

## PROJECT SUMMARY: South Galvez Street

The City of New Orleans is moving forward on safety and complete streets improvements along South Galvez Street between Martin Luther King Jr Blvd and Erato Street. Funding for this project is available from the 2016 bond program as part of the Moving New Orleans initiative.

The South Galvez Street project is approximately 2 blocks long and provides an upriver-downriver connection in Central City. The land uses along South Galvez Street is residential. While not a bus route itself, the No. 28 M. L. King line crosses South Galvez Street.

### South Galvez Street Traffic Safety Snapshot (2014 – 2018)

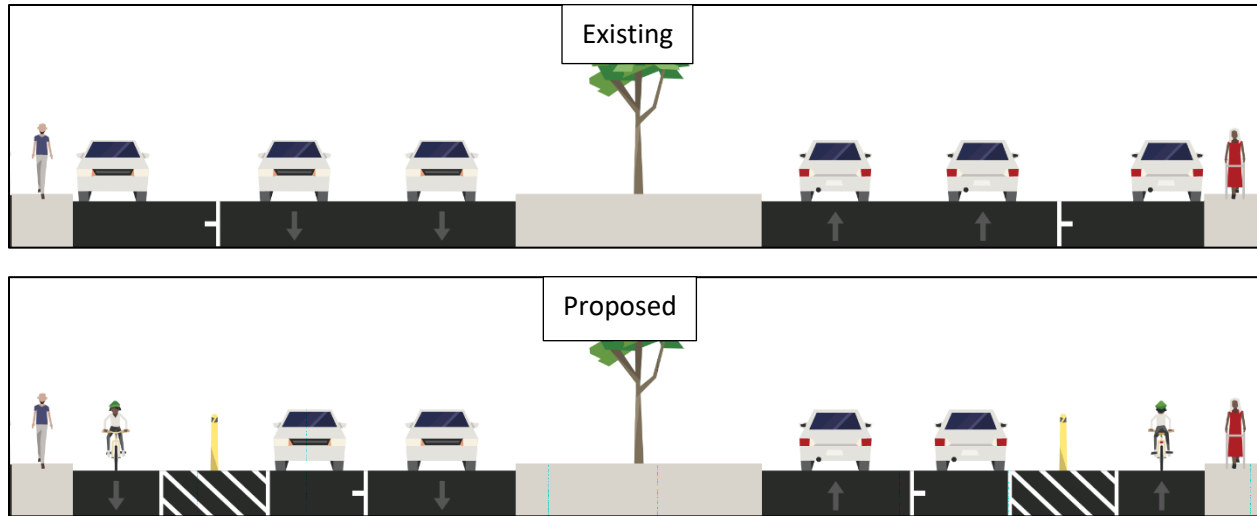

A total of 21 crashes were recorded on the portion of South Galvez Street over the five-year period (2014-2018), resulting in the injury of 13 people. Most crashes occurred at Martin Luther King Jr Blvd (13) followed by Erato Street (5). There were no crashes involving pedestrians and one crash involving a bicyclist.

### Proposed Improvements

This project seeks to balance the needs of all roadway users, consistent with the City's Complete Streets Policy. Improvements include, adding protected bike lanes, installing marked crosswalks, improving intersection geometry and sight distances. Between Martin Luther King Jr Blvd and Erato Street, the roadway will be reconfigured as a protected bike lane, parking lane, and general travel lane in each direction. The proposed improvements are designed to address pavement quality issues, improve overall safety, connect to existing bikeways, and make South Galvez Street a more comfortable place to walk, bike, drive and use transit. These improvements connect to existing bike lanes and sidewalks on S. Galvez Street between Martin Luther King Jr Blvd and Toledano Street.

## Public Outreach

- April 2019 - Eight meetings were held to gather public input for a citywide bicycle network in each of the five City Council Districts (340 attendees).
- July – August 2019 – Three meetings were organized to present a draft of the network plan.
- July 2020 – Central City/Lower Garden District community meeting to discuss upcoming proposed roadway projects including bikeway implementation.

In addition to public meetings, input was received online between April and June 2019 through an online interactive bike network planning map. A total of 2,288 people commented and made recommendations.

## What is Moving New Orleans?

As an initiative of Mayor LaToya Cantrell, **Moving New Orleans** is a multi-modal strategy that is focused on improving the safety, equity, efficiency and connectivity of the City's transportation network. **Moving New Orleans Bikes (MNOB)** is the first of several focused strategies to be implemented under this framework. MNOB is a joint initiative of the Mayor's Office of Transportation and Department of Public Works that is designed to accelerate the construction of a 75-mile connected low-stress bikeway network.
