

**RESOLUTION**

**NO. R-18-5**

**ENONAC:** October 30, 2018

**BY:** Commissioner DeGrasse

**SECONDED BY:** Commissioner Legaux

**WHEREAS**, Act 394 of the Louisiana State Legislature (R.S. 33:9100) was adopted during the Regular Session of 2009 for the purpose of creating the Eastern New Orleans Neighborhood Advisory Commission (“ENONAC”), the boundaries of which are the Industrial Canal to the west, the Intracoastal Canal to the south, the St. Tammany Parish Line to the east and Lake Pontchartrain to the north.

**WHEREAS**, ENONAC was created to advise the New Orleans City Council, the Mayor and all agencies under the purview of the aforementioned offices, and all independent agencies, boards and commissions of the government of the City of New Orleans and State of Louisiana with respect to all proposed matters, including but not limited to decisions regarding neighborhood planning, housing density, economic development, traffic, parking, recreation, street improvements, liquor licensing, zoning, police protection, sanitation and trash collection, social service programs, education, health, safety and budgetary issues that affect the area within ENONAC’s district.

**WHEREAS**, in accordance with the bylaws of the Commission, ENONAC may in addition to presenting its views, propose legislation that promotes the general welfare of the overall development of the area within its district.

**WHEREAS**, the Board of Commissioners of the ENONAC met on October 30, 2018 and adopted this Resolution No. R-18-5,

**WHEREAS**, East New Orleans Neighborhood Advisory Commission’s mission is to provide meticulous oversight for the development of our community, especially as it relates to promoting good business and good business relationships,

**WHEREAS**, it has been our experience in the last 6-8 years that allowing the proliferation of small box discount stores has effectively decreased our property values, created widespread problems with littering, loitering and vandalism.

**WHEREAS**, the proliferation of these discount stores has not added in any significant way, jobs at more than minimum wage and temporary employment,

**WHEREAS**, these stores have insufficient workers and cashiers during most shifts, which results in ridiculously long cashier lines, poorly stocked shelves, and horrendous customer service which is not fair to the workers or to our residents.

**WHEREAS**, this is a time when educational campaigns are encouraging people to be more health conscious, to be more active, to ride bikes instead of cars, and to eat more fruits/vegetables and less processed food, it would be hypocritical for the City to knowingly allow businesses to peddle to our citizens the equivalent of nutritional poison by offering inferior food products.

**WHEREAS**, Small box discount stores are not as safe, clean or well-managed as similar sized retail stores. They do not have on-site security, despite the high instances of robberies. Trash accumulates in the parking lots and near entrances. Required landscaping is not maintained. Store management ignores loitering. Frequently, the stores are operating without a manager on-site.

**WHEREAS**, Small box discount stores are not meeting the needs of the areas near their stores. They target food deserts even though they do not offer fresh fruit, vegetables, dairy products or meat. There are so many stores that they inevitably occupy locations where communities wanted their leaders to bring in full-service grocery stores.

**WHEREAS**, these discount stores have not been good neighbors in addition to the large number of them, they have adversely affected our community's goal of attracting higher caliber grocers and retail stores

**THEREFORE, BE IT RESOLVED BY THE EAST NEW ORLEANS NEIGHBORHOOD ADVISORY COMMISSION OF THE CITY OF NEW ORLEANS, that:**

As we develop New Orleans East vacant land and businesses that we pay particular attention, to evaluate and scrutinize those businesses, especially discount stores that have proven not to be a good neighbor in the past and to allow in the future a request for the selling of alcohol. East New Orleans has vacant land for businesses at a reasonable price and therefore we have become a target for the location of small box discount stores, many of which are in close proximity to each other and back up on our neighborhood subdivisions. Currently, there are 14 small box discount stores in East New Orleans, of the 38 in New Orleans. In the meantime, there are only two grocery stores in East New Orleans.

BE IT FURTHER RESOLVED, we fear that if New Orleans East becomes saddled with this discount store reputation, it could make businesses that offer more substantive and diverse products and services disinterested in investing and building in our area.

BE IT FURTHER RESOLVED that ENONAC supports the intent of City Council Motion M-18-256, to classify and regulate small box discount stores. Please carefully examine the study and we ask that you do not support the proliferation of small box discount stores without providing full-service grocery stores and healthier retail businesses in New Orleans East.

**THE ROLL WAS CALLED ON THE ADOPTION THEREOF AND RESULTED AS FOLLOWS:**

**YEAS:** Bickham, Landrum, Woods, Hebert, Spears, McWilliams, Sparrow, Williams, Comeaux, Blouin, Legaux, DeGrasse, Scales, Kingvalsky, Hamilton, Denesse, Weaver

AND THE RESOLUTION WAS ADOPTED.

Dear City Planning Officials:

I oppose the addition of any more discount stores in the New Orleans East area because I am very concerned about the safety, health, security, and crime issues that tend to accompany these businesses. I am also concerned about the significant risk that allowing discount stores in such close proximity to each other will lower the property values and quality of life in our area. In my experience, these businesses often have increased trash, loitering, and crime on or near their premises. We do not need these issues and problems, especially when we are still attempting to attract big and diverse businesses to the New Orleans East area.

Concentrating large numbers of discount stores in one area risks characterizing our area as a high poverty and/or socially depressed area. I fear that if New Orleans East becomes saddled with this reputation, it could make businesses that offer more substantive and diverse products and services disinterested in investing and building in our area. New Orleans East must be positioned to reflect a solid, positive appearance so that a new business will have confidence that it can realize a future benefit if its time, energy, and money are planted here.

We are long overdue for diverse businesses. For example, I would like the opportunity to purchase profession clothes and shoes without having to drive more than 25 minutes, having to leave Orleans parish, or having to shop on the internet. I cannot do that currently and have not been able to do this kind of shopping in my neighborhood since before Hurricane Katrina.

Additionally, in my experience, these businesses offer inferior products, minimum wage jobs, and food choices with minimal or no nutritional value. First, it is not uncommon for many of these discount stores to provide cheap products that break quickly and require premature replacements. Second, these stores have insufficient workers and cashiers during most shifts, which results in ridiculously long cashier lines, poorly stocked shelves, and horrendous customer service. This is not fair to the workers or to our residents. We need to be respected as meaningful consumers and citizens by whatever businesses are established in the East. The discount stores do not respect us; they prey on us because our choices in the East are so limited. More importantly, we need more good paying jobs, with benefits in the East. Discount stores are not modeled to support these types of employment opportunities. We need to create an environment to attract businesses that can and WILL offer them; however, an over proliferation of discount stores sabotages this effort and causes detriment, negative economic ripples throughout our entire community. Third, during a time when educational campaigns are encouraging people to be more health conscious, to be more active, to ride bikes instead of cars, and to eat more fruits/vegetables and less processed food, it would be hypocritical for the City to knowingly allow businesses to peddle to our citizens the equivalent of nutritional poison. Our children and our community deserve far better than the goods, services, and jobs that appear to be provided by these discount stores.

I adamantly oppose the building of any more discount stores in New Orleans East; and if eliminating some of the existing ones is an option, please take steps to do so. Please carefully examine the results of the Study, and please do not support the addition of any more of these stores.

Thank you in advance for your attention to my concerns.

Sincerely,

Kelly Legier  
New Orleans East resident since 2003

2018 SBRD Small Box Retail Diversity Study 11/05/2018

The proliferation of discount stores in east New Orleans is hindering economic development in this area, perhaps citywide. There are likely many, and varied, contributing factors: a surplus of vacant commercial land, a population diverse in education, ethnicity, income, jobs skills, household occupancy, etc.

Since the release of this Study, I've contributed significant time on a personal analysis of the influx of small stores aspiring to "serve the under-served".

We see almost on a weekly basis a new store opening. This is both a blessing and a curse. Entrepreneurs are the lifeblood of this City and it is our responsibility, as civic leaders and government officials, to encourage and support businesses. Without businesses, the residents have no products, no services, no job opportunities, nor an acceptable quality of life.

It became apparent very quickly one of the major contributors to this spurt in discount stores in east New Orleans. Walgreens acquired Rite-Aid and was forced, as a matter of fair trade, to close stores. This requirement is national and not local. We would not have an unwanted concentration of stores that sell only cheap, surplus goods if the City of New Orleans had a similar restriction.

Walgreens has leased almost every available surplus property to retail discount stores, mostly of one brand. These seem to open overnight with no change to the store except a sign and new inventory.

This Retail Diversity Study was begun to establish some limits to rapid, unplanned, unwanted, unnecessary stores. Try as I might, I cannot find any way through legislation to accomplish this.

When released, the Study acknowledged there is no existing category definition for "Small Box Discount". Any such definition, if created, would also apply to many stores that sell only a single product.

There will be no reduction in the number of such stores as long as the public continues to be hoodwinked into believing these surplus-inventory stores are providing products they need at a price they can afford.

I could give an exhaustive list of other contributing factors, with examples, but cannot find a solution.

I look forward to reviewing the research materials that have been obtained as part of this study.

I'd like to confirm the "Public Comment" process for the SBRD Study before sending messages to encourage more participation.

I've yet to submit an individual comment, except for the public hearing on Tuesday, September 11.

I couldn't find comments posted online, therefore I can't gauge if anyone is participating in this study.

Will comments only be submitted by email?

Are you receiving any public submissions?

I do plan to personally comment although I'm currently unable to find a solution to this problem which is inundating the East. There's been two more Family Dollar Stores opened (or announced) in east New Orleans since this study began.

I don't want to send out incorrect comment submission information.

I presume you'd prefer the study comments be submitted to CPCinfo... rather than individual staff members.

First off, I want to thank Councilwoman Cyndi Nguyen for leading this effort to rid New Orleans East of these discount stores.

They are not the economic drivers that we need in this area. They aren't attractive and create an unhealthy environment. Consumers want more high end stores. With these discount stores in place, we are languishing at the bottom of the economic barrel. They don't provide healthy food choices and they discourage larger, better stocked stores from coming into the community.

It is disheartening not to shop in your community because of a lack of variety and quality.

Fortunately, there may be a new day on the horizon. We as residents of New Orleans East want to be proud of our community. No longer will we accept mediocrity and hypocrisy.

We, too, are citizens of New Orleans! Thank you for your review and consideration. I am from North Carolina and now I am a proud resident of New Orleans.

Best.

Dear Mr. Rivers,

Thank you for the opportunity to provide input regarding the Commission's "small box discount stores" study, which is being undertaken by the Commission pursuant to New Orleans City Council Motion M-18-256.

Since opening its first New Orleans store in November 1983, Dollar General has proudly served the Crescent City with a broad selection of merchandise at everyday low prices in convenient, easy-to-shop stores. Today, the Company operates 12 stores within the New Orleans city limits, each of which provides New Orleans residents with, among other things, a wide range of food items including refrigerated (e.g., milk, juice, cheese, eggs, meats) and frozen products (e.g., fruits, vegetables, pizza, prepared foods), as well as dry grocery products (e.g., pastas, crackers, bread, cereal, baking items) and canned/bottled products (e.g., fruits, vegetables, soups, meats, juices).

Our customers are at the center of all we do, and we work diligently to provide them with quality products at affordable prices. By the end of our 2018 fiscal year, we plan to offer limited fresh produce options in approximately 450, or approximately three percent, of our 15,000 store locations. Site selection for produce expansion is focused on identification of those stores that meet our strategic, financial, format and distribution requirements to best serve our customers. As we develop our 2019 fiscal year strategy, we will continue to look for opportunities to further refine and improve our product offerings, committed to keeping New Orleans front of mind as we do so, noting we are concerned that the imposition of the 15% produce requirement may have the unintended consequence of causing a reduction in the number of affordable retail and food outlets in the City.

Through its mission of *Serving Others*, Dollar General is committed to the City of New Orleans and supports the communities it calls home. Dollar General is deeply involved in the community as an ardent supporter of literacy and education through the Dollar General Literacy Foundation, which has awarded more than \$480,000 to libraries, schools and nonprofit organizations in the New Orleans city limits since 2009. Additionally, we serve as a contributor to the City's overall economic development through the employment of approximately 170 employees in the city.

Thank you for your thoughtful consideration of Dollar General's position regarding the Small Box Retail Diversity Study and our positive impact within the New Orleans community that we proudly serve.

Sincerely,

Please pass on to "EH", who is collecting and consolidating comments for the upcoming Small Box Stores Diversity Study requested by M-18-256.

NB: There is no need to include this communication as part of the Study. I'll be making subsequent contributions.

I know of a business that has operated in the same shopping center for over twenty years that cannot comply with the suggested fresh food requirement.

I'm contacting you in advance of the September 11 CPC meeting so Staff will know the basis for my upcoming comment and evaluate it at a later date.

---

I'll be attending the City Planning hearing on Tuesday in favor of the Small Box Stores Diversity Study.

I know of one store in east New Orleans (Big Lots, 6011 Bullard Avenue) that falls under the proposed definition that would be adversely impacted. This store has never sold (fresh or frozen) food or alcoholic beverages.

They do sell a wide range of packaged food items (approx. 30% of floorspace) in addition to home decor, appliances, cookware and some furniture.

FYI: there is a Big Lots in Metairie (755 Veterans Blvd) that only recently started selling some refrigerated items, e.g. dairy, breakfast foods, and ice cream.

I'll support this Study but need to find a way to protect the Big Lots on Bullard.

---

This Big Lots (store #5270) is the only one in Orleans Parish, located in the old Schwegnann's Shopping Center at 6011 Bullard Avenue, at Interstate-10.

It was in business in the strip mall fronting on Bullard and relocated to a larger space (old Circuit City store) after 2005.

\*\*\*\*\*

It is my belief and understanding that a long-time Covenant by Schwegnanns prohibits any grocery store business not conducted inside the very large single building at the rear of the property.

\*\*\*\*\*

Such a Covenant, should one exist, and include the Big Lots building, would be in conflict with one major condition of the SBSDS.

Dear City Planning Officials:

I oppose the addition of any more discount stores in the New Orleans East area because I am very concerned about the safety, health, security, and crime issues that tend to accompany these businesses. I am also concerned about the significant risk that allowing discount stores in such close proximity to each other will lower the property values and quality of life in our area. In my experience, these businesses often have increased trash, loitering, and crime on or near their premises. We do not need these issues and problems, especially when we are still attempting to attract big and diverse businesses to the New Orleans East area.

Concentrating large numbers of discount stores in one area risks characterizing our area as a high poverty and/or socially depressed area. I fear that if New Orleans East becomes saddled with this reputation, it could make businesses that offer more substantive and diverse products and services disinterested in investing and building in our area. New Orleans East must be positioned to reflect a solid, positive appearance so that a new business will have confidence that it can realize a future benefit if its time, energy, and money are planted here.

We are long overdue for diverse businesses. For example, I would like the opportunity to purchase profession clothes and shoes without having

to drive more than 25 minutes, having to leave Orleans parish, or having to shop on the internet. I cannot do that currently and have not been able to do this kind of shopping in my neighborhood since before Hurricane Katrina.

Additionally, in my experience, these businesses offer inferior products, minimum wage jobs, and food choices with minimal or no nutritional value. First, it is not uncommon for many of these discount stores to provide cheap products that break quickly and require premature replacements. Second, these stores have insufficient workers and cashiers during most shifts, which results in ridiculously long cashier lines, poorly stocked shelves, and horrendous customer service. This is not fair to the workers or to our residents. We need to be respected as meaningful consumers and citizens by whatever businesses are established in the East. The discount stores do not respect us; they prey on us because our choices in the East are so limited. More importantly, we need more good paying jobs, with benefits in the East. Discount stores are not modeled to support these types of employment opportunities. We need to create an environment to attract businesses that can and WILL offer them; however, an over proliferation of discount stores sabotages this effort and causes detriment, negative economic ripples throughout our entire community. Third, during a time when educational campaigns are encouraging people to be more health conscious, to be more active, to ride bikes instead of cars, and to eat more fruits/vegetables and less processed food, it would be hypocritical for the City to knowingly allow businesses to peddle to our citizens the equivalent of nutritional poison. Our children and our community deserve far better than the goods, services, and jobs that appear to be provided by these discount stores.

I adamantly oppose the building of any more discount stores in New Orleans East; and if eliminating some of the existing ones is an option, please take steps to do so. Please carefully examine the results of the Study, and please do not support the addition of any more of these stores.

Thank you in advance for your attention to my concerns.

Sincerely,

Kelly Legier

Hello,

Apologies for the late email. I hope you will still consider my comments regarding providing fresh foods in local discount stores.

I acknowledge that small box stores do meet the basic needs of food access in many neighborhoods, however I also believe they are failing to provide fresh, healthy foods. Lack of fresh foods causes an access disparity in these lower income neighborhoods and quite possibly contributes to health issues in our lower income communities. Without access to vehicles and/or convenient public transportation, many folks subsist on boxed and canned foods alone. Nutrition needs cannot be met with simply boxed and/or canned foods. As we all know, fresh vegetables and fruits are the cornerstone to a healthy diet!

I fully support zoning requiring small box retail stores to dedicate a percentage of their floor space to providing fresh fruits and vegetables.

Thank you for your time.

New Orleans East is inundated with Dollar Stores. Dollar General, Family Dollar, Dollar Tree, all have 4 or more locations from Downman Road to Bullard and this is unacceptable.

Why can't the city work to attract meaningful businesses to the area. As a homeowner of more than 30 years in New Orleans East I am disgusted at the lack of attention given to the growth in the area. Why do we have to go to Midcity, Uptown, Slidell or Metairie for commerce opportunities.

What happened to Mayor Cantrell and the new council giving attention to the entire city, New Orleans East continues to be the dumping ground despite having a significant base of homeowners.

I ask that you listen to our plea.

Sincerely

**Subject:** Impact of Dollar Stores

Hello,

In response to the city's call for comments regarding dollar stores, I would like to submit my input.

As a resident of Holy Cross in the Lower 9th Ward, the only option I have for retail in my neighborhood is a dollar store. There is one just over the St. Claude bridge, one the other way at Caffin and two next to each other farther down at the parish line. The neighborhood is saturated with dollar stores. Sure they are convenient for odds and ends when you just don't have time to run down to a regular grocery store or you don't have transportation. However, we don't need any more.

I have heard other people outside the neighborhood complain that the city is trying to push its poor residents out by not allowing more dollar stores. I counter that argument by saying that we deserve options to poorly made, sometimes poisonous goods from China that are only more affordable because the quantity or volume is so much smaller than a standard product. They are also often expired or damaged goods. We deserve better options in our neighborhood.

Every other area in New Orleans has recovered well from Katrina except District E. Businesses are moving in and people are enjoying restaurants, bars and locally owned shops. I used to rent an apartment in the Marigny, where I fell in love with New Orleans life due to its proximity to so many fun clubs, restaurants and activities. I could only afford to buy a house in Holy Cross, where I quickly learned that residents of this area are treated considerably differently by the city and my quality of life is significantly worse. There is no reason why District E shouldn't be able to enjoy the amenities of city living just as we deal with its negative aspects. Flooding our area with dollar stores only says to us that you expect us to always be poor and we have no right to dare hope for economic prosperity. There were a variety of businesses here before Katrina, and there should be again.

Limiting the number of dollar stores is only one part of the solution. The city must also attract other businesses to the area, which will bring jobs and help to eradicate poverty. I applaud Councilwoman Nguyen's efforts to do this. However, the city could make this easier by forcing property owners on St. Claude to clean up the blight and removing much of the red tape that is now preventing people from opening businesses.

Thank you,

Joanne Drummond

*To Whom It May Concern:*

*On behalf of Propeller: A Force for Social Innovation, I, would like to submit a written public comment in regards to Motion M-18-256 - Small Box Retail Diversity Study.*

*Propeller is a nonprofit organization that helps entrepreneurs grow their nonprofits and small businesses to tackle social and environmental disparities in New Orleans. Propeller has been tackling inequities in New Orleans by supporting entrepreneurs since 2009. Through our accelerator programming, policy work, and community-based food programs, we seek to improve food access for all New Orleanians.*

*We see the regulation of discount stores as an opportunity for improving food access. Therefore we suggest the following actions to the City Planning Commission:*

1. *Minimum stocking requirements for staple/fresh food products in store(s) including:*
  - a. *Milk: Five (5) gallons of unsweetened, unflavored, fluid cow's milk in up to a gallon or half-gallon containers in any combination of at least two (2) of the following varieties: skim or nonfat, one (1) percent, or two (2) percent, or "plain" or "original" soy milk or other milk alternatives.*
  - b. *Cheese: Six (6) pounds of cheese in packages of at least one-half (½) pound (eight (8) ounces) each, in any combination of at least three (3) varieties, not including processed cheese products.*
  - c. *Eggs: Six (6) one dozen (twelve (12)) containers of fresh large-size eggs.*
  - d. *Meat and vegetable protein sources: At least three (3) varieties of meat, poultry, canned fish packed in water, or vegetable proteins such as nut butter and/or tofu. Nut butters can be up to eighteen (18) ounces in size and are not to contain any other food product such as jelly, jam, chocolate or honey.*
  - e. *Fruits and vegetables: Thirty (30) pounds or fifty (50) items total of fresh and/or frozen fruits and vegetables that do not contain added ingredients including sweeteners, salt, sauces, or seasonings, in at least seven (7) varieties, with at least five (5) varieties that are fresh and perishable, and with no more than fifty (50) percent of the total selection being from a single variety.*

- f. Juice: Six (6) containers of any combination of the following, as long as at least three (3) containers are one hundred (100) percent citrus juice, (orange, grapefruit or orange/grapefruit) in any combination of the following types:
  - g. Eleven and one-half (11½) to twelve (12) ounce containers of pure and unsweetened frozen or non-frozen concentrate one hundred (100) percent juice; or
  - h. Fifty-nine (59) ounce or larger containers of pure and unsweetened one hundred (100) percent juice.
  - i. Whole grain cereal: Four (4) boxes or bags twelve (12) ounces or larger of whole grain cereal or cereal grains in any combination of at least three (3) varieties.
  - j. Whole grains: Five (5) pounds of whole grains of at least three (3) varieties such as bread, corn tortillas, brown rice or oatmeal.
  - k. Canned beans: One hundred ninety-two (192) ounces of canned beans or legumes in any combination of at least three (3) varieties.
  - l. Dried peas, beans, lentils: Four (4) packages, up to sixteen (16) ounces in size, of dried beans, peas or lentils without any added ingredients.
1. A moratorium on discount dollar stores in Orleans Parish for a minimum of 180 days.

Thank you for your time and consideration. Hello,

Thank you for taking my public comment on the CPC Small Box Retail Diversity Study. I have seen firsthand how important accessibility to fresh foods are to every neighborhood in this city. While grocery stores can be difficult to access, whether due to prices, familiarity or proximity, there are thousands in this city who are close enough or comfortable enough shopping at a small box retailer. From what I have seen in my job and from participating in conversations with the Healthy Corner Store Collaborative, people will choose to purchase fresh foods when they are available.

Small box stores could increase the access of fresh foods to so many in the city. But allowing more to be built that fail to offer fresh fruits and vegetables not only affects the health of those accessing those stores, it decreases the chance that another retailer will move in and fill the gap.

Based on the success of the Healthy Corner Store Collaborative and the increased awareness of the importance of fruits and vegetables for a city with severe health disparities, I am in favor of the CPC's study and the requirement that small box discount stores create space for fresh foods.

Sincerely,

The fact that New Orleans East has 13 out of 20 discount stores is a testament to the poor planning and zoning of our community and the lack of commitment by the City of New Orleans to give the residents of the East the same quality of life as Uptown, Mid-City, Lakeview and the French Quarter. This is a shame. New Orleans East has hard working families that want and deserve the same options shopping and dining as the rest of the city.
