

## PROJECT SUMMARY: Bienville Avenue

The City of New Orleans is moving forward on safety and complete streets improvements along Bienville Avenue between North Norman C Francis Parkway and North Carrollton Avenue. Funding for this project is available from a Louisiana Department of Transportation (DOTD) Safe Routes to School grant.

The Bienville Avenue project is approximately 0.5 miles long and is a lakebound-riverbound street in Mid-City. The land use along the majority of Bienville Avenue is primarily residential.

### Bienville Traffic Safety Snapshot (2014 – 2018)

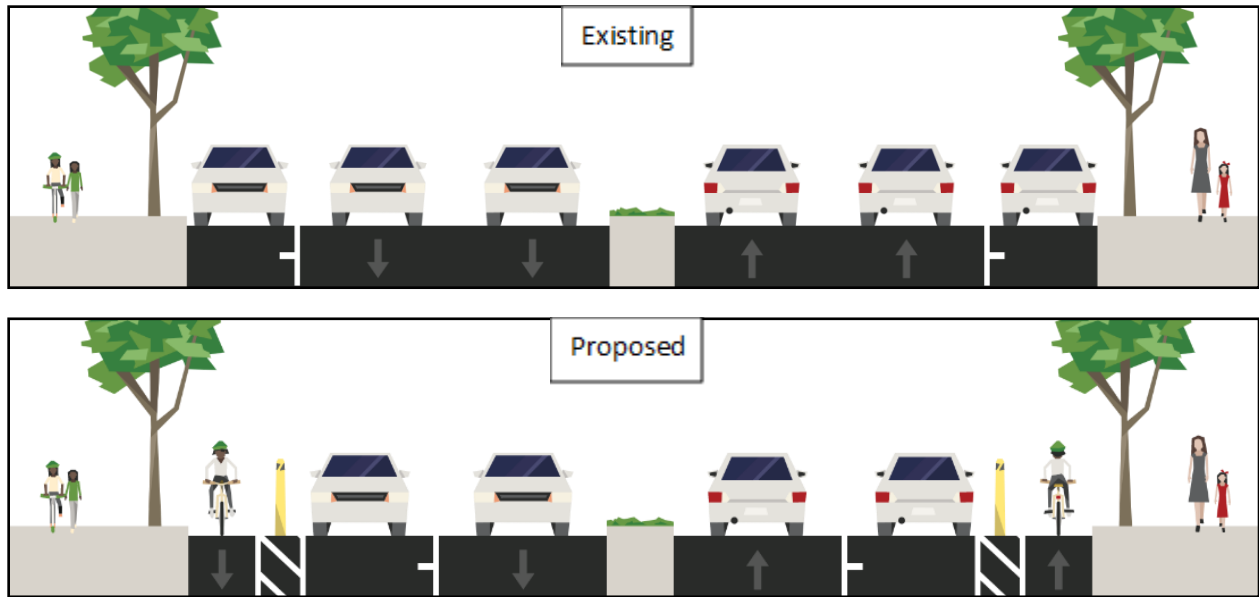

A total of 150 crashes were recorded on Bienville Avenue over the five-year period (2014-2018), resulting in the injury of 62 people. Most crashes occurred at N. Carrollton Avenue (72) followed by N. Norman C Francis Parkway (26) and N. Pierce Street (15). There were four crashes involving pedestrians and two crashes involving bicyclists.

### Proposed Improvements

This project seeks to balance the needs of all roadway users, consistent with the City's Complete Streets Policy. Improvements include, adding protected bike lanes, installing marked crosswalks, improving intersection geometry and sight distances at driveways. Between N. Norman C Francis Parkway and N. Carrollton Avenue, the roadway will be reconfigured as a protected bike lane, parking lane, and general travel lane on each side of the neutral ground. The proposed improvements are designed to address pavement quality issues, improve overall safety, connect to existing bikeways, and make Bienville Avenue a more comfortable place to walk, bike, drive and use transit.

Bienville Avenue (N. Norman C Francis Parkway to N. Carrollton Avenue)

## Public Outreach

- April 2019 - Eight meetings were held to gather public input for a citywide bicycle network in each of the five City Council Districts (340 attendees).
- July – August 2019 – Three meetings were organized to present a draft of the network plan.
- November 2020 – 7<sup>th</sup> Ward Area community meeting to discuss upcoming proposed roadway projects including bikeway implementation.

In addition to public meetings, input was received online between April and June 2019 through an online interactive bike network planning map. A total of 2,288 people commented and made recommendations.

## What is Moving New Orleans?

As an initiative of Mayor LaToya Cantrell, **Moving New Orleans** is a multi-modal strategy that is focused on improving the safety, equity, efficiency and connectivity of the City’s transportation network. **Moving New Orleans Bikes (MNOB)** is the first of several focused strategies to be implemented under this framework. MNOB is a joint initiative of the Mayor’s Office of Transportation and Department of Public Works that is designed to accelerate the construction of a 75-mile connected low-stress bikeway network.
