

PROJECT SUMMARY: North Galvez Street

The City of New Orleans is moving forward on safety and complete streets improvements along North Galvez Street between Orleans Avenue and Franklin Avenue. Funding for this project is available from the 2016 bond program as part of the Moving New Orleans initiative.

The North Galvez project is approximately 2.1 miles long and is an upriver-downriver street in the 7th Ward. The land use along the majority of North Galvez is residential. North Galvez Street is also a route for the No. 84 Galvez bus.

North Galvez Traffic Safety Snapshot (2014 – 2018)

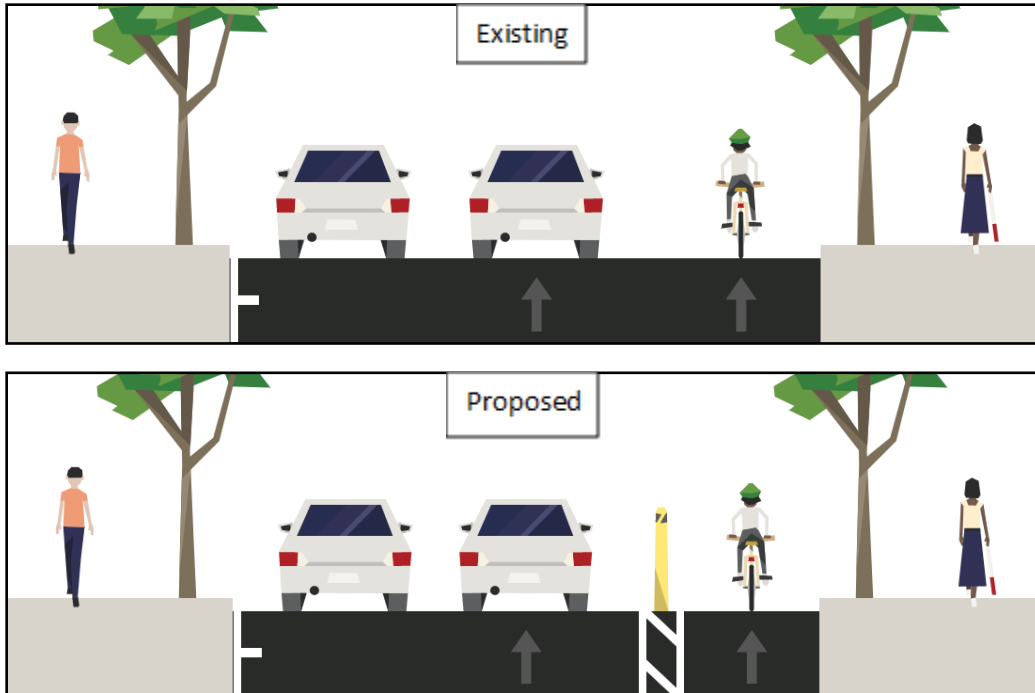

A total of 461 crashes were recorded on North Galvez Street over the five-year period (2014-2018), resulting in the injury of 394 people. Most crashes occurred at Elysian Fields Avenue (82) followed by Orleans Avenue (49) and St. Bernard Avenue (44). There were 11 crashes involving pedestrians and 11 crashes involving bicyclists.

Proposed Improvements

This project seeks to balance the needs of all roadway users, consistent with the City's Complete Streets Policy. Improvements include adding protected bike lanes, installing marked crosswalks, improving intersection geometry and sight distances at driveways. Between Orleans Avenue and Franklin Avenue, the roadway will be reconfigured as a parking lane, general travel lane, and protected bike lane. The proposed improvements are designed to address pavement quality issues, improve overall safety, connect to existing bikeways, and make North Galvez Street a more comfortable place to walk, bike, drive and use transit.

Public Outreach

- April 2019 - Eight meetings were held to gather public input for a citywide bicycle network in each of the five City Council Districts (340 attendees).
- July – August 2019 – Three meetings were organized to present a draft of the network plan.
- November 2020 – 7th Ward Area community meeting to discuss upcoming proposed roadway projects including bikeway implementation.

In addition to public meetings, input was received online between April and June 2019 through an online interactive bike network planning map. A total of 2,288 people commented and made recommendations.

What is Moving New Orleans?

As an initiative of Mayor LaToya Cantrell, **Moving New Orleans** is a multi-modal strategy that is focused on improving the safety, equity, efficiency and connectivity of the City's transportation network. **Moving New Orleans Bikes (MNOB)** is the first of several focused strategies to be implemented under this framework. MNOB is a joint initiative of the Mayor's Office of Transportation and Department of Public Works that is designed to accelerate the construction of a 75-mile connected low-stress bikeway network.
