SERVICE CUT PERMIT APPLICATION

PERMIT PROCESS GUIDE

Step 1: FIELD DISCOVERY

Applicant explores area to be cut to determine if other facilities (for example, trees, cable, drainage) are in area.

Step 2: AGENCY DISCOVERY AND REVIEW:

Contact the following agencies as applicable:

- Department of Public Engineering Division - City Hall, 6th floor
- Traffic control & Street Light service - City Hall, 6th floor
- Department of Parks and Parkways - 2829 Gentilly Blvd.
- Vieux Carre Commission - City Hall, 7th floor
- Sewerage and Water Board, Network Engineering - 8800 S. Claiborne Ave.
- Sewerage and Water Board, Electrical Engineering - 8800 S. Claiborne Ave.
- Louisiana One Call: 1-800-272-3020 or 811 for the following utility companies:

Entergy Gas, Entergy Electric, LP&L Electric (Algiers), AT&T, Cox Communications, etc.

Step 3: SCALE DRAWINGS

Applicant prepares scale drawings including all facilities present in the proposed area to be cut. The Department of Public Works will need an electronic copy.

Step 4: PREPARATION OF APPLICATION

The applicant prepares application for service cuts and attaches scale drawings, Pre-Permit Discovery and Review and Covenant for Plan Review.

The applicant submits the application to the following agencies for review/approval:

- Sewerage and Water Board- (Sewer, Water, Drainage, Electric) 8800 S. Claiborne Avenue
- Parks and Parkways Department and/or Vieux Carre Commission (if they have jurisdiction in area to be cut)

THE APPLICANT MUST SUBMIT A COPY OF THE FRANCHISE AGREEMENT IF THE FIBER OPTIC CABLE IS BEING INSTALLED

Step 5: APPLYING FOR PERMIT

The permit is applied for with the ONE STOP SHOP. The required documents (as minimum) are:

- Application - Page 2 of this application
- Pre-Permit Discovery & Review Memo - Page 3 of this application
- Covenant for Plan Review - Page 4 of this application
- 2 Sets Scale drawings, 1 Electronic Copy

Step 6: PAYING APPLICATION FEES AND MAKING DEPOSIT

Upon approval by the Department of Public Works, ONE STOP SHOP will notify the applicant the fee, deposit amount required and the earliest date to receive the approved permit.

Step 7: POST APPROVAL

The applicant is responsible to forward a copy of the approved permit and scale drawing to applicable utilities/agencies.

SPECIAL PROVISIONS

PERMIT GOOD FOR 90 DAYS EXTENDED PERMIT

If project does not commence within the 90 days authorized permit period, applicant, upon completion of discovery, can request an extension to the existing permit of 90 additional days to allow completion of project. **Under special provisions**, an agency (applicant) can be granted an extension by the Department of Public Works of an additional 90 days without having to start the permit process over again. (See Service Cut Project Timeline Letter)

MULTI-PERMITS/SINGLE APPLICATION

Under special provisions, an agency can be granted several permits under a single application request. For Example, an agency plans work on Canal Street from the 900 block through the 2600 block. Continuous work will be done from the 900 through 1800 blocks. No work will be done in the 1900 block. Additional work will be done in the 2000-2300 blocks with no work being done in the 2400 block. Work will continue in the 2500 and 2600 block. Under the multi-permit/single application provision, the agency applying for the permit can submit, under the single application request, individual permits for the following work areas: (See Project Information Section, Page 2)

- 900 - 1800 blocks of Canal - one permit
- 2000 - 2300 blocks of Canal - one permit
- 2500 - 2600 blocks of Canal - one permit

Under the multi-permit/single application provision, the applicant must submit a Service Cut Project Timeline Letter for each location granted a permit.

Under remarks section of the Service Cut Project Timeline Letter, the applicant should note any exceptions, changes and/or starting dates of additional area granted permits issued under the multi-permits/single application provision.

ADDITIONAL INFORMATION

- Applications and permits are for one street.
- The permit holder accepts full responsibility for any such damage that may be caused by his operations (Sect. 146-455 -City Code)
- All material must meet the standards and specification of the Department of Public Works (Section 146-455.1 -City Code)
- Completed applications except by blanket permittees must be accompanied by a check or checks covering deposit (Sections 146-438 -City Code), and all applicable fees due (Sections 146-193, 146-194, 146-440 -City Code).

SERVICE CUT PERMIT APPLICATION

PRE-PERMIT DISCOVERY AND REVIEW

In conjunction with our application for permit, _____ made a visit to the proposed cut site, _____ on _____ (date) to determine if the following utilities/agencies have facilities in the area:

	Did Have Facilities	Did NOT Have Facilities	Date Drawing Reviewed
Sewerage and Water Board (Drainage/Water/Sewer)			
Sewerage and Water Board (Electric)			
DPW Traffic Control Services			
DPW Street Light			
Department of Parks & Parkways			
Vieux Carre Commission			
Entergy Gas			
Entergy ELECTRIC or LP&L			
Cox Communications			
AT&T			

Based upon our findings, the appropriate utilities/agencies were visited and their drawings were reviewed on the above specified dates. Upon acquisition of a permit, copies of the permit and approved drawings will be forwarded to the appropriated utilities/agencies involved.

SERVICE CUT PERMIT APPLICATION

ACKNOWLEDGMENTS

CONVENANT FOR PLAN REVIEW

_____ (number of plan submissions) plans for the Project Number _____ indicated herein are submitted in accordance with Chapter 146 of the Code of the City of New Orleans and all other pertinent laws, ordinances, or statutes.

Plans are submitted for a permit to cut into the public right-of-way in the City of New Orleans. Submission of plans constitutes part of an application to cut into the public right-of-way only at locations noted. The undersigned entities' review of approval is only for the purposes of cutting into the public right-of-way, and is not a review or approval of the engineering design, details, or of the engineering project as a whole. It is the responsibility of the one submitting the plans and of those performing the actual work to implement the plans to determine that they will be carried out in a safe and reliable manner, and that no interference with another's facility will take place.

Plans are submitted with the agreement that they applicant holds harmless and indemnifies the reviewing and approving entities hereon, their officers, agents, and employees, from any and all actions, suits, claims, demands, or judgments of whatever nature arising out of or in connection with the application and work to cut into the public right-of-way of the City of New Orleans.

Furthermore _____ (name), in adherence to the Covenant for Plan Review agree that no sign or signal shall be removed without the Traffic Engineer's approval. The contractor accepts all liabilities during the time of removal. Contractor shall notify the Traffic Engineer in writing when controls are removed or reinstalled.

All traffic control devices and their associated hardware removed or damaged shall be replaced by the contractor/utility at no cost to the City.

All signs, signals, and markings removed will be restored and in place before the final inspection.

The attached _____ drawings are associated with Project Number _____ and are subject to the conditions of this covenant.
