**BEHAVIORAL HEALTH**  
RESOURCES IN THE GREATER NEW ORLEANS AREA

---

The City of New Orleans  
Mitchell J. Landrieu, Mayor  
Charlotte Parent, Director of Health

# A MESSAGE FROM CHARLOTTE PARENT

*Director of Health for the City of New Orleans:*

---

Behavioral health is a public health priority for the City of New Orleans. That's why the Mayor and I are proud to present this updated Behavioral Health Resource Guide.

---

Now more than ever, an updated catalog of mental health and substance abuse services is critical for our city's health. The original guide was released in January 2012, and as services change and grow, we want to ensure that providers and consumers have access to the most current information available.

This guide provides an updated, comprehensive inventory of all behavioral health resources, including important programs, clinics offered by area providers, and organizations from the public and private sector. We have also included resources to assist with access to these services such as information on public funding options, websites with more information, and housing and supportive services throughout New Orleans.

We are thankful for the assistance of our local community partners, who helped ensure that this edition of the guide is accurate and complete. To request an update or change to the guide, please contact the Health Department by dialing 311, the City's information service.

At the Health Department, our aim is to ensure delivery of affordable, quality health care services for all residents. We invite you to use the valuable information in this guide to help enhance your knowledge of available behavioral health resources and make informed choices about care for you and your loved ones.

Sincerely,

**CHARLOTTE PARENT, RN, MHCM**

*Director of Health, City of New Orleans*

**Note:** *This guide is intended to assist individuals in accessing services provided by agencies in the community. If you have private insurance, please check with your insurance agency's provider listing to ensure you are accessing care covered under your insurance plan.*
