

**NEW ORLEANS POLICE DEPARTMENT**  
**2024 COMMUNITY POLICING AND ENGAGEMENT ANNUAL REPORT**

**NOPD agrees to prepare a publicly available report on a quarterly basis detailing its community policing efforts in each District, including developing community partnerships and participation in public meetings, and its problem-solving activities, including specific problems addressed and steps taken by NOPD and the community toward their resolution. This report also shall identify obstacles faced and recommendations for future improvement. Annually, NOPD agrees to issue a publicly available report that summarizes these problem-solving strategies and community policing activities for the entire year. [Consent Decree ¶228]**

**The purpose of this report is to assess the effectiveness of NOPD’s community partnership and problem-solving strategies in accordance with Consent Decree ¶ 228.**

## Policy Statement<sup>1</sup>

The New Orleans Police Department (NOPD) shall promote and strengthen community partnerships, work constructively with the community, ensure collaborative problem solving, ensure ethical and bias-free policing, and work to increase community confidence in the Department.

The New Orleans Police Department will effectively engage the community in collaborative problem solving. NOPD will partner with residents and stakeholders to identify and solve problems that contribute to crime, fear of crime, and quality of life problems in communities. The Department is committed to proactively solving problems as well as reacting to their harmful consequences.

The mission of the New Orleans Police Department is to provide professional police services to the public to prevent crime, maintain order and protect life and property. NOPD is committed to the philosophy and practice of community problem-oriented policing to inform organizational decisions, shape policies, identify training needs, and prioritize crime fighting by engaging each neighborhood and community organization in collaborative problem-solving partnerships. Community problem-oriented policing, and community policing and engagement are critical methods toward achieving NOPD's mission.

The New Orleans Police Department will collaborate with community stakeholders and partners on policing and engagement efforts. The Department encourages its members to develop problem solving partnerships with community residents.

NOPD recognizes that it serves many diverse communities. Communities arise not only from shared geography but also social ties, common perspectives, and shared circumstances (for example, the LGBTQ+ or Limited English Proficiency (LEP) community). NOPD shall seek to engage all communities in its community policing and engagement efforts.

NOPD's recruitment efforts shall focus on hiring officers who can build relationships and work collaboratively with all communities.

This Chapter operates in tandem with many programs and policies focused on properly serving and collaborating with a variety of communities, including but not limited to **Chapter 41.13 – Bias-Free Policing, Chapter 41.13.1 – Interactions with LGBTQ Persons, and Chapter 55.4 – Limited-English Proficiency Services.**

The Department sets forth its community policing vision in its **Community Policing and Engagement Manual**<sup>2</sup>. The Department shall review the Manual annually and update the manual as necessary.

## Definitions<sup>3</sup>

**Community Engagement**—Activities that foster positive interactions between citizens and officers, employ community policing ideals, create opportunities for constructive exchanges, and foster substantive collaboration with the community, while enhancing trust and legitimacy.

**Community Liaison Officer (CLO)**—A member of the NOPD who is responsible for facilitating communication between the community and their assigned police district. A CLO's primary function is to focus on problem orientated policing and resolution in the communities they serve, specifically to address community quality of life issues and build trusting relationships between the NOPD, District, officers and the residents and stakeholders in each police district.

**Community Policing**—A philosophy and operational strategy that promotes organizational practices that support the systematic use of partnerships and problem-solving techniques to work with the community to address the immediate conditions that give rise to public-safety issues such as crime, social disorder, and fear of crime.

**Community Policing Forms (CPF)**—The document used by the NOPD to record and track Community Policing and Engagement activities, such as events, meetings, quality of life concerns, problem-solving initiatives and actions, and updates to District Community Policing Plans. Forms are completed by the officers engaged or responsible for the resolution of the issues.

**Community Policing Plan**—A district-specific blueprint of collaborative partnerships with the community. The Community Policing Plan will address the unique needs of the communities serviced in each District. Each district's Captain is responsible for plan development.

**Community Policing Signals**—Community policing signals allow the Department to document specific tasks for proactive and community policing. The signals are Area Check, Business Check, Directed Patrol, Residence Check, Quality of Life, and Walking Beats. When dispatched on community policing signals, officers will employ procedural justice techniques.

- **Area Check**—Officers will utilize the area check signal when patrolling an area within the District that has been pre-determined as an important area either by the community or the Department.
- **Business Check**—Officers will utilize the business check signal to engage occupants at a business within the District.
- **Directed Patrol**—Officers will utilize the directed patrol signal to execute a focused collaborative problem-solving, departmental problem-solving, or community policing and engagement in the targeted area.
- **Residence Check**—Officers will utilize the residence check signal when the officers physically exit the patrol car and engage occupants at a specific residence absent a call for-service.
- **Quality of Life**—Officers will utilize the quality-of-life signal when responding to any type of quality-of-life problem.

---

<sup>3</sup> NOPD Chapter 10.0: Community Policing and Engagement

- **Walking Beat**—Officers will utilize the walking beat signal while executing a defined and assigned walking beat.

**New Orleans Neighborhood Police Anti-Crime Council (NONPACC)**—NONPACC is a partnership amongst the community, district captains, and officers to create conversations, identify problems, and devise solutions. Members of the public voice their concerns directly to the District Captain during face-to-face meetings.

**Police Community Advisory Board (PCAB)**—A board consisting of five to seven citizen volunteers from their respective police districts. PCAB members serve a two-year term and meet quarterly to address community issues. The City's Office of Neighborhood Engagement coordinates the application and selection process for PCAB volunteers. The Superintendent has final approval on the selection of members to serve on PCABs.

**Problem**—A situation that concerns, causes, or carries the potential to cause harm to citizens, not just the police. A problem generally involves a situation of substantial community concern, or repeated incidents occurring in a community with related characteristics (time, place, behavior, victim(s), offender(s)) that concern the community.

**Problem-Oriented Policing**—A proactive problem-solving approach that uses the SARA model to focus on proactive solutions, specific crime problems and achieving crime and fear reduction results. The problems should be those that the community recognizes as important.

**Procedural Justice**—Procedural justice refers to the idea of fairness in the processes that resolve disputes and allocate resources and specifically how the characteristics of police community interactions shape the public's trust of the police. Procedural justice speaks to four principles, often referred to as the four pillars:

- (a) Fairness in the processes
- (b) Transparency in actions
- (c) Opportunities for voice
- (d) Impartiality in decision making

**Scanning, Analysis, Response, Assessment (SARA) Model**—An approach wherein the community and the department work together to scan for problems, analyze information, respond through implemented strategies, and assess the effectiveness of implemented strategies.

## Community Engagement Section Overview

The Community Engagement Section is comprised of several sub-sections to meet the needs of the entire New Orleans Community. Those sections include but are not limited to, Community Liaison Officer, School Resource Officers, Police Activity League, Language Access Coordinator, NONPACC/APACC, LGBTQ Liaisons, Police Community Advisory Board, Victim/Witness Assistance Program.

The New Orleans Police Department is committed to ensuring the philosophy of Community Engagement. Community Policing is embedded in every aspect of the department's policing strategies. Through the areas of Community Engagement, the New Orleans Police Department meet directly with Community members, to listen to and address their concerns, with the assistance of community partners and other city agencies.

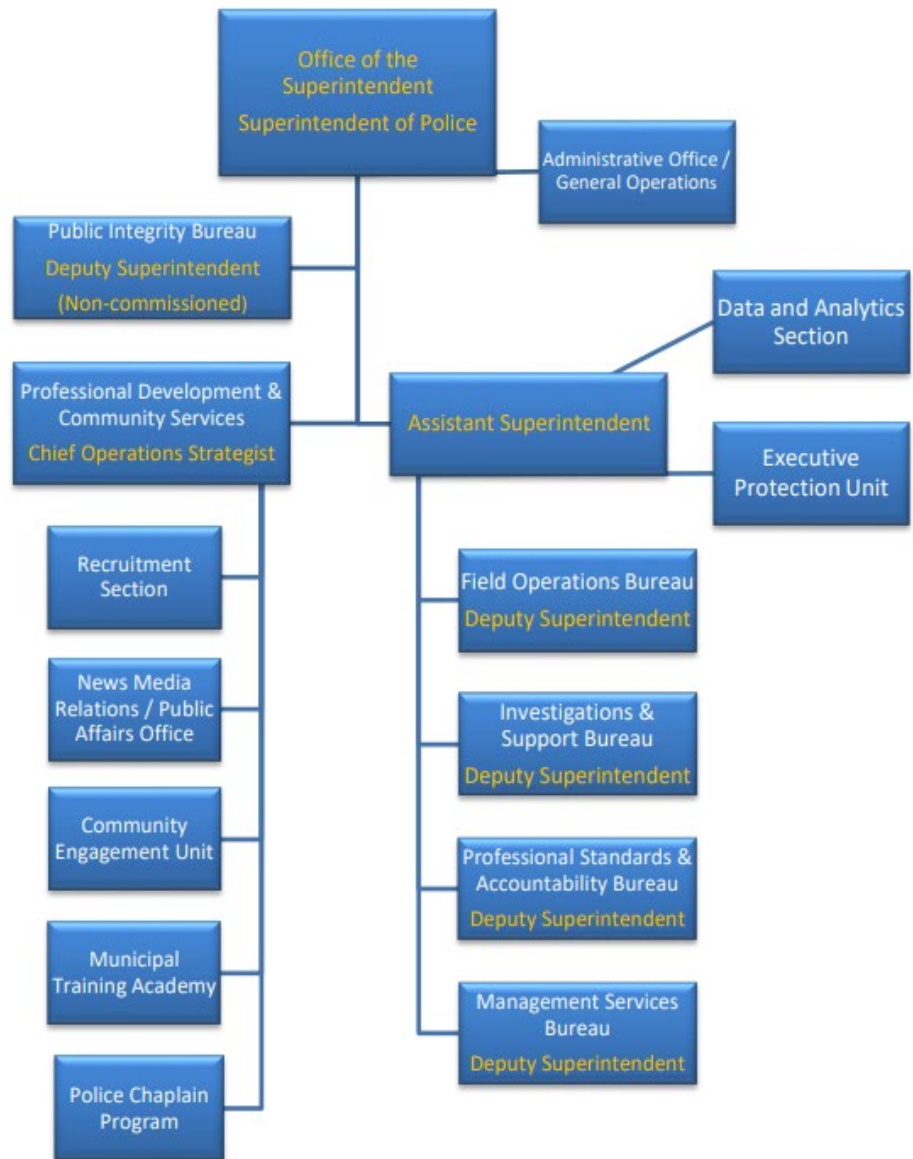

During 2024, the Professional Standards and Accountability Section (PSAB) issued here Department Training Bulletins (DTBs) to refresh employees on policies, procedures, trainings, and basic concepts of the Department's Community Engagement and Policing Philosophy and Bias Free matters. The DTBs and timeframes were as follows, April covered Chapter 10.0 Community Engagement and Policing, July covered Limited English Proficiency, including the usage of language interpretation services and translations and interactions with the LGBTQ+ Community, and October covered Bias-free Policing.

Below is the organizational chart for the New Orleans Police Department and the illustration of the Community Engagement Section hierarchy.

The below chart demonstrates the structure of the Community Engagement Section.

### Department Community Engagement and Policing Activities

In 2024, the New Orleans Police Department hosted and attended many events during the year. These events are separate from the various events hosted and/or attended by each police district and/or specialty division/unit. Events hosted by the Department are publicized and advertised via social media and news media outlets in order to reach the entire city and surrounding areas, including flyers which are translated into Spanish and Vietnamese for the LEP Community.

Below is a list of the 2024 fourth quarter Community Engagement Events and events that were not highlighted in the previous reports:

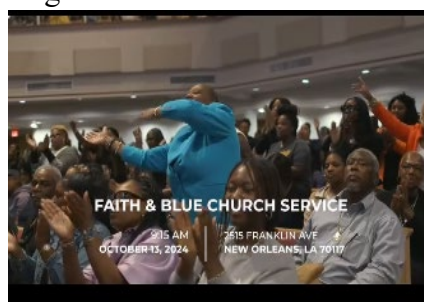

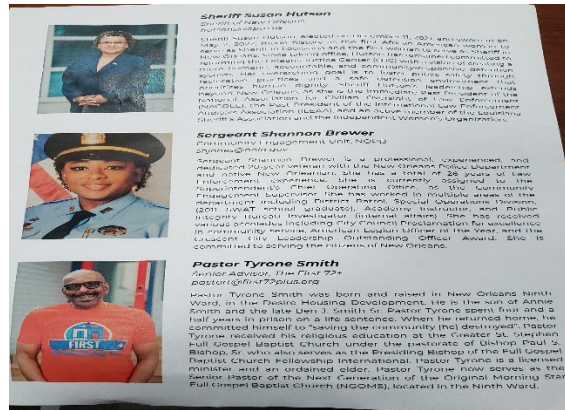

On October 2, 2024, The New Orleans Police Department participated in Coffee with Cops across the New Orleans Area.

On October 8, 2024, the New Orleans Police Department participated in National Night Out Against Crime with nearly 89 Night Out events across the New Orleans area!

On Sunday, October 13, 2024, The New Orleans Police Department participated in National Faith and Blue in collaboration with Rock of Ages Church.

On Friday, November 15, 2024, The Community Engagement Team participated in the Crime and Justice Forum for Committee for a Better New Orleans, joined by Orleans Parish Sheriff Susan Hutson and Pastor Tyrone Smith, the First 72+ re-entry program. Over 40 residents participated in discussions related to Community Engagement, Public Safety, Crime Prevention and Re-Entry programs.

On November 16, 2024, the Community Engagement Team, in collaboration with the Mayor's Office of Neighborhood Engagement, met with residents from across the New Orleans area for the Neighborhood Summit 2024. Over 1300 New Orleans residents attended this event.

On December 7, 2024, in partnership with Tulane University Violence Prevention Institute, Community Engagement Sgt. Shannon Brewer recently sat down for a discussion with Tulane's Enrichment2Empowerment program through the Violence Prevention Institute.

On December 10, 2024, Our Community Engagement Team joined members of the Special Olympics team at Chick-fil-A for a wonderful afternoon of connection and smiles! NOPD is honored to support the Special Olympics and proudly participates in the Law Enforcement Torch Run.

In October, November and December 2024, The New Orleans Police Department continued our commitment to the Officer Friendly Program.

## Police Community Advisory Board (PCAB)

PCABs allow community members an opportunity to meet and discuss problem areas that directly affect each area of their district. During the fourth quarter, the 1<sup>st</sup> District was the only district to conduct a PCAB Meeting. There were no meeting minutes or recommendations submitted during this quarter.

The office of Neighborhood Engagement opened the application process for residents to apply to fill open positions in the districts PCAB boards. A total of 98 applications were received. Each district board is currently staffed with 5-7 members.

The Department is collaborating with the Office of Neighborhood Engagement, the Federal Monitoring Team and the Department of Justice to revise the PCAB Manual to update the document based on current practices, add additional measures and procedures to assist the Boards to work effectively for the communities they serve. The updated manual illustrates and enhance the involvement of NOPD and Neighborhood Engagement as the Boards remain independent entities. The New Orleans Police Department remains committed to working and collaborating with PCAB and the Mayor's Office of Neighborhood Engagement to ensure this program is a success and the community feels they have a voice in the improvement of their communities and problem-solving.

The Community Engagement Review Procedures require the following to determine compliance with the PCAB Meeting and Recommendation requirements:

### **PCAB Meetings & Recommendations Review: Checklist<sup>4</sup>**

**PCAB Meeting Attendance**—Did the District Captain, or District Lieutenant, attend a scheduled PCAB meeting? [Y/N/NA]

**PCAB Recommendation Timeliness**—Did the District Captain accept or reject the recommendation within 20 business days? [Y/N/NA]

**NOPD Response** – Did the District Captain explain the reason for a rejection? [Y/N/NA]

**Course of Action** –Did the NOPD District Captain document the next course of action for any recommendation that is adopted?

### **2024 Q4**

## District Specific Assessment and Community Policing

The below sub-sections give a detailed overview of each district's Community Policing Signal usage, Community Policing Forms assessment and scorecard, Community Policing Plan updates, Geo-deployment data, NONPACC/APAC Meeting assessment, and the progress and/or initiation of POP Projects. The district data has been separated to illustrate the holistic overview of all Community Engagement tools and mechanisms working together to achieve district specific goals. The data collected will vary in each district as they each have different focuses, goals, tasks, and measurable achievements specific to their area and community on a continuous basis.

- Community Policing Forms Assessment and Scorecard:** Community Policing Forms (CPFs) were implemented to highlight various community policing efforts in each district. In addition to community policing signals, the department continues to support community groups by capturing outreach and problem-solving partnerships through documentation on Community Policing Forms. Documentation of community engagement activities and district plan updates are housed in an electronic internal database called SharePoint. The data collected from these form entries are also displayed for public view on the MAX dashboard at [nopdnews.com/transparency/dashboards/](https://nopdnews.com/transparency/dashboards/). The NOPD's completion of the CPFs is a major component of tracking and monitoring Community Engagement throughout the Department. Assessing these forms for its completeness and accuracy determines compliance of the documentation process set forth in the Community Engagement Review Procedure and Manual.

During the fourth quarter of 2024 (October, November, and December), NOPD employees throughout the Department completed **305** Community Policing Forms covering the following appropriate topics:

- Strengthening Relationship
- Crime Prevention
- Problem Solving (SARA)
- Crime Trends
- Residence Business Security Evaluation
- Event Coordination
- Meeting
- Community Policing Plan

Of those 305 forms created, **161** forms were selected for audit according to the Community Engagement Review Procedures<sup>5</sup> as explained below:

CPF entries are fed into and housed on a secured internal network drive accessible to all NOPD personnel (NOPD Web Applications). The PSAB Innovation Manager exports the form entries from the database into a Microsoft Excel spreadsheet<sup>6</sup> and selects a sample size from the entries based on activity type and forms completed for the targeted time frame of the audit. The CPF entries are sorted by activity type and saved in five separate Microsoft Excel spreadsheets according to the below criteria:

- i. Spreadsheet #1 contains all “Strengthening Relationship”, “Event Coordination”, “Meeting”, and “Other” entries;
- ii. Spreadsheet #2 contains all “Crime Prevention” and “Residence Business Security Evaluation” entries;
- iii. Spreadsheet #3 contains “Problem Solving (SARA)” entries;
- iv. Spreadsheet #4 Crime Trends<sup>7</sup>; and
- v. Spreadsheet#5 Community Policing Plans.

The PSAB Innovation Manager, or designee, selects a sample size from each Spreadsheet according to the eight police districts and other divisions completed by Department personnel. A randomizer is used to select four (4) form entries from each district on each spreadsheet, if a district or division has less than four (4) entries then all entries are selected. This process is only used for Spreadsheet #1- #4. All form entries are audited for Spreadsheet #5.

• **NONPACC/APAC Meetings:** The NONPACC/APAC (Algiers Police Anti-Crime Council) meeting is held monthly in each of our eight districts and is meant to provide a forum for residents to voice their concerns directly to the District Captain and other key NOPD personnel. In particular, the District Captains present key activities and information related to community events (past and upcoming), community meeting details (upcoming dates, times, and locations), crime prevention, district crime statistics, community policing strategies, quality of life matters, Community Policing Plan updates, and solicit feedback and additional information from the community. Districts NONPACC/APAC Meetings are assessed based on a checklist of three components:

- NONPACC Meeting Held- Absent exigent circumstances, the NONPACC meeting was held on its scheduled date. [Y/N/NA]

---

<sup>5</sup> The Community Engagement Review Procedure was developed in 2021, and approved by the U.S. Department of Justice, to ensure NOPD’s community engagement activities and community policing philosophy are consistent with the U.S. Constitution, other federal, state, and local laws as well as NOPD policy. This is an internal document housed with the Community Engagement Section and PSAB.

<sup>6</sup> The data that is collected to conduct this audit and produce the audit results is kept internally and is not released to the public.

<sup>7</sup> The “Crime Trends” is no longer being assessed and collected.

- Meeting Minutes – Meeting minutes contained a summary of community concerns discussed. [Y/N/NA]
- Meeting Minutes – Meeting minutes contained a summary of a discussion on the progress of the Community Policing Plans. [Y/N/NA]

With the modification of Covid-19 restrictions, Districts have been able to resume in-person community meetings, while maintaining the virtual platform as an alternative viewing option for the attendees.

### **NONPACC/APAC Meeting Dates**

**8th District** – 6:00pm at 334 Royal St. - 504-658-6080 (Every Third Tuesday)

- **POP Projects:** Problem Oriented Policing (POP) Projects are designed to address concerns that have developed outside of the priorities and goals outlined in the District Community Policing Plans. These matters of concern usually involve solving problems that have become a nuisance in a particular location that have attracted criminal activity and decreased the quality of life in a neighborhood. These projects include long-term solutions and the collaboration with other City agencies and/or private companies and organizations to fulfill and complete project tasks.

Districts are currently working on continued POP Projects and initiating projects for the beginning of 2024 as it relates to their Community Action Plans.

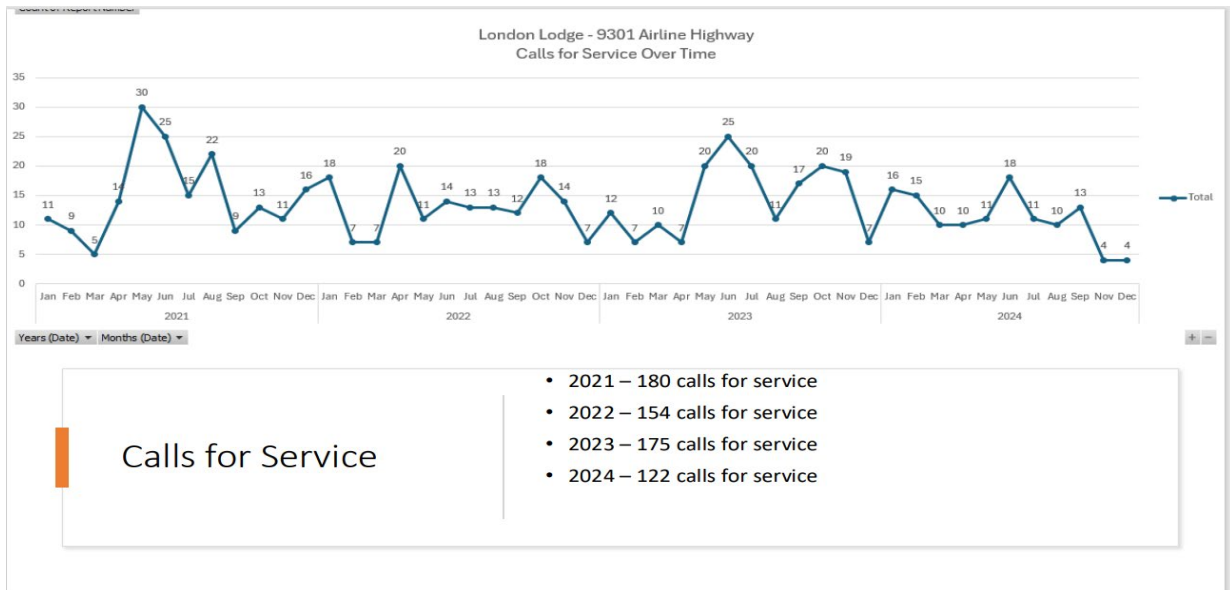

In May 2023, the 3<sup>rd</sup> District initiated a Problem Oriented Policing Project at the London Lodge Motel that resulted in the close of the business in late 2024. Below are the results of the project including partnering agencies and reduction in calls for service.

# POP Project 3rd Quarter London Lodge Motel

Date: May 17, 2023

Location: 9301 Airline Hwy, New Orleans, LA 70118

Background: This area is considered the Palm Air Neighborhood. The motel is in a residential neighborhood.

#### Summary of the Project

The City of New Orleans passed the Padlock Ordinance in February of 2023. The Padlock Ordinance defines a "Chronic nuisance property" as any property of adjoining properties under common ownership that, on three or more separate occasions within a one-year period, were used in certain crimes.

In July of 2023, Captain Contreras tasked Community Liaison Officer Marylou Agustin to utilize the Padlock Ordinance for the London Lodge, located at 9301 Airline Highway due to the high volume of calls for service and violent crime at the location. The information gathered revealed the London Lodge qualified for the Padlock Ordinance. Sixteen separate instances were selected to show a pattern in the twelve-month period to go along with over 200 calls for service in a one-year period of the London Lodge being a chronic nuisance property.

Throughout the year, City agencies conducted their inspections and documented the violations on their end.

On September 1, 2024, The State Fire Marshall conducted an inspection and shut down the London Lodge immediately. The long-term tenants were aided by the Department of Health and provided alternative housing within the city.

In December 2024, the London Lodge was demolished by the property owner.

#### Agencies Involved

#### Data related to the project

1. The Padlock Ordinance (M.C.S., Ord. No 29323)
2. Orleans Parish Communications - requested calls for service and item numbers directly connected to 9301 Airline Highway
3. Comments on calls for service regarding violent crimes
4. Code enforcement violations collected from inspections of the property
5. State Fire Marshall identified violations
6. NOPD inspection which listed all the violations
7. Department of Health counting the number of tenants needing assistance

#### Before and after numbers / calls for service decrease in this area

Month of Jan 2025 calls for service - 3  
Month of Jan 2024 calls for service - 27

=88% decrease in crime - since the London Lodge was shut down

2024 calls for service - 277  
2023 calls for service - 335  
2022 calls for service - 308  
2021 calls for service - 378

## 2024 4<sup>th</sup> Quarter Scorecard Review

The assessment of the Community Policing Form (CPF) Scorecard is a review of the accurate and complete documentation of community events, event coordination, meetings, business/resident security checks, problem solving initiatives (using the SARA Model), crime prevention, and strategies towards the completion of District Community Policing Plans. The Community Engagement Section manager and PSAB Innovation Manager have noticed a variety of

fluctuations in forms submitted throughout the eight districts. During the monthly CLO meetings, discussions are held to determine if there are any areas and/or external needs preventing the completion of forms or any guidance that can be given to maintain a steady submission of forms completed by district personnel. It is important districts complete the CPFs to ensure the Department receives and maintains an accurate recordation of community work done by its employees.

The summary scorecards for the fourth quarter assessment are below. An explanation of the individual districts' actions is documented in the individual district sections.

## Procedural Justice Scorecard

Procedural Justice refers to the idea of fairness in the processes that resolve disputes and allocate resources and specifically how the characteristics of police-community interactions shape the public's trust of the police. Procedural Justice speaks to four principles, often referred to as the four pillars:

1. Fairness in the processes
2. Transparency in actions
3. Opportunities for voice
4. Impartiality in decision making.

To measure Procedural Justice, the NOPD scores officer interactions during traffic stops based on protocols established in Chapter 41.13 Bias Free Policing. When conducting consensual contacts, investigative detentions, traffic stops, arrests, and searches and seizures of property, officers must:

1. Be professional and polite,
2. Provide a self-introduction,
3. Explain the reason for the contact,
4. Ensure the length of detention is reasonable,
5. Answer any reasonable questions that the citizen may have, and
6. If the reasonable suspicion for the stop is dispelled or the stop was made in error, explain why the error was made and apologize for any inconvenience.

The Procedural Justice Scorecard below highlights officer compliance in June 2023 – May 2024. The summary and score for the Procedural Justice category can be found on [NOPD - Consent Decree - City of New Orleans \(nola.gov\)](#) for incidents reported in June 1, 2023 – May 31, 2024. The results of this audit will be published upon its completion.

### 2024 Geographic Deployment

Geographic Deployment (geo-deployment) is a fundamental component of the Department's community policing strategy and helps facilitate more contact between the police and the community stakeholders within a particular area. Officers are assigned to the same Car Sector (patrol in their vehicle) or a walking beat to get familiar with the citizens and business while building relationships in their assigned area. Districts 1-7 have each been divided into 4 (four) Car Sectors: Sectors 1, 2, 3 and 4. The 8<sup>th</sup> District, which encompasses a smaller geographical footprint, has been divided into 3 (three) Car Sectors and walking beats (Bourbon Promenade): Sectors 1, 2 and 3.

In the event an officer(s) must leave their assigned sectors and handle an incident outside of that sector, their supervisor is required to complete a "Deviation Form" to account for their absence in the sector. In 2022, the Deviation Form was transferred from a manual paper form for completion to an electronic form that is stored on the Department's internal database for efficient record keeping and submission.

The chart below illustrates the number of Deviation Forms submitted by each district during the fourth quarter and reflects the reason for deviation that is documented on each form that is captured

by the electronic management dashboard. Districts that are not listed did not submit any Deviation Forms during this quarter.

The chart below illustrates which sectors were affected by the officer deviations.

#### Deviation Reasons by District

District	Staffing	Backlog	Major Scene	Insufficient - DCAT, AI, Report Car	Insufficient - Not covering all zones	Insufficient - Sector Shared	Other
1st	4	0	0	0	1	0	0
4th	13	0	0	1	0	0	0
5th	2	0	0	0	0	0	0
<b>Total</b>	<b>19</b>	<b>0</b>	<b>0</b>	<b>1</b>	<b>1</b>	<b>0</b>	<b>0</b>

#### Sectors with Insufficient Coverage by District

District	Sector 1	Sector 2	Sector 3	Sector 4
1st	0	1	0	4
4th	3	7	2	5
5th	0	0	1	1
<b>Total</b>	<b>3</b>	<b>8</b>	<b>3</b>	<b>10</b>

The charts below demonstrate the amount of time officers worked within and out of their sectors for the year of 2024 and the fourth quarter of 2024.

#### 2024 Fourth Quarter (October, November, December) Geo-deployment Summary

District	Time Out of Sector (Hrs)	Time Working (Hrs)	% of Time In Sector
1	4716	10819	56%
2	3912	9512	59%
3	4820	10536	54%
4	3741	8431	56%
5	5444	11192	51%
6	4779	10423	54%
7	4315	9149	53%
8	3266	9361	65%

## **2024 Geo-deployment Total Summary**

<b>District</b>	<b>Time Out of Sector (Hrs)</b>	<b>Time Working (Hrs)</b>	<b>% of Time In Sector</b>
1	16636	38532	57%
2	14737	36658	60%
3	16945	37061	54%
4	13710	34108	60%
5	22966	46808	51%
6	17941	40122	55%
7	15455	33363	54%
8	13285	38811	66%
Total	131675	305462	57%

The charts show that district personnel are managing their manpower and staffing to accommodate sector coverage in each district. The electronic deviation forms allow for district platoon supervisors to select more than one reason for area coverage and give them a vision of how the district area will be covered and managed for answering calls for service. This tool is beneficial for the Department as the days and weeks go on to determine the management of staffing, calls, and incidents covered as well as handling the backlog of calls at the end of each shift while keeping in mind the community relationship of continuously assigning the same officers to the same sectors.

### **Community Policing Signal Usage**

NOPD uses Community Policing signals to capture proactive self-initiated problem-solving activities, as well as quality of life activities, in an efficient, geo-coded, time-stamped manner. The purpose of the community policing signals is to differentiate the officer's work tasks, and quantify the areas of concern through GPS technology, to ensure that some of the time spent on proactive patrols is spent scanning for problems, analyzing potential problems, and responding to problems in the community. The Orleans Parish Communications District use signal codes to communicate with officers, the signal codes are listed below for the community policing efforts. NOPD can track its community policing activities and analyze the impacts of those efforts. The community policing signals include:

**Area Check (22A)** — Officers will utilize the area check signal when patrolling an area within the District that has been pre-determined as an important area either by the community or the Department. An important area is a location where there is an issue that requires increased patrol. An important area can be determined by an increase in calls for service for a type of police matter, or crime trend, or increase citizen complaint regarding crime or disorder in an area. This signal is used when patrolling a general area without a

specific problem-solving strategy attached. Officers are scanning the area when utilizing this signal.

**Business Check (22B)** — Officers will utilize the business check signal to engage occupants at a business within the District.

**Directed Patrol (22D)** — Officers will utilize the directed patrol signal to execute focused collaborative problem-solving, departmental problem-solving, or community policing and engagement in the targeted area. For example, a 22D would be used to conduct any police activity linked to a problem-oriented policing project documented in the District's Community Policing Plans, among other reasons.

**Residence Check (22R)** — Officers will utilize the residence check signal when the officers physically exit the patrol car and engage occupants at a specific residence absent a call-for-service.

**Quality of Life (21Q)** — Officers will utilize the quality-of-life signal when responding to any type of quality-of-life problem. Quality of life concerns include, but are not limited to, citizen concerns regarding abandoned vehicles, blighted property, illegal tire dumping, and noise complaints. Quality of Life (QOL) matters include all issues where citizens request assistance from NOPD, excluding criminal complaints or threats to public safety.

**Walking Beat (22W)** — Officers will utilize the walking beat signal while executing a defined and assigned walking beat.

NOPD uses community policing signals to document both its response to district Community Policing Plans and its broader community policing activities. By conducting activities based on the Community Policing Signals, officers are building relationships and partnerships with citizens, business owners, and stakeholders in their perspective districts. In 2024, NOPD initiated **40,578** community policing signals. In the fourth quarter of 2024, NOPD initiated **13,550** community policing signals. See the detailed chart below of the Community Policing Signals used.

## Community Engagement Specialized Units

### Limited English Proficiency Services (LEP)

In 2024, NOPD received **645** LEP calls for service according to the Computer Aided Dispatch (CAD) data through Orleans Parish Communications District (OPCD). Through the VOIANCE services and NOPDAIs, NOPD was able to assist those in need for the following languages, Arabic, American Sign Language, Chinese, Farsi, French, French Creole, Haitian Creole, Hindi, Japanese, Mandarin, Portuguese, Russian, Spanish, Thai, Turkish, Vietnamese and Wolof. The NOPD ended 2024 with 37 NOPDAIs; 35 Spanish speaking interpreters and 2 Vietnamese speaking interpreters. As personnel staffing changes and more employees are recruited to become authorized interpreters for the Department the number of NOPDAIs also fluctuates with these changes. NOPD has expanded its ability to provide swift interpretations by providing all NOPDAIs with a Department Cell Phone.

As the Department continues its contract with VOIANCE, a third-party company, to complete document translations for the LEP community, the Department has increased its number of translated documents and forms to 51 that have been translated into Spanish and Vietnamese for individuals needing these resources.

Below illustrates the number of LEP calls based on the CAD report for the fourth quarter. Of the fourth quarter's data involving LEP calls, **134** resulted in positive dispositions where some action or report was taken, **35** involved calls where subjects were gone when officers arrived, and **5** were duplicates or voided in the CAD system.

A complete assessment of the LEP Services and incidents can be found in the 2024 Limited English Proficiency Services Annual Report on [NOPD - Consent Decree - City of New Orleans \(nola.gov\)](https://www.nola.gov/nopd-consent-decree).

### New Orleans Police Department Activity/Athletic League

Formally known as the Police Athletic League, the New Orleans Police Department developed the New Orleans Police Department Activity and Athletic League.

This section was not funded in 2024. The Community Engagement Section will continue to make every effort to rebuild the youth athletic programs to assist in the department's violence reduction efforts.

## LGBTQ+ Liaison Unit

The LGBTQ+ Liaison Unit have continued to build and maintain relationships in the LGBTQ+ Community as well as with government and private agencies. The Unit is continuing to maintain diverse initiatives in the community and make the NOPD's presence an on-going effort at most events they are able to attend. And most importantly being an advocate and voice for those in the community of victims of crimes or police misconduct. The Unit ensures all aspect of the investigations are handled with dignity and proper protocols. Strategies and policies are also put in place to ensure that investigators in all matters are upheld to the NOPD standard and investigated without bias.

The LGBTQ Liaisons will continue foster more in-person meetings with residents and community groups to foster relationships throughout the New Orleans community.

## School Resource Officer Reports/Activities

A School Resource Officer (SRO) is a designated officer within a District who provides specific support to schools. The SRO helps school officials cope with school violence and assists in creating a safe and conducive learning environment in public schools. The SRO is not a school disciplinarian. The SRO is a law enforcement officer, educator, and counselor. The SRO position also aids the Department to build trusting relationships with youth and humanize officers beyond the uniform.

During the fourth quarter months (October, November, and December) SROs activities are surrounding the holidays in these fall and winter months. As students and school personnel are getting settled into the school year, adding fun and exciting activities allows the students to be able to establish and form meaningful and trusting relationships with the officers. Planning these events allow the officers to collaborate with the students in a non-lawful manner and possibly establish mentorship opportunities.

School Resource Officers are responsible for completing SRO Activity Forms which are reviewed by the Community Engagement Section Manager and PSAB Innovation Manager. SROs can also document activities in a Community Policing Form if their activity does not correspond with the SRO documentation categories. According to NOPD Policy Chapter 1.20: School Incidents, School Resource Officers<sup>8</sup>, SROs are required to document the following activities:

- a. Provide counselling to a student.
- b. Conduct youth engagement activity session(s);
- c. Participate in school activities that build trust and relationships with the school staff and students;
- d. Refer students to the school's counsellor.
- e. Participate in parent-teacher conferences.
- f. Conduct student transports (to school if truant, Juvenile Intake Unit or Truancy Center); g. Collaborate with school staff, students, parents, etc. to solve a problem.
- h. Conduct an arrest.

---

<sup>8</sup> [Chapter 1.20: School Incidents, School Resource Officers](#)

- i. Distribute any departmentally approved materials to the school or students.
- j. Complete a Juvenile Warning Notice consistent with **Chapter 44.3 – Juvenile Warning Notice.**<sup>9</sup>

The below chart illustrates the SRO Activity Reports submitted in the fourth quarter.

### Victim Witness Assistance Services

The Victim-Witness Assistance Unit provides immediate and ongoing support to families and victims of homicides and other serious crimes. The VWAU is comprised of Social Service Advocates. The VWAU is also tasked with providing assistance to families and victims of homicide and other violent crimes obtain U-VISAs. <sup>10</sup>The U-visa is a nonimmigrant visa that is reserved for victims of crime who assist law enforcement. It is meant to protect, and arguably reward, non-citizens who have suffered significant mental or physical abuse from a qualifying criminal activity and who are helpful with law enforcement or government officials in the investigation or prosecution of criminal activity. U-visa holders have legal status in the United States, receive employment authorization (work permit), and even a possible path to a green card and U.S. citizenship.

Each of the eight police districts are assigned Social Service Advocates. The Social Service Advocates are in NOPD's Headquarters but assigned to handle victims within their respective districts.

See below for a detailed breakdown of services provided by the Unit and individuals serviced in 2024.

## Obstacles and Recommendations

### Obstacles

During a review of the NONPACC/APACC meeting minutes, many of the districts did not document a summary of the progress presented to the community on their Community Policing Plans. Although the district may provide this information in statistical data, a summary is required for community members in attendance. Some of the officers did not document any forms related to the Crime Prevention-Residence Business Security Evaluation. Although the officers may have provided this information verbally during community walks, meetings or while on a call for service, the information was not documented on the CPF's which can be tracked for progress.

### Recommendations

The District Captains will work to provide updates to the community in a summary on the progress on their Community Action Plan priorities. The Community Action Plan priorities were developed with the input from the community, in collaboration with the district Captain, and Community Liaison Officer. The district Community Liaison Officers will ensure the information is included in each meeting. The Community Engagement Section manager has developed the Officer/Supervisor in-service 2025, to include a table-top exercise for each participant to complete a community policing form. Based on the scenario provided, the officers/supervisors have an opportunity to draft a narrative for the forms, as well as understanding the process for approval by the supervisor.

### Conclusion

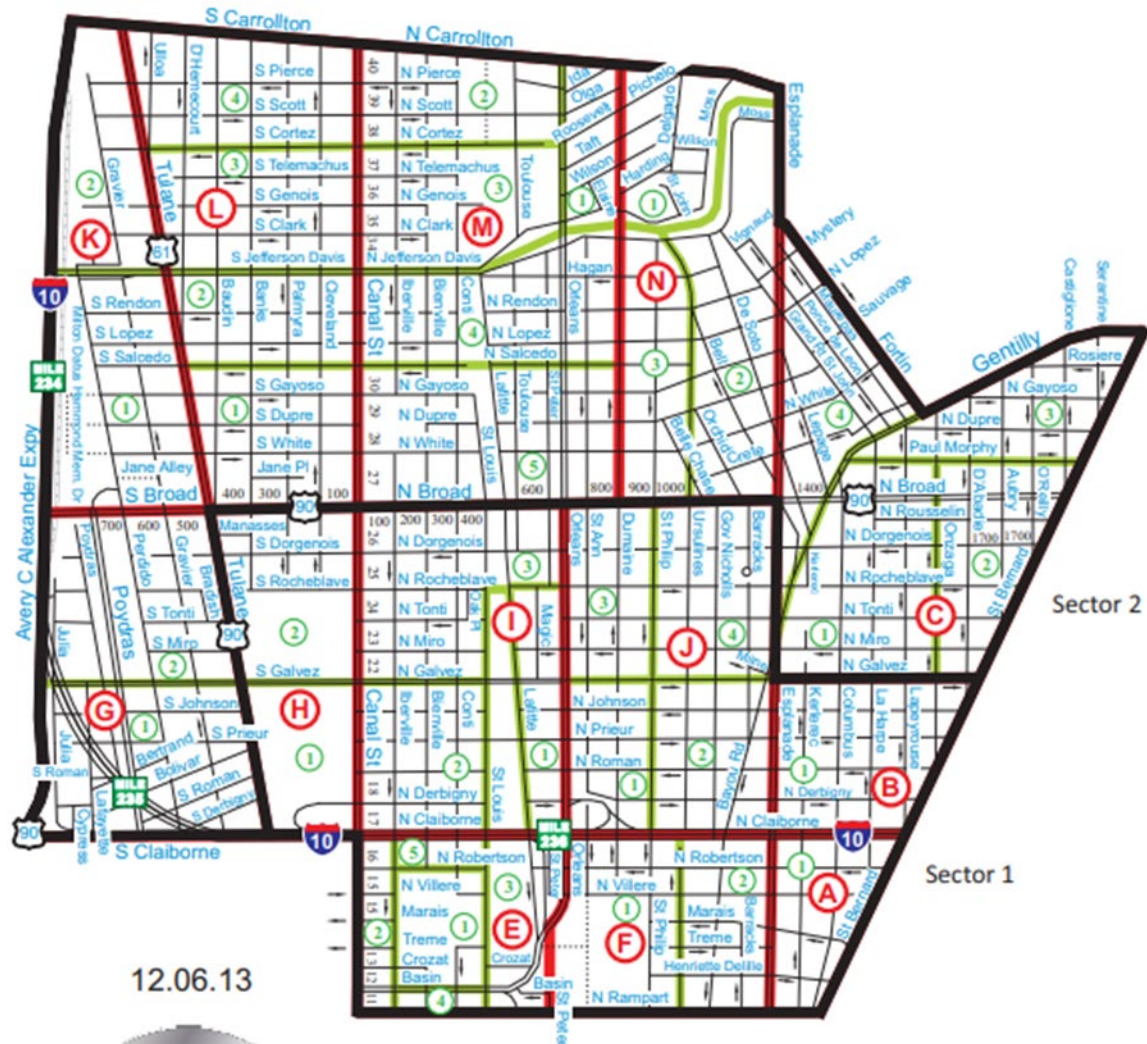

In 2024, the New Orleans Police Department addressed specific concerns initiating 1,098 Community Policing Forms across all districts, including 197 district specific problem-solving activities. Through community meetings, NONPACC/APACC meetings, community walks, community engagement activities, 311, Crimestoppers etc., the NOPD, in collaboration with the community addressed crime concerns and quality of life issues.

The New Orleans Police Department has remained a leader in Community Engagement with several features in the National Law Enforcement Community Engagement Network monthly newsletter providing information on the success of our community programs such Officer Friendly. The Officer Friendly program has helped to build strong relationships with youth throughout the New Orleans community.

NOPD will continue to identify our weaknesses and develop plans to address them, build on our successes and continue the progress of Community Engagement and our Policing philosophy while remaining a model to other Police Departments in the area of Community Engagement and Policing.
