REQUIREMENTS FOR DISABILITY RETIREMENT

ALL APPLICATIONS FOR DISABILITY RETIREMENTS SHALL BE SUBMITTED BY CONTRIBUTING MEMBERS ALONG WITH A REPORT FROM THE MEMBER'S PHYSICIAN CERTIFYING THAT THE MEMBER'S DISABILITY TOTALLY INCAPACITATES THE MEMBER FROM FURTHER PERFORMANCE OF HIS/HER NORMAL DUTIES.

Accidental Disability

If a member is declared disabled as the result of an accident sustained while in the actual performance of duty, without willful negligence on his/her part, the member may be eligible for an accidental disability retirement allowance. The member must provide a statement from his/her physician indicating that the member's disability totally incapacitates the member from further performance of their normal duties.

Upon retirement due to accidental disability, the member will receive a service retirement allowance, if eligible, or an accidental disability retirement allowance which is 65% of the member's earnings for the twelve (12) months preceding the accident. The retirement allowance will be offset by any payments received from Workers' Compensation. No survivor benefits will be payable upon the death of the member. The beneficiary may be entitled to a death benefit which consists of the remaining employee contributions and interest.

Ordinary Disability

If a member has at least ten (10) years of service and is declared disabled, he/she may be eligible for an ordinary disability retirement. The member must provide a statement from his/her physician indicating that the member's disability totally incapacitates the member from further performance of their normal duties.

Upon retirement due to ordinary disability, the member will receive a service retirement if eligible or a disability benefit that will equal 75% of the service allowance that the member would have earned had he/she worked until age sixty-five (65). No survivor benefits will be payable upon the death of the member. The beneficiary may be entitled to a death benefit which consists of the remaining employee contributions and interest.

Other Disability Retirement Information

- Members will be required to undergo a medical examination once each year during the first five years after retirement and once every three years thereafter until age sixty (60). The results of the medical examination will be reported to NOMERS and the physician will certify the status of the member's disability
- Members considered able to pursue gainful employment will be restored to their previous position or a similar position.
- A member's benefit allowance will be discontinued if the member does not submit to the required medical examination or if the member is no longer disabled and declines suitable employment.
- Disability retirees are required to report their income from other sources annually. Failure to comply with this requirement will result in the discontinuance of the member's benefit allowance.
