

Algiers Bikeway Network Pre-construction Teleconference

City of New Orleans

April 16, 2020

Agenda

- Welcome from Neighborhood Engagement – Allison Cormier
- Welcome from Mayor's Office of Transportation – Dan Jatres
 - What is Moving New Orleans?
 - Construction During COVID-19
 - Safety Guidelines for Contractors During COVID-19
- Overview of Algiers Bikeway Network – Jennifer Ruley, Department of Public Works
 - Completed Work
 - Upcoming Work
- Question and Answer Session – Allison Cormier

What Is Moving New Orleans?

As an initiative of Mayor LaToya Cantrell, Moving New Orleans is a multi-modal strategy that is focused on improving the safety, equity, efficiency and connectivity of the City's transportation network.

Moving New Orleans Bikes (MNOB) is the first of several focused strategies to be implemented under this framework.

MNOB is a joint initiative of the Mayor's Office of Transportation and Department of Public Works that is designed to accelerate the construction of a 75-mile connected low-stress bikeway network.

Moving New Orleans Bikes

- **April 2019** – Eight community meetings in all City Council Districts
- **August 2019** – Three citywide community meetings
- **August 2019** – Two conceptual design meetings on Algiers Corridors (Holy Cross College and Arthur Monday Center)

Moving New Orleans Bikes

Bicycle Boulevards

Low-speed, low-traffic volume streets designed to prioritize local traffic and bicycle travel

Protected Bike Lanes

Moderate- to high-speed and traffic volume streets with physically separated bike lanes

Pedestrian Safety Improvements

High-visibility crosswalks and sidewalks that complement bike facilities

Construction During COVID-19

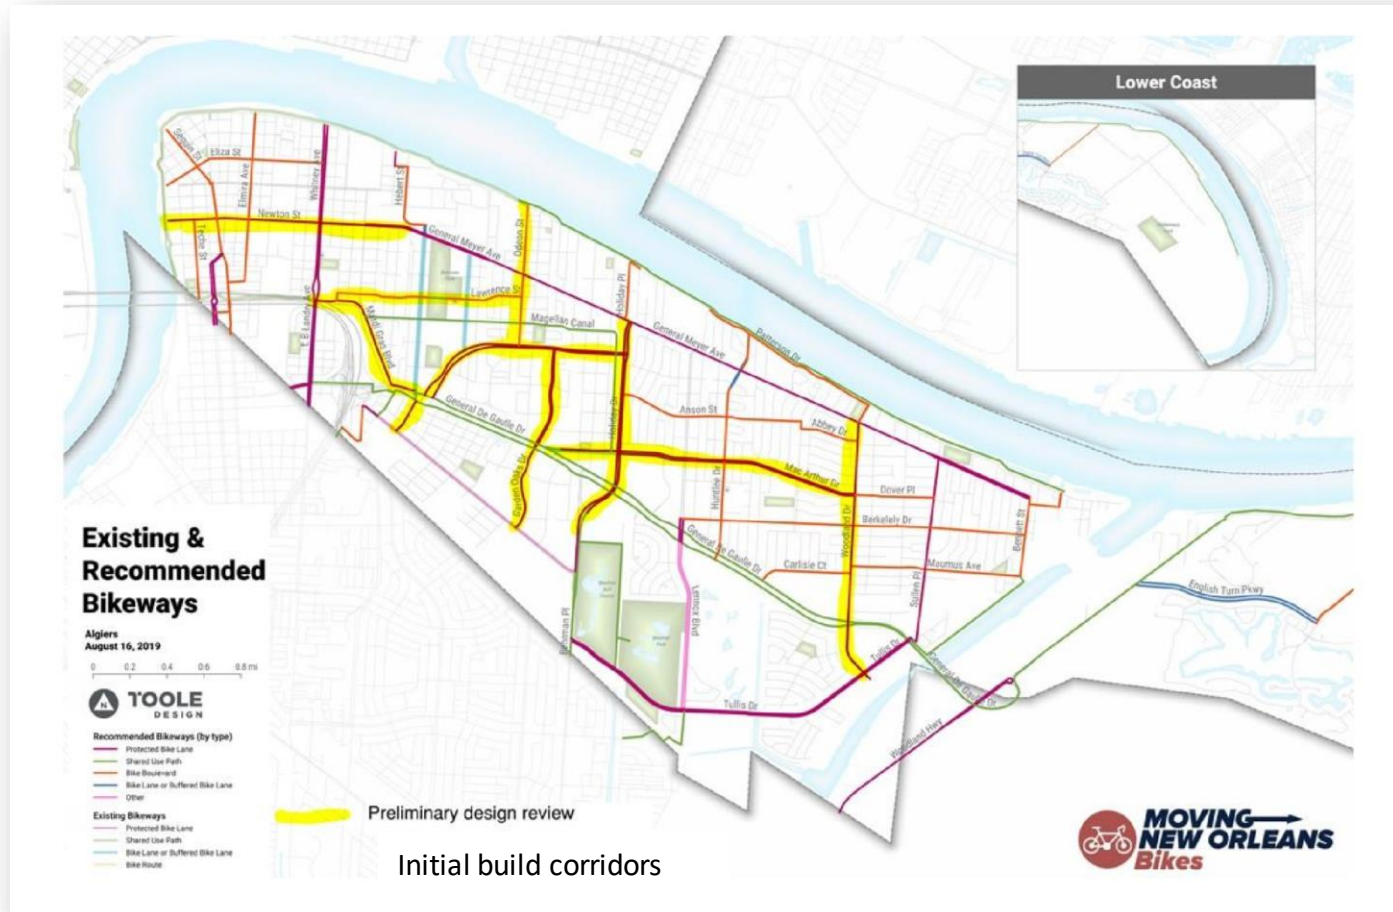

- The construction industry has been deemed to be “essential” under both the City and State “Stay at Home” orders.
- Businesses and projects related to construction, infrastructure, and maintenance may continue to operate, and employees may continue to commute to and from work.
- This includes all construction sites (both large and small) — industrial, commercial, and residential.

Safety Guidelines for Contractors During COVID-19

- Single point of entry into the job site and check-in/check-out of all workers.
- Temperature scan upon entry; anyone exhibiting signs of illness not allowed on site.
- Thorough daily cleaning of work areas. Wipe down of surfaces and frequently touched items.
- Handwashing stations provided with mandated proper handwashing at intervals throughout the day.
- No interactions with more than 10 people and maintaining at least 6 feet space between workers.
- Educational literature posted in multiple languages, along with daily training on appropriate conduct.
- Immediate reporting of any cases of known COVID-19.
- All progress meetings will continue as virtual meetings.

Algiers – 11 Miles of Bikeways, 11 Corridors

Algiers – 11 Miles of Bikeways, 11 Corridors

- Florence Drive (Old Behrman Highway to General de Gaulle Drive)
