, the owner of the animal will be responsible for any medical attention needed by the animal.
63. The deployment of a CEW on an animal temporarily disables the animal. Officers should be prepared to act quickly with control devices or restraints, if available. Because of differences in their nervous systems, animals have shown the ability to recover quickly from CEW effects. If available, conventional means of controlling the animal (e.g., control sticks, collars, cages) should be on hand at the scene prior to the use of the CEW.
64. The CEW has proven to be an effective tool against dangerous animals and may reduce the need for greater, more injurious force against such animals. The use of a CEW on an animal is a safer, more humane, and less traumatic conclusion to the incident.
65. A CEW may be deployed against a potentially dangerous animal, such as a dog, when alternative methods are not reasonably available or likely to be effective and the animal:
 - a.) Appears to pose an imminent threat to the safety of a human, another animal, or
 - b.) Has attacked a human or another animal.
66. The deployment, targeting or painting of an animal with a CEW requires the same reporting, downloading and documentation as similar actions on a person.

CEW CAMERA

67. The CEW is equipped with an audio-video recording device integrated into the power supply. This device is activated any time the safety is in the off position. The safety should not be in the off position unless the officer intends to use the CEW. The device's memory is limited. The video and audio data shall be downloaded after each reportable use and retained as required by the Department's records retention schedule (see **Chapter 82.1.3 – Records Retention Schedule**).

OFF-DUTY CONSIDERATIONS

68. Officers are authorized to carry their CEWs while engaged in approved police secondary employment but not authorized to carry Department-owned CEWs while off duty.
69. Officers shall ensure that all Department-owned CEWs are secured while they are off duty to keep them inaccessible to others.

DOCUMENTATION

70. Notification of the use of a CEW by an officer shall be made to the officer's supervisor as soon as possible after use.
71. Other than routine testing or training, the following shall be documented in the related NOPD incident report and the CEW **Form 213**:
 - a.) All CEW discharges, intentional or accidental;
 - b.) Pointing of the CEW at a person;
 - c.) Laser activation/painting; and
 - d.) Arcing of the CEW.
72. The Commander of the Education & Training Division should analyze the CEW **Form 213** reports annually to identify trends, including deterrence and effectiveness. A summary of these findings should be sent to the Deputy Superintendent of PIB and the Compliance Bureau. The Compliance Bureau – Audit Section should also conduct random and directed audits, at least annually, of CEW data downloads and reconcile CEW report forms with recorded activations and compliance with Departmental regulations. These audits should compare the downloaded data to the officers force statements.
73. CEW information and statistics, with identifying information removed, should be made available to the public by sending the information to the Deputy Superintendent of PIB for inclusion in its annual report.

ACTIONS FOLLOWING DEPLOYMENT

74. Following deployment, the deploying officer shall take immediate action to secure the subject, provide necessary medical care for any injuries sustained, and protect the scene.
75. Deploying officers, assisting officers and on-scene supervisors shall be responsible for monitoring any person who has received a CEW application while in NOPD custody.
76. Except in exigent circumstances, when an officer is forced to act alone in taking custody of an immediate threat, a CEW shall not be left unattended.
77. A supervisor shall respond to the scene of a CEW use to investigate and complete a Use of Force Report whenever a CEW is deployed, including:
 - (a) actual discharge, whether a hit or miss;
 - (b) arcing; or
 - (c) laser targeting.
78. Medical personnel shall be summoned to the scene after a CEW application for injuries other than probe deployment. Medical care shall not be denied to anyone who requests it.
79. In the event of serious physical injury or death involving a subject who has been exposed to a CEW discharge, the on-scene supervisor shall notify PIB and request the Scientific Criminal Investigations Section (Crime Lab) for the processing and the collection of evidence. Supervisors shall ensure photographs shall be taken of any injuries to the subject, impact sites, location of fallen probes or wires and the area of confetti deployment. All CEW probes, confetti tags (also referred to as Anti-Felon

Identification (AFID) tags), cartridges, wires, and photographs shall be placed into evidence. All attempts shall be made to keep cartridge wires intact for possible testing.

80. As soon as practicable, the officer shall notify a Communications Dispatcher of the CEW discharge and request that a supervisor respond to the scene. Supervisors should ensure that NOPD members or evidence technicians photograph any injury to the subject, location of fallen probes or wires, and area of confetti deployment.
81. The cartridge serial number should be noted and documented on **Form 213** and by all reporting persons. All probes should be treated as a biohazard if the probes penetrated the subject's skin, and they should be preserved as evidence procedure and training.
82. Supervisors should attempt to locate and identify witnesses to the incident.
83. Officers should refrain from discussing the incident until the arrival of a supervisor. Officers shall brief the supervisor of the circumstances surrounding the incident and what actions were taken.

MEDICAL TREATMENT

84. Officers shall ensure first aid is available if necessary following the removal of the probes. Officers should inspect the probes after removal to ensure the entire barb or the probe has been removed. In the event that a probe or barb has broken off and remains embedded in a subject's skin, the subject must be provided medical attention at a medical facility for the probe's or barb's removal.
85. The probes shall be placed point down into the expended cartridge bores and secured with tape before preservation as evidence. Officers shall not dispose of the plastic cartridge housing when disposing of probes. The officer is required to bring the plastic cartridge housing to the Education and Training Division to obtain a replacement cartridge.
86. Probes that are embedded in a subject's skin should be removed by only medical or authorized, specially trained NOPD personnel, except that probes that are embedded in a subject's head, throat, groin, or other sensitive area should be removed by medical personnel only.
87. Used CEW probes shall be considered a sharp biohazard, similar to a used hypodermic needle.
88. All persons who have been struck by CEW probes or who have been subjected to the electric discharge of the CEW shall be transported to a hospital for medical evaluation or attention prior to booking.
89. Any individual who received CEW application shall be monitored while in police custody. The transporting officer shall inform any person providing medical care or subsequently receiving custody, that the individual has been subjected to the application of a CEW.

SUPERVISOR RESPONSIBILITIES

90. Supervisors should respond to calls when they believe there is a likelihood of the use of a CEW. A supervisor shall respond to all incidents in which a CEW was activated.
91. A supervisor shall review each CEW activation. Unless the CEW has been confiscated

as part of an investigation, the discharging officer must bring the CEW to the Education and Training Division on Monday through Friday, between the hours of 8:00 a.m. and 3:35 p.m., and within seventy-two (72) hours of the incident, exclusive of holidays. The onboard CEW memory shall be downloaded and stored by the designated Education and Training Division staff at that time. Probe impact sites shall be documented on **Form 213** and in all related reports.

92. An on-scene supervisor shall notify the Public Integrity Bureau and the District/Division Commander, and he/she shall request a crime lab response if any serious physical injury has resulted due to the use of force involving a CEW.

EDUCATION AND TRAINING DIVISION

93. Officers shall bring their CEWs to the Education and Training Division pursuant to Education and Training Division procedures, if malfunctions occur.

100. Command staff, supervisors and investigators shall receive CEW training as appropriate for the investigations they conduct and review.
101. Officers who do not carry a CEW shall receive training sufficient to familiarize them with the CEW and working with officers who use the CEW.

102. The Commander of Education and Training shall ensure that all officers who carry a CEW have received initial and annual proficiency training. Periodic audits shall be used for verification.
103. Application of a CEW during training is optional for certification. The Commander of Education and Training shall ensure that all training includes:

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 35.1.7

TITLE: NON-DISCIPLINARY EMPLOYEE COUNSELING FOR MINOR VIOLATIONS

EFFECTIVE: 05/10/2015

REVISED:

PURPOSE

The New Orleans Police Department recognizes that some violations of Department Rules, Policies, Procedures, or Orders require corrective supervisory guidance and not disciplinary action. This Chapter establishes a process that New Orleans Police Department supervisors may take in certain circumstances to address and resolve minor violations or infractions of Departmental Rules, Policies, Procedures, or Orders, and establishes the circumstances in which that process may be taken.

Nothing within this Chapter lessens a supervisor's responsibility to refer any observed or alleged misconduct, violation, or infraction to PIB for a formal disciplinary investigation.

DEFINITIONS

Definitions related to this Chapter include:

Complaint Form—The universal form that any person may use to file a complaint against an employee of the New Orleans Police Department. Any person can file a complaint without filling out this form (e.g., a complaint may be communicated verbally or online), and a complaint shall not be disregarded if a person refuses to, or cannot, complete this form. However, a copy of this form shall be provided to any person who requests it or asks to file a complaint, and a supervisor shall assist any such person to ensure the form is filled out thoroughly and forwarded to the Public Integrity Bureau.

Minor violation/infraction— A first violation of a Departmental Rule, Policy, Procedure, Order, regulation, or verbal/written instructions that a supervisor believes requires minimal intervention through retraining and/or counseling to correct the employee's behavior (e.g., tardiness, uniform requirement, and cleanliness of vehicle). The behavior must not be the subject of a public complaint and must be considered so minor that it is correctable by simple counseling and minimal intervention by the supervisor, with the goal of non-repetitive behavior. Repetition of a violation within a twelve-month period (based on the date of the observed violation) may require discipline.

Non-disciplinary counseling or training—Remedial and non-punitive instruction given by a supervisor to a subordinate employee or officer on an individual basis. The purpose of Non-

Disciplinary Counseling is to resolve the problem and correct the inappropriate behavior by providing guidance. The employee does not experience any loss of rights, remuneration, or benefits. Such non-disciplinary counseling, as well as the underlying minor violation/infraction, is documented within the Complaint Form.

Remedial training—Non-punitive, in-service training that is required to specifically address a minor violation/infraction that reveals a deficiency in knowledge or procedure. This training should be viewed as an opportunity to better train and instruct officers/employees, clarifying any issues involving Departmental Rules, Policies, Procedures, or Orders.

ELIGIBILITY FOR NON-DISCIPLINARY COUNSELING

1. If a supervisor observes a minor violation/infraction by an NOPD member, and if the member's past record includes no previous violations or infractions of the same type, a supervisor may, in his or her discretion after considering the totality of the circumstances, address the minor violation/infraction through immediate non-disciplinary counseling or remedial training.
2. The supervisor must have firsthand knowledge of the behavior that constitutes the minor violation/infraction.
3. A public complaint cannot be handled through corrective action and requires formal investigation, even if the complained-of behavior is, or appears to be, a minor violation/infraction.
4. When an officer or employee repeatedly (i.e., more than once within a 12-month period) violates the same Departmental Rule, Chapter, Policy, Procedure, or Order, the minor violation/infraction may not be resolved through non-disciplinary counseling or remedial training. In such circumstances, formal investigation is required.

SUPERVISOR RESPONSIBILITIES

5. A supervisor who takes corrective action for a minor violation/infraction must document the minor violation/infraction and the specific corrective action taken on a Complaint Form. The Complaint Form must be given to, and signed by, the accused employee. The Complaint Form must then be forwarded to the Public Integrity Bureau within five days of the supervisor becoming aware of the minor violation/infraction.
6. The supervisor should provide the counseling individually, without other officers present, citing the appropriate Rule, Chapter, Policy, Procedure, or Order violated and the behavior that constitutes the violation. The supervisor should instruct the accused officer or employee how to avoid making the same violation/infraction in the future and inform the accused officer/employee that repetition of the violation/infraction may result in disciplinary action.

EMPLOYEE RESPONSIBILITIES

7. Employees receiving non-disciplinary counseling or training in response to a minor violation/infracton must sign the Complaint Form completed by the supervisor. The signature of the accused employee on the Complaint Form is to acknowledge receipt of the documentation, not to acknowledge culpability. Refusal by the accused to sign the Complaint Form acknowledging receipt shall result in the immediate initiation by the issuing supervisor of an internally generated complaint for a violation of "Rule 4: Performance of Duty; Paragraph 2: Instructions from an Authoritative Source, to wit: verbal instructions from INSERT RANK AND NAME OF SUPERVISOR to sign Complaint Form acknowledging receipt."
8. The accused officer or employee shall not experience any loss of rights, remuneration, or benefits as a result of such corrective action. If he or she denies commission of the minor violation/infracton, he/she may indicate his/her denial on the Complaint Form.
9. If an employee believes he/she has been issued a Documentation of Minor Violation/Infracton Resolved Through Non-Disciplinary Counseling or Training in error, he/she may submit to PIB within thirty (30) days of the date of issuance a 105 to the PIB Deputy Superintendent through his/her chain of command documenting his/her reason(s) for believing the issuance was erroneous. The 105 will become part of the documentation of the complaint and retained by PIB.

REVIEW

10. The Public Integrity Bureau will review the submitted Complaint Form to ensure appropriate corrective action has been taken. PIB shall review the documentation and shall have authority to require a full investigation into the alleged minor violation/infracton.
11. If PIB determines that the complained-of behavior constitutes a more serious offense requiring formal investigation, PIB shall institute a formal investigation based on the Complaint Form.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 41.3.8

TITLE: IN CAR CAMERA

EFFECTIVE: 03/08/2015

REVISED: Replaces Policy/Procedure 446

PURPOSE

This Chapter governs the use of In-Car camera systems, including activation, operation, and retention, as well as system maintenance. This Chapter does not alter a members' responsibility to comply with NOPD Policy 447, Body Worn Cameras. Nor does compliance with NOPD Policy 447 satisfy a members' obligation to comply with this Chapter.

POLICY STATEMENT

1. The New Orleans Police Department is committed to the belief that video/audio documentation of an officer's daily encounters is an important and valuable resource for law enforcement. NOPD also is committed to respecting civilians' reasonable privacy expectations, including but not limited to medical and health privacy.
2. Marked and unmarked units assigned to routine calls for service, including task forces, tactical units, prisoner transport, or SOD canine shall be equipped with the In-Car Camera system. Use of this technology provides for video/audio documentation of a police officer's enforcement and investigative activities. The In-Car Camera can objectively document officer conduct during individual interactions, provide powerful evidence of criminal activity, and protect both the public and officers from false allegations of misconduct. This Chapter is intended to achieve an appropriate balance between the benefits of In-Car Camera devices and civilians' reasonable expectations of privacy.
3. Audio or video recordings of enforcement or investigative actions are evidence, and subject to state, federal, and municipal laws, and internal policies regarding disclosure. It is in the best interest of justice that NOPD regulate and control all forms of evidence collection and storage.
4. The In-Car Camera system is designed to assist and complement patrol officers in the performance of their duties. The In-Car Camera system records certain activities, thereby creating an unbiased visual and/or audio record of the incident and a supplement to the officer's report (La. R.S. 32:365(B)).
5. NOPD members shall complete authorized training regarding In-Car cameras prior to using an In-Car Camera in an operational setting.

6. The In-Car Camera system will be used to document events and capture data to be preserved in a digital storage facility. Once captured, NOPD shall not alter the recordings and shall protect the recordings by encryption.
7. NOPD has adopted the use of In-Car Camera technology to accomplish the following objectives:
 - (a) To promote officer safety;
 - (b) To document statements and events during the course of an incident;
 - (c) To enhance the public trust by preserving factual representations of officer-citizen interactions in the form of video and audio recordings;
 - (d) To enhance the law enforcement operator's ability to document and review statements and actions for both internal reporting requirements and for courtroom preparation/presentation;
 - (e) To preserve visual and audio information for use in current and future investigations; and
 - (f) To provide an impartial measurement for self-critique and field evaluation during officer training.

DEFINITIONS

For purposes of this Chapter, the following terms are defined as:

Activate—Any process that causes the In-Car Camera system to transmit or store video or audio data.

Audio Recording—The electronic recording of conversation, spoken words, or other sounds.

Case or Folder—The placement of related recording(s) into a single "folder" or "case" file.

Case Number—Item Number associated with the incident that was recorded using an In-Car Camera.

Continuous Recording—The constant streaming of live video to the In-Car Camera's internal buffer. This buffer is not retained until an event trigger has activated, causing the previous 30 seconds of the buffer to be retained and made a part of the active recording.

Display Name—Location where an incident has occurred, which corresponds to the location associated with the item number for the event referenced.

District/Division System Administrator ("DSA")—Supervisor assigned to the district or division who is responsible for inventory control and operational maintenance of the In-Car Camera system equipment at a District/Division level.

Master System Administrator ("MSA")—Supervisor(s) authorized by NOPD and assigned to the Information Systems Section with full access to user rights; he/she assigns and tracks master inventory of equipment; controls passwords and end-user security access rights; is responsible for quality checks of video and sound quality; coordinates with District/Division System Administrators; and serves as liaison with representatives on operational and equipment related matters.

Media or Data—For the purposes of this Chapter, references to media or data include photographs, audio recordings and video footage captured by the In-Car Camera device. The media are stored digitally and encrypted.

Trigger—An action that causes the In-Car Camera to begin saving video/audio recordings. Actions that trigger In-Car Camera recordings include activation of the following: emergency lights, vehicle collision sensor, body microphone switch, or the monitor's record button.

Tag—A Digital Evidence System function, which, when selected, extends the online life of a recording beyond the defaulted retention period and causes the system to archive this recording for later retrieval.

USB Key—USB thumb-drive device used to allow officers to identify themselves to the In-Car Camera in a vehicle.

Video Recording—The electronic recording of visual images with or without audio component.

Wireless Upload—The transfer of recordings from a vehicle's In-Car Camera to an assigned In-Car Camera server.

IN-CAR CAMERA MODES OF OPERATION

8. **Pre-Event Buffering Mode**—Device feature in which the camera continuously records and holds the most recent 30 seconds of video prior to record activation. With this feature, the initial event that causes the officer to activate recording is likely to be captured automatically, thereby increasing the capability of recording the entire activity.
9. **Event Record Mode**—The system is designed to automatically activate during certain activation triggers. However, officers may manually activate the recording by the monitor record button.
10. Officers shall manually stop the recording once the event ends. The officer will be prompted to manually classify the incident, assigning it a priority code between 1 and 5. The type of incident is manually classified by the amount of times the officer presses the "Stop" button. The officer shall press the Stop button the number of times indicated by the classification levels listed below:
 - (a) Classification One: **Non-Event** (Logging in, crossing on red light, etc. or emergency response without issues related to other classifications).
 - (b) Classification Two: **Vehicle stops for a traffic violation or other legally justified reason with or without a citation issued.**
 - (c) Classification Three: **Terry Stops of a person based on a reasonable suspicion/F.I.C. stop and Searches with No Arrest.**
 - (d) Classification Four: Other Incident – **No Arrest:** Any incident the officer deems worthy of recording and the incident is being noted within an incident or supervisor's report. Incidents such as critical events (civil unrest), police pursuits (no arrest), automobile collisions, and witness interviews.
 - (e) Classification Five: **All Arrests or uses of force**

REQUIRED ACTIVATION OF THE IN-CAR CAMERA

11. This Chapter is intended to achieve an appropriate balance between the benefits of In-Car Camera devices and civilians' reasonable expectations of privacy. Although this Chapter identifies those situations in which activation of the In-Car Camera is required, an officer has discretion to manually activate the system any time the officer believes it would be appropriate or valuable to document an incident. The In-Car Camera shall be activated only for legitimate law enforcement purposes.

12. The In-Car Camera system is designed to turn on whenever the unit's emergency lights are activated. The system remains on until it is turned off manually.
13. While the system is designed to activate automatically, officers shall ensure the activation has occurred through the observation of a flashing indicator light on the In-Car Camera monitor.
14. Officers shall ensure that the In-Car Camera system is activated in the following situations:
 - (a) All field contacts involving law enforcement activity within video or audio range, including, but not limited to:
 - Traffic Stops (to include, but not limited to, traffic violations, stranded motorist assistance and all crime interdiction stops);
 - Emergency responses;
 - Vehicle pursuits;
 - Suspicious vehicles
 - Arrests and transports;
 - Consent to search a vehicle;
 - Vehicle searches;
 - Deployment of drug-detection canines;
 - Physical or verbal confrontations or use of force;
 - Terry stops;
 - Victim and witness interviews, including, but not limited to, missing persons and child welfare;
 - DWI investigations including field sobriety tests; and
 - Domestic Violence Calls
 - (b) Any situation in which a prisoner is being transported and is resisting or becomes violent.
 - (c) Any other contact that becomes adversarial after the initial contact in a situation that would not otherwise require recording.
 - (d) Any other situation in which the officer, through training and experience believes that a recording of an incident would serve a legitimate law enforcement purpose. In exercising this discretion, officers should be aware of and sensitive to civilians' reasonable privacy expectations.

WHEN ACTIVATION IS NOT REQUIRED

15. Activation of the In-Car Camera system is not required when exchanging information with other officers or during breaks, lunch periods, when not in service or actively on patrol.

CESSATION OF RECORDING

16. Once the In-Car Camera system is activated it shall remain on and shall not be turned off until the incident has concluded. **For purposes of this section, conclusion of an incident has occurred when all arrests have been made and arrestees have been transported, or the officer has cleared the scene of a reported incident.**

17. In any instance in which cessation of the recording prior to the conclusion of the incident may be required, the officer must seek and obtain supervisory approval prior to deactivating the In-Car Camera. If supervisory approval cannot be reasonably obtained, officers must document on the In-Car Camera the reason for termination of the recording prior to deactivation of the In-Car Camera and efforts made to obtain supervisory approval.

PROHIBITED IN-CAR CAMERA RECORDINGS BY EMPLOYEES

18. No NOPD member may knowingly and surreptitiously use NOPD In-Car Cameras to record a conversation of any other NOPD member except with a court order, when documenting or reporting criminal activity, or as authorized by the Superintendent or his or her authorized designee. This prohibition does not apply to recording of off-duty NOPD officers who are subject to recording in any interactions with NOPD as subjects or witnesses in the same manner as the general public.
19. The In-Car Camera may not be used for the purpose of intimidating an individual or to discourage an individual from observing police activity, making appropriate inquiries of an officer, or making a complaint.
20. The In-Car Camera shall not be used to make recordings of members of the public that do not have a legitimate law enforcement purpose or are designed to embarrass or otherwise harass any person.

OWNERSHIP OF IN-CAR CAMERA RECORDINGS

21. All recording media, recorded images and audio records are the property of NOPD. Dissemination outside of NOPD is strictly prohibited, except to the extent permitted or required by law. In no event shall any recording be used or shown for the purpose of embarrassing or otherwise harassing any individual.
22. NOPD members are prohibited from copying or reproducing any In-Car Camera recordings for any other purpose not allowed by NOPD regulations including a commercial or personal reason. NOPD personnel are prohibited from using a recording device (such as a phone camera or secondary video camera) to record In-Car Camera media without authorization from the Superintendent or his or her authorized designee. NOPD personnel shall not post any In-Car Camera video recordings in any computer system, server, or web site, including social media, except as authorized by regulations.

OFFICER RESPONSIBILITIES

23. At the start of each shift, officers using an NOPD vehicle equipped with an In-Car Camera shall properly equip him/herself with his/her USB key and a body microphone to record audio and video in the field. The officer shall ensure that the body microphone received from the district is charged, powered, and synced with the vehicle being used. The body microphone shall be worn and remain active during the officer's tour of duty.
24. Officers assigned a vehicle with an In-Car Camera system shall test the equipment prior to use according to the manufacturers guidelines and testing procedures. Each officer shall check that the previous recordings were transferred from the In-Car Camera system to the server such that the officer will have adequate recording media for the entire duty assignment. In the event the previous recordings were not transferred, the officer shall contact his/her supervisor.

25. Officers, while conducting their pre-tour inspection of their vehicles, must log into the system and create a brief recording, categorizing this video as a #1 Non-Event. Officers also shall test for proper functioning of In-Car Camera at the end of each shift. Officers shall document the use of the In-Car Camera system on their daily activity report and on any written reports including electronic police reports and use of force reports.
26. It is the responsibility of the officer to ensure the In-Car Camera is working properly throughout the entire shift.
27. Officers shall relocate their vehicles to designated parking areas of their district/unit station whenever they return including at the end of their tour of duty where the In-Car Camera will wirelessly transfer the recordings to the In-Car Camera server. Officers shall ensure that the In-Car Camera has started the download process. Once this is completed the recordings will be available for review.
28. Whenever an NOPD member believes that a recorded event may lead to a citizen complaint, he/she shall bring the recording to the attention of his/her immediate supervisor as soon as possible.
29. Officers shall immediately report malfunctioning In-Car Camera equipment to his/her supervisors, and when any event required to be recorded by this Chapter is not recorded. The officer shall document the malfunction, as well as the name of the supervisor to whom the malfunction was reported, on the officer's daily activity report.

DESIGNATING IN-CAR CAMERA RECORDINGS OR USE AS EVIDENCE

30. To preserve a recording for evidence or later use, officers shall log into their Digital Evidence Series System accounts using a computer connected to NOPD's network and:
 - Locate the recording and confirm that it represents the events described within the officer's report;
 - Add the recording to a case file, filing in known information; and
 - List the recording as evidence within their reports, including the recording's system number, and note in their narratives that the recording has been transferred to and will be stored in the Digital Evidence System.

SUPERVISOR RESPONSIBILITIES

31. Supervisors shall be responsible for ensuring that officers under their command use In-Car Cameras as required by this Chapter. Supervisors shall also be responsible for ensuring that officers under their command accurately document the use of the In-Car camera system on their daily activity report and any other written reports as appropriate, including electronic police reports and use of force reports.
32. Supervisors shall immediately report non-functioning or full In-Car Camera systems in writing to their respective District/Division System Administrator (DSA) with a copy forwarded to the District/Division Commander. In addition, the supervisor shall document the In-Car Camera malfunction on his/her daily activity report.

33. Supervisors shall determine if vehicles with non-functioning or full In-Car Camera systems should be placed into service. If these vehicles are placed into service, the supervisor shall complete the appropriate documentation (Form 105) and transmit that form to the supervisor's respective District/Division System Administrator (DSA) with a copy forwarded to the District/Division Commander. If the vehicle is not placed into service and it is during normal working hours of the NOPD Fleet and Equipment and Services Section, Radio Shop, the supervisor shall direct the vehicle there for repair.
34. Supervisors shall review all In-Car Camera recordings of officers listed on any report involving injuries to detainees/prisoners or officers; uses of force; vehicle pursuits; or misconduct complaints, as well as any recordings related to an incident the officer believes may result in a misconduct complaint. The supervisor shall conduct any further investigation that he/she deems appropriate. If no incident report or supplemental report directly related to the possible citizen complaint is warranted, the Supervisor shall document details of the contact via Interoffice Correspondence (Form 105). The NOPD member's immediate supervisor shall be responsible for ensuring a copy of any report or correspondence related to the contact is forwarded to their respective District/Division Commander, Bureau Deputy Superintendent, and the Deputy Superintendent of the Public Integrity Bureau.
35. In addition to any review for investigatory or audit purposes, supervisors shall regularly review the In-Car Camera recordings of their subordinates to incorporate the knowledge gained from this review into the Supervisors' ongoing evaluation and supervision of officers.
36. Supervisors shall maintain a log at the platoon/unit level that shall contain:
 - (a) The date and name of the supervisor conducting the review;
 - (b) The name of the officer whose recording was reviewed; and
 - (c) The video number, date and time the recording was produced.
37. Supervisors shall counsel or recommend disciplinary actions for any officer found to fail to properly use or care for their assigned In-Car Camera.
38. When an incident arises that requires the immediate retrieval of an In-Car Camera recording (e.g., serious crime scenes, officer-involved shootings, NOPD vehicle crashes), a supervisor from the involved member's chain of command or the assigned investigator shall notify the MSA. In the event a vehicle equipped with an In-Car Camera is involved in a crash (20X) the recording shall be reviewed by the supervisor handling the "Supervisor Report of Accident." The Supervisor handling the accident can obtain a "Certified Copy" by submitting a request to the MSA. The duplicated copy shall be made part of the administrative report.

DISTRICT/DIVISION SYSTEM ADMINISTRATOR

39. The DSA shall ensure that all NOPD officers that use the In-Car Camera in their District/Division have proper training and are using the equipment according to this Chapter. The DSA shall be responsible for coordinating maintenance or repairs issues directly to the Master System Administrator (MSA) assigned to the Information Systems Section.

40. In the event of a malfunction requiring the memory card to be removed for a non-wireless transfer of recording(s), the DSA will remove the memory card and transfer the information into the In-Car Camera server.
41. When the DSA has been notified of a malfunctioning In-Car Camera system or component, he/she shall notify the MSA within 24 hours and make arrangements to have the equipment repaired or follow up on any vehicles that have been sent for repairs.
42. The DSA shall monitor the operation of the In-Car Camera system(s) at the district/unit level, ensuring officer compliance for training and integrity purposes, including:
 - (a) Monitoring video for correct video classification;
 - (b) Ensuring officers are wearing body microphones; and
 - (c) Ensuring officers are stopping recordings at the end of events.
43. The DSA will conduct weekly and random reviews of recordings, as well as the logs of the platoon/unit supervisors, which shall be documented in accordance with the supervisor responsibilities. The DSA log shall contain an additional entry to indicate which platoon/unit was reviewed, to ensure compliance.
44. The DSA shall maintain the inventory and current status for all In-Car Camera equipment in his/her unit. The DSA shall provide the Field Operations Bureau and the Mobile Video Unit (MVU) with a weekly inventory report (Form 203), that will include In-Car Camera equipment listed by vehicle, with its current location, current working status, and action taken if repairs are needed. This weekly report will also contain the status of unit microphones and USB Keys.
45. The DSA shall track all USB User Keys in a USB User Key Log. These keys shall be assigned to officers operating in a Platoon or Task Force status. When the officer is transferred from this status, the officer is to turn in his/her USB Key to the DSA. The DSA shall be responsible for the district/unit respective USB Key inventory and assignment log.
46. The DSA shall track all unit In-Car Camera microphones.
47. The DSA shall notify the MVU System Administrator in writing when In-Car Camera equipment is physically moved from one location to another, or when there is a change in physical inventory requiring alteration of records.

49. When a vehicle has been involved in a crash, the DSA or designee shall, within 24 hours, notify the Mobile Video Unit of the crash and the current location of the involved vehicle. The DSA or designee shall make every effort to ensure an In-Car Camera will not be further damaged by its exposure to the elements, until the MVU can be notified and the exposed equipment removed. The DSA or a designee may remove the In-Car Camera -DVR if this can be completed without damaging the In-Car Camera equipment.

50. The NOPD Fleet and Equipment Services section, Radio Shop, shall be responsible for recovery of the entire In-Car Camera system from a permanently out of service vehicle within 96 hours of being notified of the vehicle's deletion. Once the In-Car Camera system is removed from the vehicle, the Electronics Section shall notify the MSA that they have removed the system from a deleted unit by sending a brief report to the Mobile Video Unit indicating the vehicle A#, Car#, along with an inventory of the In-Car Camera equipment removed from the vehicle.
51. The Radio Shop shall notify the MSA in advance of deleting vehicles from NOPD inventory by sending a brief report to the MSA, listing the A#, as well as Car# of the deleted vehicle.

MASTER SYSTEM ADMINISTRATOR (MSA)

52. NOPD's Master System Administrator ("MSA") assigned to the Information Systems Section shall coordinate access requests to the recorded events for officers and investigators for legitimate law enforcement purposes or as directed by the Superintendent of Police or his/her designee. In addition, the MSA shall be responsible for the storage, management, and duplication of all recorded media.
53. The MSA shall also be responsible for the following:

Video recordings shall be made publicly available consistent with Louisiana Public Records Law (La. R.S. 44:1 *et seq.*). Where Louisiana Public Records Law does not require that a recording be made publicly available, NOPD shall balance privacy concerns against the need for transparency in determining whether to make the video publicly available.
55. Duplication of the recordings may be compiled to become part of a criminal investigation, officer training purposes, administrative investigations, or as specified by the Superintendent of Police. All In-Car Camera recordings are subject to review by the Public Integrity Bureau, and any relevant recording shall be made part of the investigative file per NOPD "Internal Investigations" policies and procedures.

56. Any requests for a certified copy of a video must be submitted on a MVU Request Form (Form 204) and be forwarded to the MVU. Any requests from outside NOPD must also be submitted through the NOPD Records Section.

Consistent with the **City of New Orleans Chief Administrative Office Policy Memorandum No. 127, Record Retention**, digital recordings shall be preserved for at least two years, or if a case is under investigation or litigation for longer than two years, at least three years after the final disposition of the matter, including appeals unless a written request is made to store them for a longer period of time for a legitimate law enforcement purpose determined by the Superintendent of Police or his/her designee.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 41.3.10

TITLE: BODY–WORN CAMERA (“BWC”)

EFFECTIVE: 04/05/2015

REVISED: 11/22/2015

PURPOSE

This Chapter governs the use of the Body–Worn Camera systems and does not apply to or limit the use of the In-Car Camera Systems as defined in Chapter 41.3.8. Certain law enforcement assignments within the New Orleans Police Department may be equipped with an on-body audio/video recording system (BWC) as directed by the Superintendent of Police or the Superintendent’s designee. This system will be used to document events and capture data to be preserved in a Web-based digital storage facility at EVIDENCE.COM. Once captured, these recordings cannot be altered in any way and are protected with multiple layers of encryption. The New Orleans Police Department has adopted the use of *BWC* technology to accomplish the following objectives:

- (a) To promote officer safety.
- (b) To document statements and events during the course of an incident.
- (c) To enhance the law enforcement operator’s ability to document and review statements and actions for internal reporting requirements as well as for courtroom preparation and presentation.
- (d) To preserve visual and audio information for use in current and future investigations.
- (e) To provide an impartial measurement for self-critique and field evaluation during officer training.
- (f) To enhance the public trust by preserving factual representations of officer-citizen interactions in the form of video and audio recordings.

POLICY STATEMENT

1. The New Orleans Police Department is committed to the belief that video/audio documentation of a Department member’s daily encounters is an important and valuable resource for law enforcement. The New Orleans Police Department also is committed to respecting civilians’ reasonable privacy expectations, including but not limited to medical and health privacy and privacy in one’s home.

2. Selected field assignments may be equipped with Body-Worn Camera (“BWC”) devices per Appendix “A” of this policy. The **AXON body** and **AXON flex** systems manufactured by **Taser International** are the only BWC equipment authorized for use. Use of this technology provides for audio/video documentation of a police officer’s enforcement and investigative activities from the perspective of the officer’s person. Benefits to using this equipment can be expected to promote officer safety, result in greater transparency, more effective prosecution, and improved protection against false allegations of excessive use of force, racial profiling, or other misconduct. This policy is intended to achieve an appropriate balance between the benefits of BWC devices and civilians’ reasonable expectations of privacy.
3. The BWC device is used to record certain activities, as set out in this policy, thereby creating an unbiased visual and/or audio record of the incident and a supplement to the officer’s report. Audio or video recordings of enforcement or investigative actions are evidence, and subject to rules of disclosure. It is in the best interest of justice that the Department regulates and controls all forms of evidence collection and storage.

DEFINITIONS

For purposes of this Chapter, the following terms are defined as:

Audio Recording—The electronic recording of conversation, spoken words, or other sounds.

Body-Worn Camera (“BWC”)—Equipment worn by a Department member that captures audio/video signals and includes, at a minimum, a camera, microphone, and recorder. There are two models of BWC systems in use by the New Orleans Police Department: 1) **AXON ‘body’ System** – Self-contained / clip-on audio/video recording device; and 2) **AXON ‘flex’ System** – Variable mount audio/video recording device that includes a cable tethered camera/DVR attached to a controller.

Controller Switch—Master on/off power switch located on the top left, outward-facing corner of the BWC device.

District/Division System Administrator (“DSA”)—Supervisor assigned to the district or division who is responsible for inventory control and operational maintenance of the In-Car Camera system equipment at a District/Division level.

Event Record Button—Push button activation switch located in the center of the BWC device.

EVIDENCE.COM—Online Web-based digital media storage facility. The virtual warehouse stores digitally encrypted data in a highly secure environment accessible to personnel based on assigned levels of security clearance. The New Orleans Police Department account is accessed at: <https://nopd.evidence.com>

Media or Data—For the purposes of this Chapter, references to media or data include photographs, audio recordings and video footage captured by the BWC device. The media are stored digitally and encrypted.

Remote Camera/DVR—Cable tethered camera/DVR affixed to an approved Taser mounting device unique to the **AXON flex** system. Accessories provided with the **AXON flex** system offer a variety of mounting options, such as on glasses, collars, epaulettes, helmets, etc.

Video Recording—The electronic recording of visual images with or without audio component.

GENERAL

4. Department members who have completed authorized training sanctioned by the NOPD Academy shall be the only personnel authorized to use a BWC in an operational setting. Department members assigned these devices are only authorized to audio or video record investigative and/or enforcement activities using departmentally assigned equipment following the practices prescribed within this chapter. The BWC shall be worn at all times while on duty when assigned this device.
5. Department members are **not** authorized to make copies of any recordings for their personal use and are prohibited from using a recording device (such as a phone camera or secondary video camera) to record media from EVIDENCE.COM.
6. Department members assigned a BWC shall not erase, alter, reuse, modify, destroy, abuse, or tamper with BWC audio-video recordings or the device. Department members shall not use other electronic devices or other means to intentionally interfere with the capability of the BWC equipment.
7. BWC equipment will be assigned with priority given to each of the primary patrol shifts in each District and other uniform operations assigned under the Field Operations Bureau based on quantity of operational units in the department's inventory.
8. BWC equipment will be assigned according to the priorities established in **Appendix A**. When a member is transferred, the following shall apply:
 - (a) If the member is transferred to a command that also utilizes a BWC, the equipment shall be relocated with the member.
 - (b) If a member equipped with a BWC is transferred to a command that does not utilize a BWC per **Appendix A**, the member must return his/her BWC to the BWC Office on his/her next Tour of Duty. If the member is unable to return the BWC personally, the DSA of the unit from which the member is being transferred shall make arrangements to return the member's BWC. This includes members transferred to ADD.
 - (c) If the member is transferred from a unit that does not utilize a BWC, the member must obtain a BWC from the BWC Office prior to reporting to his/her new assignment. If the member is unable to obtain a BWC personally, arrangements shall be made with the DSA of the unit to which the member is being transferred to ensure a BWC will be available for that member.
9. Digital recordings shall be preserved for at least two years, or if a case is under investigation or in litigation for longer than two years, at least three years after the final disposition of the matter, including appeals, unless a written request is made to store them for a longer period of time for a legitimate law enforcement purpose.

REQUIRED ACTIVATION OF THE BWC

10. This policy is intended to achieve an appropriate balance between the benefits of BWC devices and civilians' reasonable expectations of privacy. Although this policy identifies those situations in which activation of the BWC is required, an officer has discretion to manually activate the system any time the officer believes it would be appropriate or valuable to document an incident. In exercising this discretion, officers should be aware of, and sensitive to, civilians' reasonable privacy expectations. The BWC shall only be activated for legitimate law enforcement purposes.

Activation of the BWC is required for the following situations:

- (a) All field contacts involving actual or potential criminal conduct within video or audio range;
 - (b) Traffic stops (to include, but not limited to, traffic violations, stranded motorist assistance and all crime interdiction stops);
 - (c) Emergency responses;
 - (d) Vehicle pursuits;
 - (e) Suspicious vehicles;
 - (f) Arrests and transports;
 - (g) Vehicle searches;
 - (h) Consent to search;
 - (i) Physical or verbal confrontations or use of force;
 - (j) Pedestrian checks/Terry Stops;
 - (k) DWI investigations, including field sobriety tests;
 - (l) Domestic violence calls;
 - (m) Statements made by individuals in the course of an investigation or complaint;
 - (n) Advisements of Miranda rights;
 - (o) Seizure of evidence;
 - (p) Swat rolls;
 - (q) High-risk warrants; and
 - (r) All calls for service.
11. Any other contact that becomes adversarial after the initial contact in a situation that would not otherwise require recording.
12. Any other legitimate law enforcement contact where the officer believes that a recording of an incident would be appropriate.
13. The BWC may not be used for the purpose of intimidating an individual or to discourage an individual from observing police activity, making appropriate inquiries of an officer, or making a complaint.
14. Department members have discretion whether to activate a BWC during consensual contacts of a non-criminal nature.

OFFICER RESPONSIBILITIES

15. Prior to beginning each shift, the assigned Department member shall perform an inspection to ensure that the Body-Worn Camera is performing in accordance with the manufacturer's recommendations. If problems are encountered with any component of the system, the BWC equipment shall not be used.
16. At the start of each shift, any member assigned to a District, Division and or Unit that has been provided with body worn cameras shall wear and use the BWC, as directed within this Chapter, while in a uniform or plainclothes capacity. Officers shall wear a BWC while working in a proactive capacity, including but not limited to: traffic checkpoints, directed patrols, and/or traffic enforcement overtime shifts. Members assigned a BWC shall ensure they have adequate recording media for the entire duty assignment and shall test the equipment prior to use according to manufacturer guidelines and testing procedures. Members shall immediately report malfunctioning BWC systems to their immediate supervisor.

17. Inspection, general care and maintenance of a BWC shall be the responsibility of the authorized Department member who has been issued this equipment. BWC equipment shall be operated in accordance with the manufacturer's recommended guidelines, department training and associated department policies.
18. Malfunctions, damage, loss or theft of BWC equipment shall be reported immediately by the assigned Department member to an immediate supervisor. The department member's immediate supervisor shall be responsible for providing written notice to the District/Division System Administrator documenting the suspected cause of equipment failure or corrective action initiated related to possible misuse. All lost or stolen BWC's shall be documented in an incident report. (Refer to **Policy/PR 700, Department Owned and Personal Property**).
19. Body-worn cameras, when worn by District Patrol Officers, shall be worn in the center mass of the officer's chest. Mounting options for SOD personnel shall provide for a frontal view in accordance with uniform specifications (i.e., helmets or other protective gear).
20. Department members issued a BWC shall place the device in the **Event Record Mode** as soon as practical at the onset of a given situation. Once in the **Event Record Mode**, Department members shall continue to record until the completion of the event, or until they have left the scene (this includes recording of statements). Additional arriving units to a scene shall place their BWCs in the **Event Record Mode** as soon as practical (if so equipped), and continue to record until the completion of the event, or they have left the scene (this includes recording of statements).
21. When the BWC is used in an investigative or law enforcement contact, this fact will be documented on any citation, summons, and/or report prepared. Whenever a Department member obtains a video statement, the fact the statement was recorded will be listed in the Incident Report. A video statement is not a replacement for a written or tape recorded statement.
22. Whenever a Department member believes that a recorded event may lead to a citizen complaint, he/she shall bring the recording to the attention of his/her immediate supervisor as soon as possible.

SUPERVISOR RESPONSIBILITIES

23. If a member makes a supervisor aware that a recording may lead to a citizen complaint, the supervisor should review the recording and conduct any further investigation that he or she deems appropriate. If no incident report or supplemental report directly related to the possible citizen complaint is warranted, details of the contact shall be documented via Interoffice Correspondence (Form 105). The Department member's immediate supervisor shall be responsible for ensuring a copy of any report or correspondence related to the contact is forwarded to his or her respective District/Division Commander, Bureau Deputy Superintendent and the Deputy Superintendent of the Public Integrity Bureau.
24. Supervisors shall issue and inspect BWC equipment assigned to members to ensure operability per testing protocols provided under training.
25. Non-functioning or malfunctioning BWC systems shall not be placed into service.
26. Any BWC equipment malfunction shall be reported immediately in writing, via Form 105,

to the member's or supervisor's respective District/Division System Administrator (DSA) with a copy forwarded to the District/Division Commander. The DSA shall be responsible for coordinating maintenance or repair issues directly to the Master System Administrator (MSA) assigned to the Information Systems Section.

27. Supervisors shall ensure all members with malfunctioning or non-functioning BWC replace their BWC before answering any Calls for Service (except for Code 2 priority calls) by obtaining a replacement BWC from:
 - (a) The Body Worn Camera Office during normal working hours (8 am to 4 pm Monday through Friday excluding holidays); or
 - (b) Communication Services outside normal working hours.
28. Supervisors shall log into EVIDENCE.COM each working day and perform a random review of their subordinates' BWC recordings to ensure category accuracy and the proper use of the BWC.
29. Supervisors shall ensure any officer working under their supervision and working in a field assignment listed in **Appendix A** wears a BWC while working in a proactive capacity. This includes but is not limited to: traffic checkpoints, directed patrols, and/or traffic enforcement overtime shifts.
30. When an incident arises that requires the immediate retrieval of a BWC digital recording (e.g., serious crime scenes, officer-involved shootings, Department vehicle crashes) a supervisor from the involved member's chain of command or the assigned investigator shall respond to the scene to secure the member's BWC and maintain a chain of custody. The chain of custody shall be maintained until the BWC digital recordings have been uploaded, properly labeled and entered into EVIDENCE.COM.

MASTER SYSTEM ADMINISTRATOR (MSA)

31. The Master System Administrator (MSA) is/are supervisor(s) authorized by the New Orleans Police Department and assigned to the Information Systems Section with full access to use rights. The MSA shall coordinate access requests to the recorded events for officers and investigators for legitimate law enforcement purposes or as directed by the Superintendent of Police or his/her designee.
32. The MSA is responsible for:
 - (a) Assigning and tracking inventory of equipment;
 - (b) Password control;
 - (c) End-user security access rights;
 - (d) Quality checks of video and sound quality;
 - (e) Coordinating with the District/Division System Administrators; and
 - (f) Serving as liaison to Taser International representative on operational equipment related matters.

CESSATION OF RECORDING

33. The BWC shall be utilized by any Department member assigned this device during all investigative or enforcement contacts however, there may be limited circumstances when the respect for an individual's privacy or dignity outweighs the need to record an event (e.g. – a victim traumatized following a violent assault). When an officer believes such circumstances exist, or that use of a BWC would impede or limit the cooperation of a victim or witness during an investigative contact, an officer may deactivate the BWC after receiving authorization from a supervisor.
34. Once the BWC system is activated, it shall remain on and shall not be turned off until an investigative or enforcement contact or incident has concluded. For purposes of this section, conclusion of an incident has occurred when an officer has terminated contact with an individual, cleared the scene of a reported incident, or has completed transport of a civilian or an arrestee. In any instance in which cessation of the recording prior to the conclusion of the incident may be permitted, the officer must seek and obtain supervisory approval prior to deactivating the BWC. If supervisory approval cannot be reasonably obtained, officers must document on the BWC the reason for termination of the recording prior to deactivation of the BWC.
35. When handling calls for service or incidents involving the treatment of individuals at a medical facility, Department members may be required to restrict use of a BWC in accordance with facility privacy protocols. Where facility protocols do not allow for the recording of an event for which recording would otherwise be required, an officer must notify his or her supervisor as soon as reasonably practical, and shall document the reasons for the failure to activate the BWC in the incident report.

PROHIBITED AUDIO/VIDEO RECORDING BY EMPLOYEES IN THE WORKPLACE

36. The BWC shall not be used to record non-work related personal activity. The BWC shall not be activated in places where an employee has a reasonable expectation of privacy, such as locker rooms, dressing rooms or restrooms, unless a criminal offense has occurred in these locations, at which time every precaution shall be taken to respect the dignity of the victim by avoiding recording videos of persons who are nude or when sensitive areas are exposed. The BWC shall not be intentionally activated to record conversations of fellow employees during routine, non-enforcement related activities without their knowledge.
37. Department members shall not intentionally record confidential informants or undercover officers unless the recording is conducted specifically for the purpose of documenting a sting, drug purchase/sale, or other undercover operation in furtherance of a criminal investigation.
38. Department members shall not make covert recordings of conversations with other Department members except when necessary in the course of a criminal investigation or for Department administrative investigations **and** only with the express consent of the Superintendent of Police or one of his/her designees: the Deputy Superintendent of the Public Integrity Bureau, the Deputy Superintendent of the Field Operations Bureau, the Deputy Superintendent of the Investigations & Support Bureau, the Deputy Superintendent of the Compliance Bureau, and the Deputy Superintendent of the Management Services Bureau.

39. Body-worn cameras shall not be used for purpose of conducting Departmental administrative investigations, including undercover/plainclothes operations, **without** the approval of the Superintendent of Police or his/her designee. However, this requirement shall not restrict the Public Integrity Bureau's routine access to or review of BWC recordings when investigating complaints of misconduct.

TRAINING

40. All members who are authorized to use BWC equipment must complete mandatory training provided by the NOPD Academy to familiarize themselves with the audio/video recording system and Departmental procedures prior to its use.

BODY-WORN CAMERA MODES OF OPERATION

41. **Pre-Event Buffering Mode:** Device feature through which the camera continuously records and holds the most recent 30 seconds of video prior to record activation. With this feature, the initial event that causes the officer to activate recording is likely to be captured automatically, thereby increasing the capability of recording the entire activity. Pre-event buffering does not occur when the Controller Switch is in the off position.
42. **Event Record Mode:** In this mode, the BWC device saves the buffered video and continues recording audio and video for up to eight hours or the life of the battery. To activate, the end-user must double click the Event Record Button located on the center of the OCM device (an audible tone will sound to alert the end-user the device is now recording). To stop recording, the end-user must push and hold the Event Record Button for three seconds to return to the Pre-Event Buffering Mode.
43. **Operational LED:**
- (a) Solid Red LED - Device Boot up
 - (b) Blinking Green LED – Device Buffering
 - (c) Blinking Red – Device Recording
 - (d) Blinking Yellow – Remote Camera/DVR Disconnect / Other Device Malfunction

CATEGORIZING BWC VIDEOS

44. Department members shall properly categorize each BWC video made. Department members shall categorize a BWC video as follows:
- **ID:** NOPD item number utilizing the corresponding alphabetic character for the month (A-L), followed by a hyphen (-), followed by a five digit incident number (use zeroes to form the five digit number if necessary), followed by a hyphen (-), followed by the year Indicator which is the last two digits of the current year (EXAMPLE: A-12345-14).
 - **CATEGORY:** Choose the applicable category(s) from the dropdown list. (e.g. – field interview, case file, citation, traffic stop, traffic accident, miscellaneous, training or other appropriate category listed for the event, provided, however, that miscellaneous shall be used only where the activity does not reasonably fall within another category).
 - **EVENT:** Replace the “AXON Body Video” label with the address of the incident.

45. Failure to properly categorize a BWC recording may result in disciplinary action.

DELETION OF UNINTENTIONAL RECORDINGS

46. In the event of an unintentional activation of BWC equipment during non-enforcement or non-investigative activities (e.g. a restroom or meal break, or in other situation when a reasonable expectation of employee privacy exists) a Department member may request deletion of the recording.
47. A form 105 detailing the circumstances of an unintentional recording shall be forwarded via the chain of command to the member's District/ Division Commander and, if approved, the actual deletion shall require two-party authorization. One of those parties shall be the member's District/Division Commander, and the other shall be the Master System Administrator.
48. Only the Master System Administrator shall facilitate the actual removal of any record approved for deletion. Records related to any request for the deletion of records shall be maintained by the Master System Administrator.

CHARGING AND UPLOADING PROCEDURE

49. At the end of their shift, Department members issued a BWC shall place the device into an open slot on the Evidence Transfer Manager (ETM docking station) located at their District/Division assignment. This will allow for recharging of the device and media or data transfer from the BWC through the docking station to EVIDENCE.COM.
50. At the conclusion of recharge/upload cycle, the device is automatically cleared of all previously recorded data. The BWC device shall not be removed from the ETM until media or data has been uploaded and the battery has been fully recharged. When complete, a green light will illuminate on the device's associated ETM docking port signifying the BWC is ready for use. Under normal use (routine shift), a recharge/upload cycle can be expected to take between one to three hours to complete.

AUTHORIZED USER ACCESS TO UPLOADED MEDIA OR DATA

51. General access to digital recordings shall be granted to Department-authorized users only. It is the responsibility of authorized users to keep their user names and passwords confidential. Accessing, copying, or releasing any recordings for other than official law enforcement purposes is strictly prohibited, except as required by law.
52. A department member who has been assigned a BWC device may review his or her own BWC recording to help ensure accuracy and consistency of accounts. This can be done by accessing EVIDENCE.COM. To prevent damage, original recordings shall be viewed only by members who are assigned a BWC device through means authorized by the Department. Any review of a BWC by the officer shall be documented in the incident report corresponding with the incident.

53. A Department member involved in any use of force incident or accident causing injuries will be permitted, but will not be required, to review his or her own BWC video recordings prior to providing a recorded statement or completing reports. Witness Department members will only be allowed to review BWC video if it can be determined that their on-scene position would allow them to simultaneously perceive events in question from the same perspective as the involved member.
54. The Superintendent of Police or one of his/her designees (the Deputy Superintendent of the Public Integrity Bureau, the Deputy Superintendent of the Field Operations Bureau, the Deputy Superintendent of the Investigations & Support Bureau, the Deputy Superintendent of the Compliance Bureau, and the Deputy Superintendent of the Management Services Bureau) may authorize an investigator participating in an official Department investigation of a personnel complaint, claims investigation, administrative inquiry, or criminal investigation, access to review specific incidents contained on BWC recordings. Access for any other purpose shall require the express approval of the Superintendent of Police.
55. A supervisor may review specific BWC media or data for the purpose of training, performance review, critique, early intervention inquiries, civil claims, administrative inquiry, or other articulable reason.
56. Field Training Officers may use media captured via a BWC device to provide immediate training to recruits and to assist with the completion of the Daily Observation Report (DOR).
57. Under no circumstances shall members with access to BWC media or data files be allowed to use, show, reproduce or release recordings for the purpose of ridicule or embarrassment of any officer or individual or for other non-law enforcement related purposes. This includes submission of any portion of a BWC recording to a media organization unless release has been approved in advance by the Superintendent of Police.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 41.4

TITLE: FOOT PURSUITS

EFFECTIVE: 12/6/15

REVISED: Replaces Policy 458

PURPOSE

Foot pursuits are inherently dangerous and require legal justification, sound tactics, and heightened officer safety awareness. This Chapter governs officers' decisions to initiate or continue the pursuit of suspects on foot by balancing the objectives of protecting the safety of the public, police officers, and the suspect with enforcing the law and apprehending the suspect.

POLICY STATEMENT

1. The safety of Department personnel and the public shall be the primary consideration when determining whether officers should initiate or continue a foot pursuit. Officers must be mindful that immediate apprehension of a suspect is rarely more important than the safety of the public and Department personnel.

DEFINITIONS

Definitions relevant to this Chapter include:

Exigent circumstances—A compelling urgency or true emergency that an officer can specifically describe not using vague terms or boilerplate language. Circumstances that cause a reasonable person to believe that prompt action is necessary to prevent injury to themselves or others.

Foot Pursuit—An incident where an officer chases (on foot) a person who is evading a legal detention or arrest.

DECISION TO PURSUE ON FOOT

2. Officers may be legally justified in initiating a foot pursuit of any individual whom an officer has probable cause to believe has violated a law or ordinance or when the officer has met the requirements for a Terry Stop (see **Chapter 1.2.4.1 – Terry Stops / Investigatory Stops**).
3. Officers must continually reevaluate the decision to pursue in light of changing circumstances during the pursuit.
4. Mere flight by a subject who is not suspected of criminal activity shall not serve as the sole justification for engaging in a foot pursuit.

5. Deciding to initiate or continue a foot pursuit often is a decision that an officer must make quickly and under unpredictable and dynamic circumstances. Foot pursuits may place Department members and the public at risk. An objectively reasonable assessment of risk is a legitimate factor in determining whether to initiate or continue a foot pursuit.
6. Surveillance and containment are generally the safest tactics for apprehending fleeing persons and shall be utilized when circumstances reasonably permit.
7. Other reasonable alternatives that officers must consider in deciding whether to initiate or continue a foot pursuit include:
 - (a) Availability of aerial support;
 - (b) Containment of the area;
 - (c) Canine search;
 - (d) Saturation of the area with patrol personnel; and
 - (e) Apprehension at another time, when the identity of the suspect is known or there is information available that would likely allow for later apprehension, and the need to immediately apprehend the suspect does not reasonably appear to outweigh the risk of continuing the foot pursuit.

GUIDELINES FOR FOOT PURSUIT

8. The pursuing officer(s) shall terminate a foot pursuit if so instructed by a supervisor.
9. Unless the officer reasonably believes that exigent circumstances exist (e.g., an immediate, serious threat to the safety of Department members or the public), officers should consider alternatives to engaging in or continuing a foot pursuit.
10. A **risk factor** is any attribute, characteristic or exposure that increases the likelihood of injury and/or compromises the safety of the public and Department personnel. Officers shall consider the following risk factors when deciding whether to initiate or continue a foot pursuit:
 - (a) The officer is acting alone.
 - (b) Two or more officers become separated, lose visual contact with one another or obstacles separate them to the degree that they cannot immediately assist each other should a confrontation take place. In such circumstances, a single officer should keep the suspect in sight from a safe distance and coordinate the containment effort.
 - (c) The officer is unsure of his/her location and direction of travel.
 - (d) Pursuing multiple suspects and the pursuing officers do not reasonably believe that they would be able to control the suspects should a confrontation occur.
 - (e) The physical condition of the officers renders them incapable of controlling the suspect if apprehended.
 - (f) The officer loses radio contact with Communications Services or with backup officers.
 - (g) The suspect enters a building, structure, confined space, or a wooded or otherwise isolated area and there are insufficient officers to provide backup and containment; the primary officer should consider discontinuing the pursuit and coordinating containment pending the arrival of sufficient officers.

- (h) The officer becomes aware of unanticipated or unforeseen circumstances that substantially increase the risk to officers or the public.
- (i) The officer reasonably believes that the danger to the pursuing officers or public outweighs the necessity for immediate apprehension.
- (j) The officer loses possession of his/her firearm or other essential equipment.
- (k) The officer or a third party is injured during the pursuit, requiring immediate assistance and there are no other emergency personnel available to render assistance.
- (l) The suspect's location is no longer definitely known.
- (m) The identity of the suspect is established or other information exists that will allow for the suspect's probable apprehension at a later time, and it reasonably appears that there is no immediate threat to Department members or the public if the suspect is not immediately apprehended.
- (n) The officer's ability to safely continue the pursuit is impaired by inclement weather, darkness, or other conditions.

RESPONSIBILITIES IN FOOT PURSUITS

INITIATING OFFICER'S RESPONSIBILITIES

- 11. The initiating officer shall be responsible for coordinating the progress of the pursuit unless relieved by another officer or a supervisor.
- 12. Officers must ensure that they activate their body worn cameras throughout the foot pursuit.
- 13. Early communication of available information from the involved officers is essential so that adequate resources can be coordinated and deployed to bring a foot pursuit to a safe conclusion.
- 14. Commencing with a request for priority radio traffic and advisement of a foot pursuit, the initiating officer should provide the following information to Communication Services on the primary communications channel of the District in which the request to pursue is made:
 - (a) Unit identifier;
 - (b) Location and direction of travel;
 - (c) Reason for the foot pursuit;
 - (d) Number of suspects and description; and
 - (e) Whether the suspect is known or believed to be armed.
- 15. Officers shall make reasonable efforts to update their location and direction of travel during the pursuit.
- 16. Officers should be mindful that radio transmissions made while running may be difficult to understand and may need to be repeated.
- 17. Absent extenuating circumstances, any officer unable to promptly and effectively broadcast this information shall terminate the pursuit. If the foot pursuit is discontinued for any reason, immediate efforts for containment should be implemented by on scene members and alternatives considered based upon the circumstances and available resources.

18. When a foot pursuit terminates, the officer will notify as quickly as practicable the Communications Services of his/her location and the status of the pursuit termination (e.g., suspect in custody, lost sight of suspect) and will direct further actions as reasonably appear necessary.

ASSISTING OFFICER RESPONSIBILITIES

19. Whenever any officer announces that he/she is engaged in a foot pursuit, all other officers should minimize nonessential radio traffic to permit the involved officers maximum access to the radio talk group (channel).
20. Any officer positioned to intercept a fleeing suspect or to assist the primary officer with the apprehension of the suspect shall act reasonably and in accordance with department policy, based upon available information and his/her own observations.

SUPERVISOR'S RESPONSIBILITIES

21. Upon becoming aware of a foot pursuit, the supervisor shall direct that radio traffic is restricted, decide as soon as possible whether the foot pursuit should continue and make every reasonable effort to ascertain sufficient information to direct responding resources and to take command, control, and coordination of the foot pursuit.
22. The supervisor should not allow the foot pursuit to continue if the foot pursuit violates provisions of this Chapter or related Department regulations, policies, or training and:
 - (a) There are at least two officers working in tandem and there is a reasonable belief that the suspect(s) has committed an act that would permit the officer to detain the suspect; or
 - (b) There is a reasonable belief that the suspect(s) pose an immediate threat to the safety of the public or other officers.
23. The supervisor should continuously assess the situation in order to ensure the foot pursuit is conducted within established Department guidelines and shall direct that officers terminate a foot pursuit at any time the supervisor concludes that the danger to pursuing officers or the public outweighs the necessity for immediate apprehension of the suspect.
24. The supervisor should respond to the area when possible but does not need to be physically present to exercise control over the pursuit. The supervisor should exercise control via radio when not present.
25. Upon apprehension of the suspect, the supervisor shall promptly proceed to the termination point to assert post-pursuit discipline, direct the post-pursuit activity, and conduct any investigations relating to Use of Force, if necessary (see **Chapter 1.3.6 – Reporting Use of Force**).

COMMUNICATION SERVICES RESPONSIBILITIES

26. Upon being notified or becoming aware that a foot pursuit is in progress, Communications Services personnel shall ensure that a District supervisor is immediately notified of the foot pursuit and provided all available information.

27. Communications Services personnel are also responsible for:
- (a) Clearing the radio channel of non-emergency traffic;
 - (b) Repeating the transmissions of the pursuing officer as needed;
 - (c) Ensuring that a District supervisor is notified of the pursuit;
 - (d) Relaying all pertinent information to responding personnel;
 - (e) Contacting additional resources as indicated or requested; and
 - (f) Coordinating response of additional resources to assist with the foot pursuit.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 41.5

TITLE: VEHICLE PURSUITS

EFFECTIVE: 12/6/15

REVISED: Replaces Policy Procedure 314

PURPOSE

1. This policy governs vehicle pursuits in order to protect the safety of involved officers, the public, fleeing violators, and property.
2. This Department's response to those who unlawfully flee from law enforcement action shall stress a balance between the importance of apprehending offenders and the high-risk nature of vehicle pursuits. Therefore, officers may engage in a pursuit only when they have a reasonable suspicion that a fleeing suspect has committed or has attempted to commit a **crime of violence** as defined by this Chapter and the escape of the subject would pose an imminent danger of death or serious bodily injury to the officer or to another person. Pursuits for property offenses, misdemeanor offenses, traffic, or civil infractions are prohibited. Officers must receive supervisory approval prior to initiating the pursuit. Officers are not authorized to engage in a vehicle pursuit in order to subdue an escaping suspect who presents no imminent threat of death or serious injury. Vehicle pursuits may never be used for the protection of property.

DEFINITIONS

Authorized Emergency Vehicle—A properly equipped vehicle, owned and operated by or for a government agency, to protect and preserve life and property for a planned or unplanned response, in accordance with state laws regulating emergency vehicles.

Blocking or vehicle intercept—A slow-speed, coordinated maneuver where two or more law enforcement vehicles simultaneously intercept and block the movement of a suspect vehicle, the driver of which may be unaware of the impending enforcement stop. The goal is containment and preventing a pursuit. Blocking is not a moving or stationary road block.

Blocking or vehicle intercept is not authorized by this department.

Boxing in—A tactic designed to stop a violator's vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop. **Boxing in is not authorized by this Department.**

Caravanning—The practice, during a vehicle pursuit, of more than two authorized emergency vehicles following each other in a relative single file, usually with less than sufficient reactionary distance between the vehicles to adjust for sudden movement or actions by the preceding vehicles.

Crash—Refers to a motor vehicle crash as defined by the State of Louisiana and NOPD regulations. More commonly, “the unintended collision of one motor vehicle with another, a stationary object, or person, resulting in injuries, death and/or loss of property.”

Crime of Violence— a felony involving the infliction or threatened infliction of serious bodily injury or death.

Department—Means the New Orleans Police Department.

Emergency Equipment—All emergency equipment available, to include red and/or blue emergency flashing lights and siren.

Exigent circumstances— A compelling urgency or true emergency that an officer can specifically describe not using vague terms or boilerplate language. Circumstances that cause a reasonable person to believe that prompt action is necessary to prevent injury to themselves or others.

Express approval or express disapproval—Express approval or disapproval is the verbal acknowledgment by a platoon supervisor either approving or disapproving a vehicle pursuit. This approval/disapproval shall be made on the radio working dispatch talk group for the district of occurrence. The express approval/disapproval shall be an unequivocal statement that the vehicle pursuit is authorized or not authorized (e.g., "620 - The pursuit is authorized" or "620 – The pursuit is not authorized) and shall be broadcast as soon as possible. **Vehicle pursuits without express approval are not authorized by this Department.**

Paralleling—Participating in the pursuit by proceeding in the same direction and maintaining approximately the same speed while traveling on an alternate street or highway that parallels the pursuit route. **Paralleling is not authorized by this Department.**

Platoon Supervisor—For purposes of this policy, any supervisory ranking officer of the New Orleans Police Department who is assigned to, detailed to or working in the district in which the pursuit authorization is requested.

Police Motorcycle—An Authorized Emergency Vehicle which is a 2- or 3-wheeled motorcycle distinctively marked, and equipped with emergency lighting and a siren.

Primary Unit—The initiating pursuing unit unless relieved by another unit.

Pursuit Intervention—An attempt to terminate the ability of a suspect to continue to flee in a vehicle through tactical application of technology, tire deflation devices, blocking, boxing in, PIT, ramming or roadblock procedures. **Pursuit intervention is not authorized by this Department.**

Pursuit Intervention Technique (PIT)—A low-speed maneuver intended to terminate the pursuit by causing the violator's vehicle to spin out of control and come to a stop. **PIT is not authorized by this Department.**

Pursuit Supervisor—An on-duty supervisor assigned to the NOPD District platoon for the district of occurrence of a vehicle pursuit (e.g. 610, 530, 420, etc.).

Ramming—The deliberate act of impacting a violator's vehicle with another vehicle to functionally damage or otherwise force the violator's vehicle to stop. Ramming is a deadly force technique. **Ramming is not authorized by this Department.**

Reasonably Necessary—The immediate danger to the public created by the pursuit is less than the immediate risk to the public should the pursuit not continue.

Roadblocks—A tactic designed to stop a violator's vehicle by intentionally placing a vehicle or immovable object in the path of the violator's vehicle. **Roadblocks are not authorized by this Department.**

Secondary Unit—The second Authorized Emergency Vehicle in a pursuit.

Terminate (relative to a pursuit) —To discontinue or stop pursuing a vehicle. A pursuit shall be considered to have terminated when the primary and assigned backup officers turn off all emergency equipment, and the primary and any backup officers turn their police vehicles in another direction of travel away from where the suspect's vehicle was last seen heading, or pull to the side of the road if on a limited access roadway, and inform Communications Section of this fact along with their location.

Tire deflation device, spikes or tack strips—A device that extends across the roadway and is designed to puncture the tires of the pursued vehicle. **Tire deflation devices, spikes or tack strips are not authorized by this Department.**

Trail—To follow the path of the pursuit at a safe speed, while obeying all traffic laws and without activating emergency equipment.

Unmarked Police Vehicle—An Authorized Emergency Vehicle used primarily by plainclothes police officers. It is not conspicuously marked and may be of any color. It is equipped with emergency lighting and a siren.

Vehicle pursuit—An event involving one or more peace officers attempting to apprehend a suspect who is trying to avoid arrest while operating a motor vehicle. This may include using high speed or other evasive tactics, such as disregarding traffic warning signs, stop signs, and red lights, driving off a roadway, turning suddenly or driving in a legal manner but willfully failing to yield to an officer's signal to stop.

LEGAL REQUIREMENTS UNDER STATE LAW

3. A vehicle pursuit shall be conducted using an authorized emergency vehicle that is equipped with a siren and proper emergency lighting. The officer shall ensure that they have given the suspect they are attempting to stop both a visual and an audible signal to stop by activating their vehicle's emergency lights and siren (see. La. R.S. 14:108.1).
4. The officer driving an emergency vehicle may, when in pursuit of a suspect (La. R.S. 32:24):
 - (a) Proceed past a red light, stop signal or stop sign, but only after slowing down as may be necessary for safe operation.
 - (b) Exceed the speed limit so long as the officer does not endanger life or property.
 - (c) Disregard regulations governing direction of movement (**however, movement against traffic flow is not authorized by this Department**) or turning in specified directions as long as the officer does not endanger life or property.
 - (d) Park or stand in a roadway, irrespective of traffic regulations.
5. Officers shall drive with due regard for the safety of all persons. The failure to drive with due regard for the safety of all motorists can lead to disciplinary action, civil and even criminal charges. No call is of such importance and no task shall be expedited at such speeds or lack of reasonable driving that the principles of safety become secondary. Life

is more important than property and protecting and preserving life must be placed above all other considerations.

WHEN A PURSUIT IS NOT INITIATED

6. If no vehicle pursuit took place, because the officer declined to request permission, OR the permission was refused, the officer **must** complete the areas indicated on the Vehicle Pursuit Form after checking the appropriate box indicating that a pursuit did not take place. The required fields in the Vehicle Pursuit Report will become outlined in red.
7. Officers who engage in unapproved vehicle pursuits are in violation of this Chapter, which can lead to disciplinary action, civil and even criminal charges.
8. Supervisors who become aware of unapproved vehicle pursuits shall notify PIB and initiate disciplinary action immediately (see **Chapter 52.1.1 – Complaint Investigation**).

WHEN A PURSUIT MAY BE INITIATED

9. Upon express supervisory approval, officers are authorized to initiate a pursuit **ONLY** when:
 - (a) an officer can articulate that a suspect is attempting to evade arrest or detention for a **crime of violence** as defined by this Chapter;
 - (b) the escape of the subject would pose an imminent danger of death or serious bodily injury to the officer or to another person; and
 - (c) the suspect is fleeing in a vehicle after having been given a signal to stop by a commissioned member who has identified themselves as a police officer (e.g., in uniform, in a marked police unit, showing badge and ID. – see: definition of Professional Presence **Chapter 1.3 – Use of Force**).
10. Officers must receive supervisory approval prior to initiating the pursuit. **Pursuits for misdemeanor offenses, traffic, or civil infractions are prohibited.** Dangerous driving during a pursuit does not justify a continued pursuit.
11. Factors that shall be considered, both individually and collectively, when deciding to initiate or continue a pursuit include:
 - (a) The seriousness of the known or reasonably suspected **crime of violence** as defined by this Chapter and its relationship to community safety.
 - (b) The importance of protecting the public and balancing the known or reasonably suspected offense, and the apparent need for immediate apprehension against the risks to officers, innocent motorists and others.
 - (c) The nature of the fleeing suspect (e.g., Whether the suspect represents a serious, ongoing threat to public safety. Reckless driving during the pursuit does not justify a continued pursuit).
 - (d) The identity of the suspect has been verified and there is minimal risk in allowing the suspect to be apprehended at a later time.
 - (e) The safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic (e.g., school zones) and the speed of the pursuit relative to these factors.
 - (f) The pursuing officer's familiarity with the area of the pursuit, the quality of radio communication between the pursuing units and the dispatcher/supervisor, and the driving capabilities of the pursuing officers under the conditions of the pursuit.

- (g) The weather, traffic and road conditions that unreasonably increase the danger of the pursuit when weighed against the risks resulting from the suspect's escape.
- (h) The performance capabilities and type of authorized emergency vehicles used in the pursuit in relation to the speed and other conditions of the pursuit.
- (i) Vehicle speeds.
- (j) Other persons in or on the pursued vehicle (e.g., passengers, co-offenders and hostages).
- (k) The availability of other resources (e.g., helicopter, airplane, drone, etc.).
- (l) The police unit is carrying passengers other than on-duty police officers (e.g., ride-along, emergency transport of civilians, prisoners, etc.). **Pursuits shall not be undertaken with a passenger in the pursuit vehicle.**

WHEN A PURSUIT SHOULD BE TERMINATED

- 12. Pursuits should be terminated whenever the totality of the circumstances, known or which ought to be known to the officer or supervisor during the pursuit, indicate the present risk of continuing the pursuit appears to outweigh the risk resulting from the suspect's escape. While the Department has restricted pursuits to violent crimes, there are situations where conditions require these pursuits to be terminated.
- 13. The following factors should also be considered when deciding to terminate a pursuit:
 - (a) The distance between the pursuing officers and the fleeing vehicle is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time or distance.
 - (b) The pursued vehicle's location is no longer definitely known (visual contact is lost).
 - (c) The officer's pursuit vehicle sustains damage or a mechanical failure that renders it unsafe to operate.
 - (d) The pursuit vehicle has an emergency equipment failure that causes the vehicle to no longer qualify for authorized emergency vehicle status.
 - (e) The hazards to uninvolved bystanders or motorists.
 - (f) When the identity of the offender is known and it does not reasonably appear the need for immediate capture outweighs the risks associated with continuing the pursuit, officers should strongly consider discontinuing the pursuit and apprehending the offender at a later time.
 - (g) When directed to terminate the pursuit by the pursuit supervisor or a higher ranking supervisor.
 - (h) When the pursuit is futile, such as when the suspect continues to flee and there is no plan to get him or her to stop.

PURSUIT UNITS

- 14. The number of authorized emergency vehicles (units) engaged in a pursuit should be limited to two vehicles (Primary and Secondary Units). However, the number of authorized emergency vehicles involved in the pursuit will vary with the circumstances during the course of the pursuit. **Supervisors involved in the actual pursuit shall not be classified or function as the "pursuit supervisor."**
- 15. An officer or supervisor may request additional units to join a pursuit if, after assessing the factors outlined above, it appears that the number of officers involved would be insufficient to safely arrest the suspect(s) or affect the arrest with a minimal use of force. All other officers shall refrain from participating in the pursuit but, should remain alert to its progress and location. Any officer who "drops out" or discontinues participating in a

pursuit may then, if necessary, proceed to the termination point of the pursuit at legal speeds, following all appropriate traffic laws.

16. Distinctively marked authorized emergency vehicles (e.g. patrol vehicles) equipped with emergency lighting and sirens should replace unmarked vehicles involved in a pursuit as soon as practicable.
17. All officers shall activate their Body Worn Cameras (BWC) immediately upon becoming involved in a vehicle pursuit. The use of the In Car Camera (ICC) does not relieve the officer of this responsibility.

POLICE MOTORCYCLES

18. The use of motorcycles in pursuits is discouraged and allowed only in the most serious cases. Supervisors must consider terminating any pursuit in which a motorcycle is involved for the safety of the officer. If a pursuit involving a motorcycle is approved, then a distinctively marked authorized emergency vehicle (e.g., patrol vehicle, sedan or SUV) equipped with emergency lights and siren should replace a police motorcycle as the primary and/or secondary pursuit unit as soon as practicable.

VEHICLES WITHOUT EMERGENCY EQUIPMENT

19. Vehicles (marked or unmarked) not equipped with or with malfunctioning emergency lights and siren are prohibited from initiating or joining in any pursuit. Officers in such vehicles may provide support to pursuing units as long as the vehicle is operated in compliance with all traffic laws.

PRIMARY PURSUIT UNIT RESPONSIBILITIES

20. The officer initiating the pursuit or initial pursuing officer will be designated as the primary pursuit unit and will be responsible for the conduct of the pursuit unless, the primary pursuit unit is unable to continue in that capacity due to mechanical failure of the vehicle or emergency equipment, or the officers lose sight of the suspect vehicle.
21. The primary responsibility of the officer initiating the pursuit is the apprehension of the suspect without unreasonable risk to themselves or others. Commencing with a request for priority radio traffic and the request to initiate a vehicle pursuit, the primary unit should provide the following information to Communication Services on the primary communications channel of the District in which the request to pursue is made:
 - (a) The nature of the suspected “**crime of violence**” which underlies the reason for the pursuit.
 - (b) The location and direction of travel of the suspect vehicle.
 - (c) The speed of the fleeing vehicle.
 - (d) The description of the fleeing vehicle and license number, if known.
 - (e) The number of occupants, if known.
 - (f) The identity or description of the known occupants.
 - (g) The weather, road and traffic conditions.
 - (h) The identity of other agencies involved in the pursuit.
 - (i) Information concerning the use of firearms, threat of force, injuries, hostages or other unusual hazards.
 - (j) The type of authorized emergency vehicle being utilized by the requesting officer (e.g. marked unmarked, motorcycle, etc.)

22. Unless relieved by a supervisor or secondary unit, the officer(s) in the primary unit shall be responsible for broadcasting the progress (e.g., change of locations, direction of travel, roads, speeds, etc.) of the pursuit. Unless circumstances indicate otherwise, the primary unit should relinquish the responsibility of broadcasting the progress of the pursuit to a secondary unit joining the pursuit to minimize distractions and allow the primary unit operator to concentrate on safe pursuit tactics.

SECONDARY PURSUIT UNIT RESPONSIBILITIES

23. The secondary unit in the pursuit is responsible for:
- (a) Immediately notifying Communication Services (Dispatcher) on the primary communications channel of the District in which the pursuit is taking place of their entry into the pursuit.
 - (b) Maintaining a safe distance (reactionary gap) behind the primary unit unless directed to assume the role of primary unit (officer), or if the primary unit is unable to continue the pursuit.
 - (c) Broadcasting the progress of the pursuit unless the situation indicates otherwise.
 - (d) Serving as backup to the primary unit once the suspect vehicle has been stopped. In some cases, the secondary officer may be in the best position to apprehend the suspect due to the effects of adrenalin and stress on the primary officer.

PURSUIT DRIVING TACTICS

24. The decision to use specific pursuit driving tactics requires the same assessments outlined in the factors to be considered for pursuit initiation and termination. The following are tactics for officers / units involved in the pursuit:
- (a) Officers shall critically evaluate their driving skills and their vehicle's performance capabilities.
 - (b) Officers will distance themselves and their vehicles from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle.
 - (c) Intersections present increased risks and the following tactics should be considered:
 - 1. Available units not directly involved in the pursuit may proceed safely to controlled intersections ahead of the pursuit in an effort to warn cross traffic.
 - 2. Pursuing units shall exercise due caution and slow down as may be necessary for safe operation when proceeding through controlled intersections.
 - (d) Officers shall not follow a pursued vehicle that is driving the wrong way on a roadway by also driving the wrong way. **Movement against traffic flow is not authorized by NOPD.**
 - (e) In the event the pursued vehicle does so, tactics to consider include:
 - 1. Maintaining visual contact with the pursued vehicle by driving parallel on the correct side of the roadway or on a parallel roadway. The emergency lights of the pursuing vehicles may distract oncoming traffic and consideration should be given to terminating the pursuit.
 - 2. Requesting other units to observe exits available to the suspect.
 - 3. Requesting assistance from an air unit when available.
 - (f) Notifying other law enforcement agencies if it appears the pursuit may enter their jurisdiction.

- (g) Officers involved in a pursuit should not attempt to pass other pursuit units unless a specific situation indicates otherwise or they are requested to do so by the primary unit. A clear understanding of the maneuver process to be used must exist and be communicated between the involved officers / units.

TACTICS/PROCEDURES FOR UNITS NOT INVOLVED IN THE PURSUIT

25. Officers should remain in their assigned area and should not become involved with the pursuit unless directed otherwise by a supervisor.
26. Non-pursuing personnel needed at the termination of the pursuit should respond in a non-emergency manner, observing all traffic laws.
27. The primary unit and secondary unit should be the only units operating under emergency conditions (emergency lights and siren) unless other units are assigned to the pursuit by a supervisor.
28. The following actions or tactics are **expressly prohibited** in a vehicle pursuit:
- (a) Roadblocks
 - (b) Caravanning
 - (c) Blocking or vehicle intercept (boxing)
 - (d) PIT maneuvers
 - (e) Ramming a suspect vehicle with an authorized emergency vehicle.
 - (f) Following a vehicle the wrong way on a street or highway (driving against traffic).
 - (g) Intentionally placing or positioning oneself in the path of a suspect vehicle during a pursuit
 - (h) Reaching inside the pursued vehicle while it is moving or under the control of the suspect
29. Officers should not use deadly force in self-defense when the only deadly force used by the other person is an automobile. The suspect's intentions are usually ambiguous and the officer can usually escape harm at least as well by evading the vehicle as he can by standing his ground and firing at the oncoming vehicle. An officer rarely has a safe or effective shot at a moving vehicle. The officer must consider the consequences of stray shots endangering innocent parties and must consider the consequences of the vehicle losing control at a high rate of speed. **The guidelines of Chapter 1.3 – Use of Force / Prohibited Actions / Shooting at or from moving vehicles are controlling in this area.**
30. Where possible (unless trapped by walls, fences, and other stationary objects) the officer shall attempt to move out of the path of a moving vehicle rather than discharge their weapon to stop the vehicle. Officers shall not shoot at any part of a vehicle in an attempt to disable the vehicle. **The guidelines of Chapter 1.3 – Use of Force / Prohibited Actions / Shooting at or from moving vehicles are controlling in this area.**

PURSUIT TRAILING

31. In the event the initiating unit (primary pursuit unit) from this Department relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of a supervisor, trail the pursuit to the termination point in order to provide information and assistance for the arrest of the suspect.

32. If the pursuit is at a slow rate of speed, the trailing unit will maintain sufficient separation and distance from the pursuit units to clearly indicate an absence of participation in the pursuit.

SUPERVISORY CONTROL AND RESPONSIBILITIES OF A PURSUIT

33. Supervisory and management control will be exercised over all vehicle pursuits involving officers from the NOPD.
34. The platoon supervisor from the district where the pursuit initiated or, if unavailable, any other supervisor of the same district shall be responsible for the following:
 - (a) Upon becoming aware of a pursuit, immediately notifying involved officers and Communications Services of their supervisory presence on the primary communications channel of the District in which the pursuit is taking place.
 - (b) Ascertaining all available information about the pursuit from the primary unit or Communications.
 - (c) Continuously assessing the situation and risk factors associated with the pursuit in order to ensure that the pursuit is conducted within Department guidelines.
 - (d) Providing on-scene supervision.
 - (e) Exercising management and control of the pursuit.
 - (f) Ensuring that no more than the required number of law enforcement units needed are involved in the pursuit.
 - (g) Terminating the pursuit if, in the supervisor's judgment, the pursuit is not justified or safe to continue.
 - (h) Ensuring the proper radio communications channel is being used.
 - (i) Ensuring outside law enforcement agencies are notified and/or coordinated if the pursuit either leaves or is likely to leave Orleans Parish or enter another agency's jurisdiction.
 - (j) Controlling and managing NOPD units when a pursuit enters another jurisdiction.
 - (k) Completing the Vehicle Pursuit Report (Form 216). This will include a post-pursuit critique and analysis of the pursuit.
35. The pursuit supervisor shall not actively engage in the pursuit and remain the pursuit supervisor.

PLATOON COMMANDER RESPONSIBILITIES

36. Upon becoming aware a pursuit has been initiated, the District Platoon Commander of the District in which the pursuit originates, shall monitor and continually assess the situation and ensure the pursuit is conducted within the guidelines and requirements of this policy. The platoon commander, at their discretion, can assume the role of pursuit supervisor. They must expressly do so on the primary communications channel of the District in which the pursuit is taking place.
37. The Platoon Commander shall review all pertinent reports for content and forward them through the chain-of-command as directed for each report.

PURSUIT COMMUNICATIONS

38. Pursuit communications will be conducted on the primary working channel for the district in which the pursuit was initiated.

COMMUNICATIONS SERVICES RESPONSIBILITIES

39. Upon notification a pursuit has been initiated, Communications Services will be responsible for:
- (a) Coordinating pursuit communications of the involved units and personnel.
 - (b) Notifying and coordinating with other involved or affected agencies as directed by Communications protocols or the pursuit supervisor.
 - (c) Ensuring a platoon supervisor of the district in which the pursuit is initiated is notified of the pursuit and acknowledges the notification over the radio.
 - (d) Assigning an NOPD item number and logging all pursuit activities under that item number. This includes specific references to all related NOPD incident item numbers that may be related to the vehicle pursuit (e.g. crashes related to the pursuit, criminal incident reports, injury reports, etc.).
 - (e) Broadcasting pursuit updates as well as other pertinent information, as necessary, on any required channel(s).
 - (f) Notifying the Platoon Commander of the district in which the pursuit is initiated as soon as possible.
40. The Command Desk shall be notified immediately by the District dispatcher if a pursuit request is neither approved nor disapproved by a district supervisor or higher ranking supervisor.
41. In the absence of a district supervisor to manage a pursuit, or at the disapproval of a pursuit request by a district supervisor, the Command Desk shall instruct the dispatcher to order the officers to terminate the pursuit. The pursuit is considered ongoing until the order to terminate is acknowledged over the radio by all involved units.

LOSS OF CONTACT WITH PURSUED VEHICLE

42. When contact with the pursued vehicle is lost, the primary unit should broadcast pertinent information (last known direction, description of vehicle, description of occupants, etc.) to assist other units in locating the vehicle. The primary unit will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.
43. Once contact is lost with the suspect / pursued vehicle, units involved in the pursuit should immediately return to a "normal" driving mode, obeying all traffic laws and deactivating their emergency equipment.

JURISDICTIONAL CONSIDERATIONS

44. An officer may only initiate a pursuit while within the jurisdiction of this Department (Orleans Parish). If an officer begins an authorized pursuit in this jurisdiction, the officer may continue the pursuit into another jurisdiction unless terminated by a supervisor.
45. When a pursuit enters another jurisdiction, the primary officer or pursuit supervisor should determine whether to request another agency with jurisdiction assume the pursuit, taking into consideration the distance traveled unfamiliarity with the area and other pursuit initiation / termination factors. The primary officer or pursuit supervisor shall request that Communications Services notify each outside jurisdiction into which the pursuit is reasonably expected to enter of the nature of the pursuit, units involved and any other requested information, regardless of whether such jurisdiction is expected to assist.

46. A pursuit that has commenced within, and has continued outside, the jurisdiction of this Department (Orleans Parish) shall be terminated immediately once the pursuing officer has lost visual contact with the vehicle being pursued or has lost communications capability with this Department.

ASSUMPTION OF PURSUIT BY ANOTHER AGENCY OUTSIDE OF ORLEANS PARISH

47. New Orleans Police Department officers will discontinue the pursuit outside of Orleans Parish when another agency has assumed pursuit responsibility, unless the continued assistance of the New Orleans Police Department is expressly requested by the agency assuming the pursuit, and the pursuit fits within the policy of the New Orleans Police Department.
48. Upon terminating the pursuit, the primary unit may proceed at normal speeds without emergency equipment, upon request and at the direction of a supervisor, to the termination point of the pursuit to assist in the investigation. The pursuit supervisor or a higher ranking supervisor, who accepts the responsibility, should coordinate with the agency managing the termination point to determine the NOPD's pursuit supervisor's need to respond or otherwise assist in the investigation. The pursuit supervisor should obtain any information necessary for inclusion in any reports from the agency managing the pursuit termination point.
49. The role and responsibilities of officers at the termination of a pursuit initiated by this Department shall be coordinated by the pursuit supervisor or higher ranking supervisor who has assumed the responsibility with the units from the agency assuming the pursuit.
50. Notification of a pursuit in progress shall not be construed as a request to join the pursuit.
51. Requests to or from another agency to assume a pursuit should be specific. A request for another agency's assistance will mean that its personnel will assume responsibility for the pursuit.
52. Should the agency decline assumption of the pursuit, the NOPD pursuit supervisor shall be responsible for determining whether to continue the pursuit.

PURSUIITS ENTERING ORLEANS PARISH

53. When a pursuit leaves another jurisdiction and enters Orleans Parish and a request for assistance is made to this Department, the other agency should relinquish control. Should the agency not relinquish control of the pursuit to NOPD, NOPD officers will not assist in the pursuit but may assist with follow-up as directed by an NOPD supervisor.
54. The agency that initiates a pursuit shall be responsible for conducting the pursuit. Units from this Department should not join a pursuit unless specifically requested to do so by the agency whose peace officers are in pursuit and upon approval by an NOPD supervisor.

55. When a request is made for this Department to assist or take over a pursuit that has entered this jurisdiction, the NOPD supervisor shall determine that the pursuit meets the “**crime of violence**” threshold required for an NOPD pursuit and consider whether to assist or assume the pursuit based on these additional factors:
- (a) The crime of violence as defined by this Chapter for which the pursuit is being conducted;
 - (b) The requesting department's ability to maintain the pursuit;
 - (c) Whether the communicated circumstances warrant continuing the pursuit;
 - (d) Whether adequate staffing is available to continue the pursuit;
 - (e) The public's safety within this jurisdiction; and
 - (f) The safety of the pursuing officers.
56. A supervisor or the Platoon Commander should review a request for assistance from another agency as soon as possible. The Platoon Commander or supervisor, after consideration of the above factors, may decline to assist in or assume the other agency's pursuit. This decision should be communicated to the requesting agency and our Communications Section immediately over the primary communications channel of the District in which the pursuit activity is taking place or the channel on which the request is made.
57. Assistance to a pursuing outside agency by officers of this Department will terminate at Orleans Parish limits provided the pursuing officers have sufficient assistance from other agencies. Ongoing participation from this Department may continue only until sufficient assistance is present and after specific authorization by an NOPD supervisor.
58. In the event that a pursuit from another agency terminates within this jurisdiction, NOPD officers shall provide appropriate assistance to peace officers from the initiating agency and other involved agencies including, but not limited to, scene control, coordination and completion of reports or any other assistance requested, needed, or directed by an NOPD supervisor.

CAPTURE OF SUSPECTS INVOLVED IN A PURSUIT

59. Unless relieved by a supervisor, the primary pursuit unit's officer should coordinate efforts to apprehend the suspect when the pursuit ends. Officers should consider the safety of the public and the involved officers when formulating plans to contain and capture the suspect. Officers shall use only that amount of force reasonably necessary under the circumstances and in compliance with the **Chapter 1.3 - Use of Force** to properly perform their lawful duties. It must be stressed that the apprehension of a suspect at the conclusion of a pursuit requires restraint.

PURSUIT REPORTING AND REVIEW REQUIREMENTS

60. Responsibilities for all reports required by a pursuit are:
- (a) The primary pursuit unit's officer shall complete the NOPD incident reports related to and surrounding the vehicle pursuit. This includes specific references to all related NOPD incident item numbers that may be related to the vehicle pursuit (e.g. crashes related to the pursuit, criminal incident reports, injury reports, etc.).
 - (b) The pursuit supervisor shall complete the Vehicle Pursuit Report (**Form #216**). This will include a post-pursuit critique and analysis of the pursuit and forward through the chain-of-command. The narrative portion of the report shall include, at a minimum:

1. the violation that prompted the pursuit;
 2. the officer(s) involved in the pursuit;
 3. the rank and name of the supervisor authorizing the pursuit;
 4. the outcome of the pursuit;
 5. any officer, suspect, or bystander injuries or deaths;
 6. property damage;
 7. related criminal or civil legal actions;
 8. the item numbers of all reports related to the pursuit;
 9. an enumeration of all BWC or ICC recordings and their file numbers;
 10. an express statement by the supervisor that they have reviewed all the recordings related to the pursuit;
 11. an express statement reflecting the reporting supervisor's opinion if the pursuit meets the Department's guidelines;
 12. any issues with training, skill of the officer, policy or violations observed or noted.
- (c) After receiving copies of the Vehicle Pursuit Report and all related reports, logs and other pertinent information (e.g. communications tapes, BWC or ICC video, etc.), the Deputy Chief of the Bureau to which the primary pursuit unit's officer is assigned, shall review the information and conduct a post-pursuit review. This post pursuit review shall be documented in an interoffice correspondence to the Superintendent of Police and forwarded within five days of the occurrence.
- (d) The documentation reviewed by the Deputy Chief of the Bureau to which the primary pursuit unit's officer is assigned shall forward the information and documents reviewed, along with a copy of their post-pursuit review to the Deputy Chief of PIB within five days of the occurrence. The completed review of the pursuit shall be maintained by the Public Integrity Bureau.
- (e) A copy of the Vehicle Pursuit Report will be forwarded to the Education and Training Division for training needs review and the NOPD Risk Management supervisor for data collection and submission to the Accident Review Board if required within five days of the occurrence.
61. Annually, the Superintendent shall direct PIB to conduct a documented review and analysis of Department vehicle pursuits to minimally include: policy suitability, policy compliance and training needs. The findings, data and analysis shall be included in the Early Warning System and in NOPD's Use of Force Annual Report. In the event that an incident has been designated as a vehicle pursuit and the involved officer's Commander believes otherwise, an interoffice correspondence (105), a copy of the audio recording, of the incident, BWC and ICC recordings shall be submitted to the involved member's Bureau Deputy Chief within five (5) working days. Upon review and approval, a copy of the 105 and all related recordings shall be sent to the Deputy Chief of PIB for review. Once reviewed and approved by the Deputy Chief of PIB, a copy of the 105 shall be sent by PIB to the Risk Management Section and the Education and Training Division for their review and analysis.
62. Any vehicle pursuit resulting in death, serious physical injury or injuries requiring treatment at a hospital are treated as a Level 4, serious use of force, pursuant to **Chapter 1.3 – Use of Force** and will be investigated and reported by PIB FIT. The other reporting aspects of this Chapter are suspended and ALL reporting and review will be handled and processed by FIT, including the Vehicle Pursuit Report. The Vehicle Pursuit Report will be forwarded to the Risk Management Section and the Education and Training Division at the conclusion of the FIT investigation. The NOPD Fatality Investigation Unit will handle the investigation, documentation and related conclusions of the CRASH (vehicle accident) portion of the overall investigation but, under the direction of the commander of PIB FIT who retains overall responsibility for the investigation and subsequent reporting of any pursuit under this paragraph.

REGULAR AND PERIODIC PURSUIT TRAINING

63. In addition to initial training on vehicle pursuits provided to recruits and lateral entry officers by the Education and Training Division, officers will participate in supplemental pursuit training annually. This training will address the Department's policy, the importance of safe driving and protecting the public at all times. Training will include recognition of the need to balance the known or suspected offense and the need for immediate capture against the risks posed by any vehicle pursuit to officers and others.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 41.6.1

TITLE: IMMIGRATION STATUS

EFFECTIVE: 02/28/2016

REVISED: Replaces Policy 428

PURPOSE

The purpose of this Chapter is to set forth the policy of the New Orleans Police Department (NOPD) to provide police services to all persons within New Orleans ("the City") regardless of their immigration status.

POLICY STATEMENT

1. Members shall treat all individuals equally and without regard to race, color, or national origin in any way that would violate the United States or Louisiana Constitutions. To encourage crime reporting and cooperation in the investigation of criminal activity, all individuals, regardless of their immigration status, must feel secure that contacting or being addressed by members of the NOPD will not lead to an immigration inquiry and/or deportation.
2. Members shall not initiate an investigation or take law enforcement action on the basis of actual or perceived immigration status, including the initiation of a stop, an apprehension, arrest, or any other field contact.
3. NOPD members shall not make inquiries into an individual's immigration status, except as authorized by this Chapter.
4. The enforcement of civil federal immigration laws falls exclusively within the authority of the United States Immigration and Customs Enforcement agency (ICE).
5. The NOPD shall not engage in, assist, or support immigration enforcement except as follows
 - (a) In response to an articulated, direct threat to life or public safety; or
 - (b) When such services are required to safely execute a criminal warrant or court order issued by a federal or state judge.

6. Unless authorized by Paragraph 5, members are not permitted to accept requests by ICE or other agencies to support or assist in immigration enforcement operations, including but not limited to requests to establish traffic perimeters related to immigration enforcement. In the event a member receives a request to support or assist in a civil immigration enforcement action he or she shall report the request to his or her supervisor, who shall decline the request and document the declination in an interoffice memorandum to the Superintendent through the chain of command.

Nothing in this provision shall prohibit NOPD members from assisting victims or witnesses in obtaining U Visa/T Visas, where appropriate.

7. In *State v. Sarrabea*, 2013-1271 (La. 10/15/13), the Supreme Court of Louisiana found La. R.S. 14:100.13 unenforceable. Accordingly, members shall not enforce La. R.S. 14:100.13, which states: "No alien student or nonresident alien shall operate a motor vehicle in the state without documentation demonstrating that the person is lawfully present in the United States."

DEFINITIONS:

Definitions related to this policy include:

Administrative warrant—For purposes of this Chapter, this term refers to administrative removal warrants used by Immigrations and Customs Enforcement officers to arrest non-citizens who have committed immigration violations. An administrative warrant is not a criminal warrant signed by a judge, and it shall not be used by NOPD as the basis to detain or arrest a person or persons.

Immigration Status—Refers to an individual's status with respect to federal immigration law and/or citizenship. For example, a person who enters the United States without legal permission may be considered an "undocumented person." Another person who is legally granted permission to reside in the United States permanently may be considered a "lawful permanent resident."

ICE—The United States Immigration and Customs Enforcement is the federal law enforcement agency under the Department of Homeland Security responsible for enforcement of federal laws related to border control, customs, trade and immigration.

REQUEST FOR IDENTIFYING INFORMATION

8. While it may often be necessary to determine the identity of a victim or witness, consistent with applicable law, members shall not question, investigate, or inquire about the immigration status of any person, including a victim or witness. Accordingly, Members are permitted to request identification from an individual only as authorized by NOPD policy.
9. Persons are not required to prove their citizenship status. Members shall not request identification for the purpose of determining an individual's citizenship status.
10. When identification is requested, Members shall accept presentation of a photo identity document issued by a non-government organization or a verbal statement of the person's full name and date of birth. Members shall not require that a person produce a foreign passport or non-U.S. driver's license as evidence of identity.

11. Although not required as evidence of identity or citizenship, a driver's license is required for operation of a motor vehicle, regardless of a person's immigration status (see La. R.S. 32:52 and La. R.S. 32:402). Members may request the driver of a motor vehicle to produce a driver's license. The failure of a motor vehicle operator to produce a driver's license upon request after a moving violation or traffic stop may subject the operator to the appropriate charge (i.e. driving without a license).

DISCLOSING IMMIGRATION INFORMATION

12. Members shall not disclose information regarding the citizenship or immigration status of any person unless:
 - (a) Required to do so by federal or state law; or
 - (b) Such disclosure has been authorized in writing by the person who is the subject of the request for information; or
 - (c) The person is a minor or otherwise not legally competent, and disclosure is authorized in writing by the person's parent or guardian.

U VISA/T VISA NONIMMIGRANT STATUS

13. Under certain circumstances, federal law allows victims and witnesses of certain qualifying crimes to obtain temporary immigration benefits (See 8 U.S.C. § 1101(a) (15) (U), 8 U.S.C. § 1101(a) (15) (T)). Upon the request of a victim or witness for assistance in obtaining such benefits, a declaration/certification for a U Visa/T Visa from the U.S. Citizenship and Immigration Services may be completed on the appropriate DHS Form supplements (1 -918 or 1-914) by law enforcement. The declaration/certification must include information detailing how the individual has been, is being, or is likely to be helpful in a criminal investigation or prosecution.
14. Any request for assistance in applying for U Visa/T Visa status shall be directed to the NOPD Victim/Witness Unit. The Investigation and Support Bureau Commander or his/her designee shall do the following:
 - (a) Consult with the assigned detective to determine the current status of any related case(s) , and assess whether further documentation is warranted;
 - (b) Review the instructions for completing the declaration/certification. Instructions for completing Forms 1-918/1-914 can be found on the DHS website at <http://www.uscis.gov/portal/site/uscis>;
 - (c) Contact the appropriate prosecutor assigned to the case, if applicable, to ensure that the declaration/certification has not already been completed and to assess whether a declaration/certification is warranted;
 - (d) Address the request and complete the declaration/certification, if appropriate, in a timely manner;
 - (e) Ensure that any decision to complete or not complete the form is documented in the case file and forwarded to the appropriate prosecutor; and
 - (f) Include a copy of the any completed certification in the case file.

USE OF NCIC DATABASE INFORMATION

15. When the NCIC database indicates an individual may be subject to an immigration related warrant, the Member shall contact the NOPD NCIC unit. If the NOPD NCIC unit determines the warrant is administrative, the NOPD NCIC unit shall not contact ICE. NOPD members shall take no action against an individual in response to an ICE administrative warrant.

16. If the NOPD NCIC unit cannot determine whether the warrant is administrative, the NOPD NCIC unit shall contact ICE at the number provided in the NCIC database to verify whether the individual has an outstanding criminal warrant. If there is no outstanding federal, state or local criminal warrant, the officer shall immediately release the individual. If NOPD NCIC is unable to promptly determine the nature of the warrant, the individual shall be released. If an arrest is made for a crime unrelated to an administrative warrant, normal arrest procedures shall be followed.

TRAINING

17. The Education and Training Division shall ensure that all members in the Recruit Basic Training Program receive training on this Chapter and that all members receive appropriate training on this Chapter as part of their annual In-Service training.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 41.22

TITLE: CANINE

EFFECTIVE: 8/23/15

REVISED: 12/6/15

PURPOSE

The purpose of this Chapter is to regulate the use of NOPD canines. It sets out the duties and responsibilities of supervisors and canine handlers for use, approval, and deployment of Department canines. The use of canines requires adherence to procedures that control their use of force potential and that direct their specialized capabilities into legally acceptable crime detection, prevention, and control activities.

POLICY STATEMENT

1. A police canine is primarily a locating tool, using its extraordinary olfactory skills to find a concealed subject. The use of the canine as a force tool, that is to bite a suspect at the time the suspect is located, may or may not be necessary or justified.
2. When a canine is used in an attempt to apprehend a suspect, it is an instrumentality of force and shall only be used consistent with **Chapter 1.3 – Use of Force** and as set out in this Chapter. The Department's use of force Chapter requires that officers shall use the minimum amount of force that the objectively reasonable officer would use in light of the circumstances to effectively bring an incident or person under control, while protecting the lives of the member or others. As applied to canines, the reasonable-necessity standard means a dog bite is justifiable, lawful force **if and only if** the threat to officers or the public is serious—the need for force must be sufficient to justify the injury of a dog bite.
3. The policy of the New Orleans Police Department is to ensure that all Department canines are used in a manner that complies with applicable law and with **Chapter 1.3 – Use of Force**, and that comports with current professional standards. Canine teams will be trained and will demonstrate proficiency such that the handler has total control over the canine's actions.

DEFINITIONS

Apprehension— apprehension shall mean the arrest, capture, or taking into custody of a person.

Bite—Physical contact between a canine's teeth and a person or animal. This physical contact does not need to result in broken or punctured skin to be a bite.

Canine Apprehension— Where articulated facts demonstrate that a canine played a clear role in the capture of a person. The mere presence of a canine at the scene of an arrest shall not count as a canine apprehension.

Canine Bite Ratio—The number of canine apprehensions that result in a bite, divided by the number of canine apprehensions. Accidental and/or unintentional bites shall be included in the numerator.

Canine Deployment— Any situation, except one involving an on-leash article search only, in which a canine is brought to the scene and used in an attempt to locate or apprehend a suspect, whether or not a suspect actually is located or apprehended. This includes all instances in which a canine is removed from the police car; or when a suspect gives up immediately after an announcement is made that if the suspect does not surrender, the canine will be released; or when a canine search is conducted in an effort to apprehend a suspect.

Canine Handler—A sworn member of the Department who has been certified by the Department's canine trainer as meeting all requirements of the Department's canine certification program.

Canine Trainer—A member of the Department who possesses a current Master K9 Trainer certification from a nationally recognized police canine trainer certification association.

Contact—For purposes of this Chapter, contact shall mean an actual physical touching of a person or a person's clothing by the canine during a Canine Deployment. This does not include controlled training, public exhibitions or casual touching by officers or members of the canine handler's family.

Crime of Violence— A felony involving the infliction or threatened infliction of serious bodily injury or death.

Non-Tactical Use of Canine—The non-aggressive work of a canine when used to search for evidence or missing persons, to guard buildings or equipment, or to detect human remains.

Serious Use of Force - Includes the following: **(a)** all uses of lethal force by an NOPD officer; **(b)** all critical firearm discharges by an NOPD officer; **(c)** all uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization; **(d)** all neck holds; **(e)** all uses of force by an NOPD officer resulting in a loss of consciousness; **(f)** all canine bites; **(g)** more than two applications of an CEW. on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive, and; **(h)** any strike, blow, kick, CEW application or similar use of force against a handcuffed subject

Tactical Deployment of Canine—An on- or off-leash search for a suspect conducted by a canine team in an effort to apprehend a suspect. Off-leash searches for suspects may only be conducted when the suspect is wanted for a **crime of violence** or is reasonably suspected to be armed based upon individualized information specific to the subject, conducted by a canine team in an effort to apprehend a suspect.

GUIDELINES FOR THE USE OF CANINES

4. A handler shall be available for call-out under conditions specified by the Canine Unit Commander.

5. Police canines are a multi-functional asset that may be used in appropriate circumstances to assist officers in the search for criminal suspects; the detection and location of narcotics and/or explosives; and the location of missing adults or juveniles. Because of their potential to bite, the use of canines by this Department requires adherence to procedures that properly control their use of force potential and that channel their specialized capabilities into legally acceptable activities.
- (a) Each deployment of a canine must be approved by the canine unit supervisor (sergeant or higher), a specially trained SOD supervisor or, if none of those supervisors are available, by a platoon commander prior to deployment.
 - (b) The only exception to the requirement that supervisor approval be obtained prior to a canine deployment is under exigent circumstances when the handler is unable to contact a supervisor and, using sound judgment, deems it necessary to deploy the canine to protect himself or herself, other police officers, or citizens, from an immediate threat of serious bodily injury. However, a supervisor shall be notified at the first practicable moment. In such circumstances, the handler will provide a detailed explanation of the exigency in his/her deployment report.
 - (c) Off-leash canine deployments, searches, and other instances when there is an increased risk of a canine bite to a suspect shall be restricted to instances in which the suspect is wanted for a crime of violence and the suspect poses an imminent danger of death or serious bodily injury to the officer or to another person.
 - (d) Canine handlers will only allow their canines to bite a suspect if the suspect's actions pose a risk of imminent danger to the handler or others; the suspect's actions pose a risk of serious harm to the canine; or the suspect is exhibiting aggressive resistance as defined in NOPD **Chapter 1.3 – Use of Force**. (Aggressive resistance does not include concealment and refusal to surrender without more); and the handler is in visual and auditory range of a suspect, except when the suspect is hiding in a confined space (e.g., a crawl space) and refuses to surrender or is escaping. Handlers will not allow their canine to engage a suspect by biting if a lower level of force could reasonably be expected to control the suspect or allow for the apprehension.
 - (e) Canine deployments can be authorized for the following assignments provided their use is consistent with the guidelines set out in this Chapter.

1. Tactical Use of Canines

Canine tactical deployments shall be limited to the following situations:

- i. Off-leash tactical canine deployments, searches, and other instances in which there is an increased risk of a canine bite shall be used only in instances in which the suspect is wanted for a **crime of violence** as defined in this Chapter or is reasonably suspected to be armed based upon individualized information specific to the subject. Officers are not authorized to deploy a canine off leash in order to subdue a suspect who presents no imminent threat of death or serious injury. Off-leash tactical deployment of a canine is never authorized for the protection of property.

- ii. On-leash tactical deployments may be authorized:
 - a. To locate, apprehend or control suspects in instances in which the suspect is wanted for a felony, e.g., a burglary where the suspect is concealed OR
 - b. When the behavior of the suspect who is fleeing otherwise involves conduct that presents a serious potential risk of physical injury to the officer or others.

2. Non-Tactical Use of Canine

Canines may be employed in non-aggressive work such as:

- i. Searching for missing persons;
 - ii. Searching for evidence, narcotics, explosives or other contraband; or
 - iii. To detect human remains.
- (f) For all tactical uses of a canine to locate a suspect, the canine shall be called off at the instant that a suspect no longer poses a threat.
- (g) Canines shall not be used to apprehend suspects known to be juveniles who also pose no immediate threat of serious injury to the officer or others.

TACTICAL USE OF CANINE TEAMS

TACTICAL USE - REQUESTS FOR USE OF CANINE

6. Personnel within the Department are encouraged to freely request the use of the canines. When a canine team is requested, the on-scene officers shall:
- (a) Secure the perimeter of the area to be searched and clear the area of civilians;
 - (b) Request the canine unit through the dispatcher;
 - (c) Request his/her supervisor respond to the scene;
 - (d) Refrain from entering the area or any structure to be searched;
 - (e) Provide the canine handler with sufficient reasonable suspicion to lead him/her to believe a crime of violence or felony has been committed and the person being sought is the perpetrator, including:
 - 1. The nature of the crime the subject is wanted for;
 - 2. A detailed description of the wanted subject including age, gender, race, physical characteristics, and clothing;
 - 3. Whether the suspect is armed or unarmed;
 - 4. Whether the suspect has displayed violent behavior; and
 - 5. All other information known about the subject and the area to be searched.
 - (f) Keep radio traffic to a minimum during the canine search; and
 - (g) Refrain from excessive use of lights during a canine search to avoid exposing the canine team's position or placing the canine team in jeopardy.

TACTICAL USE - DEPLOYMENT AUTHORIZATION

7. A canine handler shall have approval from a canine supervisor (sergeant or higher) or in the absence of a canine supervisor, an SOD supervisor who has received specialized training from the canine unit supervisor on deployment authorization criteria prior to deployment. If the handler is unable to contact a canine unit or SOD supervisor, the handler shall obtain approval from the district platoon commander before the canine can be deployed.
8. Upon receiving a request to approve a canine deployment, the supervisor shall, if at all possible, respond to the scene and consult with the handler and other officers on the scene before making the decision to approve the deployment. If the supervisor is unable to respond to the scene at the time the request is made, he/she may authorize the deployment via radio. Authorization can only be given after the supervisor has been briefed on all the available information needed to make such a decision. In making the decision to approve the deployment, including whether to authorize the deployment to be off-leash, the approving supervisor shall:
 1. Make an assessment of the facts provided by the requesting officer and determine if there is reasonable suspicion or probable cause to believe a felony or crime of violence has been committed and the person being sought is the perpetrator;
 2. Consider the severity of the crime, taking into account that off-leash deployment is prohibited except when the suspect is wanted for a crime of violence as defined in this Chapter or is reasonably suspected to be armed;
 3. Consider the age of the suspect (the subject's perceived age shall be determined by gathering as much information as possible from officers and/or witnesses who observed the subject's physical characteristics, height, weight, etc.);
 4. Determine whether the suspect is or may be armed;
 5. Consider whether the suspect has displayed violent behavior, taking into account that off-leash deployment is prohibited except when the suspect is wanted for a crime of violence or is reasonably suspected to be armed.
 6. Recognize that mere flight alone is insufficient under NOPD **Chapter 1.3** – Use of Force or this Chapter to allow canine deployment.
 7. Ensure that the search area perimeter has been secured.
 8. Assess the likelihood that innocent civilians are located within the secured area.
 9. Consider the potential for injury to officers or the public caused by the suspect if the canine is not utilized.
 10. Attempt to ascertain if the subject has Limited English Proficiency and, if necessary, obtain language assistance to give the “canine warning”.
 11. Ensure the handler is thoroughly briefed on all known information.
 12. If authorizing deployment, make clear whether the authorization is for an on- or off-leash deployment.

TACTICAL USE - SCENE MANAGEMENT

The supervisor shall:

- (a) Ensure that the canine handler has been fully briefed;
- (b) Ensure that a perimeter has been established around the area to be searched;
- (c) Ensure that the area to be searched has been vacated by all uninvolved civilians and police personnel; and
- (d) Attempt to determine if there are any animals present in the area to be searched.

TACTICAL USE - CANINE HANDLER DEPLOYMENT RESPONSIBILITIES**TACTICAL USE - PRIOR APPROVAL NECESSARY**

9. Prior to any tactical deployment of a canine, the canine handler shall obtain approval from the canine supervisor, a trained SOD supervisor or, if neither is available, the platoon commander of the district wherein the deployment is requested. The canine handler will thoroughly brief the approving supervisor, providing all available information.
10. The canine handler shall, when the use of a canine is requested, activate his/her body worn camera and obtain a thorough briefing from the Department member requesting the canine deployment, to include but not limited to:
 - (a) A description of the facts and circumstances that justify taking the wanted subject into custody;
 - (b) A detailed description of the wanted subject including age, gender, race, physical characteristics, and clothing;
 - (c) The subject's actual or perceived age (i.e. whether the subject is or may be a juvenile). The subject's perceived age shall be determined by gathering as much information as possible from officers and/or witnesses who observed the subject's physical characteristics height, weight, etc.);
 - (d) Whether the subject poses imminent threat or violence to others;
 - (e) The severity of the crime;
 - (f) Whether the subject is armed;
 - (g) Whether there is reason to believe the subject may not speak or understand English;
 - (h) Any potential danger to the public and/or other officers at the scene if the canine is released;
 - (i) The degree of resistance or threatened resistance communicated or shown by the subject;
 - (j) The potential for escape or flight if the canine is not utilized;
 - (k) Whether innocent civilians may be located in the search or apprehension area; and
 - (l) Whether the area perimeter is secure.

TACTICAL USE - CANINE WARNING ANNOUNCEMENT

11. Prior to all canine deployments, the handler shall:
 - (a) Ensure his/her body-worn camera is activated before the warning is given and before deployment of the canine;
 - (b) Notify the Communications Section on the primary dispatch talk group for the District in which the deployment is taking place of the imminent deployment of the canine so that all officers in the area are aware of the deployment. The dispatcher shall announce the time over the radio. The unit and time of the announcement shall be documented by the dispatcher in the call history;
 - (c) Unless warnings impose an imminent threat of danger to the canine handler or other officers on scene, issue three (3) loud and clear warnings that a canine will be deployed and advise the suspect to surrender. For example: "Warning, a police canine will be used to search this (area to be searched), if you don't come out, I will release my dog. If approached by the dog, surrender and remain still";
 - (d) Obtain prior approval from a supervisor for any unannounced search, and document the reasons for not giving a warning and the name of the approving supervisor in his/her deployment report;
 - (e) Where there is reason to believe that a suspect may not speak or understand English, where practicable, obtain language assistance in giving the mandated canine warning. The handler shall announce the warning in English, Spanish and Vietnamese.
 - (f) Provide a reasonable amount of time for innocent civilians, other members, and the suspect to come out before commencing with the search.
 - (g) Whether or not there is an apprehension, document in the deployment report and any related incident report whether a verbal canine warning was given and, if none was given, the reasons why.

TACTICAL USE - CONDUCT DURING DEPLOYMENT

12. Whenever possible, two canine handlers should respond to any request for a canine. When two handlers respond to a request for a service, the primary handler shall search with his/her canine and the secondary handler shall act as backup without his/her canine. If a question arises as to which handler shall be primary, the approving supervisor shall designate the primary handler.
13. When the duration of the search, the size of the area or weather conditions dictate, canine teams may be rotated out as needed and determined by the handler(s) or the supervisor.
14. The canine handler should make every reasonable effort to communicate and coordinate with other involved personnel to minimize the risk of unintended injury.
15. The canine handler shall keep his/her canine within visual and auditory range during deployments at all times, except when the canine clears a threshold (e.g., rounding a corner, entering a room, ascending/descending a stairwell).

16. Canine handlers shall allow their canines to engage a suspect by biting only if:
 - (a) The suspect's actions pose a risk of imminent danger to the handler or others; a risk of serious harm to the canine; or the suspect is exhibiting aggressive resistance as defined in NOPD **Chapter 1.3 – Use of Force**. (Aggressive resistance does not include concealment and refusal to surrender without more); and
 - (b) The handler is in visual and auditory range of a suspect, except when the suspect is hiding in a confined space (e.g., a crawl space) and refuses to surrender or is escaping.
 - (c) Handlers will not allow their canine to engage a suspect by biting if a lower level of force could reasonably be expected to control the suspect or allow for the apprehension.
17. When a canine apprehends a suspect by biting, the handler shall call the canine off at the first moment the canine can be safely released, considering that the average person will struggle if seized or confronted by a canine. The handler shall order the dog to release the bite immediately after it is determined that the suspect is unarmed, regardless of whether the suspect is struggling with the dog.
18. Once the individual has been located and no longer reasonably appears to represent a threat or risk of escape, the canine should be secured as soon as it becomes reasonably practical.

TACTICAL USE - CANINE BITES – MEDICAL ATTENTION

19. Whenever a canine request results in a deployment, the requesting officer shall ensure an incident report is prepared explaining the circumstances leading up to the request for the assistance of the canine, including a description of the actions of the wanted subject that constituted reasonable suspicion or probable cause to arrest the subject.
20. Whenever an individual sustains a canine bite, the handler or an on-scene officer shall immediately contact an NOPD dispatcher to request Emergency Medical Services response. If EMS determines that additional medical attention is required, the individual shall be transported to a medical facility for treatment.

TACTICAL USE - REPORTING AND INVESTIGATING CANINE DEPLOYMENTS

21. Whenever a canine is deployed, a canine handler will prepare a Deployment Report and/or Patrol Data Deployment Report and submit it to the canine unit supervisor before going off-duty. The item number of the report prepared by the requesting officer and the name of supervisor approving the deployment shall be documented in the report.
22. If the canine was used for tracking or searching for a suspect, that fact should be noted in the report. When a canine is involved or on the scene, apprehension may be described as:
 - (a) **With Contact** – when the canine physically made contact with the subject.
 - (b) **Without Contact** – when the articulated facts demonstrate that the presence or use of the canine was instrumental in the apprehension or surrender of the subject but no contact was made.

23. In all apprehensions when there is canine contact, visible injury to a suspect or a complaint of injury, whether or not a bite occurred, the on-scene supervisor will immediately notify PIB/FIT. The requirements set out in **Chapter 1.3.6 – Reporting and Investigating Use of Force** shall be followed.
24. A canine deployment resulting in a bite is considered a serious use of force and a Level 4 reportable use of force. All serious use of force shall be investigated by PIB FIT.
25. A canine deployment resulting in an apprehension without contact is a Level 2 reportable use of force. In all deployments resulting in an apprehension, the supervisor will ensure a Use of Force Tracking number is obtained and entered on all related documents. The supervisor will conduct a use-of-force investigation in compliance with **Chapter 1.3.6**.
26. For each canine apprehension, the involved handler and all witness officers, which includes the officer requesting the use of the canine, shall complete a Force Statement before the end of shift. In addition to the information that must be included in all Force Statements, a canine handler's narrative documenting a canine apprehension shall include the following:
 - (a) The name of the approving supervisor;
 - (b) The item number assigned to the body-worn camera video and any other associated item numbers;
 - (c) Whether the deployment was on- or off-leash;
 - (d) Whether there was contact between the canine and the subject, including contact with the subject's clothing;
 - (e) Whether the canine was on or off leash at the time of apprehension;
 - (f) A description of where the subject was located;
 - (g) Documentation of the duration of the canine's contact with a subject;
 - (h) The approximate distance of the canine from the handler at time of apprehension;
 - (i) The description of any injuries received by the suspect;
 - (j) The description of the circumstances leading up to the decision to deploy the canine; and
 - (k) A description of the canine release and securing of the canine.
27. The supervisor of the Canine Unit, with input from the canine trainer, shall evaluate each canine deployment for compliance with this Chapter, state and federal law, and document this evaluation in a written report in accordance with this Chapter.
 - (a) The report shall be forwarded to the Commander of the Special Operations Division for review and approval. Any issues identified in the report and the recommended corrections, by either the reviewing supervisor of canine or by the Commander of SOD, shall be noted and addressed in an interoffice correspondence and forwarded to the Deputy Chief of the Field Operation Bureau, within two weeks from the date of the deployment.
 - (b) The supervisor of the Canine Unit will obtain, review and attach all documentation associated with the deployment, including, but not limited to, the:
 1. Deployment Report;
 2. Force Statement(s), if required;
 3. Offense Report(s); and
 4. Arrest Report(s).

28. In the event of an unintentional and/or accidental canine bite not in conjunction with a canine deployment, whether on or off duty, the canine handler shall summon his/her supervisor/commander to the scene, request immediate medical treatment, and forward a written report in accordance with this Chapter.
29. Canines controlled by police officers are exempt from regulatory action relating to bites. Canines used by law enforcement agencies are generally exempt from impoundment and reporting requirements to the animal control department. The canine unit trainer will liaise with the animal control department to ensure that information regarding canine bites is not retained by its office.
30. Canine Bite Ratios shall be calculated by the Commander of the Canine Unit and reported to PIB to be included as an element of the Early Warning System and the departments Use of Force Annual Report.

NON-TACTICAL DEPLOYMENTS OF CANINES

- (b) At no time shall a detection canine be used to render a suspected device safe or clear.

NON-TACTICAL USE - GUIDELINES FOR NON-APPREHENSION/CONTRABAND DETECTION USE

- 34. Because canines have senses far superior to those of humans, they may be effectively utilized to track or search for non-criminals (e.g., lost children, individuals who may be disoriented or in need of medical attention). Only canines trained specifically for this purpose (e.g., Rescue dogs) shall be utilized in such circumstances.

Definitions relevant to this Chapter include:

24-K—The signal for an unreported sexual assault kit.

Developmental disability—Means either:

- (a) A severe, chronic disability of a person that:
 1. Is attributable to an intellectual or physical impairment or combination of intellectual and physical impairments;
 2. Is manifested before the person reaches age twenty-two;
 3. Is likely to continue indefinitely;
 4. Results in substantial functional limitations in three or more of the following areas of major life activity:

5. Is not attributed solely to mental illness; and
 6. Reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services that are of lifelong or extended duration and are individually planned and coordinated; or
- (b) A substantial developmental delay or specific congenital or acquired condition in a person from birth through age nine that, without services and support, has a high probability of resulting in those criteria in Subparagraph (a) of this Paragraph later in life that may be considered to be a developmental disability (La. R.S. 28:451.2(12)).

Third-Party Reporter—Any person who on behalf of a victim seeks to report a crime or obtain information to assist a victim in obtaining victim services.

Victim Advocate—This generic term may apply to a wide range of service providers, rape crisis counselors, social workers, and crime victim advocates. The roles and services of these different advocates should be explained to the victim. Officers will help obtain access to victim advocates when reasonably possible.

POLICY STATEMENT

1. The trauma experienced by a victim of sexual assault can inflict serious and lasting emotional and psychological harm on the victim and impair the victim's ability to participate in the investigation. Officers and detectives play a significant role in the victim's ability to cope with the emotional and psychological after-effects of the crime and willingness to participate in the investigation. It is imperative that officers responding to a sexual assault incident are able to recognize, understand, and manage these effects for the benefit of the victim and the criminal investigation.
2. The trauma experienced by a sexual assault victim may be so overwhelming that a victim cannot function well enough to assist in the investigation at certain stages of the case. Trauma also affects memory and the ability to explain events in a narrative form. Trauma from crime victimization complicates a victim's participation in the investigation. Therefore, it is especially important that these cases be handled from a nonjudgmental perspective so as not to communicate in any way to a victim that the victim is to blame for the crime. All members shall initiate investigations without the presumption that the victim is lying and shall not express cynicism or blame to the victim.

COMMUNICATIONS SERVICES RESPONSIBILITIES

3. Communications Services shall dispatch a platoon officer from the District of occurrence, as well as a Sex Crimes detective, to the location of the victim.
4. When a caller reports a sexual assault, communications personnel shall follow standard emergency response that includes evaluating and properly prioritizing the call, securing medical assistance, inquiring about a suspect's current location, and obtaining detailed information to identify the suspect. Information about the relationship with the victim, weapon use, and history of violence also shall be obtained.
5. Because of the trauma of a sexual assault, a victim reaching out for assistance may be in crisis. The victim's behaviors may be symptomatic of this condition and can range from hysteria, crying, and rage to laughter, calmness, and unresponsiveness. No single

reaction is typical, so it is important to refrain from judging or disregarding any victim because of his or her behavior.

6. To ensure critical evidence is not lost, communications personnel shall:
 - (a) Ask whether the victim has bathed, douched, urinated, or made other physical changes and advise against doing so;
 - (b) Ask the victim to use a clean jar to collect urine should the victim have to urinate;
 - (c) Let the victim know that other evidence may still be identified and recovered so the crime should still be reported if the victim has bathed or made other physical changes;
 - (d) Preserve the communications tape and printout for the investigation; and
 - (e) Explain to the caller that these questions will not delay an officer's response to the caller's location.

ROLE OF THE PLATOON OFFICER

7. In sexual assault cases, the platoon officer's role is to:
 - (a) Provide an emergency response, including attending to medical needs;
 - (b) Express empathy (e.g. by saying, "I know this must be very difficult");
 - (c) Assure the victim he/she will not be judged (e.g. by saying, "This is not your fault");
 - (d) Put the victim at ease by explaining the investigative process (e.g. by saying, "I am going to ask you a few questions and wait with you until a detective arrives");
 - (e) Inquire about the identity and location of the perpetrator;
 - (f) Contact family support if possible;
 - (g) Preserve evidence; and
 - (h) Communicate observations to the Sex Crimes detective.

INITIAL RESPONSE

8. As part of the initial response, officers shall:
 - (a) Make contact with the victim or third-party reporter as soon as possible to address safety concerns and summon emergency medical assistance if needed;
 - (b) Evaluate the scene for people, vehicles, or objects involved as well as possible threats;
 - (c) Relay all vital information to responding officers, supervisors, and detectives, including any possible language barriers; and
 - (d) When appropriate and necessary, platoon officers shall begin a search for the suspect and temporarily detain or arrest the suspect as appropriate based on evidence of probable cause. If the suspect is detained, wait for the Sex Crimes detective. Patrol officers shall not interrogate the suspect.

MAJOR CRIME SCENE OFFICER STATEMENT

9. Officers shall complete the Major Crime Scene Officer Statement and provide it to the investigating detectives.
10. The statement should include a written narrative of all observations, including observations of the crime scene and any statements volunteered by the victim, perpetrator, witnesses, or reporting persons. Officers shall as accurately as possible use the victim's own words. Officers shall record observations of the crime scene, including the demeanors of the suspect and victim and document any injuries or

disheveled clothing.

11. Under no circumstances should officers complete a report in the Electronic Police Reporting System. If an officer responds to a non-sexual assault signal and encounters elements of a sexual assault, he/she should not reference the sexual assault in an EPR report in any way.

VICTIM STATEMENTS

12. Victims have the legal right to have a victim advocate present during interactions with law enforcement.
13. The officer shall clearly explain his or her role to the victim. After an officer has completed the duties detailed in the **Role Of The Platoon Officer** section of this Chapter and explained his or her limited role in the investigation, the officer shall not urge the victim to tell his or her story but also should not prevent the victim from doing so. If the victim chooses to tell his or her story, the officer shall avoid interrupting, express sympathy, ask only open-ended questions, limit follow-up questions unless required by the situation, and document these statements in the Major Crime Scene Officer Statement.
14. Responding officers shall not ask the victim if he/she wants the assailant prosecuted. In the immediate aftermath of a sexual assault, a victim shall not be expected or encouraged to make decisions regarding the investigation or charges related to the offense.

SUSPECT INTERVIEWS

15. Suspects should only be interviewed by the detective but can be detained by the responding officer.

SIGNS OF DRUG-FACILITATED SEXUAL ASSAULT

16. Officers should be aware that the signs of drug-facilitated sexual assault could include:
 - (a) The victim reports being under the influence of a drug during the sexual assault;
 - (b) The victim experiences vaginal soreness or other signs of sexual activities and cannot remember a part or the entirety of the incident;
 - (c) The victim reports becoming heavily intoxicated very rapidly;
 - (d) The victim reports symptoms of amnesia; and
 - (e) The victim may exhibit symptoms of intoxication if still under the influence of rape-facilitating drugs.

PRESERVING EVIDENCE

17. Officers shall protect the integrity of evidence and request assistance or direction from a Sex Crimes detective regarding the collection or preservation of evidence. Officers should secure the crime scene to ensure that evidence is not lost, changed, or contaminated.
18. Evidence should be handled by as few people as possible.
19. Encourage the victim not to change clothing, smoke, eat, drink, shower, urinate, or defecate by explaining that those activities could destroy evidence. If the victim decides to do any of these activities, contact a Sex Crimes detective for instructions on

preservation of evidence and chain of custody. Clothing or other items that may contain DNA should be placed in a paper, not plastic, bag. Detectives shall carry receptacles for the collection of urine samples.

20. If a drug-facilitated sexual assault is suspected, officers shall preserve drinks to allow a crime lab to test for the presence of drugs. Additionally, in consultation with the assigned Sex Crimes detective, officers shall expedite a forensic exam to collect the victim's urine before any drugs leave the victim's system, if the victim agrees to the exam.

SEXUAL ASSAULT FORENSIC EXAM

21. Officers shall be aware of the process and benefit of a sexual assault forensic medical examination and, if asked, explain its importance to investigative efforts as well as the victim's well-being. Officers shall not pressure victims to receive a forensic exam. Participating in a forensic exam does not obligate the victim to pursue a criminal complaint.
22. If the victim wants a forensic exam and there is a danger of loss of evidence by waiting for the arrival of a detective, the platoon officer shall contact the dispatched Sex Crimes detective or supervisor for instructions.
23. University Medical Center is the designated site for forensic exams.

VICTIM ASSISTANCE

24. Officers shall:
 - (a) Commend the victim for coming forward to the police;
 - (b) Be aware that NOPD prioritizes conducting thorough investigations of sexual assault claims over prosecuting victims for minor offenses; and
 - (c) Show understanding, patience, and respect for the victim's dignity and attempt to establish trust and rapport.

VICTIM CONFIDENTIALITY

25. Throughout the investigation of the case, officers and detectives shall protect the confidentiality of the victim's information to the maximum extent possible by law and policy. Officers shall not publicly disclose the name, address, or identity of crime victims who are victims of sex offenses (La. R.S. 46:1844).
26. Officers shall **not**:
 - (a) Use a victim's address or name on the radio, whenever feasible. If an officer's car does not have an MDT, phone contact between the communications desk and responding officers or detectives is preferred to contact over the radio.
 - (b) Disseminate or publish in an initial police report the name of any victim of a sex crime (La. R.S. 46:1844(W)). Responding officers shall document their response fully on a Major Crime Scene Officer's Statement form.

BODY WORN CAMERAS

27. Officers shall use body cameras in accordance with **Chapter 41.3.10 – Body Worn Cameras**. Per Chapter 41.3.10:

There may be limited circumstances when the respect for an individual's privacy or dignity outweighs the need to record an event (e.g. – a victim traumatized following a violent assault). When an officer believes such circumstances exist, or that use of a BWC would impede or limit the cooperation of a victim or witness during an investigative contact, an officer may deactivate the BWC after receiving authorization from a supervisor.

28. NOPD shall not publically release footage of sexual assault cases (La. R.S. 46:1844).

CHANGING THE SIGNAL AND DISPOSITION

29. Officers **shall not** change the signal of the original sexual assault dispatch call or give dispositions. Only the Sex Crimes Unit may change the signal or give a disposition in accordance with the **Sex Crimes Unit Operating Guidelines**.
30. Only Sex Crimes detectives may use the 24-K signal.

TRANSFERRING THE CASE TO A DETECTIVE

31. The officer shall be aware that a victim of sexual assault may bond with the first responding officer. To help the victim become comfortable speaking with other members, the officer shall explain the role of the different members of the sexual assault response team and help with transitions through introductions.

PLATOON SUPERVISOR

32. Platoon supervisors shall respond to the scene if requested by the responding officers.
33. Supervisors should be careful not to intervene in the responding officer's interactions with the victim or ask the victim to recount the incident again unless necessary.
34. Platoon supervisors **shall not** change the signal of the original sexual assault dispatch call or give dispositions. Only the Sex Crimes Unit may change the signal or give a disposition in accordance with the **Sex Crimes Unit Operating Guidelines**.
35. Sex Crimes supervisors will communicate to platoon supervisors regarding any training needs for officers under their supervision.
36. Platoon supervisors shall include training on responding to sexual assault in roll call.

INCIDENTS INVOLVING CHILDREN, ADOLESCENTS, OR DEVELOPMENTALLY DISABLED INDIVIDUALS

37. Officers shall handle all sexual incidents involving a victim under the age of 17 in accordance with **Chapter 42.19 – Child Abuse**.
38. Officers may also choose to handle cases involving developmentally disabled victims according to **Chapter 42.19 – Child Abuse**.

TRAINING

39. The Education and Training Division shall provide annual sexual assault training to officers. The Training Division shall document this training.
40. Any additional training supervisors receive, i.e. information bulletins, updates to policies, etc., shall be shared with officers during roll call.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 42.4

TITLE: DOMESTIC VIOLENCE

EFFECTIVE: 04/05/2015

REVISED: Replaces Policy/Procedure 320

PURPOSE

The purpose of this policy is to provide the guidelines necessary to deter, prevent and reduce domestic violence through vigorous enforcement, addressing domestic violence as a serious crime against society.

Chapter 42.4 shall apply to the respective duties of platoon officers and supervisors in responding to and supervising all cases that involve intimate partners, family or household members. Officers and supervisors shall access the Department's domestic violence policies in the NOPD Operations Manual Chapters folder of NOPD.org. The Communications Services and Domestic Violence Unit Standard Operating Guidelines are located in the Resource Folder on n opd.org.

POLICY STATEMENT

1. The New Orleans Police Department's response to incidents of domestic violence and violations of domestic violence related court orders shall stress enforcement of the law to protect the victim and hold accountable criminal offenders. It is also the policy of this department to facilitate victims' access to appropriate civil remedies and community resources whenever feasible and to prioritize victim safety and protection at each stage of its response to a report of domestic violence.
2. The Department's commitment to an interagency response to domestic violence crimes is largely dependent on the platoon officer's initial response to each case. The platoon officer report lays the foundation for each subsequent intervener, and its attention to specific details either helps or hinders each practitioner's efforts to maximize victim safety and offender accountability.
3. The Department's policy emphasizes the importance of accumulating information over time and incidents in order to understand and appropriately respond to the level of danger and risk posed by offenders in a crime that is often complex and difficult to prosecute. When officers treat each call as part of an ongoing case, patterns may likely emerge, and the safety needs of all victims become more evident.
4. Officers shall receive training consistent with this policy, including training specific to supervisor duties and responsibilities.

FOUNDATIONAL PRINCIPLES

5. The collaboration of criminal justice agencies within New Orleans to develop a coordinated criminal justice response to domestic violence is the City's Blueprint for Safety. The New Orleans Police Department, along with the City's other Blueprint for Safety agencies, is committed to a set of shared foundational principles that maximize safety for victims of domestic violence and holds offenders accountable while offering them opportunities to change. These foundational principles are:
 - Adhering to an interagency approach and collective intervention goals;
 - Building attention to context and severity of abuse into each intervention;
 - Recognition that most domestic violence is a patterned crime requiring continuing engagement with victims and offenders;
 - Ensuring sure and swift consequences for continued abuse;
 - Sending messages of help to victims and messages of accountability to offenders; and
 - Acting in ways that reduce unintended consequences and the adverse impact on victims.
6. NOPD shall ensure supervisors participate in ongoing interagency Blueprint monitoring, evaluation and maintenance.

DOMESTIC VIOLENCE DYNAMICS

7. All NOPD officers shall work in collaboration with victims, cognizant of the principles of “continuing engagement.” Officers shall be aware that a single incident of domestic violence is usually part of a patterned use of coercion, intimidation and the use or threat of violence – namely battering. As such, the relationship is characterized by a “continuing” set of actions committed over time and in numerous situations. Officers shall respond to domestic violence incidents in a manner that confronts the pattern of ongoing abuse and violence. Officers shall:
- Minimize the victim’s need to confront the offender whenever possible.
 - Advise the victim that the officer will not share information obtained with the suspect.
 - Treat each interaction with the victim as an attempt to build collaboration over multiple interventions.
 - Be mindful of the complex and often dangerous implications of a victim’s cooperation with the legal system.
 - Be aware that the fundamental purpose of battering is to control what the victim says, thinks, feels and does.
 - Engage in dialogue with the victim, thereby avoiding inadvertently treating her or him simply as an information source.
 - Offer a clear alternative to messages from the batterer that the victim is crazy, at fault, Unbelievable and unable to make decisions and that the abuser is unstoppable.

CIVIL IMMUNITY

8. An officer exercising due care and good faith making an arrest and/or report while responding to a domestic violence call pursuant to La. R.S. 46:2140 and La. R.S. 46:2141 shall be immune from any civil liability that may arise as a result of the action (La. R.S. 46:2142).

OFFICER AND PARTY SAFETY

9. The investigation of domestic violence cases often places officers in emotionally charged and sometimes highly dangerous environments. No provision of this policy is intended to supersede the responsibility of all officers to exercise due caution and reasonable care in providing for the safety of any officers and parties involved.

OFFICER RESPONSE

10. All domestic violence calls assigned a code 2 priority response will be answered with two officers and, whenever possible, a supervisor. Domestic violence calls assigned a code 1A priority response may be answered by one officer. Refer to Policy/PR 316, Officer Response to Calls.
11. Single officer response to any domestic violence complaint is strongly discouraged and is only to be used when no backup unit is available. A single officer responding to a domestic violence call shall request the presence of a supervisor.

INVESTIGATIONS

12. Officers shall incorporate the following into their investigations:
- Take a proactive approach in responding to domestic violence.

- Attempt to determine the predominant aggressor and arrest him or her. Officers shall not arrest a person who acted in self-defense as defined by state statute (La. R.S. 14:19).
- Take appropriate action for violation of protection orders.
- Prioritize safety and protection for adult and child victims of domestic violence at each stage of its response to a report of domestic violence.
- Promote the safety of law enforcement personnel responding to incidents of domestic violence.
- Provide victims or witnesses of domestic violence with support and assistance through cooperative efforts with community stakeholders in order to prevent further abuse and harassment or both.
- Respond to and investigate reports of domestic violence professionally, effectively and in a manner without bias based on race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, or gender identity, in accordance with the rights secured or protected by the Constitution and laws of the United States.
- Appropriately classify and investigate reports of domestic violence.

APPROACH THE SCENE

13. Officers shall respond to domestic violence calls, directly and without delay, utilizing a tactical approach as appropriate to the circumstances of the call to maximize safety for all involved.

Officers shall:

- Obtain all available information from dispatch, including type and level of danger, weapons, report of what the caller experienced, who is at the scene and any information which could help in locating a suspect who is not on the scene
- Avoid the use of emergency lights and sirens when it is not essential so as not to alert the perpetrator to the officers' approach.
- Be alert for persons attempting to leave the scene.
- Be alert for the deployment of weapons from doors, windows or nearby vehicles.
- Avoid parking the police vehicle in front of the site of the disturbance when possible.
- Identify themselves as law enforcement officers and explain their presence and request entry in the event the incident is at a private residence, as necessary, and when exigent circumstances do not exist. A forced entry is permissible if there is probable cause to believe that the safety of a victim may be in jeopardy.
- Make contact with all parties, witnesses and/or residents of the house.
- Officers shall take into account everything they personally observe, all physical evidence and all things learned from witnesses or other persons supplying information.

SECURE THE SCENE

14. Officers shall secure the scene and, as safety permits, separate all parties.

To ensure officer safety, responding officers shall:

An officer of the same sex may be needed as further visual investigation continues and photographs of these areas are taken.
- Inquire about strangulation and internal injuries.
 - If injuries appear life-threatening or if the victim is impaired, through injury or intoxication and unable to make the decision, request medical services regardless of the victim's preference.
 - If the victim requests medical attention, EMS shall be summoned whether the officer believes medical attention is necessary or not.
 - If it appears strangulation has occurred, EMS shall be summoned.

- Interview all parties and witnesses away from sight and hearing range of other parties as safety permits.
 - Video or audio record all statements, when possible, in accordance with general department regulations.
 - Arrange for an interpreter when necessary. Do not utilize either party as an interpreter.
 - If the suspect has been arrested prior to the interview, give Miranda warnings before questioning the suspect.

COLLECT EVIDENCE

20. Officers shall collect, preserve and document all relevant physical evidence including evidence substantiating the victim's injuries and the attack (weapons, torn clothing, phone cords, etc.) as well as evidence recording the crime scene, in accordance with departmental procedure and policy on evidence collection (Refer to Policy 808, Collection and Preservation of Evidence).
21. Officers shall pay particular attention to evidence specific to sexual abuse, stalking and strangulation.
22. Officers shall:
 - Inform the victim in advance of actions to be taken and, if necessary, obtain consent to search the scene or obtain a warrant.
 - Document and photograph all injuries, regardless of severity, taking care to preserve the victim's personal privacy. Where practicable, photographs shall be taken by a person of the same sex. Victims whose injuries are not visible at the time of the incident, or whose injuries change in appearance warranting additional photographs, shall be asked to contact the Domestic Violence Unit in the event that the injuries later become visible. Contact information shall be provided by the officer.
 - Collect and secure evidence related to the probable cause determination, regardless of whether the suspect has been arrested at the scene.
 - Photograph disarray at the scene, damaged property, including all evidence seized as well as broken windows and doors, damage to vehicles, damaged telephones and similar evidence if associated with the incident.
 - Photograph and, if possible, collect damaged property such as broken phones and bloody or torn clothing. (NOTE: Do not seize a functioning telephone, cell phone, or other communications device if it is the only working phone available to the victim.)
 - Photograph and collect electronic evidence such as text messages, email, voicemail and similar evidence. Refer to Policy/PR 814, Computers and Digital Evidence.
 - Conduct criminal history records search in any available records databases.
23. If there is probable cause to believe a vehicle was used in the commission of a crime involving domestic violence, obtain a search warrant unless exigent circumstances exist to search for evidence of stalking, kidnapping or any domestic violence related crime.

STRANGULATION

24. Be alert to the signs and symptoms of strangulation, such as scratches along the neck or chest, while being aware that strangulation does not always result in visible or immediate symptoms. If the victim has any symptoms of strangulation, immediately request EMS. Officers shall conduct an initial interview with the victim regarding the method of strangulation and its effects. Officers shall note:
- Information regarding the offender's intention while strangling the victim ("What did the person say before, during and after strangling you? What did he/she do immediately prior to attacking you? What was his/her demeanor, facial expressions?")
 - Evidence that normal breathing or circulation of the blood was impeded (including: raspy or hoarse voice, coughing; loss of voice, difficulty talking, wheezing, shortness of breath, difficulty breathing, hyperventilation, difficulty swallowing or pain in throat, swelling of the tongue, nausea or vomiting, or dizziness).
 - Injuries including: scratches, abrasions, marks to the neck or face, impressions of hand or fingers in the skin, impression in the skin which might indicate the use of a cord or other ligature, jewelry, or other object, apparent swelling in the neck, ruptured capillaries in the eyes, under the eyelids or on the neck or fingernail marks on the victim's face, neck or chest.
 - Information regarding how the pressure was applied on the throat or neck or the blockage of the nose or mouth of the victim. (For example: "Did the person who hurt you use one hand or both hands? Use his/her arms, knees or another body part on your throat or head area? Block your nose or mouth? Did he/she use any objects, e.g., cords, ropes, against your neck/throat? Where exactly were his/her hands or the object that was used on your neck/throat? Can you demonstrate how you were strangled?")
25. Officers shall document all evidence of strangulation in the written report, using the term "strangulation" rather than "choking," unless quoting the party interviewed.

STALKING, CYBERSTALKING & HARASSING PHONE CALLS

26. Be alert to the possibility that any single report of domestic abuse could be part of a pattern of stalking behavior. Be aware of the possibility that actions that would not otherwise be illegal or might not cause alarm in another context could be examples of stalking behavior. Pay particular attention to repeated violations of protection orders and stay away orders. Ask questions of the victim to determine if the current incident is an isolated event or part of a pattern of behavior.
27. Officers shall:
- Document any and all information regarding stalking behavior provided by the victim, such as:
 - Driving by or appearing at the victim's residence, workplace or school;
 - Entering victim's home;
 - Delivering items, such as flowers, letters, gifts, etc.;
 - Annoying or threatening hang up phone calls, emails or text messages;
 - Disabling or tapping the victim's phone;
 - Audio or videotaping the victim without the victim's knowledge;
 - Photographing the victim or the victim's acquaintances;
 - Intercepting mail;
 - Ordering products or subscriptions in the victim's name;
 - Attempting to obtain information about the victim from others; and

- Spreading false rumors or allegations about the victim.
- When the electronic device or medium cannot be processed through forensics, officers shall document and attempt to photograph all text messages, emails, social media and web content transmitted between the two parties.

ARREST DECISION

28. When making a decision to arrest, officers shall refer to the Domestic Violence Arrest Matrix, located in the Resource Folder on nopd.org, and shall abide by the standards for arrest as defined in this chapter, charging the arrested subject with the appropriate state charge.
29. The Department has a pro-arrest arrest policy for domestic violence incidents. An officer shall arrest when he or she finds probable cause that a domestic violence incident occurred. However, if there is probable cause to believe that a victim of battering committed a misdemeanor, and that the victim of battering does not pose an impending danger to the other party, the officer has limited discretion not to arrest. To exercise this discretion not to arrest, the officer shall receive approval from a supervisor and document evidence supporting this decision in his or her report.
30. The Department **strongly discourages dual arrests** for domestic violence incidents.

USE OF RISK ASSESSMENT

31. Before making a probable cause determination, officers shall ask any party who alleges a crime was committed against him/her or his/her property the Four Risk Questions (conduct risk assessment above) regarding History/Patterns & Severity of violence used.
32. Answers to risk questions shall be utilized in the following circumstances:
 - When there is probable cause that a misdemeanor has been committed, the risk questions should be used to help an officer determine whether there is impending danger.
 - “Impending danger” is not an assessment based on a single incident, but rather on the history of violence, patterns of physical, sexual and emotional abuse and the severity of any violence used.
 - When there are conflicting accounts of the incident or there are allegations that both parties committed a crime, the officer has to conduct a predominant aggressor assessment.

OFFICER RECEIVES ADMISSION THAT ONLY ONE PERSON COMMITTED AN ILLEGAL ACT

33. If the officer receives an admission that only one person committed an illegal act and verifies the accuracy of this admission, thereby establishing probable cause for arrest, the officer shall conduct an arrest. However, if the officer finds probable cause that a person committed a misdemeanor, and that person is a victim of previous battering who poses no risk of impending danger, the officer may choose not to arrest. **The officer shall obtain supervisor approval of a decision not to arrest and document the decision in the report.**

CONFLICTING ACCOUNTS OR ALLEGATIONS THAT BOTH PARTIES COMMITTED A CRIME

34. If the officer receives conflicting accounts of the incident or if the officer receives allegations that a crime was committed against both parties, and more than one party, the officer shall follow these steps in this order: **A)** Self-defense determination; **B)** Predominant aggressor assessment, if required; and **C)** Arrest decision:

A. Self-defense determination. The officer shall **first** assess for self-defense.

Generally, self-defense is the use of force or violence when it is:

- Apparently necessary to prevent a forcible offense or trespass against property in that person's lawful possession; and
- Reasonable (La. R.S. 14:19).

Under Louisiana law there is NO DUTY TO RETREAT. When a person is in a place where he/she has a right to be and is not engaged in unlawful activity, he/she may stand his/her ground and meet force with force. (R.S. 14:19). Other special self-defense scenarios and affirmative defenses include: justifiable homicide; defense of others; use of self-defense while in a dwelling, place of business or motor vehicle; and committing a crime under threat of great bodily harm.

Officers shall follow the Self-Defense and Affirmative Defenses Tool when making a self-defense or affirmative defense determination. This document can be located in the Resource Folder on nopd.org.

DO NOT arrest a party who the officer has determined has an affirmative defense or has acted in self-defense.

Officers shall conduct a thorough self-defense assessment when they receive conflicting accounts or allegations that two or more parties committed a crime. To conduct this assessment, officers shall determine whether the use of force falls under state law for self-defense (La R.S. 14:19):

- *The use of force or violence upon the person of another is justifiable when committed for the purpose of preventing a forcible offense against the person or a forcible offense or trespass against property in a person's lawful possession, provided that the force or violence used must be reasonable and apparently necessary to prevent such offense, and that this Section shall not apply where the force or violence results in a homicide.*
- *There shall be a presumption that a person lawfully inside a dwelling, place of business, or motor vehicle held a reasonable belief that the use of force or violence was necessary to prevent unlawful entry thereto, or to compel an unlawful intruder to leave the premises or motor vehicle, if both the following occur:*
 - *The person against whom the force or violence was used was in the process of unlawfully and forcible entering or had unlawfully and forcible entered the dwelling, place of business, or motor vehicle.*
 - *The person who used force or violence knew or had reason to believe that any unlawful and forcible entering was occurring or had occurred.*
- *A person who is not engaged in unlawful activity and who is in a place where he or she has a right to be shall have no duty to retreat before using force or violence as provided for in this Section and may stand his or her ground and meet force with force.*

B. Predominant aggressor assessment. If the officer determines that both parties used illegal force or took illegal action, and neither party acted in self-defense, the officer shall conduct a **predominant aggressor assessment**.

In making a predominant aggressor determination, the officer shall look for the **person who, by his or her actions in this incident and through history and previous actions, has caused the most physical harm, fear and intimidation against the other**, considering all of the evidence, including:

- What each party's purpose is in using violence
- Evidence from complainants and witnesses
- Extent of personal injuries
- Threat of future injury
- Prior incidents of domestic violence (see answers to 4 risk questions and prior incidents based on dispatch history)
- Future welfare of any minors
- Who uses the highest level of violence in the relationship

C. Arrest decision. If there is a predominant aggressor, the officer:

- Shall arrest the predominant aggressor if there is probable cause that the predominant aggressor committed a felony or misdemeanor.
- Shall arrest both parties if there is probable cause to believe both parties committed a felony and the supervisor concurs with the decision. **Dual arrests are strongly discouraged, and officers must obtain supervisor approval before making a dual arrest.** If a dual arrest is made, the circumstances and the supervisory review and approval of the arrest decision must be documented in the investigative report.
- If probable cause exists that the victim of battering committed a misdemeanor, an arrest of the victim of previous battering is permitted only if both parties pose a risk of impending danger. **Officers must obtain supervisor approval before making a dual arrest and document the investigation in the report.**

35. If there is no predominant aggressor, officers shall arrest when there is probable cause of a misdemeanor or a felony. As set forth below in Paragraphs 29 - 32, **dual arrests are strongly discouraged**. Officers must obtain supervisor approval before making a dual arrest and document the investigation in the report.

DUAL ARRESTS

36. Officers shall obtain their supervisor's approval before making a dual arrest.
37. The department discourages dual arrests. The only circumstances in which an officer would make a dual arrest are:
- Both parties committed a felony; or
 - Both parties committed a misdemeanor, and both pose a risk of impending danger.
38. A dual arrest **shall not** be made if a person acted in self-defense.

39. The arresting officer shall use the same item number for both arrests. The report shall include a detailed explanation of the probable cause for each arrest.

WHEN NO PROBABLE CAUSE EXISTS

40. When an arrest cannot be made due to a lack of probable cause that a crime has been committed, then the officer shall do the following:
- Explain to the victim why an arrest is not being made.
 - Advise the victim of his or her rights and explain the procedures for filing a criminal complaint.
 - Encourage the victim of battering to contact the New Orleans Family Justice Center and provide information about the availability of Civil Protective Orders.
 - Address a victim's need for medical care and transport to a safe place.
 - Encourage the victim to call 911 if they are in danger.
41. Officers shall notify their supervisor and provide a detailed explanation as to why an arrest was not made.

ENFORCING PROTECTIVE ORDERS

42. In enforcing protective orders, officers' primary responsibility is to ensure the safety of the Petitioner. An officer **SHALL ARREST** a suspect when there is probable cause to believe that the offender has willfully violated a protective order (La. R.S. 14:79).
43. Officers shall use every reasonable means to enforce a protective order, including, but not limited to, the immediate arrest of the violator.
44. First officers must verify a protective order is in place. If officers are able to verify the order is in place, they must then enforce the order.
45. If the order cannot be enforced because it has not been served, officers shall attempt to serve the order.

VERIFYING PROTECTIVE ORDERS

46. If there is a paper copy of the order available, an officer shall enforce the order if it is authentic on its face. No other verification is required. A protective order does not need to be registered in order to be enforced.
47. Officers shall presume an order is valid if:
- The order gives the names of the parties.
 - The order contains the dates it was issued.
 - It has not expired (orders do not need an expiration date to be valid).
 - It contains the name of the issuing court.
 - There is an indication the order was issued by a judicial officer or other appropriate authority, which could be indicated by various methods, including a stamp, signature or seal.
 - The order specifies the terms and conditions against the offender.
48. If the victim does not have a copy of the order or if the officer cannot determine whether the order is valid on its face, the officer shall attempt to verify the order using the following methods:

- Contact the Louisiana Supreme Court Protective Order Registry (504-568-5753, during normal business hours or 1-877-830-9680 24hr pager).
- Contact NCIC Protective Order File
- Communicate with the court or law enforcement in the issuing jurisdiction
- Draw upon personal knowledge of the officer or information obtained through an interview

49. An officer shall enforce a protective order according to Paragraphs 26 – 32 of this chapter, whether or not the victim has a copy of the protective order, if the officer is able to verify the existence of the order.

ENFORCING LOUISIANA PROTECTIVE ORDERS

50. Where the violation of a protective order constitutes a crime under La. R.S. 14:79, the officer on the scene shall arrest the offender.

SERVING PROTECTIVE ORDERS

51. If the defendant did not receive notice of the order, and service of process is needed, the officer shall attempt to serve the respondent with the order by providing him or her a certified copy of the protective order whenever possible. The officer shall note that service of the order was made in the police report and shall notify the respondent of the consequences of violating the order (La. R.S. 14:79). The officer may give the respondent the victim's copy of the order but shall assist the victim in obtaining a new copy of the order.

52. Officers shall inform victims that a copy of their police report can serve as proof that the defendant was served and that the order can now be enforced for any future violations.

ENFORCEMENT OF FOREIGN ORDERS

53. Officers shall enforce protective orders valid in an issuing foreign jurisdiction as if they were orders of Louisiana, whether or not the order has been registered (18 U.S.C. § 2265).

54. Officers shall enforce foreign orders as written, even if the order offers protection not offered in Louisiana.

55. Violating an order from another state is a crime under La. R.S. 14:79.

56. Orders from another state are entitled to full faith and credit if:

- The court that issued the order had personal jurisdiction over the parties and subject matter jurisdiction over the case; and
- The person against whom the order was issued must have had notice and an opportunity to be heard related to the allegations of abuse and the relief sought, or opportunity to be heard will be granted within a reasonable amount of time.

(See "Enforcing Foreign Protective Orders" in the Resource Folder on nopd.org)

CONDUCTING AN ARREST

57. Once a determination is made that an arrest will be conducted, the officer shall:
- Take the accused into custody as soon as the officer determines that arrest is appropriate;
 - Document any spontaneous statements made by the suspect on scene and in the officer's vehicle;
 - Advise the victim that there is no guarantee the suspect will remain in custody; and
 - Ensure the pink copy of the Louisiana Victim Notice and Registration (LAVNS) form is provided to Central Lock-up to ensure the victim receives notice of the suspect's release from jail.

RESPONDING WHEN A SUSPECT IS NOT ON SCENE

58. Officers shall obtain the following information when the suspect has left the scene prior to officers' arrival:
- Suspect's name, date of birth and physical description, including clothing
 - Suspect's direction and mode of travel upon leaving the premises
 - Description of the suspect's vehicle, if applicable
 - Where the suspect might have gone
 - Where the suspect stays when not with the victim
 - Whether the suspect has ever interfered with the victim's attempts to seek help, especially from law enforcement
59. Officers shall take the following actions when the suspect has left the scene prior to officers' arrival:
- Search for the suspect in the immediate area and the direction and area where the suspect might have fled.
 - Check with the victim or others at the scene for the suspect's phone number. If the suspect's number is available, call the suspect in an attempt to locate, request a meeting place or obtain the suspect's account of the incident over the phone. Interviewing the suspect in person is preferred.
 - Encourage the victim to call 911 if the suspect returns.
 - Offer to transport the victim or arrange for transport to shelter or another safe place if needed.
 - Provide whatever assistance is reasonable to help the victim to secure broken doors or windows.
 - Collect and process evidence in the same manner as when an arrest has taken place.
 - After leaving the scene, when possible, drive by the residence over the next few hours and return to look for the suspect.
 - Prepare an arrest warrant when probable cause exists.

COLLECTING AND DOCUMENTING RISK INFORMATION IN FELONY CASES

60. Once an officer has conducted a felony arrest or determined there is probable cause to process a felony arrest warrant, the officer shall obtain (if not already obtained during investigation) and document the following risk information from the victim :
- Substance abuse
 - Gun ownership

- Record of violence
- Employment status of the perpetrator
- Prior threats with a dangerous weapon
- Threats to kill
- Forced sex
- Choking
- Control of daily activities
- Threats of suicide
- Threats to harm children

61. It is necessary for officers to document this information in the report, as this risk information must be considered by judges in setting bail for felony domestic violence cases.

VICTIM ASSISTANCE

62. Officers shall work in collaboration with victims and provide specific support and attention to safety in responding to domestic violence calls.

63. Officers **shall not**:

- Make any statements that would discourage a victim from reporting an act of domestic violence.
- Ask the victim if he/she wants the suspect arrested.
- Ask the victim if he/she will testify in court.
- Tell the perpetrator what the victim has told the officers.
- Threaten, suggest or otherwise indicate the possible arrest of all parties to discourage future requests for intervention by law enforcement personnel.

64. It is likely that a victim's need for law enforcement assistance will continue beyond the individual incident the officer is responding to. An officer's reaction can define whether the victim sees law enforcement as a resource for ending the violence in the future. For this reason, it is important that officers use appropriate victim interview skills. The most important rule is: In the victim's own words, at the victim's own pace. That means that officers should:

- Avoid interrupting the victim with questions
- Ask open-ended questions
 - "Tell me about. . ."
 - "And then what happened?"

65. It is very common for a DV victim to feel angry, and some of that anger may be misdirected towards police officers. Even if officers are experiencing misdirected anger, it is important that officers:

- Remain patient and calm in the face of hostility.
- Reassure the victim that he or she can continue to call law enforcement if necessary. This is especially true for victims who seem hostile or angry.
- Reassure the victim that the violence is not her or his fault and that she or he did the right thing by calling law enforcement.
- Provide the victim with privacy and dignity. This includes allowing her or him to change clothes if needed, shielded from on-lookers.

66. Victims are most likely to disclose abuse to the responding officer immediately following an assault. Most of the information on lethality and risk will be disclosed at this point in time.
67. By following the above information, officers can both get the most complete information about the crime that was committed and encourage victims to continue to turn to law enforcement for assistance.
68. Officers shall take the following actions to provide victim assistance:
 - Remain at the scene until the likelihood of further imminent violence has passed.
 - Recognize that remaining calm and professional even if the victim is upset or hostile will enable officers to obtain better information.
 - When possible, obtain a phone number of someone who will always know how to reach the victim. Check with the victim to make sure the number is safe to include in the report.
 - Provide victim with:
 - The Official Notice to Adult Victims of Family Violence form (Form #45); and
 - The Rights of Crime Victims and Witnesses brochure (see Policy/PR 336, Victim Witness Assistance).
 - The Louisiana Victim Notice and Registration (LAVNS) form. Tell the victim that the hotline numbers and community assistance listed on the Official Notice to Adult Victims of Family Violence (Form #45) are available to provide support 24 hours a day.
 - Provide transportation to or arrange transportation for the victim to a safe location if the victim expresses a concern for his/her safety or if the officer determines that a need exists.
 - Assist the victim in obtaining medical treatment.
 - Notify the victim of his/her right to apply for a protective order and that assistance with this process can be obtained through the New Orleans Family Justice Center.
 - Refer all victims to the New Orleans Family Justice Center.
69. Refer to Policy/PR 336, Victim and Witness Assistance, for general guidelines on providing victim assistance.

CHECKING ON THE WELFARE OF AND INTERVIEWING CHILDREN

70. Officers shall check on the welfare of each child at the scene.
71. Officers shall attempt to talk with each child at the scene and explain that the officers are there to help and to make sure everyone is safe. Do so immediately, and privately, if possible.
72. Be aware of how the child is responding to the situation and try to reduce the child's anxiety and fear.
73. Be alert to and document any spontaneous and relevant statements made by a child witness.

74. Officers shall not interview a child when information available to the officer suggests that it might be harmful. Document the reasons for not interviewing the child or children in the report. Consider the following in determining whether to interview children:
- Child's physical, emotional or psychological ability to give a statement
 - Child's age and ability to understand questions and formulate responses
 - Non-offending parent/guardian's preferences as to whether and how to talk with the child or children.
75. When possible, officers shall document:
- In general, what the child heard and determine if the child has been injured or directly harmed.
 - Names and dates of birth of any children present.
 - Presence and location of any children at the incident.
 - Physical and emotional condition of any children present.
 - Child or children's involvement in the incident, if any.
76. Officers shall call for medical assistance or transport the child to the nearest hospital for treatment if a child has been injured and is in need of medical care.

AVOID ARREST IN FRONT OF CHILDREN

77. Officers shall avoid subduing or arresting a party in front of children whenever possible. If a child witnesses the arrest, talk with the child to provide reassurance that the arrested person will be alright, the child did nothing wrong, the arrest is not his or her fault, law enforcement is there to help keep everyone safe for the night and that law enforcement, not the non-offending parent, is making the arrest decision.

PROTECTIVE CUSTODY OF CHILDREN

78. When the actions of the officer result in a situation where no responsible adult will be present in the home to care for the children (e.g., dual arrest or a single arrest and the other parent/adult must seek medical treatment), the officer shall inquire of the custodial parent if there is someone who can be contacted to care for the children. When required by law (Louisiana Children's Code, Art. 601, et. Seq.), or when actions taken by the officer will result in a situation where no responsible adult can be located to care for the children, officers shall contact Juvenile Services (Policy/PR 324, Temporary Custody of Juveniles).

INCIDENT INVOLVING DEPARTMENT EMPLOYEES

79. When responding to a domestic call involving a department employee, officers shall:
- Secure the scene and address the safety needs of those present.
 - Request their supervisor be dispatched to the scene to oversee the investigation.

RESPONDING TO INCIDENTS INVOLVING A LAW ENFORCEMENT OFFICER

80. Upon arrival on the scene of a domestic violence call involving a law enforcement officer, the responding officer shall:
- Immediately notify Communication Services and request a supervisor report to the scene, regardless of the involved officer's jurisdiction.
 - Be aware of the heightened risk that the suspect will likely possess firearms, other weapons, physical combat training or all three.
 - Secure the scene and all weapons.
 - Be aware that the suspect might attempt to make emotional appeals to fellow officers.

INCIDENTS INVOLVING PUBLIC FIGURES

81. When responding to a domestic call involving a public figure, officers shall:
- Secure the scene and address the safety needs of those present.
 - Request their supervisor be dispatched to the scene.
 - Conduct an investigation at the direction of their supervisor.
 - Make an arrest decision in accordance with department regulations.
 - Advise Communication Services NOPD Command Desk to make the necessary notifications.
 - When possible, take precautions to protect the victim's confidentiality, such as not using the victim's name or incident address over radio.

REPORTS

82. All Domestic Violence investigations shall be given a case disposition of RTF (report to follow) *regardless of whether or not an arrest was made*. Under no circumstance shall a NAT (necessary action taken) disposition be used for domestic violence incidents.
83. Reports shall include victim statements and disposition of the case (La. R.S. 46:2141; Ch.C. 1574).
84. The "D" designator shall be used on all domestic violence incidents.
85. When responding to a domestic violence call, the officer shall complete all domestic violence forms in their entirety, including the NOPD Domestic Violence Patrol Report Checklist (Form #46) and injury documentation on the Domestic Violence Supplemental page.
86. Officers shall utilize the NOPD Domestic Violence Patrol Report Checklist, (Form 46), when investigating a Domestic Violence call for service. This checklist is used as a guideline, which contains important questions that need to be asked and answered for a complete investigation; ensuring the officer is receiving the necessary information on the scene. The officer shall document the responses within the narrative of the report. Officers shall complete a predominant aggressor assessment to include the **4 Risk Questions** listed in the checklist. **The responses to the 4 Risk Questions shall be documented in the report narrative. The responses shall also be included in an arrest warrant or gist when applicable.**
87. **The checklist shall be attached to the police report as a document.**

ELECTRONIC MONITORING DEVICES

88. An investigating officer shall complete a report when he/she has been notified by an alert from an electronic monitoring device that an offender may have violated a court order. The report shall be forwarded to the appropriate prosecutor and issuing court within 24 hours of the alert (La. R.S. 46:2143; C.Cr.P. 335.1). The investigating officer shall attempt to contact the victim and make reasonable attempts to locate the offender.

CHANGING THE SIGNAL

89. Should the officer believe the parties do not meet relationship criteria for intimate partners, family members or household members, the officer shall contact his/her supervisor for approval to proceed with the investigation as a non-domestic incident.
90. Should the officer believe the parties do meet the relationship criteria in this chapter for intimate partners, family members or household members, but the incident has not been classified with a "D" signal code, the officer shall notify dispatch to change the signal code to a domestic incident.
91. *Only a supervisor may downgrade the signal of a domestic violence call.*

DISTRICT LEVEL DETECTIVES

92. Any district level detective conducting a supplementary investigation of a domestic violence case shall abide by the Domestic Violence Unit Standard Operating Guidelines.

DOMESTIC VIOLENCE UNIT STANDARD OPERATING GUIDELINES

93. The Domestic Violence Unit supervisor shall be responsible for returning incomplete reports to the appropriate platoon supervisor or District Commander for review and a supplement, when necessary.
94. The Domestic Violence Unit will be responsible for follow-up investigations of felonies, certain misdemeanors and certain cases where the offender is not arrested on the scene.

PLATOON SUPERVISOR

95. Platoon supervisors shall relay the department's priorities and expectations, thereby reinforcing the interagency response and the platoon officer's key role. This is accomplished by the supervisors' attending domestic violence calls at the scene when required by department regulations; reviewing reports to maintain the department's report-writing standards; and reinforcing the importance of thorough reports to victim safety and offender accountability.

SUPERVISOR RESPONSIBILITIES WHEN CHANGING A DOMESTIC VIOLENCE SIGNAL

96. Only a supervisor may change the signal of a domestic violence call by notifying Communication Services on the primary dispatch talk group for that District. The supervisor shall also complete a Request for Signal/Disposition Change form (Form #226) if the determination to reclassify the signal is made after the initial scene is marked up. A call for service shall not be reclassified when the relationship between the parties fits the intimate partner, family or household member definition.

SUPERVISOR SCENE OVERSIGHT

97. Supervisors shall be responsible for monitoring any domestic violence calls dispatched to the officers under their direct supervision.
98. Whenever possible, platoon supervisors shall respond to the scene for Priority 2 domestic violence calls for the purpose of providing additional safety, monitoring officers' on-scene activities and compliance with policy and offering assistance and advice. Refer to Policy/PR 316, Officer Response to Calls.

SUPERVISOR REPORT REVIEW

99. Platoon supervisors shall:
 - Conduct reviews of platoon officers' reports.
 - Utilize the Supervisor's *Domestic Violence Report Review Checklist (Form 341)*, located in the Resource Folder on nopd.org, to ensure the necessary domestic violence elements are present in each platoon officer's report.
 - Return incomplete reports to the officer for corrections and meet with officers to discuss ongoing problems with report writing.
 - Attach the completed Form 341 with the reviewing supervisor's trip sheet at the end of their tour of duty.

SUPERVISOR APPROVAL OF DECISIONS NOT TO ARREST AND DUAL ARRESTS

100. Supervisors are responsible for approving or disapproving an officer's decision to make a dual arrest consistent with Paragraphs 21 – 32 of this chapter.
101. When notified of a lack of probable cause to make an arrest, supervisors shall:
 - Advise the officer to make an arrest based on the information provided; or
 - Advise the officer to document the reason for not making an arrest.

SUPERVISOR RESPONSIBILITIES IN EMPLOYEE INVOLVED INCIDENTS

102. Supervisors shall:
 - Respond to scene of all department employee-involved domestic violence incidents.
 - Notify the Public Integrity Bureau and follow department regulations.
 - Ensure the scene is secured, including weapons, and oversee the scene until PIB investigators arrive on scene.
 - Ensure the victim is given the required information about victims' rights and is given the Official Notice to Adult Victims of Family Violence form (Form #45).

SUPERVISOR RESPONSIBILITIES IN INCIDENTS INVOLVING PUBLIC FIGURES

103. Supervisors shall:
 - Respond to scene of all domestic violence incidents involving public figures.
 - Notify the Communication Services NOPD Command Desk to make notifications.
 - Ensure the victim is given the required information about victims' rights and is given the Official Notice to Adult Victims of Family Violence form (Form #45).

PUBLIC INTEGRITY BUREAU SUPERVISOR

104. A Public Integrity Bureau Investigator shall conduct investigations of department employees involved in domestic violence incidents.

TRAINING

105. The Commander of the Education and Training Division or his/her designee shall develop a plan for training officers who respond to domestic violence calls in accordance with department policy. Training will reflect changes in policy, law and developments in best practices over time.
106. All officers shall receive, at least annually, comprehensive mandatory instruction on this policy and responding to domestic violence calls.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 52.1.1

TITLE: MISCONDUCT COMPLAINT INTAKE AND INVESTIGATION

EFFECTIVE: 07/19/2015

REVISED: Replaces Policy/Procedure 1020

PURPOSE

This Chapter governs the reporting, receipt, classification, assignment, processing, investigation, and disposition of complaints regarding allegations of misconduct against employees.

Every allegation of employee misconduct shall be accepted and fully and fairly investigated. Written findings will be supported by reliable evidence using a “preponderance of the evidence” standard.

POLICY STATEMENT

1. The New Orleans Police Department (NOPD) is fully committed to the thorough investigation of every misconduct complaint regarding service provided by the Department and the conduct of its employees. The Department will accept and address every complaint of employee misconduct in accordance with this Chapter.
2. Discipline is a function of command. Supervisory and non-supervisory employees both share in the responsibility for the administration of the disciplinary process by personal adherence to every Departmental Rule, Chapter, Policy, Procedure, order, and criminal or civil law. Every employee is equally responsible in reporting any violation to a supervisor, PIB, or to the Superintendent of Police.
3. The Public Integrity Bureau (PIB) is primarily responsible for ensuring a fair and consistent disciplinary process throughout the Department. This includes the coordination and supervision of all disciplinary investigations involving all employees of the Department and the assignment and processing of all complaints and allegations.
4. While investigating allegations of misconduct and imposing discipline, NOPD shall abide by federal law, including the U.S. Constitution, and state law, including Louisiana’s Police Officer Bill of Rights (La. R.S. 40:2351, “Rights of Law Enforcement Officers While Under Investigation.”)

DEFINITIONS:

Definitions relevant to this Chapter include:

Allegation-driven classification of complaint action—Assignment of complaint action to a particular investigative unit based on the complainant's allegation rather than on the possible outcome of the investigation.

Allegation of criminal misconduct—A complaint alleging officer conduct that, if true, would constitute a crime.

Classification date—The date on which PIB determines the complaint will be investigated as a public complaint; internally generated complaint; minor infraction resolved through counseling or training; or NFIM.

Cognizance date—The date on which an NOPD supervisor, whether assigned to PIB or assigned to another bureau, receives a complaint of alleged employee misconduct from any source, observes employee misconduct, or gains knowledge from any source of employee misconduct.

Complainant—Any person, including a community member, a nonresident, or a sworn or civilian member of NOPD, who makes a complaint against NOPD or any NOPD employee.

Complaint—Any allegation of misconduct committed by any NOPD employee that is reported by any person, including any NOPD employee.

Complaint action—One of four actions taken based upon the classification by PIB:

- The initiation of a Formal Disciplinary Investigation on the basis of a public complaint of employee misconduct;
- The initiation of a Formal Disciplinary Investigation on the basis of an internally generated complaint of employee misconduct;
- The documentation of a minor violation/infraction resolved through non-disciplinary counseling or training; or
- The documentation of a Non-Formal Investigation (NFIM) by any Departmental supervisor.

Complaint Form—The universal form that any person may use to file a complaint against an employee of the New Orleans Police Department. Any person can file a complaint without filling out this form (e.g., a complaint may be communicated verbally or online), and a complaint shall not be disregarded if a person refuses to, or cannot, complete this form. However, a copy of this form shall be provided to any person who requests it or asks to file a complaint, and a supervisor shall assist any such person to ensure the form is filled out thoroughly and forwarded to the Public Integrity Bureau.

Complaint Tracking Number (CTN)—A unique number assigned by PIB Intake to each complaint received and entered on the Complaint Form and all documents associated with intake, classification, investigation and adjudication of the complaint. The CTN includes the year the complaint was filed followed by a four digit sequential number starting with 0001 for the first recorded allegation of the year, followed by an alpha character indicating the source of the complaint (i.e., P = public; R = rank). For example, 2014-0001P indicates the first complaint received in 2014 and it was filed by a member of the public.

Documentation of Minor Violation/Infraction Resolved Through Non-Disciplinary

Counseling or Training—Documentation by a supervisor of at least equal or higher rank than the accused of verbal or written counseling by that supervisor when he/she has become aware of or has observed a minor violation/infraction (see Chapter 35.1.7). The supervisor must have firsthand knowledge of the employee's behavior that constituted the violation.

Force Tracking Number (FTN)— A unique number assigned by FIT to each reportable use of force event to facilitate awareness event and tracking of a use of force investigation. The number includes the letters "FTN" for Force Tracking Number, followed by the year the force event occurred followed by a three digit sequential number starting with 001 for the first recorded allegation of the year. FTN 2014-001 indicates the first reportable use of force event in 2014.

Formal Disciplinary Investigation—Internal investigation that may result in disciplinary action as set forth in the Civil Service Rules.

Incident report—Official written documentation by NOPD (usually in the form of an Electronic Police Report) of the occurrence of an incident occurring in Orleans Parish. The incident is assigned a unique "item number" by the Orleans Parish Communications Division Computer-aided Dispatch system at the time the call for service is received by the Communications Division either by telephone from an outside source (e.g., 911 or 821-2222) or generated in the field and requested over the police radio.

Internally generated complaint—Any complaint initiated by an NOPD employee, sworn or civilian, other than a documentation of minor violation/infraction resolved through counseling or training. Internally generated complaints require Formal Disciplinary Investigations.

IPM—Independent Police Monitor.

Limited English Proficient (LEP)—A person who does not speak English as his/her primary language and has a limited ability to read, write, speak, or understand English is considered "LEP." An LEP individual may be competent in certain types of communication (e.g., speaking or understanding), but may still be considered LEP for other purposes (e.g., reading or writing).

Minor violation/infraction—A first violation of a Departmental Rule, Policy, Procedure, Order, regulation, or verbal/written instructions that a supervisor believes requires minimal intervention through retraining and/or counseling to correct the employee's behavior (e.g., tardiness, uniform requirement, and cleanliness of vehicle). The behavior must not be the subject of a public complaint and must be considered so minor that it is correctable by simple counseling and minimal intervention by the supervisor, with the goal of non-repetitive behavior. Repetition of a violation within a twelve-month period (based on the date of the observed violation) may require discipline.

Misconduct—Any action or inaction that violates any Departmental Rule, Policy, Procedure, Order, verbal or written instruction, or criminal law.

Misconduct Investigation Initiation Form—The form used internally by PIB to document the classification of each complaint and all steps in the complaint investigation process. Because NOPD uses an allegation-based classification system, the specific allegation of misconduct will be articulated on the form. However, PIB shall independently classify all complaints, and only PIB shall have the authority to classify complaints.

No Formal Investigation Merited (NFIM)—A complaint action in which the allegation, on its face, does not constitute a violation by an employee of any Departmental Rule, Policy, Procedure, verbal or written instruction, or criminal or civil law. NFIM will be used only for the following types of complaints:

- Complaints disputing traffic citations, except an allegation of misconduct contained in such complaints (e.g., racial profiling, illegal search, excessive force) will be classified and investigated according to its merits;
- Complaints alleging delayed police service (e.g., patrol response or detective follow-up) in which the preliminary investigation demonstrated that the delay was due to workload. However, if the preliminary investigation disclosed that misconduct such as negligence, rather than workload, caused the delay, the complaint will be classified according to its merits;
- Complaints regarding the conduct in a civil incident of an off-duty employee, unless the alleged conduct or its effects constitute misconduct or had a substantial nexus to the employee's employment; and
- Complaints in which the preliminary investigation demonstrated that the subject employee did not work for NOPD at the time of the incident or in which the identity of the subject employee cannot be determined despite the best efforts of the PIB investigator.

Non-Disciplinary Counseling or Training— Remedial and non-punitive instruction given by a supervisor to a subordinate employee or officer on an individual basis. The purpose of Non-Disciplinary Counseling is to resolve the problem and correct the inappropriate behavior by providing guidance. The employee does not experience any loss of rights, remuneration, or benefits. Such non-disciplinary counseling, as well as the underlying minor violation/infraction, is documented within the Complaint Form.

NOPD Authorized Interpreter (NOPDAI)—A bilingual or multilingual NOPD employee who has been authorized to interpret for others in certain situations such as interviews, interrogations, or taking and responding to public complaints.

NOPDAI List—A list of NOPD employees who are bilingual or multilingual and authorized by the Department to act as interpreters.

OIG—Office of the Inspector General.

Preponderance of the evidence—Such evidence that when considered and compared with that opposed to it has more convincing force and produces in one's mind the belief that what is sought to be proven is more likely true than not true.

Public complaint—Any allegation of misconduct made by any non- member of NOPD.

Public Integrity Bureau (PIB)—The NOPD bureau that is primarily responsible for ensuring a fair and consistent disciplinary process that includes the coordination and supervision of every disciplinary investigation involving an NOPD employee and the assignment, investigation, and processing of every complaint.

PIB reports directly to the Superintendent of Police, and is commanded by a civilian Deputy Superintendent of Police. PIB consists of the following: Intake Section, Criminal Investigations Section, Administrative Investigations Section, FIT (Firearms Investigation Team), Special Investigations Section, Staff Programs, and Special Projects Section. PIB also administers the Professional Performance Enhancement Program (PPEP).

Rights of Law Enforcement Officers While Under Investigation (La. R.S. 40:2531)— Louisiana law governing the rights of every Louisiana law enforcement officer relative to disciplinary investigations (see addendum).

RETALIATION

5. NOPD is committed to ensuring that every employee, as well as any member of the community, can report misconduct to the NOPD without fear or concern for reprisal or retaliation. The Department expressly prohibits an employee from engaging in any form of retaliation, including intimidation, coercion, or adverse action against any person who reports misconduct, makes a misconduct complaint, or cooperates with an investigation of misconduct.
6. Any form of retaliation by any employee toward anyone for reporting misconduct or for cooperating with an investigation shall be grounds for discipline, up to and including termination. (Refer to **Chapter 26.3 – Work Place Discrimination-Retaliation.**)

SOURCE OF COMPLAINT

7. A complaint may be made by any person, including a member of the public, a civilian or a sworn member of the NOPD. The complainant will be asked to sign a Complaint Form or provide information to the receiving supervisor who shall complete the form for the complainant. Refusal to sign a Complaint Form will not negate the requirement that the allegation be documented and fully and fairly investigated. All internally generated complaints shall be investigated in the same manner as a public complaint.
8. Any complaint received by NOPD via an anonymous source or third-hand from any known source (e.g., news media, OIG, Metropolitan Crime Commission, District Attorney's Office, the City Attorney's Office, or outside agency) shall be investigated fully and fairly with what information is given and/or discovered during the course of the investigation.

COMPLAINT - METHODS OF SUBMISSION

9. A complaint may be made at any time (24 hours a day, seven days a week) to:
 - any NOPD member;
 - directly to PIB (in person during regular business hours, or by telephone);
 - in person at any police station or facility; or
 - at the complainant's location (such as his/her residence or business in Orleans Parish), at the complainant's request.
10. A complaint may also be made in writing to NOPD's Web site (nopd.com), the Superintendent's Office, or any police facility address by e-mail, fax, or USPS mail.
11. PIB shall ensure that Complaint Forms, informational materials, brochures, posters, and instructions for making complaints are available online at the City of New Orleans and NOPD web sites and in print at appropriate government properties, including NOPD Headquarters, NOPD District police stations, City Hall, Orleans Parish courthouses, all Orleans Parish public libraries, the Office of the IPM, the Orleans Public Defenders' Office, the District Attorney's Office, and at City-administered offices or gathering places of community groups, upon request. Permanent placards will be posted and maintained at all NOPD police facilities describing the external complaint process available to all persons. The placards shall include telephone numbers, e-mail addresses, and Internet

sites for complaint filing. The commanding officer in charge of the NOPD unit housed in the facility shall be responsible for ensuring such materials are available in the public areas of the facility.

12. Any individual may submit a misconduct complaint through NOPD and City web sites. PIB shall ensure these web sites include not only Complaint Forms, but also instructions on how, where, and in what manner misconduct complaints may be filed to ensure the public that no complaint is ever refused, disregarded, or dismissed as trivial. PIB shall monitor these websites on a daily basis in order to promptly identify any misconduct complaints.
13. The Complaint Form and related informational materials shall be made available and posted in the Spanish, Vietnamese, and English languages. Any LEP individual who wishes to file a complaint against an NOPD employee shall be provided with an intake form and instructions in English, Spanish, or Vietnamese, as appropriate, as well as the appropriate translation services (NOPDAI, if needed) to file a complaint.

RESPONSIBILITY OF ALL MEMBERS TO REPORT MISCONDUCT

14. Any Departmental member who observes or becomes aware of any act of possible misconduct by another employee shall report the incident in accordance with this Chapter. Failure to report or document an act of misconduct or criminal behavior shall be grounds for discipline up to and including termination.
15. If a Departmental member observes or becomes aware of any act of possible misconduct by another employee of **equal or lesser** rank, he/she shall report the incident to any Departmental supervisor or directly to PIB prior to the end of his/her tour of duty that same day. This conduct may be reported verbally, or in writing using a Complaint Form. If the complaint is reported verbally, the receiving supervisor or PIB shall audio-record the reporting employee's statement, and the audio-recording shall be made a part of the Complaint Form as an attachment. Any written document shall be made a part of the Complaint Form as an attachment.
16. As set forth in NOPD Chapter 35.1.7, when a supervisor elects to address and resolve a minor violation/infracton through non-disciplinary counseling or training, the supervisor must complete a Complaint Form and document the specific minor violation/infracton observed, as well as the counseling or training imposed. That form must be given to, and signed by, the accused employee, and forwarded to the Public Integrity Bureau within five days of the supervisor becoming aware of the minor violation/infracton.
17. If a Departmental member observes or becomes aware of any act of possible misconduct by another employee of **greater rank**, he/she shall report this incident directly to PIB prior to the end of his/her tour of duty. This report may be made in writing through a Complaint Form, in person at PIB during its regular hours or by contacting the on-call PIB investigator after regular working hours.
18. Any supervisor being consulted by any other member about an allegation of misconduct by any member shall accept the complaint as outlined in this Chapter. If the allegation is of a serious nature (e.g. possible criminal violation), he/she shall contact PIB immediately and advise PIB of the identity of the complainant and the nature of the complaint.

RESPONSIBILITY TO ACCEPT COMPLAINT OF MISCONDUCT

19. All NOPD members shall courteously receive all complaints. Every complaint from a member of the public or an NOPD member shall be courteously received. NOPD employees are prohibited from discouraging in any manner the filing of a misconduct complaint. The refusal by any employee to accept a misconduct complaint, the discouragement of filing a misconduct complaint, or the providing of false or misleading information to a complainant about filing a misconduct complaint shall be grounds for discipline.
20. For every complaint, the receiving employee shall immediately advise his/her supervisor of the location of the complainant, and the allegation. If the identity of the accused employee is known, the receiving employee shall also advise his/her supervisor of the identity of the accused employee. The supervisor in the police district in which the complainant is currently located shall be notified and shall respond to the complainant's location. The supervisor shall be responsible for assisting the complainant to document the complaint. That supervisor shall be responsible for following the procedure for submission of the Complaint Form to PIB.
21. Every misconduct complaint, including an anonymous or third-party complaint, shall be accepted by PIB or by the supervisor meeting with the complainant. Under no circumstance will any employee in any assignment or of any rank, title, or position refuse to accept a complaint or re-direct any complainant to the PIB office to file his/her complaint. Before concluding the meeting with the complainant, the receiving supervisor shall contact the PIB office and obtain a Complaint Tracking Number which shall be given, in writing, to the complainant, or verbally if the complainant is submitting a complaint by phone. If the PIB office is closed at the time the complaint is made, the supervisor shall contact the on-call PIB investigator to immediately obtain a CTN. PIB, including its on-call investigators, shall maintain an up-to-date and accurate log of complaints, ordered by the CTN issued for each complaint.
22. If PIB advises the supervisor that immediate direct contact between PIB staff and the complainant is necessary, the supervisor will notify the complainant and remain with him or her until a PIB investigator arrives.
23. The supervisor shall also provide the complainant with his/her own business contact number and PIB's office number. It shall be the supervisor's responsibility to ensure that any complaint received by that supervisor receives a CTN. The supervisor shall inform the complainant that he/she will be notified by the investigator periodically in writing of the progress of the investigation and shall also be notified at the conclusion of the investigation of the final disposition.
24. NOPD members shall provide their name and badge number to any individual upon request, regardless of whether the individual explicitly requests to make a complaint.
25. If the alleged misconduct involves possible criminal activity or a serious use of force, the supervisor shall (in addition to obtaining a CTN) **immediately** notify PIB either directly or through the NOPD Communications Command Desk, which shall notify the on-call PIB investigator.
26. If the alleged misconduct involves a serious use of force, the supervisor shall (in addition to obtaining a CTN) immediately notify PIB FIT. FIT shall respond to the scene and otherwise proceed in accordance with NOPD **Chapter 1.3.2 - Force Investigative Team...**

27. Nothing in this procedure shall prevent or discourage any supervisor from seeking advice from or making notification to PIB in any complaint situation in which the supervisor may seek guidance.

COMPLAINT DOCUMENTATION

28. The supervisor receiving a complaint from any source shall answer any question the complainant may have about the information requested on the Complaint Form and shall review the information written by the complainant to ensure the complaint is defined clearly. The supervisor shall ensure the complainant understands the importance of answering, if possible, all relevant questions, which include the complainant's personal and contact information including the preferred method of contact and best time to attempt contact; a possible need for language assistance; the name, badge number, and assignment of the accused officer; a detailed description of the accused employee and any other Departmental employee on the scene of the event; his/her clothing/uniform; the type of vehicle driven, including any identifying markings; the date, time, and location of the event; the facts of the alleged violation, including specific actions taken and/or words spoken by the employee; and name and contact information of any witness. If circumstances indicate that the complainant is incapable or unable to complete the form, the supervisor shall offer to complete the form for the complainant.
29. Every Departmental supervisor who has been issued a Departmental recording device (body-worn camera and/or digital audio-recorder) shall record the statement of a complainant(s) and any witness or a person with first-hand knowledge of the incident. **A refusal by a person to be recorded shall not be grounds for refusal to accept a complaint.** The complainant's actual refusal to allow his/her complaint to be recorded should be audio/video-recorded if possible, and the supervisor should make the recording a part of the written complaint action. Recordings shall be labeled with the date, the CTN, the name of the accused member, and the name of the person(s) whose statement(s) is/are recorded. This recording shall be labeled as an attachment and made a part of the Complaint Form submitted to PIB by the receiving supervisor.
30. Whether handwritten or dictated, the Complaint Form should be signed by the complainant. Should the complainant refuse to sign the Complaint Form, the supervisor shall write "REFUSED TO SIGN" on the signature line to indicate his or her refusal. **A complainant's refusal to sign shall not invalidate acceptance of the complaint.** If the complainant cannot sign his/her own statement, the supervisor should document the reason on the form. The supervisor shall retain the original Complaint Form and, if possible at the time of the complaint, provide the complainant with a photocopy of his/her Complaint Form with the CTN. The supervisor should attach any document the complainant provides (e.g., citation, notes, photograph, correspondence, text or email message documentation, medical record, booking document-preferably in photocopied form) to the Complaint Form.
31. In addition to assisting with the completion of the Complaint Form, the supervisor shall also collect and list any available physical evidence, such as a photograph of a claimed injury or the absence thereof; any audio or video recordings; any CEW recordings; any documentation of medical treatment; or a photocopy of the traffic citation, affidavit, summons, or booking paperwork. Every photograph shall be marked with the date and time taken, the full name of the individual in the photograph, the name of the supervisor taking the photograph, and the CTN. The supervisor shall gather all relevant information, including the names of all NOPD officers and employees involved in or witnessing the alleged misconduct. The supervisor shall take photographs of apparent injuries, or the absence thereof, unless the complainant/subject objects or declines.

TRANSMITTING COMPLAINT TO PIB

32. A supervisor receiving a public complaint shall deliver, prior to the end of his/her tour of duty, a Complaint Form and all supporting materials to PIB. When a supervisor obtains a CTN from PIB, he/she becomes responsible for completing a Complaint Form in its entirety, including all relevant documentation of the alleged or known/observed employee misconduct and submitting this documentation to PIB by the end of his or her tour of duty. The supervisor shall receive a receipt for the delivery of the Complaint Form and supporting materials; the receipt shall be kept on file by the supervisor's place of assignment.
33. A supervisor receiving a complaint from another NOPD employee, or initiating a complaint against another employee, shall transmit, prior to the end of his/her tour of duty, a Complaint Form and all supporting materials to PIB.
34. A non-supervisor NOPD employee initiating a complaint against another employee directly to PIB shall transmit, prior to the end of his/her tour of duty, a Complaint Form and all supporting materials to PIB.

REQUEST FOR WITHDRAWAL OF A COMPLAINT

35. If a complainant expresses his/her desire to withdraw a complaint, he/she may complete a "Request to Withdraw Complaint" form; however, NOPD does not allow the dismissal, withdrawal, or cancellation of any complaint against any employee on the request of the original complaining individual. The investigator shall audio and/or video record the interview with the complainant in which he/she shall be asked to explain the reason(s) for the request to withdraw. This audio and/or video recording and the completed withdrawal form shall be made a part of the investigation which must continue, utilizing what information has already been provided by the complainant and any witness, if any refuse to cooperate further. The investigation must be concluded with a proper disposition. The disposition of "WITHDRAWN" is not utilized by NOPD.

REQUEST FOR CANCELLATION OF A COMPLAINT ACTION ORIGINALLY REQUESTED BY AN NOPD SUPERVISOR

36. The supervisor who is also documented as the complainant may request to "CANCEL" or change that complaint action to another form of complaint action (e.g., "Internally Generated Complaint" to "Documentation of Minor Violation/Infraction Resolved Through Non-Disciplinary Counseling") utilizing an inter-office correspondence (NOPD Form 105) through his/her chain of command to the PIB Deputy Superintendent of Police. The 105 must contain the reason(s) the supervisor is requesting to cancel the complaint or to utilize a different form of complaint action.
37. The original 105 must be delivered with the chain of command approvals and/or disapprovals to PIB within five (5) days of the cognizance date of the alleged violation. If any person in the requesting supervisor's chain of command disapproves the request, the initial complaint shall proceed as written and submitted. The 105 requesting the change will continue through the approval process and will be made a part of the investigative file on the complaint. The person disapproving the request must document his/her reasons in a cover 105 which will become a part of the request and follow through the chain of command.

38. The PIB Deputy Superintendent of Police has the final judgment in any request to cancel a complaint or change the complaint action type to another. If the request is not approved, the original complaint action shall continue uninterrupted in its original classification. If another form of complaint action is approved, the investigation shall continue to be governed by the original complaint action due dates.

PUBLIC INTEGRITY BUREAU RESPONSIBILITIES

39. PIB has the primary responsibility for the intake, coordination, review, classification, and assignment of every allegation of employee misconduct. The PIB Deputy Superintendent is delegated the authority of the Superintendent of Police for the purpose of directing every disciplinary investigation and any matter involving employee integrity or the known or alleged misconduct of any Departmental employee. The PIB Deputy Superintendent shall report directly to the Superintendent of Police on all disciplinary matters.
40. Once PIB is notified of possible criminal activity involving an NOPD officer or employee, PIB shall immediately notify the Superintendent of Police, the District Attorney and IPM.
41. PIB's responsibilities also include:
- Review of every complaint;
 - Review of all video evidence pertaining to every complaint prior to categorization and classification;
 - Categorization of every complaint as a public complaint; an internally generated complaint; a minor infraction resolved through counseling or training; or a complaint that qualifies as an NFIM;
 - Classification of every complaint, no matter the categorization, as use of force, criminal, or administrative;
 - Sub classification of allegations within the "administrative" category into subcategory groups for assignment, including: (1) serious misconduct; (2) other (non-serious) misconduct; (3) allegations eligible for Negotiated Settlement; and (4) allegations eligible for Community-Police Mediation;
 - Assignment of every complaint to the appropriate bureau for investigation;
 - Assignment of due dates for all investigative forms and investigations;
 - Investigation of all complaints retained by PIB;
 - Review and approval of every completed complaint action, investigation, report, or document, whether completed by PIB or another bureau;
 - Review of all Use-of-Force investigations completed by field supervisors to ensure they are complete, and that the supervisor's determination that the force is justified is supported by the evidence (See **Chapter 1.3.6 - Reporting Use of Force**);
 - Final determination of the disposition of all complaint actions, whether investigated by PIB or another bureau;
 - Issuance of the Notification to Accused Law Enforcement Officer under Investigation of a Pre-Disciplinary Hearing or Determination of an Unfounded or Not Sustained Complaint. (Notification form to be prepared by investigator and submitted with the completed investigation); and
 - Transmittal of notification letter to every complainant indicating the result of the investigation after final approval of the formal disciplinary investigative disposition.

AUTHORITY TO CLASSIFY A COMPLAINT

42. Only PIB has the authority to classify an allegation of employee misconduct. PIB shall have exclusive authority to initiate an appropriate complaint action.

COMPLAINT CLASSIFICATION AND ASSIGNMENT

43. Upon receiving a completed Complaint Form or other allegation of misconduct, PIB shall determine whether the allegation of misconduct constitutes:
- a public complaint;
 - an internally generated complaint;
 - a minor violation/infraction resolved through counseling or training; or
 - a complaint that qualifies as an NFIM.
44. PIB shall review all available video evidence before categorizing every complaint. PIB shall have sole authority to make this determination, and shall independently assess each Complaint Form notwithstanding any preliminary designation made by the member completing the Complaint Form.
45. As set forth within **Chapter 35.1.7 - Non-Disciplinary Counseling for Minor Violations**, PIB shall review all Complaint Forms designated by a supervisor as “Documentation of Minor Violation/Infraction Resolved through Counseling” to determine if the supervisory counseling given is an appropriate response to the alleged misconduct or if, instead, the alleged misconduct requires investigation as an internally generated complaint.
46. For all allegations of misconduct not categorized by PIB as “Documentation of Minor Violation/Infraction Resolved Through Counseling or Training” or “NFIM,” PIB shall classify each allegation into one of the following categories:
- Use of Force;
 - Criminal; or
 - Administrative.
47. As set forth below, PIB shall further classify allegations within the “administrative” category into subcategory groups for assignment, including: (1) serious misconduct; (2) other (non-serious) misconduct; (3) allegations eligible for Negotiated Settlement; and (4) allegations eligible for Community-Police Mediation. PIB’s complaint classification protocol, which is “allegation-based” rather than “anticipated outcome-based,” shall be used to guide PIB in determining to which Bureau a complaint shall be assigned.
48. When it is appropriate to ensure the fact and appearance of impartiality for investigations of serious uses of force or force indicating apparent serious or criminal misconduct by an officer, these investigations may be referred to an independent and highly competent entity outside of NOPD. PIB’s complaint classification protocol shall ensure that PIB or an authorized outside agency investigates allegations of serious or criminal misconduct.

ALLEGATIONS OF MISCONDUCT INVOLVING USE OF FORCE

49. Complaints involving allegations of serious uses of force, uses of force indicating apparent criminal misconduct by an officer, or uses of force by NOPD personnel of a higher rank than sergeant shall be investigated by FIT. Refer to **Chapter 1.3.2, Force Investigative Team**.

50. When it is appropriate to ensure the fact and appearance of impartiality for investigations of serious uses of force or force indicating apparent criminal conduct by an officer, these investigations may be referred to an independent and highly competent entity outside of NOPD.

ALLEGATIONS OF CRIMINAL MISCONDUCT

51. Complaints involving allegations of criminal conduct will be investigated by PIB/Criminal, including but not limited to:
- Commission of a crime;
 - False arrest;
 - Domestic Violence;
 - Unlawful Search; and
 - Civil Rights Violation(s).

ALLEGATIONS OF SERIOUS MISCONDUCT

52. Misconduct allegations that involve serious misconduct but that do not involve force or allege criminal misconduct will be investigated by PIB/Administrative, including but not limited to:
- discriminatory policing;
 - false arrest;
 - “planting” evidence;
 - untruthfulness/false statements;
 - unlawful search;
 - retaliation;
 - sexual misconduct;
 - domestic violence;
 - misconduct implicating the conduct of the supervisory or command leadership of the subject employee; and
 - any allegation that a Commander request be investigated by PIB rather than by the accused employee’s Bureau. An investigation that requires the assistance of a specialized or support unit shall be coordinated with that unit’s commander.

OTHER MISCONDUCT ALLEGATIONS

53. Complaints of misconduct of a less serious nature may be assigned to the accused member’s unit of assignment for investigation. These include but are not limited to:
- discourtesy;
 - neglect of duty;
 - service complaints;
 - missed court; and
 - lack of professionalism.

NEGOTIATED SETTLEMENT

54. As outlined in Chapter 24.1, in certain limited circumstances, upon classifying a complaint, NOPD through PIB may elect to address and resolve a rank-initiated violation (i.e., an allegation of misconduct reported by an NOPD supervisor) through a negotiated settlement agreement between the department and the officer. See NOPD **Chapter 24.1 - Negotiated Agreement and Settlement**.

COMMUNITY-POLICE MEDIATION

55. As outlined in **Chapter 24.2, Community-Police Mediation**, in certain limited circumstances, upon classifying a complaint, NOPD through PIB may elect to address and resolve an allegation of misconduct brought by a civilian through an OIPM-led mediation program.

INVESTIGATION OF ALLEGED CRIMINAL CONDUCT

56. The Superintendent of Police shall be notified as soon as practical when apparent criminal conduct exists. In the event of an allegation of a criminal violation, the Superintendent of Police may request an outside law enforcement or prosecutorial agency to conduct the criminal investigation parallel to the administrative investigation conducted by NOPD.
57. An employee accused of criminal conduct shall be provided with all rights and privileges afforded to an individual under the State and Federal constitutions.
58. The subject officer shall not be compelled to provide a statement to misconduct investigators where there is a potential criminal investigation for prosecution of the officer until the remainder of the investigation has been concluded, unless after consultation with the prosecuting agency and the PIB Deputy Superintendent, such compulsion is deemed appropriate by the Superintendent.
59. If there are both criminal and administrative investigations, those investigations shall be conducted concurrently unless otherwise directed by the PIB Deputy Superintendent. In the event the subject officer provides a compelled statement, PIB shall ensure that any criminal investigation shall not subsequently have access to that statement or the administrative investigation during the pendency of the criminal investigation.
60. No employee action other than administrative reassignment or suspension shall be taken against the accused employee based solely on an arrest or crime incident report. An independent administrative investigation shall be conducted based upon the allegation(s) in the crime incident report.

ASSIGNMENT OF AN ADMINISTRATIVE INVESTIGATION

61. The investigation of an alleged administrative violation involving serious misconduct shall be completed by PIB, and any complaint deemed by the PIB Deputy Superintendent or his/her designee to be of a serious nature may be retained within PIB for investigation.
62. The investigation of other alleged administrative violations may be assigned by the PIB Deputy Superintendent or his/her designee to another bureau. Once an administrative violation is assigned to a bureau for investigation, the bureau liaison who interacts with PIB and who is appointed by the individual bureau deputy chief shall assign the investigation within the bureau.
The investigation shall be assigned to a supervisor of at least equal or higher rank than the accused. The investigator shall not be a member who was involved in the incident as a witness or alleged participant.
63. Whether retained in PIB for investigation or assigned to an investigator from another bureau, the procedures to be followed during the investigation are the same.

EMERGENCY SUSPENSION OR ADMINISTRATIVE RE-ASSIGNMENT

64. If a violation involves an action or condition which, in the opinion of a supervisor, negatively impacts the accused employee's continued ability to perform his/her duty, the supervisor shall notify PIB. PIB will review the known facts and take the necessary steps to obtain the proper authorization from the PIB Deputy Superintendent to have the employee placed on emergency suspension or administrative reassignment (refer to **Chapter 52.8-Suspensions, Emergency Suspensions or Arrest of Employees** and PIB Directive No. 8, Administrative Reassignment and Emergency Suspension Procedures).

ACCUSED OR WITNESS EMPLOYEE RESPONSIBILITIES

65. Nothing in this Chapter shall alter an officer's obligation to provide a public safety statement regarding a work related incident or activity. All public safety statements and other officer statements in incident reports, arrest reports, use of force reports, and similar documents, and statements made in interviews such as those conducted in conjunction with NOPD's routine use of force review and investigation process, are part of each officer's routine professional duties.

ADMINISTRATIVE INVESTIGATIONS

66. Every NOPD employee is required to be truthful at all times in spoken, written, or electronic communications, whether under oath or not, in all matters and official investigations relating to the scope of employment and operations of the Department. Failure to comply shall result in termination.
67. In any administrative investigation of an employee, an accused or witness employee shall:
- Cooperate fully in the investigation process;
 - Give a written and/or audio/digitally/video-recorded statement upon request by the investigator;
 - Sign any written or transcribed statement made by the employee;
 - Appear at any disciplinary hearing when instructed by an authoritative source;
 - Submit to a breath test when ordered by a supervisor;
 - Submit to any or all of the following conducted by an authorized/certified examiner when ordered by the Superintendent or his/her designee: 1) A polygraph examination; 2) A Computer Voice Street Analyzer (CVSA) examination; 3) A Psychological Stress Exam (PSE); 4) A urinalysis, blood test, and/or other medical laboratory test; 5) A psychological and/or psychiatric evaluation; 6) A physical line-up; 7) The taking of photographs; and/or 8) Handwriting analysis;
 - Submit a financial disclosure statement when ordered by a Court having jurisdiction. A photocopy of the court order shall be labeled as an exhibit and made a part of the investigative report;
 - Sign a Confidentiality Admonishment form (NOPD Form #305). The form shall be supplied by the PIB investigator; and
 - Read, sign, and date the original superintendent's disciplinary letter (NOPD Form 105) for the PIB case to document that he/she has been formally notified of the disposition of an investigation in which he/she is an accused employee.

EMPLOYEE REPRESENTATIVE DURING A DISCIPLINARY INVESTIGATION INTERVIEW

68. In either an administrative or criminal investigation, an NOPD employee acting as a representative for an accused and/or observing the interview of an individual in connection with an investigation conducted by PIB into the alleged misconduct of NOPD personnel, shall be required to sign a Confidentiality Admonishment (NOPD Form 305) prior to the commencement of the interview. The form shall be supplied by the PIB investigator.
69. The member's representative, if any, will only advise the member but will not in any other way interfere with the interview.

INVESTIGATOR & INVESTIGATIVE PROTOCOLS

70. The supervisor who has been assigned to conduct a complaint investigation shall be designated as the "investigator." The investigator shall be of at least equal rank to the accused employee; however, an exception may be approved by the Superintendent of Police or the Deputy Superintendent of PIB. A misconduct complaint investigator may not be a supervisor who:
- used force during the alleged incident;
 - conducted himself/herself during the alleged incident in a manner that led to the injury of a complainant;
 - authorized the conduct that led to the alleged incident; or
 - witnessed or was directly involved in the alleged incident leading to the allegation of misconduct.
71. Officer misconduct investigations shall be as thorough as necessary to reach reliable and complete findings. The misconduct complaint investigator shall interview each complainant in person, and this interview shall be recorded in its entirety, absent specific, documented objection by the complainant. If extenuating circumstances require that the interview of the complainant not be conducted in person, the investigator shall document those extenuating circumstances in the investigative file.
72. All witnesses, including officers witnessing or involved in an incident that becomes the subject of a misconduct complaint, shall provide a written statement regarding the incident or be interviewed as described below.
- Where the alleged misconduct is particularly serious or interviews of the subject officer(s) or other witnesses may be necessary to sufficiently investigate the allegation, the investigator shall conduct an in-person interview. The interview shall be recorded in its entirety, absent, in the case of non-officer witnesses, specific documented objection.
 - Each officer, witness, and complainant shall be interviewed separately. A NOPDAI not involved in the underlying complaint will be used when taking statements or conducting interviews of any Vietnamese or Spanish speaking LEP complainant or witness.
73. The misconduct investigator shall seek to identify all persons at the scene giving rise to a misconduct allegation, especially all NOPD officers. The investigator shall note in the investigative report the identities of all officers and other witnesses who were on the scene but assert they did not witness and were not involved in the incident. The investigator shall conduct further investigation of any such assertions that appear unsupported by the evidence.

74. In each investigation, NOPD shall consider all relevant evidence, including circumstantial, direct, and physical evidence, as appropriate, and make credibility determinations based upon that evidence. There will be no automatic preference for an officer's statement over a citizen's statement, nor will NOPD disregard a witness' statement merely because the witness has some connection to the complainant or because of any criminal history. NOPD shall make efforts to resolve material inconsistencies between witness statements. If such inconsistencies cannot be resolved adequately, the investigator should expressly state that in his/her report.
75. The resolution of any misconduct complaint must be based upon the preponderance of the evidence.
76. A misconduct investigation shall not be closed simply because the complaint is withdrawn or because the alleged victim is unwilling or unable to provide additional information beyond the initial complaint. In such instances, the investigation shall continue as necessary within the allowable investigation timeframes established under this Agreement to resolve the original allegation(s) where possible based on the evidence and investigatory procedures and techniques available. In each investigation, the fact that a complainant pled guilty or was found guilty of an offense shall not be the deciding factor as to whether an NOPD officer committed the alleged misconduct, nor shall it justify discontinuing the investigation.

FORMAL DISCIPLINARY INVESTIGATION DUE DATE CALCULATION

77. An administrative investigation shall be completed within the time limitation mandated by LA RS 40:2531, which requires every investigation to be initiated within fourteen (14) days of the Cognizance Date. The date when a PIB investigation is initiated is known as the Classification Date. All due dates are calculated upon the Classification Date.
78. Every investigation must be completed within sixty (60) days of the Classification Date unless an extension of sixty (60) days is granted by Civil Service. The Civil Service extension extends the final due date to 120 days from the classification date. Within that time frame, the investigator's written investigation (accompanied by exhibits), the various levels of supervisory review which may necessitate corrections/additions/clarifications, the final approvals at every level, and the verbal and/or written "Notice to Accused Law Enforcement Officer Under Investigation of a Pre-Disciplinary Hearing or a Determination of an Unfounded or Not Sustained Complaint" (NOPD Form #308) must be completed.

EXTENSION OF FORMAL DISCIPLINARY INVESTIGATION DUE DATE

79. An extension of the formal disciplinary investigation due date may be requested by the investigator if a complainant, witness, principal, or evidentiary material will not be available or if extenuating circumstances preclude the investigator's ability to complete the investigation by the assigned due date. The investigator may apply to Civil Service for an extension of the sixty-day due date (NOPD Form 200). The extension request must be submitted to Civil Service within the first thirty days of the investigation (i.e., within 30 days of the date of classification). The form shall be hand delivered by the investigator to the Civil Service office where it will be date/time stamped. An extension hearing will be set by Civil Service to allow the Civil Service Hearing Officer to determine if the extension is necessary, and to allow the accused employee to address the requested delay.

80. The assigned investigator shall ensure a photocopy of the date-stamped extension request (Form 200) is delivered to PIB within forty-eight (48) hours of the date-stamp. A photocopy of the written decision by the Civil Service hearing examiner given to the investigator after the hearing must also be delivered to PIB within forty-eight (48) hours of the hearing or receipt by the investigator.
81. Photocopies of the date-stamped request and the hearing examiner's written response shall be made a part of the investigative report as exhibits. The amended PIB due date, (always one hundred (100) days from the Classification Date) is written on page two (2) of the Misconduct Investigation Initiation Form by PIB to reflect the due date if/when an extension is approved by Civil Service.

PIB LIAISON

82. When a Bureau receives notification from PIB that a disciplinary investigation is to be assigned to that bureau, the PIB liaison for that bureau shall respond to PIB and complete the receipt for assignment. The Bureau Chief shall assign the investigation to a supervisor in that bureau who is of at least equal rank to the accused employee. Only one investigator is to be assigned to any investigation, regardless of the number of accused employees or differing assignments. The PIB liaison is responsible for calculating and documenting on the Misconduct Investigation Initiation Form all bureau due dates. The bureau representative is also responsible for maintaining a tracking system for that bureau's investigations to ensure all due dates are met at every bureau level and that the completed and approved investigation is submitted to PIB on or before the PIB due date. The internal bureau due dates should take into account and allow for report review, corrections, and resubmissions.

INVESTIGATOR'S UNIT AND/OR DIVISION COMMANDER

83. The investigator's unit commander shares with PIB and the Bureau Commander the overall responsibility for ensuring the timely completion of a coherent and comprehensive disciplinary investigation. The investigator's commander shall review the completed investigative report and concur or not concur with the investigator's recommendation(s). If the investigator's unit commander does not concur with the investigator's recommendation, he/she shall write an NOPD Form 105 to the PIB Deputy Superintendent and the Superintendent of Police, through his/her chain of command documenting his/her differing recommendation(s) and the reason for each change of recommendation. This 105 shall be placed on top of the investigative report and shall accompany it to the Deputy Superintendent of PIB. The composing of this 105 shall not delay the processing of the investigation in the bureau.
84. The investigator's commander shall return to the investigator for further action any investigation that has a factual or investigative deficiency, error, or omission. The deficiencies will be identified in a written report to the investigator that is made part of the file and a copy forwarded within 24 hours of completion to the Deputy Superintendent of PIB.
85. The investigator's commander shall forward to, and ensure receipt of, the reviewed and approved investigative report to his/her respective bureau commander, to be received by the bureau commander no later than the due dates stipulated by the bureau representative on the Misconduct Investigation Initiation Form. Any revision by the investigator to the investigative report shall not delay the processing of the investigation by the unit commander.

INVESTIGATOR'S BUREAU CHIEF

86. The investigator's Bureau Chief shares with PIB and the unit/division commander the overall responsibility of ensuring the timely completion of a cogent, coherent disciplinary investigation. For disciplinary investigations assigned to a bureau, the investigator's bureau chief shall review the completed formal disciplinary investigative report and concur or not concur with the investigator's recommendation(s).
87. If the investigator's Bureau Chief does not concur with the investigator's recommendation, he/she shall write an NOPD Form 105 to the PIB Deputy Superintendent documenting his/her differing recommendation(s) and the reason for each change of recommendation. This 105 shall be placed on top of the investigative report and shall accompany it to the PIB Deputy Chief. The composing of this 105 shall not delay the processing of the investigation in the bureau.
88. The investigator's Bureau Chief shall return to the investigator for further action an investigation which has a factual or investigative deficiency, error, or omission. The deficiencies will be identified in a written report to the investigator's commander that is made part of the file and a copy forwarded within 24 hours of completion to the PIB Deputy Superintendent.

COMPLETION OF MISCONDUCT INVESTIGATION INITIATION FORM

89. The Misconduct Investigation Initiation Form shall be fully completed by the bureau's PIB liaison, the investigator, the investigator's unit commander, and the Bureau Chief before submitting the completed investigative report to PIB. Each signature shall include a date.

DISPOSITION OF MISCONDUCT INVESTIGATION

90. Each allegation shall result in one of the following dispositions based on a finding of fact and considering the totality of circumstances:

Unfounded—the investigation determines by a preponderance of the evidence that the alleged misconduct did not occur or did not involve the accused officer.

Sustained—the investigation determines by a preponderance of the evidence that the alleged misconduct did occur.

Not sustained—the investigation is unable to determine by a preponderance of the evidence whether the alleged misconduct occurred.

Exonerated—the investigation determines by a preponderance of the evidence that the alleged conduct did occur but did not violate NOPD policies, procedures, or training.

Resigned Under Investigation (RUI) citing the disposition of the completed investigation

- If the accused employee resigns before the investigation is concluded or before the completion of discipline, the investigation shall be completed and the disposition shall reflect both "RUI" and the investigator's disposition of each accusation. No hearing is conducted.

Retired Under Investigation (RUI) citing the disposition of the completed investigation (e.g., RUI/Sustained or RUI/Exonerated)

- If the accused employee retires before the investigation is concluded or before the completion of discipline, the investigation shall be completed and the disposition shall reflect both "RUI" and the investigator's disposition of each accusation. No hearing is conducted.

91. In addition to resulting in one of the preceding dispositions, administrative investigations shall also assess and document whether the police action was in compliance with training and legal standards; whether the incident indicates a need for additional training, counseling, or other-non-disciplinary corrective measures; and whether the incident suggests that NOPD should revise its policies, strategies, tactics, or training. PIB shall document sharing this information with the relevant commander(s), who shall refer any recommendations to the appropriate individual for implementation, document the implementation, and return that documentation to PIB.

COMPLETION OF INVESTIGATION

92. Every investigator or supervisor assigned to investigate a complaint action shall proceed with due diligence. Factors such as witness availability and the complexity of allegations may affect the progress of the case. Every effort should be made to complete each investigation and impose any disciplinary action within a reasonable period following receipt and in accordance with Departmental Procedure and the Rights of Law Enforcement Officers While Under Investigation (RS 40:2531(B)(7)).
93. Investigations shall be completed within 60 days (La. R.S. 40:2531(B)(7)) of classification. Classification must occur within fourteen days of the cognizance date. The assigned investigator may request an extension from the New Orleans Civil Service Commission for an additional 60 days if the investigation reasonably requires such an extension.
94. The investigation is considered complete upon written notice to the employee under investigation of a pre-disciplinary hearing or a determination of an unfounded or not sustained complaint (R.S. 40:2531(B) (7)). The member conducting the investigation should ensure his/her report is completed by the assigned due date so notification can be made in a timely manner.

PIB DEPUTY SUPERINTENDENT

95. The PIB Deputy Superintendent shall review every completed investigative report from every bureau.
96. For investigative reports completed by a bureau other than PIB, the PIB Deputy Superintendent shall compose a cover 105 to the Deputy Superintendent of the investigator's bureau addressing and returning any investigative report which has a factual or investigative deficiency, error, or omission which will require further investigation by the investigator. Once all deficiencies, errors, or omissions have been corrected, the investigation shall be returned to the PIB Deputy Superintendent for final review and approval.
97. Investigative reports will not be returned informally; they can only be returned with a cover 105 from the PIB Deputy Superintendent to the Deputy Superintendent of the investigator's bureau.

98. For investigative reports completed by PIB, the PIB Deputy Superintendent shall return to the investigator any investigative report which has a factual or investigative deficiency, error, or omission which will require further investigation by the investigator. Once all deficiencies, errors, or omissions have been corrected, the investigation shall be returned to the PIB Deputy Superintendent for final review and approval.
99. PIB shall determine the final disposition of all complaint actions. The PIB Deputy Superintendent shall either concur or not concur with the investigator's recommendations or those of any reviewing supervisor documented in a cover 105. If he/she does not concur with any of the recommended dispositions, he/she shall compose his/her own 105 addressed to "Memo to File" if he/she determines a differing recommended disposition.

SUPERINTENDENT OF POLICE

100. Once the Deputy of Superintendent of PIB has approved the disposition of an investigation conducted by PIB, the investigation disposition shall be transmitted to the Superintendent of Police for review and final approval. For those investigations conducted by a bureau other than PIB, the Deputy Superintendent of PIB's review concludes the investigation.

INSPECTION BY ACCUSED EMPLOYEE OF COMPLETED INVESTIGATION

101. An investigation of misconduct may include confidential and protected information not revealed to anyone other than authorized personnel, except pursuant to lawful process and in compliance with the **Chapter 82.1.1 - Records Release and Security**. The investigative file shall be securely maintained in PIB for the period required by the organization's record retention schedule.

COMMUNICATION WITH COMPLAINANT

102. PIB shall regularly inform the complainant of the status of the misconduct investigation. At a minimum, PIB shall inform the complainant in writing of the classification of the complaint and the unit assigned to investigate the complaint within ten business days of classification; the disposition of the investigation within ten business days of the investigation's completion; and whether any disciplinary action was taken within ten days of disciplinary decisions being reached.

RELEASE OF INFORMATION TO THE PUBLIC

103. The release of member information to the public shall be coordinated through the Public Information Office and the Office of the Superintendent of Police.
104. PIB records are maintained and secured by PIB and are accessible only as consistent with law. The PIB file room is secured with a coded and audible alarm system. PIB records are maintained indefinitely, in accordance with State law and Departmental policy.

ANNUAL STATISTICAL SUMMARIES OF INTERNAL INVESTIGATIONS

105. PIB shall compile annual statistical summaries based on records of internal investigations and publish the report on the NOPD's Web site. The purpose of the report is to inform the public of the NOPD's investigations and dispositions of misconduct complaints. The annual statistical summary shall be made available to the public or an employee of the Department upon written request to the NOPD Custodian of Records and subsequent approval by the PIB Deputy Superintendent. PIB and the IPM shall coordinate and confer with each other in collecting, analyzing, and reporting this data to avoid or minimize duplication of efforts or resources. The annual statistical summary shall include at least the following:

- a summary of each misconduct complaint including a description of the allegation, the final approved disposition, and any discipline imposed;
- aggregate misconduct complaint data showing the number of each type of complaint and the number and rate of sustained cases after final approval;
- analysis of this data that identifies trends and concerns, and that documents the response to the identified trends and concerns.

DISCIPLINARY ACTION AND INVESTIGATION FORMS

106. The forms utilized to document the receipt, classification, assignment, processing, completion, disposition and tracking of complaints are designed or approved by PIB in accordance with Departmental policy and procedure. The forms and the directions to complete the forms shall be available on the NOPD.org web site in the "Forms" folder. Any revision, addition, or deletion of a form shall be the responsibility of PIB. The Policy Standards Section shall provide support to PIB by completing updates and publication of both the forms and the directions for completion.

NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

CHAPTER: 52.2

TITLE: NEGOTIATED SETTLEMENT AGREEMENTS

EFFECTIVE: 11/15/15

REVISED: Replaces Policy/Procedure 1023

PURPOSE

The purpose of this policy is to define the use of a Negotiated Settlement Agreement (NSA) that allows for a more efficient resolution of an alleged misconduct violation without a formal hearing and applies consistency in the application of corrective action.

POLICY STATEMENT

1. Misconduct allegations do not require extensive investigation and adjudication when clear evidence demonstrates a violation and the accused member does not contest the allegations. In such cases, a negotiated settlement can provide a more efficient, timely resolution that uses minimal Department resources. It is beneficial to all parties involved to resolve complaints as quickly as possible, without sacrificing the goals of the corrective action or disciplinary process.
2. Negotiated Settlement Agreements are not a “right” or “entitlement.” At any point prior to the final approval by the Superintendent, the matter can be handled through the formal investigation process.

DEFINITIONS

For purposes of this Chapter, the following terms are defined as:

Definitions relevant to this Chapter include:

Criteria for NSA Eligibility Schedule—A guide to be used by management in determining if the violation is appropriate for consideration under the Negotiated Settlement Agreement process (see Appendix).

Minor Violation—An infraction, or set of infractions, that is (1) subject to discipline of reprimand to a maximum of a ten-day suspension as categorized within the Penalty Schedule listing under PR 1021; and (2) listed in the Criteria for NSA Eligibility Schedule included within the Appendix.

Penalty Schedule—A guide to be used by management in determining the appropriate discipline to impose by type of violation committed (See PR 1021).

Presentation Meeting—The first meeting, scheduled by the initiating Bureau and held as soon

as practical but no more than five (5) calendar days after receipt of the Public Integrity Bureau Disciplinary Resolution Form #302.

Public Integrity Bureau Disciplinary Resolution Form (Form #302)—Official Departmental form used to negotiate the settlement process for violations of the policies, rules or procedures of the Department, when job performance may have adversely affected the personal and property rights of others.

Rank Initiated Complaint—An alleged violation reported by an NOPD supervisor.

Reflection Period—A period of reflection during which the employee has up to five (5) calendar days to consider the findings and recommended sanction after being presented with the facts.

Settlement Agreement—An agreement between the employee and the Department to settle the complaint without the need for further investigation.

Settlement Meeting—The second and final meeting, occurring after the Presentation Meeting and a Reflection Period, where an employee, having been presented with the Public Integrity Bureau Disciplinary Resolution Form #302 makes a selection of the negotiated penalty or a disciplinary investigation.

Waiver—A written document wherein an employee voluntarily relinquishes a right or privilege otherwise provided for in established policy, rules or procedure.

ELIGIBILITY AND SCOPE

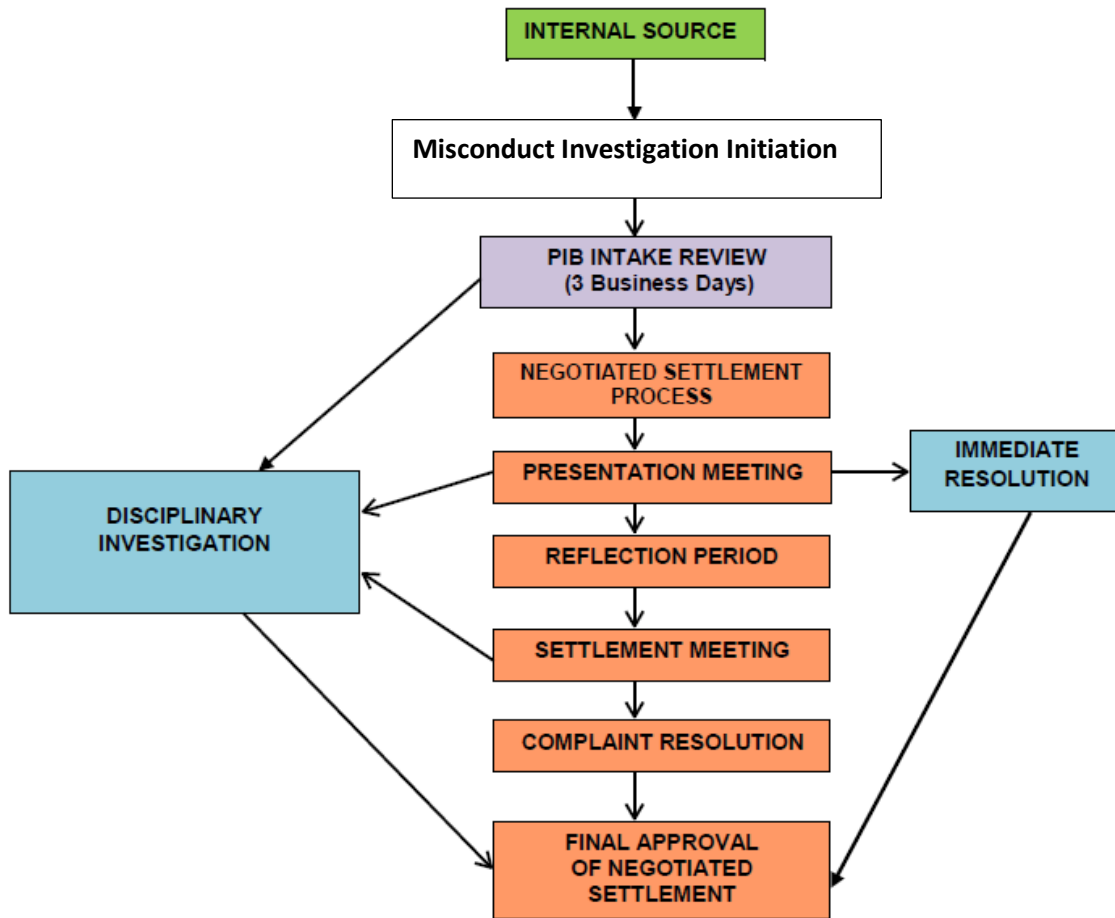

3. For an accused employee to be eligible for negotiated settlement, the alleged violation must be minor. For purposes of this Chapter, a minor violation is defined as an infraction or set of infractions that are subject to discipline of a letter of reprimand to a maximum of ten days' suspension as categorized within the penalty schedule listed in PR 1021 and listed in the eligibility schedule listed in the Appendix. Complaints initiated by citizens shall not be eligible for negotiated settlement. Complaints eligible for negotiated settlement include rank initiated complaints in which:
 - (a) A minor violation is alleged that is listed in the Appendix; or
 - (b) The alleged violation relates only to the use, misuse or failure to use a body-worn camera.

NECESSITY OF TRUTHFULNESS

4. The Negotiated Settlement Agreement process cannot be used or function without the complete and unwavering truthful admission of the employee. Employees are required to be honest and truthful at all times in their spoken, written or electronic communications. Employees shall truthfully answer all questions directed to them on the order of the Superintendent of Police, the Superintendent's designee, superior officer or any judicial, departmental, or other official investigative body.

PARTICIPATION IN NSA PROCESS

5. To participate in the Negotiated Settlement Agreement process, officers shall agree to a 60-day extension of time per LA.R.S. 40:2531(B)(7) by affixing their signature(s) along with the signature of their Division-level Commander on the Civil Service Extension Request Form # 304.

COMPLETION OF FORM

FORM COMPLETION	PIB REVIEW	PRESENTATION MEETING	SETTLEMENT MEETING (after reflection period)	EXTENSION – EXTRAORDINARY CIRCUMSTANCES	TIME FRAME FOR COMPLETION (Report to Resolution by Settlement)
Without undue delay at completion of investigation	3 Business Days	No more than 5 calendar days after completion of an approved form.	On or before the 5 th calendar day from the Presentation Meeting	Up to 10 additional calendar days with the approval of the Bureau Chief	Ten (10) calendar days. (Maximum 20 days with extraordinary circumstances)

6. Upon initiation of a formal investigation, the Public Integrity Bureau will determine if the alleged violation fits the criteria to be considered for the Negotiated Settlement Agreement process. If the alleged violation fits the criteria, the PIB Supervisor will be responsible for completing Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302, and attaching this form to the Misconduct Investigation Initiation form.

7. Upon approval of the Public Integrity Bureau Disciplinary Resolution Form #302 by the Commander of PIB, or his/her designee, it will be routed to the accused member's Bureau Liaison with the Misconduct Investigation Initiation form and the member's PIB Short Form (i.e., discipline summary).

PRESENTATION MEETING

8. The employee's Division-level Commander shall be responsible for conducting a meeting with the employee to present the allegations or findings of the investigation and a proposed resolution. This is known as the Presentation Meeting.
9. The Presentation Meeting shall be held as soon as practical but no more than 5 calendar days from receipt of the Misconduct Investigation Initiation form, the Public Integrity Bureau Disciplinary Resolution Form #302 and PIB Short Form by the Division-level Commander. The 5 calendar day timeline begins upon receipt of the Public Integrity Bureau Disciplinary Resolution Form #302 from the Bureau liaison. This 5 calendar day period gives time to provide ample notice to the accused employee in order to identify and secure the attendance of counsel or employee representative and to be fully prepared to discuss the matter. [The availability of an employee representative or counsel should not cause an unreasonable delay (5 days barring the request for extension) for the Presentation Meeting or any meeting]. The accused officer shall be provided a copy of the Police Officer's Bill of Rights under Civil Service Rules, including any right to a Departmental hearing.
10. When scheduling the Presentation Meeting, copies of the documentation used to determine the corrective or disciplinary action, along with the Misconduct Investigation Initiation form and Public Integrity Bureau Disciplinary Resolution Form #302, will be provided to the employee in order that he/she may prepare for the Presentation Meeting.
11. The Presentation Meeting is the first meeting after completion of Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302.
12. During the Presentation Meeting, the investigation involving an alleged violation of Departmental policy, procedure, or order will be reviewed and discussed. This meeting will be conducted by the employee's Division-level Commander.
13. The employee will have three options at the Presentation Meeting:
 - (a) **Immediate resolution**—The employee may elect to immediately accept the sustained allegation and the recommended sanction as categorized within the Penalty Schedule listing under PR 1021; or
 - (b) **Reflection period**—The employee may elect to have a period of reflection during which the employee has up to 5 calendar days to consider the findings and the recommended penalty. When an employee makes this selection, the employee's Division-level Commander shall require the employee's signature acknowledging receipt of Public Integrity Bureau Disciplinary Resolution Form # 302 and his or her obligations during the five-day reflection period; or
 - (c) **Request a case investigation**—The employee may elect to have the case investigated under normal procedure.
14. Prior to the conclusion of the Presentation Meeting, a follow-up Settlement Meeting will be scheduled for the 5th day from the date of the Presentation Meeting for an employee opting for a Reflection Period (or as close thereto as practical without exceeding 5 calendar days) for final resolution.

15. During the time prior to the scheduled Settlement Meeting, the employee shall consider the settlement proposal and be prepared to discuss the recommended penalty. The employee shall be prepared to make a decision at the Settlement Meeting. The employee should also secure the advice or attendance of any employee representative or counsel; however the availability of an employee representative or counsel should not be cause to unreasonably delay any meeting.
16. At any point prior to or at the Settlement Meeting, the matter may be resolved by settlement agreement.
17. If any employee does not make a selection at or before the Settlement Meeting, the employer will be deemed to have selected a disciplinary investigation and the matter(s) pending shall be referred to an investigator.

SETTLEMENT MEETING

18. The Settlement Meeting is the final meeting. The accused employee will not be allowed a third opportunity to consider the sustained allegations.
19. At the Settlement Meeting, the accused employee and his or her representative, if applicable, can negotiate the recommended penalty. Every effort should be made by the employee and the accused employee's Division-level Commander to negotiate a settlement. The intention of the penalty is not to punish the employee for behavior, but to correct the behavior so that it does not occur in the future. Cooperation from both parties is essential for the effectiveness of the discipline.
20. At the conclusion of the Settlement Meeting, the available results are:
 - (a) The employee accepts responsibility and the negotiated settlement. The employee and the Division-level Commander sign the Public Integrity Bureau Disciplinary Resolution Form #302 indicating resolution, or
 - (b) The employee does not accept responsibility and/or does not agree with the penalty determined through the penalty schedule. The applicable sections of the Public Integrity Bureau Disciplinary Resolution Form #302 will be completed.
21. If the accused employee is unable to reach a conclusion that he/she accepts responsibility for the sustained allegation(s) after the Presentation Meeting, Reflection Period and Settlement Meeting (or does not agree with the penalty determined through the Penalty Schedule), the applicable sections on the Public Integrity Bureau Disciplinary Resolution Form #302 will be completed to indicate referral to a disciplinary investigation consistent with Departmental policy.

EXTRAORDINARY CIRCUMSTANCES EXTENSION

22. If the accused employee's Division-level Commander determines during the presentation or settlement process that extraordinary circumstances exist and that additional time for review and consideration of new information, or is otherwise indicated to be in the best interest of the Department or accused employee, the employee's Division-level Commander may request an extension of up to 10 additional calendar days with the approval of the Bureau Chief or the Superintendent of Police. The Division Level Commander shall complete Part 2, Section B of the Public Integrity Bureau Disciplinary Resolution Form #302.

CONFIDENTIALITY

23. To assure the integrity of an ongoing investigation and prior to complaint resolution, the employee is required to maintain the confidentiality of the complaint or investigation. Failure to follow such instruction from an authoritative source shall be grounds for disciplinary action. Nothing herein shall preclude an employee from seeking appropriate representation or legal counsel.

RESOLUTION DISAGREEMENT

24. If the accused employee has agreed to accept responsibility for his or her behavior but disagrees only with the extent of discipline proposed, every effort should be undertaken to resolve the disagreement without a formal investigation. The Division-level Commander or accused employee may request at any point in the process the assistance of the Public Integrity Bureau administrative lieutenant and/or Bureau Chief to assist with the negotiations to resolve the matter. However, if an acceptable resolution cannot be agreed upon, the case shall be returned to PIB for investigation.

ADDITIONAL INFORMATION

25. At any time during the presentation or settlement process the employee may present exonerating or exculpatory evidence to the Division-level Commander for consideration.
26. Where the proposed sanction is not already agreed upon, or one or more of the parties involved feels PIB could offer assistance in reaching an agreement, PIB shall participate in the settlement negotiations.
27. A settlement agreement and/or complaint resolution can occur at any point between the receipt of the complaint and before the conclusion of a Disciplinary Hearing. However, once an investigation has been assigned, the Negotiated Settlement Agreement process will not interrupt an on-going investigation unless there is a complete admission of culpability by the accused officer.
28. Officers who elect to negotiate discipline through the Negotiated Settlement Agreement process will not be entitled a right to appeal the approved negotiated discipline through the Civil Service process once the Negotiated Settlement Agreement process has been finalized.
29. A formal investigation may be conducted if the Public Integrity Bureau or the employee's supervisor receives any new information regarding the original matter.
30. The Penalty Schedule provides a range of penalties for proven or admitted allegations. The Penalty Schedule shall be used whether the employee elects to have a departmental hearing or agrees to a sanction through participation in the Negotiated Settlement Agreement.
31. No recommendation or settlement prescribed on the Public Integrity Bureau Disciplinary Resolution Form #302 shall be complete until approved and finalized by the Superintendent of Police.

REQUEST FOR SETTLEMENT NEGOTIATIONS BY EMPLOYEES

32. Employees may request to participate in the Negotiated Settlement Agreement process after a complaint has been assigned to a PIB investigator. The employee shall be responsible for contacting the PIB Administrative Lieutenant to state his/her desire to participate in the process. The PIB Administrative Lieutenant shall determine if the complaint meets the criteria for participation in the Negotiated Settlement Agreement process. If so, the PIB Administrative Lieutenant shall contact the employee's Division-level Commander and assigned investigator to schedule a meeting for not more than 5 days from the date of the accused employee's notification.
33. The PIB Administrative Lieutenant will not be required to be present at the meeting unless requested by the employee of the Division-level Commander.
34. The PIB Administrative Lieutenant is integral in this process to ensure that the investigation is not interrupted and to ensure that presentation and settlement meetings are held within mandated time frames.

ALTERNATIVES TO SUSPENSION

35. The Department's suspension policy is outlined in the New Orleans Police Department's Policy and Procedure Manual, Policy/PR 1053 – Suspensions, Emergency Suspensions or Arrest of Employee.
36. In order to participate in the alternate suspension process, the employee shall waive any further appeal or contest of this suspension, or any of the terms and conditions of this agreement, to the Rules of the Civil Service Commission for the City of New Orleans or any other tribunal.
37. Upon mutual agreement by the Superintendent of Police and a disciplined employee, suspensions of up to five (5) days may be deducted from the employee's accrued annual leave in lieu of suspension. The issuing supervisor is responsible for either resolving the conflict or clarifying that the lawful order is intended to countermand the previous lawful order or directive, in which case the member is obliged to comply. Members who are compelled to follow a conflicting lawful order after having given the issuing supervisor the opportunity to correct the conflict are not held accountable for disobedience of the lawful order or directive that was initially issued.

The person countermanding the original order shall notify, in writing, the person issuing the original order, indicating the action taken and the reason.

Fire Plan for Police Headquarters

245.1 POLICY

In the event of fire within Police Headquarters, manual (pull box) fire alarm stations are located throughout the building and shall be utilized to notify the Fire Department and Police Headquarters personnel. Audible sounds and visual flashing lights will activate the entire fire alarm system (which have been placed at various locations throughout the building) thus notifying all personnel and visitors. Personnel who witness or strongly suspect a fire shall pull the nearest manual pull station. The building additionally has sensors throughout to detect smoke, fire, or fumes and will automatically activate the fire alarm system. The fire alarm system contains an auto call feature which will automatically place a call to the Fire Department. If personnel are to confirm the fire, then a call should be made to the Command Desk at 671-3650. Commissioned personnel shall also utilize their police department radio.

245.2 STAIRWAYS

Except for the ground floor, stairwells are located at the end of each hallway. The stairwell on the south wing of the building exits to the outside of the building onto Gravier Street. The stairwell on the north wing of the building exits to the inside of the building on the Perdido Street side, behind the elevator. There are overhanging exit signs marking each stairwell.

Stairwells are protected by a 1.5 hour B labeled fire door indicating each floor level. These doors shall never be wedged open. The stairwells are within a two hour fire rated enclosure.

245.3 FIRE FIGHTING EQUIPMENT

All floors are equipped with at least two fire hose cabinets. The hoses are located near stairwell entrances in hallways. Each cabinet has a 1.5 inch hose which is activated by turning the valve counter clockwise.

The hose, if pulled by the nozzle, will unfold from the support rack. The hose must be fully unfolded from the rack prior to opening the valve.

Portable fire extinguishers are available throughout the building in various locations. These extinguishers shall be used on small fires only.

Any extinguishing equipment used by non fire department personnel must be utilized for small localized fires only. Do not attempt to extinguish any large or fast spreading fires. If the fire spreads fast, the person fighting the fire could get trapped leaving no escape. There are concerns with fighting fires with the use of water. The building contains floor troughs which carry electrical wires. If the floor troughs fill with water, it could possibly energize the water and create a shock hazard. Fire extinguishers are non-conductive but are limited to size and type of fires they can effectively fight.

245.4 FIRST FLOOR POLICE SECURITY DESK

Upon activation of the fire alarm system, the officer(s) assigned to the front desk shall confirm if there is a fire, smoke, or fume related emergency present in the building. The officer(s) shall contact the police dispatcher who shall relay such information to the command desk. The fire department can also be contacted directly at 671-3939. All employees shall proceed to the ground floor, and exit the building. Employees exiting the building from the south (Gravier Street) stairwell shall assemble in the court parking lot facing Gravier Street. Employees exiting the building from the north (Perdido Street) stairwell will assemble in the parking lot at the corner of North Broad and Gravier Streets. Designation of assembly areas are subject to change as determined by local authorities on the scene.

Employees shall not use the elevators during a fire emergency.

When evacuating the building, make sure the stairwell is free from smoke and heat. If smoke or heat is present in the stairwell, proceed to another stairwell.

The following precautions shall be taken if persons are trapped above the fire floor:

- (a) Remain behind a closed door
- (b) Seal cracks and vents with cloth if possible
- (c) If possible, select a room with an outside window
- (d) Signal from the window to gain attention from the outside

311.3 COMMAND DESK RESPONSIBILITIES

The Command Desk will make notifications as specified in the Use of Force Policy and Procedure 300 (specifically PR300.6.1), the Force Investigation Team Policy and PR310).

Officer Response to Calls

316.1 PURPOSE AND SCOPE

This policy provides for the safe and appropriate response to all emergency and non-emergency situations.

316.2 RESPONSE TO CALLS

Officers responding to an emergency call shall proceed immediately. Officers responding to an emergency call shall use audible or visual signals sufficient to warn motorists of their approach, as required by state law (La. R.S. 32:24).

Responding with emergency lights and siren does not relieve the officer of the duty to drive with due regard for the safety of all persons and property and does not protect the officer from the consequences of reckless disregard for the safety of others (La. R.S. 32:24).

Officers shall only respond to a call as an emergency response when so dispatched or when responding to circumstances the officer reasonably believes involve the potential for immediate danger to persons or property. Officers not responding to a call as an emergency response shall observe all traffic laws and proceed without the use of emergency lights and siren.

316.3 REQUESTING EMERGENCY ASSISTANCE

Officers may request assistance/emergency assistance when they reasonably believe that there is an imminent threat to the safety of officers, or assistance is needed to prevent imminent serious harm to a citizen or officer.

If circumstances permit, the requesting officer should give the following information:

- The unit number
- The location
- The reason for the request and type of emergency
- The number of units required

Where a situation has stabilized and assistance/emergency assistance is not required, the requesting officer shall promptly notify the dispatcher.

316.3.1 NUMBER OF UNITS PARTICIPATING

Normally, only those units reasonably necessary should respond to a call with an emergency response. The Platoon Commander or the field supervisor shall monitor all emergency responses and reduce or enhance the response as warranted.

316.4 INITIATING EMERGENCY CALL RESPONSE

If an officer believes an emergency response to any call is appropriate, the officer shall immediately notify the dispatcher.

New Orleans Police Department

Policy Manual

Officer Response to Calls

316.5 RESPONSIBILITIES OF THE RESPONDING OFFICER

Officers shall exercise sound judgment and care with due regard for life and property when responding to a call with an emergency response (La. R.S. 32:24):

The decision to continue as an emergency response is at the discretion of the officer. If, in the officer's judgment, the roadway conditions or traffic congestion does not permit such a response without unreasonable risk, the officer may elect to respond to the call without the use of emergency lights and siren at the legal speed limit. In such an event, the officer should immediately notify the dispatcher. An officer shall also discontinue an emergency response when directed by a supervisor or as otherwise appropriate.

Upon determining that an emergency response is appropriate, an officer shall immediately give the location from which he/she is responding.

The first officer arriving at an emergency response scene should determine whether to increase or reduce the level of the response and notify the dispatcher of his/her determination. Any subsequent change in the appropriate response level shall be communicated to the dispatcher by the officer in charge of the scene, unless a supervisor assumes this responsibility.

316.6 COMMUNICATIONS SERVICES RESPONSIBILITIES

A dispatcher shall ensure acknowledgment and response of assisting units when an officer requests emergency assistance or when the available information reasonably indicates that the public is threatened with serious injury or death and an immediate law enforcement response is needed.

316.7 SUPERVISORY RESPONSIBILITIES

Upon being notified that an emergency response has been initiated, the field supervisor shall verify the following:

- (a) The proper response has been initiated.
- (b) No more than those units reasonably necessary under the circumstances are involved in the response.
- (c) Affected outside jurisdictions are being notified as practicable.

The field supervisor shall, whenever practicable, monitor the response until it has been stabilized or terminated, and assert control by directing units into or out of the response if necessary. If, in the supervisor's judgment, the circumstances require additional units to be assigned an emergency response, the supervisor may do so.

It is the supervisor's responsibility to terminate an emergency response that, in his/her judgment, is inappropriate due to the circumstances.

When making the decision to authorize an emergency response, the Platoon Commander or the field supervisor should consider the following:

- The type of call or crime involved
- The necessity of a timely response
- Traffic and roadway conditions
- The location of the responding units

New Orleans Police Department

Policy Manual

Officer Response to Calls

316.8 FAILURE OF EMERGENCY EQUIPMENT

If the emergency equipment on the vehicle should fail to operate, the officer must terminate the emergency response and continue accordingly.

The officer shall notify the dispatcher, field supervisor or the dispatcher of the equipment failure so that another unit may be assigned to the emergency response.

Alternative Police Response (APR)

317.1 PURPOSE AND SCOPE

The purpose of this policy is to address lower priority calls for service utilizing Alternative Police Response (APR) guidelines. This policy is intended to allow officers to remain in the areas to which they are assigned and to engage in proactive policing activities while allowing citizens to report issues that do not require a police response at the scene.

APR will enhance the level of emergency police services available in the community by handling low priority calls via telephone and not requiring the physical presence of an officer.

It is the policy of the New Orleans Police Department to provide the public with the best police services possible. The department recognizes that the need for officer and citizen safety is the primary focus of any law enforcement agency's efforts and that non-emergency service delivery is a secondary concern.

It is not the intention of the APR program to in anyway, lessen the law enforcement services provided by the New Orleans Police Department.

317.1.1 DEFINITIONS

Definitions related to this policy include:

Alternative Police Response (APR) - A strategic police response to a call for service received through the Public Safety Answering Point (P.S.A.P.) that is not in progress, has not just occurred and is not currently endangering life or property. Any call meeting such requirements will generally be assigned as a low priority call and responded to via telephone by personnel assigned to APR.

Alternate duty - A designation indicating that an employee is working in a status other than his/her regular duty status (e.g., Administrative Duties Division (ADD)/limited duty or administrative reassignment).

CAD - Computer aided dispatch

CFS - Calls for service

Just occurred - The ten minute period immediately following the incident that prompted the call.

317.2 GENERAL STANDARD

APR will call the complainant on any pending call held for more than 30 minutes, when possible. This provides the most up-to-date information about the call; along with letting the citizen know their call is being monitored while waiting for a police response should the APR officer not be able to handle the incident.

317.3 GUIDELINES

Calls which may be serviced with APR:

- (a) Any call prioritized as a Code 1 call that is not currently endangering life or property and:

New Orleans Police Department

- Nuisance complaints
- Civil matters (e.g., business/customer disputes, contract disputes)
- Theft of U.S. Mail
- Harassing phone calls
- Landlord/tenant issues
- Property damage (minor damage with no suspects)
- Auto thefts (when no on-scene investigation is needed)
- Thefts, including bicycles (excluding shoplifting and fuel drive-off)
- Lost or stolen property (e.g., credit cards, license plates, telephones)
- Auto burglaries (when no on-scene investigation is needed)

The following calls are examples of calls that shall not be serviced by APR:

- Life or property currently in danger
- Injured persons
- Items on scene that must be preserved or collected for evidentiary or investigatory purposes
- Calls involving known witnesses
- Calls where the wanted subject is known
- Calls involving NOPD personnel
- Calls involving Orleans Parish or other government property
- Complainant insists on police presence

When a complainant is contacted by an APR officer, and it is determined that the incident does not fit the APR response, the call shall be assigned as a CFS and appropriately directed via CAD.

Walk-ins to district stations shall not be referred to an APR officer, nor shall an officer on the street be called into the district station to handle the call. The Desk Officer shall be responsible for handling such incidents.

Platoon Supervisors may direct dispatchers to forward pending calls for service for APR response provided the call meets the criteria for such response.

During emergency or extraordinary circumstances and/or situations wherein districts are experiencing an extremely heavy back-log of calls pending, APR officers may be directed to assist other districts by monitoring pending calls for service for possible APR intervention. Such requests for assistance shall be made by Communication Services, the Field Operations Bureau Chief, or designee, or the District Commander.

Search and Seizure

322.1 PURPOSE AND SCOPE

Both the federal and state Constitutions provide every individual with the right to be free from unreasonable searches and seizures. This policy provides general guidelines for New Orleans Police Department personnel to consider when dealing with search and seizure issues.

322.2 POLICY

It is the policy of the New Orleans Police Department to respect the fundamental privacy rights of individuals. Members of this department will conduct searches in strict observance of the constitutional rights of persons being searched. All seizures by this department will comply with relevant federal and state law governing the seizure of persons and property.

In accordance with the Training Policy, the Department will provide relevant and current training to officers as guidance for the application of current law, local community standards and prosecutorial considerations regarding specific search and seizure situations, as appropriate.

Members of the department shall not use race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, or gender identity in exercising discretion to conduct a warrantless search or to seek a search warrant, except as part of an actual and apparently credible description of a specific suspect or suspects in any criminal investigation.

Members of the Department shall only conduct searches of individuals on probation or parole where legal authority for the search has been established.

322.3 SEARCHES

The U.S. Constitution generally provides that a valid warrant is required in order for a search to be valid. There are, however, several exceptions to the rule that permit a warrantless search.

Examples of law enforcement activities that are exceptions to the general warrant requirement include, but are not limited to, searches pursuant to the following:

- Valid consent
- Incident to a lawful arrest
- Legitimate community caretaking interests
- Vehicle searches under certain circumstances
- Exigent circumstances

Certain other activities are recognized by federal and state courts and by certain statutes as legitimate law enforcement activities that also do not require a warrant. Such activities may include seizure and examination of abandoned property and observations of activities and property located on open public areas.

Because case law regarding search and seizure is constantly changing and subject to interpretation by the courts, each member of this department is expected to act in each

situation according to current training and his/her familiarity with clearly established rights as determined by case law.

Officers shall immediately notify a supervisor when considering a search based on consent and to resolve questions regarding search and seizure issues prior to electing a course of action. Supervisors shall approve a search before it is conducted.

322.4 SEARCH PROTOCOL

Although conditions will vary and officer safety and other exigencies must be considered in every search situation, the following guidelines should be followed whenever circumstances permit:

- (a) Officers shall not use race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, or gender identity in exercising discretion to conduct a search, except as part of an actual and apparently credible description of a specific suspect or suspects in any criminal investigations.
- (b) Members of this department will strive to conduct searches with dignity and courtesy.
- (c) Officers should explain to the person being searched the reason for the search and how the search will be conducted.
- (d) Searches should be carried out with due regard and respect for private property interests and in a manner that minimizes damage. Property should be left in a condition as close as reasonably possible to its pre-search condition.
- (e) In order to minimize the need for forcible entry, an attempt should be made to obtain keys, combinations or access codes when a search of locked property is anticipated.
- (f) When the person to be searched is of the opposite sex as the searching officer, a reasonable effort should be made to summon an officer of the same sex as the subject to conduct the search. When it is not practicable to summon an officer of the same sex as the subject, the following guidelines should be followed:
 1. Another officer or a supervisor should witness the search.
 2. The officer should not search areas of the body covered by tight-fitting clothing, sheer clothing or clothing that could not reasonably conceal a weapon.

322.5 DOCUMENTATION

Officers are responsible to document any search and to ensure that any required reports are sufficient including, at minimum, documentation of the following:

- Reason for the search (reasonable suspicion/probable cause)
- Any efforts used to minimize the intrusiveness of any search (e.g., asking for consent or keys)
- What, if any, injuries or damage occurred
- All steps taken to secure property
- The results of the search including a description of any property or contraband seized
- If the person searched is of the opposite sex, any efforts to summon an officer of the same sex as the person being searched and the identification of any witness officer

Workplace Discriminatory Harassment/Retaliation

328.1 PURPOSE AND SCOPE

The purpose of this policy is to prevent Department members from being subjected to discrimination or sexual harassment. Nothing in this policy is intended to create a legal or employment right or duty that is not created by law.

328.2 POLICY

The New Orleans Police Department is an equal opportunity employer and is committed to creating and maintaining a work environment that is free of all forms of discriminatory harassment, including sexual harassment and retaliation. The Department will not tolerate discrimination against employees in hiring, promotion, discharge, compensation, fringe benefits and other privileges of employment. The Department will take preventive and corrective action to address any behavior that violates this policy or the rights and privileges it is designed to protect.

The non-discrimination policies of the Department may be more comprehensive than state or federal law. Conduct that violates this policy may or may not violate state or federal law but still could subject a member to administrative discipline.

328.3 DISCRIMINATION PROHIBITED

328.3.1 DISCRIMINATION

The Department prohibits all forms of discrimination, whether on or off duty, including any employment-related action by an employee that adversely affects an applicant or employee and is based on race, color, ethnicity, gender, gender identity, religion, sex, age, national origin or ancestry, genetic information, disability, military service, sexual orientation and other classifications protected by law.

Discriminatory harassment, including sexual harassment, is verbal or physical conduct that demeans or shows hostility or aversion toward an individual based upon that individual's protected class. It has the effect of interfering with an individual's work performance or creating a hostile or abusive work environment.

Conduct that may, under certain circumstances, constitute discriminatory harassment, can include making derogatory comments, authoring crude and offensive statements or remarks, making slurs or off-color jokes, stereotyping, engaging in threatening acts, making indecent gestures, pictures, cartoons, posters or material, making inappropriate physical contact, or using written material or department equipment and/or systems to transmit or receive offensive material, statements or pictures. Such conduct is contrary to department policy and to the department's commitment to a discrimination-free work environment.

328.3.2 RETALIATION PROHIBITED

Retaliation is treating a person differently or engaging in acts of reprisal or intimidation against the person because he/she has engaged in protected activity, filed a charge of discrimination or complaint, participated in an investigation or opposed a discriminatory practice. Retaliation will not be tolerated.

New Orleans Police Department

Policy Manual

Workplace Discriminatory Harassment/Retaliation

This Department expressly prohibits all forms of retaliation, intimidation, coercion, or adverse action, against any person who reports misconduct, makes a misconduct complaint, or cooperates with an investigation of misconduct.

328.3.3 ADDITIONAL CONSIDERATIONS

Discrimination and discriminatory harassment does not include actions that are in accordance with established rules, principles or standards, including:

- (a) Acts or omission of acts based solely upon bona fide occupational qualifications under the Equal Employment Opportunity Commission (EEOC) and the Louisiana Commission on Human Rights.
- (b) Bona fide requests or demands by a supervisor that an employee improve his/her work quality or output, that the employee report to the job site on time, that the employee comply with City or Department rules or regulations, or any other appropriate work-related communication between supervisor and employee.

328.4 RESPONSIBILITIES

This policy applies to all department personnel. All members shall follow the intent of these guidelines in a manner that reflects department policy, professional law enforcement standards and the best interest of the Department and its mission.

Any member who believes, in good faith, that he/she has been discriminated against, harassed, subjected to retaliation, or who has observed harassment or discrimination, is encouraged to promptly report such conduct in accordance with the procedures set forth in this policy.

Supervisors receiving information regarding violations of this policy shall determine, through an investigation, if there is any basis for the allegation and shall proceed as per Procedure 328, Discriminatory Harassment.

Retaliation for reporting misconduct or for cooperating with an investigation of misconduct is an egregious offense

328.4.1 EQUAL OPPORTUNITY EMPLOYMENT COMPLAINTS

No provision of this policy shall be construed to prevent any employee from seeking legal redress outside the Department after the employee has first filed an internal complaint within the Department and allowed the Department to investigate the complaint and take corrective action as needed. Employees who believe that they have been harassed or discriminated against are entitled to bring complaints of employment discrimination to federal, state and/or local agencies responsible for investigating such allegations. Specific time limitations apply to the filing of such charges. Employees are advised that proceeding with complaints under the provisions of this policy does not in any way affect those filing requirements.

328.4.2 QUESTIONS REGARDING DISCRIMINATION OR SEXUAL HARASSMENT

Members with questions regarding discrimination or sexual harassment are encouraged to contact a supervisor, Employee Relations, the Personnel Director or the Chief Administrative Officer or they may contact the Louisiana Commission on Human Rights.

330.5 PROTECTIVE CUSTODY

Generally, officers of this department should remove a child from his/her parent or guardian without a court order only when no other effective alternative is reasonably available and immediate action reasonably appears necessary to protect the child. Prior to taking a child into protective custody, and when temporary protective custody is not mandated by law, the officer should take reasonable steps to deliver the child to another qualified parent or legal guardian unless it reasonably appears that the release would endanger the minor or result in abduction. In such circumstances, the officer should advise the qualified parent or legal guardian that he/she may petition the court for either a temporary restraining order or a protective order (Ch. C. 617; Ch. C. 618). If this is not a reasonable option, the officer shall ensure that the minor is delivered to the DCFS.

Whenever practicable, the officer should inform a supervisor of the circumstances prior to taking a child into protective custody. If prior notification is not practicable, officers should contact a supervisor promptly after taking a child into protective custody.

Before taking any child into protective custody, the officer shall contact the Child Abuse Unit. The Child Abuse detective will determine if a protective custody is warranted. The officer will transport the child to the New Orleans Police Department Juvenile Unit. The Juvenile detective will contact DCFS. Generally, removal of a child from his/her family, guardian or other responsible adult should be left to child welfare authorities such as the DCFS

In Louisiana, an officer may:

- (a) Take a child into temporary protective custody without a court order if there are reasonable grounds to believe that the child's surroundings endanger his/her welfare and immediate removal appears necessary (Ch. C. 621).
 1. Prior to taking a child into temporary protective custody, the officer should take reasonable steps to deliver the child to another qualified parent or legal guardian unless it reasonably appears that the release would endanger the minor or result in abduction. If this is not a reasonable option, the officer shall promptly notify and release the child to the DCFS.
 2. Whenever practicable, the officer should inform a supervisor of the circumstances prior to taking a child into temporary protective custody. If prior notification is not practicable, officers should contact a supervisor promptly after taking a child into temporary protective custody.

New Orleans Police Department

Policy Manual

Child Abuse Reporting

- (b) File a verified complaint with the court alleging that there are reasonable grounds to believe that the child is in need of care and that emergency removal is necessary to secure the child's protection (Ch. C. 619(A)).
 - 1. If the officer believes the danger is imminent, he/she shall relay the facts supporting the issuance of the order orally or by telephone to the judge and submit an affidavit of the information to the court within 24 hours (Ch. C. 620).

330.6 INTERVIEWS

330.6.1 PRELIMINARY INTERVIEWS

Officers should avoid multiple interviews with a child victim and should attempt to gather only the information necessary to begin an investigation. When practicable, investigating officers should defer interviews until a person who is specially trained in such interviews is available. Generally, child victims should not be interviewed in the home or location where the alleged abuse occurred.

330.6.2 DETAINING SUSPECTED CHILD ABUSE VICTIMS FOR INTERVIEWS

An officer should not detain a child involuntarily who is suspected of being a victim of child abuse solely for the purpose of an interview or physical exam without the consent of a parent or guardian unless one of the following applies:

- (a) Exigent circumstances exist, such as:
 - 1. A reasonable belief that medical issues of the child need to be addressed immediately.
 - 2. A reasonable belief that the child is or will be in danger of harm if the interview or physical exam is not immediately completed.
 - 3. The alleged offender is the custodial parent or guardian and there is reason to believe the child may be in continued danger.
- (b) A court order or warrant has been issued.

330.6.3 RECORDING CHILD ABUSE VICTIMS

Any interview of the alleged child abuse or neglect victim shall be video and/or audio recorded as permitted by state law. If requested by a parent, any interview of the child or a parent must be recorded (Ch. C. 612). Interviews concerning reports of sexual child abuse are strongly encouraged to be video-recorded. If video equipment is not functional, the interview shall be audio recorded.

330.7 MEDICAL EXAMINATIONS

If the child has been the victim of abuse that requires a medical examination, the investigating officer should obtain consent for such examination from the appropriate parent, guardian or agency having legal custody of the child. The officer should also arrange for the child's transportation to the appropriate medical facility.

In cases where the alleged offender is the custodial parent or guardian and is refusing consent for the medical examination, officers should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for officers to take the child for a medical examination, the notified supervisor should consider obtaining a court order for such an examination.

330.11 RELEASE OF REPORTS

Reports of child abuse or neglect shall be confidential and may only be disclosed pursuant to state law and the Security and Release of Records Policy (La. R.S. 46:56; Ch. C. 616(B)).

New Orleans Police Department

Policy Manual

Public Alerts

334.4.1 CRITERIA

The activation criteria for a Louisiana AMBER Alert require that:

- (a) Law enforcement confirms a child, aged 17 or under, has been abducted.
- (b) Law enforcement believes the circumstances surrounding the abduction indicate that the child is in danger of serious bodily harm or death.
- (c) There must be enough descriptive information about the child, abductor, and/or suspect's vehicle to believe an immediate broadcast alert will help the case when the missing child is under the age of 17 and thought to be in imminent danger and/or criminal activity must be suspected in the disappearance.

334.4.2 PROCEDURE

The following is the procedure for initiating a Louisiana AMBER Alert.

The investigator's immediate supervisor must complete the Louisiana Amber Alert System Initial Reporting Form (available at <http://www.lsp.org/pdf/AmberAlert.pdf>), providing as much information as possible, sign the document and electronically mail or fax the form with a photograph, if available, of the missing person to:

Louisiana State Police (LSP), Troop F located in Monroe.

TELEPHONE #: 318-345-0000

FAX #: 318-362-5198

EMAIL: amberalert@dps.state.la.us

If a photograph is not sent with the Initial Reporting Form one should be sent as soon as possible when available.

334.4.3 LSP ACTIONS

- (a) The LSP determines whether an AMBER Alert is authorized after considering the information contained on the form to ensure it meets the criteria for an AMBER Alert. The elements considered are:
 1. Is there reasonable belief by law enforcement that an abduction has occurred?
 2. Is the child 17 years of age or younger?
 3. Does the Department believe that the child is in imminent danger of serious bodily injury or death?
 4. Is there enough descriptive information about the victim and/or the abductor(s) to make the issuance of an AMBER Alert viable enough to assist in the recovery of the child?
 5. Has the Department entered the child's name and other vital data in National Crime Information Center (NCIC) using the Child Abduction code CA (using this code upon entry will automatically notify the National Center for Missing and Exploited Children (NCMEC))?
- (b) If the circumstances meet the criteria for an AMBER Alert to activate the statewide EAS, the alert process will be initiated.
 1. Following an initial alert, an Amber Alert will be broadcast every 20 minutes, during the first three hours and every 30 minutes thereafter for the next two hours or until such time that an end of alert message is received from this

New Orleans Police Department

Policy Manual

Public Alerts

department. The End of Alert message will be further disseminated by the LSP.

2. Local and statewide broadcast stations will exercise their own independent discretion to repeat the broadcasts more frequently and determine the frequency in which the alert is re-broadcast following expiration of the above mentioned five hour period following the initial alert.
- (c) If the circumstances do not meet the criteria for an AMBER Alert to activate the statewide EAS, the LSP may offer an alternate form of mass notification, including.
1. A photograph and Louisiana AMBER Alert System Initial Reporting Form may be e-mailed through a statewide network of law enforcement agencies, news media offices and other forms of public communication.
 2. The e-mail will contain information taken from the Louisiana Amber Alert System Initial Reporting Form submitted by the New Orleans Police Department (i.e. name of missing child, physical and clothing descriptions, location last seen, time of disappearance, whether the New Orleans Police Department is requesting general e-mail notification, contact name and telephone number.)

EAS activation will include a statement that this department is requesting distribution of the information although it does not meet the criteria for and AMBER Alert EAS activation
- (d) Should information and evidence arise in an incident that does not initially meet the criteria for Amber Alert activation, the LSP should be immediately provided that information and asked to reconsider an Amber Alert activation of the EAS.

346.10 COORDINATED INFORMATION RELEASE WITH OTHER AGENCIES

Frequently, information to be released to the public is shared by two or more public service agencies involved in a mutual effort. This could include the New Orleans Fire Department, the Federal Bureau of Investigations (FBI) or other law enforcement agencies that work closely with the NOPD. In these instances, coordination with other concerned agencies will be accomplished prior to releasing information to determine the agency with primary jurisdiction. The agency with primary jurisdiction will be responsible for the release of information.

346.11 CRIMESTOPPERS

The New Orleans Police Department's policy is to support the crime fighting capabilities of the Crimestoppers Program by providing a Crimestoppers Unit that coordinates a department wide information system. The Crimestoppers Unit safeguards the confidentiality of Crimestoppers informants, as well as other individual rights as protected by the Intelligence System process.

A successful Crimestoppers Program is achieved when the department and its members share a commitment to the community they serve. The primary goal of the Crimestoppers Program is to enhance the quality of life for all citizens by tips from informants that end in the arrest and prosecution of those persons committing crimes on the streets of New Orleans.

Crimestoppers shall be responsible for receiving information reported anonymously on criminal activity and criminal suspects and forwarding this information to the appropriate investigating unit, as well as the following:

- (a) Coordinate with investigators to determine the status of their investigation and if additional information is needed from the tipsters.
- (b) Maintain files for the tips and keep these files updated and accurate.
- (c) Maintain statistics for the program (number of calls, cases solved, stolen property recovered, narcotics seized, assets forfeited, prosecution and convictions).
- (d) Select particular cases to be publicized by Crimestoppers
- (e) Work with the local media to ensure that the selected case is publicized and the information is accurate.

New Orleans Police Department

Policy Manual

Office of Media Relations/Public Affairs

- (f) Select fugitives for Most Wanted programs and ensure this information is accurate.
- (g) Appear with members of the Crimestoppers Board of Directors at public speaking functions.
- (h) Promote the Crimestoppers Program within law enforcement agencies.
- (i) Present a comprehensive Coordinator's Report at board meetings which
- (j) will include information on solved cases so the board members can determine how much of a reward a tipster should receive.
- (k) Coordinate with informants to ensure they will be paid.

Most of the publicity of Crimestoppers is generated by the coordinator because of his/her daily contact with various media representatives. However, it is not the sole responsibility of the coordinator to promote Crimestoppers, since the results of the program are usually measured in terms of arrests and the seizure of stolen property and drugs. It is likely the media will focus on the means of information generated and the subsequent end result, which gives the public a safe way of getting involved with the New Orleans Police Department's crime fighting efforts. Informants to the CrimeStoppers Program often request anonymity. Their request to remain anonymous should be respected, unless the informant waives the request.

Advantages of Association with Crimestoppers:

- Crime is of great interest to the viewers.
- Publicizing selected cases helps build community awareness.
- Projects a strong image of community involvement, not only by the Office of Media Relations/Public Affairs but also for each respective media entity in the fight against crime.
- Provides the opportunity to follow-up on unsolved crimes.
- Allows the opportunity to disseminate crime prevention messages while involving the public to assist battling crime.
- Can help maintain or improve the ratings of a station/media entity.
- Provides stations with positive community service material during license renewal hearings.
- Provides increased involvement and improved relations with the Department and its officers on the force.

346.12 CONCEPT OF PUBLIC RELATIONS

The New Orleans Police Department is committed to working with the entire community to achieve our ultimate goal; to provide safety not only for residents of the city, but the millions of tourists who visit New Orleans annually. Because tourism is a critical component of the city's economy, the department has taken great measures to an effective public relations plan.

The Office of Media Relations/Public Affairs Director is the overall coordinator of the department's public relations efforts. This entails participating in speaking engagements involving and held before civic groups, social organizations, religious/church groups and schools. Over the years, tourism has grown, and convention planners rely on the Department to provide safety tips to their participants. As a result, we are obligated to speak before thousands of conventioners who are interested in our public relations approach. It is essential that the department's efforts are also directed to promoting, producing, participating and coordinating numerous public service announcements (PSA)

If the relatives live outside this parish, the Coroner's Office may be requested to make the notification. The Coroner's Office needs to know if notification has been made. Assigned officers/deputies may need to talk to the next-of-kin.

If a deceased person has been identified as a missing person, this department shall attempt to locate family members and inform them of the death and location of the deceased missing person's remains. All efforts to locate and notify family members shall be recorded in appropriate reports and properly retained.

360.2.4 UNIDENTIFIED BODIES DATA ENTRY

As soon as reasonably possible, but no later than 30 working days after the date a death is reported to the Department, all available identifying features of the unidentified body including dental records, fingerprints, any unusual physical characteristics and a description of clothing or personal belongings found on or with the body should be forwarded to the appropriate agency for entry into the Louisiana state database and the National Crime Information Center (NCIC) file.

360.2.5 DEATH INVESTIGATION REPORTING

PROPERTY LOSS REPORT – SIGNAL ‘21P’

361.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for documentation, supervisory review and investigative follow-up requirements governing complaints specific to property loss reporting, signal ‘21P’.

361.2 REPORTING

Department members shall generate a property loss report using signal ‘21P’ under circumstances where the reporting person wishes to report the loss of personal property regardless of whether they have knowledge how the loss occurred. The report shall include a thorough description of the lost item(s) and an explanation of where and when the loss was first discovered.

The investigating officer must clearly articulate the reason for classifying the incident as a ‘Property Loss’ incident (**21P**). If the facts as presented by the reporting person or if the circumstances surrounding the reported loss lead an officer to believe that a crime may have been committed (i.e., Theft, Pickpocket, Fraud, etc.), the officer shall report the incident using the appropriate NOPD signal corresponding to the most serious crime and complete an incident report.

361.3 SUPERVISOR REVIEW

Supervisors reviewing and approving property loss (**21P**) reports shall be responsible for closely scrutinizing the facts and circumstances as reported. Should a determination be made that the reported incident has been misclassified; the supervisor shall initiate corrective action to address report discrepancies. When it becomes necessary to change the signal or disposition of an item number which has already been marked up (closed) by the reporting officer, the supervisor shall ensure a change of item signal or disposition is filed in accordance with established procedure (*Policy 345 – Complaint Signals – Changing of Item Signals or Dispositions*).

361.4 DISTRICT INVESTIGATIVE UNIT (“DIU”) - PROPERTY CRIMES

DIU Property Crimes detectives shall be responsible for conducting follow-up investigations on all property loss (**21P**) reports. Follow-up shall include contacting the reporting person in an attempt to gather additional information that may have been learned since the date of the reported loss and/or information on identifiable property that was not available when the report was initially filled. A supplemental report shall be written documenting follow-up efforts in all cases, even where contact with reporting person yields no additional information. If the detective is unable to contact the reporting person, a supplemental report shall be written documenting the date, time and manner used in trying to reach the reporting person.

NEW ORLEANS POLICE DEPARTMENT
Policy Manual

Property Loss Report – Signal ‘21P’

Should additional information develop indicating the property loss may now be subject of a reportable crime; DIU Property Crimes detectives shall be responsible for completing a supplemental report documenting the facts and circumstances. As applicable, detectives shall also be responsible for ensuring a change of item signal or disposition is filed in accordance with established procedure (*Policy 345 – Complaint Signals – Changing of Item Signals or Dispositions*).

The DIU Property Crimes supervisor shall be responsible reviewing all property loss (**21P**) reports for the purpose of assessing data in relation to identifiable crime patterns or serial offenses which may be occurring in a particular geographic location or during a specific event. Should a possible crime pattern be identified or suspected, the DIU Property Crimes supervisor shall coordinate an appropriate enforcement response.

Pawnshop Unit

365.1 PURPOSE AND SCOPE

The purpose of this policy is to set guidelines for department members and members of the Pawnshop Unit.

365.2 GENERAL

The Pawnshop Unit is under the Command of the Investigations and Support Bureau.

The New Orleans Police Department will supply consecutively numbered blank report forms, formatted pursuant to Orleans MCS 130-3 and La. R.S. 37:1875, to all pawnshops, secondhand dealers, and antique dealers.

All pawnshops, secondhand dealers, and antique dealers are required to submit daily reports, either by mail or electronically, to the Commander of the Pawnshop Unit (La. R.S. 37:1798).

365.3 COMMANDER OF PAWNSHOP UNIT RESPONSIBILITIES

The Commander of the Pawnshop Unit, or his/her designee, shall promptly record and maintain all pawnshop voucher/pawnshop tickets in the NOPD MOTION system.

The Commander of the Pawnshop Unit, or his/her designee, will assign a member of his/her section to visit each pawnshop, secondhand dealer, and antique shop at least twice weekly. The member will examine the records to make sure an accurate description of the item pawned or sold was properly recorded.

- If there is an inaccuracy in a property description, the receipt will be returned to the pawnshop for a correction.
- If there is reasonable suspicion to believe an item was stolen, the item will be placed on **HOLD** for 60 days. A **HOLD** is a verbal order not to sell, encumber, or destroy the item; however, if within that time frame the investigation reveals the item is not stolen, the item shall immediately be released from **HOLD**. If it is determined the item is stolen, the item shall be confiscated from the pawnshop immediately and placed on the books at Central Evidence and Property. The officer ordering the **HOLD** shall provide his name, place of assignment and the case item number to the pawnshop.
- If an item is confiscated, a copy of the standardized confiscation letter (Appendix A) will be signed by the Pawnshop Commander, or his/her designee, and left with the owner of the establishment where the item was seized. A copy of the letter of confiscation shall be kept by the Pawnshop Commander for at least three (3) years. The confiscated item shall be placed in Central Evidence and Property as per current department policies/procedures.

The Commander of the Pawnshop Unit, or his/her designee, shall identify frequent sellers to pawnshops, and the frequent sellers which cross NOPD district boundaries.

The Commander of the Pawnshop Unit shall maintain the records of all pawnshop sales, tickets, confiscations, and releases for three (3) years.

- Assist department members and outside agencies who are conducting firearm investigations by using the pawnshop database during normal hours of operation of the Pawnshop Unit.

If a weapon is stolen out of parish and pawned at a New Orleans pawnshop, the Pawnshop Unit shall handle the investigation.

Hearing Impaired/Disabled Communications

370.1 PURPOSE AND SCOPE

Individuals who suffer from deafness, hearing impairment, blindness, impaired vision, mental or other disabilities may encounter difficulties in gaining meaningful access to, or an understanding of important rights, obligations and services. In accordance with the Americans with Disabilities Act (ADA), it is the policy of this department to take all reasonable steps to accommodate such individuals in any law enforcement contact.

370.1.1 DEFINITIONS

Definitions related to this policy include (La. R.S. 46:2362):

Hearing-impaired person - A person who, because of a hearing impairment, has difficulty understanding the communication occurring.

Intermediary interpreter/transliterater - A person, including any hearing-impaired person, who is able to assist in providing an accurate interpretation between spoken English and sign language or between variants of sign language by acting as an intermediary between a hearing-impaired person and a qualified interpreter/transliterater.

Qualified interpreter/transliterater - A person certified by the Registry of Interpreters for the Deaf, or in the event a certified interpreter/transliterater is not available, a person able to accurately communicate with and convey information to and from a hearing-impaired person.

370.2 FACTORS TO CONSIDER

Because the nature of any law enforcement contact may vary substantially from one situation to the next, employees of this department should consider all information reasonably available to them when determining how to communicate with an individual suffering from any disability. These factors may include, but are not limited to:

- (a) The extent to which a disability is obvious or otherwise made known to the involved employee. Impaired or disabled individuals may be reluctant to acknowledge their condition and may even feign a complete understanding of a communication, despite actual confusion.
- (b) The nature of the disability (e.g., total deafness or blindness vs. impairment).
- (c) The nature of the law enforcement contact (e.g., emergency vs. non-emergency, custodial vs. consensual).
- (d) The availability of resources to aid in communications.

When considering these and other available information, the involved employee should carefully balance all factors in an effort to reasonably ensure meaningful access to critical services, while not imposing undue burdens on the Department or its officers.

370.2.1 INITIAL AND IMMEDIATE CONSIDERATIONS

Recognizing that various law enforcement encounters may be potentially volatile and/or emotionally charged, employees should be alert to the possibility of communication

New Orleans Police Department

Policy Manual

Hearing Impaired/Disabled Communications

problems. They should exercise special care in the use of all gestures and verbal and written communication to minimize initial confusion or misunderstanding when dealing with any individual with known or suspected disabilities or communication impairments.

370.3 TYPES OF ASSISTANCE AVAILABLE

Depending on the balance of the factors available for consideration at the time, this department will make every reasonable effort to provide meaningful and timely assistance to disabled individuals through a variety of services, where available. Disabled individuals may elect to accept such assistance at no cost, choose to provide their own communication services at their own expense or any combination thereof. In any situation, the individual's choice of a communication method shall be given primary consideration and shall be honored unless the employee can adequately demonstrate that a more effective method of communication exists under the circumstances.

Officers should document the type of communication utilized in any related report and whether a disabled or impaired individual elected to use services provided by the Department or some other identified source. Department-provided services may include, but are not limited to, the following.

370.3.1 FIELD RESOURCES

Individual officers and employees are encouraged to utilize resources immediately available to them in any contact with a known or suspected disabled or impaired person. Examples of this would include such simple methods as:

- (a) Hand gestures or written communications exchanged between the employee and a deaf or hearing-impaired individual.
- (b) Facing an individual who uses lip reading and speaking slowly and clearly.
- (c) Slowly and clearly speaking or reading simple terms to any visually or mentally impaired individual.

370.3.2 AUDIO RECORDINGS AND ENLARGED PRINT

From time to time, the Department may develop audio recordings of important information needed by blind or visually impaired individuals. In the absence of such audio recordings, employees may elect to read aloud a department form or document, such as a citizen complaint form to a visually impaired individual or utilize a photocopier to enlarge printed forms for a visually impaired individual.

370.3.3 TELEPHONE INTERPRETER SERVICES

The Communications Commander will maintain a list of qualified interpreter services to be contacted at department expense and upon the approval of a supervisor, to assist deaf or hearing-impaired individuals. When utilized, notification to such interpreters shall be made at the earliest reasonable opportunity. The interpreter should be available to respond within a reasonable time, generally not to exceed three hours. The Deaf Action Center has a list of individuals who are trained and will respond to call outs if needed.

370.3.4 TTY AND RELAY SERVICES

Individuals who are deaf or hearing-impaired must be given the opportunity to use available text telephones (TTY or TDD). All calls placed by such individuals through such services shall be accepted by this department.

New Orleans Police Department

Policy Manual

Hearing Impaired/Disabled Communications

370.3.5 COMMUNITY VOLUNTEERS

Depending on the circumstances, location and availability, responsible members of the community may be available to provide qualified interpreter services, such as those who are proficient in American Sign Language (ASL). Sources for these individuals may include local businesses, banks, churches, neighborhood leaders and school officials. In addition to sources that may be developed by individual officers, the Department will attempt to maintain and update a list of qualified community volunteers who may be available to respond within a reasonable time.

370.3.6 FAMILY AND FRIENDS OF DISABLED OR IMPAIRED INDIVIDUAL

While family and friends of a disabled or impaired individual may frequently offer to assist with interpretation, employees should carefully consider the circumstances before relying on such individuals. For example, children should not be relied upon except in emergency or critical situations. Further, the nature of the contact and relationship between the disabled individual and the individual offering services must be carefully considered (e.g., victim/suspect).

370.4 CONTACT SITUATIONS AND REPORTING

While all contacts, services and individual rights are important, this department will carefully consider reasonably available information in an effort to prioritize services to disabled and impaired individuals so that such services and resources may be targeted where they are most needed because of the nature and importance of the particular law enforcement activity involved.

Whenever any member of this department is otherwise required to complete a report or other documentation, and communication assistance is provided to any involved disabled or impaired individual, such services should be noted in the related report.

370.4.1 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE

To provide disabled and impaired individuals with meaningful access to law enforcement services when they are victims of, or witnesses to, alleged criminal activity or other emergencies, this department has designated its 9-1-1 lines as its top priority for assistance with such services. Department personnel will make every reasonable effort to promptly accommodate disabled and impaired individuals utilizing 9-1-1 lines through any or all of the above resources.

While 9-1-1 calls shall receive top priority, it is also important that reasonable efforts be made to accommodate disabled and impaired individuals seeking more routine access to services and information from this department.

370.4.2 CUSTODIAL INTERROGATIONS, ARRESTS AND BOOKINGS

To ensure that the rights of all disabled and impaired individuals are protected during arrest and custodial interrogation, this department places a high priority on providing reasonable communication assistance during such situations. It is further recognized that miscommunication during custodial interrogations may have a substantial impact on the evidence presented in any related criminal prosecution. As such, personnel providing communication assistance in these situations will make every reasonable effort to accurately and effectively communicate with disabled or impaired individuals.

Whenever a hearing-impaired person is arrested, the arresting officers shall procure a qualified interpreter/transliterater for any interrogation, warning, notification of rights or

New Orleans Police Department

Policy Manual

Hearing Impaired/Disabled Communications

taking of a statement (La. R.S. 46:2364(E); La. R.S. 46:2366). A hearing-impaired person who is otherwise eligible for release shall not be held in custody pending the arrival of an interpreter/transliterater.

Employees providing such assistance shall also be aware of the inherent impediments to gathering information from disabled or impaired individuals throughout the booking process or any other situation in which a disabled or impaired individual is under the control of department personnel. Medical screening questions are commonly used to elicit information regarding an individual's medical needs, suicidal inclinations, presence of contagious diseases, potential illness, symptoms of withdrawal from certain medications or the need to segregate the arrestee from other prisoners. It is important for this department to make every reasonable effort to provide effective communication assistance in these situations.

- (a) Individuals who require communication aids (e.g., hearing aids) should be permitted to retain such devices while in custody.
- (b) While it may present officer safety or other logistical problems to allow a physically disabled individual to retain devices, such as a wheelchair or crutches during a custodial situation, the removal of such items will require that other reasonable accommodations be made to assist such individuals with access to all necessary services.
- (c) Whenever a deaf or hearing-impaired individual is detained or arrested and placed in handcuffs, officers should consider, safety permitting, placing the handcuffs in front of the body to allow the individual to sign or write notes.

370.4.3 FIELD ENFORCEMENT AND INVESTIGATIONS

Field enforcement will generally include such contacts as traffic stops, pedestrian stops, serving warrants and protective orders, crowd/traffic control and other routine field contacts that may involve disabled or impaired individuals. The scope and nature of these activities and contacts will inevitably vary. The Department recognizes that it would be virtually impossible to provide immediate access to complete communication services to every officer in the field. Each officer and/or supervisor must assess each situation to determine the need and availability of communication assistance to any and all involved disabled or impaired individuals.

Although not every situation can be addressed within this policy, it is important that employees are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action. For example, it would be meaningless to verbally request consent to search if the officer is unable to effectively communicate with a deaf individual.

370.4.4 COMMUNITY OUTREACH

Community outreach programs and other such services offered by this department have become increasingly recognized as important to the ultimate success of more traditional law enforcement duties. As such, this department will continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services to disabled individuals and groups.

370.5 TRAINING

To ensure that all personnel who have contact with the public or with those in custody are properly trained, this department will provide periodic training, including:

- (a) Employee awareness of related policies, procedures, forms and available resources.

New Orleans Police Department

Policy Manual

Hearing Impaired/Disabled Communications

- (b) Working effectively with in-person and telephone interpreters and related equipment.

Child and Dependent Adult Safety

380.1 PURPOSE AND SCOPE

This policy provides guidelines to ensure that children (ages 17 and under) and dependent adults are not left without appropriate care in the event their caregiver or guardian is arrested or otherwise prevented from providing care due to actions taken by members of this department.

This policy does not address the actions to be taken during the course of a child abuse or dependent adult investigation. These are covered in the Child Abuse and Adult Abuse policies.

380.2 POLICY

It is the policy of this department to mitigate, to the extent reasonably possible, the stressful experience individuals may have when a parent or caregiver is arrested. The New Orleans Police Department will endeavor to create a strong cooperative relationship with local community-based social services to ensure an effective, collaborative response that addresses the needs of those affected.

380.3 PROCEDURES DURING AN ARREST

When encountering an arrest situation, officers should make reasonable attempts to determine if the arrestee is responsible for minor dependent children or dependent adults. In some cases this is obvious, such as when children or dependent adults are present. However, officers should inquire if the person has any other dependent minor children or adults who are without appropriate supervision. The following steps should be taken:

- (a) Inquire about and confirm the location of any children or dependent adults.
- (b) Look for evidence of children and dependent adults. Officers should be mindful that some arrestees may conceal the fact that they have dependents for fear the individual may be taken from them.
- (c) Inquire of witnesses, neighbors, friends and relatives of the arrestee as to whether the person is responsible for a dependent child or adult.

Whenever reasonably possible, officers should take reasonable steps to accomplish the arrest of a parent, guardian or caregiver out of the presence of his/her child or dependent adult. Removing children or dependent adults from the scene in advance of the arrest will generally ensure the best outcome for the individual.

Whenever it is safe to do so, officers should allow the parent or caregiver to assure children or dependent adults that they will be provided care. If this is not safe or if the demeanor of the parent or caregiver suggests this conversation would be nonproductive, the officer at the scene should explain the reason for the arrest in age-appropriate language and offer reassurance to the dependent child or adult that he/she will receive appropriate care.

380.3.1 AFTER AN ARREST

Whenever an arrest is made, the officer should take all reasonable steps to ensure the safety of the arrestee's disclosed or discovered minor children or dependent adults.

New Orleans Police Department

Policy Manual

Child and Dependent Adult Safety

Officers should allow the arrestee reasonable time to arrange for care of minor children and dependent adults. Temporary placement with family or friends may be appropriate. However, any decision should give priority to a care solution that is in the best interest of the child or dependent adult. The following guidelines should be followed:

- (a) Allow the person reasonable time to arrange for the care of minor children and dependent adults with a responsible party, as appropriate.
 1. Unless there is evidence to the contrary (e.g., signs of abuse, drug use, unsafe environment), officers should respect the parent or caregiver's judgment regarding arrangements for care. It is generally best if the child or dependent adult remains with relatives or family friends that he/she knows and trusts. Consideration regarding familiarity with the surroundings, comfort, emotional state and safety should be paramount.
 2. Except when a court order exists limiting contact, the officer should attempt to locate and place dependent children or adults with a non-arrested parent or guardian.
- (b) Provide for the immediate supervision of minor children or a dependent adult until an appropriate caregiver arrives.
- (c) Notify the Louisiana Department of Children and Family Services as appropriate.
- (d) Notify the Field Supervisor or Platoon Commander of the disposition of minor children or dependent adults.

If children or dependent adults are at school or a known location outside the household at the time of arrest, the arresting officer should attempt to contact the school or other known location and inform the principal or appropriate responsible adult of the caregiver's arrest and of the arrangements being made for the care of the arrestee's dependents. The result of such actions should be included in the associated report.

380.3.2 REPORTING

Reporting should meet these minimum requirements:

- (a) For all arrests where children are present or living in the household, the reporting employee will document the following information:
 1. Names
 2. Sex
 3. Age
 4. How, where and with whom or which agency the child was placed
 5. Which school the child attends
- (b) For all arrests where dependent adults are present or living in the household, the reporting employee should document the following information about the dependent adult:
 1. Identity
 2. Whether he/she reasonably appears able to care for him/herself
 3. Disposition or placement information if he/she is unable to care for him/herself

380.4 DEPENDENT WELFARE SERVICES

Whenever an arrestee is unwilling or incapable of arranging for the appropriate care of any dependent minor children or adults, the handling officer should consider taking the children

New Orleans Police Department

Policy Manual

Child and Dependent Adult Safety

or dependent adults into protective custody and placing them with the appropriate welfare service or other department-approved social service.

Under no circumstances should a child or dependent adult be left unattended or without appropriate care.

The Child Abuse Unit will be contacted and be called to the scene to evaluate the situation.

380.5 SAFE HAVEN RELINQUISHMENT

An officer may take physical custody of an infant who is not more than 30 days old under the following circumstances (Ch. C. 1149 et seq.):

- (a) The parent voluntarily relinquishes custody and says he/she will not return for the child and intends to forgo all parental responsibilities or states they wish to utilize the Safe Haven Law.
- (b) The parent voluntarily delivers the child safely to the officer.
- (c) The child has not been abused or neglected by the parent prior to the voluntary delivery.

The parent may do this anonymously (they do not have to provide their name or any other information) however, the child must be handed to the officer (or employee at an emergency care facility, police station or fire department).

The child abuse detective shall arrange for the immediate transportation of the child to the nearest hospital.

380.6 ELDER ASSISTANCE

If it is determined that an arrested person is a caregiver who provides assistance to a dependent elder the dependent elder may require placement with protective services.

An officer who learns of the need for the placement of a dependent elder into protective service should notify the Command Desk. The Command Desk shall contact Elderly Protective Services (504) 835-3005 or 800-673-4673 to obtain assistance. In an emergency situation with an elderly person who does not have capacity an Order for Protective Custody (OPC) can be obtained.

380.6.1 TYPES OF ELDERLY ASSISTANCE

Various types and levels of assistance may be available for elders in need of assistance. These include:

- PR380.2 Mental disorders
When a caregiver is unable to provide care due to arrest, persons who suffer from a mental disorder will have to be put in protective service.
After notification by the Command Desk a representative from Adult Protective Services will respond to the scene. If there is mental retardation requiring placement, the Metropolitan Human Services District (MHSD) will need to be contacted at (504) 599-0245 or <http://www.mhsdla.org/home>

Service Animals

382.1 PURPOSE AND SCOPE

Service animals play an important role in helping to overcome the limitations often faced by people with disabilities. The New Orleans Police Department is committed to the support of Title II of the Americans with Disabilities Act of 1990 (ADA) to permit the use of service animals that are individually trained to assist a person with a disability.

382.1.1 DEFINITIONS

Definitions related to this policy include:

Service animal - A dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. The work or tasks performed by a service animal must be directly related to the owner's disability (28 CFR 35.104).

Service animal includes a miniature horse if individually trained to do work or perform tasks for people with disabilities provided the animal is housebroken, is under the owner's control, the facility can accommodate the animal's type, size and weight and the animal's presence will not compromise legitimate safety requirements necessary for safe operation of the facility (28 CFR 35.136(i)).

Guide dog or service dog - Any dog specifically trained to assist a person with a physical disability or handicap (e.g., dogs used for guiding, hearing, mobility, medical alerts) (La. R.S. § 21:51).

382.2 POLICY

It is the policy of this department to provide services and access to persons with service animals in the same manner as those without service animals.

382.3 USE OF SERVICE ANIMALS

Some service animals may be readily identifiable. However, many do not have a distinctive symbol, harness or collar. Service animals are not pets and may be trained by an individual or organization to assist people with disabilities.

Service animals may be used in a number of ways to provide assistance, including:

- Guiding people who are blind or have low vision
- Alerting people who are deaf or hard of hearing
- Retrieving or picking up items, opening doors or flipping switches for people who have limited use of their hands, arms or legs
- Pulling wheelchairs
- Providing physical support and assisting with stability and balance
- Doing work or performing tasks for persons with traumatic brain injury, intellectual disabilities or psychiatric disabilities, such as reminding a person with depression to take medication
- Alerting a person with anxiety to the onset of panic attacks, providing tactile stimulation to calm a person with post-traumatic stress disorder, assisting people

New Orleans Police Department

Policy Manual

Service Animals

with schizophrenia to distinguish between hallucinations and reality, and helping people with traumatic brain injury to locate misplaced items or follow daily routines

382.4 MEMBER RESPONSIBILITIES

Service animals that are assisting individuals with disabilities are permitted in all public facilities and areas where the general public is allowed. Department members are expected to treat individuals with service animals with the same courtesy and respect that the New Orleans Police Department affords to all members of the public (28 CFR 35.136).

382.4.1 REMOVAL OF SERVICE ANIMAL

If an animal is not housebroken or exhibits vicious behavior, poses a direct threat to the health of others or unreasonably disrupts or interferes with normal business operations, an officer may direct the owner to remove the animal from the premises. Barking alone is not a threat nor does a direct threat exist if the person takes prompt, effective action to control the service animal (28 CFR 35.136(b)).

Each incident must be considered individually and past incidents alone are not cause for excluding a service animal. Removal of a service animal may not be used as a reason to refuse service to an individual with disabilities. Members of this department are expected to provide all services as are reasonably available to an individual with a disability with or without a service animal.

382.4.2 SERVICE ANIMAL QUALIFICATIONS

If it is apparent or if a member is aware the animal is a service animal, the owner should not be asked any questions as to the status of the animal. If it is unclear whether an animal meets the definition of a service animal, the member should ask the individual only the following questions (28 CFR 35.136(f)):

- Is the animal required because of a disability?
- What task or service has the service animal been trained to perform?

If the individual explains that the animal is required because of a disability and has been trained to work or perform at least one task, the animal meets the definition of a service animal and no further questions as to the animal's status should be asked. The person should not be questioned about his/her disabilities nor should the person be asked to provide any license, certification or identification card for the service animal.

382.4.3 SERVICE ANIMAL CONTACT

Service animals are not pets. Department members should not interfere with the important work performed by a service animal by talking to, petting or otherwise initiating contact with a service animal.

When handling calls of a complaint regarding a service animal, members of this department should remain neutral and should be prepared to explain the ADA requirements concerning service animals to the concerned parties. Businesses are required to allow service animals to accompany their owner into all areas that other customers or members of the public are allowed (28 CFR 36.302).

Absent a violation of law independent of the ADA, officers should take no enforcement action beyond keeping the peace. Individuals who believe they have been discriminated against as a result of a disability should be referred to the Civil Rights Division of the U.S. Department of Justice.

Volunteers

384.1 PURPOSE AND SCOPE

It is the policy of this department to use qualified volunteers for specified tasks and duties in order to create efficiencies for the Department and improve services to the community. Volunteers are intended to supplement and support, rather than supplant, licensed officers and civilian personnel. Volunteers can be an important part of any organization and have proven to be a valuable asset to law enforcement agencies. Volunteers help to increase department responsiveness, delivery of services and information input, and provide new program opportunities. In addition, volunteers bring new skills and expertise to the Department and prompt new enthusiasm.

A complete position description and a requested time frame should be included in the request. All parties should understand that the recruitment of volunteers is enhanced by creative and interesting assignments. The Volunteer Coordinator may withhold assignment of any volunteer until such time as the requesting unit is prepared to make effective use of volunteer resources.

384.2.3 SCREENING

All prospective volunteers should complete the volunteer application form. The Volunteer Coordinator or the authorized designee should conduct a face-to-face interview with the applicant.

A documented background investigation shall be completed on each volunteer applicant and shall include, but not necessarily be limited to, the following:

384.2.4 SELECTION AND PLACEMENT

Service as a volunteer shall begin with an official notice of acceptance or appointment to a volunteer position. Notice may only be given by an authorized representative of the Department, who will normally be the Volunteer Coordinator. No volunteer should begin performance of any position until he/she has been officially accepted for that position and completed all necessary screening and documentation.

Volunteers should be placed only in assignments or programs that are consistent with their knowledge, skills, abilities and with the needs of the Department.

Reserve Unit volunteers are generally assigned to augment regular staffing levels.

Volunteers should receive position-specific training to ensure they have adequate knowledge and skills to complete tasks required by the position and should receive periodic ongoing training as deemed appropriate by their supervisor or the Volunteer Coordinator.

Depending on the assignment, training may include the following:

- (a) Role of the volunteer
- (b) Department policies
- (c) Training specific to the procedure manual for the volunteer position

All volunteers shall comply with the rules of conduct and with all orders and directives, either oral or written, issued by the Department. Whenever a rule, regulation or guideline in this manual refers to a licensed officer, it shall also apply to a volunteer, unless by its nature it is inapplicable.

384.2.6 FITNESS FOR DUTY

No volunteer shall report to work or be on-duty when his/her judgment or physical condition has been impaired by alcohol, medication other substances, illness or injury.

Volunteers shall report to their supervisor any changes in status that may affect their ability to fulfill their duties. This includes, but is not limited to, the following:

Volunteers shall conform to approved dress consistent with their duty assignment. Uniforms authorized for volunteers should be readily distinguishable from those worn by licensed officers. No volunteer shall wear his/her uniform or identifiable parts of that uniform while off-duty.

New Orleans Police Department

Policy Manual

Volunteers

Volunteers shall be required to return any issued uniform or department property at the termination of service.

384.3 SUPERVISION OF VOLUNTEERS

Each volunteer who is accepted to a position with the Department must have a clearly identified supervisor who is responsible for direct management of that volunteer. This supervisor will be responsible for day-to-day management and guidance of the work of the volunteer and should be available to the volunteer for consultation and assistance.

A volunteer may be assigned as, and act as, a supervisor of other volunteers, provided the supervising volunteer is under the direct supervision of a paid staff member.

Functional supervision of volunteers is the responsibility of the supervisor in charge of the unit where the volunteer is assigned. Considerations to keep in mind while supervising volunteers:

- (a) Take the time to introduce volunteers to employees on all levels.
- (b) Ensure volunteers have work space and the necessary office supplies.
- (c) Make sure the work is challenging. Do not hesitate to give them an assignment or task that will tap these valuable resources.

384.4 CONFIDENTIALITY

With appropriate security clearance, volunteers may have access to private and confidential information, such as criminal histories or investigative files. Unless otherwise directed by a supervisor, the duties of the position or department policy, all information shall be considered confidential. Only that information specifically identified and approved by authorized personnel shall be released. Confidential information shall be given only to persons who have a need and a right to know as determined by department policy and supervisory personnel.

Each volunteer will receive training in data practices and be required to sign a nondisclosure agreement before being given an assignment with the Department. The form is to be kept on file in the Field Operations Bureau. Subsequent unauthorized disclosure of any private or confidential information, verbally, in writing or by any other means, by the volunteer is grounds for immediate dismissal and possible criminal prosecution.

Volunteers shall not address public gatherings, appear on radio or television, prepare any article for publication, act as correspondents to a newspaper or other periodical, release or divulge any information concerning the activities of the Department, or maintain that they represent the Department in such matters without permission from the proper department personnel.

384.5 PROPERTY AND EQUIPMENT

Volunteers will be issued an identification card that must be worn and visible at all times while on-duty. Any fixed and portable equipment issued by the Department shall be for official and authorized use only. Any property or equipment issued to a volunteer shall remain the property of the Department and shall be returned at the termination of service.

384.6 DISCIPLINARY PROCEDURES/TERMINATION

A volunteer may be removed from the volunteer program at the discretion of the Superintendent of Police or the Volunteer Coordinator. Volunteers shall have no property interests in their continued appointment. However, if a volunteer is removed for alleged

New Orleans Police Department

Policy Manual

Volunteers

misconduct, the volunteer will be afforded an opportunity solely to clear his/her name through a liberty interest hearing. The hearing shall be limited to a single appearance before the Superintendent of Police or the authorized designee.

Volunteers may resign from volunteer service with this department at any time. It is requested that volunteers who intend to resign provide advance notice of their departure and a reason for their decision.

384.6.1 EXIT INTERVIEWS

Exit interviews, where possible, should be conducted with volunteers who are leaving their positions. The interview should ascertain why the volunteer is leaving the position and solicit the volunteer's suggestions on improving the position. When appropriate, the interview should also include a discussion on the possibility of involvement in some other capacity with the Department.

384.7 EVALUATION

An evaluation of the overall volunteer program will be conducted on an annual basis by the Volunteer Coordinator. Regular evaluations should be conducted with volunteers to ensure the best use of human resources, to ensure personnel problems can be identified and dealt with promptly and fairly, and to ensure optimum job satisfaction on the part of volunteers.

402.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that employees of the New Orleans Police Department do not engage in discriminatory policing and/or racial/bias-based policing or violate any related laws while serving the community.

Race, color, ethnicity or nationality, religion, actual or perceived gender or gender identity, sexual orientation, economic status, age, cultural group, disability or affiliation with any other similar identifiable group shall not be utilized as the basis for providing differing levels of law enforcement service or the enforcement of the law.

Definitions related to this policy include:

Biological sex - The sex assigned to someone at birth, can refer to genitalia or chromosomal make-up.

Demographic category - Includes age, race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, or gender identity.

Discriminatory policing - The selective enforcement or non-enforcement of the law, including the selecting or rejecting of particular policing tactics or strategies based on membership in a demographic category. Discriminatory policing does not include using race, ethnicity, or any other status in any reliable and recent suspect-specific description.

Gender identity / Gender expression - A gender-related identity, appearance, expression, or behavior of an individual, regardless of the individual's assigned sex at birth.

Probable cause - The facts and circumstances known to the officer at the time would justify a prudent person in believing that the suspect committed, or was committing an offense.

Racial/bias-based policing - An inappropriate reliance on factors such as race, ethnicity, national origin, religion, gender, sexual orientation, economic status, age, cultural group, disability or affiliation with any other similar identifiable group as a factor in deciding whether to take law enforcement action or to provide service.

Reasonable suspicion - Articulable facts that, within the totality of the circumstances, lead an officer to reasonably suspect that criminal activity has been or is about to be committed.

Sexual orientation - The direction of one's sexual interest toward members of the same, opposite or both sexes, especially a direction seen to be dictated by physiologic rather than sociologic forces.

402.2 POLICY

The New Orleans Police Department strives to provide law enforcement to our community with due regard to the racial, cultural or other differences of those we serve. It is the policy of this department to provide law enforcement services and to enforce the law equally and fairly without discrimination toward any individual or group.

402.3 DISCRIMINATORY POLICING/BIAS-BASED PROFILING PROHIBITED

Discriminatory policing and racial/bias-based policing is strictly prohibited. However nothing in this policy is intended to prohibit an officer from considering factors such as race or ethnicity, sexual orientation or actual or perceived gender identity in combination with other legitimate factors (i.e., weight, age, height, dress, etc.) when giving the description of a suspect or perpetrator of a crime.

402.4 LBGT INDIVIDUALS - GENERAL PROVISIONS

Officers shall treat lesbian, gay, bisexual, and transgender (LGBT) individuals with courtesy, professionalism and respect.

Officers are specifically prohibited from using demeaning, harassing, intimidating, or derogatory language regarding or toward LGBT individuals. Officers shall address transgender individuals with their chosen name, title, and pronoun. Where the individual does not self-identify and the gender is not clear to a reasonable person, or the officer is uncertain, the officer shall ask the subject how they would like to be addressed, in a professional manner.

Officers shall not engage in any sexual harassment of the public, both on or off duty.

Officers shall not use an individual's actual or perceived gender identity, or sexual orientation as reasonable suspicion or probable cause that an individual is or has engaged in any crime.

Officers shall not request identification from or otherwise initiate a contact solely on the basis of sexual orientation or actual or perceived gender identity/expression. Officers shall not subject transgender individuals to more invasive or more frequent frisk procedures due to actual or perceived gender identity. Officers shall not frisk any person for the purpose of determining that person's gender or to view or touch the person's genitals. At no time, shall an officer refuse to search someone based on their actual or perceived gender identity, gender expression, or sexual orientation. Under no circumstance shall members of this department search any person solely for the purpose of determining that person's sex.

Where same-gender searches are required by law, the officer shall respect the gender identification expressed by the individual.

Officers shall not fail to respond to a call for service or complaint on the basis of the caller or complainant's actual or perceived gender identity, gender expression, or sexual orientation.

402.5 MEMBER RESPONSIBILITY

Every member of this department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any known instances of discriminatory policing and racial/bias-based policing to a supervisor.

No person shall be discouraged, intimidated, or coerced from filing a complaint alleging profiling by any commissioned or civilian employee of this department.

Policy Manual

402.5.1 REASON FOR DETENTION

Officers detaining a person shall be prepared to articulate sufficient reasonable suspicion to justify the detention independent of the individual's membership in a protected class.

To the extent that written documentation would otherwise be completed (e.g., arrest report, Field Interview (FI) card), the involved officer shall include those facts giving rise to the officer's reasonable suspicion or probable cause for the detention as applicable.

Nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

402.6 SUPERVISOR RESPONSIBILITY

Supervisors are responsible for diligently monitoring those individuals in their command for any behavior exhibited that may conflict with the purpose of this policy and shall handle any alleged or observed violation of this policy in accordance with the Personnel Complaints Policy.

- (a) Supervisors should discuss any issues with the involved officer and his/her supervisor in a timely manner.
- (b) In instances where a Digital Mobile Video Audio Recorder (DMVAR) is utilized for the purpose of documenting the contact officers have with citizens, supervisors should periodically review the DMVAR recordings for any behavior exhibited by officers that violates this policy.
 1. Supervisors should document when these periodic reviews have occurred.
 2. Recordings that capture a potential instance of racial/bias-based policing should be appropriately retained for administrative investigation purposes.
- (c) Supervisors should ensure that no retaliatory action is taken against any member of this department who discloses information concerning racial/bias-based policing.

402.7 ADMINISTRATION

Each January, the Deputy Superintendent of the Public Integrity Bureau will assess all NOPD programs, initiatives, and activities to ensure that no program, initiative, or activity is applied or administered in a manner that discriminates against individuals on the basis of race, color, ethnicity, national origin, religion, gender, disability, sexual orientation or gender identity. Included will be an assessment of misconduct complaints involving discrimination, use of force, motor vehicle and pedestrian stops, and arrest, including the selection or rejection of particular geographic deployment tactics or strategies based upon stereotypes or bias. These assessment programs, initiatives, and activities will be based on accurate, complete and reliable data, including data contained in the EWS, stop and detention data, use of force analysis, crime trend analysis in relation to population demographics, enforcement practices based on community concerns, operations plans and after-action report. These assessments will be made available to the public.

402.8 TRAINING

Training on discriminatory policing and racial/bias-based policing and review of this policy shall be conducted as directed by the Education and Training Division.

As part of, or in addition to, training, all officers shall view the video on racial/bias-based policing produced by the Department of Public Safety and Corrections (La. R.S. 32:398.10(F)).

In addition to the above training, officers shall attend yearly training by members of the LBGT community.

Roll Call

404.1 PURPOSE AND SCOPE

Roll call is generally conducted at the beginning of the officer's assigned shift. Roll call provides an opportunity for important exchange between employees and supervisors. A supervisor will conduct roll call.

Roll call should accomplish, at a minimum, certain basic tasks, including:

- (a) Briefing officers with information regarding daily patrol activity, with particular attention given to unusual situations and changes in the status of wanted persons, stolen vehicles and major investigations.
- (b) Notifying officers of changes in schedules and assignments.

404.3 PREPARATION OF MATERIALS

The supervisor conducting roll call and/or roll call training is responsible for collection and preparation of the materials necessary for a constructive briefing and/or roll call training. A supervisor may delegate this responsibility to a subordinate supervisor in his/her absence, or to a subordinate officer with a particular expertise in the subject matter.

Crime and Disaster Scene Integrity

406.1 PURPOSE AND SCOPE

The protection and integrity of a crime scene is of the utmost importance for the successful apprehension of criminals and successful prosecution. The integrity of a disaster scene is equally as critical for the protection of life and property and investigation by proper authorities.

406.2 MAJOR CRIME SCENES

Major Crime Scenes is a location where any of the below crimes took place (or another location where evidence to those crimes may be found), and comprises the area from which most of the physical evidence is retrieved by law enforcement personnel, crime scene investigators (CSIs) or in rare circumstances, forensic scientists. Major crimes include:

- Homicide
- Suicide
- Unclassified Death
- Aggravated battery (serious condition, possibly fatal)
- Police Involved Shooting
- Rape
- Aggravated Kidnapping
- Arson (with serious injury, possibly fatal)

406.3 CRIME SCENE RESPONSIBILITIES

The first officer at the scene of a crime or major incident is generally responsible for taking reasonable efforts to preserve the scene. Officers shall also consider officer safety and public safety, including reasonable efforts to render medical aid to any obviously injured parties. Once an officer has assumed or been assigned to maintain the integrity of the crime/disaster scene, the officer shall continue the assignment until relieved by a supervisor.

406.3.1 FIRST RESPONDER CONSIDERATIONS

The following list generally describes the functions which the first responder should take at a crime or disaster scene. This list is not intended to be all-inclusive, is not necessarily in order and may be altered according to the demands of each situation, the availability of resources, capacity of personnel and totality of each circumstance:

- (a) Ensure no suspects are still in the area.
- (b) Broadcast emergency information, including all requests for additional assistance.
- (c) Provide first aid to injured parties if it can be done safely.
- (d) Evacuate the location as required.
- (e) Identify hazards or dangerous conditions to responding personnel.
- (f) Secure the inner and outer perimeter if needed.
- (g) Protect items of apparent evidentiary value.
- (h) Identify potential witnesses.
- (i) Start a chronological log noting critical times and personnel allowed access.

New Orleans Police Department

Policy Manual

Crime and Disaster Scene Integrity

- (j) Prevent unauthorized access of personnel, the media or the public.

406.4 SEARCHES AT CRIME OR DISASTER SCENES

Officers arriving at crime or disaster scenes are often faced with the immediate need to search for and render aid to victims and to determine if suspects are present and pose a threat. Once officers are satisfied that no additional suspects are present and/or there are no injured persons to be treated, those exigent circumstances will likely no longer exist. Officers should thereafter secure the scene and conduct no further searches until proper authority for the search is obtained.

Crisis Response Unit - SWAT

408.1 PURPOSE AND SCOPE

The Crisis Response Unit (CRU) is comprised of two specialized teams: the Crisis Negotiation Team (CNT) and the Special Weapons and Tactics team (SWAT). The unit has been established to provide specialized support in handling critical field operations where intense negotiations and/or special tactical deployment methods beyond the capacity of field officers appears to be necessary.

The mission of SOD's Tactical Platoons (currently known as SWAT Teams) shall be limited to providing a specialized response to critical situations where a tactical response is required, such as hostage rescue, barricaded subjects, high-risk warrant service and high-risk apprehension, and terrorism response. SWAT tactics and equipment shall be prohibited from being deployed or used for routine or proactive patrol functions or crime prevention, or for the service of non-high-risk warrants, unless approved in writing by a Deputy Superintendent. This provision does not prohibit SWAT Team members from providing uniformed policing services.

Barring emergency circumstances, the SWAT Team shall have the primary responsibility for execution of any high-risk warrant utilizing tactical team officers equipped with special equipment, training, and weapons.

408.1.1 OPERATIONAL AND ADMINISTRATIVE POLICY

The Policy Manual sections pertaining to the Crisis Response Unit are divided into Administrative and Operational Policy and Procedures. Since situations that necessitate the need for such a law enforcement response vary greatly from incident to incident, and because such events often demand on scene evaluation, the Operational Policy outlined in this section serves as a guideline to Department personnel, allowing for appropriate onscene decisionmaking as required. The Administrative Procedures, however, are more restrictive and few exceptions should be taken.

It is the policy of this department to maintain a SWAT team and to provide the equipment, manpower and training necessary to maintain a SWAT team. The SWAT team should develop sufficient resources to perform three basic operational functions:

- (a) Command and control
- (b) Containment
- (c) Entry/apprehension/rescue

It is understood that it is difficult to categorize specific capabilities for critical incidents. Training needs may vary based on the experience level of the team personnel, team administrators and potential incident commanders. Nothing in this policy shall prohibit individual teams from responding to a situation that exceeds their training levels due to the exigency of the circumstances. The preservation of innocent human life is paramount.

The SWAT Commander, or the authorized designee, shall conduct an annual assessment to determine the type and extent of SWAT missions and operations that are appropriate to this department. The assessment should consider the team's capabilities and limitations and review its training.

New Orleans Police Department

Policy Manual

Crisis Response Unit - SWAT

408.1.2 SWAT TEAM DEFINED

SWAT team A designated unit of law enforcement officers, including a multijurisdictional team, that is specifically trained and equipped to work as a coordinated team to resolve critical incidents that are so hazardous, complex or unusual that they may exceed the capabilities of first responders or investigative units. This includes, but is not limited to, hostage taking, barricaded suspects, snipers, terrorist acts and other highrisk incidents. As a matter of department policy, such a unit shall be used to serve highrisk warrants, both search and arrest, where public and officer safety issues warrant the use of such a unit.

408.2 408.2 LEVELS OF CAPABILITY/TRAINING LEVEL III

Level III SWAT team The New Orleans Police Department maintains a Level III SWAT Team.

Level III Team Defined: Level III Team is an advanced level team whose personnel function as a fulltime unit. Generally, 25 percent of their on duty time is devoted to training and maintaining their certifications. Level III teams operate in accordance with contemporary best practices. Such units possess both skills and equipment to utilize tactics beyond the capabilities of Level I and Level II teams.

408.3 ORGANIZATIONAL PROCEDURES

This department shall develop a separate written set of organizational procedures that should address, at minimum, the following:

- (a) Locally identified specific missions the team is capable of performing
- (b) Team organization and function
- (c) Personnel selection and retention criteria
- (d) Training and required competencies
- (e) Procedures for activation and deployment
- (f) Command and control issues, including a clearly defined command structure
- (g) Multiagency response
- (h) Multi Jurisdictional response
- (i) Specialized functions and supporting resources

408.3.1 OPERATIONAL PROCEDURES

This department shall develop a separate written set of operational procedures, in accordance with its level of capability, using sound risk reduction practices. The operational procedures should be patterned after the National Tactical Officers Association's Suggested SWAT Best Practices. Because such procedures are specific to CRU members and will outline tactical and officer safety issues, they are classified as confidential security data and are not included within this policy. The operational procedures should include, at a minimum, the following elements:

- (a) Personnel responsible for developing an operational or tactical plan should be designated prior to, and/or during SWAT operations (time permitting).
 - 1. All SWAT team members should have an understanding of operational planning.
 - 2. SWAT team training should consider planning for both spontaneous and planned events.

New Orleans Police Department

Policy Manual

Crisis Response Unit - SWAT

3. SWAT teams should incorporate medical emergency contingency planning as part of the SWAT operational plan.
- (b) Plans for mission briefings should be conducted prior to an operation, unless circumstances require immediate deployment.
 1. When reasonably possible, briefings should include the specialized units and supporting resources.
- (c) Protocols for a sustained operation should be developed. These may include relief, rotation of personnel and augmentation of resources.
- (d) A generic checklist to be worked through prior to initiating a tactical action should be developed. This will provide a means of conducting a threat assessment to determine the appropriate response and resources necessary, including the use of SWAT.
- (e) The appropriate role for a trained negotiator should be defined.
- (f) A standard method of determining whether a warrant should be regarded as high risk should be developed.
- (g) A method for deciding how best to serve a high risk warrant should be developed, with all reasonably foreseeable alternatives being reviewed in accordance with risk/benefit criteria prior to selecting the method of response.
- (h) The elements of postincident scene management should include:
 1. Documentation of the incident should be prepared by the Negotiation Team.
 2. Transition to investigations and/or other units.
 3. Debriefing after every deployment of the SWAT team.
 - (a) After action team debriefing provides evaluation and analysis of critical incidents and affords the opportunity for individual and team assessments. It also helps to identify training needs and reinforces sound risk management practices.
 - (b) Debriefing should not be conducted until involved officers have had the opportunity to individually complete the necessary reports or provide formal statements.
 - (c) To maintain candor and a meaningful exchange, debriefing will generally not be recorded.
 - (d) When appropriate, debriefing should include specialized units and all personnel present during the incident.
- (i) Sound risk management analysis should be included.
- (j) Standardization of equipment should be addressed.

408.4 TRAINING NEEDS ASSESSMENT

The Special Operations Division (SOD) Commander shall conduct an annual SWAT training assessment to ensure that training is conducted within team capabilities and department policy.

408.4.1 INITIAL TRAINING

SWAT team operators and SWAT supervisors/team leaders should not be deployed until successful completion of the NOPD 4 Week Basic SWAT Course.

- (a) To avoid unnecessary or redundant training, previous training completed by members may be considered equivalent

Failure to qualify after a second attempt may result in dismissal from the team.
- (c) Those members who are on vacation, ill or are on limited duty status with a medical provider's note of approval on the test date shall be responsible for reporting to a team supervisor and taking the test within 30 days of their return to regular duty. Any member who fails to arrange for and perform the physical fitness test within the 30-day period shall be considered as having failed to attain a qualifying score for that test period.
- (d) Quarterly each SWAT team member shall perform the mandatory SWAT handgun qualification course. The qualification course shall consist of the SWAT basic drill for the handgun. Failure to qualify will require the officer to seek remedial training from a Rangemaster approved by the SOD Commander. Team members who fail to qualify will not be used in SWAT operations until qualified. Team members who fail to qualify must retest within 30 days. Failure to qualify within 30 days with or without remedial training may result in dismissal from the team.
- (e) Quarterly each SWAT team member shall perform a mandatory SWAT qualification course for any specialty weapon issued to or used by the officer during SWAT operations. Failure to qualify will require the officer to seek remedial training from a Rangemaster approved by the SOD Commander. Team members who fail to qualify on their specialty weapon may not utilize the specialty weapon on SWAT operations until qualified. Team members who fail to qualify must retest within 30 days. Failure to qualify with specialty weapons within 30 days may result in the team member being removed from the team or permanently disqualified from use of that particular specialty weapon.

412.1.1 DEFINITIONS

Hazardous material - Any gaseous, liquid, or solid material which because of its quantity, concentration, or physical, chemical, or biological composition poses a substantial present or potential hazard to human health, the environment, or property when transported in commerce, or which material is identified or designated as being hazardous by rules and regulations adopted and promulgated by the secretary of the Department of Public Safety and Corrections (La. R.S. 32:1502(5)).

412.2 HAZARDOUS MATERIAL RESPONSE

Employees may encounter situations involving suspected hazardous materials, such as at the scene of a traffic collision, chemical spill or fire. When employees come into contact with a suspected hazardous material, they should take certain steps to protect themselves and other persons.

The following steps should be considered at any scene involving suspected hazardous materials:

- (b) Remain upwind, uphill and at a safe distance, maintaining awareness of weather and environmental conditions, until the material is identified and a process for handling has been determined.
- (c) Wear personal protective gear if available, being cognizant that some hazardous material may quickly volatilize into a form which is readily inhaled.
- (d) Attempt to identify the type of hazardous material from a safe distance using optical aids (binoculars/spotting scopes) if they are available. Identification can be determined by:
 1. Placards and use of the Emergency Response Guidebook.

Hostage and Barricade Incidents

414.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for situations where officers have legal cause to contact, detain or arrest a person, and the person refuses to submit to the lawful requests of the officers by barricading themselves in a structure or vehicle and/or by taking a hostage.

The scope of this policy is not intended to address all variables that officers encounter during their initial response or when a hostage or barricade situation has developed. This policy does not require or purport to recommend specific strategies or tactics for resolution as each incident is a dynamic and rapidly evolving event.

414.1.1 DEFINITIONS

Definitions related to this policy include:

Hostage situation - An incident where it is reasonable to believe a person is unlawfully held by a hostage-taker as security so that specified terms or conditions will be met.

Barricade situation - An incident where a person maintains a position of cover or concealment and ignores or resists law enforcement personnel, and it is reasonable to believe the subject is armed with a dangerous or deadly weapon.

Sniper situation - An incident where an individual is armed and has announced intentions or apparently intends to harm life or property, and such report has been confirmed. Where shots have been or are being fired placing lives and or property in danger, and responding officers through their assessment have reason to believe that the perpetrator is still on the scene.

414.2 POLICY

It is the policy of the New Orleans Police Department to address hostage and barricade situations with due regard for the preservation of life and balancing the risk of injury, while obtaining the safe release of hostages, apprehending offenders and securing available evidence.

414.3 COMMUNICATION

Initial responding officers should not try to establish and maintain lines of communication with a barricaded person or hostage-taker. Officers should attempt to identify any additional subjects, inquire about victims and injuries and gather intelligence information.

Officers initially on the scene shall not bargain with, negotiate with or entertain any requests made by persons holding hostages nor allow them to leave the area except as authorize by the Special Operations Division (SOD) Tactical Commander.

When available, department negotiators should respond to the scene as soon as practicable and take over communication responsibilities, at the direction of the SOD Tactical Commander. Negotiators are permitted to exercise flexibility in each situation based upon their training, the circumstances presented, suspect actions or demands and the available resources.

New Orleans Police Department

Policy Manual

Hostage and Barricade Incidents

414.4 FIRST RESPONDER CONSIDERATIONS

First responding officers should promptly and carefully evaluate all available information to determine whether an incident involves, or may later develop into, a hostage or barricade situation.

The first responding officer should immediately request a supervisor's response as soon as it is determined that a hostage or barricade situation exists. The first responder shall assume the duties of the supervisor until relieved by a supervisor or a more qualified responder. The officer shall continually evaluate the situation, including the level of risk to officers, to the persons involved and to bystanders, and the resources currently available.

The handling officer should brief the arriving supervisor of the incident, including information about suspects and victims, the extent of any injuries, additional resources or equipment that may be needed and current perimeters and evacuation areas.

414.4.1 BARRICADE SITUATION

Unless circumstances require otherwise, officers handling a barricade situation should attempt to avoid a forceful confrontation in favor of controlling the incident in anticipation of the arrival of specialized personnel and trained negotiators. Based upon the level of risk, the following options, while not all-inclusive or in any particular order, should be considered:

- (a) Ensure injured persons are evacuated from the immediate threat area if it is reasonably safe to do so. Request medical assistance.
- (b) Assign personnel to a contact team to control the subject should he/she attempt to exit the building, structure or vehicle, and attack, use deadly force, attempt to escape or surrender prior to additional resources arriving.

- (i) Determine the need for and notify the appropriate persons within and outside the Department, such as command officers and the Public Information Officer through the Command Desk.

414.4.2 HOSTAGE SITUATION

Officers presented with a hostage situation should attempt to avoid a forceful confrontation in favor of controlling the incident in anticipation of the arrival of specialized personnel and trained hostage negotiators. However, it is understood that hostage situations are dynamic and can require that officers react quickly to developing or changing threats. Based upon the level of risk, the following options, while not all-inclusive or in any particular order, should be considered:

Scene Commanders shall be responsible for control of all police personnel and the monitoring of police officer safety.

414.6.1 REPORTING

The first responding officer from the district of occurrence shall be responsible for the completion of the initial report.

Response to Bomb Calls

416.1 PURPOSE AND SCOPE

These guidelines have been prepared to assist officers in their initial response to incidents involving explosives, explosive devices, suspected explosive devices, suspicious packages or explosion/bombing incidents. Under no circumstances should these guidelines be interpreted as compromising the safety of first responders or the public. When confronted with an incident involving explosives, safety shall always be the primary consideration.

416.2 PRIORITY CALL

All calls received of a bomb threat, explosive, explosion, or incendiary device are assigned a code two priority and a district unit and supervisor shall be dispatched to the location. Communications Services shall notify the Special Operations Division, or consult the call out roster when circumstances exist that warrant extensive building search and/or evacuation.

416.3 FOUND EXPLOSIVES/SUSPECT DEVICES

When an officer responds to a call of a suspected explosive device, the following guidelines shall be followed:

- (a) No known or suspected explosive item should be considered safe regardless of its size or apparent packaging.
- (b) The New Orleans Police Department bomb squad should be summoned for assistance along with a district unit and supervisor even when in doubt.
- (c) A minimum perimeter of 300 feet should be established around the location of the device. An access point should be provided for support personnel.
- (d) As much initial information as possible should be promptly relayed to the Platoon Commander, including:
 1. The stated threat.
 2. Exact comments.
 3. Time of discovery.
 4. Exact location of the device.
 5. Full description (e.g., size, shape, markings, construction).
- (e) The device should not be touched or moved except by qualified bomb squad personnel.
- (f) Responding personnel should not transmit on any equipment that is capable of producing radio frequency energy within 300 feet of the suspected device. This includes two-way radios, cell phones and other personal communication devices.
- (g) Consideration should be given to evacuating any buildings near the device.
- (h) An incident report shall be generated by the responding officer and a copy sent to the bomb squad for tracking.

416.4 EXPLOSION/BOMBING INCIDENTS

When an explosion has occurred, there are multiple considerations that may confront an officer. As in other catastrophic incidents, a rapid response will help to minimize such things

New Orleans Police Department

Policy Manual

Response to Bomb Calls

as further injury to victims, contamination of the scene by gathering crowds, additional damage from resulting fires or unstable structures.

416.4.1 FIRST RESPONDER RESPONSIBILITIES

Whether the explosion was the result of an accident or a criminal act, the officer should consider the following:

- Assess the scope of the incident, including the number of victims and extent of injuries.
- Assist with first-aid.
- Assist with evacuation of victims.
- Identify and take appropriate precautions to mitigate scene hazards such as collapsed structures, blood borne pathogens, hazardous materials and secondary explosive devices.
- Request additional resources as needed.
- Identify witnesses.
- Preserve evidence.
- Search for additional or secondary devices
- Suitable location for the Public Information Officer (PIO) and Command Post.
- Officers shall keep in mind the area is a crime scene and should be treated as such.

416.4.2 NOTIFICATIONS

When an explosion has occurred, the following people shall be notified as soon as practicable if their assistance is needed:

- (a) Fire department and/or state fire marshal
- (b) Alcohol, Tobacco and Firearms and Explosives (ATF)
- (c) Emergency Medical Services (EMS)
- (d) Bomb Squad
- (e) Additional officers
- (f) PIO
- (g) Field supervisor
- (h) Platoon commander
- (i) Investigators
- (j) Forensic science services
- (k) American Red Cross

416.4.3 CROWD CONTROL

Only authorized personnel with a legitimate need shall be permitted access to the scene. Spectators and other unauthorized individuals shall be excluded to a safe distance as is reasonably practicable given the available resources and personnel. Crowd and media shall be placed in a safe location in an outside perimeter which ensures no contamination of the scene, and no chance of interference in the investigation.

416.4.4 PRESERVATION OF EVIDENCE

As in any other crime scene, steps should immediately be taken to preserve the scene. The Platoon Commander should assign officers to protect the crime scene area, which

New Orleans Police Department

Policy Manual

Response to Bomb Calls

could extend over a long distance. Consideration should be given to the fact that evidence may be imbedded in nearby structures or hanging in trees and bushes nearby and possibly inside victims.

Human lives shall not be placed in jeopardy for the purpose of securing or preserving evidence or property.

416.5 BOMB THREATS RECEIVED AT A POLICE FACILITY

Employees receiving a bomb threat at a police facility should gather as much information from the notifying individual, including the type, placement and alleged detonation time of the device.

If the bomb threat is received at a police facility on a recorded line, steps should be taken to ensure that the recording is preserved in accordance with current Department evidence procedures.

If the call is made to Communication Services, the Bomb Threat Call Checklist should be followed.

An incident report shall be generated and forwarded to the bomb squad for tracking.

416.5.1 RESPONSIBILITIES

The employee receiving the bomb threat shall ensure that the Platoon Commander is immediately advised and fully informed of the details. The Platoon Commander will then direct and assign officers as required for coordinating a general building search or evacuation as he/she deems appropriate.

416.6 BOMB THREATS AT PUBLIC OR PRIVATE FACILITY

This procedure shall be followed should a bomb threat occur at a private facility or another public facility and the Department is informed of the threat.

The decision to allow personnel back into the public or private facility will be the responsibility of the person or persons in charge of the building when such facility is deemed safe to enter.

416.6.1 PROCEDURE

Employees informed of a bomb threat at a private facility or another public facility should obtain as much information as reasonably possible from the notifying individual, including:

- (a) Whether the individual is requesting law enforcement assistance at the facility.
- (b) The location of the facility
- (c) The type of facility
- (d) Has the facility received threats in the past (HazMat)
- (e) The nature of the threat received.
- (f) The alleged type and detonation time of the device.
- (g) Whether the facility is occupied, and if so, the number of occupants currently on scene.

The employee receiving the bomb threat information should also ensure that the Platoon Commander is immediately notified so that he/she can communicate with the person in charge of the facility.

New Orleans Police Department

Policy Manual

Response to Bomb Calls

Officers shall complete an incident report and forward a copy of the report to the Bomb Squad.

416.6.2 EVACUATION OR SEARCH ASSISTANCE

If the person in charge of the facility makes a request for law enforcement assistance, the Platoon Commander will determine the level of assistance the Department will provide as well as make a determination of the following:

- (a) The plan for assistance.
- (b) Whether to evacuate and/or search.
- (c) The appropriate support personnel necessary (e.g. fire and EMS).
- (d) An Incident Report shall be generated and a copy forwarded to the Bomb Squad upon its completion.

Considerations regarding the involvement of facility staff in searching and evacuating is important as a search or evacuation can be difficult without a working familiarity of the facility. The risks associated with a search and evacuation should be explained to the person in charge of the facility by the Platoon Commander. The warning provided by the Platoon Commander should include the possibility of injury to facility staff and/or damage to the facility as a result of a search.

416.6.3 BOMB THREATS AT A FEDERAL BUILDING OR PROPERTY

A bomb threat incident at a federal building or property shall be reported to the Federal Protective Service (FPS) (877-437-7411). The FPS will provide a uniformed police response, which may include use of its Explosive Detector Dog Teams.

Any devices or suspected devices will be rendered safe by the bomb squad. Established Bomb Squad Standard Operating Procedures/logic tree shall be followed unless special circumstances deem otherwise.

416.7 BOMB SQUAD/TECHNICIAN

The Bomb Squad shall contact the military ordnance disposal team when their assistance is needed.

Once the area is evaluated as safe to enter to begin an investigation, the department's Bomb Technician will enter the area to canvass for any other possible explosive devices. The Bomb Technician should utilize all safety measures to ensure no other devices are present in the area. Explosive detecting dogs should be utilized in the canvassing of the area. Prior to this measure, a secure perimeter of 300 ft. will be established.

The bomb technician will be the sole decision maker on the scene relative to the removal or safe rendering of a discovered device.

The bomb technician shall summon other support technicians and equipment needed for the safe removal of a device. Once the device is rendered safe by the bomb technician, the device will be submitted for evidence per current department policies/procedures pertaining to hazardous materials.

If no other devices are discovered, the Bomb Technician will assist the Crime Scene Technicians in collecting additional evidence (post-blast).

New Orleans Police Department

Policy Manual

Response to Bomb Calls

The Bomb Squad will make the necessary notifications to the Federal Bureau of Investigation (FBI) based on the incident.

The bomb technician will complete a supplemental report concluding the rendering safe procedures.

The Bomb Squad will follow guidelines provided by the FBI Hazardous Devices School (HDS).

Mental Illness Civil Commitments

418.1 PURPOSE AND SCOPE

The purpose of this policy is to provide the officers of this department with guidance to effectively respond to situations involving individuals who may require detention for purposes of mental health evaluation.

418.1.1 DEFINITIONS

Definitions related to this policy include:

Dangerous to others - The condition of a person whose behavior or significant threats support a reasonable expectation that there is a substantial risk that he will inflict physical harm upon another person in the near future (La. R.S. 28:2(3), Ch. C. Art 1404(3)).

Dangerous to self - The condition of a person whose behavior, significant threats or inaction supports a reasonable expectation that there is a substantial risk that he will inflict physical or severe emotional harm upon his own person (La. R.S. 28:2(4), Ch. C. Art 1404(4)).

Gravely disabled - The condition of a person who is unable to provide for his own basic physical needs, such as essential food, clothing, medical care, and shelter, as a result of serious mental illness or substance abuse and is unable to survive safely in freedom or protect himself from serious harm; the term also includes incapacitation by alcohol, which means the condition of a person who, as a result of the use of alcohol, is unconscious or whose judgment is otherwise so impaired that he is incapable of realizing and making a rational decision with respect to his need for treatment (La. R.S. 28:2(10), Ch. C. Art 1404(10)).

Mentally ill person - Any person with a psychiatric disorder which has substantial adverse effects on his ability to function and who requires care and treatment. It does not refer to a person suffering solely from mental retardation, epilepsy, alcoholism, or drug abuse (La. R.S. 28:2(14), Ch. C. Art 1404(15)).

418.2 POLICY

Law enforcement encounters with individuals suffering from mental illnesses require special consideration and sensitivity. Officers should use reasonable and necessary precautions when appropriate to avoid a violent encounter with the person being taken into temporary protective custody (La. R.S. 28:53.2(C)(5)).

It is therefore the policy of the New Orleans Police Department to treat such individuals in a respectable and fair manner as well as to appropriately train members of the Department to manage situations involving individuals who may require detention for purposes of mental health evaluation.

418.3 GENERAL INFORMATION

The Crisis Transportation Service (CTS) is an emergency van staffed by auxiliary civilian volunteer personnel (CTS Technicians). Two civilian employees (Program Administrator and Program Coordinator) shall be responsible for the day to day administrative duties associated with the Crisis Transportation Service. The Crisis Transportation Service shall

New Orleans Police Department

Policy Manual

Mental Illness Civil Commitments

be commanded by a commissioned officer with the rank of sergeant or above whose title shall be Program Director. The Program Administrator and Program Coordinator will not normally staff the emergency van unless specifically authorized by the Program Director.

The Crisis Transportation Service is authorized by the Superintendent to assist patrol units in processing and transporting mentally disturbed persons who do not have criminal charges pending as a result of the incident. The Crisis Transportation Service will generally be available seven days a week from 12:00 (noon) until 12:00 (midnight).

It should be noted that CTS Technicians are not police officers and are not armed. Officer responding to calls with CTS Technicians shall remember that the CTS Technicians are responding in an assistance capacity and are not equipped to effectively deal with situations requiring specialized training in police techniques.

418.4 AUTHORITY OF AN OFFICER

An officer may take a person into temporary civil protective custody and transport him/her to an appropriate treatment facility for a medical evaluation when, as a result of his personal observation, the officer has reasonable grounds to believe the person is a proper subject for involuntary admission because the person is acting in a manner dangerous to himself or dangerous to others, is gravely disabled, and is in need of immediate hospitalization to protect such a person or others from physical harm (La. R.S. 28:53(L), Ch. C. Art. 1433).

Officers shall not state to any person that involuntary admission may result if such person does not voluntarily admit himself/herself unless the officer is prepared to execute a certificate of committal (La. R.S. 28:52(D)).

Officers may take mentally disturbed persons or persons suffering from substance abuse into custody under any of the following circumstances:

- (a) There is a Physician's Emergency Certificate (PEC) signed by a licensed physician. A PEC shall be effective for 72 hours from its issuance.
- (b) There is an Order for Protective Custody (OPC) signed by the Coroner or judge from a court of competent jurisdiction. An OPC shall be valid for 72 hours from its issuance.
- (c) Abnormal behavior is observed by the officer or CTS Technician and it is reasonable to believe that the person is a danger to self or others.
- (d) The disturbed person voluntarily requests to be taken.
- (e) The disturbed person is involved in a violation of law.

418.4.1 DETENTION

The detention of a person under this policy does not constitute an arrest but rather a civil commitment and in protective custody. When a person is detained for mental health evaluation, that person shall not be held in the jail, except that the jail may be used if no other suitable place of confinement for treatment and evaluation is readily available. In such a situation, the person shall be detained separately from all other inmates and should generally be monitored per the Temporary Holding Facility Policy or the Temporary Custody of Juveniles Policy, as applicable.

If the person is suffering from substance abuse and when an appropriate facility is unavailable the officer may use whatever means or facilities is available to protect the health and safety of the person until an appropriate facility become available. In taking a person into protective civil custody the officer may take reasonable steps to protect themselves (La. R.S. 28:53(L)(3)).

New Orleans Police Department

Policy Manual

Mental Illness Civil Commitments

Any apprehension, taking into protective custody, or confinement, made by an officer pursuant to state law is an administrative act relative to the functions of their office, as required by law, and for which act they are specifically granted personal immunity (La. R.S. 28:63(D), Ch. C. Art. 1419(C)).

418.5 COMMUNICATION SERVICES RESPONSIBILITIES

Dispatchers shall relay as much information as possible to any units responding to a call for service involving a mentally disturbed person. These calls for service shall be assigned to a two man car. Additionally, a ranking officer and a two man backup unit shall be assigned. Backup units shall continue enroute to the location until the primary unit has determined and announced that no additional units are necessary.

418.6 OFFICER CONSIDERATIONS AND RESPONSIBILITIES

Any officer responding to or handling a call involving a person who may warrant involuntary commitment should consider utilizing:

- (a) Any available information that might assist in determining the possible cause and nature of the mental illness, such as developmental disabilities, intoxication or chemical dependency.
- (b) Conflict resolution and de-escalation techniques for potentially dangerous situations involving a mentally ill person.
- (c) Language that is appropriate for interacting with a mentally ill person.
- (d) If circumstances reasonably permit, alternatives to deadly force when interacting with a potentially dangerous mentally ill person.
- (e) Community resources that may be readily available to assist with a mentally ill person.
- (f) Inquiring about any advance directive document in which a person has specified his/her choice about care and treatment should the person later become incapable of exercising choice.
- (g) Medical treatment and clearance should be obtained when warranted prior to transportation to the receiving mental health facility.

418.6.1 INSTRUCTIONS

Officers responding to calls involving mentally disturbed persons shall make an initial assessment to determine if the subject fits one of the above categories (see 418.4) and will require transportation to a treatment facility.

If the investigating officers determine that the mentally disturbed person meets the above criteria, requires transportation, the incident does not involve a violation of law, and the CTS unit has not already been dispatched, the officers shall inquire as to the availability of the CTS unit for transportation assistance with the dispatcher.

The responding officers shall attempt to contain the situation as necessary to provide for the safety of officers, CTS Technicians, family members, and any bystanders who may be present.

If the mentally disturbed person is suffering from an emergency medical condition or requires special medical attention or care (i.e., attempt suicide calls), officers shall summon EMS to the scene. The CTS unit shall not transport any subject meeting the above mentioned description.

New Orleans Police Department

Policy Manual

Mental Illness Civil Commitments

If the CTS unit is not available, district units shall be responsible for transporting the subject as needed. The transporting of mentally disturbed persons shall be made in compliance with the regulation governing prisoner transportation found in chapter 72 of this manual.

Any OPC, PEC, or judicial order of commitment shall be brought to the treatment facility with the transporting unit.

Officers and CTS technicians shall remain with the subject at the treatment facility until the subject has been properly admitted and the facility assumes responsibility for the subject.

If the CTS unit is available to respond, the officers shall remain on the scene until the subject is secured in the CTS van and the van is underway to its destination.

If it is necessary for an officer to accompany CTS personnel during the transportation in the rear of the van, that officer shall remove and secure his/her firearm in his/her patrol car.

If it is necessary for an incident report to be written, the investigating officers shall be responsible for completing same.

418.7 CTS UNIT INSTRUCTIONS

The CTS unit shall advise the Communications Division, via police radio, that they are

in-service at the beginning of their tour of duty. Furthermore, the CTS unit shall advise the dispatcher of any special area assignments which may exist.

The CTS unit shall monitor and be based on the working dispatch group for the First District.

Upon being notified of a call for service, the CTS unit shall proceed to the location to assist district units. The CTS unit shall keep the dispatcher for the location of occurrence advised of their status upon arrival, transport, and completion of assignment, as per current procedure.

All subjects transported by members of the Crisis Transportation Service must be restrained and properly secured with the vehicle's seatbelt prior to transportation. CTS personnel shall only use restraining devices which have been specifically authorized by the CTS Program Director. Additionally, CTS personnel shall be trained in the use of any authorized restraining devices. Restrained subjects shall not be left unattended under any circumstances.

CTS Technicians shall not transport subjects who are under arrest or who have a medical condition requiring care beyond their expertise also considering available medical equipment.

CTS Technicians shall complete a run report for each call received, including incomplete or canceled calls. All reports completed by CTS personnel shall be maintained by CTS staff.

CTS Technicians shall not attempt to intervene in a call for service until sufficient officers are present.

The Communications Division shall notify the CTS unit of any calls for service involving mentally disturbed persons, when the unit is available and in service, or when requested by an officer on the scene of an incident involving a mentally disturbed person.

New Orleans Police Department

Policy Manual

Mental Illness Civil Commitments

The Communications Division shall notify the CTS unit on their base channel and advise them to change channels to the working dispatch group for the location of occurrence.

418.7.1 CRISIS TRANSPORTATION SERVICES - STAFFING

Routinely the CTS Van(s) are staffed by 2 Crisis Transportation Technicians (6512). However, circumstances due to a personnel shortage may allow for the CTS van to be staffed by 1 Crisis Technician (6513).

Under this condition 6513 may respond to the CTS location if requested by the on scene officers for the following reason(s):

- (a) To do a rapid assessment for determining if the subject meets criteria for transport to a psychiatric facility for further evaluation and / or treatment.
- (b) Is a result of:
 - 1. Danger to self (Suicidal)
 - 2. Danger to others (Homicidal)
 - 3. Gravely Disabled (Due to M.J.)
- (c) If transport is determined by the on scene supervisor the options are:
 - 1. Transport by police unit and met at psych facility by Crisis Unit Technicians and once there Crisis Unit Technician shall relieve officers and assume responsibility w/hospital security of subject to be admitted.
 - 2. Transported by Crisis Unit w/assistance. One police officer will ride in Crisis Unit Van, either drive van or attend to patient, in rear of van. The officer's weapon must be secured in patrol cars trunk before prior to entering the Crisis Unit Van.

Under no circumstances will a single person Crisis Unit (6513) transport a subject without assistance from a police officer.

418.8 BARRICADED SUBJECTS

Any incidents involving barricaded subjects who are mentally disturbed shall be handled as per the regulation entitled Barricaded Subjects/Sniper Situations found in policy that addresses barricaded subjects.

418.9 TRANSPORTATION

When transporting any individual in custody for a mental illness evaluation, and if reasonably practicable, the handling officer should have the Communications Center notify the receiving facility of the estimated time of arrival, the level of cooperation of the individual and any special medical care needs of the individual that are reasonably known to the officer.

Officers may transport the detained individual in the patrol unit and shall secure them in accordance with the Handcuff Policy. Violent individuals or those who are medically unstable may be restrained and transported by ambulance and ambulance personnel. An officer should accompany a violent individual when transported by ambulance. Transporting violent individuals in a patrol unit equipped with a barrier or cage is generally safer with two officers in the vehicle.

The officer will escort the detained individual into the facility and place that person in a designated treatment room or location, as directed by a facility staff member. As soon as a

New Orleans Police Department

Policy Manual

Mental Illness Civil Commitments

security staff member becomes available, he/she should relieve the officer and physically remain in the treatment room with the individual (La. R.S. 28:53(L)(2)).

418.9.1 RESTRAINTS

If the patient is violent or potentially violent, the officer will notify the staff. The staff member in charge will have discretion as to whether soft restraints will be used. If these restraints are desired, the officer may wait while they are being applied to help provide physical control of the patient, if needed.

418.10 WRITTEN DOCUMENTATION

The officer shall complete and provide the appropriate mental illness commitment application and any associated affidavits and witness lists to the facility staff. The application shall be based upon the officer's personal observations (La. R.S. 28:53).

The officer will retain a copy of the admission documents for inclusion in the case report.

The officer should also provide a verbal summary to a receiving facility staff member regarding the circumstances leading to the involuntary detention.

418.11 SECURING OF WEAPONS

418.12 MENTALLY ILL PERSON CHARGED WITH A CRIME

Any person charged with a crime who also appears to be mentally ill shall be transported to Central Lock-up.

If the person has injuries or some other medical condition, he/she may be taken directly to the hospital for initial medical treatment with the approval of a supervisor. After medical clearance is received, the person shall be transported to Central Lock-Up.

418.13 SAFEKEEPING OF FIREARMS AND WEAPONS

Whenever a person has been detained or taken into custody for mental illness evaluation and is found to have in his/her possession or under his/her immediate control, any firearm or other deadly weapon, the handling officer should consider confiscating the firearm or weapon for safekeeping. A property receipt shall be given to the owner and the firearm or other deadly weapon shall be booked into evidence until further processing and release.

If consent is not given to take any deadly weapons which are not in the subject's immediate control, officers are cautioned that a search warrant may be needed before entering a residence to search for any deadly weapons, unless lawful, warrantless entry has already been made (e.g., exigent circumstances, valid consent).

The handling officer shall further advise the person of the procedure for the return of any firearm or other lethal weapon that has been taken into custody.

418.14 TRAINING

As part of advanced officer training programs, this agency will endeavor to include Department approved training on interacting with mentally disabled persons.

Arrests

419.1 PURPOSE AND SCOPE

This policy is to establish guidelines for making an arrest.

419.1.1 DEFINITIONS

Definitions related to this policy include:

Arrest - is the taking of one person into custody by another. To constitute arrest there must be an actual restraint of the person. The restraint may be imposed by force or may result from the submission of the person arrested to the custody of the one arresting him. An arrest is a restraint of greater scope or duration than an investigatory stop or detention. An arrest is lawful when supported by probable cause.

419.2 POLICY

Officers shall only arrest an individual where the officer has probable cause.

In effectuating an arrest, officers shall not rely on information known to be materially false or incorrect. Officers may not consider race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, or gender identity in effecting an arrest, except as part of an actual and apparently credible description(s) of a specific suspect or suspects in any criminal investigation.

Officers shall immediately notify a supervisor when:

- Effectuating a felony arrest;
- An arrest where the officer used force;
- An arrest for obstructing or resisting an officer;
- A custodial arrest where the most serious violation was a vehicle infraction, simple drug possession, or, outside the French Quarter and Central Business District, any of the following city or state laws:
 - Disturbing the Peace (City Code 54-103; LSA-La. R.S. 14:103);
 - Criminal Trespass (City Code 54 153; LSA-La. R.S. 14:63);
 - Obstructing Public Passages (City Code 54-40; LSA-La. R.S. 14:100.1); or
 - Begging/Vagrancy (City Code 54-411; 14:107). Upon notification, the supervisor shall respond to the scene.

A commissioned officer making a criminal arrest without a warrant must comply with C.Cr.P. art 213 (Arrest by Officer without Warrant, when lawful).

An arrest warrant is not required to arrest a person(s) in a public venue.

An officer may search the area within the arrested person's immediate control, meaning the area from which he/she may grab a weapon or destroy evidence (Chimel v. California, 395 U.S. 752 [1969]).

Anyone arrested shall be searched prior to transportation. (United States v. Robinson, 414 U.S. 218 [1973]).

New Orleans Police Department

Policy Manual

Arrests

419.3 SUPERVISOR'S RESPONSIBILITIES

The responding supervisor shall approve or disapprove the officer's arrest recommendation based on the existence of probable cause and NOPD policy. The supervisor shall take appropriate action to address violations or deficiencies in the officer's arrest recommendation, including releasing the subject, recommending non-disciplinary corrective action for the involved officer, and/or referring the incident for administrative or criminal investigation.

Officers shall complete all arrest reports before the end of shift. Field supervisors shall review each arrest report of officers under their command and shall memorialize their review in writing within 12 hours of receiving the report, absent exceptional circumstances. Supervisors shall review reports and forms for boilerplate or pat language, inconsistent information, lack of probable cause, or other indications that the information in the reports or forms is not authentic or correct.

As part of the supervisory review, the supervisor shall document all arrests that are unsupported by probable cause, are in violation of NOPD policy, or that indicate a need for corrective action or review of agency policy, strategy, tactics, or training. The supervisor shall take appropriate action to address violations or deficiencies in making arrests, including recommending non-disciplinary corrective action for the involved officer, and/or referring the incident for administrative or criminal investigation. For each subordinate, the supervisor shall track each violation or deficiency and the corrective action taken, to identify officers needing repeated corrective action. The supervisor shall ensure that each violation or deficiency is noted in the officer's performance evaluations. The quality of these supervisory reviews shall be taken into account in the supervisor's own performance evaluations. Appropriate corrective or disciplinary action shall be taken against supervisors who fail to conduct reviews of adequate and consistent quality.

419.4 DISTRICT/DIVISION COMMANDER'S RESPONSIBILITIES

A district/division commander shall review, in writing, all supervisory reviews related to arrests that are unsupported by probable cause, are in violation of NOPD policy, or that indicate a need for corrective action or review of agency policy, strategy, tactics, or training. The commander's review shall be completed within seven days of receiving the document reporting the event. The district/division commander shall evaluate the corrective action and recommendations in the supervisor's written report and ensure that all appropriate corrective action is taken, including referring the incident to PIB for investigation, if appropriate.

NOPD shall track at the district/division level the DA's acceptance and refusal rates of arrests made by NOPD and reasons for refusals, when made available by the DA, including those factors and information indicating that a failure to prosecute was due to the quality of officer arrests or concerns regarding officer conduct. These statistics shall be maintained by the district/division comstat officer and included weekly in the district/division comstat report. Each District Commander shall be held accountable for referring to PIB for investigation any information regarding specific incidents of possible officer misconduct related to officer arrests noted in the DA's refusal reasons.

419.5 FIRST AMENDMENT RIGHT TO OBSERVE AND RECORD OFFICER CONDUCT

Officers shall ensure that, in accordance with their rights secured or protected by the Constitution and laws of the United States, onlookers or bystanders may witness, observe, record, and/or comment on officer conduct, including stops, detentions, searches, arrests,

New Orleans Police Department

Policy Manual

Arrests

or uses of force. Officers shall respect the right of civilians to observe, record, and/or verbally comment on or complain about the performance of police duties occurring in public, and NOPD shall ensure that officers understand that exercising this right serves important public purposes.

Individuals observing stops, detentions, arrests, and other incidents shall be permitted to remain in the proximity of the incident unless one of the below listed conditions are met.

Individuals shall be permitted to record police officer enforcement activities by camera, video recorder, cell phone recorder, or other means, unless one of the below listed conditions are met.

Officers shall not threaten, intimidate, or otherwise discourage an individual from remaining in the proximity of or recording police officer enforcement activities.

Officers shall not detain, prolong the detention of, or arrest an individual for remaining in the proximity of, recording, or verbally commenting on officer conduct directed at the individual or a third party, unless one of the below listed conditions are met.

Officers shall take appropriate law enforcement action against a bystander only if a bystander's presence would:

- Jeopardize the safety of the officer,
- Jeopardize the safety of the suspect,
- Jeopardize the safety of others in the vicinity,
- Jeopardize the crime scene integrity,
- Violates the law, or
- Incites others to violate the law.

Officers shall not seize or otherwise coerce production of recorded sounds or images without obtaining a warrant, or order an individual to destroy such recordings. Where an officer has a reasonable belief that a bystander or witness has captured a recording of critical evidence related to a felony, the officer may secure such evidence for no longer than required to obtain a legal subpoena, search warrant, or other valid order.

419.6 ARRESTS WITHIN RESIDENCE/DOMICILE

Arresting a person from inside his/her residence/domicile without an arrest warrant is permissible if one or more of the following exceptions are met:

- Consent to enter the residence is given by a person who shares access and control of the premises.
- Exigent circumstances (i.e. hot pursuit, spontaneous violence, prevention of a crime, or imminent escape to avoid apprehension).

Normally, an arrest warrant is required prior to arresting someone within a residence when there is an absence of consent or exigent circumstances, and the officer has a reason to believe the person is within the residence.

The arrest warrant(s) must name the person(s) wanted.

Officer(s) must reasonably believe the person(s) is within the residence at the time of entrance.

New Orleans Police Department

Policy Manual

Arrests

An officer may perform a limited protective sweep subsequent to an in house arrest, if the searching officer possesses a reasonable belief, based on specific and articulable facts; i.e.: the area to be swept harbors an individual or weapons posing a danger to those on the arrest scene. The sweep must extend only to a cursory inspection of those spaces where a person may be found and the sweep must last no longer than it takes to complete the arrest and depart the premises (Maryland v. Buie, 494 U.S. 325 [1990]).

419.7 ARRESTS WITHIN VEHICLES

The United States Supreme Court limited the scope of searches incident to an arrest involving a person(s) arrested within a vehicle (Arizona v. Gant 129 S. Ct. 1710 [2009]); the court held that a search of the passenger compartment of a vehicle following an arrest is allowed only if:

- An officer makes an arrest and an unsecured arrestee is within arm's reach of the passenger compartment, the passenger compartment could be searched incident to arrest (it is recommended an officer not compromise his/her or other officers safety in order to justify searches).
- It is reasonable to believe evidence related to the crime of arrest could be found in the passenger compartment, and the search is incident to that lawful arrest.
- An officer reasonably believes a vehicle occupant is dangerous and may gain immediate control of a weapon from a vehicle the officer may conduct a limited search of the passenger compartment, only looking in places that a weapon could be hidden (vehicle frisk).
- Officer obtains a warrant.
- Officer can show that another exception to the warrant requirement applies.

419.8 RELEASE OR SUMMONS OF WANTED PERSONS

A summons may be issued in lieu of an arrest pursuant to C.Cr.P. Art. 211 (Summons by officer instead of arrest and booking) (see Cite and Release Policy and PR 420).

An officer may release, issue a summons, or arrest a person wanted for certain offenses based on the type of offense and the jurisdiction of the issuing warrant(s)/attachment(s) agency. Officers shall not issue a summons for any of the following circumstances:

- An offense involving the operation of a vehicle while intoxicated,
- An offense involving the use or possession of a weapon,
- An offense involving force or violence, except simple battery, other than domestic abuse battery,
- An offense involving the failure to pay legal child support, or
- An offense involving any felony.

An Individual detained and found to have a verified warrant/attachment from a jurisdiction within the State of Louisiana other than Orleans parish, and the detaining officer, using his/her discretion, decides to release the individual pursuant to C.Cr.P. Article 211.1 in lieu of physical arrest, is processed in accordance with this Policy and the Cite and Release Policy.

Summons

420.1 PURPOSE AND SCOPE

The purpose of this policy is to provide members of the New Orleans Police Department with guidance for releasing an individual upon the issuance of a non-traffic affidavit and/or summons.

420.2 POLICY

The New Orleans Police Department will release an offender on a non-traffic affidavit and/or summons as provided in C. Cr. P. 211; C. Cr. P. 211.1; C. Cr. P. 211.2.

420.3 SUMMONS RELEASE

A summons release is permitted instead of making an arrest as follows (C. Cr. P. 211):

- (a) Whenever it is lawful for an officer to make an arrest without a warrant for a misdemeanor, or a felony charge of theft or illegal possession when the property stolen has a value of \$500 or more but less than \$1,000, and all of the following exist:
 1. The officer has reasonable grounds to believe that the person will appear upon the summons;
 2. The officer has no reasonable grounds to believe the person will cause injury to him/herself or another, cause damage to property or will continue in the offense unless immediately arrested and booked;
 3. There is no necessity to book the person to comply with routine identification procedures; and
 4. If the summons is for a felony, the officer has ascertained that the person has no prior criminal convictions.

 2. The person will not injure him/herself or others or cause damage to property unless immediately arrested.
- (c) When a peace officer has reasonable grounds to believe a person has committed an offense of driving without a valid driver's license in his possession, the officer shall make every practical attempt based on identifying information provided by the person to confirm that the person has been issued a valid driver's license. If the officer determines that the person has been issued a valid driver's license which is not under revocation, suspension, or cancellation, but that the license is not in his possession, the officer shall issue a written summons to the offender in accordance with law, commanding him to appear in court (C.C.P. art. 211 (C)).
- (d) When an officer stops a person who has an outstanding warrant or an attachment for failing to comply with a summons to appear in court on a misdemeanor offense in this jurisdiction, including a traffic offense the officer may issue a summons release, unless the offense involved one of the following, in which case no summons may be issued:(C. Cr. P. 211.1):

 5. The offender has an outstanding felony warrant.
 6. All domestic violence incidents.
- (e) When an officer serving a subpoena, summons or notice to appear for a misdemeanor traffic offense or a nonviolent offense, not involving possession of illegal weapons and driving under the influence, has reasonable grounds to believe that the offender has failed to comply with the subpoena, summons or notice and proof of service has been recorded (C. 420.5 CARE FOR DEPENDENTS OR ANIMALS

In the event an arrested person is determined to be a caretaker for any child or dependent adult and the arrestee will be detained longer than would reasonably allow him/her to properly provide care, the arresting officer should make reasonable arrangements to ensure that a suitable caretaker will be available to provide care for the dependents. Suitable caretakers include other legal guardians, or friends or family members with the arrestees consent. If a suitable caretaker is not available the arresting officer should contact the appropriate protective services for assistance.

If the arrestee is a caretaker for any animal or pet the arresting officer should take reasonable steps to ensure the animal or pet will have adequate care in the event the arrestee will be detained longer than would reasonably allow him/her to properly provide care. Relatives or neighbors may be contacted, with the owner's consent, to care for the animals. If no persons can be found or the owner does not consent, the appropriate animal control authority should be notified.

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

422.1 PURPOSE AND SCOPE

The Vienna Convention on Consular Relations sets forth certain rights of foreign nationals from member countries when they are arrested, detained or imprisoned by law enforcement officials in this country. This policy provides direction to officers when considering a physical arrest or detention of a foreign national. All Foreign Service personnel shall be treated with respect and courtesy, regardless of the level of established immunity. As noted herein, the United States is a party to several bilateral agreements that obligates authorities to notify the consulate upon the person's detention, regardless of whether the detained person requests that his/her consulate be notified. The list of specific countries that the United States is obligated to notify can be found on the U.S. Department of State (DOS) website, <http://www.travel.state.gov>.

422.1.1 DEFINITIONS

Definitions and information related to this policy include:

Diplomatic immunity - Refers to various protections and privileges extended to the employees of foreign governments who are present in the U.S. as official representatives of their home governments. These privileges are embodied in international law and are intended to ensure the efficient and effective performance of their official missions (i.e., embassies and consulates) in foreign countries. Proper respect for the immunity to which an individual is entitled is necessary to ensure that U.S. diplomatic relations are not jeopardized and to maintain reciprocal treatment of U.S. personnel abroad.

Although immunity may preclude U.S. courts from exercising jurisdiction, it is not intended to excuse unlawful activity. It is the policy of the DOS Office of Foreign Missions (OFM) that illegal acts by Foreign Service personnel should always be pursued through proper channels. The host country's right to protect its citizens supersedes immunity privileges. Peace officers may intervene to the extent necessary to prevent the endangerment of public safety or the commission of a serious crime, regardless of immunity claims.

Waiver of immunity - The voluntary relinquishment or surrender of diplomatic immunity. Diplomatic immunity is extended to a country, not an individual. An individual does not own the immunity and immunity may be waived, in whole or in part, by a representative of the country who employs the individual. While a waiver of immunity in the face of criminal charges is not common, it is routinely sought and occasionally granted. The police department's ability to secure a waiver of immunity may depend to a large degree on the strength and documentation of the case at issue. Similarly, it is of little use for the police department to secure a waiver of immunity in a particular case, if the case has not been developed with sufficient care and completeness to permit a successful subsequent prosecution.

Official acts immunity - An affirmative defense to be raised before the U.S. court having subject matter jurisdiction over the alleged crime. Official acts immunity is not a prima facie bar to the exercise of jurisdiction by U.S. courts. If such court, in the full light of all the relevant facts, determines the action complained of was an official act, only at that point does international law preclude the further exercise of jurisdiction by the U.S. court. Because

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

judicial determination in a case of this type is highly dependent on the facts surrounding the incident, a full and complete police report may be critical in permitting the court to make a just decision.

Termination of immunity - This occurs upon the termination of a diplomatic or consular tour, including a reasonable period of time for such person to depart the United States, diplomatic immunity expires. Criminal immunity is not a perpetual benefit for individuals granted such status, except for immunity for official acts, which subsists indefinitely. Upon termination of immunity law enforcement authorities of the United States can obtain personal jurisdiction over a person alleged to have committed criminal acts in the United States, normal prosecution may go forward. This assumes, of course, that the case against such an individual has been adequately developed at the time of the alleged action and any applicable statute of limitations has not run. Obtaining an indictment, information or arrest warrant, even though they would be without immediate legal effect, would lay the basis for a prosecution at a later date. Moreover, the existence of an outstanding arrest warrant may be entered into the records of the U.S. immigration authorities and thus serve to bar the subsequent issuance of a U.S. visa permitting such person to enter the United States.

Persons who once resided in the United States in a status affording criminal immunity may later return for pleasure or otherwise under conditions affording them no criminal immunity. In the case of serious crimes and with respect to foreign countries with which the United States enjoys an extradition relationship, it is not precluded under international law that international extradition may be effected.

Consul officers - Are members of consulate posts who are recognized by both the sending and host countries as fully authorized to perform a broad array of formal consulate functions. They have only official acts or functional immunity. Their personal inviolability is quite limited. They may be arrested pending trial provided the underlying offense is a felony and the arrest is made pursuant to a decision by a competent judicial authority (e.g. warrant). Without a bilateral agreement to the contrary, the family members of consul officers enjoy no personal inviolability and no jurisdictional immunity.

Consulate employees - Are members of the Consulate who perform administrative and technical services for the consulate post. They have no personal inviolability, and only official acts immunity. Their family members enjoy no personal inviolability or jurisdictional immunities of any kind.

Honorary consuls - Are part time employees of the sending country who provide a degree of consul representation in places not covered by career consul officers. The privileges and immunities of honorary consul officers are similar to those of career consuls officers, with some limitations. It is U. S. policy to recognize as honorary consul officers only those who are U. S. nationals or permanent residents. Accordingly, honorary consul officers in the United States have personal inviolability only in connection with official acts. Arrests of honorary consuls is not limited to felonies and does not require a warrant, as is the case with career consul officers.

Diplomatic agents - Include ambassadors and other diplomatic officers who generally have the function of dealing directly with the host country officials. They enjoy the highest degree of privileges and immunity. They enjoy complete personal inviolability, which means that they may not be arrested, detained or prosecuted. Residences may not be entered or searched. Family members forming part of the household of diplomatic agents (recognized by the Department of State as such) enjoy precisely the same privileges and immunities as do the sponsored diplomatic agents.

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

Administrative and technical staff - Include members of a diplomatic mission who perform tasks critical to the inner operation of the embassy. They enjoy the same privileges as diplomatic agents. As with diplomatic agents, the spouses of the administrative and technical staff enjoy immunity from criminal acts as do family members of diplomatic agents.

Members of service staff - Include those who perform more menial support tasks for the mission. They are accorded much less in the way of privileges and immunities. Service staff members have only official acts immunity in connection with all aspects of host state jurisdiction. Families of the service staff enjoy no privileges or immunities.

Foreign nationals - A foreign national is an individual who is a citizen of any country other than the United States.

Permanent residents of the United States - A permanent resident is a foreign national allowed to reside indefinitely within a country of which he/she is not a citizen.

As a general rule, diplomatic agents and staff/technical members of diplomatic missions are nationals of the sending country or some third country. The United States, as a general rule, does not accept the accreditation of its own nationals or permanent residents as diplomatic agents but, if the U.S. did, such diplomatic agents would enjoy inviolability and jurisdictional immunity only in connection with the performance of official acts. Family members of diplomatic agents enjoy no privileges or immunity if they are nationals or permanent residents of the United States. Both members of the administrative and technical staff and their families enjoy no immunity if they are permanent residents or nationals of the United States.

International organizations and related national missions personnel - Are international organizations, such as the United Nations. The privileges and immunities of the personnel of such organizations and the personnel of national missions to such organizations have a different basis than for immunities and privileges of diplomatic and consul representatives. In determining the degree of inviolability or immunity, law enforcement officers will be governed primarily by the identifying documents which were issued to someone. The following provides a general overview of privileges and immunities granted to an international organization's staff:

- **Personnel of international organizations** - The vast majority of personnel employed by an international organization enjoy official acts immunity only and no personal inviolability. In certain cases, the most senior executives of such organizations have been accorded privileges and immunities equal to those afforded diplomatic agents, such as the Secretary General and all Assistant Secretaries-General of the United Nations.
- **Personnel of national missions to international organizations** - Pursuant to international law, the most senior representatives in national missions to the international organizations have privileges and immunities equivalent to those afforded diplomatic agents. The remainder of the staffs are granted only official acts immunity.

Persona non grata (PNG) - A person who has become unacceptable to the parent country and been stripped of all or some privileges and immunities, allowing such persons only a reasonable time to remove themselves from the territory of the host country. PNG processes may be employed by the host country at any time, and there is no requirement, under international law, for such countries to justify their actions. For the United States, use of this procedure by request has inherent constraints. It is felt in most cases that this remedy

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

should be employed only when there is reasonable certainty that a criminal act has actually been committed. Any PNG action taken by the United States, which cannot be defended in appropriate detail, may be understood by the other country as a political action and might result in the reciprocal PNG of an innocent American diplomat. A high standard of police investigation, records and reporting in diplomatic incident cases is therefore essential in the application of diplomatic tools available to remove persons engaged in criminal activity from the United States.

VCCR - Vienna Convention consul responsibilities.

422.2 ARREST OR DETENTION OF FOREIGN NATIONALS

Officers shall take appropriate enforcement action for all violations observed, regardless of claims of diplomatic or consular immunity by violators. A person shall not, however, be subjected to an in-custody arrest when diplomatic or consular immunity is claimed by the individual or suspected by the officer, and the officer has verified or reasonably suspects that the claim of immunity is valid.

In circumstances where there is imminent danger to public safety or it is apparent a serious crime may otherwise be committed, police officers may intervene to the extent necessary to halt such activity.

Police officers are permitted to defend themselves from personal injury.

When responding to or investigating an apparent violation of the law involving a person claiming diplomatic immunity, the investigator shall request official Department of State credentials.

If the individual is unable to produce satisfactory identification, and the results of the investigation normally require an arrest, the officer shall inform the individual he or she will be detained until proper identity can be confirmed by Department of State, Protocol Office.

Once proper identification is available or obtained, the investigating officer shall honor the individual's immunity granted by law.

If the individual is entitled to full inviolability and immunity of a diplomatic agent, he or she may not be arrested, and handcuffed, and/or detained, except if the individual is dangerous to himself/herself or others.

In all instances involving individuals claiming immunity the investigating officers shall:

- (a) request a supervisor meet him/her at the scene;
- (b) document all pertinent information from the identity card;
- (c) fully document the incident reporting same on the NOPD incident report form;
- (d) including traffic offenses;
- (e) submit the report for approval; and
- (f) forward a copy to the local office of the Department of State.

422.3 LEVELS OF IMMUNITY

The specific degree of immunity afforded to Foreign Service personnel within the U.S. is directly related to their function and position in this country.

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

422.3.1 DIPLOMATIC AGENTS

Diplomatic agents (e.g., ambassadors and United Nations representatives) are afforded the highest levels of immunity. They are exempt from arrest or detention and are immune from all criminal (and most civil) prosecution by the host state. The family members of diplomatic agents enjoy these same immunities.

422.3.2 CONSULAR OFFICERS

Consular officers are the ranking members of consular posts, who perform various formal functions on behalf of their own governments. Typical titles include consul general, consul and vice consul. These officials are immune from arrest or detention, except pursuant to a felony warrant. They are only immune from criminal and civil prosecution arising from official acts. These official acts of immunity must be raised as an affirmative defense in the court jurisdiction, and its validity determined by the court. Under this defense, the prohibited act itself must have been performed as an official function. It is not sufficient that the consular agent was on-duty or in an official capacity at the time of the violation. The family members of consular officers generally enjoy no immunity. However, any family member who has a higher level of immunity is issued an identification card by DOS enumerating any privileges or immunities on the back of the card. Examples are consular officers and family members from Russia or China.

There are several consular officers in the greater New Orleans area.

422.3.3 HONORARY CONSULS

Honorary consuls are part-time employees of the country they represent and are either permanent residents of the U.S. or U.S. nationals (unlike career consular officers, who are foreign nationals on temporary assignment to the U.S.). Honorary consuls may be arrested and detained. Limited immunity for official acts may be available as a subsequent defense. Family members have no immunity.

There are many honorary consuls in the greater New Orleans area.

422.4 IDENTIFICATION

All diplomatic and consular personnel who are entitled to immunity are registered and issued distinctive identification cards by the DOS Protocol Office. These cards are the best means of identifying Foreign Service personnel. They include a photograph, identifying information, and on the reverse side, a brief description of the bearer's immunity status. These identification cards are not always promptly issued by DOS. In addition to the DOS identification card, Foreign Service personnel should have a driver's license issued by the DOS Diplomatic Motor Vehicle Office (DMVO) which, in most circumstances, replaces the operator's license issued by the state.

422.4.1 VEHICLE REGISTRATION

Vehicles that are owned by foreign missions or foreign service personnel and their dependents are registered with the DOS OFM, and display distinctive red, white and blue license plates. Vehicles assigned to diplomatic or consular officers will generally have license plates labeled with the words *diplomat* or *consul*. Vehicles owned by honorary consuls are not issued OFM license plates but may have Louisiana license plates with an *honorary consul* label. The plates are coded to correspond generally with the degree of immunity to which the owner or principal operator is entitled:

- Prefix *D* indicates a diplomatic agent;
- Prefix *S* indicates a member of the administrative and technical staff; and

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

- Prefix C indicates consulate personnel.

A driver's identity or immunity status should not be presumed from the type of license plates displayed on the vehicle. The status of an OFM license plate should be run via the National Law Enforcement Telecommunications System (NLETS), designating U.S. as the state, if the officer has reason to question the legitimate possession of the license plate.

422.4.2 EXCEPTION

If a vehicle owned by a diplomat is suspected of being stolen or used in the commission of a crime, occupants of the vehicle shall be required to present vehicle documentation to permit police verification of the vehicle's status through standard access to NLETS (use access code U.S.). Should the vehicle prove to be stolen or to have been used by unauthorized persons in the commission of a crime, the inviolability to which the vehicle would normally be entitled must be considered temporarily suspended, and normal search of the vehicle and, if appropriate, its detention, are permissible. (Clay Hays, Chief of Community Relations, Diplomatic Motor Vehicle Office at the U.S. Department of State)

If someone claims immunity, it is imperative that the investigating officer promptly and accurately confirm the status of the person. Foreign officials, their families and staff possess various documents that may identify them as a foreign official but only the identification card issued by the Department of State is recognized as valid.

The status of a person claiming immunity may be examined through their Department of State issued identification card. The three types of cards are identified by:

- (a) Diplomatic card borders are outlined in blue; Officials, green; and Consular, red.
- (b) The front of the card displays the Department of State or United Nations Seal and foreign official's photograph.
- (c) A statement of the bearer's criminal immunity is printed on the back with his/her signature.

Investigating officers may contact the Command Desk supervisor to seek assistance from the Department of State.

The following forms of identification are not conclusive of immunity status:

- **Foreign Diplomatic Passports and U. S. Diplomatic Visas** - Most foreigners in the United States who enjoy any degree of privilege and immunity possess a diplomatic passport issued by their country with a diplomatic (A of G) visa entered by U. S. authorities. However, foreign diplomatic passports, even those which contain U. S. diplomatic visas, are not authoritative confirmation their bearers enjoy any degree of privileges or immunities in the United States.
- **Tax Exemption Cards** - Under international law, most members of diplomatic missions and consulate posts and certain people associated with international organizations would normally be entitled to exemption from sales taxation in the United States. However, significant numbers of these individuals do not enjoy this privilege owing to considerations based on reciprocity.

422.5 ENFORCEMENT PROCEDURES

The following procedures provide a guideline for handling enforcement of foreign nationals.

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

422.5.1 CITABLE OFFENSES

An enforcement document shall be issued at the scene for all violations warranting such action, regardless of the violator's immunity status. The issuance of a citation is not considered an arrest or detention under current DOS guidelines. Whenever the equivalent of a notice to appear is issued to an immunity claimant, the following additional procedures shall be followed by the issuing officer:

- (a) Identification documents are to be requested of the claimant.
- (b) The title and country represented by the claimant are to be recorded on the back of the officer's copy of the notice to appear for later reference. Do not include this information on the face of the notice to appear.
- (c) Verified diplomatic agents and consular officers, including the staff and family members from countries with which the U.S. has special agreements, are not required to sign the notice to appear. The word "Refused" shall be entered in the signature box and the violator shall be released.
- (d) Claimants other than verified diplomatic agents and consular officers shall be requested to sign the notice to appear. If the claimant refuses, the identity and immunity status of the individual shall be conclusively established.
- (e) Verified consular staff members, excluding those from countries with which the U.S. has special agreements, are generally obligated to sign the notice to appear. But a signature shall not be required if the immunity status is uncertain.
- (f) All other claimants are subject to the provisions of policy and procedures outlined here.
- (g) The violator shall be provided with the appropriate copy of the notice to appear.

422.5.2 IN-CUSTODY ARRESTS

Diplomatic agents and consular officers are immune from arrest or detention unless they have no identification and the detention is to verify their diplomatic status. Proper identification of immunity claimants is imperative in potential in-custody situations. Claimants who are not entitled to immunity shall be placed in custody in accordance with the provisions outlined in this policy.

A subject who is placed under arrest and claims diplomatic or consular immunity shall not be physically restrained before verification of the claim, unless restraint is necessary for the protection of the officer or others. A supervisor shall be promptly notified and should respond to the scene. Field verification of the claimant's identity is to be attempted as follows:

- (a) An identification card issued by the DOS Protocol Office is the only valid evidence of diplomatic or consular immunity. The following types of identification cards are issued: Diplomatic (blue bordered), Consular (red bordered) and Official (green bordered). The DOS identification cards are 3-3/4 inch by 1-1/2 inch and contain a photograph of the bearer.
- (b) Newly arrived members of diplomatic or consular missions may not yet have official DOS identity documents. An officer shall verify immunity by telephone with the DOS any time an individual claims immunity and cannot present satisfactory identification, if the officer has reason to doubt the claim of immunity, or there is a possibility of physical arrest. Department personnel should use the following numbers in order of preference:

Members of diplomatic or consular missions also may have other forms of identification. These include identification cards issued by the state of Louisiana, local law enforcement agencies, the foreign embassy or consulate, a driver's license issued by DOS, and DOS license indicia on the vehicle. All these items are only an indication that the bearer may have some form of immunity.

Subjects verified through the above procedures as being officials entitled to immunity (diplomatic agent, consular officers and consular staff and family members from countries with which the U.S. has special agreements) may not be arrested. The procedures below shall be followed. These procedures should also be used in the event immunity cannot be verified but another form of identification indicates that immunity is probable.

If the release of the violator will not create an additional hazard, adequate information to properly identify the violator shall be obtained before the official is released. A supervisor's approval for the release shall be obtained whenever reasonably possible. The necessary release documents and/or a Certificate of Release Form should only be issued under the proper conditions.

If the violator appears to have been driving while under the influence, field sobriety tests, including Preliminary Alcohol Screening (PAS) device tests and chemical tests should be offered and obtained whenever reasonably possible. However, these tests cannot be compelled. The subject shall not be permitted to drive. A supervisor's approval for release shall be obtained whenever reasonably possible and alternative transportation should be arranged.

All facts of the incident shall be documented in accordance with this policy in a Driving While Impaired (DWI) Arrest - Investigation Report, and/or any other relevant report form. Notwithstanding the field release of the subject, prosecution is still appropriate and should be pursued if the violator is either stopped or issued a notice to appear for a violation while operating a motor vehicle. The officer shall either complete a notice to appear or a written report documenting the incident.

This department shall then contact DOS as soon as practicable to verify the violator's status and immunity. Within five working days of the stop, this department shall send to the Bureau of Diplomatic Security, OFM of the DOS, a copy of the notice to appear and any collision or other written report documenting the incident. The DOS will take appropriate sanctions against errant Foreign Service personnel, even where prosecution is not undertaken by the Department.

422.6 TRAFFIC CRASHES

Persons involved in traffic crashes who possess a DOS OFM Diplomatic Driver License, issued by the DMVO, shall have D coded in the license class box of the Traffic crash Report. The actual driver's license class (e.g., 1, 2, 3, or A, B, C, M) shall be entered in the miscellaneous box on page two of the traffic report. If subsequent prosecution of the claimant is anticipated, the claimant's title, country and type of identification presented should be recorded for future reference. Issuance of a citation to, or arrest of, an immunity claimant at the crash scene should be handled in accordance with the procedures specified in this policy.

422.6.1 VEHICLES

Vehicles which are owned by subjects with full immunity may not be searched, stored or impounded without the owner's permission. Such permission may be assumed if the vehicle has been stolen. These vehicles may, however, be towed the necessary distance to remove them from obstructing traffic or creating any other hazard.

422.6.2 REPORTS

A photocopy of each traffic crash report involving an identified diplomat and/or immunity claimant shall be forwarded to the office of the Superintendent of Police within 48 hours, regardless of whether the claim is verified. The words "Immunity Claim" shall be marked on the photocopy, together with a notation of the claimant's title, country and type of identification presented, if applicable. In addition to the report, a follow-up cover memorandum should be submitted if the violation was flagrant, if the claimant was uncooperative, or if there were any other unusual aspects of the enforcement contact that should be reported to DOS for further action. The Platoon Commander/supervisor apprised of the incident/collision shall also send a copy of all documents and reports submitted by the investigating officer, along with any supervisor's notes, materials or logs, to the Superintendent of Police's office within 48 hours of the incident. The Superintendent of Police's office will check to ensure that notification of DOS and all necessary follow-up occurs.

422.6.3 DOCUMENTATION PROCEDURES

If the driver has been stopped, the Records Division shall forward such information, with a copy of the traffic citation, if applicable, to the Department of Public Safety and Corrections within seven calendar days after the traffic stop. If the driver is involved in a motor vehicle crash, the Records Division shall forward such information with a copy of the written report of the crash investigation to the Department of Public Safety and Corrections within forty-eight hours after completion of the crash investigation (La. R.S. 32:393.2(A)).

422.7 FOREIGN NATIONALS WHO DO NOT CLAIM IMMUNITY

These policies and procedures apply to foreign nationals who do not claim diplomatic or consular immunity.

Officers shall arrest foreign nationals only under the following circumstances:

- (a) There is a valid warrant issued for the person's arrest.
- (b) There is probable cause to believe that the foreign national has violated a federal criminal law, a state law or a local ordinance.
- (c) Officers shall not arrest foreign nationals solely for alleged undocumented entry into the U.S. unless the undocumented entry is committed in the officer's presence.

New Orleans Police Department

Policy Manual

Diplomatic and Consular Contacts / Arrest or Detention of Foreign Nationals

After a lawful detention or criminal arrest, officers may detain foreign nationals solely for alleged undocumented presence in the U.S. if ICE is contacted and can respond to take custody within a reasonable time. Officers shall not arrest foreign nationals for undocumented presence. Federal courts have consistently held that undocumented presence is not a crime but a federal civil violation only enforceable by federal officers.

- Officers shall not stop or detain persons solely for determining immigration status.
- International treaty obligations provide for notification of foreign governments when foreign nationals are arrested or otherwise detained in the U.S.
- Whenever an officer arrests and incarcerates a foreign national or detains a foreign national for investigation for over two hours, the officer shall promptly advise the individual that he/she is entitled to have his/her government notified of the arrest or detention. If the individual wants his/her government notified, the officer shall begin the notification process.

422.7.1 ARREST PROCEDURE

Whenever an officer physically arrests or detains an individual for criminal investigation and the officer reasonably believes the person to be a foreign national, the officer shall inquire to determine the person's citizenship.

If the individual indicates that he/she is other than a U.S. citizen, the officer shall advise the individual that he/she has the following rights (Vienna Convention on Consular Relations, Art. 36, (1969)):

- (a) If you so desire, a consul representative from your country will be promptly notified of your arrest and the charges against you.
- (b) Any correspondence or communication addressed to the consular post by the person arrested, in prison, custody, or detention shall be forwarded to the proper consul without delay.
- (c) Consular officers are free to communicate with, and have access to, nationals from their respective countries.
- (d) Consular officers have the right to visit arrested nationals who are in prison, custody or detention, and to arrange for legal representation.

If the individual requests consul notification, the officer shall contact the Communications Center as soon as practicable and request the appropriate embassy/consulate be notified. Officers shall provide the Communications Center with the following information concerning the individual:

- Country of citizenship;
- Full name of the individual, including paternal and maternal surname, if used;
- Date of birth or age;
- Current residence; and
- Time, date, place, location of incarceration/detention and the 24-hour telephone number of the place of detention, if the place of detention is different from the Department.

If the individual claims citizenship of one of the countries for which notification of the consulate/embassy is mandatory, officers shall provide the Communications Center with the information above as soon as practicable, regardless of whether the individual desires that the embassy/consulate be notified. This procedure is critical because of treaty

obligations with the particular countries. The list of countries and jurisdictions that require notification can be found on the DOS website, <http://www.travel.state.gov>.

422.7.2 DOCUMENTATION

Officers shall document on the face page and in the narrative of the appropriate arrest or investigation report, the date and time the Communications Center was notified of the foreign national's arrest or detention and his/her claimed nationality.

422.7.3 DEATH NOTIFICATIONS

In all instances of death, where a foreign national has died due to accident, natural causes, or criminal acts, and the incident has caused an official New Orleans Police Department incident report to be generated, initial consul notification shall rest with the New Orleans Police Department. (See NOPD Form 19)

422.7.4 THE WRECK/CRASH OF AN AIRCRAFT OR SHIP BEARING FOREIGN REGISTRY

Normally, the investigation of ship and aircraft wrecks or crashes do not come under the responsibility of the New Orleans Police Department. On scene police supervisors at locations of such events shall determine if a conveyance of foreign registry is involved. If such a conveyance is involved, the on-scene supervisor shall determine which federal, state, or local agency has reporting responsibility for the incident. Proper notification of the lead agency as to the responsibility of consul notification shall be the duty of the on scene police supervisor.

422.8 NOTIFICATIONS

Upon determining the arrested subject is a foreign national, the arresting officer shall immediately contact his/her supervisor informing him/her of the arrest.

422.8.1 SUPERVISOR RESPONSIBILITIES

It shall be the duty of the immediate supervisor to notify the proper consul office, when appropriate, supplying them with the information concerning the arrested subject. This responsibility shall not be delegated to subordinate personnel, unless the subordinate individual holds any police supervisory position. If a particular consul post cannot be located, the Department of State shall be contacted for assistance.

Facsimile notifications shall be made part of the incident report.

422.8.2 OFFICER'S RESPONSIBILITIES

Upon making an arrest, the arresting officer shall inform the receiving deputy at Central Lockup the individual arrest is a foreign national, indicating the country the individual is from. The name of the receiving deputy shall be made part of the incident report and any affidavit/summons forms.

Arresting officers shall not transport any arrested subject claiming foreign national status to any district station for the purpose of consul notification.

Arrest Warrant / Wanted Persons

423.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a uniform process for maintaining warrants and wanted person files. In addition, this policy will establish criteria for entering wanted persons and warrants into local and state files. This will ensure that the policies established by the FBI for entering warrants into the FBI files and receiving information from other jurisdictions are adhered to. This policy establishes a uniform process for verifying and recording information received which will be placed into the agency files.

423.2 GENERAL INFORMATION

A warrant of arrest may be issued by any magistrate, and, except where a summons is issued under La. C.Cr.P. Art. 209, shall be issued when all of the following occur:

- The person making the complaint executes an affidavit specifying, to the best of his knowledge and belief; the nature, date, and place of the offense, and the name and surname of the offender, and of the person injured, if there be any; and
- The magistrate has probable cause to believe that an offense was committed and that the person against whom the complaint was made committed it.

A justice of the peace shall not have the authority to issue a warrant for the arrest of a peace officer for acts performed while in the course and scope of his official duties.

The New Orleans Police Department shall utilize the Application for Arrest Warrant (Form #206) Arrest Warrant (form #205). This form complies with the requirements of La.C.Cr.P. Art. 203.

Arrest warrants are directed to all peace officers in the state. Warrants may be executed in any parish by any peace officer having authority in the territorial jurisdiction where the person arrested is found, or by any peace officer having authority in one jurisdiction who enters another jurisdiction in close pursuit of the person arrested (La.C.Cr.P. Art 204).

Arrest warrants remain in effect until executed (La.C.Cr.P. 205).

423.3 SUPERVISOR'S RESPONSIBILITIES

Supervisory personnel from units attempting to execute an arrest warrant shall notify the on-duty platoon supervisor within the district where the arrest warrant is being executed prior to the execution of the warrant. The unit supervisor shall be responsible for determining the threat level involved in the execution of the warrant, and take the appropriate measures to ensure the safety of the officers executing the warrant, as well as the individual to be arrested. Appropriate measures include, but are not limited to the following:

- EMS standby;
- SWAT notification or involvement;
- Supervisory presence at the location of arrest; and
- The deployment or utilization of specialized equipment.

A supervisor shall review each request for a search or arrest warrant, including each affidavit or declaration, before it is filed by an officer in support of a warrant application, for appropriateness, legality, and conformance with NOPD policy. The supervisor shall

New Orleans Police Department

Policy Manual

Arrest Warrant / Wanted Persons

assess the information contained in the warrant application and supporting documents for authenticity, including an examination for boilerplate or pat language, inconsistent information, and lack of articulation of a legal basis for the warrant.

Once the warrant has been reviewed by the supervisor, and prior to the warrant being presented to the judge, the supervisor who reviewed the warrant shall have his name and badge number listed in the last sentence of the application for the warrant, stating Reviewed by (rank, name, badge number) as the reviewing supervisor.

As part of the supervisory review, the supervisor shall document in the appropriate logs those warrant applications that are legally unsupported, are in violation of NOPD policy, or that indicate a need for corrective action or review of agency policy, strategy, tactics, or training. The supervisor shall take appropriate action to address violations or deficiencies, including recommending non-disciplinary corrective action for the involved officer, and/or referring the incident for administrative or criminal investigation. The quality and accuracy of search warrants and supportive affidavits or declarations shall be taken into account in officer performance evaluations.

423.4 OFFICER'S RESPONSIBILITIES

If an arrest warrant is not executed immediately, the officer initiating the warrant shall keep a copy of the warrant in the case file at his/her unit of assignment.

The original arrest warrant and application for the arrest warrant shall be maintained in National Crime Information Center (N.C.I.C.). Arrest warrant and application for arrest warrant, without a bulletin attached, will not be accepted by N.C.I.C. The following information for each arrest warrant or attachment received by N.C.I.C shall be recorded:

- Date and time received;
- Nature of the document (arrest warrant or attachment);
- Source of the document;
- Name of the wanted person; and
- Court docket number (if applicable).

Officers shall not hold a warrant. All warrants shall be forwarded to N.C.I.C. immediately upon the warrant being signed by the judge.

When a warrant check is made by members of this department resulting in confirmation that the wanted subject does not reside at that location, (i.e., abandoned building, vacant lot, non-existing municipal address, etc.) the investigating officer's supervisor shall ensure that N.C.I.C. is notified of this address status via a crime bulletin message. A copy of the message shall be sent to the unit where the warrant was issued.

Whenever a new address is confirmed on a wanted subject, the officer shall notify N.C.I.C. so that the Metropolitan Orleans Total Information Online Network (M.O.T.I.O.N.) warrant file can be updated. The officer shall send a crime bulletin to the unit where the warrant was issued.

The bulletin shall be sent as a crime bulletin via the message entry system. The following information shall be included in the crime bulletin message:

Whenever an arrest warrant is executed or an attempt is made to execute an arrest warrant, the following information shall be documented either on a daily activity sheet for district patrol officers or the case file for the District Investigative Unit or the Investigative Support Division:

- The date and time the service was executed/attempted;
- The name(s) of officer(s) executing/attempting service;
- The name of the wanted person;
- Method of service/reason for non-service; and
- The address of service/attempt.

423.5 MUNICIPAL WANTED PERSONS

If an investigating officer determines that probable cause exists for the arrest of a person on municipal charges, and that person is no longer at the scene, the offense shall be documented in an offense report. A Crime Bulletin shall be sent informing other department members that the person is wanted for the offense. The investigating officer shall contact N.C.I.C. to verify receipt of the Crime Bulletin and note the verification in the offense report.

Because placing a person wanted for a municipal offense does not necessitate the completion of an arrest warrant, the arrest of the individual must be guided by the Arrests Policy and Procedure, particularly the sections pertaining to arrest without a warrant.

423.6 WANTED BULLETIN/ARREST WARRANTS

All felony offenses must be referred to Criminal District Court for possible prosecution. Officers conducting investigations where the wanted subject is to be charged in Criminal District Court (felonies and misdemeanors) shall obtain an arrest warrant and send a wanted bulletin if the suspect is not apprehended prior to the end of the officer's tour of duty. All Felony arrest warrants shall indicate, in writing, if the victim of the offense is a member of the wanted subject's family, a household member, or a dating partner. The warrant and a copy of the bulletin shall be delivered to N.C.I.C. prior to the officer ending his tour of duty.

Once an arrest warrant is completed and an arrest is not immediately made, or if a suspect is wanted on a municipal charge, a Crime Bulletin must be sent by the investigating officer.

New Orleans Police Department

Policy Manual

Arrest Warrant / Wanted Persons

In the case of State Felony and Misdemeanor charges, the wanted bulletin must be sent before the original warrant is delivered to N.C.I.C. The officer sending the bulletin should complete the Crime Bulletin mask to the best of his/her knowledge. The bulletin shall contain at least the following information:

- All pertinent information needed to complete an affidavit once the suspect has been arrested;
- The employee identification number of the officer(s) sending the wanted bulletin (placed next to his/her name on the Crime Bulletin mask);
- As much descriptive information regarding the suspect as possible; and
- A gist of the incident to include all pertinent information explaining the charges the suspect is wanted for (i.e., the value of property damaged or stolen, the extent of injuries inflicted on the victim, etc.). This gist must include a statement of probable cause as it relates to each charge.

When a bulletin is sent, a notation shall be made on the face sheet and in the narrative section indicating the bulletin number, the date and time the bulletin was sent, and who sent the bulletin. The wanted bulletin should then be made part of the incident report.

423.7 ASSISTING BAIL BONDSMEN AND/OR BOUNTY HUNTERS

Article IV, Section 2, Clause 2 of the United States Constitution states A person charged in any State with Treason, Felony, or other Crime, who shall flee from Justice, and be found in another State, shall on Demand of the executive Authority of the State from which he fled, be delivered up, to be removed to the State having Jurisdiction of the Crime. This provision in the Constitution gives individuals, referred to as bounty hunters, authority to take individuals into custody and deliver them to the authority having jurisdiction over any crime. Additionally, Article 345a of the La. Code of Criminal Procedure allows sureties or agents acting on its behalf, to arrest defendants and surrender them in open court.

While the New Orleans Police Department acknowledges the legal authority of bail bondsmen and/or bounty hunters, employees of the police department shall not extend any special privileges or treatment to bail bondsmen or bounty hunters.

Employees shall verify the credentials or identification of persons representing a bail bonds company or acting as bounty hunters. In the event an arrest is made, the identity of the bondsman or bounty hunter shall be made part of the police report.

Only individuals possessing Federal or Louisiana State law enforcement credentials are allowed to accompany NOPD officers in the execution of an arrest warrant.

Civilians, bounty hunters, bail bondsmen, etc. are prohibited from accompanying officers or taking part in the arrest of any wanted individual.

Wanted individuals shall not be arrested unless the warrant can be verified through N.C.I.C. The mere possession of a warrant, signed by the appropriate authority of another jurisdiction, shall not be sufficient grounds for commissioned employees to take an individual into custody. All warrants shall be verified through N.C.I.C. prior to the execution of the warrant.

All individuals arrested as a result of a verified warrant shall be transported to Central Lockup and booked accordingly. Commissioned employees shall not deliver any arrested individual into the custody of a bounty hunter, bail bondsman, etc. In the event a bail bondsmen or bounty hunter requests the assistance of the NOPD, and has a wanted individual in

New Orleans Police Department

Policy Manual

custody, the NOPD assistance will be limited to the following:

- Verification of the warrant on the individual in custody; and
- Transportation of the wanted individual to the Central Lock-Up.

Officers shall document all incidents involving bail bondsmen or bounty hunters in a police report, whether or not an arrest is made. The identity of the bail bondsman or bounty hunter shall be included in the police report.

Warrant Inquiries

425.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for dealing with individuals arrested as fugitives, and for person(s) wanted by a jurisdiction in the State of Louisiana other than Orleans parish and released in lieu of physical arrest.

425.2 GENERAL INFORMATION

If during the course of an investigation, an officer is informed an individual has an outstanding warrant, he/she shall continue to detain the individual pending verification of the warrant or wanted bulletin through National Crime Information Center (NCIC).

An individual detained and found through NCIC inquiry to have an Orleans Parish Municipal and/or Traffic Court attachment shall be processed in accordance with the Failure to Appear Policy.

An individual detained and found through NCIC to have a verified warrant/attachment from a jurisdiction within the State of Louisiana other than Orleans parish, but the detaining officer, using his/her discretion, decides to release the individual pursuant to La. C.Cr.P. Article 211.1 in lieu of physical arrest, shall be processed in accordance with this policy and the Arrests Policy.

425.3 PERSONS WANTED BY JURISDICTIONS OUTSIDE THE STATE OF LOUISIANA

Upon verification of a warrant that does not contain limitations; an individual detained by New Orleans Police Officers and wanted by a law enforcement agency in another jurisdiction outside the State of Louisiana shall be arrested and processed through Central Lock-up in accordance with the Arrests Policy.

A person in custody and wanted by another jurisdiction, with no local charge(s), shall not be transported to Central Lock Up until verification of the warrant/wanted bulletin is obtained (see Arrests Policy).

NCIC will inform the officer if limitation(s) were placed on the warrant/wanted entry.

Limitations may include entries stating Will Not Extradite, Will Extradite from Certain States Only, etc. Any limitation placed on a warrant or wanted bulletin renders the warrant unenforceable outside of the limitations placed on the warrant. An officer detaining an individual with no local charges and the limitation(s) imposed does not give him/her probable cause to make an arrest shall:

- Not place the individual under arrest for the warrant/wanted entry.
- Prepare an incident report using a signal 17-F and list the offense as fugitive investigation .
- Include all information relative to the individual's residence, telephone number, place of employment, vehicle information, description, driver's license number, etc. in the incident report.
- Include in the report the warrant entry was limited and describe the offense for which the individual has a warrant.

The supervisor shall contact the on duty NCIC supervisor and request an expedited verification of the warrant.

Officers are no longer required to write an incident report when releasing a wanted person from another jurisdiction, however, when an officer has verified through NOPD-NCIC that a person is wanted by a jurisdiction outside Orleans Parish and releases the person in accordance with the above stated article (CCrP 211.1) the officer shall:

The officer shall state the reason(s) why the person is being arrested and booked. The name of the supervisor approving the physical arrest and booking shall be documented in the fugitive arrest (17-F) report.

- Any offense involving the operation of a vehicle while intoxicated.
- Any offense involving the use or possession of a weapon.
- Any offense involving the use of force or violence, except the crime of simple battery unless the warrant or attachment indicates that the battery was prosecuted as a domestic abuse batter as defined in La. R.S. 14:35.3.

Emergency Utility Notifications

430.1 PURPOSE AND SCOPE

The City of New Orleans has personnel available to handle emergency calls 24 hours a day, seven days a week. Calls for service during non-business hours are frequently directed to the Department. Requests for such service received by this department should be handled in the following manner.

430.2 POLICY

The Department may respond to emergency utility calls. Non-emergency deficiencies which adversely affect the quality of life of residents of the City of New Orleans shall be submitted to the Quality of Life Officer for the district in which the deficiency was noted.

430.3 PROCEDURE

430.3.1 BROKEN WATER LINES

The City's responsibility ends at the water meter. Any break or malfunction in the water system from the water meter to a residence or business is the customer's responsibility. The Sewerage and Water Board can only turn off the valve at the meter. The citizen can normally accomplish this.

If a break occurs on the City side of the meter, emergency personnel should be called as soon as practicable by the Communications Services.

Upon observing a damaged water line, the officer shall advise Communications Services of the location. The dispatcher shall make the necessary notification to the Command Desk, which will then notify the proper maintenance agency.

430.3.2 ELECTRICAL LINES

The City of New Orleans does not maintain electrical lines to street light poles. When a power line poses a hazard, an officer should be dispatched in order to protect against injury or property damage that might be caused by power lines. The electric company or the Department of Public Works should be promptly notified, as appropriate.

Upon observing a downed power line, the officer shall advise Communications Services of the location. The dispatcher shall make the necessary notification to the Command Desk, which will then notify the proper maintenance agency.

430.3.3 EMERGENCY NUMBERS

A current list of emergency personnel who are to be called for municipal utility emergencies will be maintained by Communications Services.

434.2 RESPONSIBILITIES

In the event of an aircraft accident, the employee responsibilities are as follows.

434.2.1 OFFICER RESPONSIBILITIES

Officers should treat an aircraft accident site as a crime scene until it is determined that such is not the case. If a military aircraft is involved, additional dangers, such as live ordnance or hazardous materials, may be present. The scene may require additional security due to the potential presence of confidential equipment or information.

The duties of the field officer at the scene of an aircraft accident include the following:

- (h) Ensure the appropriate Medical Examiner's Office is notified if a death occurs.
- (i) Implement Incident Command System (ICS).

Entering an aircraft or tampering with parts or debris is only permissible for the purpose of removing injured or trapped occupants, protecting the wreckage from further damage or protecting the public from danger. If reasonably possible, the investigating authority should first be consulted before entering or moving any aircraft or any accident debris. Photographs or sketches of the original positions should be made whenever practicable.

The fire department will be responsible for control of the accident scene until the injured parties are cared for and the accident scene has been rendered safe for containment.

New Orleans Police Department

Policy Manual

Aircraft Accidents

Thereafter, police personnel will be responsible for preserving the scene until relieved by the investigating authority, such as the National Transportation Safety Board (NTSB).

Once the scene is relinquished to the investigating authority, personnel from this agency may assist in containment of the scene until the investigation is completed or assistance is no longer needed.

An airport service worker or the airport manager may respond to the scene to assist the on-scene commander with technical expertise, should it be needed during the operation.

434.2.2 NATIONAL TRANSPORTATION SAFETY BOARD

The National Transportation Safety Board has the primary responsibility for investigating accidents and making notifications involving civilian aircraft, including aircraft of foreign registry. In the case of a military aircraft accident, the appropriate branch of the military will be involved in the investigation. The NTSB is concerned with several aspects of an accident as described in this section.

Every effort should be made to preserve the scene to the extent reasonably possible in the condition in which it was found until such time as the NTSB or other authorized personnel arrive to take charge of the scene.

Military personnel will respond to take charge of any military aircraft involved, regardless of any injury or death.

If the accident did not result in a death or injury and the NTSB elects not to respond, the pilot or owner may assume control of the aircraft.

Removal of the wreckage shall be done under the guidance of the NTSB or military authorities. If the NTSB is not responding for an on-site investigation, it will be removed at the discretion of the pilot or the owner.

434.2.3 COMMUNICATIONS SERVICES RESPONSIBILITIES

Dispatchers are responsible to make notifications as directed once an aircraft accident has been reported. Communication Services will contact the Traffic Division Commander of the incident.

If requested, the Communications Services shall provide a dedicated channel for management of the incident.

When an aircraft accident is reported to the Department by the airport tower personnel, the dispatcher receiving such information shall verify that the tower personnel will contact the

New Orleans Police Department

Policy Manual

Aircraft Accidents

Federal Aviation Administration (FAA) Flight Standards District Office and the NTSB. In the event that airport personnel are not involved, the dispatcher shall notify the FAA and the NTSB.

Officers on scene shall not give information to the media and direct all media related questions to the Public Information Officer.

434.2.6 COMMANDER RESPONSIBILITIES

When notified of an aircraft incident commanders have the following responsibilities:

- The Traffic Division commander will send personnel to the scene to conduct an investigation, determine whether to request additional aid, and the level of aid, to the scene to contain the area of the accident from civilians and others that should not be present at the scene.
- The Special Operations Division commander or designee will determine whether to send personnel to assist the traffic division if needed. Factors to consider in this determination include the location of accident, size of aircraft and number of passengers involved.

434.3 DOCUMENTATION

Any aircraft accident within the City, regardless of whether injuries or deaths occur, shall be documented. The Traffic Division will be responsible for completing the initial incident report.

Field Training Program

436.1 PURPOSE AND SCOPE

The Field Training Officer (FTO) Program, or Phase II of the Recruit Training Program, is designed to provide directed field experience for new employees. It serves as a final step in the officer selection process. Its goal is to provide an individually tailored one-on-one program, seeking improvement in weak performance areas and those requiring more attention, while simultaneously insuring that each trainee masters a predetermined set of tasks before completion.

436.1.1 DEFINITIONS

Definitions relating to this policy include:

Field Training Coordinator (FTC) - A Field Training Coordinator is the member responsible for overseeing the entire FTO Program.

Field Training Officer (FTO) - A Field Training Officer is an officer who has an interest in training, a functional knowledge of penal and motor vehicle codes, criminal procedures, department policies and procedures, as well as, above average skills in writing and conducting investigations.

Field Training Sergeant (FTS) - A Field Training Sergeant is a sergeant who oversees the Field Training Officers in his/her particular district.

436.2 POLICY

The field-training program for recruit academy graduates shall comport with NOPD's written training plan. The field training program shall follow academy training and shall be at least 16 weeks.

436.3 FIELD TRAINING PROGRAM

The trainee who satisfactorily completes this program should be more aware of local community needs, and better trained to handle a wide range of situations with both confidence and insight. Those trainees who are unable to properly cope with or master the basic tasks required of today's police officers will be identified in this program and can be dealt with on an individual basis.

Initially, the recruit functions primarily as an observer, while the FTO completes his/her daily duties. As the recruit progresses through the FTO program, more duties and responsibilities are assigned to the trainee. There is a gradual sharing of duties as the recruit becomes more familiar with the tasks involved in policing. Eventually, the recruit performs all of the required tasks, while the FTO serves as an observer and evaluator.

If, in the opinion of the FTO, the district FTS, the district commander, and the FTC, a recruit does not demonstrate a satisfactory performance level, the recruit may be terminated. Failure of a recruit to satisfactorily pass the final phase of Field Training shall be cause for termination.

Recruits in the field-training program shall be trained in a variety of geographic areas within New Orleans; in a variety of shifts; and with several FTOs.

New Orleans Police Department

Policy Manual

Evaluation reports will be numbered sequentially to insure completeness and to facilitate administrative control. All evaluations and documents pertinent to each recruit shall be routed through the chain of command to the program coordinator. All reports on each recruit will be maintained in an individual file. These recruit files will be centrally located in the FTC's office. The records will be available, as needed, to FTOs, FTO Program personnel, and the Field Operations Bureau administrative personnel. Upon completion of the recruit's probationary period, these files will be placed in storage, and will not normally be considered as part of the officer's regular personnel file.

436.4.2 FIELD TRAINING SERGEANT

An FTS shall be assigned in each district. The district's FTS is responsible for ensuring the appropriate daily observation reports contain the necessary information, including all supporting documents for each daily observation report for that week. Felony Wanted Vehicle Entry in NCIC

439.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for entering vehicles involved in felony offenses into the National Crime Information Center (NCIC) system.

439.2 GENERAL INFORMATION

A description of a vehicle used in the commission of a felony offense may be entered into NCIC, provided that the investigating officer has an accurate description of the vehicle and has probable cause to believe the vehicle sought was used in the commission of a felony. The vehicle will be automatically purged from the NCIC computer system files after ninety days. The investigating officer must submit a formal request to NCIC for the vehicle description to remain in NCIC for an additional period of time. The request for additional time must include a reasonable explanation and be approved by the investigating officer's supervisor.

A description of a vehicle registered to a wanted subject cannot be entered, unless the vehicle was used in the commission of the felony.

439.3 INSTRUCTIONS

On-duty personnel assigned to NCIC will verify the suspected vehicle information through State License Inquiry Index (S.L.I.X.) prior to entering the information into the NCIC computer system files.

439.4 INSTRUCTIONS

A Felony Wanted Vehicle Bulletin Form (Form 290) must be completed in its entirety, reviewed and signed by the investigating officer's supervisor before being sent to NCIC requesting entry into the system.

A Felony Wanted Vehicle Bulletin Form entry will use the same item number assigned to the offense under investigation and requires sending a separate bulletin in addition to any bulletin(s) required by the Crime Bulletins Policy and the Arrest Warrant/Wanted Persons Policy.

An officer locating a vehicle listed with NCIC as being involved in the commission of a felony shall complete a supplemental report listing the NCIC officer's name, and send a cancellation bulletin so the vehicle is removed from the NCIC Felony Vehicle file. A copy of the report and cancellation bulletin shall be sent to the investigating officer or his/her unit/division/bureau.

A recovered vehicle shall be processed as evidence in accordance with the Search and Seizure Policy.

Contacts, Detentions and Photographing Detainees

440.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for conducting field interviews (FI) and the taking and retention of photographs of persons detained in the field but not arrested.

440.2 POLICY

The New Orleans Police Department respects the rights of the members of our community to be free from unreasonable detentions or searches. Due to a variety of situations confronting the officer, the decision to FI or photograph a field detainee shall be left to the officer based on the totality of the circumstances and officer safety considerations.

440.3 DEFINITIONS

Definitions related to this policy include:

Detention - Occurs when an officer intentionally, through words, actions or physical force causes an individual to reasonably believe he/she is being required to restrict his/her movement. Detentions also occur when an officer actually restrains a person's freedom of movement.

Consensual encounter - Occurs when an officer contacts an individual but does not create a detention through words, actions or other means. In other words, a reasonable individual would believe that his/her contact with the officer is voluntary.

Field interview (FI) - The brief detainment of an individual, whether on foot or in a vehicle, based on reasonable suspicion for the purpose of determining the individual's identity and resolving the officer's suspicions.

Field photographs - Posed photographs taken of a person during a contact, detention or arrest in the field. Undercover surveillance photographs of an individual and recordings captured by the normal operation of a Digital Mobile Video Audio Recording (DMVAR) system when persons are not posed for the purpose of photographing are not considered field photographs.

Pat-down search - This type of search is used by officers in the field to check an individual for weapons. It involves a thorough patting down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the detainee or others.

Reasonable suspicion - Articulable facts that, within the totality of the circumstances, lead an officer to reasonably suspect that criminal activity has been or is about to be committed.

440.4 FIELD INTERVIEWS

Officers may stop individuals for the purpose of conducting a Field Interview (FI) where the officer has articulable reasonable suspicion that the person has been, is, or is about to be engaged in the commission of a crime (Terry v. Ohio). In justifying the stop, the officer should be able to point to specific facts which, when taken together with rational inferences, reasonably warrant the stop.

New Orleans Police Department

Policy Manual

Contacts, Detentions and Photographing Detainees

440.4.1 INITIATING A FIELD INTERVIEW

Based on observance of suspicious circumstances or upon information from investigation, an officer may initiate the stop of a person when there is articulable, reasonable suspicion to do so. A person, however, should not be detained longer than is reasonably necessary to resolve the officer's suspicions.

Nothing in this policy is intended to discourage consensual contacts. Frequent and random casual contacts with consenting individuals are encouraged by the New Orleans Police Department to strengthen community involvement, community awareness and problem identification.

Officers shall not use race, color, ethnicity, national origin, religion, gender, disability, sexual orientation or gender identity in establishing reasonable suspicion or probable cause, except as part of an actual and apparently credible description of a specific suspect or suspects in any criminal investigation.

440.4.2 WITNESS IDENTIFICATION AND INTERVIEWS

Because potential witnesses to an incident may be lost or the integrity of their statements compromised with the passage of time, officers should, when warranted by the seriousness of the case, take reasonable steps to promptly coordinate with an on-scene supervisor and/or criminal investigator to utilize available personnel for the following:

- (a) Identifying all persons present at the scene and in the immediate area.
 1. When feasible, a recorded statement should be obtained from those persons who claim not to have witnessed the incident but who were present at the time it occurred.
 2. Any potential witness who is unwilling or unable to remain available for a formal interview should not be detained absent reasonable suspicion to detain or probable cause to arrest. Without detaining the individual for the sole purpose of identification, officers should attempt to identify the witness prior to his/her departure.
- (b) Witnesses who are willing to provide a formal interview should be asked to meet at a suitable location where criminal investigators may obtain a recorded statement. Such witnesses, if willing, may be transported by department personnel.
 1. A written, verbal or recorded statement of consent should be obtained prior to transporting a witness in a department vehicle. When the witness is a minor, consent should be obtained from the parent or guardian, if available, prior to transport.

440.4.3 DURATION OF DETENTION

A subject may be detained to conduct an FI only for the period reasonably necessary to determine the individual's identity and resolve the officer's suspicions. The interview should not extend beyond the immediate vicinity of the place of detention unless the detainee is arrested.

440.5 PAT-DOWN SEARCHES

Once a valid stop has been made, an officer may pat down a suspect's outer clothing if he/she has a reasonable, articulable suspicion that the suspect is armed. The purpose of this limited search is not to discover evidence of crime, but to allow the officer to pursue the investigation without fear of violence.

Policy Manual

Contacts, Detentions and Photographing Detainees

440.6 FIELD PHOTOGRAPHS

All available databases should be searched before photographing any field detainee. If a photograph is not located, or if an existing photograph no longer resembles the detainee, the officer shall consider, among other things, the factors listed below.

440.6.1 FIELD PHOTOGRAPHS TAKEN WITH CONSENT

Field photographs may be taken when the subject being photographed knowingly and voluntarily gives verbal consent.

440.6.2 FIELD PHOTOGRAPHS TAKEN WITHOUT CONSENT

Field photographs may be taken without consent only if they are taken during a detention that is based upon reasonable suspicion of criminal activity, and the photograph serves a legitimate law enforcement purpose related to the detention. The officer must be able to articulate facts that reasonably indicate that the subject was involved in or was about to become involved in criminal conduct. The subject should not be ordered to remove or lift any clothing for the purpose of taking a photograph..

If, prior to taking a photograph, the officer's reasonable suspicion of criminal activity has been dispelled, the detention must cease and the photograph should not be taken.

All field photographs and related reports shall be submitted to a supervisor and retained in compliance with this policy.

440.7 SUPERVISOR RESPONSIBILITIES

While it is recognized that field photographs often become valuable investigative tools, supervisors should monitor such practices in view of the above listed considerations. This is not to imply that supervisor approval is required before each photograph is taken. Access to, and use of, field photographs shall be strictly limited to law enforcement purposes.

440.8 DISPOSITION OF PHOTOGRAPHS

All detainee photographs must be adequately labeled and submitted to the Platoon Commander with either an associated Field Interview Card (FIC) or other memorandum explaining the nature of the contact. If an individual is photographed as a suspect in a particular crime, the photograph should be submitted as an evidence item in the related case, following standard evidence procedures.

If a photograph is not associated with an investigation where a case number has been issued, the Platoon Commander should review and forward the photograph to one of the following locations:

- (a) If the photograph and associated FIC or memorandum is relevant to criminal gang enforcement, the Platoon Commander will forward the photo and documents to the gang unit supervisor. The gang unit supervisor will ensure the photograph and supporting documents are retained as prescribed in the Criminal Street Gangs Policy.
- (b) Photographs that do not qualify for retention in the criminal gang file or that are not evidence in an investigation with an assigned case number shall be forwarded to the Records Bureau. These photographs will be kept in compliance with the department's records retention schedule.

When a photograph is taken in association with a particular case, the investigator may use such photograph in a photo lineup. Thereafter, the individual photograph should be

retained as a part of the case file. All other photographs will be kept in compliance with the department's records retention schedule.

Mobile Digital Computer and Automatic Vehicle Locator Use

448.1 PURPOSE AND SCOPE

The Mobile Digital Computer (MDC) accesses confidential records from state and national databases. Employees using the MDC shall comply with all appropriate federal and state rules and regulations. The Automatic Vehicle Locator (AVL) is a device that automatically tracks the geographic position of a vehicle and transmits that information to a receiver. MDCs may be equipped with AVL capability.

448.2 MDC USE

The MDC shall be used for official police communications only. Messages that are of a sexual, racist or offensive nature or are otherwise critical of any member of the Department are strictly forbidden. MDC use is also subject to the department's Technology Use Policy.

Messages may be reviewed by supervisors at any time without prior notification. Employees generating or transmitting messages not in compliance with this policy are subject to discipline.

All calls dispatched to patrol units should be communicated by voice and MDC.

448.2.1 USE WHILE DRIVING

Use of the MDC by the vehicle operator should generally be limited to times when the vehicle is stopped. When the vehicle is in motion, the operator should only attempt to read messages that are likely to contain information that is required for immediate enforcement, investigative or safety needs.

Short transmissions, such as a license plate check, are permitted if it reasonably appears that it can be done safely. In no case shall an operator attempt to send or review lengthy messages while the vehicle is in motion.

448.3 MDC CONSIDERATIONS

448.3.1 NON-FUNCTIONING MDC

Whenever reasonably possible, officers will not use units with malfunctioning MDCs. Whenever officers must drive a unit in which the MDC is not working, they shall notify Communications Services.

448.3.2 BOMB CALLS

When investigating reports of possible bombs, officers should not operate an MDC within 300 feet of a suspected device. Operating the MDC may cause some devices to detonate.

448.4 AUTOMATIC VEHICLE LOCATOR (AVL) USE

At a minimum, MDCs equipped with the AVL support function will be installed in all marked or unmarked vehicles that are assigned to routine calls for service, task forces, tactical units, prisoner transport wagons and SOD canine units.

New Orleans Police Department

- (c) Supervisors shall be responsible for ensuring that officers under their command use AVL equipment as required by policy. Supervisors shall report equipment problems and seek to have equipment repaired as needed. Supervisors shall refer for investigation any officer who fails to properly use AVL equipment.

Automated License Plate Reader

462.1 PURPOSE AND SCOPE

Automated License Plate Reader (ALPR) technology, also known as License Plate Recognition, provides automated detection of license plates. ALPRs are used by the [New Orleans Police Department] to convert data associated with vehicle license plates and use it for official law enforcement purposes, including identifying stolen or wanted vehicles, stolen license plates and missing persons. The ALPR may also be used to gather information related to active warrants, homeland security, electronic surveillance, suspect interdiction and stolen property recovery.

462.2 ADMINISTRATION OF ALPR DATA

All installation and maintenance of ALPR equipment, as well as ALPR data retention and access shall be managed by the NOPD Information and Technology Section Commander. The Investigation and Support Bureau Property Crimes Commander will assign personnel under his/her command to administer the user end operation of the ALPR equipment and data.

462.3 ALPR OPERATION

Use of an ALPR is restricted to the purposes outlined below. Department personnel shall not use, or allow others to use, the equipment or database records for any unauthorized purpose.

- (a) No member of this department shall operate ALPR equipment or access ALPR data without first completing department-approved training.
- (b) An ALPR shall only be used for official and legitimate law enforcement business.
- (c) An ALPR may be used in conjunction with any patrol operation or official department investigation. Reasonable suspicion or probable cause is not necessary before using an ALPR.
- (d) While an ALPR may be used to canvass license plates around any crime scene, particular consideration should be given to using ALPR-equipped cars to canvass areas surrounding homicides, shootings and other major incidents. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles.
- (e) If practicable, officers should verify an ALPR response through the National Crime Information Center (NCIC) before taking enforcement action that is based solely upon an ALPR alert.
- (f) No ALPR operator may access NCIC data unless authorized to do so.

462.4 ALPR DATA COLLECTION AND RETENTION

All data and images gathered by an ALPR are for the official use of the New Orleans Police Department. Because such data may contain confidential NCIC information, it is not open to public review. ALPR information gathered and retained by this department may be used and shared with other law enforcement officers, prosecutors or others only as permitted by law.

New Orleans Police Department

Policy Manual

Automated License Plate Reader

The Information and Technology Section Commander is responsible to ensure proper collection and retention of ALPR data and for transferring ALPR data stored in department vehicles to the department server on a regular basis, not to exceed 30 days.

All ALPR data downloaded to the server should be stored for the 180 day period identified in the records retention policy. Thereafter, APLR data should be purged unless it has become, or it is reasonable to believe it will become, evidence in a criminal or civil action or is subject to a lawful action to produce records. In those circumstances the applicable data should be downloaded from the server onto portable media and logged into evidence.

462.5 ACCOUNTABILITY AND SAFEGUARDS

All saved data will be closely safeguarded and protected by both procedural and technological means. The New Orleans Police Department will observe the following safeguards regarding access to and use of stored data:

- (a) All non-law enforcement requests for access to stored ALPR data shall be referred to the Records Division Commander and processed in accordance with applicable law.
- (b) All ALPR data downloaded to the mobile workstation and server shall be accessible only through a login/password-protected system capable of documenting all access of information by name, date and time.
- (c) Persons approved to access ALPR data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relate to a specific criminal investigation or department-related civil or administrative action.
- (d) Such ALPR data may be released to other authorized and verified law enforcement officials and agencies at any time for legitimate law enforcement purposes.
- (e) ALPR system audits should be conducted on a regular basis.

Uniformed Patrol: Platoon Structure, Assignments, AWP Days

473.2 GENERAL INFORMATION

During normal school hours, the School Resource Officer (SRO) will investigate all calls for service at the school where he/she is assigned. The SRO will complete an incident report, if required, and notify the principal or assistant principal about the incident.

If a SRO is not on duty or unavailable, a district unit shall be dispatched to respond to a call for service and if required, investigate and complete an incident report. A copy of the incident report will be sent to the SRO.

473.3 OFFICER'S RESPONSIBILITIES

An officer responding to a complaint on school property shall:

- Enter the school grounds and conduct his/her self in a professional manner.
- Avoid unnecessary disruption of a student's normal school routine.
- Notify the school's principal or an assistant principal of his/her presence, and the nature of the call for service.
- Seek the school official's cooperation.

Although cooperation between an investigating officer and school officials is expected, nothing in this policy prevents an officer from using his/her discretion to take appropriate police action to protect life and property.

A complaint by a faculty member alleging improper use of force by a school employee or student shall be documented in an incident report. The investigating officer will:

- Request his/her supervisor to meet him/her and the complainant.
- Notify the appropriate school official.
- Inform the school official, alleged victim, and alleged perpetrator a copy of the incident report will be available through the Record Room and provide each with the report item number, officer's name, and address where to obtain the incident report.
- Take appropriate law enforcement action.

473.3.1 OFFICER'S RESPONSIBILITIES RELATIVE TO USE OF FORCE ON A CHILD

An officer investigating a complaint by a student alleging improper use of force by a school employee shall notify the on duty platoon commander of the Child Abuse Unit if the child is a person under 18 years old as defined in Ch. C. Art. 603 (5). A member of the Child Abuse Unit shall assume the investigation. The initial responding officer shall remain at the scene and assist the child abuse detective(s) as needed.

Mandatory reporters are required to report child abuse or suspected child abuse directly and immediately to either the local child protection unit of the Louisiana Department of Social Services or to a local or state law enforcement agency, depending on the relationship of the suspected abuser to the child. For purposes of this policy, if the suspected abuser is not the child's care taker, or romantically involved with the child's care taker, and does not live in the same residence with the child's caretaker as a spouse, then the suspected child abuser shall be immediately reported to a local or state law enforcement agency.

School Resource Officer Program

474.1 PURPOSE AND SCOPE

The New Orleans Police Department acknowledges the mission of assisting the Orleans Parish Public School System in providing a safe learning environment for our youth. The School Resource Officer (SRO) Program of the New Orleans Police Department has been developed to help school officials cope with the growing incidence of school violence, and to assist in creating in our public schools a safe and conducive learning environment. The NOPD SRO Program is to work in conjunction with the Orleans Parish School System Security Counselor Corps. School Resource Officers provide public schools a direct link to local law enforcement agencies. Further, the combined effort of law enforcement officers, school security counselors, and school administrators has proven to be a successful triad in many school districts.

474.2 SRO RESPONSIBILITIES

SRO personnel will become team members of the District Neighborhood Policing Team (NPT).

SRO-NPT initiatives will be reviewed by the District Commander during weekly District COMSTAT meetings, as well as during the weekly Superintendent's COMSTAT meeting.

The SRO will collaborate with the New Orleans Public School Information Office.

The SRO is not a school disciplinarian. The SRO is a law enforcement officer, educator and counselor.

The long-standing COMSTAT accountability system (at the District and Department levels) will ensure uniformity in the application and delivery of SRO activities throughout the City.

The SRO is first and foremost a law enforcement officer with the primary mission of keeping order on campus (ensuring a safe and peaceful environment in and around the school), with the legal authority to take enforcement action(s), including making arrests if required.

The SRO is an educator, and a resource to teachers in the areas of law enforcement that have classroom application (e.g., student safety, crime prevention, criminal laws, drug laws, municipal ordinances, traffic ordinances, gun safety and, consequences of violation of law).

The SRO can and does play the role of counselor, serving as a channel of intervention. The SRO will assist with problems such as drug abuse, and child abuse, and assist students in finding school and community resources their families. The SRO will be available to confer with students, parents, and staff regarding law enforcement related issues or problems. Ultimately, the SRO must reflect a positive role model for students and parents.

Homeless / Homeless Shelters

475.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that all criminal laws and municipal ordinances are enforced equally across all levels of economic status and mental capacity. It is the policy of the New Orleans Police Department not to pursue charges against individuals based solely on their economic or mental status capacity. Those individuals commonly referred to as homeless enjoy all rights and privileges commonly exercised and enjoyed by individuals occupying higher socioeconomic positions, or of greater mental capacity.

The New Orleans Police Department shall protect the Constitutional Rights of all individuals regardless of their social status.

475.2 POLICY

Violations affecting the public health and safety of individuals shall be enforced. Actions such as public exposure, urinating, or defecating in public shall be enforced, subject to current municipal court guidelines. Intoxicated individuals, and those under the influence of drugs, shall be processed as per current departmental policy.

Violations committed by all individuals where a complainant is present and willing to act as a witness in court shall be enforced subject to current municipal court guidelines.

Actions (non criminal) committed by individuals, which lead the officer to question the mental state of the individual, and to reasonably believe the individual is a danger to himself or others, shall be processed in accordance with the department's policies regarding mentally disturbed individuals.

Officers encountering individuals, who may or may not be mentally deficient, whose appearance and/or actions indicate the individual is unable to care for himself/herself, but who does not appear to be a danger to themselves or others shall have the responsibility of contacting one of the social services agencies listed in this policy for assistance. If the Mobile Crisis Transportation Units (MTCU) are available, they will assist in transporting individuals.

Officers may transport these individuals to the nearest shelter caring for these individuals. If a homeless individual refuses an officer's offer of assistance, the officer may not force the individual to enter the shelter, subject to the provisions of the policy governing mentally disturbed individuals.

When the city initiates a freeze alert or an inclement weather alert, officers encountering homeless individuals shall inform the individual of the location of the nearest shelter(s). If the individual is unable to get to shelter, officers may transport the person if workload permits.

475.3 HOMELESS ASSISTANCE UNIT

The NOPD Homeless Assistance Unit provides police officers as well as the community at large with a resource to address homeless issues in any of the 8 police districts in New Orleans. The Unit responds to calls to assist homeless individuals by providing:

- (a) Information regarding available services to solve immediate as well as long-term needs and

New Orleans Police Department

Policy Manual

(b) Transportation to those services when appropriate.

The Homeless Assistance Unit collaborates with City agencies and various homeless service providers on a regular basis to assist with programs targeted to address the homeless population on a larger group level. Two important weekly commitments are the birth certificate and state ID programs. Also significant are the collaborations when the City calls for the Freeze Plan and the Hurricane Shelter-in-place and Evacuation Plans.

Notifications

476.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for first responder notifications in emergency situations.

476.2 GENERAL

The first responsibility of officers upon arrival at any scene is to protect the life and safety of citizens.

If, upon arrival, officers find an individual that is in need of immediate medical attention or requests medical attention, he/she should notify his/her talk group dispatcher immediately. The talk group dispatcher has the responsibility of notifying EMS and/or NOFD, as appropriate.

If, upon arrival, officers find a hazard which needs attention of the fire department, the officer shall notify his/her talk group dispatcher immediately. The talk group dispatcher shall notify the NOFD dispatcher of the need for NOFD services.

If, upon arrival, officers discover a hazard or problem relating to streets or highways, the officer shall notify the talk group dispatcher. The talk group dispatcher shall be responsible for ensuring that the appropriate agency be notified.

If officers discover a hazard or problem relating to public utilities, i.e., downed power lines, the officer shall notify the talk group dispatcher. The talk group dispatcher shall have the responsibility to ensure that the appropriate agency be notified.

In cases where the news media responds to scenes, officers shall follow the News Media Relations Policy.

Juveniles

490.1 PURPOSE

The purpose of this policy is to establish guidelines for incidents where police officers are handling situations involving juveniles. These situations include juveniles as victims or suspects, ill or injured juveniles, detention hearings relative to juvenile cases, situations where individuals who are adult offenders attempt to escape the jurisdiction of the criminal court by posing as juvenile offenders, and those arrested juvenile offenders attempting to escape the jurisdiction of the juvenile court by posing as adult offenders.

490.1.1 DEFINITIONS

Definitions related to this policy include:

Status offense - Those delinquent acts applicable only to juveniles (e.g., Runaway, Truancy).

Incarcerated juvenile offender - Any arrested juvenile being detained after the initial investigation and processing, who has not been released to the custody of a parent or guardian, pending further Juvenile Court action.

Detention hearing - A legal proceeding held in a section of Juvenile Court, presided over by a Juvenile Court Judge, where testimony pertaining to probable cause is given by an arresting officer or officer obtaining an arrest warrant for an arrested juvenile offender, where a determination will be made to release the incarcerated juvenile to the custody of his/her parent or guardian, or continue incarceration pending further action by the Juvenile Court.

490.2 JUVENILES AS VICTIMS

490.2.1 RUNAWAY / MISSING CLASSIFICATION

The district where a missing juvenile is reported shall be responsible for the investigation of all such cases. The district platoon supervisor shall be consulted on all cases of missing juveniles and shall be responsible for classification of the juvenile as missing, lost, or runaway. The Juvenile Intake platoon commander will be available for assistance, if requested.

490.2.2 RUNAWAY JUVENILES

Generally, a juvenile shall be presumed to be runaway if:

- (a) The individual is under the age of 18;
- (b) The juvenile has a prior history as a habitual runaway;
- (c) There is evidence of a planned or intentional departure; and/or
- (d) Information provided by the parent/guardian is sufficient to determine the juvenile has left on his/her own accord, and is not the victim of foul play.

When a juvenile has been classified as a runaway, the initial investigation, report and bulletin shall be the responsibility of the district officer. On the narrative page of the incident report, the investigating officer shall have the reporting person print his/her name and affix his/her signature to indicate he/she is reporting the juvenile missing.

New Orleans Police Department

Policy Manual

Juveniles

If a person refuses to sign, the officer shall note that fact in the narrative and process the report.

Bulletins shall include pertinent information, including the name, address and telephone number of a parent or guardian. NCIC shall enter the runaway information into Motion/NCIC upon receipt of the bulletin.

Investigating officer shall send a teletype bulletin on return of missing or runaway juvenile who are delivered to the Juvenile Intake Unit for processing.

Officers encountering juveniles during their course of duty, where it has been strongly suspected that the juvenile is a runaway shall make every effort to verify their suspicion. Once it is determined the juvenile is in fact a runaway the investigating officer shall make every effort to notify a parent or guardian. If the parent or guardian is unable to be located, the investigating officer shall transport the juvenile to the Juvenile Intake Unit.

When the evidence fails to substantiate that a juvenile has run away, the absent juvenile shall be classified as a missing person. When a juvenile is classified as missing, the District Investigative Unit shall assign a detective to respond to the scene and assume responsibility for the investigation and original offense report.

In the event a juvenile is reported lost, or a lost juvenile is turned over to the custody of an officer, the officer shall generate an initial incident report. Juveniles who are found shall be transported to the Juvenile Intake Unit only if attempts by the investigating officer to reunite the juvenile with his/her parent/guardian are proven unsuccessful.

Juveniles are considered dependent if they have no apparent means of supervision, either through the arrest of the parent/guardian, or some other condition rendering the parent/guardian incapable of caring for the juvenile. Dependent juveniles are to be transported to the Juvenile Intake Unit, which will make appropriate arrangements for the care of the juvenile.

490.2.3 JUVENILE INVESTIGATIONS

The investigation and original offense report of simple kidnappings shall be the responsibility of the District Investigative Units. The District Investigative Units (DIU) shall be responsible for the scene and/or follow-up investigations of all state felony and misdemeanor offenses, including narcotics, involving juvenile offenders, unless otherwise directed by the Deputy Superintendent of the Field Operations Bureau.

In cases where a juvenile is kidnapped by a parent/guardian in association with a custody dispute (Parental/Custodial kidnapping cases), the district officer's primary responsibility shall be to stabilize any on-scene conflicts, to protect the safety of the juvenile when present, and to insure there is no attempt by a parent/guardian to flee the jurisdiction of the court with the juvenile.

Once the immediate situation is stabilized, the district officer shall contact the District investigative Unit (DIU) to assume the investigation.

District Investigative Units shall have the responsibility for investigating all juveniles involved kidnappings, except aggravated; which will be handled by Narcotics Major Case Unit. The Juvenile Intake Unit's supervisors and detectives shall serve as an information resource to district officers.

New Orleans Police Department

Policy Manual

490.3 ILLNESS OR INJURIES SUSTAINED BY THE ARRESTED JUVENILE

Arrested juveniles who are ill or injured shall be immediately brought to an appropriate medical facility for treatment. Depending on the seriousness of the injuries/illness, juveniles can be transported in a police vehicle or ambulance. However, the arresting officer shall accompany or follow the juvenile to the medical facility and remain with the juvenile until they are treated and released.

Upon arrival at the medical facility, the arresting officer shall attempt to notify the parent or guardian of the juvenile, informing him/her the juvenile has been arrested, the nature of his/her injuries, and request they proceed to the emergency facility.

If contact with the parent or guardian is not possible by telephone, the arresting officer shall obtain the address of the parent or guardian and cause a district unit where the parent or guardian resides to proceed to the residence for notification purposes.

Notifications require the following documentation:

- (a) District units dispatched to make parental notification shall document same on his/her Daily Activity Sheet.
- (b) The appropriate group dispatcher shall log on the notifying unit using the item number under which the juvenile was arrested, or the item number under which the arresting officer is assigned.

Upon successful notification of a parent or guardian, the notifying officer shall inform the dispatcher that notification was made. The appropriate entry shall be made in the item number history by the dispatcher.

If notification has not been successfully made, the arresting officer shall be informed of the fact by his/her group dispatcher, and the identity and address of an alternate concerned party will be obtained to attempt notification. Every effort shall be made to notify a concerned party for the arrested juvenile prior to the juvenile being released from the hospital.

In the event parental notification cannot be made, the juvenile will not be released from custody without being transported to the Juvenile Intake Unit for processing. Including, but not limited to, juveniles accused of traffic violations, violations of city ordinances, runaways, etc.

Arrested juveniles shall not be left unattended at a medical facility when in custody of the Department. The arresting officer, an officer assigned to guard duty, or an investigator from the Juvenile Intake Unit shall remain at the medical facility until a custodial release is obtained, if the incident for which the juvenile is accused permits such release.

In the event an arrested juvenile is to be admitted to a medical facility, the arresting officer shall immediately notify their immediate supervisor. If a custodial release of the offender is not conducted, the arresting officer's unit shall be responsible for establishing the guard

detail. Upon release of the juvenile from the medical facility, he/she shall be transported to the Juvenile Intake Unit for processing.

No hospitalized juvenile accused of a felony grade delinquent act, a misdemeanor grade delinquent act involving weapons, injury, violence, resisting arrest, narcotic violations or an outstanding warrant, shall be granted a custodial release without authorization from a Juvenile Court Judge.

490.4 JUVENILE DETENTION HEARINGS

Juvenile Court policy mandates that a juvenile arrested for any felony, any Juvenile Court Warrant, or a misdemeanor involving weapons, injury, violence, or narcotic violations, be placed in a designated detention facility pending appearance in Juvenile Court.

Anytime an arrested juvenile is detained in a detention facility, the arresting officer's appearance at the scheduled detention hearing shall be mandatory.

Juvenile offenders held in a detention facility shall be brought to a detention hearing the day following his/her arrest, weekends and holidays excluded, in Juvenile Court.

When an arrested juvenile is to be detained, the Juvenile Intake Unit's assigned investigator shall inform the arresting officer(s) of the date, time and section of Juvenile Court where the hearing will be held. Arresting officers shall document this notification by recording the time, date, and court section of the scheduled hearing, along with the name of the Juvenile Intake detective providing this information, in their original offense report.

When personal notification of the arresting officers cannot be made, a Juvenile Intake Unit platoon supervisor shall contact an on-duty supervisor from the arresting officer's unit and request the appropriate notifications be made.

In arrests involving arrest warrants, the original investigator who issued the arrest warrant shall attend the detention hearing. The Juvenile Intake platoon commander shall contact a supervisor from the officer's unit and request he make every effort to notify the issuing officer of the pending detention hearing and the mandatory appearance.

If the officer obtaining the arrest warrant cannot be notified, the Juvenile Intake platoon commander shall contact the officer affecting the arrest, who shall be required to appear at the detention hearing.

Only one arresting officer, or one officer who obtained the arrest warrant, needs to attend the detention hearing. However, the officer who attends the hearing must have sufficient knowledge of the incident to provide probable cause for the arrest.

Chapter 5 - Traffic Operations

Traffic Function and Responsibility

500.1 PURPOSE AND SCOPE

The goal of traffic law enforcement is to reduce traffic accidents and improve the safety and quality of life for the community through traffic law compliance. This may be achieved through the application of such techniques as geographic/temporal assignment of personnel and equipment and the establishment of preventive patrols to deal with specific categories of unlawful driving behavior. Traffic enforcement techniques are based on accident data, enforcement activity records, traffic volume, traffic conditions and other data. This department provides enforcement efforts, not only in proportion to the frequency of their occurrence in accident situations but also in terms of traffic-related needs.

500.2 TRAFFIC OFFICER DEPLOYMENT

Several factors are considered in the development of deployment schedules for officers of the New Orleans Police Department. Information provided by the Louisiana State Police is a valuable resource for traffic accidents and therefore officer deployment. Some of the factors for analysis include the following:

- Location
- Time
- Day
- Violation factors

All officers assigned to patrol or traffic enforcement functions shall emphasize enforcement of traffic laws and address accident-causing violations during those periods and at those locations where the incidence of accidents is increased. As a matter of routine, all officers shall take directed enforcement action on request, and random enforcement action when appropriate, against violators. All officers shall maintain high visibility while working general enforcement, especially at high-accident incidence locations.

Other factors to be considered for deployment are citizen requests, construction zones, school zones or special events.

500.3 ENFORCEMENT

Enforcement actions are commensurate with applicable laws and take into account the degree and severity of the violation committed. This department does not establish ticket quotas. The number of arrests or citations issued by any officer shall not be used as the sole criterion for evaluating officer overall performance (La. R.S. 40:2401.1).

The enforcement of traffic violations and the reporting of traffic stops shall be in compliance with law and the Discriminatory Policing/Bias-Based Profiling Policy.

The visibility and quality of an officer's work effort will be commensurate with the philosophy of this policy. Several methods are effective in the reduction of traffic accidents.

500.3.1 WARNINGS AND STOPS WITHOUT CITATION OR ARREST

Verbal warnings may be considered in lieu of citation for minor traffic infractions. Warnings are not permitted in lieu of citation when a traffic accident investigation has been completed.

New Orleans Police Department

Policy Manual

Traffic Function and Responsibility

Warning citations for violations of motor vehicle laws are specifically prohibited (La. R.S. 32:398.1C).

500.3.2 TRAFFIC CITATIONS

Traffic citations may be issued when an officer believes it is appropriate. It is essential that officers fully explain the rights and requirements imposed on motorists upon issuance of a citation for a traffic violation. Information provided by officers shall include, at minimum:

- (a) Explanation of the violation or charge.
- (b) Court appearance procedure, including the optional or mandatory appearance by the motorist.
- (c) Notice of whether the motorist can enter a plea and pay the fine by mail or at the court.
- (d) The court contact information.

500.3.3 PHYSICAL ARREST

Physical arrest can be made on a number of criminal traffic offenses. These physical arrest cases usually deal with, but are not limited to the following:

- (a) Vehicular homicide (La. R.S. 14:32.1).
- (b) Vehicular negligent injury (La. R.S. 14:39.1).
- (c) Operating a vehicle while intoxicated (La. R.S. 14:98 et seq.).
- (d) Hit-and-run driving (La. R.S. 14:100).
- (e) A suspended, revoked or cancelled operator's license.
- (f) Reckless operation of a vehicle (La. R.S. 14:99).
- (g) Hit-and-run driving (La. R.S. 14:100).
- (h) Driving with a suspended, revoked or cancelled operator's license.

500.4 HIGH-VISIBILITY VESTS

Officers shall employ American National Standards Institute (ANSI) Class II high-visibility vests to reduce the danger to employees who may be exposed to hazards presented by passing traffic, construction vehicles and disaster recovery equipment (23 CFR 655.601).

Although high-visibility vests are intended primarily for use while performing traffic-related assignments, they shall be worn at any time increased visibility would improve the safety or efficiency of the employee.

500.4.1 REQUIRED USE

When working in a potentially adversarial or confrontational role, such as during vehicle stops, high-visibility vests shall be worn any time it is anticipated that an employee will be exposed to the hazards of approaching traffic or construction and recovery equipment.

Examples of when high-visibility vests shall be worn include traffic control duties, accident investigations, lane closures, while at disaster scenes or any time high visibility is desirable. When emergency conditions preclude the immediate donning of the vest, officers shall retrieve and wear the vest as soon as conditions reasonably permit. Use of the vests shall also be mandatory when directed by a supervisor.

Vests may be used any time a plainclothes officer might benefit from being readily identified as an officer.

Traffic Crash Response and Reporting

502.1 PURPOSE AND SCOPE

The public safety responsibilities of law enforcement include responding to traffic crashes, providing aid and assistance, documentation of the incident and identification of criminal activity.

The New Orleans Police Department prepares traffic crash reports in compliance with La. R.S. § 32:398 and, as a public service, makes traffic crash information available to the public.

502.2 CALL RESPONSE

Officers should respond without delay when dispatched to a traffic crash. A traffic crash with reported injuries may include an emergency response if the officer reasonably believes such a response is appropriate.

502.2.1 RESPONSE CONSIDERATIONS

An officer responding to and upon arrival at a crash should consider the following:

- (a) The most appropriate route to the incident.
- (b) Proper placement of the emergency vehicle to provide protection for officers and the scene.
- (c) Potential for involvement of hazardous materials.
- (d) Additional support that may be necessary (e.g., traffic control, medical aid, HAZMAT, ambulance and tow vehicles).
- (e) Providing first aid to any injured parties if it can be done safely, and obtaining medical assistance as necessary.
- (f) Traffic control and protection of the scene for the collection of evidence, if any.
- (g) Clearance of the roadway.

On-duty officers assigned to investigate traffic accidents, and off-duty officers who happen upon traffic accidents while operating marked or unmarked police vehicles, are required to remove vehicles from the roadway by state law (La. Traffic Stops and Traffic Checkpoints

503.1 PURPOSE AND SCOPE

The purpose of this policy is to set forth guidelines for conducting traffic stops by commissioned members of the New Orleans Police Department.

Vehicle stops pose potential risks to police personnel and the public and must be conducted with caution and forethought. Routine traffic stops may develop into serious confrontations or pursuit situations and officers must be prepared to react accordingly. Officers should continually be cognizant of the various tactical options available.

503.2 POLICY

As per current state law and the opinion of the Attorney General for the State of Louisiana, municipal police authority is limited to the territorial jurisdiction of the employee's municipality. Therefore, commissioned members of the New Orleans Police Department are not authorized to make traffic stops outside of Orleans Parish, unless the violation would be considered a felony under state law. Nothing in this policy shall prohibit a member from making a vehicle stop in conjunction with a pursuit situation which originated in Orleans Parish and crossed into an adjacent parish as provided for and as limited by the Vehicle Pursuit Policy. Uniformed and non-uniformed police officers are authorized to stop vehicles and their occupants in order to enforce traffic laws, to conduct investigations, and to stop criminal activity. Whenever possible, non-uniformed officers shall request assistance from a uniformed officer with a marked unit prior to conducting a stop. Off duty personnel are authorized to make traffic stops in Orleans Parish only, and must be operating a marked police vehicle or in full uniform if operating an unmarked police vehicle. Police Officers not in a marked vehicle with operating emergency lights and siren shall not cite an individual for violation of La. R.S. 14:108.1 (flight from an officer, aggravated flight from an officer) if he/she refused to stop their vehicle. Commissioned members of the New Orleans Police Department are not authorized to make traffic stops while operating a personal vehicle, except for felonies in progress. All police vehicles used to conduct vehicle stops will be equipped with operable, emergency lights and sirens.

503.3 CONDUCTING INVESTIGATORY TRAFFIC STOPS

NOPD officers may only conduct investigatory stops or detentions where the officer has reasonable suspicion that a person has been, is, or is about to be engaged in the commission of a crime.

NOPD officers shall use accurate and specific descriptive language and not rely solely on boilerplate or pat language in any reports documenting investigatory stops, detentions, or searches. Articulation of reasonable suspicion and probable cause shall be specific and clear.

NOPD officers shall not use or rely on information known to be materially false or incorrect in effectuating an investigatory stop or detention.

NOPD officers shall not use race, color, ethnicity, national origin, religion, gender, disability, or sexual orientation as a factor, to any extent or degree, in establishing reasonable

suspicion or probable cause, except as part of an actual and apparently credible description of a specific suspect or suspects in any criminal investigation.

When conducting a traffic stop, officers must be cognizant of roadway, traffic, and lighting conditions. The safety of the officer, the violator, and other roadway users is a prime concern. If the violator stops in an unsafe location, the officer shall direct the violator to move to a more suitable location by use of signals and/or public address system. Under no circumstances will an officer allow a violator who is suspected of driving while intoxicated to move his/her vehicle once it has stopped.

When conducting a traffic stop, officers shall advise the dispatcher of their unit number, location, and vehicle tag number. If the vehicle has a temporary paper tag, or no tag, the officer shall provide the dispatcher with a description of the vehicle and its occupants.

Off duty personnel making a traffic stop should advise the dispatcher of their badge number if no permanent unit number is assigned.

When conducting a traffic stop, officers shall use high beams, flashing overhead lights, takedown lights, flashers, and spotlights when applicable. The officer shall approach the violator's vehicle from behind, unless circumstances dictate a different angle of approach.

When possible, officers will position police vehicles in such a manner to allow a safety zone between the officers' and the violator's vehicles.

The decision on whether to approach the violator's vehicle on foot or to order the violator out of the vehicle shall be made by the officer. The officer must keep all tactical options available, including emergency disengagement techniques taught at the academy.

While writing citations or conducting a record check on the radio or in the police vehicle, the officer shall situate himself in a manner affording maximum cover and protection from the violator or other motorists. At all times, the officer shall maintain visual contact with the violator and passengers. For safety reasons, officers shall not allow persons to approach the driver's side door of the police vehicle while the officer is sitting inside.

While issuing citations, officers shall position themselves in a manner which does not expose their weapon to the violator.

Upon termination of the traffic stop, the officer shall ensure the safety of the violator by remaining on the scene until the violator leaves. In situations where the violator's vehicle becomes disabled and cannot be moved, the officer shall assist the violator as provided for in the Disabled Vehicle Policy.

Driving While Intoxicated and Impaired Driving Evidence Collection

514.1 PURPOSE AND SCOPE

This policy explains the procedures to be followed while collecting evidence to establish the blood alcohol level of drivers arrested for driving while intoxicated (DWI) or other impaired driving and unconscious drivers who are suspected of impaired driving (La. R.S. § 32:661((A)(2)(a); La. R.S. § 32:661((A)(3)).

514.2 POLICY

The New Orleans Police Department enforces DWI and impaired driving laws, including enforcement of zero tolerance laws.

514.3 ENFORCEMENT

An officer must establish probable cause based on the officer's observation of a violation(s) of traffic laws and/or driving behaviors which are recognized as indicative of impaired driving prior to stopping a vehicle for suspected DWI activity.

Officers should not enforce DWI or impaired driving laws to the exclusion of their other duties unless specifically assigned to DWI enforcement. However, all officers are expected to enforce these laws with due diligence that is expected to address these potentially life-threatening violations of the law.

Officers who have detained a person for suspicion of DWI or impaired driving may transfer enforcement actions to another peace officer when there is a rational basis for doing so. Examples may include, but aren't limited to, when the other peace officer has a primary traffic or DWI enforcement assignment. Transfer of such enforcement to another officer merely because the other officer has a preference for engaging in DWI enforcement is not appropriate.

The Traffic Section Commander is responsible for providing a traffic officer certified to conduct DWI testing twenty-four hours a day. If a traffic officer cannot be contacted via radio communications, the investigating officer shall notify his/her supervisor. The supervisor shall contact the Command Desk and request the on-duty Traffic Officer be notified.

514.4 REPORT FORMS AND GUIDES

514.4.1 SUPERVISOR RESPONSIBILITY

The Traffic Section's DWI Supervisor is responsible for maintaining report forms with appropriate checklists to assist investigating officers in documenting relevant information and maximizing efficiency.

The Traffic Section Supervisor should consult with the appropriate District Attorney to ensure the report forms and/or guides provide content that will ensure investigations both protect the rights of an arrestee and provide relevant information. The content of the forms and/or checklists should address:

New Orleans Police Department

Policy Manual

Driving While Intoxicated and Impaired Driving Evidence Collection

- (b) Proper differentiation is to be made between anonymous reporters and those who may be identified but who have requested to remain confidential.
- (c) Witness(es) statements, including witnesses who may have reported a suspected impaired driver to the Communications Center.
- (d) The documentation of all points at which an arrestee may have been audio and/or video recorded are.
- (e) The time or time frame of when the operation of a vehicle occurred and how that time or time frame was determined.
- (f) Prior related convictions in this state, or any other state, have been researched and documented.

514.4.2 OFFICER RESPONSIBILITY

Officers shall utilize authorized forms and guides in all DWI investigations and complete each form section as appropriate. Details documented on the forms are not required to be duplicated in the narrative portion of the report unless further clarity is warranted.

514.5 FIELD TESTS

An Officer shall use the SFST and an authorized alternative test in their investigation of a person suspected of DWI.

The Traffic Section Supervisor shall utilize some or all of the following resources in establishing and maintaining the list of tests to be used:

- (a) The appropriate prosecuting attorney's office
- (b) National Highway Traffic Safety Administration (NHTSA)
- (c) Department of Public Safety and Corrections (DPSC) pursuant to La. R.S. § 32:661(A)(1).
- (d) Attorney General
- (e) Other relevant subject matter experts

514.6 RELEASE

In instances where officers lack sufficient evidence to arrest a detained person for DWI, general precautions should be taken to protect the public while balancing the person's protections under state and federal law. Officers may request, though not require, that the person contact an alternate means of transportation. Officers should document in the appropriate call log the reasons for the contact and ultimate release of such individuals.

All persons suspected of DWI shall be physically arrested when probable cause exists. An Upon Notice can be issued in lieu of a physical arrest under limited circumstances. An officer shall not issue an Upon Notice without obtaining permission from a Traffic Supervisor. If permission is obtained to issue an Upon Notice the reason for the issuance and the Traffic Section Supervisor's name shall be included in the narrative of the report.

514.7 CHEMICAL TESTS

Officers may obtain a chemical test(s) sample from any person suspected of DWI or driving while impaired. Officers should use the following chemical test(s) to determine blood alcohol content level:

New Orleans Police Department

Policy Manual

Driving While Intoxicated and Impaired Driving Evidence Collection

- Breath Sample
- Blood Sample
- Urine Sample

514.7.1 BREATH SAMPLES

The Traffic Section Supervisor will ensure all devices used for the collection and analysis of breath samples are properly serviced and tested, and applicable records of such are maintained for court purposes. Only officers certified by the Louisiana Department of Public Safety and Corrections are authorized to operate an approved breath testing machine.

The arrested person shall be transported to the Special Operations Traffic Division. The Special Operations Traffic Section facility shall be the primary facility used to conduct the breath test.

The New Orleans Police Department has equipped the Special Operations DWI Testing Room with a Digital Video Audio Recording (DMVAR) system. The system is designed to assist and complement patrol officers in the performance of their duties. The system shall be used to record all encounters with an arrested subject upon entering the testing room, thereby creating an unbiased visual and/or audio record of the incident and a supplement to the officer's report as (La. R.S. 32:365B).

514.7.2 BLOOD SAMPLES

A blood specimen maybe requested when the person was involved in a crash resulting in serious bodily injury, and/or death. Injured persons suspected of DWI shall be transported to a medical facility. If the investigating officer believes a person is impaired and he/she shall be transported to a medical facility, the investigating officer shall immediately request a Traffic Section officer to assist with obtaining a blood specimen. The investigating officer or designee shall relocate to the medical facility with the subject to ensure the subject is not released by medical personnel. The investigating officer shall notify medical personnel that the subject is under investigation for DWI and a blood sample is needed.

Only persons authorized by law may withdraw a blood sample under (La. R.S. § 32:664(A)). The withdrawal of the blood sample shall be witnessed by the assigned officer. Officers, even if properly certified, shall not conduct the blood withdrawal.

If it is not already indicated on mandatory advisories, officers should inform an arrestee that if he/she chooses to provide a blood sample, a separate sample can be drawn for testing. Unless medical personnel object, any time an officer obtains a blood sample from a person, two samples should be drawn and retained as evidence so long as only one puncture is required.

Definitions related to this policy include:

Asset forfeiture agent - The employee assigned to be responsible for reviewing all forfeiture cases and for acting as the liaison between the Department and the assigned Assistant District Attorney.

Fiscal agent - The person designated to be responsible for maintaining records of seized assets and the distribution of proceeds within the Department. This includes any time the New Orleans Police Department seizes property for forfeiture or when the New Orleans Police Department is acting as the fiscal agent pursuant to a multi-agency agreement.

Seizure - The act of law enforcement officials taking property, cash or assets that have been used in connection with or acquired by specified illegal activities.

606.2 POLICY

The New Orleans Police Department recognizes that appropriately applied forfeiture laws are helpful to enforce the law, deter crime and reduce the economic incentive of crime. However, the potential for revenue shall not be allowed to jeopardize the effective investigation and prosecution of criminal offenses, or of officer safety, the integrity of ongoing investigations or any person's due process rights.

It is the policy of the New Orleans Police Department that all employees, including employees assigned to internal or external law enforcement task force operations shall comply with all state and federal laws pertaining to asset seizure and forfeiture.

606.3 ASSET SEIZURE

Property may be seized for forfeiture as provided in this policy.

New Orleans Police Department

Policy Manual

Asset Forfeiture

606.3.2 PROPERTY NOT SUBJECT TO SEIZURE

The following property should not be seized for forfeiture:

- (a) A property interest that is exempt from forfeiture under the law, including when the owner or holder establishes all of the following (La. R.S. 40:2605):

 - 2. That he/she had not acquired and did not stand to acquire substantial proceeds from the conduct giving rise to its forfeiture other than as an interest holder in bona fide commercial transaction.
 - 3. That with respect to conveyances for transportation only, he/she did not hold the property jointly, in common or in community with a person whose conduct gave rise to its forfeiture.
 - 4. That he/she does not hold the property for the benefit of or as an agent for any person whose conduct gave rise to its forfeiture, and if the owner or interest holder acquired his/her interest through any such person, the owner or interest holder acquired it as a bona fide purchaser for value not knowingly taking part in an illegal transaction.
 - 5. That no person whose conduct gave rise to its forfeiture had the authority to convey the interest to a bona fide purchaser for value at the time of the conduct.
 - 6. That the owner or interest holder acquired the interest after the completion of the conduct giving rise to its forfeiture and that the owner or interest holder acquired the interest under all of the following conditions:
 - (a) As a bona fide purchaser for value who was not knowingly taking part in an illegal transaction.
 - (b) Before the filing of a forfeiture lien on it and before the effective date of a Notice of Pending Forfeiture relating to it, and without notice of its seizure for forfeiture.
 - (c) At the time the interest was acquired, there was no reasonable cause to believe that the property was subject to forfeiture or likely to become subject to forfeiture.

- (d) Photographs should be taken of items seized, particularly cash, jewelry and other valuable items.
- (e) Officers who suspect property may be subject to seizure but are not able to seize the property (e.g., the property is located elsewhere, the whereabouts of the property is unknown, the property is real estate, bank accounts or non-tangible assets) should document the information in an incident report and forward a copy of the approved incident report to the Asset Forfeiture Section.

Confidential Informants

608.1 PURPOSE AND SCOPE

Access to the informant files shall be restricted to the Superintendent of Police, his/her authorized designee. Access to the informant files shall be through the Superintendent's designee. The Superintendent's designee shall be responsible for maintaining a written log to record the identity of any authorized individual accessing an informant file, as well as the date, time and reason any file is accessed.

608.3 USE OF INFORMANTS

Any employee of the department may develop a confidential informer (CI). The officer shall compile sufficient information through a background investigation to determine the reliability, credibility and suitability of the individual, including age, maturity and risk of physical harm. Prior to utilizing paid or consideration informers, the potential informer must:

- (a) Be interviewed by the developing employee's supervisor;
- (b) Complete an NOPD Cooperating Individual Information Form (Form #142);
- (c) Be fingerprinted;
- (d) Be photographed; and

Any individual who develops into a paid or consideration informer shall be processed as stated above. 608.3.1 CONSIDERATION INFORMERS

Prior to seeking special consideration for informers as to criminal charges pending, the employee must make a written application to his/her Bureau Deputy Superintendent. The application shall contain a complete criminal history of the informers, including his/her Triple III which is obtained from the National Crime Information Center (NCIC) and all information on his/her involvement or suspected involvement in felonious or violent activities.

The employee's Bureau Deputy Superintendent shall submit, in writing, his/her recommendations along with the application and informer history to the Superintendent. 608.3.3 JUVENILE INFORMANTS

Individuals under the age of seventeen years of age shall not be used as paid informers or consideration informers without the written approval of the Superintendent of Police and the parent/legal guardian of the juvenile.

608.4 GUIDELINES FOR HANDLING PAID/CONSIDERATION INFORMERS

Any potential confidential informer must be questioned as to whether they are providing information for any other member of this department or for members of other law enforcement agencies.

All confidential informants are required to sign and abide by the provisions of the Department Cooperating Individual Agreement Form. The officer using the confidential informant shall discuss each of the provisions of the agreement with the confidential informant.

Details of the agreement are to be approved in writing by the unit supervisor before being finalized with the confidential informant.

If a confidential informer violates the provisions of the Cooperating Individual Agreement by becoming involved in criminal activity, the officer maintaining the confidential informer shall notify the original witnessing supervisor and the Superintendent's office. At that time, the confidential informer shall be removed from active status. Should the original witnessing supervisor no longer be available, the officer maintaining the informer shall notify his current supervisor.

Individuals deactivated as confidential informer through violation of provisions of the Cooperating Individual Agreement may be re-established as a confidential informer with the approval of the current witnessing supervisor. The supervisor must weigh the potential usefulness of the CI against the liability of his/her criminal activity affecting potential cases. The procedure shall be the same as establishing a new confidential informer.

Once an individual is accepted as a Paid or Consideration informer, he/she shall be assigned a Code Number by the Superintendent of Police, or his/her designee. All references and documentation involving a paid/consideration informer shall be accomplished using the informer's code number.

Should the paid/consideration informant be of the opposite sex of the employee, contact shall be made with no less than two police officers, one of which shall hold any of the civil service police supervisory classifications.

608.4.1 CONTACT WITH INFORMER DOCUMENTATION

All information shall be kept in a secure area, under lock and key, accessible only to those individuals privy to the information. Computer files containing information relative to paid/consideration informants shall be password protected and accessible only to those individuals privy to the information.

608.4.3 CONSIDERATION/PAID INFORMERS ACTIVITY STATUS

Consideration/Paid informers will stay active for a period of six months whether information has been received from a CI, even if the CI has not received funds from the department. Officers will maintain contact sheets when such information is received and maintain them as provided in the provisions of this policy. The officer shall forward copies to the Superintendent's Office with the payment packet. Contact sheets not resulting in immediate payments to CI's need not be forwarded immediately upon receipt of the information.

The Commander of the Major Case Narcotics section shall be responsible for ensuring a database is maintained consisting solely of the CI's Code Number and last date paid (exclusive of CI payments in bound book).

Inactive cooperating individuals will not be paid until they have been reactivated through the Superintendent's Office. Individuals wishing to be reactivated shall be processed as a new informer as outlined in this policy.

608.4.4 RELATIONSHIPS WITH CONFIDENTIAL INFORMANTS

No member of the New Orleans Police Department shall knowingly maintain a business, personal, or social relationship with a confidential informant while off-duty, or otherwise become intimately involved with a confidential informant. Officers shall complete the in-house Narcotics Funds Withdrawal form, complete with all required supervisory signatures, prior to accepting funds for informer payment.

608.5.2 CASH DISBURSEMENT POLICY

The following establishes a cash disbursement policy for confidential informants. No informant shall be told in advance or given an exact amount for services rendered.

When both assets and drugs have been seized, the confidential informant shall receive payment based upon overall value and the purchase price of the drugs seized, not to exceed a maximum of \$6,000 without the prior approval of the Superintendent of Police.

The Narcotics Unit supervisor or the authorized designee shall be responsible for compliance with any audit requirements associated with grant provisions and applicable state and federal law.

608.5.3 PAYMENT PROCESS

610.1 PURPOSE AND SCOPE

This policy sets forth guidelines to be used when members of this department employ eyewitness identification techniques.

610.1.1 DEFINITIONS

Eyewitness identification process - Any field identification, live lineup or photographic identification.

Field identification - A live presentation of a single individual to a witness following the commission of a criminal offense for the purpose of identifying or eliminating the person as the suspect.

610.3 WITNESSES WITH LIMITED ENGLISH PROFICIENCY

If a witness to a criminal offense does not fluently speak the English language or otherwise has difficulty communicating (e.g. hearing impaired), officers shall make reasonable efforts to arrange for an interpreter before proceeding with eyewitness identification. (refer to Hearing Impaired/Disabled Communications or Limited English Proficiency Services)

Before the interpreter is permitted to discuss any matter with the witness, the investigating officer shall explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the eyewitness identification may proceed as provided for within this policy.

610.4 EYEWITNESS IDENTIFICATION FORM

The Investigations and Support Bureau shall be responsible for the development and maintenance of an eyewitness identification process for use by members when they are conducting eyewitness identifications.

New Orleans Police Department

Eyewitness Identification

610.5.2 FIELD IDENTIFICATION CONSIDERATIONS

Field identifications, also known as field elimination show-ups or one-on-one identifications, may be helpful in certain cases, where exigent circumstances make it impracticable to conduct a photo or physical lineup identifications. In such cases a physical or photo lineup is the preferred course of action if eyewitness identification is contemplated.

A thorough description of the eyewitness identification process, to include the display procedure, and the results of any eyewitness identification shall be documented in the case report. All witness statements and/or comments shall be documented in the report. (I.E., comments of how certain he/she is of the identification or non-identification, etc.).

The identities of all individuals present during the identification procedure shall be documented in the case report.

If a photographic lineup is utilized, a copy of the photographic lineup presented to the witness shall be included in the case report. In addition, the order in which the photographs were presented to the witness shall be documented in the case report.

Should a suspect be selected, the photographs used in the lineup, including a photo array, if one was used, shall be initialed on the back by the officer administering the sequential line-up procedure and maintained as evidence. The witness shall also sign and date the back of the photo selected. These documents shall be kept as evidence until the final disposition of the case, at which time it shall become a part of the permanent case file.

Preliminary Forensic Drug Testing

615.1 PURPOSE AND SCOPE

This policy establishes guidelines for preliminary drug testing of suspected Controlled Dangerous Substances.

615.1.1 DEFINITIONS

Definitions related to this policy include:

Preliminary drug test kits - Department approved kits or pouches containing reagent(s) which will change color to indicate the presence of a controlled dangerous substance when mixed with a representative sample of a suspected Controlled Dangerous Substance.

False positive preliminary drug test - When a preliminary drug test indicates the presence of a Controlled Dangerous Substance, but a subsequent formal forensic analysis finds the compound is NOT a Controlled Dangerous Substance.

False negative preliminary drug test - When a preliminary drug test indicates the compound is not positive for the presence of a Controlled Dangerous Substance, but a subsequent formal forensic analysis finds the compound DOES contain a Controlled Dangerous Substance.

Inaccurate preliminary drug test - When a preliminary drug test indicates the presence of a Controlled Dangerous Substance, but a subsequent formal forensic analysis finds the compound to be a different Controlled Dangerous Substance than originally suspected.

615.2 POLICY

When an officer encounters a compound believed to be a Controlled Dangerous Substance, it is collected for evidentiary purposes, and a test kit for that suspected substance is available, a preliminary drug test kit shall be used to confirm the presence of the suspected substance.

615.3 DRUG TESTING KITS

Any used kit shall be sealed and safely discarded in a manner consistent with the instructions provided by the manufacturer, to prevent exposure of the contents to the officer(s) and the public. The used kit will not be placed into evidence.

Officers conducting preliminary drug tests shall use the kits as instructed by the manufacturer. Many of the reagents contained in the kits are toxic or corrosive. The kits shall be handled and disposed of carefully to prevent the spillage or loss of the contents. If possible, protective equipment such as gloves or eye protection is recommended. In the event the contents of a kit are spilled on someone, medical attention should be sought, and a supervisor notified. If an officer is injured, a First Report of Injury will be completed.

Only one sample of any given substance will be tested with any given kit. If an additional test(s) is required, a new kit will be used for each test.

Test kits shall be maintained using the manufacturer's instructions. Damaged, contaminated or compromised kits should not be used, and shall be discarded.

New Orleans Police Department

Policy Manual

Preliminary Forensic Drug Testing

The department approved test kits are NIK Brand (Armour Forensics) and Scott Company Drug Testing. The types of tests available are:

- Marquis Reagent (Opiates, Heroin and Amphetamine compounds, including Ecstasy)
- Duquenois-Levine Reagent (Marijuana, Hashish, hash oil, THC)
- Scott Reagent (Cocaine Salts and Cocaine Base)
- MDMA (Ecstasy only)

Other suspected Controlled Dangerous Substances for which a preliminary drug test kit is not listed above should be submitted to Central Evidence and Property for formal forensic examination.

615.3.1 TESTING

Representative samples of suspected compounds shall be obtained with the tool or spatula provided in the kit. Only a very small sample of suspect substance is required for testing. The test should not consume the entire compound. If the amount is too small to test without consuming the entire amount, the compound should be seized as evidence and processed through Scientific Criminal Investigation Section (S.C.I.S.) for formal forensic testing. Officers are encouraged to call the S.C.I.S., the Narcotics Section, or a training officer with any questions regarding the use of preliminary test kits.

Officers performing the preliminary drug test shall follow the written instructions provided by the manufacturer of the test kit, regardless of the brand used. The Preliminary Drug Test form provided in this policy will be filled out by the officer performing test. Forms are provided for both NIK and Scott brand test kits.

The Commander of S.C.I.S. is responsible for the storage and distribution of test kits.

Supplies will be monitored and restocked by the Department's Scientific Criminal Investigation Section. Care shall be taken to avoid prolonged exposure of the supply to high heat or intense sunlight.

The arresting officer's supervisor shall be summoned to the scene to witness the test and provide signatures on required forms. Once the results of the test are obtained, the officer shall confer with his/her supervisor and decide if the arrest is to be completed or the suspect released.

Any compound believed to be a Controlled Dangerous Substance observed in possession of a victim or witness, or at a crime scene, shall be preliminary drug tested by the investigating officer.

615.3.2 SUPERVISOR'S RESPONSIBILITIES

Preliminary drug tests will be witnessed by a supervisor, who will affix his/her signature to the checklist for each test conducted.

615.3.3 RESULTS

A negative test result does not preclude the collection of the compound as evidence and subsequent request for a formal forensic analysis. A false negative, while remote, can occur. Compounds strongly suspected of being a Controlled Dangerous Substance, but test negatively, should be collected and submitted for formal forensic analysis. The decision to arrest in the face of a negative result for a Controlled Dangerous Substance will remain the discretion of the investigating officer(s) and supervisor(s), with consideration

New Orleans Police Department

Policy Manual

Preliminary Forensic Drug Testing

of all facts surrounding the incident, including additional criminal violation(s). The avenue of subsequent arrest warrants after a positive formal forensic analysis should always be considered.

The colorimetric change(s) in the preliminary drug tests, achieved as the result of positive indications of a Controlled Dangerous Substance, are generally immediate and distinct. Colorimetric changes which are indistinct or slow to achieve are either negative or inconclusive. The officer should consider if the compound may contain a different Controlled Dangerous Substance and use a new kit for that particular substance. If more than one test is performed, each test will require a Preliminary Drug Test Form, and all such forms will be made part of the completed report.

615.3.4 CENTRAL EVIDENCE AND PROPERTY

After the sample tests positive, the core evidence shall be submitted to Central Evidence and Property for analysis by the Scientific Criminal Investigation Section. The arresting officer(s) has 72 hours to submit the written arrest report to the Orleans Parish District Attorney's Office for screening and prosecution.

615.3.5 REPORTING

Upon completion of a test, the Preliminary Drug Test Form (Form #148) shall be completed in its entirety and the original form attached as a numbered page of the incident report. The incident report is incomplete without the inclusion of this form.

A copy of the Preliminary Drug Test Form shall be attached to the evidence package submitted to Central Evidence & Property for S.C.I.S. examination and quality control.

The incident report should contain the type of preliminary drug test used, the name of the officer(s) conducting the test, and the name of any officer witnessing the test. Other information related to the specific test will be included on the Preliminary Drug Test Form to be attached to the incident report, and is not required to be written in the Narrative of the incident report. The use of the preliminary drug test will be included in the Gist of any arrest made for possession and/or distribution of a Controlled Dangerous Substance. The Preliminary Drug Test Form need not accompany the Gist.

A suggested manner of documentation follows, with the example of COCAINE, as the suspected Controlled Dangerous Substance:

- (a) A representative sample of the suspected substance was mixed with an approved preliminary test kit by Officer XXXXX in accordance with the manufacturer's instructions. The representative sample displayed an immediate and unambiguous colorimetric response suggesting the presence of COCAINE.
- (b) The following information shall be documented in the Narrative section of the incident report:
 - 1. The use of a preliminary drug test kit;
 - 2. Who conducted and/or witnessed the test;
 - 3. The fact that the test conducted in compliance with the manufacturer's instructions; and
 - 4. The appropriate color changes and if the changes were immediate and unambiguous.

Chapter 8 - Support Services

Crime Analysis

800.1 PURPOSE AND SCOPE

The purpose of this policy is to provide members of the department on the process of analyzing crime.

800.1.1 DEFINITIONS

Crime Analysis - The extraction of data and gathering of information for the purpose of developing tactical, strategic, and both short-term and long-term action plans in crime suppression. Both qualitative and quantitative data analysis and methods are used in determining crime trend patterns. Crime analysis should be able to:

- (a) Identify similarities of separate offenses across geographic boundaries;
- (b) Reveal commonalities and patterns of prevailing crime problems;
- (c) Assist in the screening and ordering a list of suspects;
- (d) Support in the assembling of specific crimes which may have been perpetrated by a specific offender already in custody; and
- (e) Provide feedback to both front line and support units on trend analysis patterns.

Qualitative methods - involve an examination of nonnumeric data to discover underlying meanings and patterns of relationships.

Quantitative methods of analysis - Involve the use of statistical or categorical data. Simple statistical methods, such as frequencies, percentages, means and rates, would be considered quantitative analysis and is the primary methodology used by a crime analyst.

Crime Mapping - Geographical Information Systems (GIS) technology used to display crime information on a map. Crime mapping is only one element of crime analysis methodology which can be used in detecting crime trend patterns. Those Districts, Divisions or Bureaus with authorized license access have the ability to perform enhanced analysis utilizing the Omega CrimeView® software application. This crime analysis and mapping program combines a variety of information sources which can be filtered down to specific identifiers based on type of incident; modus operandi; geographic area; etc.

COMSTAT - This term is an abbreviation for Computer Statistics' and is defined as a multilayered dynamic approach to crime reduction, quality of life improvement, and personnel and resource administration. The crime analysis process plays a key role in support of the COMSTAT management philosophy.

800.2 POLICY

The Crime Analysis Unit is also responsible for any specialized training associated with accessibility and use of these systems.

Crime pattern analysis information gathered by District or Division members performing a crime analyst support role should be openly accessible to supervisors, investigative support

staff and patrol elements department-wide. Information assembled should be used in both short and long term department planning efforts and should estimate future crime trends and identify enforcement priorities.

Notable similarities in offense characteristics should be disseminated to enforcement units.

District or Division Commanders shall be responsible for soliciting feedback from officers who utilize crime pattern information in targeting enforcement. Feedback should include the accuracy, usefulness, and timeliness of information, as well as an account as to whether or not the problem or trend identified has been adequately addressed.

Members at either a District or Division level who are selected to perform a crime analysis function in direct support of this agency's COMSTAT process should be detail-oriented, systematic in their approach to data collection, and possess a high degree of familiarity with computers and the use of associated analytical programs. Selection of personnel to fill the position of COMSTAT Officer shall be based on established knowledge, skills and abilities (KSA) criteria (see the Transfers/ Filling Vacancies/ Selection for Specialized Units Policy).

800.3 DATA SOURCES

Crime analysis data is extracted from many sources including, but not limited to the following:

- Computer Aided Dispatch (CAD) data
- Electronic Police Report (EPR) records
- Field interview records
- Narcotics Hotline Complaint records
- CopLink® System records

800.4 CRIME ANALYSIS FACTORS

The following minimum criteria should be used in collecting data for crime analysis:

- Frequency by type of crime
- Geographic factors
- Temporal factors
- Victim and target descriptors
- Suspect descriptors
- Suspect vehicle descriptors
- Modus operandi factors
- Physical evidence information

800.5 CRIME ANALYSIS IDENTIFIERS

The crime analysis process includes, but is not limited to, use of the following basic identifiers:

- (a) Sociodemographic factors (personal characteristics, such as: race; sex; income; etc.)
- (b) Spatial factors (geographical patterns)

For a crime analysis system to function effectively, information should be disseminated to the appropriate units or persons on a timely basis. Information that is relevant to the operational and tactical plans of specific line units should be sent directly to those units. Information relevant to the development of the department's strategic plans should be provided to the appropriate staff units. When information pertains to tactical and strategic plans, it should be provided to all affected units.

Communication Operations

802.1 PURPOSE AND SCOPE

The basic function of the communications system is to satisfy the immediate information needs of the law enforcement agency in the course of its normal daily activities and during emergencies. The latter situation places the greatest demand on the communications system and tests the capability of the system to fulfill its functions. Measures and standards of performance are necessary to assess the effectiveness with which any organization, large or small, uses available information technology in the fulfillment of its missions.

802.1.1 FEDERAL COMMUNICATIONS COMMISSION (FCC) COMPLIANCE

New Orleans Police Department radio operations shall be conducted in accordance with FCC procedures and guidelines.

802.2 COMMUNICATION OPERATIONS

This department provides 24-hour telephone service to the public for information or assistance that may be needed in emergencies. The ability of citizens to telephone quickly and easily for emergency service is critical. This organization provides access to the 9-1-1 system with a single emergency telephone number.

This department has two-way radio capability providing continuous communication between Communication Services and officers. The Deputy Superintendent of the Field Operations Bureau shall operate, maintain and staff sufficient complaint operators to receive incoming calls for service from individuals seeking police assistance. Complaint Operators shall be assigned to the Communications Services.

802.2.1 CALL HANDLING

When a call for law enforcement services is received, the dispatcher will determine if the call is an emergency or non-emergency. The complaint operator will determine the call type, location and priority by asking the four key questions:

- Where?
- What
- When?
- Who?

A person reporting an emergency should not be placed on hold until the complaint operator has obtained all necessary information to ensure the safety of the responding units and the affected citizen. Dispatchers and complaint operators should be courteous, kind, patient and respectful in dealing with the public.

Emergency calls should be dispatched immediately. The Platoon Supervisor shall be notified of pending calls for service when units are unavailable for dispatch.

802.2.2 COMMUNICATIONS LOG

It shall be the responsibility of the Communications Services to record all relevant information on calls for criminal and noncriminal service or self-initiated activity. This includes:

New Orleans Police Department

Policy Manual

Communication Operations

- (a) All reported crimes or criminal activity.
- (b) Criminal and non-criminal cases initiated by employees.
- (c) Complaints of employee or organization conduct or performance.
- (d) Arrests or summons.
- (e) The assignment or dispatch of an employee.

Employees shall attempt to elicit, record, and share as much information as possible to enhance the safety of the officer and assist in anticipating conditions to be encountered at the scene. Desirable information would include, at a minimum, the following:

- Item number
- Date and time of request
- Name, address and telephone number of complainant, if possible
- Type of incident reported
- Involvement of weapons, drugs and/or alcohol
- Location of incident reported
- Identification of any units assigned as primary and backup
- Time of dispatch
- Time of arrival
- Time of return to service
- Disposition or status of reported incident

Dispatcher controlled talk groups and telephone communications within Communication Services shall be electronically recorded. The recording equipment utilized for this purpose shall have the capability of immediate playback. Recordings shall be retained for a minimum of three years.

The administrative staff of Communication Services is responsible for the secure handling and storage of all recordings. Recordings shall be labeled. These recordings are maintained and stored by Orleans Parish Communications District (OPCD).

Supervisory personnel assigned to Communication Services shall periodically review tapes for compliance with FCC regulations and established Department policy.

802.3 RADIO COMMUNICATIONS

Operations are more efficient and officer safety is enhanced when dispatchers, supervisors and other officers know the status of officers, their locations and the nature of their cases.

802.3.1 OFFICER IDENTIFICATION

Identification systems are based on factors such as beat assignment and officer identification numbers. Employees should use their entire call sign when calling the Communications Services or another unit. The use of the call sign allows for a brief pause so that the dispatcher or called unit can respond to the appropriate unit. Employees initiating communication with other agencies shall use their entire call sign. This requirement does not apply to continuing conversation between the mobile unit and dispatcher once the mobile unit has been properly identified.

Radio Frequency Profiles

803.1 PURPOSE AND SCOPE

The purpose of this policy is to establish protocols for the frequency profile configuration of police radios.

803.2 POLICY

Each department radio should be programmed as authorized with the limited frequency access utilized by that member's specific unit assignment.

803.3 ESTABLISHING RADIO FREQUENCIES FOR NEW PERSONNEL

The Field Operations Bureau shall inform the Commander of the Education and Training Division, in writing, of the assignments of those recruits ready to graduate from the Police Academy. The notification shall give sufficient time to program each recruit's radio with the proper profile. The Education and Training Division shall coordinate with the Electronics Section to ensure that each recruit has a properly programmed radio prior to reporting to his/her new assignment.

803.4 TRANSFERS

All personnel who have been issued radios and have been transferred shall report to the Electronics Section within 24 hours of reporting to their new assignment to have their radio's profile changed.

803.5 ELECTRONIC SECTION RESPONSIBILITIES

A copy of the report shall be forwarded to the employee's unit Commander, the Electronics Section and the Bureau Chief for the Management and Services Bureau within 24 hours. The Radio Shop will not issue a replacement radio without first being given the item number.

Upon an employee realizing that his/her radio has been lost or stolen, he/she shall immediately notify the Command desk of the missing radio.

The Command Desk shall notify the Electronics Section of the missing radio. The Electronics Section shall immediately deactivate the missing radio so it cannot be used.

803.7 DAMAGED RADIOS/RADIOS IN NEED OF REPAIR

New Orleans Police Department

Policy Manual

Radio Frequency Profiles

supervisor that his/her radio is being repaired and he/she has been issued a replacement. The employee shall ensure the replacement radio's profile matches that of the radio being repaired.

803.8 SECURITY OF RADIOS/RADIO EQUIPMENT IN VEHICLES

Commanding Officers shall take those steps they deem appropriate to secure those radios installed in police vehicles under their command if the vehicle has to be sent to an outside vendor for repairs.

Unit Commanders shall take those steps they deem appropriate in securing radios of employees whose radio profiles permit access to sensitive transmissions who are on extended sick leave, furlough, or other type of leave.

803.9 MODIFICATIONS TO RADIOS

Employees wishing to modify their radio profile to permit access to other talk groups not normally assigned to their unit talk group shall:

- (a) Request permission, in writing, through their chain of command, indicating the Specific talk group needed;
- (b) Outline the reason the talk group is needed;
- (c) Indicate whether the additional talk group(s) which are to be added are temporary or long term; and
- (d) Submit the written request to the employee's Bureau Chief for approval and to the Bureau Chief of the requested talk group if the talk group requested is outside the employee's Bureau assignment. This completed request must be forwarded to the Deputy Superintendent of the Management and Services Bureau for processing.

814.2 SEIZING COMPUTERS AND RELATED EVIDENCE

The collection, preservation, transportation and storage of computers and related equipment requires specialized training and handling to preserve its value as evidence. If it is anticipated that computer evidence or equipment will be seized, officers should request that computer forensic examiners assist them in seizing computers and related evidence. Officers should be aware of the potential to destroy information through careless or improper handling and should utilize the most knowledgeable resources available.

814.2.1 BUSINESS OR NETWORKED COMPUTERS

If the computer belongs to a business or is part of a network, it may not be feasible to seize the entire computer. Until properly secured, networked computers can be accessed remotely to alter critical hard drive data. Cases involving networks require specialized handling. Officers shall contact a forensic computer examiner for instructions or a response to the scene. It may be possible to perform an onsite inspection or to image only the hard drive of the involved computer. This should only be done by someone specifically trained in processing computers for evidence such as a forensic computer examiner.

814.2.2 FORENSIC EXAMINATION OF COMPUTERS

If an examination of the contents of the computer's hard drive, external drives, compact discs or any other storage media is required, certain items should be forwarded to a computer forensic examiner. These include:

- (a) A copy of reports involving the computer, including the evidence/property sheet.
- (b) A copy of a consent-to-search form signed by the computer owner, the person in possession of the computer, or a copy of a search warrant authorizing the search of the computer hard drive for evidence relating to the investigation or other legal authority for examination.
- (c) A listing of the items to search for (e.g., photographs, financial records, e-mail, documents).

A forensic copy of the digital storage media will be made by a trained computer forensic examiner and the original preserved as evidence. Any subsequent forensic examination will be conducted on the original copy by a trained computer forensic examiner.

814.3 FARADAY BAG

Prior to the seizure of any electronic device capable of transmitting or receiving a radio signal for the purpose of forensic analysis by the Digital Forensic Unit, officers shall sign out a Faraday bag from Central Evidence and Property. The Faraday bags come in three sizes:

- Small (for cell phones)

New Orleans Police Department

Policy Manual

Computers and Digital Evidence

- Medium (for iPads/Netbooks)
- Large (for laptop computers)

Immediately upon seizing a device, it should be placed inside a Faraday bag to prevent the possible loss of evidence. The seized item(s) shall then be logged as evidence at Central Evidence and Property.

814.4 SEIZING DIGITAL EQUIPMENT

Digital storage media, including but not limited to hard drives, floppy disks, CDs, DVDs, tapes, memory cards or flash memory devices, should be seized and stored in a hard-sided non-metallic container that is not susceptible to electrostatic interference. Faraday bags are available in the Digital Forensic Unit office, Central Evidence and Property, and the Crime Lab.

- (a) If the media has a write-protection tab or switch, it should be activated.
- (b) Do not review, access or open digital files prior to submission.
- (c) Many kinds of storage media can be erased or damaged by magnetic fields. Keep all media away from magnetic devices, electric motors, radio transmitters or other sources of magnetic fields.
- (d) Do not leave storage media where they would be subject to excessive heat, such as in a parked vehicle on a hot day.
- (e) Use plastic cases designed to protect the media, or other protective packaging, to prevent damage.

814.5 SEIZING PERSONAL COMMUNICATIONS DEVICES (PCD)

Personal communication devices (PCDs) such as cellular telephones, personal digital assistants (PDAs) or other handheld devices must be handled with care to preserve evidence that may be on the device, including messages, stored data or images.

- (a) Unsent messages can be lost, data can be inadvertently deleted and incoming messages can override stored messages. Officers generally should not attempt to access, review or search the contents of such devices prior to examination by a forensic expert.
- (b) Do not turn the device on or off. The device should be wrapped in no less than six sheets of heavy duty aluminum foil or placed in a solid metal container, such as a paint can when a Faraday bag is not available to prevent the device from sending or receiving information from its host network.
- (c) When seizing the devices, officers shall also seize the charging units and keep them plugged in to the chargers until they can be examined. If the batteries go dead, all the data may be lost.

814.6 RETURN OF SEIZED STORAGE MEDIA

Contraband, including but not limited to illegal images, stored on digital storage media (hard drives, floppy disks, CDs, DVDs, tapes, memory cards, flash memory devices, PCDs and PDAs or other handheld devices) shall be removed by a computer forensic examiner or other qualified personnel prior to return to the owner.

814.7 DIGITAL EVIDENCE RECORDED BY OFFICERS

Officers handling and submitting recorded and digitally stored evidence from digital cameras and audio or video recorders will comply with these procedures to ensure the integrity

New Orleans Police Department

Policy Manual

and admissibility of such evidence. Officers shall not create or maintain copies of digital evidence outside of the work environment.

An officer may consider acting before the arrival of the SPCA:

- (b) When an animal has bitten someone. Officers should take measures to confine the animal and prevent further injury.
- (c) When an animal is creating a traffic hazard.
- (d) When the owner/handler has been arrested and there is no other alternative placement for the animal.
- (e) When an animal is gravely injured.

820.3.1 ANIMAL CRUELTY COMPLAINTS

An officer shall conduct a preliminary investigation on all reports of animal cruelty and immediately forward the information on legitimate animal cruelty complaints to the SPCA for investigation. Officers shall not hesitate to take any immediate actions deemed necessary to prevent the perpetration of any act of cruelty to animals in his/her presence.

820.3.2 STRAY ANIMALS

If an animal has a license/tag or can otherwise be identified, the officer should contact the owner, if reasonably possible. If the owner is contacted, the animal should be released to the owner's custody.

The decision to impound an animal shall be made by the representative of the SPCA on the scene. If a violation of a city ordinance has occurred, the investigating officer shall be responsible for conferring with the SPCA representative to ensure a summons is issued.

New Orleans Police Department

Policy Manual

Animal Control

820.3.3 ANIMAL BITES TO HUMANS

Voluntary written consent shall be obtained from all individuals prior to testing, except as provided for in this policy.

Any member refusing an order to submit to a CVSA, PSE, and/or Polygraph examination will be subject to disciplinary action.

Polygraph, PSE and CVSA testing shall not be used as a single determinant for gaining employment or final determinant factor in investigations. The tests shall not be used to circumvent good investigative procedures.

The CVSA and PSE are used for truth verification. Therefore, these tests should be viewed as a means to protect the integrity of the interviewee.

Polygraph examinations have long been an established method of truth verification. Polygraph examinations shall be used in conjunction with established investigative techniques.

840.3 USE OF CVSA, PSE AND POLYGRAPH EXAMINATION FOR EMPLOYMENT PURPOSES

The use of CVSA, PSE, or Polygraph examinations for investigative purposes shall be strictly voluntary on the part of the civilian complainant, victim, or witness. These results are not to be used for arrest or legal action, but are designed for developing leads, validity, and obtaining case direction. Whenever practical during the use of CVSA/PSE, audio tape analysis should be followed up with a live interview and examination.

An examiner shall not conduct an examination upon a subject if it is believed, for any reason that an unbiased examination cannot be given.

Where appropriate, the examiner shall read Miranda rights to the subject and explain the voluntary nature of the test. Where required, the examiner shall obtain a signed consent prior to administering the examination.

It also allows an applicant who fails to meet criteria set forth in selection standards, to improve his/her performance/behavior so he/she might be better qualified for future openings by better understanding what KSAs are required for the position.

The selection process will provide management with the tools necessary to make informed decisions when selecting personnel for positions within the police department. This is accomplished by providing measurable selection standards upon which to make those decisions.

The selection standards shall remain consistent with functional job descriptions, and will only be modified if knowledge, skills and abilities (KSAs) for a given position change so significantly that it no longer reflects the requirements of the position. Assignments to serve in a task force position will be for a time period not to exceed 48 months. By rotating personnel on a regular basis, the opportunity to serve on a task force is provided to a greater number of NOPD personnel. Those personnel can come back to the department and share their knowledge, skills and abilities improving the effectiveness and knowledge base of the department.

At the same time, the rotation schedule shall provide sufficient length of service on a task force so participants are able to become proficient in their duties and provide an effective, efficient, and consistent level of service to the task force to which they are assigned. Grievance: Employee Discrimination Complaints

1007.1 PURPOSE AND SCOPE

The purpose of this policy is to provide for the administration of an employee discrimination complaint. The objective of this process is to resolve complaints informally, whenever possible, with fairness, justice, in an orderly, timely fashion, and to provide for an avenue of formal resolution through the administrative avenues within the municipal system. All complaints must be on the basis of alleged discrimination against an individual because of race, color, national origin, religion, age, physical or mental disability, gender, sexual orientation, gender identity, creed, culture, or ancestry. This procedure shall only be used for the processing of discrimination complaints. However the Civil Service Commission and the Federal Equal Employment Opportunity Commission and/or other such agencies are, or may be at the employee's disposal for filing complaints of discrimination in addition to this policy.

1007.2 GENERAL

The following is a step-by-step outline of the actions to be taken under this policy. There are two major functional components of the complaint process. They are the informal and the formal actions. An employee is advised, but is not mandated, to proceed to the formal action process of this policy only if the matter in question is not satisfactorily resolved within the prescribed time limits of the informal process.

1007.3 INFORMAL COMPLAINT PROCESS

The individual must take the complaint to the Department's Employee Relations Manager (through the Personnel Division) within five working days of the date the alleged discriminatory act took place, or, if a disciplinary action, within five days of the effective date of action.

New Orleans Police Department

Policy Manual

Grievance: Employee Discrimination Complaints

The Employee Relations Manager shall forward the written complaint to the appointing authority and his/her designated representative within three working days with a copy to the Chief Administrative Officer (CAO), Employee and Labor Relations Division.

The grievance shall then be reviewed among the employee's Employee Relations Manager, and/or the employee, the appointing authority and the CAO's Equal Employment Opportunity (EEO) Officer or his/her designee.

If no agreement is reached at the aforementioned level within seven days after the initiation of the written complaint, then the CAO's EEO Officer shall make his/her final recommendation to the CAO.

The CAO shall render a final decision based upon the facts presented on CAO Form No. 1 and the recommendations of the EEO Officer or his/her designee.

Appointing authorities are requested to make every effort possible to arrive at a solution when a grievance is received in oral form by the first line supervisor rather than resorting to the formal written process outlined in this policy.

Copies of all reports relative to discrimination complaints shall be forwarded to the Employee Relations Section. The Employee Relations Section shall submit a quarterly report to the Superintendent of Police, through the chain of command, outlining the nature of the complaint, action taken, and disposition of the complaint.

Reporting of Employee Convictions

1010.1 PURPOSE AND SCOPE

Convictions of certain offenses may restrict or prohibit an employee's ability to properly perform official duties. Therefore, all employees shall be required to promptly notify the Superintendent of Police through their chain of command of any past and current criminal convictions.

1010.2 DOMESTIC VIOLENCE CONVICTIONS AND PROTECTION ORDERS

Pursuant to the Federal Domestic Violence Gun Control Act (18 USC § 921(a) and 18 USC § 922(d)), any person who has been convicted of a misdemeanor domestic violence offense is prohibited from possessing any firearm or ammunition. Because such offenses may include any conviction involving the use or attempted use of force or threatened use of a weapon on any individual in a domestic relationship (e.g., spouse, former spouse, cohabitant, former cohabitant, or parent of a child of the person), employees shall promptly report any and all convictions of such nature.

Federal law also prohibits firearm possession by any individual who is the subject of a domestic violence restraining order. This federal restriction, however, does not apply to protection orders (18 USC § 922(d)(8)).

1010.3 CRIMINAL CONDUCT

The Department shall immediately report any conviction of an officer to Louisiana POST. A person convicted of certain felonies is prohibited from being a peace officer in the State of Louisiana.

While legal restrictions may or may not be imposed by statute or by the courts upon conviction of any criminal offense, criminal conduct by members of this department may be inherently in conflict with law enforcement duties and the public trust.

1010.3.1 COURT ORDERS

All employees shall promptly notify the Superintendent of Police, through their chain of command if they are part of any criminal or civil court order, including foreign court orders. Court orders may prevent peace officers from possessing a firearm or require suspension or revocation of their peace officer POST certificate.

1010.4 REPORTING PROCEDURE

All employees, reserve officers and all retired officers who have been issued a New Orleans Police Department police identification card shall immediately notify the Superintendent of Police in writing of any past or current criminal arrest or conviction, regardless of whether the matter is currently on appeal and regardless of the penalty or sentence, if any.

All employees, reserve officers and all retired officers who have been issued a New Orleans Police Department police identification card shall immediately notify their immediate supervisor or the Superintendent of Police in the case of retired officers, in writing, if the employee becomes the subject of a court protective or restraining order.

New Orleans Police Department

Policy Manual

Reporting of Employee Convictions

Any employee whose criminal conviction unduly restricts or prohibits that employee from fully and properly performing his/her duties may be disciplined including, but not limited to, being placed on administrative leave, reassignment and/or termination. This determination shall be made by the Superintendent of Police.

Any employee failing to provide immediate written notice pursuant to this policy shall be subject to discipline and/or revocation of retired identification.

1010.4.1 REPORTING PROCEDURE FOR DEPARTMENT ARREST OF DEPARTMENT PERSONNEL

The Public Integrity Bureau Commander shall be notified of the pending arrest of any employee of the Department.

If circumstances require an employee to be immediately arrested, the arresting officer shall notify the Public Integrity Bureau Commander immediately after the arrest. The Public Integrity Bureau Commander shall insure the Superintendent and the employee's Bureau or Office Commander is notified. The Public Integrity Bureau Commander shall also immediately notify the DA and/or USAO.

1010.5 PROCEDURE FOR RELIEF

An officer may petition the court for permission to carry a firearm following a conviction under state law. Federal law, however, does not provide for any such judicial relief and the granting of a state court petition will not relieve one of the restrictions imposed by federal law.

Therefore, relief for any employee falling under the restrictions imposed by federal law may only be obtained by expungement of the conviction. Each employee shall seek relief from firearm restrictions on his/her own time and through his/her own resources.

Pending satisfactory proof of relief from any legal restriction imposed on an employee's duties, the employee may be placed on administrative leave, reassigned or disciplined. Upon instructions by the Superintendent of Police, the Department may, but is not required to return an employee to any assignment, reinstate any employee or reverse any pending or imposed discipline upon presentation of satisfactory proof of relief from any legal restriction set forth in this policy.

Counseling / Supervisory Referrals / Evaluations

1011.1 PURPOSE AND SCOPE

The purpose of this policy is to set guidelines for the Voluntary Personal Counseling Program, Supervisory Referrals and Psychological Evaluations.

1011.2 VOLUNTARY PERSONAL COUNSELING (EXPANDING HEALTH AND WELLNESS PROGRAM) GENERAL

The Voluntary Personal Counseling Program provides stress management counseling and individual, couple, or family counseling to employees of the Department. Counseling, which is provided by an independent medical provider, is intended to alleviate stress. In addition, counseling develops strategies to solve personal problems which interfere with the employee's satisfactory adjustment and functioning.

The Voluntary Personal Counseling Program is completely independent and distinct from Supervisory Referrals and Psychological Evaluations.

The Expanded Health and Wellness Program is currently administered by Tulane University Hospital. It offers a wide variety of services to police officers and civilian personnel, including but not limited to the following: sick call, physical examinations, injury rehabilitation, employee assistance program (EAP), Fitness Center, Hepatitis and Flu vaccinations, etc. Employees shall contact the Tulane University Hospital and Clinic for more information.

1011.3 ELIGIBILITY

Civilian, reserve, and commissioned employees are instructed to contact the medical provider to determine eligibility for themselves and family members.

If there is a high demand for services, priority will be given to commissioned employees; eligible persons will be put on a waiting list or referred to another outside agency.

1011.4 SICK CALL

Sick Call is offered on every Monday, Wednesday and Friday from 10:00AM to 12:00 noon. No appointments are required during these times. Outside of the aforementioned hours, the employee should contact the Tulane Centers for Occupational Health located 1415 Tulane Ave. Some services are provided by appointment only. Check with the medical provider for details.

1011.5 ATTENDANCE

Employees shall not attend counseling sessions or receive other medical attention while on duty. Approved furlough or sick time may be used.

1011.6 VOLUNTARY PERSONAL COUNSELING CONFIDENTIALITY

The content of voluntary counseling sessions shall be confidential. An employee shall have voluntarily signed a written release form before any information is released to any party, with the following exceptions:

New Orleans Police Department

Policy Manual

Counseling / Supervisory Referrals / Evaluations

- (a) **Child abuse:** The Police Psychologist is required by law to report cases of suspected child abuse. The Police Psychologist shall report child abuse to the Child Abuse Section; however, he/she may allow the employee to report the incident first to the Child Abuse Unit.
- (b) **Danger to self:** The Police Psychologist shall report to the Superintendent of Police serious suicidal threats or emotional disturbances which place the employee at risk. The Police Psychologist may order the employee's involuntary psychiatric hospitalization; however he/she will give the employee the opportunity to voluntarily enter the hospital before involuntary hospitalization procedures are initiated.
- (c) **Danger to others:** The Police Psychologist shall report to the Superintendent of Police serious homicidal threats or emotional disturbances which endanger others, and recommend a suspension of the employee's commission until the danger no longer exist. The Police Psychologist will warn any intended victims of the threat to their safety. The Police Psychologist may order the employee's involuntary psychiatric hospitalization; however he/she will give the employee the opportunity to voluntarily enter the hospital before involuntary hospitalization procedures are initiated.
- (d) **Unfit for duty:** If the Police Psychologist confirms the employee is unable to perform his/her duties, he/she will recommend to the Superintendent that the employee be placed on sick leave or Administrative Reassignment until cleared for return to duty. The employee may be referred to other medical professionals for a second opinion or treatment. Return to duty in these cases may depend partly on the opinion of the treating physician.

Nothing in this procedure shall be construed as relieving supervisors from taking disciplinary action when necessary. The Voluntary Personal Counseling Program and the Supervisory Referral process is not a substitute for disciplinary action necessitated by an employee's behavior.

1011.7 SUPERVISORY REFERRALS

Supervisory referrals are not disciplinary actions. They are intended to assist employees in identifying causes of duty related performance problems, to develop more effective coping strategies, and to solve problems which lead to performance deficiencies. Such referrals provide an opportunity for the employee to work with the Police Psychologist, or other designated medical care provider, to overcome problems which affect job performance.

An employee may reject a supervisory referral.

Supervisory referrals are independent and distinct from both the Voluntary Counseling Program and the Psychological Evaluation procedure.

If the employee's immediate supervisor believes the employee's performance deficiencies may be caused by emotional or stress related problems, the supervisor shall verbally counsel the employee.

The supervisor shall meet with the employee, specify behavioral or performance areas which need improvement, and establish a time period for improvement.

If the supervisor's verbal counseling does not resolve the performance deficiency, the procedure for initiating a supervisory referral is as follows:

- (a) The supervisor shall notify his Division level Commander through the chain of command.

New Orleans Police Department

Policy Manual

Counseling / Supervisory Referrals / Evaluations

- (b) If the Division level Commander agrees that the employee should be referred to the Police Psychologist, or other medical provider, the Division level Commander shall contact the provider and describe the employee's behavior which is causing the performance deficiencies.
- (c) The medical provider will decide whether there is a need for a supervisory referral.
- (d) If the Police Psychologist or medical provider concur that a supervisory referral may help the employee, the employee's supervisor shall meet with the employee and request the employee meet with the Police Psychologist to assist the employee in overcoming the current problems.
- (e) If the employee accepts the referral, the supervisor shall notify the Police Psychologist or medical provider, who will schedule an appointment for the employee within five working days, if possible.
- (f) The supervisor shall send the medical provider a written report describing the employee's behavioral problems, and any prior history of disciplinary problems. A copy of all correspondence shall be forwarded to the employee's Bureau Commander.

The recommendation on each allegation shall be chosen from one of the following: UNFOUNDED, EXONERATED, NOT SUSTAINED, DUPLICATE OR SUSTAINED. At the conclusion of the hearing, the Hearing Officer shall state the date and time the hearing is concluded.

1021.10 HEARING DISPOSITION AND PENALTY RECOMMENDATION

If the Hearing Officer finds any allegation SUSTAINED, the Hearing Officer shall recommend an appropriate penalty for each sustained violation in accordance with the guidelines set forth in the penalty section in the procedure portion of this policy.

A Bureau Chief or Superintendent of Police's Disciplinary Committee may recommend any penalty including dismissal. A Commander's Hearing may recommend any penalty up to a 30 day suspension.

The Hearing Officer shall inform the accused employee of the recommended disposition and recommended penalty (if sustained). Inform the accused that the Superintendent of Police is the final authority in any disciplinary action, and that the recommended action is not official until the accused employee receives a disciplinary letter from the Superintendent of Police.

If the Hearing Officer believes the investigation contains errors or omissions that need to be corrected, he/she may either:

- Continue the conclusion of the hearing to another date.
- Return the investigation to PIB, attaching a cover Form 105 addressed to the Superintendent of Police, specifying the reason for the return.

A supplemental investigative report submitted as a result of the request for further information by a Hearing Officer shall be identified as a Supplemental Investigation. The original report shall not be altered.

The Hearing Officer shall document the disposition and penalty recommendation on the Hearing Disposition Form.

- (a) The Hearing Officer shall record a separate disposition for each violation.
- (b) If additional violations have been recommended SUSTAINED by the Hearing Officer, a Form 105 articulating how the additional violation(s) occurred shall be attached, and

made a page of the Hearing Disposition. New violations must go to PIB for a new investigation.

- (c) The Hearing Officer shall record a separate penalty for each violation (and not a cumulative penalty for the case).
- (d) If the penalty is a suspension, the Hearing Officer shall indicate that the suspension time involves working days (example: ten working days).
- (e) Should the penalty include a fine, the Hearing Officer shall record in the Remarks section the exact amount of any monetary fine assessed, and how that amount was determined.
- (f) Should the penalty include a prohibition on working paid off-duty details, the Hearing Officer shall record the number of calendar days during which the employee is prohibited from working details.
- (g) Should the penalty include any other restriction, such as loss of a take-home vehicle or other such privilege, the Hearing Officer shall record the number of days the property or privilege is restricted.
- (h) Should the penalty include any remedial or other training, the type of training, and the person responsible to co-ordinate and schedule the employee for the training shall be specified in the Comments section.

The Superintendent of Police may approve, disapprove or change any recommended disposition or penalty. Only the Superintendent of Police has the authority to impose disciplinary action.

1021.11 SUBMISSION OF HEARING PACKET

The Hearing Officer shall forward the original Hearing Notification Form, the original Hearing Disposition Form, the audio/digital recording of the hearing, the investigative report, and any other related materials through the Hearing Officer's chain of command to PIB.

- (a) The accused employee's Bureau Commander shall have approval authority for the Commander's Hearing recommended disposition and recommended penalty. Upon receipt of the hearing records, the Bureau Commander shall review the recommended disposition and penalty; approve the recommended disposition and penalty or recommend a different disposition and/or penalty.
- (b) If the Bureau Commander recommends a different disposition and/or penalty, he/she shall explain, in detail in the Comments section of the Hearing Disposition or on a Form 105, why a new disposition and/or penalty is recommended.

1021.12 DISCIPLINARY LETTER

Upon receipt of the Superintendent of Police's decision regarding a penalty, PIB shall prepare a disciplinary letter. The disciplinary letter shall include the following:

- (a) A statement citing the reason for the disciplinary action;
- (b) The effective week of the action, or date of dismissal;
- (c) A statement of the status of fringe and retirement benefits after dismissal;
- (d) A statement as to what documentation shall be retained in the employee's personnel file relative to discipline and/or dismissal;
- (e) A statement of the time frame for filing a Civil Service appeal; and
- (f) A statement directing the employee to refer to Civil Service Rules, governing appeals.

Disciplinary Hearings/Penalties

PIB shall notify the accused employee's Bureau Commander when the disciplinary letter is ready to be issued to the employee. PIB shall establish a time limit for the employee to appear at the PIB office to receive his/her letter. The Bureau Commander shall establish sufficient procedures to ensure that the employee is instructed to appear at the PIB office to receive his/her disciplinary letter and sign a receipt. The Bureau Commander shall ensure PIB is notified in writing if an employee is unable to appear to sign for his/her disciplinary letter within the specified time frame.

When there is no Bureau Commander in the accused employee's chain of command, the Superintendent of Police may assign the appropriate supervisor to assume the responsibilities of the Bureau Commander.

1021.13 RESPONSIBILITIES OF THE PUBLIC INTEGRITY BUREAU (PIB)

PIB shall review all investigative reports submitted in disciplinary matters.

PIB shall forward a copy of the investigative case file, along with the accused employee's disciplinary record, to the designated Hearing Officer for consideration in the penalty phase of the hearing.

PIB shall be responsible for notifying the accused employee of specific date, place and time of the hearing.

The Commander of PIB shall coordinate all forms of Disciplinary Hearings, and assign an employee from PIB to attend all Disciplinary Hearings, except Commander's Hearings.

PIB shall maintain a record of every disciplinary hearing and shall be responsible for the audio taping of the hearing. Commander's Hearings shall be audio recorded by the hearing officer. The audio tape shall be forwarded to PIB for filing. PIB shall maintain for seven years the files of all disciplinary hearings.

PIB shall review each recommended disposition and penalty resulting from a disciplinary hearing to ensure the disposition is appropriate and the recommended penalty is in compliance with the established penalty schedule.

PIB shall be responsible for forwarding final recommendations to the Superintendent of Police for approval.

PIB shall prepare the disciplinary letter from the Superintendent of Police which finalizes the disposition of the complaint and the penalty. The accused employee shall then be notified through the office of his/her Bureau Commander to appear at the PIB office to receive and sign a receipt for his/her disciplinary letter.

PIB shall record the disposition of investigations in the PIB files and make the appropriate files available for viewing by the accused employee, as specified by the mandates of the Police Officer's Bill of Rights (in accordance with La. RS 40:2533) and the Public Records Law.

PIB shall inform the complainant in writing of the final disposition of the complaint which he/she initiated.

PIB shall monitor the Departmental disciplinary process and recommend revisions to the Superintendent of Police.

PIB shall monitor each appeal by a member of the Department presented to, and heard by, the Civil Service Commission and shall make recommendations to the Superintendent of Police on these appeals.

Seat Belts

1022.1 PURPOSE AND SCOPE

The use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic accident. This policy establishes guidelines for seat belt and child safety seat use to promote maximum operator and passenger safety, thus reducing the possibility of death or injury as the result of a motor vehicle collision. This policy will apply to all employees operating or riding in department vehicles.

1022.1.1 DEFINITIONS

Definitions related to this policy include:

Child restraint system - A lap belt, a shoulder harness or an age- or size-appropriate child safety seat that meets Federal Motor Vehicle Safety Standards and Regulations (49 CFR 571; La. R.S. 32:295(B)(2)).

Safety belt system - A manual restraint system installed by the manufacturer that conforms to Federal Motor Vehicle Safety Standards and Regulations (49 CFR 571; La. R.S. 32:1(62.1)).

1022.2 WEARING OF SAFETY RESTRAINTS

All employees shall wear properly adjusted safety restraints when operating or riding in a seat equipped with restraints, in any vehicle owned, leased or rented by this department, or when in any privately owned vehicle while on-duty. The employee driving such a vehicle shall ensure that all other occupants, including non-employees, are also properly restrained unless exempt by law (La. R.S. 32:295.1(B)).

1022.2.1 TRANSPORTING CHILDREN

To be properly restrained as required in this policy, child passengers shall be transported using an approved child restraint system for all children younger than 13 years of age. Children shall be transported in compliance with Louisiana's restraint system requirements based on the age and weight of the child (La. R.S. 32:295(A)).

Rear seat passengers in a cage-equipped vehicle may have reduced clearance that requires careful seating and positioning of seat belts. If permitted by law, children and any child restraint system may be secured in the front seat of vehicles provided this positioning meets the vehicle and federal safety standards and, if the child is under 13, the seat is pushed back as far as possible and the passenger-side air bag deactivated. If this is not possible officers should consider arranging alternative transportation.

1022.3 TRANSPORTING PRISONERS

Prisoners shall be secured in the rear seat of the patrol vehicle by seat belts. The prisoner should be in a seating position for which seat belts have been provided by the vehicle manufacturer.

1022.4 INOPERABLE SEAT BELTS

No department vehicle shall be operated if the seat belt in the driver's position is inoperable. No person shall be transported in a seating position in which the seat belt is inoperable.

New Orleans Police Department

Policy Manual

Seat Belts

No person shall modify, remove, deactivate or otherwise tamper with the vehicle safety belt system, except for vehicle maintenance and repair staff, who shall do so only with the express authorization of the Superintendent of Police or the designee.

Employees who discover an inoperable restraint system shall promptly report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.

1022.5 VEHICLES MANUFACTURED WITHOUT SEAT BELTS

Vehicles manufactured and certified for use without seat belts or other restraint systems are subject to the manufacturer's operating requirements for safe use.

NEGOTIATED SETTLEMENT AGREEMENT (NSA) AND COMPLAINT RESOLUTION

1023.1 PURPOSE AND SCOPE

The purpose of this policy is to define the use of a Negotiated Settlement Agreement (NSA) which allows for a more efficient resolution of an alleged violation without a formal hearing and applies consistency in the application of corrective action.

To be eligible for negotiated settlement, the alleged violation must be rank initiated and a minor violation. For purposes of this policy, a rank initiated violation is a violation reported by an NOPD supervisor. For purposes of this policy, a minor violation is defined as an infraction or set of infractions that are (1) subject to discipline of reprimand to a maximum of ten days as categorized within the Penalty Schedule listing under PR1021; and (2) listed in the Criteria for NSA Eligibility Schedule included within PR1023.

Complaints initiated by citizens shall not be eligible for negotiated settlement.

The preference is for as many cases as possible to be resolved using the Negotiated Settlement Agreement. It is beneficial to all parties involved to resolve complaints as quickly as possible, without sacrificing the goals of the corrective action or disciplinary process.

The Negotiated Settlement Agreement process cannot be used, or function without the complete and unwavering truthful admission of the employee. Employees are required to be honest and truthful at all times in their spoken, written or electronic communications. Employees shall truthfully answer all questions directed to them on the order of the Superintendent of Police, the Superintendent's designee, superior officer or any judicial, departmental, or other official investigative body.

Negotiated Settlement Agreements are not a "right" or "entitlement". At any point prior to the final approval by the Superintendent, the matter can be handled through the formal investigation process.

1023.2 DEFINITIONS

Criteria for NSA Eligibility Schedule – A guide to be used by management in determining if the violation is appropriate for consideration under the Negotiated Settlement Agreement process (see *PR1023*).

Minor Violation - An infraction, or set of infractions, that is (1) subject to discipline of reprimand to a maximum of ten days as categorized within the Penalty Schedule listing under PR1021; and (2) listed in the Criteria for NSA Eligibility Schedule included within procedure PR1023.

Penalty Schedule- A guide to be used by management in determining the appropriate discipline to impose by type of violation committed (*See PR1021, Disciplinary Hearings & Penalty Schedule*).

New Orleans Police Department Policy

Negotiated Settlement Agreement

Rank Initiated Violation - A violation reported by an NOPD supervisor.

Reflection Period - A period of reflection where the employee has up to five (5) calendar days to consider the findings and recommended sanction after being presented with the facts.

Settlement Agreement – An agreement between the employee and the department to settle the complaint without the need for further investigation.

Settlement Meeting - The second and final meeting, occurring after the Presentation Meeting and a Reflection Period, where an employee, having been presented with the Public Integrity Bureau Disciplinary Resolution Form #302 makes a selection of the negotiated penalty or a disciplinary investigation.

Waiver - A written document wherein an employee voluntarily relinquishes a right or privilege otherwise provided for in established policy, rules or procedure.

1023.3 PARTICIPATION IN THE NEGOTIATED SETTLEMENT AGREEMENT PROCESS

In order to participate in the Negotiated Settlement Agreement process, officers shall agree to a 60 day extension of time per LA.R.S. 40:2531(B)(7) by affixing his/her signature along with the signature of his/her Division Level Commander on the Civil Service Extension Request Form #304.

	FORM COMPLETION	PIB REVIEW	PRESENTATION MEETING	SETTLEMENT MEETING (after reflection period)	EXTENSION – EXTRAORDINARY CIRCUMSTANCES	TIME FRAME FOR COMPLETION (Report to Resolution by Settlement)
Public Integrity Bureau Disciplinary Resolution Form #302	Without undue delay at completion of investigation	3 Business Days	No more than 5 calendar days after completion of an approved form.	On or before the 5 th calendar day from the Presentation Meeting	Up to 10 additional calendar days with the approval of the Bureau Chief	Ten (10) calendar days. (Maximum 20 days with extraordinary circumstances)

1023.3.2 FORM COMPLETION - PUBLIC INTEGRITY BUREAU

Upon initiation of a formal investigation, the Public Integrity Bureau will determine if the alleged violation fits the criteria to be considered for the Negotiated Settlement Agreement process. If the alleged violation fits the criteria, the PIB Supervisor will be responsible for completing Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302, and attaching this form to the DI-1 Initiation form.

Upon approval of the Public Integrity Bureau Disciplinary Resolution Form #302 by the Commander of PIB, or his/her designee, it will be routed to the accused member's Bureau Liaison with the DI-1 Initiation form and the member's PIB Short Form (i.e., discipline summary).

1023.3.3 SCHEDULING THE PRESENTATION MEETING

The employee's Division Level Commander shall be responsible for conducting a meeting with the employee to present the allegations or findings of the investigation and a proposed resolution. This is known as the Presentation Meeting.

The Presentation Meeting shall be held as soon as practical but no more than 5 calendar days from receipt of the DI-1, the Public Integrity Bureau Disciplinary Resolution Form #302 and PIB Short Form by the Division Level Commander. The 5 calendar day timeline begins upon receipt of the Public Integrity Bureau Disciplinary Resolution Form #302 from the Bureau Liaison. This 5 calendar day period gives time to provide ample notice to the accused employee in order to identify and secure the attendance of counsel or employee representative and to be fully prepared to discuss the matter. [The availability of an employee representative or counsel should not cause an unreasonable delay (5 days barring the request for extension) for the Presentation Meeting or any meeting]. The accused officer shall be provided a copy of the Police Officer's Bill of Rights under Civil Service Rules, including any right to a departmental hearing.

When scheduling the Presentation Meeting, copies of the documentation used to determine the corrective or disciplinary action, along with the DI-1 and Public Integrity Bureau Disciplinary Resolution Form #302, will be provided to the employee in order that they may prepare for the Presentation Meeting.

New Orleans Police Department

Policy Manual

Negotiated Settlement Agreement and Complaint Resolution

1023.3.4 PRESENTATION MEETING

The Presentation Meeting is the first meeting after completion of Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302.

The proper and orderly administration of the disciplinary process requires that the Presentation Meeting be conducted in a timely manner.

During the Presentation Meeting, the investigation involving an alleged violation of departmental policy, procedure, or order will be reviewed and discussed. This meeting will be conducted by the employee's Division Level Commander.

The employee will have three options at the Presentation Meeting:

- a) **Immediate Resolution** – The employee may elect to immediately accept the sustained allegation and the recommended sanction as categorized within the Penalty Schedule listing under PR1021; or
- b) **Reflection Period** – The employee may elect to have a period of reflection where the employee has up to 5 calendar days to consider the findings and recommended penalty.
 - 1. When an employee makes this selection, the employee's Division Level Commander will have the employee sign an acknowledgement receipt of the Public Integrity Bureau Disciplinary Resolution Form #302 and their obligations during the 5 calendar day reflection period.
- c) **Request a Case Investigation** – The employee may elect to have the case investigated under normal procedures.

Prior to the conclusion of the Presentation Meeting, a follow-up Settlement Meeting will be scheduled for the 5th day from the date of the Presentation Meeting for an employee opting for a Reflection Period (or as close thereto as practical without exceeding 5 calendar days) for final resolution.

During the time up to the scheduled Settlement Meeting, the employee shall consider the settlement proposal and be prepared to discuss the recommended penalty. The employee shall be prepared to make a decision at the Settlement Meeting. The employee should also secure the advice or attendance of any employee representative or counsel; however the availability of an employee representative or counsel should not be cause to unreasonably delay any meeting.

At any point prior to or at the Settlement Meeting, the matter may be resolved by settlement agreement.

If an employee does not make a selection at or before the Settlement Meeting, the employee will be deemed to have selected a disciplinary investigation and the matter(s) pending shall be referred to a PIB investigator.

1023.3.5 SETTLEMENT MEETING

The Settlement Meeting is the final meeting. The accused employee will not be allowed a third opportunity to consider the sustained allegations.

At the Settlement Meeting, the accused employee and their representative, if applicable, can negotiate the recommended penalty. Every effort should be made by the employee and the accused employee's Division Level Commander to negotiate a settlement. The intention of the penalty is not to punish the employee for behavior, but to correct the behavior so that it does not occur in the future. Cooperation from both parties is essential for the effectiveness of the discipline.

New Orleans Police Department

Policy Manual

Negotiated Settlement Agreement and Complaint Resolution

At the conclusion of the Settlement Meeting, the available results are:

- a) The employee accepts responsibility and the negotiated settlement. The employee and the Division Level Commander sign the Public Integrity Bureau Disciplinary Resolution Form #302 indicating resolution.
- b) The employee does not accept responsibility and/or does not agree with the penalty determined through the Penalty Schedule. The applicable sections of the Public Integrity Bureau Disciplinary Resolution Form #302 will be completed.

If the accused employee is unable to reach a conclusion that he/she accepts responsibility for the sustained allegation(s) after the Presentation Meeting, Reflection Period and Settlement Meeting (or does not agree with the penalty determined through the Penalty Schedule), the applicable sections on the Public Integrity Bureau Disciplinary Resolution Form #302 will be completed to indicate referral to a disciplinary investigation consistent with departmental policy.

1023.4 EXTRAORDINARY CIRCUMSTANCES EXTENSION

If the accused employee's Division Level Commander determines during the presentation or settlement process, that extraordinary circumstances exist and that additional time for review and consideration of new information, or is otherwise indicated to be in the best interest of the department or accused employee, the employee's Division Level Commander may request an extension of up to 10 additional calendar days with the approval of the Bureau Chief or the Superintendent of Police. The Division Level Commander shall complete Part 2, Section B of the Public Integrity Bureau Disciplinary Resolution Form #302.

1023.5 CONFIDENTIALITY

To assure the integrity of an ongoing investigation and prior to complaint resolution, the employee is required to maintain the confidentiality of the complaint or investigation. Failure to follow such instruction from an authoritative source shall be grounds for disciplinary action. Nothing herein shall preclude an employee from seeking appropriate representation or legal counsel.

1023.6 RESOLUTION DISAGREEMENT

If the accused employee has agreed to accept responsibility for their behavior but is "disagreeing" only with the extent of discipline requested, every effort should be taken to resolve the disagreement without a formal investigation. The Division Level Commander or accused employee may request at any point in the process the assistance from the Public Integrity Bureau Administrative Lieutenant and/or Bureau Chief to assist with the negotiations to resolve the matter. However, if an acceptable resolution cannot be agreed upon, the case shall be returned to PIB for investigation.

1023.7 ADDITIONAL INFORMATION

At any time during the presentation or settlement process the employee may present exonerating or exculpatory evidence to the Division Level Commander for consideration.

Where the proposed sanction is not already agreed upon, or one or more of the parties involved feels PIB could offer assistance in reaching an agreement, PIB shall be required to participate in the settlement negotiations.

A settlement agreement and/or complaint resolution can occur at any point between the receipt of the complaint and before the conclusion of a Disciplinary Hearing. However, once an investigation has been

New Orleans Police Department

Policy Manual

Negotiated Settlement Agreement and Complaint Resolution

assigned, the Negotiated Settlement Agreement process will not interrupt an on-going investigation unless there is a complete admission of culpability by the accused officer.

Officers who elect to negotiate discipline through the Negotiated Settlement Agreement process will not be entitled a right to appeal the approved negotiated discipline through the Civil Service process once the Negotiated Settlement Agreement process has been finalized.

A formal investigation may be conducted if the Public Integrity Bureau or the employee's supervisor receives any new information regarding the original matter.

The Penalty Schedule provides a range of penalties for proven or admitted allegations. The Penalty Schedule shall be used whether the employee elects to have a departmental hearing or agrees to a sanction through participation in the Negotiated Settlement Agreement.

No recommendation or settlement prescribed on the Public Integrity Bureau Disciplinary Resolution Form #302 shall be complete until approved and finalized by the Superintendent of Police.

1023.8 REQUEST FOR SETTLEMENT NEGOTIATIONS BY EMPLOYEES

Employees may request to participate in the Negotiated Settlement Agreement process after a complaint has been assigned to a PIB investigator. The employee shall be responsible for contacting the PIB Administrative Lieutenant to state his/her desire to participate in the process. The PIB Administrative Lieutenant shall determine if the complaint meets the criteria for participation in the Negotiated Settlement Agreement process. If so, the PIB Administrative Lieutenant shall contact the employee's Division Level Commander and assigned investigator to schedule a meeting for not more than 5 days from the date of the accused employee's notification.

The PIB Administrative Lieutenant will not be required to be present at the meeting unless requested by the employee of the Division Level Commander.

The PIB Administrative Lieutenant is integral in this process to ensure that the investigation is not interrupted and to ensure that presentation and settlement meetings are held within mandated time frames.

1023.9 SUSPENSION ALTERNATIVES

The Department's suspension policy is outlined in the New Orleans Police Department's Policy and Procedure Manual, Policy/PR 1053 – Suspensions, Emergency Suspensions or Arrest of Employee.

In order to participate in the alternate suspension process, the employee shall waive any further appeal or contest of this suspension, or any of the terms and conditions of this agreement, to the Rules of the Civil Service Commission for the City of New Orleans or any other tribunal.

1023.9.2 SUSPENSIONS

When an employee's Division Level Commander recommends that the accused employee be suspended, the Penalty Schedule, within PR1021, Disciplinary Hearings & Penalty Schedule shall be utilized as a guide to recommend an appropriate sanction. Resolution of the disciplinary action will not be complete and final until the Superintendent of Police has approved the Public Integrity Bureau Disciplinary Resolution Form #302.

New Orleans Police Department

Procedure Manual

Negotiated Settlement Agreement and Complaint Resolution

1023.9.2 ANNUAL LEAVE IN LIEU OF SUSPENSION

Upon mutual agreement by the Superintendent of Police and a disciplined employee, suspensions of up to five (5) days may be deducted from the employee's accrued annual leave in lieu of suspension. Notifications of the action shall be made by the Office of the Superintendent of Police in order to facilitate all record keeping requirements affected by the action. The officer shall sign a Memorandum of Understanding (MOU) Form #303 to the agreed terms. Witnesses to the document may include officer's attorney or representative, investigating officer, his Commanding Officer and the Superintendent of Police or his designee.

1023.9.3 TEMPORARY REDUCTION IN PAY IN LIEU OF SUSPENSION

Upon mutual written agreement by the Superintendent of Police and the disciplined employee, an employee receiving a suspension of six (6) days or greater may serve the suspension as a temporary reduction in pay for a specific period of time in lieu of not reporting to work for the number of suspension days received in lieu of suspension. This would result in the loss of wages the employee would normally realize immediately being distributed over multiple pay periods. This mutual written agreement, Memorandum of Understanding (MOU) Form #303 may include, but is not limited to, the following agreed terms:

- a) The Superintendent of Police, or his/her designee, shall determine the duration of the pay reduction, but in no case shall it exceed 12 months.
- b) The employee will continue to report to duty as scheduled and there will be no necessity for any decommission or loss of benefits during this period for sworn personnel.
- c) The pay reduction may be in the form of step or classification reduction and may be rounded to the nearest full day of work. Any rounding of wages shall be done in the favor of the accused employee.
- d) Monthly accrual of vacation time and sick time will continue and will not be affected by this agreement.
- e) During the pay reduction period any step or increment advancement in pay earned by the employee shall proceed as normal and shall not be affected by this agreement.

1023.9.4 SUSPENSIONS - MISCELLANEOUS

Suspension times imposed shall be recorded in the employee's personnel file as such and shall remain a part of any calculation or consideration for the purpose of imposing or enhancing any future corrective action.

The imposed suspension days shall be considered for the purpose of determining the first, second and third offenses of departmental violations of rules, regulations, policies and laws.

The suspension time imposed shall be filed into the employee's personnel file, considered or taken into account on any promotional process, transfer process or any other departmental or Civil Service eligibility criteria.

Any settlement agreement shall be subject to the approval of the Superintendent of Police.

Body Armor

1024.1 PURPOSE AND SCOPE

The purpose of this policy is to provide officers with guidelines for the proper use of body armor.

1024.2 POLICY

It is the policy of the New Orleans Police Department to maximize officer safety through the use of body armor in combination with prescribed safety procedures. While body armor provides a significant level of protection, it is not a substitute for the observance of officer safety procedures.

1024.3 ISSUANCE OF BODY ARMOR

Threat level IIA or higher body armor shall be issued to all officers and the body armor shall meet or exceed the standards of the National Institute of Justice (NIJ).

Body armor shall be issued when an officer begins service with the New Orleans Police Department. Body armor shall be replaced in accordance with the manufacturer's recommended replacement schedule or when the body armor becomes worn or damaged to the point that its effectiveness or functionality has been compromised.

1024.3.1 USE OF SOFT BODY ARMOR

Generally, the use of body armor is required subject to the following:

- (a) Officers shall only wear department-approved body armor.
- (b) Officers shall wear body armor anytime they are in a situation where they could reasonably be expected to take enforcement action.
- (c) Body armor shall be worn when an officer is working a uniform assignment.
- (d) Officers may be exempt from the requirement to wear body armor when they are functioning primarily in an administrative or support capacity and would not reasonably be expected to take enforcement action.
- (e) An officer may be exempt from the requirement to wear body armor when he/she is involved in undercover or plainclothes work that his/her supervisor determines could be compromised by wearing body armor, or when a supervisor determines that other circumstances make it inappropriate to mandate wearing body armor.
- (f) Any officer exempt from wearing body armor due to administrative assignment must wear his/her body armor while conducting or participating in any raid, warrant execution, or other pre-planned, high-risk situation.
- (g) Body armor, if not worn due to an approved exemption, must be readily available should the need arise.
- (h) Specialized body armor, such as that worn over the clothes by the SWAT Team and Narcotics Division during warrant searches, will be governed by rules promulgated by those respective commands and in accordance with best practice and NIJ standards. All regular duty body armor, issued by the Department, will be worn in a manner not to be visible to the public (e.g., under the uniform clothing).
- (i) The Superintendent of Police, or his/her designee, may order the issued body armor worn by all officers or any specific unit, at any time.

New Orleans Police Department

Policy Manual

Body Armor

1024.3.2 INSPECTIONS OF BODY ARMOR

Supervisors should ensure that body armor is worn and maintained in accordance with this policy through routine observation and periodic documented inspections. Annual inspections of body armor should be conducted by an authorized designee for fit, cleanliness and signs of damage, abuse and wear.

1024.3.3 CARE AND MAINTENANCE OF SOFT BODY ARMOR

Officers will not alter, modify, or insert any object into, or remove any portion of, the vest except as necessary and as prescribed by the manufacturer for routine care and maintenance.

Officers are responsible for reporting any damage or wear to the ballistic panels or cover to the Education and Training Division.

Soft body armor should never be stored for any period of time in an area where environmental conditions (e.g., temperature, light, humidity) are not reasonably controlled (e.g., normal ambient room temperature/humidity conditions), such as in automobiles or automobile trunks.

Soft body armor should be cared for and cleaned pursuant to the manufacturer's care instructions provided with the soft body armor. The instructions can be found on labels located on the external surface of each ballistic panel. The carrier should also have a label that contains care instructions. Failure to follow these instructions may damage the ballistic performance capabilities of the armor. If care instructions for the soft body armor cannot be located, contact the manufacturer to request care instructions.

Soft body armor should not be exposed to any cleaning agents or methods not specifically recommended by the manufacturer.

1024.3.4 REPLACEMENT OF SOFT BODY ARMOR

Body armor damaged by normal use will be replaced by the Department. Body armor damaged due to abuse or neglect will be paid for by the officer. The Commander of the Education and Training Division or his/her designee shall make the determination when body armor shall be replaced.

1024.4 EDUCATION AND TRAINING DIVISION RESPONSIBILITIES

The Commander of the Education and Training Division or his/her designee shall:

- (a) Monitor professional sources (e.g., NIJ) for information about recalls of, or identified problems with, body armor used by department personnel.
- (b) Assess weapons and ammunition currently in use and the suitability of approved body armor to protect against those threats.
- (c) Provide training that educates officers about the safety benefits of wearing body armor.

New Orleans Police Department Policy Manual

COMMUNITY-POLICE MEDIATION POLICY

1025.1 PURPOSE AND SCOPE

The Community-Police mediation process is designed to help resolve conflict and allow the parties involved to come to a mutually acceptable resolution.

The Office of the Independent Police Monitor (OIPM) is establishing the Community-Police Mediation Program because adversarial disciplinary processes are not always the most effective way to resolve all police-community conflict. Mediation is offered as an option, in order that some NOPD employees and community complainants may participate in an alternative to the traditional complaint investigation process.

The NOPD goal in participating in a mediation process is to increase the level of trust between the Department and the community at large. Mediation provides NOPD employees with a mechanism to resolve complaints outside the investigation process.

This policy will be subject to review annually.

1025.2 DEFINITIONS

For the purposes of this policy:

Complainant: Any community member (minor or adult) who makes a complaint to the NOPD or to the OIPM.

Mediation: A mediation process helps parties develop a mutual understanding of a conflict. Mediation may help the parties identify disputed issues, facilitate communication, provide an opportunity to improve community relationships, and generate options that may help the parties reach a mutually acceptable resolution.

Mediation Coordinator: The Mediation Coordinator is a person designated by the OIPM to serve as the unbiased, impartial and independent coordinator and facilitator of the Community-Police Mediation Program. The Mediation Coordinator will establish, coordinate, and review all the mediation processes and ensure the collection of evaluative data. The Mediation Coordinator will closely liaise with the NOPD Public Integrity Bureau (PIB) as necessary to develop and maintain the referral processes.

Mediator: The role of the mediator is to be a neutral and trained third party who does not influence or pressure either party to come to an agreement; the complainant and the NOPD employee own the process.

NOPD Employee: Any person employed or appointed by the Department, including full-time or part-time officers, reserve officers, civilian employees and volunteers.

New Orleans Police Department

Policy Manual

Community-Police Mediation Policy

1025.3 ELIGIBILITY PROCESS

Only civilian complaints will be considered eligible for mediation. PIB will determine whether a complaint is eligible. The PIB Administrative Lieutenant/Intake Lieutenant will assess complaint allegations and provide cases eligible for mediation to the OIPM within 3 days after the complaint is received by the NOPD. PIB will adhere to its normal complaint intake and classification process. Complaints that PIB does not provide to the OIPM for potential mediation will remain with PIB for the appropriate non-mediation investigatory process.

1025.3.1 Complaint Eligibility

Certain civilian complaints will be considered eligible for mediation, for example: professionalism, discourtesy, and neglect of duty.

The following complaints will not be considered eligible for mediation:

- 1) Where a complaint involves a criminal allegation against the NOPD employee;
- 2) Where a complaint could result in NOPD employee termination;
- 3) Where a complaint alleges false arrest;
- 4) Where a complaint alleges unreasonable use of force;
- 5) Where a complaint alleges discriminatory policing;
- 6) Where a complaint alleges the planting of evidence;
- 7) Where a complaint alleges untruthfulness/false statements;
- 8) Where a complaint alleges unlawful search;
- 9) Where a complaint alleges retaliation;
- 10) Where a complaint alleges sexual misconduct;
- 11) Where a complaint alleges domestic violence;
- 12) Where a complaint alleges theft; or
- 13) Where the misconduct complained about implicates the conduct of the supervisory or command leadership of the subject NOPD employee

The complaint will not be eligible for mediation if the NOPD employee against whom the complaint is made has already mediated two complaints within the previous twelve months.

Eligibility determinations will be final and not subject to appeal.

1025.4 SUITABILITY PROCESS

Once PIB has deemed a complaint eligible for mediation and provided the complaint to OIPM, the OIPM will assess case and party suitability for mediation through assessment conversations with the NOPD employee and the complainant. Whether the parties agree to mediation (see 1025.5) will be considered in determining suitability.

Complaints that the OIPM determines are unsuitable will be automatically re-filed by PIB for the appropriate non-mediation investigatory process.

1025.4.1 Complainant Suitability

The OIPM will determine suitability for mediation. A complainant may be suitable for mediation when:

- 1) The complainant has provided informed consent to mediation;
- 2) If the complainant is a minor, the minor will be accompanied at the mediation by an adult support person;

New Orleans Police Department

Policy Manual

Community-Police Mediation Policy

- 3) The complainant agrees to sign the confidentiality form and the complaint waiver form (see 1025.5); and
- 4) The complainant understands the expectations of mediation and is willing to participate in the mediation in good faith.

1025.4.2 NOPD Employee Suitability

The OIPM will determine suitability for mediation. A NOPD employee may be suitable for mediation when:

- 1) The NOPD employee has provided informed consent;
- 2) The NOPD employee has signed an automatic 60 day extension form and confidentiality form (see 1025.5); and
- 3) The NOPD employee understands the expectations of mediation and is willing to participate in the mediation in good faith.

Suitability criteria will be final and not subject to appeal.

1025.5 AGREEMENT/DISAGREEMENT TO MEDIATE

Participation in the mediation process is voluntary, and the complainant and NOPD employee must agree to mediation before the mediation can proceed.

The NOPD employee, if agreeing to mediate a complaint, shall give written authorization by signing an extension form that allows PIB to extend the investigation period of the complaint for an additional 60 days for a maximum period of 120 days. The NOPD employee must sign the extension form within 10 days after PIB provides the complaint to the OIPM.

The complainant, if agreeing to the mediation process, must withdraw the complaint from formal investigation by signing a complaint waiver form within 10 days after PIB provides the complaint to the OIPM. The parties must agree to mediate and sign the confidentiality form within 10 days after PIB provides the complaint to the OIPM.

If both parties agree to mediate, the Mediation Coordinator will select a mediator or mediators and a date for the mediation session.

If the NOPD employee does not agree to mediate, the complaint will be automatically re-filed by PIB and will be subjected to the appropriate non-mediation investigatory process. If the complainant does not agree to mediate, the complaint will be automatically re-filed by PIB and will be subjected to the appropriate non-mediation investigatory process.

1025.6 MEDIATION TIME PERIODS

The PIB Administrative Lieutenant/Intake Lieutenant assesses complaint allegations and refers cases eligible for mediation to the OIPM.	OIPM determines suitability, and the parties agree to mediate and sign the confidentiality, extension and complaint waiver forms.	Mediation occurs.
3 days after the complaint is received by NOPD.	10 days after PIB provides the complaint to the OIPM.	Within 25 days after the complaint is received by the NOPD.

New Orleans Police Department

Policy Manual

Community-Police Mediation Policy

A complaint that is not mediated within 25 days will be returned to PIB for the appropriate non-mediation investigatory process. In the case of a failure to mediate based on scheduling or a failure of the NOPD employee to participate in the mediation in good faith, the complaint will be automatically re-filed by PIB and will be subjected to the appropriate non-mediation investigatory process. The mediator will adequately document to PIB the basis for its determination that the NOPD employee has failed to participate in the mediation in good faith.

1025.7 SCHEDULING OF MEDIATION

The Mediation Coordinator will schedule the mediation at a time agreed upon by all parties. Failure to agree on a date will not be the basis of any disciplinary action against a NOPD employee. If a date cannot be agreed to, the complaint will be automatically re-filed by PIB and will be subjected to the appropriate non-mediation investigatory process.

1025.8 MEDIATORS

All mediators will be selected by the Mediation Coordinator from a pool of mediators. This pool of mediators will consist of appropriately skilled mediators that have undergone police complaint mediation training arranged by the Mediation Coordinator. Ideally, mediation will be conducted by a panel of two mediators. Where a civilian complainant is not fluent in English, a bilingual mediator or an interpreter will be offered.

1025.9 CONFIDENTIALITY

The mediation and any paperwork associated with the mediation are confidential and shall not be reproduced or made public in any way. Both parties must sign a Confidentiality Agreement that will include a prohibition on the use of any information disclosed in the mediation process in a judicial or trial setting.

Survey forms will be provided before and after the mediation session to be filled out separately by both parties. The information will be anonymous and will be used only for research and evaluation purposes. Consent to fill out the survey forms will be obtained from both parties.

1025.10 CONDUCT OF MEDIATION

Mediation is a non-confrontational dispute resolution process. In order to maintain a positive atmosphere, each party is allowed to bring another individual, but that individual will not participate in the mediation except to observe and provide support (unless that individual is an adult accompanying a minor).

The Rules of Evidence do not apply to mediations. The parties may bring whatever information they feel relevant to the mediation.

The mediator or mediators will attempt to facilitate a resolution to issues brought up in the mediation. The goal is for parties to listen to each other to determine what led both to the complaint and to the complainant-police interaction.

1025.11 MEDIATION OUTCOMES

Working together, all parties should attempt to decide on a resolution that will satisfy both parties. Parties may elect to draft and sign a resolution agreement and may choose to share that agreement with the OIPM and/or PIB. A specific resolution is not required to successfully conclude a mediation session.

New Orleans Police Department

Policy Manual

Community-Police Mediation Policy

The agreement to enter into mediation, the act of taking part in mediation, and the resolution of the mediation will not be recorded in the NOPD employee's disciplinary record.

1025.12 APPEAL

There shall be no appeal from the mediation process. Mediation is a voluntary process entered into willingly by both parties; due to its voluntary nature, appeal is unnecessary.

He/she shall then perform the Unit Weekly Lock. **NOTE:** Payroll Day refers to the day designated by the City Finance Department on or before which the Weekly Lock must be completed. It will usually be the Sunday or Monday of the following week being reported.

After the Weekly Lock, any changes must be made in writing by submitting a Payroll Adjust Form (Form #93) to the Payroll Section as soon as possible after the error is discovered. When completing the form, the employee's Status and Charge Codes must be included. The Payroll Section shall be responsible for making the necessary adjustments to the TRIP Systems.

1036.6 TRIP/TIME SHEETS

After the payroll has been locked by all units (by 7:00am on Payroll Day), the Payroll Section shall verify that all units are locked, and then certify the payroll as correct by 7:00am on Payroll Day. About one hour after the payroll has been certified as correct by the Payroll Section, the HRTS/time sheets will be available for printing at the Unit level.

If a new employee has not been entered into the TRIP computer system by the time the weekly time sheets are ready for printing, a time sheet must be completed by the employee entering the payroll and submitted to the Payroll Section for processing. The time sheets must be signed by the employee's supervisor and the employee. There will be no exceptions to this requirement.

All Divisions, Districts, Sections, and Units shall ensure the weekly TRIP/time sheets are signed (not stamped) by each employee working during the time the sheets are available for signatures. Supervisory personnel shall not enter or allow the words **AUTHORIZED LEAVE** to be affixed to the time sheet of any employee. All employees must sign time sheets unless on extended leave of five (5) or more days. Upon returning from extended leave, employees must sign time sheets and forward them to the payroll section.

NOTE: If an employee's payroll sheet is submitted with the employee's signature line blank, the employee will receive no paycheck until the sheet is properly completed. **UNDER NO CIRCUMSTANCES ARE CORRECTIONS OR MARKINGS TO BE MADE DIRECTLY ON THE TIME SHEET.** Copies of all submitted payroll sheets shall be made and maintained in each unit.

If an employee's payroll sheet is incorrect, he shall sign the sheet, check off the section marked "exception", and attach a completed Payroll Adjustment Form (Form 93) before submitting the sheet to the Payroll Section.

1036.7 PROCEDURE FOR MAKING ADJUSTMENTS TO TIME SHEETS

Supervisors shall be held responsible for assuring all TRIP entries are correct including charge codes, status codes, and budget codes. Payroll Adjustment Form (Form 93) shall be completed on all errors including charge codes, status codes, etc. and approved by the Unit Commander prior to forwarding to the Payroll Section.

When the Payroll Section receives the Payroll Adjustment Form (Form 93) attached to the TRIP/time sheet (with the exception block checked off), the Payroll Section shall immediately make the proper correction in the TRIP/HRTS system in the appropriate location, affix their own signature below the correction, and submit the TRIP/time sheet to the City Finance Department for processing.

1036.8 SUBMISSION OF PAYROLL

Individual TRIP/time sheets may be separated in order to easily obtain individual signatures. Before submitting to the Payroll Section, the time sheets must be separated in social security number order. All payroll time sheets are due to the Payroll Section office every Friday by 9:00am.

1036.9 SPECIFIC ENTRIES

1036.9.1 COURT TIME (03)

Court time is entered only for those hours spent in court outside of the employee's normal working hours. Court time must be entered to the exact minute. Court time will be automatically rounded off to the next half hour by the computer. The computer also automatically assigns a one hour minimum for court time. In the remarks section of the screen, the court section and docket number shall be added.

If an employee's court appearance extends into his regular working hours, the court time entered under Charge Code 03 must end at the time the employee's regular shift begins.

Court subpoenas and overtime slips shall not be sent to the Payroll Section but instead shall be maintained by each employee's unit assignment.

1036.9.2 CASE OVERTIME (02)

Case overtime must be entered to the exact minute and will be paid to the exact minute. The item number of the case being worked shall be placed in the remarks section of the payroll screen.

Payroll Records

1036.9.3 IOD/WORKMEN'S COMPENSATION REPORTS

No employee can be carried in an IOD or Workmen's Compensation status until the injury has been classified as such and the Administrative Duties Section has entered the item number into the TRIP System. Until the injury has been classified, the employee must be carried sick with the item number included in the remarks section. The Administrative Duties Section shall be responsible for making the appropriate adjustments to the TRIP System after the injury is classified.

Units must prepare a Sick Form (Form 109R) and send the original to the Administrative Duties Section within 24 hours on each IOD or Workmen's Compensation sick incident.

1036.9.4 EMPLOYEES WORKING TEMPORARILY IN OTHER THAN THEIR PRIMARY UNIT OF ASSIGNMENT

If an employee works his entire workday in another unit, his primary unit shall carry him detailed to the temporary assignment with no hours entered. The temporary unit shall enter all of the employee's hours under its organization code. If the temporary unit neglects to enter the employee's time, the primary unit will not be able to execute its weekly lock.

If an employee works partial hours in both his primary unit and a temporary unit in any one workday, the unit in which he begins his workday shall enter his hours worked in that unit before any other unit enters the remainder of his hours worked.

1036.9.5 SHIFT CODE/STATUS CODE

Shift Codes are platoon designators designed to distinguish between platoons which begin on one calendar date (i.e. 11:00pm 1194) and end on the following calendar date (7:00am 1-2-94) and from platoons which begin and end on the same date.

The Status Code will be entered in the appropriate location indicating the individual's work status for each workday. Each entry, if more than one entry is made for a day, will contain a status code.

NOTE: The Status Codes and Charge Codes are available through Motion Network via the PLTB inquiry.

1036.9.6 SHIFT DIFFERENTIAL PAY

Shift differential pay is generated automatically by the computer according to the time the employee begins his workday in his regular work assignment, except for charge code 03 (court time) or charge code 02 (case overtime).

Employees who are eligible for Shift Differential Pay will receive the appropriate rate of pay if their reporting time for duty falls within the guidelines set. Individuals who work more than 8.35 hours in one day will receive the rate of pay indicated at the beginning of their duty and that pay will extend to all hours worked on that day.

1036.9.7 SPECIAL EVENT CODE / CHARGE CODE

All personnel assigned directly to particular special event functions or duties shall be carried under the Special Event Charge Code during the hours they perform those duties.

"OPEN" charge codes have been placed in various categories to allow for expansion. An "OPEN" charge code may be utilized for any event not having its own charge code. The use of "OPEN" charge codes may only be authorized by the Data Systems Section through written request.

New Orleans Police Department

Policy Manual

Payroll Records

Any Division, Section or Unit having one of the newly instituted permanent charge codes shall utilize that code for their daily regular working status.

EXAMPLE:

- D.D.D. W 01 (old system)
- R.T.A. W 01 (old system)
- D.D.D W 45 (new system)
- R.T.A. W 46 (new system)

This process will not alter the use of any other charge codes. The appropriate charge code from the new list shall be used for Court, Case, Holiday overtime, etc., and shall be utilized in lieu of the commonly misused 01 code.

1036.9.8 CIVILIAN EMPLOYEES ON A SEVEN HOUR WORKDAY (35 HOUR WEEK)

Civilian employees who work the entire day without taking any form of authorized leave will be carried working for eight hours. The one hour lunch break will be automatically deducted from the record.

Civilian employees who take any form of authorized leave must have all entries accounted for, and the total hours must equal seven hours.

Example:

- Employee works from 8:00am to 10:00am - 2 hrs working.
- Employee takes furlough from 10:00am to 11:00am - 1 hr.
- Employee returns to work at 12:00 noon and works to 4:00pm - 4 hrs.

The total entries of the above example totals seven hours.

NOTE: The lunch hour from 11:00am to 12:00 noon is not automatically subtracted by the computer.

1036.9.9 CYCLE EMPLOYEES ON AN 8.58 (8 HRS, 35 MIN) WORKDAY

Civil Service Rules now make it possible for all cycle employees to get paid for 85.5 hours bi-weekly (14 day pay cycle) regardless of their work/leave status. A minimum of 8 hours and 33 minutes for all entries, other than regular working hours, and 8 hours and 35 minutes for regular working hours shall be entered each day.

Regular working 8 hours and 35 minutes - 6:25am to 3:00pm = 8.58 hours.

Annual 8 hours and 33 minutes 3:27pm to 11:00pm = 8.55 hrs.

Sick 8 hours and 33 minutes 10:27pm to 7:00am = 8.55 hrs.

The use of civil and military leave should also be 8 hours and 33 minutes.

Holiday "off" should be entered as usual. Holiday "working" should be entered with the specific charge code, total hours worked, and status code F .

If a cycle employee takes leave for any portion of the day, their hours must total 8 hours and 33 minutes. (Example: Working from 6:25am to 11:00am Annual from 11:00am to 2:58pm. Total of 8 hours and 33 minutes = 8.55 hours.)

If the Platoon Commander is informed at least one day in advance of the employee's need to use furlough in the middle of the workday, he/she may elect to change the reporting time of the employee to coincide with the ending time of the workday with the rest of his/her platoon.

1036.9.10 PERSONAL USE CHARGE (TAKE-HOME VEHICLES)

Commissioned or non-commissioned employees of the department who are assigned a City-owned vehicle with take-home privileges will be assessed a Personal Use Charge for this privilege. Each commissioned employee of the department and each civilian employee as individually directed, whether currently authorized for take-home use of a City vehicle or not, shall be required to complete and sign the City of New Orleans - NOPD Take-Home Vehicle Authorization Form (Form # CAO 03-22).

To provide for this deduction (per CAO Memorandum 03-22), a daily entry shall be required on the TRIP Payroll System. Under the field titled Take Home Veh # , the Account Number of the vehicle assigned to the employee as a take-home vehicle will be entered. Entries in the Take Home Vehicle section are not required when an employee is annual (furlough), sick or AWP (unless the employee is AWP working). (Note: Employees carried Leave Without Pay are prohibited from being assigned a take-home vehicle).

Employees who are provided a take-home vehicle shall be charged a personal use fee unless access to the vehicle is denied for one of the following reasons:

- (a) Extended maintenance/repairs or mechanical failure causing the vehicle to be placed out of service (however, if an assigned take home vehicle is available for any portion of a day or a replacement vehicle is provided the personal use fee will continue to be charged);
- (b) Emergency fleet use, wherein the vehicle is taken out of take-home status and placed into the fleet for use by the department to maintain normal operations;
- (c) Take-home vehicle privileges are suspended for the employee by the department; or
- (d) Any other departmental action which causes the employee to be denied access to the vehicle in take-home status.

The City ITI shall maintain accurate tables of charge code and budget code entries, reporting as requested to the Deputy Superintendent of the Management Services Bureau.

The City ITI shall generate a Cycle Cost Report at the end of each fourteen day pay cycle and forward same to the Deputy Superintendent of the Management Services Bureau. Each cost report shall also be permanently archived in the Technology Section.

Excusal on the Night Watch

1037.1 PURPOSE AND SCOPE

The purpose of this policy is to establish the guidelines for individuals of the New Orleans Police Department who are assigned to the night watch and who desire to be excused from duty in lieu of being paid overtime for court attendance.

1037.1.1 DEFINITIONS

Definitions related to this policy include:

Court attendance - The mandatory appearance in any court or administrative hearing where the employee has been summoned to give testimony and the testimony arises out of the employee's scope and performance of duty.

1037.2 POLICY

Employees of the Department assigned to the night watch (3rd platoon) may be excused from duty on days in which they appear in court for five or more hours instead of receiving court pay.

Employees assigned to the night watch who wish to be excused from duty instead of receiving court pay shall contact their unit commander or on duty platoon commander and request to be excused. Approval is not automatic.

Unit commanders, or on duty platoon supervisors, contacted by employees wishing to be excused from duty shall first check the night watch lineup for manpower allocation or check with the night watch platoon commander before granting approval. The unit commander or on duty supervisor granting approval shall notify the employee's platoon commander, in writing, that the employee has been excused from duty.

If approval is granted for excusal from duty, the employee shall deliver his/her subpoena and completed form 34 (court overtime) to his/her unit desk officer prior to his/her reporting time.

The employee's TRIP payroll shall be entered as follows:

- (a) The employee shall be entered as working for eight hours and thirty-five minutes (W 01).
- (b) The excused employee shall not be assigned a unit number. That area of the payroll mask shall be left blank.
- (c) In the remarks section, a notation will be entered indicating the docket number of the court case and the words court excusal.

Teletype bulletins need not be sent when an employee is excused from duty.

Overtime Payment Requests

1038.1 PURPOSE AND SCOPE

It is the policy of the Department to compensate non-exempt salaried employees who work authorized overtime either by payment of wages or by the allowance of accrual of flex time off. In order to qualify for either, the employee must complete and submit a request for overtime payment as soon as practicable after overtime is worked.

1038.2 POLICY

All overtime hours worked by employees of the New Orleans Police Department shall be documented in the TRIP payroll system.

Employees of the New Orleans Police Department may be permitted to work paid overtime outside their permanent assignment.

Employees who are suspended, sick, injured on duty, on annual leave, or being carried in a non-working pay capacity shall not be permitted to earn paid overtime, except for mandatory court appearances.

No employee, including Reserve officers, shall work more than 16 hours within a 24-hour period (the 24-hour period begins the first time the employee reports for either regular duty or secondary employment allowing for a minimum of eight hours of rest within each 24-hour period). These hours are cumulative and include normal scheduled work hours, overtime, off-duty secondary employment, and outside employment. If an employee works over the sixteen hour limit, for reasons beyond his/her control (i.e., regularly scheduled duty hours coupled with a mandatory court overtime appearance), the employee shall submit a Form 105 via the chain of command to the Superintendent or his/her designee explaining why he/she worked over the 16-hour limit.

Scheduled off-duty secondary employment opportunities or outside employment that could have been adjusted shall not be considered as a valid reason to exceed the 16-hour work limitation. Exceptions to the 16-hour limit may be authorized in advance by the Superintendent of Police or his/her designee in situations involving a declared state of emergency or security concerns over the availability of personnel for coverage related to a major special event.

An employee's work hours are limited as follows:

- (a) Employees shall not work more than 16 hours in a day.
- (b) Employees shall not work more than 24 hours of overtime per week, Sunday through Saturday.
- (c) Up to 32 hours of overtime may be worked per week with the permission of the employee's deputy superintendent.

1038.3 REQUEST FOR OVERTIME FORMS

Employees desiring to work paid overtime in an assignment other than their permanent assignment shall complete a Request to Work in Unit Other than Permanently Assigned Unit (Form 90) and obtain the approval of their Immediate Supervisor, or the on duty Platoon Commander in their permanent assignment, and their Commanding Officer. Approval shall be obtained on each separate occasion the employee desires to work overtime outside

Policy Manual

Overtime Payment Requests

their assignment except when employees are engaged in the following activities and the conditions and duration of the assignment are listed on the Form 90:

- (a) Task force operations, or

1038.3.1 EMPLOYEE RESPONSIBILITY

Employees shall complete and submit all payroll and overtime request forms promptly.

1038.4 ACCOUNTING FOR OVERTIME WORKED

Employees are to record the actual time worked in an overtime status.

Up to 15 minutes	1/4 hour
16 to 30 minutes	1/2 hour
31 to 45 minutes	3/4 hour
46 to 60 minutes	1 hour

1038.4.2 J AND T TIME

When unscheduled hours are worked by members of the department on a regularly scheduled work day (with the exception of mandatory court overtime), the unit of assignment shall enter the unscheduled hours worked in the trip system under status code J , along with charge code 02 and the appropriate shift code.

T time shall be entered to off-set the unscheduled J time entered. T time hours are one for one (i.e., an employee works 2 hours of unscheduled overtime, the employee shall take 2 hours off.). Charge code 01 shall be the only charge code used when an employee is carried in status code T .

Members shall be scheduled equal hours off (one for one) within the two week pay period. If an employee works unscheduled hours in week one of the pay period on a regularly scheduled work day, the employee must be given equivalent hours of time off prior to the last regularly scheduled work day of week two of the same pay period.

If the unscheduled hours are worked in the second week of the pay period on a regularly scheduled work day, then the time off must be given to the employee prior to the employee's last scheduled regular working day of that pay period.

An employee having to work unscheduled hours on the last regularly scheduled work day of the two-week payroll cycle, the employee shall be carried W-02 for all such hours worked.

Employees cannot work J time on an AWP day (scheduled day off). J time can only be worked on a regularly scheduled working day.

EXAMPLES:

- (a) An employee works 2 hours of unscheduled overtime on a regularly scheduled work day prior to his/her last regularly scheduled work day of the two-week payroll cycle

1038.4.3 VARIATION IN TIME REPORTED

Where two or more employees are assigned to the same activity, case or court trial, and the amount of time for which payment is requested varies between the two, the Platoon Commander or other approving supervisor may require each employee to include the reason for the variation on the entry.

1038.5 OVERTIME DURING EMERGENCY EVENT

All grants related overtime and special assignment overtime will be suspended during an emergency event. Any overtime worked outside the emergency event must be approved by the Superintendent

Outside Employment

1040.1 PURPOSE AND SCOPE

To avoid actual or perceived conflicts of interest for department employees engaging in outside employment, all employees shall obtain written approval from the Superintendent of Police prior to engaging in any outside employment. Approval of outside employment shall be at the discretion of the Superintendent of Police in accordance with the provisions of this policy.

The department may impose conditions on outside employment. Determination of the degree of limitation will be based upon the interest of the department and ensure that the department receives full and faithful services in return for its expenditure of resources.

1040.1.1 DEFINITIONS

Definitions related to this policy include:

Outside employment - The employment of any member of the Department by another individual, business, establishment, or organization, or on a self-employed basis, where the member is privately paid and is performing duties of a non-police function (*e.g.* - *Accountant; Lifeguard; Attorney; Real Estate Agent; Sales Representative; etc.*). Due to the nature of outside employment services which may be authorized under this policy, any request to carry a weapon while working in an outside employment capacity must be approved in advance by the Superintendent of Police.

An officer's employment status while on a paid detail/secondary employment assignment is not outside employment for the purposes of this policy. Such employment is governed by the Secondary Employment Policy and applicable law.

Short term outside employment - Outside employment that is worked on a non-recurring schedule for the same employer.

Permanent outside employment - Outside employment that is worked on a recurring schedule for the same employer.

1040.2 OBTAINING APPROVAL

No member of this department may engage in any outside employment without first obtaining prior written approval of the Superintendent of Police. Failure to obtain prior written approval for outside employment or engaging in outside employment prohibited by this policy is grounds for disciplinary action.

To obtain approval for outside employment, the employee must complete an Outside Employment Authorization Form (Form #22), attaching a printout of their attendance record for the previous 12 months, that shall be submitted to the employee's immediate supervisor. The application will then be forwarded through the appropriate chain of command to the Superintendent of Police for consideration and final approval. Members will not be allowed to work the requested outside employment until final approval of the Superintendent of Police has been given. There are no exemptions from this requirement.

Each reviewing authority in the requesting member's chain of command shall consider the following when reviewing an Outside Employment Authorization form:

New Orleans Police Department

Policy Manual

Outside Employment

- (a) The nature of the outside employment requested;
- (b) Any potential conflicts as outlined in this policy;
- (c) The occupation and duties the member will engage in;
- (d) The member's overall attendance record for the previous 12 months. All sick leave usage will be considered, including those instances which were documented.
- (e) The member's performance; and
- (f) The member's disciplinary record.

If approved, the employee will be provided with a copy of the approved application. Unless otherwise indicated in writing on the approved application, an approved application will be valid for one year and shall be renewed each year in the month of the member's birth. Any employee seeking to continue outside employment shall submit a new application in a timely manner.

Any employee seeking approval of outside employment whose application has been denied shall be provided with a written reason for the denial of the application at the time of the denial and within 30 days of the application.

1040.2.1 APPEAL OF DENIAL OF OUTSIDE EMPLOYMENT

In instances where a reviewing authority disapproves an Outside Employment Authorization Request, he/she shall note the reasons for disapproval (e.g., poor attendance, poor performance, disciplinary problems) on an Interoffice Correspondence (Form #105). The Interoffice Correspondence shall be attached to the Outside Employment Authorization Request and continue routing the request through the chain of command for final approval/disapproval by the Superintendent of Police.

A copy of the disapproval, along with a copy of the Interoffice Correspondence listing the reason(s) for disapproval, shall be forwarded to the requesting member by the supervisory officer disapproving the request. The member will have the option of submitting an Interoffice Correspondence in response to the disapproval to the Superintendent of Police and shall contain signature spaces with the designation CONCUR / DO NOT CONCUR for the appropriate personnel in the chain of command.

If an employee's application is denied or rescinded by the Department, the employee may file a written notice of appeal to the Superintendent of Police within 10 days of the date of denial.

1040.2.2 REVOCATION/SUSPENSION OF AN APPROVED OUTSIDE EMPLOYMENT APPLICATION

Any approved outside employment application may be revoked or suspended after the employee has received written notification of the reasons for revocation or suspension. Additionally, revocation or suspension will only be implemented after the employee has exhausted the appeal process.

The outside employment may be revoked:

- (a) If an employee's performance declines to a point where it is evaluated by a supervisor as needing improvement to reach an overall level of minimum acceptable competency, and the outside employment may be related to the employee's performance. The Superintendent of Police may, at his/her discretion, notify the employee of the intent to revoke any previously approved outside employment application. After the appeal process has concluded, the revocation will remain in

New Orleans Police Department

Policy Manual

Outside Employment

force until the employee's performance directly related to the outside employment has been re-established to the minimum level of acceptable competency.

- (b) If, at any time during the term of an approved outside employment application, an employee's conduct or outside employment conflicts with the provisions of department policy, or any law.
- (c) The outside employment creates an actual or apparent conflict of interest with the Department or the City.

1040.3 GENERAL INFORMATION

The nature of the law enforcement task requires Department employees to have the ability to work irregular schedules which are subject to change in meeting deployment needs. Additionally, it is necessary that employees have adequate rest to be alert during their tours of duty. For these reasons, and because certain activities are inherently incompatible with an employee's primary responsibility to the Department, the Department may impose conditions on outside employment or may prohibit it altogether. Determination of the degree of limitation will be based upon the interest of the Department and ensure that the Department receives full and faithful services in return for its expenditure of resources.

Outside employment shall not interfere with the member's performance of duty. While working outside employment, members shall conform to all departmental policies, procedures, rules and order.

Members shall not perform or engage in outside employment during their regular tour of duty.

Members shall not work outside employment that would render the performance of their duties to the department below minimum standards or render the member unavailable for reasonably anticipated overtime assignments.

No employee, including Reserve officers, shall work more than 16 hours within a 24-hour period (the 24-hour period begins the first time the employee reports for either regular duty or secondary employment allowing for a minimum of eight hours of rest within each 24-hour period) These hours are cumulative and include normal scheduled work hours, overtime, off-duty secondary employment, and outside employment.

1040.3.1 OUTSIDE SECURITY EMPLOYMENT

Due to the potential conflict of interest, no member of this department may engage in any outside employment as a private security guard, private investigator or other similar private security position.

SECONDARY EMPLOYMENT

1041.1 PURPOSE AND SCOPE

The purpose of this directive is to establish departmental policy and procedures regarding secondary employment (previously referenced as “paid details”).

1041.2 POLICY

Any attempt to circumvent or circumventing the requirements of this policy governing secondary employment or procedures established by the OPSE shall subject officers to discipline as warranted, up to and including dismissal.

Employees or Reserve members working secondary employment do so as representatives of the New Orleans Police Department. Since public perception, moral character, and public associations are affected by the overall professional appearance of its’ members, it shall be the policy of the Superintendent of Police to require all secondary employment coordinated through the OPSE be reviewed and approved by his office for appropriateness. All members shall be subject to recall at any time for emergencies, special assignment and/or overtime duty.

Should a member working a secondary employment assignment be required to leave a secondary employment location before the scheduled end time based on exigent circumstances, the secondary employment member shall be responsible for notifying OPSE as to the reason and exact time he/she left the assignment. If OPSE indicates they will be unable to staff a replacement for the secondary employment position for the remainder of the assignment, the member shall contact a supervisor from the district where the assignment is being worked to request assistance with additional patrols or coverage, as calls for service permit. The Bureau Commander will determine what limited-duty assignments may be available based on the needs of the Department, limitations of the employee and suitability of the employee to work a particular assignment. Professional Performance Enhancement Program

1056.1 PURPOSE AND SCOPE

The Purpose of this policy is to provide for the administration of the Professional Performance Enhancement Program (PPEP). This program will provide for a systematic review of employee behavior with regard to job performance and interpersonal contacts in order to detect any tendencies requiring early intervention.

PPEP shall compile and analyze data from a variety of sources for use in monitoring the behavior of NOPD employees. It is the intention of the program to identify problem behavior, intercede as appropriate and initiate corrective non-disciplinary action, when needed, to enhance public relations, improve citizen interactive skills and prevent escalation of any inappropriate behaviors.

The data gathered will also be used to continually evaluate the training techniques of the Department.

1056.2 POLICY

It is the policy of the New Orleans Police Department to put forth the most highly skilled and professional employee possible.

Quality police service requires sensitivity and self-discipline on the part of those providing such service, often under trying circumstances. To meet these obligations, training in community awareness and sensitivity is directly related to performance.

1056.3 PROGRAM

The Department has established a Professional Performance Enhancement Program (PPEP) as mandated by the Superintendent of Police.

The Programs Section of the Public Integrity Bureau administers the PPEP.

1056.4 DATA CRITERIA

The criteria selected for use in selecting the data used in the review of department personnel are designed to bring to the Department's attention as many potential problematic personnel as possible without needlessly inhibiting energetic, well-intentioned employees.

Job Performance Improvement Plan

1057.1 PURPOSE AND SCOPE

To establish instructions and guidelines for the use of the Employee Job Performance Improvement Plan (JPIP).

1057.1.1 DEFINITIONS

Definitions related to this policy include:

Job Performance Improvement Plan - A written managerial plan designed to assist an employee with improving his/her performance. Defines unsatisfactory and/or below standard employee performance and/or behavior. The plan offers clear objectives and establishes a timeline for improvement.

1057.2 POLICY

One goal of the Department is to give every employee the opportunity to be successful in his/her chosen career. JPIP is one method used to provide a clear and documented exchange between a supervisor and an employee regarding performance expectations to assist in meeting this goal.

Supervisors, managers, and/or administrators must decide when it's appropriate to move from the verbal to the written level to seek to improve management in an employee's performance. Once supervisory personnel determine written documentation is necessary to assist in bringing an employee's performance up to an acceptable level, a Job Performance Improvement Plan form shall be initiated.

The following are included in the Job Performance Improvement Plan form:

- All methods, discussions, meetings, etc., to be used in meeting the objective(s) and goal(s) of performance.
- A list identifying the standard(s) the employee does not meet (police officer standards.)
- A discussion about each area where improvement is needed.
- A mutual agreement on the nature and severity of the substandard performance.
- A mutual agreement on the course of action that will increase performance to an acceptable level.

The employee and the supervisor should agree on a performance objective(s). Ideally, the employee will set the objective(s) and the supervisor will advise if the objective(s) is attainable. The objectives should be measurable and realistic, and reasonable for the employee to have positive changes in behavior and/or performance.

While collaboration is clearly the preferred course of action, a supervisor can set the acceptable standard to meet the objective(s) by the employee throughout the JPIP.

A copy of all JPIP's will be forwarded to the Public Integrity Bureau within 72 hours (3 days) of completion.

New Orleans Police Department

Policy Manual

Job Performance Improvement Plan

Although a JPIP may be used at any time to improve an employee's job performance, a JPIP is utilized if an employee's performance is rated less than acceptable on any performance evaluation. It may also be used any time if an employee's performance is rated below an acceptable standard.

An employee may be ordered to participate in a JPIP in addition to any sanctions resulting from corrective or disciplinary action. Failure of an employee to successfully complete the terms and conditions of a JPIP is grounds for corrective and/or disciplinary action with sanctions up to and including termination.

The JPIP should include attainable objectives and standards to reach the goal of acceptable performance.

PR323

CUSTODY SEARCHES

PR323.1 PAT-DOWN SEARCHES - JUSTIFICATION FOR CONDUCTING PAT-DOWN SEARCHES

A law enforcement officer has the right to perform a pat-down search of the outer garments of a subject for weapons if he/she has been legitimately stopped with reasonable suspicion.

Additionally, the officer must have a reasonable fear for his own or another person's safety. Clearly, not every field interview poses sufficient justification for conducting a pat-down search. These searches are only justifiable and may only be performed to protect the safety of officers and others and may never be used as a pretext for obtaining evidence.

The following criteria may form the basis for establishing justification for performing a pat-down search. Officers should note that these factors are not all-inclusive - there are other factors that could or should be considered. The existence of more than one of these factors may be required in order to support reasonable suspicion for the search. These factors must be articulable.

- (a) The type of crime suspected, particularly in crimes of violence where the use or threat of deadly weapons is involved.
- (b) Where more than one subject must be handled by a single officer.
- (c) The hour of the day and the location or neighborhood where the stop takes place.
- (d) Prior knowledge of the subject's use of force and/or propensity to carry deadly weapons.
- (e) The appearance and demeanor of the subject.
- (f) Visual indications which suggest that the subject is carrying a weapon.
- (g) The age and gender of the subject.

PR323.1.1 PROCEDURES FOR PERFORMING A PAT-DOWN SEARCH

When reasonable suspicion exists to perform a pat-down search, it should be performed with due caution, restraint, and sensitivity. Under these circumstances, pat-down searches should be conducted in the following manner:

- (a) Whenever possible, pat-down searches should be conducted by at least two officers, one who performs the search while the other provides protective cover. When possible, a pat-down search should be performed by an officer of the same gender as the subject being searched. If an officer of the same gender is not immediately available to conduct the search, the search should be done with the back of the officer's hand, or with the fingertips.
- (b) Because pat-down searches are cursory in nature, they should be performed with the subject in a standing position or with hands placed against a stationary object and feet spread apart.
- (c) In a pat-down search, officers are permitted only to externally feel the outer clothing of the subject. The officer may not manipulate the object(s) with his/her fingers. An officer may not place his/her hands in pockets unless he/she feels the object could reasonably be a weapon, such as a firearm, knife, club, or other item.

New Orleans Police Department

Procedure Manual

CUSTODY SEARCHES

- (d) Items of contraband, which are immediately recognizable as contraband using a pat down search (without manipulation of the object), can be seized as evidence.
 - 1. For successful prosecution, the officer must articulate within his/her report the reason for the pat down search, and the basis of his/her belief the subject was carrying a weapon.
- (e) If the subject is carrying an object such as a handbag, suitcase, briefcase, sack, or other item that may conceal a weapon, the officer should not open the item, but instead place it out of reach of the subject.
- (f) If the external feeling of the subject's clothing fails to disclose evidence of a weapon, no further search may be made. If evidence of a weapon is present, an officer may retrieve that item only. If the item is a weapon, the possession of which is a crime, the officer may make an arrest of the suspect and complete a full-custody search of the suspect.
 - 1. If the item seized is not a weapon, but found to be illegal contraband, the subject shall be arrested and the provisions of subparagraph (d) above shall apply.

PR323.2 STRIP SEARCH

An incident report must be written for any offense which includes a strip search. Following a strip search, the officer performing the search shall include in his/her incident report narrative, at a minimum, the following:

- (a) date, time, and place of the search;
- (b) identity of the officer(s) conducting the search and the officer(s) requesting the search, if different;
- (c) identity of the individual(s) searched;
- (d) identities of those present during the search;
- (e) identity of the supervisor authorizing the search;
- (f) a detailed description of the nature and extent of the search; and
- (g) any weapons, evidence, or contraband found during the search.

PR323.3 BODY CAVITY SEARCHES

Should visual examination of a suspect during a strip search and/or other information lead an officer to believe that the suspect is concealing a weapon, evidence, or contraband within a body cavity, the following procedures shall be followed:

- (a) The officer shall consult with his immediate supervisor to determine whether probable cause exists to seek a search warrant for a body cavity search. The decision to seek a search warrant shall recognize that a body cavity search is highly invasive of personal privacy and is reasonable only when the suspected offense is of a very serious nature or poses a threat to the safety of officers or others.
- (b) If probable cause exists for a body cavity search, an affidavit for search warrant shall be prepared that clearly defines the nature of the alleged offense and the basis for the officer's probable cause. The statement should include why a body cavity search is deemed necessary.
- (c) Body cavity searches shall be performed with due recognition of privacy.
- (d) Body cavity searches shall only be performed by medically trained personnel, such as a doctor or a nurse (i.e., only a doctor is qualified to perform a search of a suspect's stomach).

PR362

Identity Theft

PR362.1 GENERAL INFORMATION

Identity Theft has become more prevalent and often involves related crimes that can span across other jurisdictions and states and be done by mail, phone and internet, to name a few. Criminals are committing identity theft with more ease and free roam due to the abundance of information available whether by internet, mail theft or rogue employees of businesses supplying the suspects with confidential information of their clients. Identity Theft is not limited to a suspect establishing credit, obtaining services, or goods with the use of another's personal identifiers. It also includes the unauthorized use of another's existing credit card, debit card and/or checking and routing numbers for personal monetary or material gain. Though Identity Theft can be applied as a broader charge, it is usually best applied to a situation wherein the suspect has stolen and used or attempted to use the financial identity of another's solely to fraudulently establish credit and receive goods or services. (See also La. R.S.14:70.4 Access Device Fraud at <http://legis.la.gov>)

Officers and detectives alike should be educated in such crimes in order to better assist one another in bringing the investigation to a successful close and or prosecution.

More importantly the victims of Identity Theft need to be assured they are being helped by knowledgeable detectives and officers in the area of identity theft in order to guide them in the right direction to recover from damage to their credit and financial stability. Identity Theft can be a traumatic incident in a person's life because a successful Identity Thief can not only ruin a victim's good credit standing but also completely empty their bank account(s) and possibly steal their entire life savings. It is important that the first officer or detective on scene a victim meets has the knowledge and resources to communicate to the victim that this type of crime can be solved and that they can recover from the negative impact.

The use of one's identity by another during a criminal investigation, traffic or Terry stop whether the suspect is cited/arrested or not, is not considered Identity Theft under the current La. R.S. 14:67.16.

PR362.2 INFORMATION TO BE INCLUDED IN/WITH REPORT

When receiving a complaint of Identity Theft, the following shall be included in the report:

- (a) Type of theft (i.e., credit card, bank account, store accounts, etc)
- (b) All credit card numbers, account numbers, etc, known by the victim to have been opened fraudulently

Reporting officers shall also include any and all documentation the victim has regarding the theft.

Contacts, Detentions and Photographing Detainees

PR440.1 INITIATING A FIELD INTERVIEW

Based on observance of suspicious circumstances or upon information from investigation, an officer may initiate the stop of a subject if he/she has articulable, reasonable suspicion that the person has been, is, or is about to be engaged in the commission of a crime. The following guidelines shall be followed when making an authorized stop to conduct a field interview.

- (a) When approaching the subject, the officer shall clearly identify himself/herself as a law enforcement officer; if not in uniform, the officer shall announce his/her identity and display department identification.
- (b) Officers shall be courteous at all times during the contact, while maintaining caution and vigilance for furtive movements to retrieve weapons, conceal or discard contraband, or other suspicious actions.
- (c) Before approaching more than one subject, individual officers should determine whether the circumstances warrant a request for backup assistance and whether the contact can and should be delayed until such assistance arrives.
- (d) Officers shall confine their questions to those concerning the subject's identity, place of residence, and other inquiries necessary to resolve the officer's suspicions. However, in no instance shall an officer detain a subject longer than is reasonably necessary to make these limited inquiries.
- (e) Officers are not required to give subjects Miranda warnings in order to conduct field interviews.
- (f) Subjects are not required, nor can they be compelled, to answer any questions posed during field interviews except to disclose his/her name (*Hiible v. Nevada*; La. CCP 215.1). Failure to respond to an officer's inquiries, except to disclose his/her name, is not, in and of itself, sufficient grounds to make an arrest, although it may provide sufficient justification for additional observation and investigation. Officers must use the investigative technique which is least intrusive and reasonably available to verify or dispel the officer's suspicions.
- (g) Generally, subjects should not be handcuffed or restrained during stops based on reasonable suspicion. If the reasonable suspicion develops into probable cause for arrest, normal arrest procedures apply.

PR440.2 PROCEDURES FOR PERFORMING A PAT-DOWN SEARCH

When reasonable suspicion exists to perform a pat-down search, it should be performed with due caution, restraint, and sensitivity. Under these circumstances, pat-down searches should be conducted in the following manner:

- (a) Whenever possible, pat-down searches should be conducted by at least two officers, one who performs the search while the other provides protective cover. When possible, a pat-down search should be performed by an officer of the same gender as the subject being searched. If an officer of the same gender is not immediately available to conduct the search, the search should be done with the back of the officer's hand, or with the fingertips.

New Orleans Police Department

Procedure Manual

Contacts, Detentions and Photographing Detainees

- (b) Because pat-down searches are cursory in nature, they should be performed with the subject in a standing position or with hands placed against a stationary object and feet spread apart.
- (c) In a pat-down search, officers are permitted only to externally feel the outer clothing of the subject. The officer may not manipulate the object(s) with his/her fingers. An officer may not place his/her hands in pockets unless he/she feels the object could reasonably be a weapon, such as a firearm, knife, club, or other item.
- (d) Items of contraband, which are immediately recognizable as contraband using a pat down search (without manipulation of the object), can be seized as evidence.
 - 1. For successful prosecution, the officer must articulate within his/her report the reason for the stop, the pat down search, and the basis of his/her belief the subject was carrying a weapon.
- (e) If the subject is carrying an object such as a handbag, suitcase, briefcase, sack, or other item that may conceal a weapon, the officer should not open the item, but instead place it out of reach of the subject.
- (f) If the external feeling of the subject's clothing fails to disclose evidence of a weapon, no further search may be made. If evidence of a weapon is present, an officer may retrieve that item only. If the item is a weapon, and the possession of said weapon is a crime, the officer may make an arrest of the suspect and complete a full-custody search of the suspect.
 - 1. If the item seized is not a weapon, but found to be illegal contraband, the subject shall be arrested and the provisions of subparagraph (d) above shall apply.

PR440.3 REPORTING

Members of the department conducting field interviews shall complete field interview cards (F.I.C.), recording the information for the individuals involved, subject to the below guidelines:

- (a) When an officer has an articulable reason to stop a pedestrian or driver who has become the subject of a vehicle stop, which when made under the guidance of *Terry v. Ohio* (Terry Stop) shall cause an F.I.C. to be recorded in connection with that stop.
- (b) This includes those incidents where a report is made, a citation/summons issued, or where the arrest is made in accordance with the above.
- (c) Officers making vehicle stops which result from an observed violation of Title 32, Motor Vehicles and Traffic Regulation statutes or their municipal equivalents shall complete an F.I.C. card whether a citation is completed or not. However, an F.I.C. requirement shall not apply to those situations where vehicles are involved in an auto accident, regardless of whether the drivers of those vehicles were issued a citation as a result of the accident.
- (d) Only one F.I.C. entry should be made for each incident, unless it is necessary to enter additional individuals. The F.I.C. entry shall be made by the primary unit on the scene.
- (e) Field supervisors shall review all Field Interview Cards to ensure that officers are complying with departmental policy regarding stop and frisk, and that Field Interview Cards are completed accurately.

F.I.C.'s shall be completed via Mobile Data Terminal (M.D.T.), if available. If no M.D.T. is available to the investigating officer, F.I.C.'s may be entered via computer network terminals. These computer network terminals are available at each district station, as well as other departmental installations and entries shall be made by the investigating officer.

New Orleans Police Department

Procedure Manual

Contacts, Detentions and Photographing Detainees

- (a) Entries made via M.D.T. shall be made at the time the field interview is conducted.
- (b) Entries made via land-line computer network terminal shall be made prior to the end of the officer's tour of duty. Entries made at a later time of the day shall contain the date and time of the stop, not the date and time of the entry.

The template for F.I.C. entries made on M.D.T.'s is the same as the template for F.I.C. entries made on computer network terminals. If the F.I.C. is completed over a land-line computer network terminal, the officer must enter the date and time. If the F.I.C. is completed on an M.D.T., the date and time will automatically be entered by the computer based on the time of entry. Instructions for completion of the F.I.C. template are as follows:

- (a) Each field is labeled. Enter the appropriate information into each field. If a field does not apply, do not enter any information into that field.
- (b) In the field titled "Reason for Stop," the officer shall enter a brief descriptive language of the circumstances which justify the stop.
- (c) In the field titled "Disposition," enter the disposition for the incident. The only acceptable dispositions are "NAT" (necessary action taken) or "RTF" (report to follow).
- (d) If more than three (3) individuals are to be entered into the F.I.C. template, more than one template will be required. A reason for stop and disposition must be entered for each template before moving on to a new, blank template. The computer will create an association between successive card entries based on the car number and location entered in the first template for entries made via M.D.T. If the F.I.C. entry is made via land-line computer network terminal, the officer will be given the option to Continue/Save or to Save. If the officer chooses Continue/Save, a new template will be generated for additional entries. Once an officer is finished entering data for the incident/stop, the officer should choose Save, which will terminate the session and make the computer ready to accept F.I.C. entries for a new incident/stop.

PR440.4 OFFICER'S RESPONSIBILITIES

Officers shall document investigatory stops and detentions, and any searches resulting from or proximate to the stop or detention.

PR440.5 SUPERVISOR'S RESPONSIBILITIES

Supervisors are responsible for reviewing all documentation of stops, detentions, searches and seizures submitted by officers within twelve (12) hours, absent exceptional circumstances, of receiving the information.

Supervisors shall be aware of:

- (a) Investigatory stops and detentions that appear unsupported by reasonable suspicion
- (b) Searches that appear to be without legal justification

Mobile Digital Computer and Automatic Vehicle Locator Use

PR448.1 DEFINITIONS

MobileCop:

The program used to allow the MDC to communicate with other computers via the MDC Network and to access and receive data stored in those systems. LEMS, MOTION, CAD, and JPSO-ARMMS can be accessed via the MDC Network.

LEMS (Law Enforcement Message Switch):

This acronym stands for the Louisiana Law Enforcement Message Switch. LEMS will allow officers to check, directly from the State, vehicle registrations, driver's license numbers, and state criminal history records.

MOTION(Metropolitan Orleans Terminal Information Online Network):

This is the City's database for

warrants and attachments, booking and arrest information, and stolen property checks.

JPSO ARMMS (Automated Records Management System):

This system, maintained by the Jefferson Parrish Sheriff Office, is a database for warrants and attachments, booking and arrest information, and stolen property checks

LACrash(Louisiana Crash):

Is the accident software system used by the New Orleans Police department to electronically capture motor vehicle accident reporting information.

PR448.2 MDC ACCESS CAPABILITIES

Through M.O.T.I.O.N. officers can run name checks (still have to verify with NCIC on a MOTION hit), run vehicle checks through SLIX for stolen and registration, run bicycle checks for stolen, run guns through SLIX, and run address checks.

Through LEMS, officers can run vehicle registration checks, driver's license checks by name or operator's license number and gun serial numbers for registration.

Officers can also access the Computer Aided Dispatch (CAD) system, JPSO ARMMS, the LaCrash system, and NOPD web applications.

PR448.3 COMPUTER AIDED DISPATCH

MDCs may be used to communicate with the dispatcher directly through the MDC Network. The officer can access any information regarding a call dispatched, including location, time call received, name of complainant, and the item number assigned. The officer also has access to complaint history at the location, as well as other database information which will assist in the handling of that call for service.

New Orleans Police Department

Procedure Manual

Mobile Digital Computer and Automatic Vehicle Locator Use

Officers shall log onto the computer aided dispatch system at the beginning of their tour of duty, and logoff at the end of the tour. Officers shall be assigned to process calls for service with the MDC and will be responsible for the monitoring and acknowledgment of communications from dispatchers and supervisors.

PR448.4 ELECTRONIC MAIL

The MDC allows electronic text messages (E-mail) to be sent from field units to other field units. The use of MDC E-mail is restricted to messages related to department work and line of duty performance. Officers are prohibited from sending E-mail for personal business, non-scope of work related issues, or fictitious or malicious purposes. The department reserves the right to monitor, record, and take disciplinary action for improper use of the E-mail function.

PR448.5 INSTALLATION

All hardware installation will be performed at the radio shop by personnel assigned to the Technology Section. No other personnel will be allowed to install, remove, or otherwise tamper with the installation of the MDC or AVL equipment except as directed by the Commander of the Technology Section

PR448.6 INVENTORY/ASSIGNMENT

All MDCs will be engraved with the serial number affixed to a certain location on the frame of the underside of the MDC under a removable tab. The MDC and associated AVL equipment assigned to each vehicle shall remain in that vehicle. Any changes of inventory or assignment, including reinstallation or movement of an MDC to another vehicle shall only be made by the MDC Administrator in the NOPD Technology Section. **NO EXCEPTIONS.**

PR448.7 CARE OF EQUIPMENT

The MDC equipment installed in police vehicles is sensitive, and all due caution must be exercised in its care and handling. Although the MDC is rugged, this does not mean it can be abused. The placing of drinks, clipboards, or other objects upon its components can cause damage to the unit and is strictly prohibited. Supervisors shall be responsible for ensuring that officers under their command use and care for MDC and AVL equipment as required by procedure.

Officers shall not unplug any devices such as Aircards, GPS/AVL antennas, and power cords that are installed to the MDC or MDC mount.

Officers shall not change, modify or disassemble any parts of the MDC or MDC mount.

PR448.8 TRAINING AND ACKNOWLEDGEMENT FORM

PR448.9 SECURITY OF RECORDS AND USER PASSWORDS

The MDC will have a direct link to the NOPD MOTION system and the State LEMS system. Both of these systems are password protected and allow officers access to sensitive and restricted information. The protection of passwords is critical to prevent the unauthorized use of the MOTION and LEMS systems.

New Orleans Police Department

Procedure Manual

Mobile Digital Computer and Automatic Vehicle Locator Use

The MOTION and LEMS systems are to be used for law enforcement purposes only and shall not be used in violation of the 1972 Federal Privacy Act regarding the dissemination of criminal records to unauthorized personnel. Personnel operating the MDC's will be held accountable for the protection of their respective password while accessing the system. Only authorized criminal justice personnel, while in the performance of their duties, are allowed access to the content(s) of any file retrievable through the computer system.

MDC users must remember that whenever a file is accessed the information system creates an audit trail of the transaction. This audit trail is filed and can be used to determine which files were accessed, the time they were accessed, and the individual who accessed them.

MDC users shall use the password that is presently assigned to them by the New Orleans Police Department to access the MDC. Each officer will be required to log on with their username (last name + badge#) and assigned password at the beginning of the shift. This log on process will give the officer the ability to access the MobileCop software which is the interface between the MDC in the vehicle and the MOTION and LEMS systems. If the officer does not logon, the officer will not be able to use the MDC to access the files in these systems.

PR448.10 INSPECTION UPON ENTERING VEHICLE

Upon entering a vehicle at the start of the watch an officer shall check the MDC and AVL operability to insure that it is functioning properly and has not been damaged. Any malfunctioning equipment or damages observed must be reported immediately to a supervisor. Any damage to equipment shall be documented via an NOPD incident report. Supervisors shall report equipment problems and seek to have equipment repaired as needed. Supervisors shall refer for investigation any officer found to fail to properly use or care for MDC or AVL equipment. **The supervisor shall** have the officer take the vehicle to the MDC Unit during normal operational hours to be checked. If in the opinion of MDC Unit personnel the equipment is functioning properly, the vehicle will be immediately placed back in service. If the equipment is deemed to be inoperable by the MDC Unit personnel, MDC Unit personnel will remove the computer from the vehicle.

If the MDC Unit is not open, the supervisor shall leave written notice that the vehicle shall be brought to the MDC Unit at the next opportunity during working hours. A copy of this written notice shall be forwarded to the supervisor's respective District/Division Commander.

PR448.11 UNAUTHORIZED SOFTWARE

Users are prohibited from installing, loading, running, and executing any software not specifically authorized by the MDC Unit. Software configuration problems shall be determined by the MDC Unit. If, in the opinion of MDC Unit personnel, the software or operating system has been tampered with, an inquiry shall begin to determine the cause of the software failure. If the software failure is caused by the addition of unauthorized software or the tampering of the existing system software, the MDC Unit will investigate further to determine the person(s) responsible for tampering with or loading the unauthorized software.

If unauthorized programs (software) are found on the MDC, the commander of the Technology Section will contact the commander of the unit the vehicle is assigned to, to request that a DI-1 investigation be initiated to determine how the software was installed. If the outcome of the investigation identifies the individual responsible for the unauthorized software installation, disciplinary action will be taken against that individual.

Procedure Manual

Mobile Digital Computer and Automatic Vehicle Locator Use

PR448.12 UNAUTHORIZED HARDWARE

If the vehicle and MDC are operable, the MDC will remain in the vehicle until such time as the vehicle is ordered to the body shop for repairs. When the vehicle is ordered to the body shop, the MDC will be removed by the MDC Unit where it will be stored until the vehicle is repaired. When the vehicle is inspected and picked up from the repair shop, the MDC Unit shall be notified to have the MDC reinstalled in the vehicle.

If a vehicle is scheduled to be brought to a repair shop/EMD for maintenance expected to last longer than forty-eight (48) hours, the vehicle will be brought to the MDC Unit where the MDC will be secured until the unit is returned to service.

PR448.14 OFFICER OUT OF VEHICLE

During an officer's tour of duty, the officer will secure the vehicle every time he/she exits the unit by locking all doors and windows. The operator of any department vehicle which has an MDC installed will be held responsible for any stolen, missing, or damaged Departmental Equipment if the vehicle is left unsecured. There is no exception to this mandate as this is for the security of the vehicle as well as the MDC in the vehicle.

MDCs in vehicles with MDC mounts must be locked and fully secured in the installed mount. If the MDC can't be secured in its mount, then when the vehicle is unattended the MDC will be secured in the locked trunk of the assigned departmental vehicle.

PR448.15 MAINTENANCE

A regular maintenance schedule for testing MDC and AVL equipment will be developed and maintained by the MDC Unit. During this scheduled maintenance MDC Unit representatives will inspect and perform maintenance on the MDCs assigned to the visited unit. The MDC Unit representatives will inspect and perform maintenance checks on available MDC equipment and associated AVL devices and list any problems found. Necessary corrective measures shall be taken to repair or replace malfunctioning equipment.

PR462.4 OFFICERS RESPONSIBILITIES

Officers must complete training on PAGIS (software), prior to using the ALPR system. Once an alert is received, officers must visually verify the license plate on the vehicle and confirm its wanted status through NCIC. The wanted vehicle database is not in real-time and this step is necessary to confirm that the vehicle is still wanted and the license plate was read properly. Officers shall properly classify each alert received as a "valid hit" or a "misread" in PAGIS. When notifying the Auto Theft Unit for priority vehicle entry, officers will need to have available the year, make, model, and color of the vehicle, the license plate number, state and the reason for entry. A contact name and telephone number for the detective handling the investigation will also need to be provided. It will be this detective's responsibility to notify Auto Theft for timely removal of the vehicle from the "Priority Hot List" database upon apprehension. Officers shall notify the Auto Theft Commander, via departmental e-mail of all in-custody arrests and recoveries for tracking purposes, prior to the end of their shift. Chapter 5 - Traffic Operations

PR500

Traffic Function and Responsibility

PR500.1 STATIONARY OBSERVATION

The New Orleans Police Department deters traffic violators by open and visible patrol. Covert operations shall be utilized only when gathering information for eventual action through overt patrol.

PR500.2 VISUAL TRAFFIC PATROL

Any tendency of motorists to knowingly violate traffic laws is deterred by open and visible patrol. However, when there is an unusual or continuing enforcement problem at a particular location, officers may park in a conspicuous location and observe traffic.

- (a) Uniform patrol officers, including officers assigned to Traffic Units, shall monitor areas where complaints of traffic violations are of a continuous nature including school zones prone to violations.

This function includes the aggressive enforcement of traffic-related violations with high priority given to driving while intoxicated (DWI) and school zone enforcement. Further enforcement will be directed toward high hazard intersections, speeding complaints, and as indicated by statistical reports. Enforcement shall be accomplished through area, line, and directed patrol. All officers shall wear the approved traffic vest when working any traffic related assignment.

PR505

Traffic Direction & Control

PR505.1 MANUAL TRAFFIC DIRECTION

Below are instructions for directing traffic manually.

PR505.1.1 POSITION

Officers should select a position to direct traffic which provides a full view of the intersection or incident scene and its approaches thereby making the officer readily visible to drivers and pedestrians and affording maximum safety.

PR505.1.2 STANCE

Officers shall assume a posture at the control position which reflects confidence, command and courtesy.

PR505.1.3 COMMAND RESPONSIBILITY

When more than one officer is involved in manual direction or control of traffic within the same area, the first officer on the scene shall assume the responsibility of coordinating traffic control.

PR505.2 SIGNALS

STOP - To signal a vehicle or stream of traffic to stop, the officer extends his/her arm toward the vehicle for which the signal is intended. The officer raises his/her upper arm to an angle of approximately 45 degrees above the horizontal, his/her elbow is bent, his/her hand is held in a vertical position with the fingers together and extended, and his/her palm is toward the approaching traffic. His/her hand is higher than his/her head and clearly visible to approaching traffic.

GO - The officer uses the hand nearest a stream of traffic to signal that stream to go. He/she starts the signal by first pointing his/her hand and arm horizontally with fingers extended toward the stream for which the signal is intended. He/she keeps his/her upper arm in a horizontal position while bringing his/her forearm and hand through a vertical arc. In signaling vehicles to go, the officer should remember that traffic from the right always passes in front and traffic from the left always passes in back of him/her. If traffic is to pass in front of the officer, he/she brings his/her hands to a position directly in front of his/her chin. He/she holds this position for approximately one second and then drops his/her hand to his/her side. He/she may repeat this signal rapidly several times to speed up sluggish traffic. He/she does not repeat it while a stream is moving, except to indicate that the flow is to continue after a break between vehicles. Unnecessary repetition of the go signal is tiring and may be interpreted as a faster signal, causing excessive speed through the intersection.

CHANGE DIRECTION OF FLOW - To change the direction of traffic flow, the officer first stops each stream of moving traffic. The stop position is executed with both hands. When the traffic has stopped and the intersection is clear, the officer turns 90 degrees and keeps both hands in the stop position. From the new position, he/she gives the go signal to streams of traffic to his right and left, separately. He/she takes care not to hold the stop signal too long after the vehicle makes its turn, because this would stop the flow cycle needlessly.

New Orleans Police Department

Procedure Manual

Traffic Direction & Control

TURN - The officer indicates permissible turns by pointing, with arm and hand horizontal and forefinger extended, to the vehicle which is to make the turn. He/she then swings his/her arm and hand horizontally and points in the direction the vehicle is to turn. While giving the signal, he/she looks toward the vehicle which is to turn. He/she uses the other arm to stop traffic if necessary. On all left hand turns, he/she stops the opposing lane of traffic first to allow vehicles to make their turns. When the vehicle is to turn behind him/her, he/she twists his/her legs and body to complete the signal to the rear. His/her feet remain stationary when giving this signal. He/she is alert to drivers' signals indicating their desired turns. If a driver wishes to make a prohibited turn, he/she shakes his head "no." He/she uses his/her whistle to attract the driver's attention if necessary. He/she then indicates by appropriate arm signal whether the vehicle is to proceed straight through the intersection or stop until signaled to turn.

WHISTLE SIGNALS - Whistle signals shall be coordinated with hand signals and of sufficient volume as to be audible with respect to surrounding conditions. Use one long whistle blast to command "Stop," two short whistle blasts to command "Proceed or Go," and a series of short whistle blasts to command "Attention."

R.S.) 40:2601 et seq. mandate obtaining a court ordered **seizure warrant within 72 hours (excluding holidays and weekends) of actual or constructive seizure** of money or property. Failure to obtain a seizure warrant within the prescribed time period forever negates the ability of the Department to pursue forfeiture proceedings against the money or property seized.

The revisions further state the seizing agency (New Orleans Police Department) must notify the Orleans Parish District Attorney's office of said seizure within 10 days of the seizure. The method of notification is to be a completed incident report.

The primary function of the Asset Forfeiture Section is to monitor any property or assets likely to qualify for forfeiture under Federal Statute USC 21 Article 881 et. seq., La. R.S. 40:2601 et. seq. or any other Federal or State statute permitting the forfeiture of assets corroborated with criminal activity defined by the statutes.

No property, money or assets with a value below \$1,000.00 will be confiscated by members of the New Orleans Police Department for seizure under La. R.S. 40:2601 et. seq. Property, money or assets below the \$1,000.00 threshold may be confiscated as evidence of an investigation, but no forfeiture proceedings will be made.

The assets which most often give rise to forfeiture are U.S. currency and property. Property shall include real property, jewelry, and conveyances (i.e., automobiles, water-craft, airplanes, motorcycles, etc.) In order for conveyances to be acceptable for forfeiture, they must meet the following criteria.

- (a) Generally be in good condition.
- (b) Be approved for seizure by the Commander of the Narcotics Major Case or his/her designee.
- (c) Not susceptible to a substantial lien which renders the asset unsuitable for seizure.

PR606.2 INSTRUCTIONS AND RESPONSIBILITIES - UNITS OTHER THAN ASSET FORFEITURE

Any officer investigating any narcotics related incident whereby currency or property is located and deemed potentially suitable for confiscation, with a value in excess of \$1,000.00, shall immediately notify his Supervisor and advise the Supervisor of the facts surrounding the potential seizure. When the Supervisor agrees upon the suitability for potential seizure of the currency or property, the Supervisor or his/her designee shall contact the Asset Forfeiture Section (A.F.S.) via the Command Desk.

An Asset Forfeiture Agent will respond to the scene for any seizures in excess of \$10,000.00.

An Asset Forfeiture Agent shall contact the investigating case officer, and provide assistance to the investigating case officer with processing the seizure portion of the investigator's case. At his/her discretion, the Asset Forfeiture Agent may elect to meet the investigating case officer on the scene to assist with the on site interview of subjects, determine assets suitable for seizure, etc.

New Orleans Police Department

Procedure Manual

Asset Forfeiture

The investigating case officer remains responsible for all aspects of the seizure portion of the case, unless specifically relieved of handling the seizure by the consulting Asset Forfeiture Agent.

The investigating officer shall check all property being seized to determine if the property has been stolen.

In those cases where the Asset Forfeiture Agent elects to meet the investigating case officer on the scene, it shall be the responsibility of the investigating case officer to maintain control of the scene and prevent any suspects, witnesses, or other non-law enforcement personnel from leaving the scene prior to the arrival of the Asset Forfeiture Agent.

The investigating case officer is responsible for maintaining the separation of assets directly connected to individuals under investigation from other property. Assets not directly connected to individuals are also to be kept separated. Under no circumstances are assets from differing individuals or differing sources to be mixed together.

Any assets not specifically connected to an individual should be left in place, pending the arrival of the Asset Forfeiture Agent. These assets should not be moved, unless exigent circumstances force the investigating case officer to do so. If moved, assets should retain their identification integrity.

In those cases where the Asset Forfeiture Agent elects not to meet the investigating case officer on the scene, it shall be the responsibility of the investigating case officer to interview suspects, witnesses, and other non-law enforcement personnel on the scene. These interviews should achieve the following goals:

- (a) Determine ownership of the property considered for confiscation.
- (b) Determine suitability for confiscation under La. R.S. 40:2601 et. seq. This determination should be made in consultation with the Asset Forfeiture Agent.
- (c) Process all property to be confiscated under the guidelines outlined in this policy.
- (d) Proceed with the seizure portion of the investigation, maintaining awareness of the time restrictions placed on seizures under La. R.S. 40:2601 et. seq. This includes, but is not limited to, obtaining a Seizure Warrant (if applicable) within seventy two (72) hours of constructive seizure and notification of the District Attorney's office within ten (10) days of the seizure by delivery of the completed incident report.
- (e) Complete Asset Forfeiture Checklist

PR606.3 INSTRUCTIONS AND RESPONSIBILITIES - ASSET FORFEITURE SECTION

The Asset Forfeiture Section will be responsible for handling all non-arrest seizure incidents, reported as a Signal 21-S (Seizure). The investigating case officer shall be responsible for securing the scene pending the arrival of the Asset Forfeiture Agent, utilizing the guidelines set out in this chapter. The investigating case officer shall provide the Asset Forfeiture Agent any and all information leading to the discovery of the assets, and any information which would be beneficial regarding the seizure of the assets. On Asset Seizure Cases (Signal 21S) cases, all assets are to be listed as evidence on the property receipt form, with the notation "Hold for Asset Forfeiture" boldly written on the slip.

It is not necessary to effect an arrest or have probable cause to make an arrest in order to have a civil forfeiture or seizure. The only probable cause necessary is the substantial

Procedure Manual

Asset Forfeiture

connection between the asset to be forfeited and the criminal activity defined under La. R.S. 40:2601 et. seq. or Federal Statute USC 21 Article 881 et. seq.

Under no circumstances shall the investigating case officer depart the scene of the seizure before the arrival of the Asset Forfeiture Agent, or the Asset Forfeiture Agent may elect to nullify the seizure proceedings. Any such nullification will be reported to the Commander of the Special Investigations Division, for review.

In all cases involving an arrest, the investigating case officer is responsible for the arrest portion of the investigation. However, the Asset Forfeiture Section will be responsible for handling the seizure portion of all arrest & seizure incidents.

In any case where the investigating officer discovers potentially seizable assets valued over \$10,000.00 the case officer will contact the Asset Forfeiture Section via Command Desk immediately upon identifying the potential major seizure case. The officer will secure the scene as outlined above, pending the arrival of the Asset Forfeiture Agent.

In all circumstances where the investigating case officer determines an investigation is likely to lead to a major seizure case (defined as any seizure of more than \$10,000 in assets), the investigator shall contact the Asset Forfeiture Section and establish an A.F.S. case with an assigned A.F.S. Agent. The A.F.S. Agent shall conduct a preliminary background investigation and be present when the investigating case officer conducts operations that are likely to involve:

- (a) the execution of a search warrant,
- (b) the execution of an arrest warrant
- (c) or anticipates action which would likely lead to an arrest and/or the confiscation of the assets.

The Asset Forfeiture Section shall coordinate all training requests through the Academy to all District Investigative Units, and any other unit upon request. This training shall be designed to facilitate investigating case officers in the handling of the seizure portion of their investigations.

The Asset Forfeiture Section shall assume responsibility in all cases where the complexity of a case goes beyond a normal seizure investigation. Such a case would overwhelmingly prohibit the investigating case officer from performing his/her primary duty function of uniform patrol, detective level investigation or undercover investigation. Determination for A.F.S. adoption of a case under these guidelines to be determined by the investigating case officer, the A.F.S. Agent assigned to assist on the case, and the Commander of the Asset Forfeiture Section.

PR606.4 CONFISCATED CURRENCY AND/OR PROPERTY

Whenever currency is confiscated by an investigating case officer or A.F.S. Agent, the currency shall be counted by the investigating case officer and the A.F.S. Agent in a secured location. In cases where no A.F.S. Agent is on the scene, the investigating case officer and a Supervisor will count the currency in a secured location. The investigating case officer, A.F.S. Agent and/or Supervisor shall use an alternate location if the scene cannot be secured for counting. Every effort shall be made to count the seized or confiscated currency in the presence of the possessing party.

The Asset Forfeiture Agent or seizing officer shall determine the amount of currency, complete a receipt for the currency, and note the amount on the receipt in the following

New Orleans Police Department

Procedure Manual

manner - "Currency counted as \$xx.xx amount." The A.F.S. Agent/seizing officer shall sign the receipt, acknowledging the amount of confiscated currency. If circumstances permit, the possessing party shall also be asked to sign the receipt. If the possessing party refuses to sign the receipt, the A.F.S. Agent/seizing officer shall note on the receipt "Refused to Sign". A copy of the completed receipt should be included in every report. The possessing party, whether or not he/she claims ownership of the property, should receive a copy of the receipt.

A confiscated property questionnaire for seizures under \$10,000.00 should be completed by the investigating officer. Seizures over \$10,000.00 shall be completed by the Asset Forfeiture Agent. This form assists in the identification of the owner if on-scene ownership is denied. It also precludes later claims of ownership. It simplifies notifications of impending forfeiture which need to be made to anyone having an interest in the property involved. This questionnaire should be made a part of the incident report.

In cases where property is confiscated, the A.F.S. Agent/seizing officer shall complete a receipt for the property, including a description. The A.F.S. Agent/seizing officer shall sign the receipt, acknowledging the confiscated property. If circumstances permit, the possessing party shall also be asked to sign the receipt. If the possessing party refuses to sign the receipt, the A.F.S. Agent/seizing officer shall note on the receipt "Refused to Sign". A copy of the completed receipt should be included in every report. If the possessing party claims ownership of the property, the possessing party shall also be supplied with a copy of the receipt.

The confiscated currency and/or property shall be turned over to Central Evidence & Property (C.E. & P.) and secured in a self sealing evidence bag, which will be obtained at C.E. & P. The evidence bag shall be filled out with the pertinent case information by the A.F.S. Agent/seizing officer. Each evidence bag will contain an individual number and will be noted on the evidence receipt. After securing and sealing the evidence bag, the A.F.S. Agent/seizing officer shall deposit the evidence bag in the Central Evidence & Property Division's mail box. The Asset Forfeiture Agent shall advise if the confiscated items are too large or will not be accepted at CE&P.

All property seized under an Asset Seizure (Signal 21S) with no arrest, should be placed in a self sealing evidence bag, which will be obtained at C.E. & P., and identified as evidence on the C.E. & P. evidence receipt, and the words "Pending Forfeiture" written clearly and boldly on the evidence receipt.

In all cases where an A.F.S. Agent responds to the scene, whether or not the A.F.S. Agent adopts the case, the investigating case officer shall include the name and unit number of the A.F.S. Agent in the incident report.

PR606.5 CONFISCATED / IMPOUND OF VEHICLES FOR SEIZURE

The confiscation of vehicles, motorcycles or other conveyances are to be considered on a case by case basis. Under no circumstance is a vehicle or conveyance to be confiscated, impounded, or otherwise seized without prior contact with an A.F.S. Agent. Suitability for seizure must be established prior to constructive seizure. This policy does not supersede an officers ability to impounding a vehicle for evidentiary/search warrant purposes.

Once determination to seize has been established, the A.F.S. Agent will advise the investigating case officer where to have the vehicle brought. At a determined meeting location the A.F.S. Agent will take possession of the vehicle for safekeeping. Seized vehicles will be kept in a secured location, inaccessible to unauthorized personnel.

New Orleans Police Department

Procedure Manual

Asset Forfeiture

Any property not to be seized and inventoried should be cleared from the seized vehicle prior to departing the seizure scene. For any vehicle to be impounded, it shall be the responsibility of the investigating case officer to inventory the vehicle and ensure all inventoried property is conveyed to Central Evidence & Property in accordance with Departmental policy.

Any vehicle, motorcycle, or conveyance relocated to any location without prior authorization from the A.F.S. Agent assigned to assist with the case shall nullify the seizure of the vehicle, motorcycle, or conveyance under La. R.S. 40:2601 et. seq. The impoundment of the vehicle will be considered an evidentiary impound only.

Under no circumstance shall a vehicle being seized be towed to any City of New Orleans impound location. Vehicles to be seized are not to be impounded in one of the secured Central Evidence & Property / Crime Lab vehicle stalls without prior authorization from a C.E & P. Supervisor.

PR606.6 CONSULTING WITH OUTSIDE AGENCIES

Whenever an officer effects an arrest for La. R.S. 40:2601 et. seq., relative to Possessing a Controlled Dangerous Substance Tax Stamp, the officer shall ensure that the original incident report is forwarded to the Asset Forfeiture Section.

The Asset Forfeiture Section shall be responsible for all necessary consultation with the State Department of Revenue and Taxation, pursuant to criminal and/or civil forfeiture and tax liens. No other officer, section or division shall initiate contact with the State Department of Revenue and Taxation, nor forward any reports or documentation (i.e. Marijuana & Controlled Dangerous Substance Report / Form R-5022) to said agency.

- (c) The position of the suspect's photo and filler photos shall be placed in a different random order for each witness.
- (d) In order to avoid undue influence, witnesses viewing a photographic lineup shall do so individually and outside the presence of other witnesses. Witnesses shall be instructed to avoid discussing details of the incident or of the photographic lineup with other witnesses.

If charges have been accepted and the suspect requests representation and has an attorney, the attorney shall be advised a lineup will take place. An agreement is to be reached as to the time and date of the lineup. If, after having agreed to represent the suspect at the lineup, and the attorney does not appear, the lineup shall be conducted, but only after the following steps have been taken and documented:

PR802.3 EMERGENCY RADIO TRANSMISSIONS

Activation of the emergency button causes the following to occur almost simultaneously:

- (a) The radio microphone becomes active for several seconds, allowing the person activating the button to reach his push to talk (PTT) button and begin verbally declaring the emergency.
- (b) All other active (turned on) radios tuned to the talk group are alerted an emergency has been declared and those radios will receive the transmission from the activating radio. The one exception is the radio on the talk group that was transmitting at the time the emergency button was activated. That radio will begin receiving the emergency transmission as soon as its PTT button is released.
- (c) Audio and visual alarms are received in the Communications Services alerting them to the emergency activation.
- (d) If the talk group the activating radio is tuned to is being monitored by a dispatcher, the dispatcher will also receive the emergency transmission.
- (e) All radios tuned to that talk group will continue to indicate a declared emergency until it is cleared from the Communications Services.

Existing procedures, including signals and codes, for the verbal declaration of emergency situations remain the same. The emergency should be verbally declared on the appropriate talk group as with any other radio transmission. The activation of the emergency button is only authorized when the talk group the person wishing to declare the emergency on is busy with another transmission and the person cannot wait until the talk group is clear.

Should such activation be required, the person activating should immediately utilize his PTT and begin verbally declaring the emergency in accordance with existing procedures.

Should such activation be accidental, the individual shall immediately notify the dispatcher and request cancellation of the emergency activation. The logical I.D. (LID) of the individual's radio will confirm to the dispatcher the radio used to cancel the emergency is the same used to declare it.

To ensure any such declaration of an emergency is heard and responded to, such declarations should (if possible) take place on talk groups monitored by a dispatcher.

Emergency declarations on talk groups not monitored by a dispatcher will only be heard by those individuals monitoring that talk group. The appropriate response or assistance requested may not be rendered.

Emergency activations which do not result in either a verbal declaration of an emergency or cancellation of same shall result in the following:

- (a) The dispatcher assigned to that dispatch talk group shall call the individual assigned to the radio to determine the reason for the activation.
- (b) If unsuccessful, the dispatcher shall notify both the Command Desk and the individual's supervisor on the talk group. If the individual's supervisor is not on the talk group, the Command Desk will be responsible for notifying the supervisor.
- (c) The Command Desk shall also attempt to contact the activating radio by use of "Individual Call" to the officer's LID. This may be necessary should the activating radio be tuned to a non-dispatch talk group.

New Orleans Police Department

PR814.2 FIRST RESPONDER AND INVESTIGATING OFFICER RESPONSIBILITIES

These steps assume that the officer or detective has the legal authority to seize the computer, hardware, software or electronic media with a signed warrant and/or given consent. If the officer or detective has not obtained the appropriate permissions in accordance with local and state law, the officer or detective shall obtain the appropriate permission prior to seizing the equipment and prior to forensic examination by the Digital Forensic Unit. Secure the area containing the digital equipment by:

Move all non-essential personnel from the crime scene or immediate area where the evidence is to be collected.

New Orleans Police Department

Procedure Manual

Computers and Digital Evidence

Refuse offers of help or technical assistance from any unauthorized persons.

As a general rule of thumb, if the laptop or mobile device is powered off, leave it off; if the device is on, leave it on.

Isolate the device from communicating with any network:

For wired devices, photograph or note any network cables connected to the device then disconnect only the network cable from the device.

For wireless devices, place the electronic device in a faraday bag ensuring that the bag is completely closed. This will prohibit the device from communicating wirelessly.

If a faraday bag is not available, most metallic bags, such as an empty potato chip bag or aluminum foil will prohibit the device from accessing wireless networks. Once the bag is closed, do not reopen the bag or unwrap the aluminum foil.

If possible, photograph each seized item paying particular attention to the cables connected to the device and the serial numbers and other identifiers on the device. If photography is not possible, sketch and document the cables connected to the device and the serial numbers and other identifiers.

Consider non-electronic evidence on the device such as fingerprints, biological, or trace evidence and contact Crime Lab to analyze. This evidence shall be processed prior to the device being processed by the Digital Forensics Unit.

If there is an articulable reason to believe that the computer or mobile device is utilizing encryption mechanisms, authentication mechanisms, pass locks, pass codes, or other security features, the officer should consult with the detectives of the Digital Forensics Unit prior to seizing the electronic device.

If working with a surveillance system, the responding detective or officer shall attempt to download the video while on scene. Confiscation of a surveillance system should only be used as a last resort and even then, the risks greatly outweigh the benefits. If unable to obtain surveillance video while on scene, document the steps taken to obtain the video and contact the Digital Forensics Unit for assistance. It is important to note what steps were taken so that the Digital Forensics Unit can prepare the necessary equipment for extraction.

If the electronic device is on and there is no articulable reason to believe that data deletion software is active, photograph the computer screen or make note of the clock and any running programs or windows that appear to be open and running.

If the electronic device is powered on and, for confiscation, the electronic device must be turned off, such as a desktop computer plugged into a wall outlet, the investigator shall consult with the Digital Forensic Unit to determine the best method to secure such device.

If the electronic device is powered on, such a cellular phone, and will be placed in storage for any period of time, the investigator shall consult with the Digital Forensic Unit to determine the best method to secure such device.

Upon confiscating the electronic device, the investigating officer or detective shall complete the Digital Forensic Unit work request form to have the device processed by the Digital Forensics Unit. The following forms shall be used:

- Cellular/Mobile Device Work Request - Form 320

New Orleans Police Department

Procedure Manual

Computers and Digital Evidence

- Video Work Request - Form 321
- Computer Work Request - Form 322

In order for the seized evidence to be examined by a Digital Forensic Examiner, the Digital Forensic Work Order shall be completed and attached to a copy of the applicable Search Warrant or signed Consent to Search.

PR814.2.1 PREPARING FOR TRANSPORT

If the device has a built in battery, leave the device running and preserve electricity to the device while transporting. Monitor the battery level of the device while transporting and restore electricity to the device upon arriving at the destination.

If the device does not have a built in battery, shut down the device following normal shutdown procedures. Do not open or examine any files on the device. Document the method used to shutdown the device. If data deletion could occur when shutting down the device, consult with the Digital Forensics Unit prior to shutting down the device.

Document each item confiscated.

Document any passwords, lock codes, pass codes, authentication steps, or encryption keys needed to gain access to the electronic device. This information can be obtained from the owners of the devices, technicians that manage the devices, or written on down on a piece of paper and stored near the device (in a drawer, taped under a keyboard).

In most cases when an electronic device is being used in criminal acts and is in the possession of the suspect, the device itself and all storage devices (hard drives, disk drives) should be seized along with all media.

Accessories such as monitors, keyboard, mouse, scanner, and manuals should not be seized unless as a precursor to forfeiture or for evidentiary purposes (obtaining fingerprints, biological, or trace evidence).

PR814.3 STORING ELECTRONIC DEVICES

Storage requirements for electronic devices vary depending on the type of device.

PR814.3.1 COMPUTERS

With the exception of the digital forensic unit, no member of the department shall conduct a search of the electronic contents of the device prior to delivery to the digital forensic unit unless articulable exigent circumstances exist. Conducting a search of the device, even something simple as powering the device on, will cause critical evidence to become overwritten.

If the computer is in a powered on state, there is a medium risk of losing data. The risk is increased if the computer is actively communicating with a network. In most cases, there is low risk of losing electronic data stored on a hard disk if the computer is in a powered off state.

It is important to note that a suspended state is not the same as a powered off state.

- (a) A computer that is in suspended mode draws power to preserve items in volatile memory. When power is removed from the device while in suspended mode, data in volatile memory is lost. A computer in a suspended state might have a flashing power LED or the color of the LED might change from green or blue to amber.

New Orleans Police Department

Procedure Manual

Computers and Digital Evidence

Some computers use a pass code, pass lock, or other authentication system to prevent unauthorized users from accessing the data on the device until a correct authentication key is provided. These mechanisms can be time or usage based.

- (a) Some computers will automatically lock after a period of inactivity.
- (b) Some computers will automatically lock if powered down.
- (c) If possible, obtain the authentication key from the owner of the device.
 1. If the owner of the device is unable to provide the key or the first responder is unable to determine if the device has a locking mechanism, contact the Digital Forensics Unit for additional instruction.

Once the computer is seized, follow current departmental guidelines for storing the evidence.

After seizure, complete a Digital Forensics Unit - Computer Work Request Form to have the device processed by the Digital Forensics Unit.

Deliver the computer and the work request form to Central Evidence and Property.

PR814.3.2 VIDEO AND SURVEILLANCE SYSTEMS

In most cases, there is a medium risk of losing data stored on a surveillance system while the system is powered on. The risk is increased to a high chance of losing data if the device is actively communicating with a network, is allowed to continue recording, or a significant amount of time elapses between the incident and the recovering of the video evidence.

Video and surveillance systems usually overwrite the oldest data first, however each surveillance system is unique and this might not always be the case. There is a greater chance of losing electronic data stored on a surveillance system while the surveillance systems is running as opposed to powered off.

The first responder and/or case detective shall attempt to obtain video from the surveillance system while on scene to ensure that video evidence will not be overwritten. If the first responder cannot obtain the video while on scene, document the steps taken to obtain the video and contact the Digital Forensics Unit for assistance.

If the first responder was successful in obtaining the surveillance video and the video is stored on removable media such as CD, DVD, or flash drive, follow current departmental guidelines for storing evidence.

After obtaining the video, complete a Digital Forensics Unit - Video Work Request Form to have the video processed by the Digital Forensics Unit.

Deliver the video and the work request form to Central Evidence and Property.

PR814.3.3 MOBILE TELEPHONES AND CELLULAR DEVICES

With the exception of the digital forensic unit, no member of the department shall conduct a search of the electronic contents of the device prior to delivery to the digital forensic unit unless articulable exigent circumstances exist. Conducting a search of the device, even something simple as powering the device on, will cause critical evidence to become overwritten.

New Orleans Police Department

Procedure Manual

Computers and Digital Evidence

In most cases, there is a medium risk of losing data while the device is powered off and a high risk of losing data while the device is powered on. These risks can be mitigated using proper techniques.

- (a) Mobile devices communicate with the carrier's wireless network constantly. Location data, such as that obtained from cell sites, overwrite as the device changes locations.
- (b) Many newer smart phones include built-in functions to allow a user to remotely wipe or erase the device. As long as the device has an active internet connection, there is a possibility for the device to be erased cause all data on the device to be lost.
- (c) The use of a faraday bag or placing the device in "airplane mode" is critical to the preservation of data on the cellular device.

Some mobile devices use a pass code, pass lock, or other authentication system to prevent unauthorized users from accessing the data on the device until a correct authentication key is provided. These mechanisms can be time or usage based.

- (a) Some cellular devices will automatically lock after a period of inactivity
- (b) Some cellular devices will automatically lock if powered down
- (c) If possible, obtain the authentication key from the owner of the device
 - 1. If the owner of the device is unable to provide the key or the first responder is unable to determine if the device has a locking mechanism, contact the Digital Forensics Unit for additional instruction.

A mobile device in a powered off state will use battery power to preserve times and dates. Although battery usage is low while powered off, a mobile device that sits for even a few days without being connected to external power has the possibility of resetting the times and dates on the device.

Unnecessary delay in delivering the device to the Digital Forensics Unit shall be avoided to prevent data loss on the device.

Once the cellular device is seized, follow current departmental guidelines for storing the evidence.

After seizure, complete a Digital Forensics Unit - Cellular Device Request Form to have the device processed by the Digital Forensics Unit.

Deliver the cellular device and the work request form to Central Evidence and Property, leaving the batteries in place and shutting the device off. Officers will be responsible for advising CE&P personnel the cellular device will be processed by the Digital Forensics Unit. This information shall also be documented in the incident report.

PR814.4 DIGITAL FORENSIC UNIT RESPONSIBILITIES

PR814.4.1 NEW CASES

Digital Forensics Unit detectives shall receive from the officer delivering the evidence the following:

- (a) Search warrant to search the contents of the device, consent to search the contents of the device, or indicate why a search warrant or consent to search is not available
 - 1. Search warrants will not be accepted by the Digital Forensics Unit if:

New Orleans Police Department

Procedure Manual

Computers and Digital Evidence

- (a) They are expired (ten day period from date of signing to date of execution by a Digital Forensics Unit detective)
 - (b) They are not written to search the contents of the device
 1. A search warrant to confiscate or seize the device only is not enough to search the device
 2. A search warrant to confiscate or seize the device is acceptable if, included on the warrant, is the verbiage to search the contents of the device
 1. They are not signed by a judge
 - (c) These forms shall be attached to the work request form
 - (d) If a search warrant or consent to search is not available, indicate in the comments section of the work request form the reasoning for such absence.

 - (j) Description of the equipment
 - (k) Serial number of the equipment (if available)
 - (l) Data requested to be retrieved from the device
 3. If the device to be processed
 - (a) Contains a biological hazard
 - (b) Contains non-electronic evidence to be processed at a later date
 1. Evidence such as latent prints
 4. The officer's signature on the work request form near the printed name
 5. The officer's signature on the chain of custody form

PR814.4.2 STORAGE OF PHYSICAL EVIDENCE

Digital Forensics Unit detectives shall ensure that evidence delivered to the Digital Forensics Unit is locked and secured while in the custody of the Digital Forensics Unit. The use of enclosed storage lockers under lock and key is required while storing evidence that is not being actively processed.

Evidence shall be restricted from access by persons:

New Orleans Police Department

Procedure Manual

Computers and Digital Evidence

- (a) Not assigned as the investigator of the case
- (b) Not assigned to the Digital Forensics Unit
- (c) Not a supervisor of the Digital Forensics Unit

Chain of custody forms shall be used by the detectives. One form shall be used for each case. The form shall include the item number, date the evidence was delivered, date the evidence was released, the person who delivered the evidence, the person who retrieved the evidence, and note each item delivered. These forms shall be archived with the examiner's final report and filed with any other documentation relating to the case in a filing cabinet.

PR814.4.3 PROCESSING EVIDENCE

PR1001

Personnel Hiring Selection

PR1001.1 APPLICATION PROCESS

Each applicant will be required to submit an Employment Application to the New Orleans Civil Service Department if one is not on file.

The Employment Application will be verified and screened by a team comprised of selected members of the New Orleans Civil Service Department.

Only applicants who pass this screening and have the minimum qualifications will be admitted to the written test.

PR1001.2 SELECTION PROCESS

Once an applicant successfully passes the Civil Service written, the multiple choice, and the physical agility tests administered by Civil Service, that person will advance to the next phase, the applicant's name is placed on a certified register to Police Recruit or Police Officer I (Lateral) with other eligible applicants. The register is forwarded to the New Orleans Police Department (NOPD) Recruitment and Applicant Investigation Section. The selection process for Police Recruit and Police Officer I (Lateral) is comprised of the:

- (a) Background investigation;
- (b) Computerized Voice Stress Analyzer (CVSA);
- (c) Psychological examination; and
- (d) Medical examination.

The NOPD working with Civil Service shall establish a standardized scoring system to be used by interview panelists. The scoring system shall be used to assess recruit applicants immediately following the applicant's interview. These assessment forms shall be maintained by the Recruitment and Applicant Investigation Section.

PR1001.3 BACKGROUND INVESTIGATIONS

A background investigation of each candidate will be conducted prior to appointment to probationary status. Generally, the investigation will be conducted after the Computerized Voice Stress Analyzer (CVSA) since the CVSA results can point out areas that will need special attention. The background investigation will not begin without an "AUTHORIZATION TO RELEASE INFORMATION" signed by the candidate. The background investigation, though costly and time consuming, is the most useful and relevant component of the selection process. Whenever practical, the investigation should be done in person. For example, the investigation should routinely involve a home visit with the candidate and his/her family, as well as interviews with neighbors. The background investigation will include but is not limited to the verification of the candidate's qualifying credentials, including:

- (a) A review of criminal record, if any;
- (b) Interviews with at least three personal references;
- (c) Educational achievement;
- (d) Employment;

New Orleans Police Department

Procedure Manual

Personnel Hiring Selection

- (e) Age;
- (f) Residence;
- (g) Citizenship;
- (h) Military record review, if any;
- (i) Civil Court Record checks and Law Enforcement Records checks of all areas where the candidate listed a residence;
- (j) NCIC checklist - NCIC will check arrest records, driving history, vehicle information, etc; and
- (k) Fingerprint card.

PR1001.4 COMPUTERIZED VOICE STRESS ANALYZER (CVSA) TESTING

Candidates who are scheduled for Computerized Voice Stress Analyzer (CVSA) testing will be provided with a copy of the questions used in the examination prior to the time of their examination.

For candidates to give their informed consent, it is reasonable for them to know the full nature and extent of the inquiry. Relevant questions that will have a bearing on the selection decision will allow for a better understanding of what is going to be asked of them.

PR1001.5 COMPUTERIZED VOICE STRESS ANALYZER (CVSA) OPERATOR CREDENTIALS

The Computerized Voice Stress Analyzer (CVSA) administering the examination and evaluating the results in the selection process shall have professional training and credentials in the use and interpretation of this investigative tool.

PR1001.6 ADVERSE COMPUTERIZED VOICE STRESS ANALYZER (CVSA) RESULTS

Computerized Voice Stress Analyzer (CVSA) examination results will not be the single determinant of employment status. The Computerized Voice Stress Analyzer (CVSA) is only an investigative aid. Together with other information, the Computerized Voice Stress Analyzer (CVSA) may be sufficient to support decisions relevant to employment status.

PR1001.7 CONDITIONAL OFFER OF EMPLOYMENT

The applicant who successfully passes the background investigation, and who receives acceptable recommendations from the Investigator, the Investigator's Supervisor, the Commander of Recruitment and Applicant Investigation Section and the Management Services Bureau Deputy Superintendent are then referred to Civil Service.

A Conditional offer of employment may be offered by the Superintendent of Police or his/her designee. Civil Service will contact the applicant to setup appointment times for psychological and medical evaluations. Upon successfully completing these evaluations, the applicant shall be offered a position with the NOPD.

PR1001.8 MEDICAL EXAMINATION

A medical examination of each candidate will be conducted prior to appointment to probationary status using valid, useful, and nondiscriminatory procedures. The purpose of the examination is to reveal any medical problems which may affect work performance or contribute to work related disabilities. The following examinations are generally performed for all sworn officers:

New Orleans Police Department

Procedure Manual

Personnel Hiring Selection

- (a) medical history;
- (b) pre-Placement complete physical examination;
- (c) blood test;
- (d) comprehensive laboratory profile;
- (e) resting Electrocardiogram;
- (f) pulmonary Function;
- (g) vision test;
- (h) glaucoma screening;
- (i) hearing test;
- (j) chest X-ray EPA;
- (k) x-ray -LSS-5-Views;
- (l) CP, CBC, CRP 40170; and
- (m) drug screening.

Only licensed physicians will be used to certify the general health of candidates. The City of New Orleans utilizes the services of Concentra Medical Center for all candidates. The comprehensive medical examination given to candidates recommended for hiring will include a statement from the physician(s) interpreting the results.

PR1001.9 PSYCHOLOGICAL EXAMINATION

NOPD shall develop and implement a system for psychological screening and assessment of all NOPD recruit candidates, and to set criteria to ensure that only individuals suitable for policing are accepted into NOPD Training Academy. Psychological assessments are needed to eliminate candidates who may not be able to carry out their responsibilities or endure the stress of working conditions. The assessments are conducted by a qualified psychologist and are comprised of the following elements:

- (a) California Personality Inventory (CPI);
- (b) Minnesota Multi phasic Personality Inventory - 2 (MMPI);
- (c) Psychological History Questionnaire (PsyQ);
- (d) Personal interview between the psychologist and the candidate; and
- (e) If, based upon the evaluation of the CPI, MMPI PsyQ results, the psychologist concludes that additional screening is needed, the applicant is scheduled for an additional psychological interview.

Only qualified professionals will be used to assess the emotional stability and psychological fitness of candidates. The psychologist's final report will identify strengths and weaknesses of each candidate. The overall recommendation will reflect suitable or unsuitable for police work.

PR1001.10 PROBATIONARY PERIOD

All entry level sworn personnel will complete one year on probationary status before being granted permanent status.

All sworn personnel must successfully complete the Field Training Officer program.

New Orleans Police Department

Procedure Manual

Personnel Hiring Selection

PR1001.10.1 PROBATIONARY PERIOD EXCEPTIONS OR EXTENSIONS

All other employees should refer to the New Orleans Civil Service Rules and Regulations for information about probationary periods. These rules are kept in the offices of the Personnel Director of the New Orleans Police Department and the Superintendent of Police. The Director of New Orleans Civil Service Department will be consulted concerning all extensions and exceptions to probationary status. Exceptions and extensions may be as follows but not limited to:

- (a) all approved extended periods of leave, such as, sick and military;
- (b) poor performance rating; and
- (c) pending disciplinary action or significant disciplinary action prior to the end of the probationary period.

PR1012

Alcohol and Drug Use/Testing

PR1012.1 YEARLY DRUG TESTING (RANDOM)

Supervisors of the selected employee based off the random generated list of employees shall be advised of the employee's selection by the Office of Compliance. The supervisor shall instruct the employee to report to the testing location within sixty minutes of notification for the purpose of submitting a urine sample for substance abuse testing. Reserve employees shall report within twelve hours of notification. A representative from the Office of Compliance shall meet that employee at the designated testing facility or the completion of the required administrative documents.

Employees failing to appear within the allotted time may be subject to disciplinary action.

PR1012.2 PROBATIONARY AND PROMOTIONAL TESTING

Employees advised of a probationary or promotional drug testing shall report for testing at the testing location within sixty minutes of notification for the purpose of submitting a urine sample for testing. A representative from the Office of Compliance shall meet that employee at the designated testing facility for the completion of the required administrative documents.

Employees failing to appear within the allotted time may be subject to disciplinary action.

PR1012.3 REASONABLE SUSPICION DRUG TESTING

If a supervisor suspects an employee to be a Category III employee (reasonable suspicion of using drug and/or alcohol use while on duty), he/she shall submit a written report to the Public Integrity Bureau, outlining the reasons for the identification. The Office of Compliance shall be responsible for the administration and scheduling of all Category III employees.

PR1012.4 ACCIDENT/INJURY SUBSTANCE TESTING

Members of the department are responsible for reporting any accident and/or injury to their immediate supervisor.

Supervisors are responsible for ensuring the member is tested for any substance abuse and must prepare the applicable First Report of Injury form (Employer's Report of Occupational Injury or Disease, Form #WC 1007) and the Supervisor's Report of Accident (Form 210). If a ranking officer from the employee's chain of command is not available in a timely manner, a ranking officer from the district of occurrence shall be responsible for any incumbent substance abuse testing.

It shall be the responsibility of the supervisor to initiate N.O.P.D. Form SAT 4 when notified of an accident or injury. Employees shall print their name, employee ID number, and sign the form at the bottom left side. The form shall be completely filled out.

Supervisors shall accompany the employee to the testing facility where N.O.P.D. Form SAT 4 shall be presented to a company representative.

If the supervisor believes the operator of the vehicle is impaired (either through the use of drugs, alcohol, or possible injury), the supervisor shall not allow the employee to operate a motor vehicle.

New Orleans Police Department

Procedure Manual

Alcohol and Drug Use/Testing

The representative shall make a copy of the form and return the original to the supervisor.

The supervisor shall ensure all paper work required by the testing site is completed by the employee and that the employee complies with all the testing procedures.

The employee shall be required to submit to a breath and/or saliva test, which tests for alcohol. If this test shows the presence of alcohol, the employee shall be required to submit a blood sample for blood alcohol testing.

If the saliva test is negative, a blood test is not required.

The employee shall also be required to submit a urine sample for drug testing.

Supervisors shall remain on site until testing is complete.

Upon completion, the supervisor shall deliver the original SAT4 form to the office of Compliance within 24 hours.

PR1012.4.1 ACCIDENTS OUTSIDE ORLEANS PARISH

If an accident involving a city vehicle occurs outside Orleans Parish, while on or off duty, supervisors shall include a copy of the completed S.A.T. 4 form and their inspection of the vehicle in their administrative report of the incident.

In instances where supervisory personnel do not make the scene of an accident occurring outside Orleans Parish, employees are responsible for submitting to a urine test immediately upon completion of the investigation by the outside agency.

- (a) Employees shall report to the nearest N.O.P.D. police district, informing a supervisor that they were involved in an auto accident.
- (b) Supervisory personnel from that district shall accompany the employee to the appropriate testing facility for the purpose of administering the S.A.T. 4 test. The S.A.T. 4 form shall be distributed as indicated, with an additional copy being forwarded to the tested individual's place of assignment.
- (c) Supervisors from the employee's place of assignment shall be responsible for any additional administrative report requirements.

All N.O.P.D. employees shall receive medical attention when needed or requested before submitting to a substance abuse test.

When injuries dictate that an N.O.P.D. employee be taken to a hospital, most area hospitals are under agreement with the City of New Orleans to collect urine and blood for administrative substance abuse testing. The supervisor shall inquire at the hospital if blood and urine will be collected for substance abuse testing. If the hospital refuses to collect blood and urine for substance abuse testing, the supervisor shall transport the employee to the testing facility for substance abuse testing after the required medical treatment is received.

PR1012.4.2 EMPLOYEES INVOLVED IN A DWI

Supervisors are responsible for observing any employee who was the operator of a police conveyance (automobile, motorcycle, bicycle, horse, boat, etc.) and involved in an accident for indications of alcohol use. If alcohol use is suspect, through admission, smell, actions, speech, Field Sobriety Test, etc., of the suspect employee, N.O.P.D. Form SAT 4

New Orleans Police Department

Procedure Manual

Alcohol and Drug Use/Testing

SHALL NOT

be initiated, and a criminal investigation shall proceed, as per LA. R.S. 14:98 and LA. R.S. 32:661 through 669. Supervisors shall immediately notify the Public Integrity Bureau.

PR1012.4.3 PUBLIC INTEGRITY BUREAU INVESTIGATORS

The Public Integrity Bureau shall have the responsibility of overseeing the investigation of the suspected criminal offense. If the employee, after being arrested and advised of their rights from the standard departmental forms used for DWI arrests, agrees to take the breath test, those results shall be used in the criminal investigation, as well as in the administrative investigation which will follow.

After the booking procedure is completed, the supervisor shall expeditiously proceed to the testing facility. However, if the employee refuses to submit to any substance abuse testing, breath, urine, or blood, in the criminal investigation, and his/her conduct does not fall within the guidelines for mandatory testing as outlined in the Revised Statutes, then a separate Public Integrity Bureau Investigator must be called out to conduct the administrative investigation. This Investigator will then order the employee to submit to substance abuse testing for administrative purposes.

The preparation of the motor vehicle accident report shall remain with the assigned investigator; (Traffic Section investigator, or district supervisor).

PR1012.4.4 EMPLOYEES INVOLVED IN DWI OUTSIDE JURISDICTION

If the suspect employee is under investigation by another law enforcement jurisdiction, that agency shall complete their responsibilities before any further N.O.P.D. supervisory action. The notified supervisor shall not interfere with the official investigation, but may offer assistance until its conclusion. A release of a suspect employee by another jurisdiction does not preclude the completion of the administrative testing procedures by N.O.P.D.

Supervisors shall complete an SAT 4 Form, and either the First Report of Injury report (Employer's Report of Occupational Injury or Disease, Form #WC1007) or the Supervisor's Accident Report (Form 210). The SAT 4 Form shall become part of the report.

PR1012.5 DRUG TESTING FOR EMPLOYEES ENTERING SENSITIVE POSITIONS

Employees entering category II (sensitive positions) shall be tested regardless of whether they enter the position by original entrance, promotion, demotion, lateral transfer, or reinstatement.

PR1014

Sick Leave and On-Duty Injuries

PR1014.1 DEFINITIONS

Injured on Duty (I.O.D.) - Job related injury sustained while engaged in the performance of duties as defined in Civil Service Rule VIII, Section 2, 2.9(a) - (a) - "When any commissioned police personnel engaged in police training or in the process of pursuing, apprehending, arresting, transporting or booking a suspect, such employee may be granted sick leave with pay which will not diminish his or her ordinary sick leave accumulation, simultaneously with the benefit provisions of the State of Louisiana worker's compensation statutes, provided sick leave is recommended by the Superintendent of Police and is requested of and approved by the Director of Personnel of the Department of civil Service." (Amended August 9, 1979, October 27, 2000). An employee who engages in law enforcement duties as defined above, and is injured off-duty (including details) shall comply with the Injuries Provisions above so Civil Service can rule on the classification of the injury.

Worker's Compensation (W/C) - Job related injury sustained in any manner which cannot be classified as Injured on Duty, and may be covered under the Louisiana Worker's Compensation Law.

SICK - An injury sustained off-duty or on a secondary employment which cannot be classified as I.O.D. or W/C.

PR1014.2 CONDUCT WHILE ON SICK LEAVE

The employee shall contact his/her place of assignment, and if detailed, his/her place of temporary assignment, each day prior to their scheduled tour of duty to report either "sick" or "returning from sick."

An employee on extended sick leave, as defined in Policy 1015 "EXTENDED SICK LEAVE", shall adhere to the stipulations regarding the daily notification provisions. However, at the discretion of the employee's District/Division Commanding Officer, an employee who is hospitalized or whose absence results in extended sick leave due to a documented illness or injury may be exempt from the daily notification provision. Should this exemption be granted, the District/Division Commander shall check off the exemption block on NOPD Form 109R, which can be found at <http://www.nopd.org> under the "forms" tab, and date and sign the form acknowledging the exemption.

An employee is not required to remain confined to a specific location. However, during the time period concurrent with the employee's regularly scheduled tour of duty, the employee shall remain available via a contact number as the employee may be subject to emergency recall to duty consistent with the limitations of his/her illness or injury. Form 50, "Physician Examination Certification", shall be the controlling information in any assignment of this type.

An employee's sick leave period ends when the employee actually returns to duty with the Department. Until said return to duty and completing a tour of duty, employees will be prohibited from engaging in secondary employment or other police-related activities, with the exception of mandatory court appearances.

New Orleans Police Department

Procedure Manual

Sick Leave and On-Duty Injuries

PR1014.3 DOCUMENTATION OF SICK LEAVE USAGE

Any use of sick leave (a single tour of duty or any portion thereof) shall constitute a "day" of sick leave. However, when less than a full tour of duty of sick leave is taken, the employee's accumulated sick leave balance will be charged only the actual number of hours utilized.

NOPD form 50, "Physician's Examination Certification", shall be utilized for documentation of sick leave usage. Any sick leave usage not accompanied by form 50 is considered undocumented.

The Form 50 must be presented within five (5) business days following the employee returning to duty.

If an employee's medical condition necessitates using sick leave for ten (10) or more consecutive days, the employee must provide a Form 50 to his/her supervisor (or supervisor's designee) prior to returning to duty.

The information provided by the employee's physician in the Form 50 "Return to Work" Section will be utilized in the decision to assess application of an Independent Medical Examination provided by the City of New Orleans medical examiner.

The department may require employees to submit to an Independent Medical Examination by a health provider of the agency's choosing at the employer's expense. In the event

New Orleans Police Department

Procedure Manual

the opinion of this second health provider differs significantly from the employee's health provider, the employer may request a third opinion at the employer's expense.

PR1015.3.1 INDEPENDENT MEDICAL EXAMINATION - REPORTING

An employee shall report to an Independent Medical Examination as scheduled by the Administrative Duties Section and the medical examiner. Any cancellations or rescheduling must be coordinated and approved by the Administrative Duties Section. All costs of the Independent Medical Examination are the responsibility of the City.

PR1015.3.2 INDEPENDENT MEDICAL EXAMINATION - CONFIRMATION

If the Independent Medical Examination confirms the employee's Form 50 medical opinion, then extended sick leave status may be approved for an additional sixty (60) calendar days (from date of initial transfer to the Administrative Duties Section). At the end of sixty (60) calendar days, the employee shall have ten (10) working days to submit another Form 50 and may be subject to another Independent Medical Examination.

PR1015.3.3 INDEPENDENT MEDICAL EXAMINATION - APPEALS

An employee shall have the right to obtain a third medical evaluation from another medical examiner if the City Independent Medical Examination report conflicts or disagrees with the employee's initial health care provider recommendation on the Form 50. This third examiner must be mutually agreed upon by the Administrative Duties Section, and all costs of this examination are the responsibility of the employer. The employee and Administrative Duties Section representatives shall cooperate and act in good faith in selecting any third health care provider, and both parties shall be bound by that medical decision. Such decision shall only remain in effect for that individual (60) calendar day extension.

PR1015.4 EXTENDED LEAVE EXTENSIONS (60 DAYS)

The approval of an extension of sixty (60) calendar days past the first (30) calendar days of extended leave may be granted by the department if the medical condition prognosis provides indication that an employee may return to full or limited duty within a defined or projected time frame. Subsequent extensions of additional (60) calendar day intervals may be approved based again on this same prognosis of maximum medical improvement.

This decision to extend leave is not automatic and will be determined by the Form 50 and supporting documentation provided by the employee's health care provider; and, if requested, the Independent Medical Examination provided by the City Medical Examiner; and if necessary, the third medical examination report as appealed by the employee.

The use of accrued sick days may only be applied consistent with supporting documentation that confirms the employee's illness or medical condition. Such supporting documentation must be submitted completely in the Form 50. The department reserves the right not to allow the use of any sick leave benefits for undocumented illnesses. The application of accrued sick leave days can also be limited to finite periods based on evaluation and review of the employee's medical condition.

For those employees who have exhausted all "approved and authorized" sick and annual leave benefits, the department may authorize use of "Leave Without Pay" status consistent with Civil Service Rule VIII, Section 10 and with the medical prognosis of maximum medical improvement as documented in the Form 50.

JOB PERFORMANCE IMPROVEMENT PLAN (JPIP)

PR1057.1 SUPERVISOR'S GUIDELINES

The following are guidelines for supervisors to use in determining when the Job Performance Improvement Plan (JPIP) is appropriate.

A JPIP may be used at any time to improve an employee's job performance. A JPIP shall be used if an employee's performance is rated less than acceptable on a performance evaluation.

Additionally, supervisors must decide when it's appropriate to move from verbal to a written level to improve the employee's performance in situations not related to corrective or disciplinary action.

Once it's recognized an employee's performance failed to improve after mentoring and verbal direction, the supervisor can initiate written documentation. Insert the blue highlighted sentence here. The following questions are pertinent in determining if it is appropriate to move to complete a Job Performance Improvement Plan form. (It is important any conversations and/or actions related to an employee's performance are documented by the supervisor.)

- Is substandard performance recent or previously discussed verbally?
- List the actions taken to date? (Ex: Verbal discussion, written agreement, training)
- How serious is the problem?
- Were there one or more previous verbal discussions about a performance problem(s)?
- What training was provided? When?
- Was the training related to the same sub-standard performance?
- Was the training recent?
- What was put in writing and when?
- Did the employee receive and understand the direction(s) or expectation(s) from the supervisors? Did the employee initial the written direction(s) expectation(s)?
- Have contributing factors or causes (e.g. personal problems, motivation, skills, etc.) been identified by a supervisor that mitigates the need to move to a stronger action until other actions are taken? (e.g. referral to treatment, training, accommodations, etc.)

PR1057.2 GUIDELINES

Guidelines for a Job Performance Improvement Plan (JPIP) should include:

- (a) Outlining of the methods to be used in meeting the objective(s) set.
- (b) Explaining the supervisor's role in assisting the employee to achieve satisfactory levels of performance. If formal training is applicable (i.e., Academy, reassigned to an FTO, etc.) all efforts should be made to make these resources available. Informal training (i.e., ride along with supervisors, etc.) methods are available.

Procedure Manual

JOB PERFORMANCE IMPROVEMENT PLAN (JPIP)

- (c) Establishing controls to measure progress and communicating them in writing to the employee. The controls should be outlined and the employee informed of the control(s) in the JPIP written plan.
- (d) Signing and dating the form by both employee and the supervisor.
- (e) Approving the JPIP through the employee and supervisor's chain of command through their respective Bureau Chief(s).

This information must be included on the Job Performance Improvement plan form).

JOB PERFORMANCE IMPROVEMENT PLAN (JPIP)

PR1057.4.1 EXAMPLE OF PART 1 OF NARRATIVE

You transferred to the B platoon of the Ninth District on November 13, 2010. (Note here if any expectations as new member of the detail were discussed by the Sgt. or Lt.). (State here any other items that have already been addressed/discussed, with specificity and dates, etc., which demonstrate the employee has not performed to expectations, e.g., "We have met three times since the end of December (dates) to discuss the following areas of concern regarding your performance (list)."

In an effort to give you every opportunity to be successful in the NOPD, and to ensure that we are both very clear regarding those expectations, I have determined to institute a JPIP, despite the efforts to assist you in learning the responsibilities and expectations of your assignment. There have been noted deficiencies in your decreased productivity noted in evaluating your daily performance, and the quality of your police reports as submitted for supervisory approval has been less than expected of similarly situated police officers. Verbal discussions with you, as noted above, concerning these areas of deficient performance have not resulted in sustained or notable improvement. Therefore the purpose of this plan is to identify the specific areas of concern and to outline efforts necessary to correct those deficiencies.

List specific areas of concern and/or deficiency requiring improvement.

PR1057.4.2 EXAMPLE OF PART II NARRATIVE

1 - Your daily activity for the period of _____ through _____ has reflected several noted concerns. For example, your activity reports submitted for the month of January and February show little self initiated activity of any sort, investigations conducted, or arrests made. Additionally, when comparing these dates to the calls for service you were assigned, the records clearly indicate that there were several hours, per day, where self-initiated proactive efforts would be expected of professional police officers. However, you have recorded no proactive efforts during that time. (Cite examples and reference that copies of those reports are being held by supervisor).

2 - It has been necessary to return your paperwork for corrections due to grammatical errors, incomplete information, or it is illegible. The rewrites have resulted in reports not being turned in on time. During the period of _____ through _____, you completed 43 reports. Of those reports, 14 were returned because they lacked basic information (cite examples, and reference that copies of those reports are being held by supervisor); 6 were returned because they contained errors (wrong information, failing to check boxes, etc.) and 3 were so poorly written as to be illegible. Please understand that these types of errors and subsequent returns produce inefficiencies throughout this command and the department and is not the standard behavior of officers assigned.

PR1057.4.3 PLAN OF ACTION/FOLLOW-UP MEASURES/DURATION

List the plan of action and follow-up measures developed to assist in correcting deficiencies to include the meeting schedule and duration of the JPIP.

The JPIP should be a collaborative effort to ensure the employee and the supervisor jointly develops the work directives and identifies responsibilities for both parties.

- (a) Specify the steps necessary for the employee to correct the problem, and include time frames for the completion of each step (Get the employee to take responsibility/ownership of the problem.).

New Orleans Police Department

Procedure Manual

JOB PERFORMANCE IMPROVEMENT PLAN (JPIP)

- (b) What assistance will the supervisor provide? (e.g., training, referral to the Academy or departmental Psychologist, etc).
- (c) Where appropriate, include a directive (e.g., employee directed to complete the expectation by a specific date, etc.).
- (d) Record the actions taken or training provided to make the necessary corrections.
- (e) Set data/records/examples of behavior to be monitored to demonstrate improved performance for meetings with employee.
- (f) Explain future action if the problem persists. (e.g., additional corrective/disciplinary action etc.) This may not always be appropriate, and the issues of progressive discipline must be taken into account.
- (g) Confer with District/Division Commander, P.I.B., Academy, or Police HR as needed.
- (h) State the desired performance. (e.g., how it will be achieved, etc.) Be specific.
- (i) Specify the job expectations in detail.
- (j) Set date(s) to review progress.

PR1057.4.4 EXAMPLE OF PART III NARRATIVE

Per our discussion of today, the following measures we have identified will be taken to assist you in correcting the above noted deficiencies:

1 - We will meet once every two weeks to review your daily activity reports and other paperwork. The purpose of this meeting will be to review your work for accuracy, timeliness and acceptable activity.

2 - You will vary your patrol practices to ensure that when not on a call for service or an assignment authorized by a supervisory officer you are conducting proactive police work consistent with the needs of your area of patrol and the direction of your supervisors.

3 - You will be rescheduled for training at the Academy with emphasis on report writing skills and police tactics.

4 - You will be assigned to FTO _____ for a period of _____ to reacquaint you with proper NOPD procedures regarding reporting writing and police tactics.

5 - The duration of this Job Performance Improvement Plan will be _____ from the initial meeting date. (Sufficient time should be provided to reach the objectives, but in no circumstances should a JPIP exceed six (6) months.)

Indicate which, if any, documents are attached to the form.

NOTE: Employees shall be allowed to submit a statement documenting any explanation or documentation for their performance resulting in the JPIP. Any written statements will be attached to the Job Performance Improvement Plan form.

The employee and initiating supervisor shall sign and date the form. By signing this JPIP, the employee acknowledges that he/she has received a copy of the JPIP. The form shall be forwarded through the affected employee's chain of command through their bureau chief for review/approval and sign. The original with supporting documentation shall be forwarded to the Public Integrity Bureau.

PR1057.5 DOCUMENTATION

The original signed copy of the JPIP and all supporting documentation shall be distributed as follows:

- (a) The original signed copy of the JPIP shall become part of the employee's permanent personnel file in the Personnel Section.
- (b) A copy shall be maintained at the employee's place of assignment.
- (c) A copy to the employee.
- (d) A copy to the Commander or Civilian equivalent and a copy to the employee's Bureau Chief or Director. If there is a change in the employee's assignment for any reason, before a JPIP is completed, the JPIP shall continue at the employee's new assignment. It shall be the duty of the originating supervisor to inform the employee's new supervisor of the JPIP. If the new assignment does not require the same job responsibilities that required the JPIP, then the initiating supervisor and new supervisor shall decide if the JPIP will continue. If it is agreed the JPIP should be terminated, the reasons for termination shall be noted in the JPIP.
- (e) A copy to Public Integrity Bureau.

If the employee's unsatisfactory job performance continues after completing all required provisions outlined in the Job Performance Improvement Plan(JPIP) form, a formal disciplinary process shall be initiated. Failure of an employee to successfully complete the terms and conditions of a JPIP is grounds for corrective and/or disciplinary action with penalties up to and including termination.

Supervisors may consult with their Commanders, the Commander of the Personnel Section, a representative of the Public Integrity Bureau (P.I.B.), for assistance. Additionally, supervisors shall utilize the guidelines in determining when a JPIP is appropriate.
